(*ii*) *a certificate granted under section 36 or section 37 of the Administrator General's Act, 1874, and having the debt mentioned therein, or* II of 1874

(*iii*) *a certificate granted under this Act and having the debt specified therein, or*

(*iv*) *a certificate granted under Act XXVII of 1860 or an enactment repealed by that Act, or*

(*v*) *a certificate granted under the Regulation of the Bombay Code No VIII of 1827 and, if granted after the commencement of this Act, having the debt specified therein*

(*2*) The word 'debt" in sub section (*1*) includes any debt except rent, revenue or profits payable in respect of land used for agricultural purposes

Court having jurisdiction to grant certificate

5 The District Court within the jurisdiction of which the deceased ordinarily resided at the time of his death, or if at that time he had no fixed place of residence then within the jurisdiction of which any part of the property of the deceased may be found, may granta certificate under this Act

The Succession Certificate Bill

(*Sections 6-11*)

Application for certificate

6 (*1*) Application for such a certificate must be made to the District Court by a petition signed and verified by or on behalf of the applicant in the manner prescribed by the Code of Civil Procedure for the signing and verification of a plaint by or on behalf of a plaintiff and setting forth the following particulars, namely —

XIV of 1882

(*a*) the time of the death of the deceased,

(*b*) *the ordinary residence of the deceased at the time of his death and, if such residence was not within the local limits of the jurisdiction of the Court to which the application is made then the property of the deceased within those limits*

(*c*) the family *or* other *near* relatives of the deceased and their respective residences

(*d*) the right in which the petitioner claims

(*e*) the absence of any impediment under section 1, sub section (*4*), *or under any other provision of this Act or any other enactment*, to the grant of the certificate *or to the validity thereof if it were granted* and

(*f*) the debts and securities in respect of which the certificate is applied for

(*2*) If the petition contains any averment which the person verifying it knows or believes to be false, *or does not believe to be true* that person shall be subject to punishment according to the provisions of the law for the time being in force for the punishment of giving or fabricating false evidence

Procedure on application

7 (*1*) If the District Court is satisfied that there is ground for entertaining the application, it shall fix a day for the hearing thereof and cause notice of the application and of the day fixed for the hearing—

(*a*) to be served on any person to whom, in the opinion of the Court, special notice of the application should be given, and

(*b*) to be posted on some conspicuous part of the court house and published in such other manner, if any, as the Court subject to any rules made by the High Court in this behalf, thinks fit,

and upon the day fixed or as soon thereafter as may be *practicable*, shall proceed to *decide in a summary manner* the right to the certificate

[*Act XV 1859 s 28*]

(*2*) *When the Court decides the right thereto to belong to the applicant, it shall make an order for the grant of the certificate to him*

[*I L R 7 Mad 452*]

(*3*) *If the Court cannot decide the right to the certificate without determining questions of law or fact which seem to it to be too intricate and difficult for determination in a summary proceeding it may nevertheless grant a certificate to the applicant if he appears to be the person having prima facie the best title thereto*

[*W R (1864) Mis 4t and 12 W R 38 and 355*]

(*4*) *When there are more applicants than one for a certificate and it appears to the Court that more than one of such applicants are interested in the estate of the deceased, the Court may in deciding to whom the certificate is to be granted, have regard to the extent of interest, and the fitness in other respects, of the applicants*

Contents of certificate

8 When the District Court grants a certificate, it shall therein specify the debts and securities set forth in the application for the certificate and may thereby empower the person to whom the certificate is granted—

(*a*) *to receive interest or dividends on, or*

(*b*) *to negotiate or transfer, or*

(*c*) *both to receive interest or dividends on, and to negotiate or transfer,*

the securities or any of them

Requisition of *security* from grantee of certificate

9 (*1*) The District Court *shall in any case in which it proposes to proceed under section 7, sub-section* (*3*) *or sub section* (*4*), *and may in any other case*, require, as a condition precedent to the granting of a certificate that the person to whom it proposes to make the grant shall give to the Judge of the Court, to enure for the benefit of the Judge for the time being, *a bond* with one or more surety or sureties, *or other sufficient security*, for rendering an account of debts and securities received by him and for indemnity of persons who may be entitled to the whole or any part of those debts and securities

(*2*) The Court may, on application made by petition and on cause shown to its satisfaction, and upon such terms as to security, or providing that the money received be paid into Court, or otherwise as the Court thinks fit, assign the bond *or other security* to some proper person and that person shall thereupon be entitled to sue *thereon* in his own name as if it had been originally given to him instead of to the Judge of the Court, and to recover as trustee for all persons interested such amount as may be recoverable thereunder

Extension of certificate

10 (*1*) A District Court may from time to time, on the application of the holder of a certificate under this Act, extend the certificate to any debt or security not originally specified therein, and every such extension shall have the same effect as if the debt or security to which the certificate is extended had been originally specified therein

(*2*) Upon the extension of a certificate, powers with respect to the receiving of interest or dividends on, or the negotiation *or transfer* of, any security to which the certificate has been extended may be conferred, *and a bond or further bond or other security* for the purposes mentioned in *the last foregoing* section may be required, in the same manner as upon the original grant of a certificate

Forms of certificate and extended certificate

11 Certificates shall be granted and extensions of certificates shall be made, as nearly as circumstances admit, in the forms set forth in the second schedule

The Succession Certificate Bill
(Sections 12-14)

Amendment of certificate in respect of powers as to securities

12 Where a District Court has not conferred on the holder of a certificate any power with respect to a security specified in the certificate, or has only empowered him to receive interest or dividends on, *or to negotiate or transfer*, the security the Court may, on application made by petition and on cause shown to its satisfaction, amend the certificate by conferring *any* of the powers mentioned in section 8, or by substituting *any one for any other of those powers*

Amendment of Act VII, 1870

13 (*1*) For *articles* 11 and 12 of the *first* schedule to the Court fees Act, 1870, the following shall be substituted, namely —

Number		Proper fee
"11 Probate of a will or letters of administration with or without will annexed	If the amount or value of the property in respect of which the grant of probate or letters is made exceeds one thousand rupees	Two per centum on such amount or value provided that when, after *the grant of a* certificate under the Succession Certificate Act, 1889, or any enactment repealed by that Act, *or under the Regulation of the Bombay Code No VIII of 1827,* in respect of any property included in an estate, a grant of probate or letters of administration is made in respect of the same estate, the fee payable in respect of the latter grant shall be reduced by the amount of the fee paid in respect of the former grant
"12 Certificate under the Succession Certificate Act, 1889	In any case	Two per centum on the amount or value of any debt or security specified in the certificate under section 8 of the Act and three per centum on the amount or value of any debt or security to which the certificate is extended under section *10* of the Act NOTE —(*1*) The amount of a debt is its amount, including interest, on the day on which the inclusion of the debt in the certificate is applied for, so far as such amount can be ascertained (*2*) Whether or not any power with respect to a security specified in a certificate has been conferred under the Act and where such a power has been so conferred whether the power is for the receiving of interest or dividends on, or for the negotiation *or transfer* of, the security, *or for both purposes*, the value of the security is its market value on the day on which the inclusion of the security in the certificate is applied for, so far as such value can be ascertained
12A Certificate under the Regulation of the Bombay Code No VIII of 1827		(*1*) *As regards debts and securities, the same fee as would be payable in respect of a certificate under the Succession Certificate Act, 1889, or in respect of an extension of such a certificate, as the case may be, and* (*2*) *as regards other property in respect of which the certificate is granted, two per centum on so much of the amount or value of such property as exceeds one thousand rupees*"

(*2*) *In the Court fees Act, 1870, section 19, clause viii, for the words and figures 'and certificate mentioned in the First Schedule to this Act annexed, No 12" the words and figures "and, save as regards debts and securities, a certificate under Bombay Regulation VIII of 1827" shall be substituted* VII of 1870

Mode of collecting court fees on certificates

14 (*1*) Every application for a certificate or for the extension of a certificate must be accompanied by a deposit of a sum equal to the fee payable under the first schedule to the Court fees Act, 1870, in respect of the certificate or extension applied for VII of 1870.

The Succession Certificate Bill

(Sections 15 23)

(2) If the application is allowed the sum deposited by the applicant shall be expended under the direction of the Court in the purchase of the stamp to be used for denoting the fee payable as aforesaid

(3) Any sum received under sub section (1) and not expended under sub section (2) shall be refunded to the person who deposited it

Local extent of certificate

15 A certificate under this Act shall have effect throughout the whole of British India

Effect of certificate

16 Subject to the provisions of this Act the certificate of the District Court shall with respect to the debts and securities specified therein, be conclusive *as against the persons owing such debts or liable on such securities* and shall notwithstanding any contravention of section 4, sub section (4) or other defect, afford full indemnity to all *such persons as regards all payments made or dealings had in good faith in respect of such debts or securities to or with the person to whom the certificate was granted*

Effect of certificate granted or extended by British representative in Foreign State

17 Where a certificate in the form, as nearly as circumstances admit, of the second schedule has been granted to a resident within a Foreign State by the British representative accredited to the State or where a certificate so granted has been extended in such form by such representative the certificate shall when stamped in accordance with the provisions of the Court fees Act, 1870, with respect to certificates under this Act, have the same effect in British India as a certificate granted or extended under this Act

VII of 1870

Revocation of certificate

18 *A certificate granted under this Act may be revoked for any of the following causes namely* —

(a) *that the proceedings to obtain the certificate were defective in substance*

(b) *that the certificate was obtained fraudulently by the making of a false suggestion or by the concealment from the Court of something material to the case*

(c) *that the certificate was obtained by means of a untrue allegation of a fact essential in point of law to justify the grant thereof though such allegation was made in ignorance or inadvertently*

(d) *that the certificate has become useless and inoperative through circumstances*

(e) *that a decree or order made by a competent Court in a suit or other proceeding with respect to effects comprising debts or securities specified in the certificate renders it proper that the certificate should be revoked*

Appeal

19 (1) *Subject to the other provisions of this Act an* appeal shall lie to the High Court from an order of a District Court granting refusing or revoking a certificate under this Act, and the High Court may if it thinks fit by its order on the appeal, declare the person to whom the certificate should be granted and direct the District Court, on application being made therefor, to grant it accordingly, in supersession of the certificate, if any already granted

(2) *An appeal under sub section (1) must be preferred within the time allowed for an appeal under the Code of Civil Procedure* XIV of 1882

(3) Subject to the provisions of sub section (1) and of Chapters XI VI and XLVII of the Code of Civil Procedure as applied by section 647 of that Code, an order of a District Court under this Act shall be final

Effect on certificate of previous certificate, probate or letters of administration

20 Save as provided by this Act a certificate *granted* thereunder in respect of *any of the effects of a deceased person* shall be invalid if *there has been a previous grant of* such a certificate *or* of probate or letters of administration in respect of the estate *of the deceased person and if such previous grant is in force*

Effect on certificate of subsequent probate or letters of administration

21 (1) A grant of probate or letters of administration under the Probate and Administration Act, 1881 in respect of an estate shall be deemed to supersede any certificate previously granted under this Act in respect of any debts or securities included in the estate V of 1881

(2) When at the time of the grant of the probate or letters any suit or other proceeding instituted by the holder of the certificate regarding any such debt or security is pending the person to whom the grant is made shall on applying to the Court in which the suit or proceeding is pending be entitled to take the place of the holder of the certificate in the suit or proceeding

Validation of certain payments made in good faith to holder of invalid certificate

22 Where a certificate under this Act has been superseded or is invalid by reason of the *certificate having been revoked under section 18, or by reason of the* grant of a certificate to a person named in an *appellate* order under section 19 or by reason of a certificate having been previously granted, or by reason of a grant of probate or letters of administration, *or for any other cause* all payments made, *or* dealings had, *as regards debts and securities specified in the superseded or invalid certificate to or with* the holder of *that* certificate in ignorance of its supersession or invalidity shall be held good against claims under any other certificate or under the probate or letters of administration

Prohibition of exercise of certain powers by curators

23 (1) Where a certificate has been granted under this Act or *Act XXVII of 1860* or a grant of probate or letters of administration has been made, a curator appointed under Act XIX of 1841 shall not exercise any authority lawfully belonging to the holder of the certificate or to the executor or administrator

(2) But persons who have paid debts or rents to a curator authorized by a Court to

The Succession Certificate Bill

(Sections 24-28)

receive them shall be indemnified, and the curator shall be responsible for the payment thereof to the person who has obtained the certificate, probate or letters of administration, as the case may be

Effect of certain probates and letters

24. Any probate or letters of administration granted before the first day of April, 1881, by any Supreme or High Court of Judicature *or by the Court of a Recorder in Burma* in any case in which the deceased person was not a British subject within the meaning of *that expression as used in the charters of the Supreme Courts of Judicature* and *in which* any assets belonging to him were at the time of his death within the local limits of the jurisdiction of the Court shall for the purpose of the recovery of debts the protection of persons paying debts, and the negotiation *or transfer* of securities included in the estate of the deceased, be deemed to have and to have had the effect which a grant of probate or letters of administration has under the Indian Succession Act, 1865

X of 1865

Provided that nothing in this section shall be construed to validate any disposal of property by an executor or administrator which has before the commencement of this Act been declared by any competent Court to be invalid

[I. L. R. 12 I. A. 23]

Effect of decisions under this Act and liability of holder of certificate thereunder

25. No decision under this Act upon any question of right between any parties shall be held to bar the trial of the same question in any suit or in any other proceeding between the same parties and nothing in this Act shall be construed to affect the liability of any person who may receive the whole or any part of any debt or security *or any interest or dividend on any security*, to account therefor to the person lawfully entitled thereto

[Act XIV of 1882 s. 360]

Investiture of inferior Courts with jurisdiction of District Court for purposes of this Act

26. (1) *The Local Government may, by notification in the official Gazette invest any Court inferior in grade to a District Court with the functions of a District Court under this Act and may cancel or vary any such notification*

(2) *Any inferior Court so invested shall, within the local limits of its jurisdiction have concurrent jurisdiction with the District Court in the exercise of all the powers conferred by this Act upon the District Court and the provisions of this Act relating to the District Court shall apply to such an inferior Court as if it were a District Court*

Provided that an appeal from any such order of an inferior Court as is mentioned in sub section (1) of section 10 shall lie to the District Court, and not to the High Court and that the District Court may, if it thinks fit by its order on the appeal make any such declaration and direction as that sub section authorises the High Court to make by its order on an appeal from an order of a District Court

(3) *An order of a District Court on an appeal from an order of an inferior Court under the last foregoing sub section shall subject to the provisions of Chapters XLVI and XLVII of the Code of Civil Procedure as applied by section 647 of that Code, be final*

XIV of 1882

(4) *The District Court may withdraw any proceedings under this Act from an inferior Court and may either itself dispose of them or transfer them to another such Court established within the local limits of the jurisdiction of the District Court and having authority to dispose of the proceedings*

(5) *A notification under sub section (1) may specify any inferior Court specially or any class of such Courts in any local area*

(6) *Any Civil Court which for any of the purposes of any enactment is subordinate to, or subject to the control of a District Court shall for the purposes of this section be deemed to be a Court inferior in grade to a District Court*

[Act XVII of 1870 ss. 26 and 33]

Surrender of superseded and invalid certificates

27. (1) *When a certificate under this Act has been superseded or is invalid from any of the causes mentioned in section 22, the holder thereof shall on the requisition of the Court which granted it deliver it up to that Court*

(2) *If he wilfully and without reasonable cause omits so to deliver it up, he shall be punished with fine which may extend to one thousand rupees or with imprisonment for a term which may extend to three months or with both*

Provisions with respect to certificates under Bombay Regulation VIII of 1827

28. *Notwithstanding anything in the Regulation of the Bombay Code No VIII of 1827, the provisions of section 3, section 6, sub section (1), clause (f) and sections 8, 9 10 11, 12, 14 16, 18, 19 25, 26 and 27 of this Act with respect to certificates under this Act and applications therefor, and of section 98 of the Probate and Administration Act, 1881, with respect to the exhibition of inventories and accounts by executors and administrators, shall, so far as they can be made applicable apply, respectively to certificates granted under that Regulation, and applications made for certificates thereunder after the commencement of this Act, and to the exhibition of inventories and accounts by the holders of such certificates so granted*

The Succession Certificate Bill

(The First Schedule —Enactments repealed) (The Second Schedule — Forms of certificate and extended certificate)

THE FIRST SCHEDULE

ENACTMENTS REPEALED

(*See section 2*)

Number and year	Subject or title	Extent of repeal
Acts of the Governor General in Council

Debates of the Legislative Council of His Excellency the Governor General

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC, CAP 67

The Council met at Government House on Friday, the 8th February, 1889

PRESENT

His Excellency the Viceroy and Governor General of India, G C M G, G M S I, G M I E, *presiding*
His Honour the Lieutenant Governor of Bengal, K C S I, C I E
The Hon'ble Lieutenant General G T Chesney, C B, C S I, C I E, R E
The Hon'ble A R Scoble, Q C, C S I
The Hon'ble Sir C A Elliott, K C S I
The Hon'ble P P Hutchins, C S I
The Hon'ble Sir D M Barbour, K C S I
The Hon'ble J W Quinton, C S I
The Hon'ble R Steel
The Hon'ble Sir Dinshaw Manockjee Petit, Kt
The Hon'ble F M Halliday
The Hon'ble Sir Pasupati Ananda Gajapati Razu, K C I E, Maháráj of Vizianagram
The Hon'ble Syud Ameer Hossein, C I E
The Hon'ble Raja Durga Charn Laha, C I E
The Hon'ble Maung Ôn, C I E, A T M

MERCHANDISE MARKS BILL

The Hon'ble MR SCOBLE presented the Report of the Select Committee on the Bill to amend the Law relating to Fraudulent Marks on Merchandise

MADRAS CORONER'S BILL

The Hon'ble MR HUTCHINS presented the Report of the Select Committee on the Bill to abolish the Office of Coroner of Madras

BURMA VILLAGE BILL

The Hon'ble MR HUTCHINS also presented the Report of the Select Committee on the Bill to provide for the Establishment of a Village system and amend the Law relating to Rural Police in Lower Burma

PORTS BILL

The Hon'ble SIR DAVID BARBOUR moved that the Bill to consolidate and amend the law relating to Ports and Port-charges be referred to a Select Committee consisting of the Hon'ble Mr Scoble, the Hon'ble Mr Quinton, the Hon'ble Mr Steel, the Hon ble Sir Dinshaw Manockjee Petit, the Hon'ble Mr Halliday and the Mover, with instructions to report within four weeks He said —"When I had the honour of introducing this Bill at the last meeting of Council, the Hon'ble Mr Steel urged that port dues should be devoted to the specific purpose of providing facilities for trade and should not be merged in the general revenues I said at the time that I entirely agreed with him on this point, and that to the best of my knowledge and belief port dues actually were disposed of in the way he suggested, and not in any other way

"It will be convenient if I now explain the provision made in the present Bill for ensuring that port dues shall be expended in a proper manner and for proper purposes

"Under section 35, sub section (*1*), of the Bill the Local Government is required to appoint some officer or body of persons at every port to receive the fees and dues, and, subject to the control of the Local Government, to expend them on the objects authorised by the Bill A list of these objects is given in sub section (*5*) of the same section, and it seems to me that the list of objects there given is a very proper and reasonable list, but I shall be prepared to consider any suggestions which my hon'ble friend may make for its amend ment Not merely must the port dues and fees be expended on legitimate purposes only, but the accounts both of the receipts and expenditure must, according to the provisions of the Bill, be published every year in the Gazette

"So far I think no fault can be found with the proposed legislation, which proceeds substantially on the lines of the existing law If there are any evils which require a remedy, such evils do not arise from any error or omission of the legislature, which seems to me to have made reasonable provision for the needs of the case, but must be due to defects in the method of administering the law Now, the Hon'ble Mr Steel called attention to the case of the minor ports on the Madras coast, and I understand from his remarks that he had doubts whether the port dues raised in those ports were spent on legitimate objects I believe I am right in saying that my hon'ble friend has no personal knowledge of the condition of those ports, or of the manner in which the port dues are spent, and I must admit that I am in the same position, having only this advantage that I have access to the public documents and accounts connected with the port funds But I have looked through the papers which are available in Calcutta and I can find no evidence that the port dues of the minor ports on the Madras coast have been spent otherwise than for legitimate purposes sanctioned by the law There are no doubt difficulties connected with the levy of port dues on coasting and other steamers at these minor ports, and also in connection with the distribution of the dues among the different ports of the same group, and these difficulties have formed the subject of much discussion and correspondence, but all the evidence that I have been able to obtain shows that port dues have never been diverted from the purposes to which they may legitimately be applied in accordance with the law

"It is true, as my hon'ble friend remarked, that the tonnage of vessels calling at these ports has largely increased in recent years, but the group rate of port dues was reduced in 1885 from 4½ annas a ton to 3 annas a ton, or by 33 per cent, and I find that in recent years the total expenditure has rather exceeded the receipts than fallen short of them The schedule of port dues for the Madras ports is now under the consideration of the Madras Government, and, before it is finally embodied in the Bill, my hon'ble friend will have every opportunity as a member of the Select Committee on the Bill to propose any modifications or additions which he may consider necessary

"As the draft Bill is chiefly a consolidating Bill, and as it has already been considered by the maritime Governments and their advisers, official and non

official, I think the Select Committee may reasonably be requested to report within four weeks"

The Hon'ble MR STEEL said —"I have heard with satisfaction from the speech of my hon'ble friend that the Government recognises the principle that port dues should be applied to the specific purpose of providing local facilities for trade, and that the Bill now before us contains provisions which are designed to enforce that condition The hon'ble member has promised to supply the Select Committee with full information, and in doing so he has complied with the request which I made at the last meeting of the Council I am bound to say that the information supplied to me by parties engaged in the coasting trade is not borne out by the statement which has been made to us at present There must be some mistake or misunderstanding somewhere, but the Select Committee will by examination of the papers supplied to them be able to elucidate the facts, and, as we have all one common object in view, I have no doubt that the recommendations of the Select Committee will command public approval"

The Hon'ble MR HUTCHINS said —"As the observations made by the Hon'ble Mr Steel appear to refer chiefly to the Madras Presidency, I should like to say a few words of explanation The hon'ble member seemed to think that some portion of the dues levied at the Madras ports was diverted to purposes unconnected with the ports I can assure the Council that this is not so The present law states with distinctness the purposes to which alone port funds can be appropriated, and all proposals to expend such funds must necessarily be scrutinised with regard to the definition of those purposes There was, however, under an old Act—passed I think about 1864—a general port fund, and, owing to some misapprehension on the part of the late Port officer, this general fund was kept up after that enactment had been repealed It was hardly more than a technical error, as all that was necessary to preserve the common fund under Act XII of 1875 was a notification which at that time the Government would certainly have been ready to grant It is possible that some moneys, certainly no considerable sum, which should have gone to the credit of particular ports have in consequence of this error been diverted to other ports or stand to the credit of the general fund The mistake was discovered about eighteen months ago, and the Government thereupon ordered the accounts for a large number of years—I think it was eight years—to be re written on the proper legal basis Again, it was explained by Sir David Barbour last week that the Madras ports are divided into groups for the purpose of levying fees The fee is levied at the first port of the group touched at and clears all ports in the same group for a certain number of days This arrangement naturally gives an advantage to the extreme ports of a group, but in the new accounts this also has been set right, and all the fees levied in a group distributed according to the tonnage entering each port As to the very small ports referred to by the hon'ble member, these are only kept up for small native craft, and I can hardly imagine that they ever see such a thing as a steamer Certainly no steamer would visit them which had not visited and paid fees at some larger port in the same group The earnings of these ports are infinitesimal, but, such as they are, they are all spent on the ports themselves and on no other purpose than those enumerated in the Act I understand the hon'ble member to be under the impression that the port of Madras may be unduly favoured at the expense of the outports This is certainly not the case I am not sure that the new accounts have yet been published or even finally adjusted, but I know the results brought out a much larger balance to the credit of Madras than appeared before"

The Motion was put and agreed to

The Council adjourned to Friday, the 15th February, 1889

MEASURES OF LENGTH BILL

The Hon'ble MR SCOBLE moved that the Report of the Select Committee on the Bill to declare the imperial standard yard for the United Kingdom to be the legal standard measure of length in British India be taken into consideration He said —

"This Bill has undergone very little modification at the hands of the Select Committee, the most important alteration being that the date of its coming into force is left to be fixed by the Governor General in Council, in consequence of the standards, ordered from England, not having yet arrived When received, a copy of the standard will be kept in Calcutta, and measures certified, under the authority of the Governor General in Council or of a Local Government, to correspond to the lengths marked thereon, will as soon as possible be available for use throughout British India

"As this Bill is confessedly ancillary to the Bill now before the Council to amend the law relating to fraudulent marks on merchandise, the Select Committee did not consider it desirable to extend its scope to measures of land So far as it carries out the limited purpose which it is intended to serve, it has met with general acceptance"

The Motion was put and agreed to

The Hon'ble MR SCOBLE also moved that the Bill, as amended, be passed

The Motion was put and agreed to

PROBATE AND ADMINISTRATION BILL

The Hon'ble Mr SCOBLE also presented the Report of the Select Committee on the Bill to amend the Indian Succession Act, 1865, the Probate and

Administration Act, 1881, and the Court fees Act, 1870, and to make provision with respect to certain other matters He said —

"As the matters with which this Bill deals are of a somewhat technical character, I will, with Your Excellency's permission, briefly state the effect of the amendments which have been introduced by the Select Committee

"The primary object of the Bill is to give native executors and administrators in India the same power of dealing with a deceased person's estate as executors and administrators have in England 'It is a general rule of law and equity,' says Sir E Vaughan Williams, in the book which is the standard authority on the subject, 'that an executor or administrator has an absolute power of disposal over the whole personal effects of his testator or intestate,' and it is manifestly convenient that it should be so An executor or administrator, in most cases, must sell in order to perform his duty in paying debts and other charges, and no one would deal with him if liable afterwards to have the transaction questioned

"In India, however, it was thought desirable that the consent of the Court which granted the probate or letters of administration should be obtained before the property of the deceased could be disposed of When introducing this Bill in August last I pointed out the illusory character of this supposed safeguard, and that it tended rather to promote litigation than to afford effectual protection to those beneficially interested in the estate The Judges of the High Courts at Madras, Bombay and Allahabad, and of the Chief Court of the Punjab, approve of the proposed legislation, but the Judges of the High Court at Calcutta, while willing to give the executor or administrator full power to alienate moveable property generally, consider that the law as it at present stands, so far as it relates to the disposal of immoveable property, should remain unchanged, and that 'Government promissory notes, shares in public companies, &c, which are of the nature of permanent investments' should stand on the same footing as immoveable property

"The Select Committee were unable to accept this view Government promissory notes are probably more easily disposed of than any other form of moveable property, and by selling them an executor or administrator can readily put himself in funds to meet the necessary expenses of his position, while it is often desirable that an executor or administrator should free the estate, without loss of time, of the liability attaching to the holding of shares in public companies, or should be able to take advantage of a favourable opportunity of realising them As regards the disposal of immoveable property, the power of an executor is left subject to any restriction imposed on him by the will, unless he is relieved from that restriction by an order of the Court, and an administrator may not, without the previous permission of the Court, mortgage, charge or transfer by sale, gift, exchange or otherwise any immoveable property vested in him or lease any such property for a term exceeding five years It appeared to the Select Committee that these provisions give all requisite security against waste

"But while thus leaving executors and administrators a freer hand in these respects, the Bill renders more strict the provisions of the law with regard to the filing of inventories and accounts, and materially strengthens the power of the Court to deal with neglect or failure to furnish them, and to punish fraud or falsehood in regard to them Other sections provide that, when a grant of probate or letters of administration is revoked or annulled, the probate or letters shall at once be delivered up to the Court which made the grant, so as to prevent any improper use being made of them thereafter

"In introducing the Bill I referred to the doubt which existed as to the stamp to which an administration bond is liable That doubt has since been converted into a certainty by a decision of the High Court at Allahabad, which has held that such instruments must, as the law stands, be stamped under the Stamp Act and also under the Court fees Act This is obviously unfair, and the Select Committee recommends that in future they shall be chargeable with duty under the Stamp Act only

"There is one other matter in the amended Bill to which I think it necessary to draw attention It was brought to my notice by the Administrator

General of Madras that section 283 of the Succession Act, which provides that, 'if the domicile of the deceased was not in British India, the application of his moveable property to the payment of his debts is to be regulated by the law of the country in which he was domiciled,' was not only bad law, but very burdensome when applied to the small estates left by Europeans who may die in this country, the whole or great part of the assets being exhausted in the enquiry as to domicile rendered necessary by this section The rule is based on a decision of Sir John Romilly, when Master of the Rolls in 1854, which has not been followed by later authorities In the recent case of *In re Kabe* (L R 28 Ch D 175) Mr Justice Pearson expressly dissented from it, and quoted with approval as the true rule, that laid down by Mr Westlake in his work on Private International Law —'Every administrator must apply the assets reduced into possession under his grant in paying all the debts of the deceased, whether contracted in the jurisdiction from which the grant issued or out of it, and whether owing to creditors domiciled or resident in that jurisdiction or out of it, in that order of priority which, according to the nature of the debts or of the assets, is prescribed by the laws of the jurisdiction from which the grant issued' In other words, Indian assets must be distributed according to the law of India This is the rule of common sense, and the Select Committee has adopted it in section 9 of the amended Bill"

SUCCESSION CERTIFICATE BILL

The Hon'ble SIR DAVID BARBOUR presented the Report of the Select Committee on the Bill to facilitate the collection of debts on successions and afford protection to parties paying debts to the representatives of deceased persons

LOWER BURMA COURTS BILL

The Hon'ble MR SCOBLE moved that the Hon'ble Mr Hutchins, the Hon'ble Mr Quinton and the Hon'ble Maung Ôn be added to the Select Committee on the Bill to consolidate and amend the law relating to Courts in Lower Burma He said —

"Under ordinary circumstances I should make this Motion as a matter of routine, but, the circumstances being special, I think it desirable to explain to the Council the course which, with Your Excellency's permission, I propose to take in regard to this Bill

"It was introduced by me on the 11th of February, 1887, and referred to a Select Committee consisting of the Hon'ble Messrs Peile and Whiteside and myself on the 24th of the same month That Committee never met, and I am the only member of it now remaining in Council The Bill can therefore be taken in hand by the Committee which I now propose, unfettered by any action on the part of their predecessors

"The enquiries which have been made during the period which has elapsed since the introduction of the Bill have satisfied me that in its present shape it is not adapted to the requirements of Lower Burma and that the establishment of a Chief Court in that province would be premature The litigation is not sufficient in volume or in importance to call for such a tribunal, and it will be early enough to consider its necessity when the judicial organization of Upper and Lower Burma has been placed on the same footing, and there is sufficient business to occupy the time of a Court of four Judges Meanwhile the existing establishment appears to be more than ample, and, with certain improvements of distribution and procedure, quite competent to carry on the administration of civil and criminal justice to the satisfaction of the public

"The proposals which I shall submit to the Committee have the approval of the Chief Commissioner of Burma and of other officers of experience in that province They are also, I think, in accordance with what I found to be the prevailing opinion in Rangoon, the town which is principally affected by them If accepted by the Select Committee, they will involve a considerable departure from the lines of the Bill as originally introduced, and a return to those of the Act of 1875, with such modifications and additions as the experience of four-

teen years' working has been able to suggest In framing these proposals I have been guided by a desire to make the administration of justice simple and efficient, by remedying ascertained defects rather than by establishing a new system in excess of existing requirements, and thus entailing upon the province great expense without corresponding advantage I hope soon to be able to lay the amended Bill before the Council, so that it may be published and submitted to general criticism without delay"

The Motion was put and agreed to

NORTH WESTERN PROVINCES AND OUDH KANUNGOS AND PATWARIS BILL

The Hon'ble MR QUINTON moved for leave to introduce a Bill to authorise the imposition of a patwari rate in the North Western Provinces and Oudh, and make certain provisions respecting Kanungos and patwaris in those Provinces He said —

"My hon'ble friend the Finance Member will doubtless, when the proper occasion arrives, explain to the Council with greater fulness than I could do, and with an authority which I cannot claim, the reasons which have forced the Government of India, notwithstanding the recent revision of the imperial and local finances by the Finance Commission, to call on the Local Governments either to contribute next year from the balances which are now to their credit on the basis of the contracts made only two years ago, or in some other adequate form to give assistance to the imperial treasury I shall confine myself today to the task of showing the mode in which the North Western Provinces and Oudh Government proposes to meet this demand, and to ask for sanction to the legislation necessary to give effect to those proposals

"It will be in the recollection of hon'ble members that in 1882 the Government of India found itself in a position to remit three millions of taxation In considering the interests and classes to which relief might be afforded the Government of India came to the conclusion that a reduction of taxation was called for in the North Western Provinces and Oudh Major Baring, the then Finance Member, stated that a careful examination of the economic condition of the people of the various provinces of India showed that there were but slight signs of improvement in the mass of the people in the North Western Provinces and Oudh during the preceding ten years, and proceeded to fortify his views by an examination of license tax statistics Relief was accordingly given to the North Western Provinces and Oudh in the form recommended by Sir George Couper, the Lieutenant Governor at that time The patwari rate in the North-Western Provinces was remitted, and the charges for the payment of kanungos and patwaris there, as well as in Oudh, were thrown upon provincial funds The financial effect of this was to render the Government liable for a charge of over 30 lakhs of rupees which had hitherto been borne by the landlords and, in many cases, by the tenants of the united provinces

"The Government of India acted to the best of their judgment on the information then before them and on the advice of the Local Governments, though some exception was taken in the debate on the Bill to give effect to the proposals by Sir Charles Crosthwaite, a very high authority on all revenue questions He objected to the form in which relief was afforded, on the grounds that it was unlikely to reach the persons for whose benefit it was intended, namely, the cultivators and actual occupants of the soil Objection might have been equally taken on other grounds, such as that the payment was for service directly rendered to landlords or tenants, and was therefore not one with which the Government was called on to burden the general tax payer The measure in point of fact, mainly for those reasons, has never gained approval in the Upper Provinces The proposal, however, became law, and since 1882 landlords in the North-Western Provinces and Oudh have had to incur no charge on account of patwaris The form which was assumed by this relief must have been to them a matter of surprise, for, as I have just said, the charges to which they were liable on account of patwaris was in no sense a tax for the benefit of the public exchequer, but a payment for services rendered Nor was the burden one recently imposed

In the year 1793, Regulation VIII required every proprietor of land, who had not already done so, to establish a patwari in each village of his estate to keep the accounts of the raiyats These provisions were extended to the province of Benares by Regulation XXVII of 1795, and in 1803 to the ceded provinces Regulation XII of 1817 superseded these enactments, but renewed the obligation and laid down more explicit directions respecting the appointment and duties of the patwari and the liability for his remuneration This law remained in force in the North Western Provinces until 1873, and so long ago as 1855 the zamindárs at the North Western Provinces settlements engaged to pay a cess of 3 per cent on the rental of their estates, for the remuneration of patwaris, which was paid up to 1882 In Oudh, where Regulation XII of 1817 was in force till 1876, the liability of landlords for the payment of patwaris was enforced up to the same time as in the North Western Provinces The Land Acts for the North Western Provinces of 1873, and for Oudh of 1876, made no change in this liability

"In 1884 an enquiry was made by Sir Alfred Lyall as to the extent to which the relief from payment for patwaris had reached the tenants for whose benefit it was intended, and it was ascertained that, except in the permanently-settled districts and in a few isolated cases in other districts, the contributions to the patwari cess formerly paid by tenants had long previously been amalgamated with the rent under the Settlement Rules of 1855 or Land revenue Act of 1873, and that it was impossible to resolve rents then existing into their component parts, so as to be able to say what portion of the rent was to be remitted on account of the abolished cess This clearly showed that in the North Western Provinces the relief given to the tenants by the legislation of 1882 was but partial, and the present Lieutenant Governor is of opinion that very much the same may be said in regard to Oudh The remission of the patwari cess proved a benefit to the landlords and taluqdárs of the North Western Provinces and Oudh, whose position has been one of increasing prosperity owing to the excellent seasons the country has enjoyed during the last five years and the great stimulus to the export trade in food grains, but it is very difficult to maintain, because it is almost impossible to furnish proof that in any material degree it reached the tenants for whose advantage it was designed The matter may be summed up by saying that the concession, which was in itself, to put it in its mildest form, questionable, not only cannot be shown to have benefited those for whose relief it was intended but is known in many cases to have failed to do so

"From an administrative point of view the change made is also open to serious objection In the North Western Provinces, since 1873, the proceeds of the patwari cess constituted a fund appropriated to certain specific objects, which carried forward its balances from year to year and was unaffected by the fluctuations in the annual provincial budgets It expanded with the growth of the land revenue and afforded a stable basis for improvement in the kanungo and patwari establishments throughout the provinces The importance of the efficiency of these establishments both to the rural community and the general tax payers is well set out in an extract of a letter from Mr Benett, then Director of Agriculture and Commerce, now Officiating Chief Secretary to Government, North Western Provinces, addressed to the Board of Revenue in 1883 —

'Whatever his faults may be, the patwari is now the mainstay of order in the rural community, and the chief protection which the tenant has against illegal exactions If we once destroy his efficiency as a village accountant, we shall deliver more than two-thirds of the population of these provinces into a condition very nearly resembling anarchy The second consequence would be that we should lose the safe and simple guide of the rents which are actually paid in assessing the land revenue The subject is too complicated to enter into minutely, but it may safely be said that for Government to be driven to wholly theoretical calculations in determining the amount to which it is entitled from the land would be an evil of the first magnitude both to itself and to the people, and that if the guide furnished by rent were ever lost, it would eventually be compelled, after ineffectual and disastrous efforts to escape the result, to sacrifice all further share in a continually increasing source of revenue

'The second part of his work, that is, the maintenance of correct maps and record-of rights, is in fact hardly less indispensable The only alternative to his doing it is that

it should be done periodically by Government It is not necessary only in temporarily-settled tracts for the purposes of the revision of the revenue, but, as is shown by the surveys now in progress, it is equally unavoidable in the permanently settled districts The advantages of getting it done by the regular patwari staff are simply incalculable In the first place, it avoids the periodical intrusion of a host of amins and the unhinging of all current relations which are bad enough evils in permanently settled districts, but which are infinitely aggravated in temporarily settled districts by the fear of a revision of the revenue which checks cultivation and promotes the wholesale bribery of every subordinate who is supposed to be able to affect the result In the second place, it maintains the record at a uniform pitch of correctness, whereas the renewals of it formerly in use could only occur at the oftenest once in thirty years, and in the meantime the record kept on growing more and more inaccurate till, when the time for renewal came round, it had become to all intents useless and every succeeding stage of deterioration meant more litigation for the people and increased difficulty to the revenue administration The third advantage is perhaps the most obvious, but great though it unquestionably is, it may perhaps be doubted whether it is as great as the two already mentioned—that is the saving of expense If the patwaris maintain the maps and record of rights, the whole of the cost of their preparation at a new settlement is saved

'The cost of making a regular revision of the record of rights and survey is extremely high The late settlement of the temporarily settled districts cost more than one and a half million sterling and is good for only thirty years If capitalized at 4 per cent compound interest for that period it represents a charge to the State of more than four millions sterling The survey of the permanently settled districts has cost, I believe, about R170 to the square mile—a rate which, if applied to the whole province, would amount to nearly one and a half million sterling This is the cost of a survey where there is no revision of revenue, and it must recur periodically unless the papers are systematically kept up by the regular staff The whole of this enormous expense is avoided if the maps and records are maintained by the patwaris, and not only does the work then cost Government absolutely nothing but, as has been already shown, it is done in a way which makes it answer its purpose much better'

"Subsequent enquiries have shewn that the actual cost of the late revisions of settlement was greater than what had been estimated by the Director of Agriculture five years ago, and that the capital charge of a revision on the former method for both permanently and temporarily settled districts combined would be at least two and a half millions sterling

"The Government of India and the Secretary of State have now fully adopted the policy of basing temporary settlements on the actual rentals of the estates for the ascertainment of which the correctness of the patwaris' records is essential, and in the Meerut Division, where this policy is for the first time being put into practice, the cost has already been reduced to less than a quarter of what it would have been under the old system, while the duration of the proceedings has been shortened in almost the same proportion There is, moreover, reason to expect that half of even the present low average charge might be avoided if Government were in a position to make the patwari staff (which must in any case be maintained for the ordinary purposes of administration) fully efficient Another and most important consideration is that in Oudh this Council in 1886 conferred upon the tenants of that province statutory tenures for the maintenance or accrual of which the same records form the chief evidence The efficiency in these establishments, so all important from different points of view, is now endangered by the change made in 1882 In the North Western Provinces it is calculated that to bring the pay of every patwari up to R7—the minimum required, in the opinion of those best able to judge, to secure a competent man—would require nearly 1½ lakhs of rupees, and the cost of these establishments must obviously increase *pari passu* with the spread of cultivation, and the sub-division of estates, of fields and of cultivating tenures which accompanies increased cultivation Had the fund as formerly constituted continued in existence, these demands would have been gradually and fully met by the natural increase of the assets of the fund, but the substitution for the fund of an annual grant from provincial revenues has effectually precluded all hope of improvement The state of the provincial finances will not admit of progressive expenditure on the pay of patwaris or other not less important objects connected with this branch of the administration, and especially in view of the dangers which continue to overhang the finances of the Empire for some time to come, the strictest economy will be necessary in order to enable the Local Government to ensure to itself financial equilibrium

"In Oudh it was supposed that the Act of 1882 would tend to greater efficiency in the patwaris by enabling Government to exercise a much stricter control than was admitted by the then existing law over their appointment and their conduct in the discharge of their duties But it was found inexpedient abruptly to break the ties which at that time bound the patwari to the taluqdar, and objections, to which the Local Government felt bound to yield, have resulted in the patwari, while he is paid by Government, being less directly under Government control than was contemplated when the Act was passed

"The following passage from a minute of Sir Auckland Colvin on the subject illustrates the point of view from which I am asking the Council to consider it —

'In view of the fact that one of the first decisions to which I have been compelled to come has involved negativing any improvement to the material position of the patwari though knowing the important part which he plays in the fiscal machinery of the Government and in the economic life of the landlord and tenant it seems to me a lesser evil that a class of men to whom the relief from taxation has come by a side door should suffer than that an important body of public servants should be left without prospect of relief in a state of organization which is very prejudicial to the interest of the Government, of the tenants and of the landlords themselves'

"Fiscally, economically and administratively, therefore, the measure of 1882 has resulted in disappointment

"We now propose in the Bill to retrace our steps to a certain extent, and in the North Western Provinces to re establish the patwari rate, but at a rate of 4 instead of 6 per cent on the revenue In Oudh no cess was ever paid, but the landlords, or in some cases the under proprietors, were liable for the pay of the patwari This had great disadvantages, as it prevented the organisation of the patwari establishments on a uniform system or the attainment of anything like a uniform standard of efficiency It has therefore been determined to arrange for the levy of a patwari rate on the same principle as in the North Western Provinces This is in Oudh a novel measure, but the taluqdars of the province have been carefully consulted respecting it, and with their usual public spirit and fair treatment of questions concerning land revenue administration have given their adhesion to it The rate to be imposed in Oudh is put at R3 instead of R4 per cent, which the Local Government considers will be sufficient from the point of view of their finances, and, as the rate is being introduced for the first time, the Lieutenant-Governor sees no reason for going beyond what is strictly necessary to secure an adequate sum for the remuneration of patwaris Tenants benefit equally with landlords, if not to a still greater extent, from the efficiency of the patwari establishments, and in Oudh, as I have already pointed out, whatever may have been the case up to 1856, the Rent Act passed in that year has given tenants a substantial interest in the accuracy of the village records It is considered therefore not unreasonable that tenants also should contribute to the cost of the maintenance of the establishments required to secure that object, and the Bill proposes to allow landlords to collect with the rent a cess which, allowing for difficulties of collection and unrealizable balances, should yield about half the sum which they are called on to pay as a rate to Government This will regulate the liability of the tenant and exempt him from indefinite exactions to which there are reasons for thinking he may, under the old system, have been subjected

"These rates will not, however, suffice to meet the necessary charges, and Government, representing the general tax payer, is fairly liable to take its share in the burden For the reasons which I have attempted to explain Government has an equal interest with the tenant and the landlord in maintaining the correctness of the patwaris' records, and would not be justified in throwing on those classes the whole of the cost necessary for the purpose The Bill therefore proposes that the contributions from the cess should be supplemented by a grant from the public funds.

"The assets thus made up will be formed for each province into a fund applicable only to specific objects, and with the revision of settlements the amount available will progressively increase This will secure that independence of the annual variations of the Provincial Budget, and that elasticity of income so essen-

tial to the growing demands of the land revenue administration, and will at once enable the Local Government without crippling its establishments to furnish the assistance required from it by the Government of India"

The Motion was put and agreed to

The Hon'ble MR QUINTON also introduced the Bill

The Hon'ble MR QUINTON also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and in the North Western Provinces and Oudh Government Gazette in English and in such other languages as the Local Government thinks fit

The Motion was put and agreed to

The Council adjourned to Friday, the 22nd February, 1889

S HARVEY JAMES,
Secretary to the Government of India
Legislative Department

The 15th February, 1889

SUPPLEMENT TO

The Gazette of India.

No 7] CALCUTTA SATURDAY FEBRUARY 16 1889

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time on which all Official Papers and information relating to the Government of India may seem to be of interest to the public and which are not required by law to be known before the Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE

Yearly Subscription to the GAZETTE and SUPPLEMENT (including postage) Rupees Four Rupees Six to any place in India Single Copies of the SUPPLEMENT as well as PART VI of the GAZETTE (when published) may be obtained on application to the Superintendent Government Printing India Office Calcutta Price Annas Four each

Notices of Orders Notifications &c published in the GAZETTE (PART I) and in the SUPPLEMENT will be charged for at the rates which have been fixed for the publication of such Notifications the Head of the GAZETTE must be referred to

GOVERNMENT OF INDIA

DEPARTMENT OF FINANCE AND COMMERCE

REPORT ON THE OPERATIONS OF THE SAVINGS BANKS IN INDIA FOR THE YEAR 1887 88

No 765 dated Calcutta the 9th February 1889

ORDER—By the Government of India Department of Finance and Commerce

Read—

Report by the Comptroller and Auditor General, on the operations of the Savings Banks in India for the year 1887 88, and annexed statements

Ordered that the report and the statements be published in the *Gazette of India* for general information

No 131 dated Calcutta, the 10th January 1889

From—E GAY Esq, Comptroller and Auditor General

To—The Secretary to the Government of India Department of Finance and Commerce

I have the honour to submit my report for the year 1887 88 on the operations of the Savings Banks in India Some of these Banks are open to the public, like the Presidency and Post Office Banks, but others have been established for the benefit of Government employes, like the Railway and Civil Engineers' Provident Institutions Separate Banks have been opened in each regiment for the European Army, but native soldiers are encouraged to deposit in the Post Office and Presidency Banks

2 Nothing special has occurred during the year in connection with these Banks I enclose the usual statements, marked I to VII, the principal facts in which may be summarised as follows —On the 31st March 1888 there were 6,152 Government Savings Banks in India, and they contained 3,32,176 accounts, which received from Government R22,38,609 in the shape of interest, and possessed balances aggregating R6,67,63,315 In addition to these balances Government held on behalf of the depositors Government Securities amounting

to ₹4,55,800, not including the Government Promissory Notes for ₹3,73,200, which were purchased and made over to the depositors during the year The following table distributes these figures among the several classes of Banks —

Description of Banks	Number of Banks	Number of Depositors	Interest earned	Bank Balances	Nominal value of Government Promissory Notes
			₹	₹	₹
Presidency, Calcutta	1	10,881	97 732	27,58,527	16,600
Ditto, Madras	1	3,461	26,6[illegible]7	7,86,317	1,000
Ditto, Bombay	1	25,061	2,85,295	80,84,759	19,100
Railway	12	12,848	74,299	23,07,953	12,400
Civil Engineers'	1	465	25 032	7,96,063	
Military	170	18,303	56,080	14,73,783	
Post Office	5,960	2,61,157	16,73,504	5,05,55,913	4,06,700

3 The net result of the year's operations is shown in the subjoined statement, from which it will be seen that the number of Post Office Banks has diminished, though the number of accounts and amount of balances have largely increased This is due to the closing of Sub Post Office Banks It will also be observed that the average balance held by each depositor is considerably larger than last year in all except the Military Banks The large proportionate increase in the balances of the Railway and Civil Engineers' Banks is to be expected, as they have not been opened many years and are really of the nature of a cumulative Provident Fund—

Names of Banks	Number of Banks		Number of Account		Bank Balances		Government Promissory Notes		Average Depositors Balance	
	Increase	Decrease	Increase	Decrease	Increase	Decrease	Increase	Decrease	Increase	Decrease
					₹	₹	₹	₹	₹	₹
Presidency Calcutta				274	82 562		500		23	
Ditto Madras				252		21 407	1,000		6	
Ditto Bombay				1 639		62,046	800		17	
Railway			680		4,24 048		8 200		25	
Civil Engineers			85		3 06,204				422	
Military	4		2 152		64 241					18
Post Office		8	42 147		79 84 153		27,900		39	

4 The investments by depositors in Government Promissory Notes continue to rise as indicated in Statement VI, and from Statement VII, which gives particulars by Provinces of Presidency and Post Office Savings Banks combined, it will be observed that the general growth of depositors' balances is spread over all the Provinces

5 My Savings Banks' Ledgers have been agreed with the accounts kept by the Accountant General, Public Works Department, and the Examiners of the Accounts of the several State Railways In my last report I referred to the embezzlements in the late District Savings Bank at Chittagong, and now it only remains to record that the matter has been settled in accordance with the orders of the Government of India in the Financial Department, No 1166, dated 1st March 1888

Statement I

Number of Working Banks and of the Depositors therein on 31st March 1887 88

Banks	Number of Working Banks		Number of Depositors		Increased (+) or decreased (—) in number of depositors	Average Number of Depositors per Bank

Director General of Railways' No 3 54 (Statistical), dated the 26th December 1888, for warding the Abstract Returns of Accidents to Trains, &c, on the open lines of Railways in India for the quarter ending 30th June 1888

OBSERVATIONS—As compared with the average of the five corresponding previous quarters, the number of accidents to trains, rolling stock, permanent-way, &c, shows an increase of 125, or 12 65 per cent, with an increase of 2,685 miles, or 23 14 per cent, in the mean mileage open, and of 1,830,388 miles, or 14 74 per cent, in the train mileage The following are the Railways on which the more important fluctuations occurred —

Railways	Accidents					Train mileage	
	Number of accident	Increase	Decrease	Percentage of Increase	Percentage of Decrease	Percentage of Increase	Percentage of Decrease
Rajputana Malwa	140		15		9 68	13 79	
Bengal Nagpur	40	22		122 22		37 94	
Southern Mahratta	134	110		458 33		167 76	
North Western	120		76		38 78	26 06	
South Indian	105	33		45 83		23 08	
Great Indian Peninsula	37		69		65 09	12 09	
Bombay, Baroda and Central India	51	12		30 77		0 37	
Oudh and Rohilkhand	61	14		29 79		18 23	
Bengal and North Western	99	27		225 00		93 49	
Dibru-Sadiya	36	*		*		*	
The Nizam's	23	12		109 09		14 73	

* Returns not received prior to 1886

2 On the Rajputana-Malwa Railway the number of accidents from "Trains running over cattle on the line" decreased from 100 to 71, while under "Failure of axles" there was an increase from 5 to 15

3 The increase on the Bengal Nagpur Railway mainly occurred under "Trains running over cattle on the line," "Trains running over obstructions on the line," and "Fire in trains," the number of accidents recorded under these heads being 18 against 7, 5 against *nil*, and 7 against 1, respectively

4 On the Southern Mahratta Railway the total number of accidents rose from 24 to 134, due to increased train-mileage consequent on the opening since 1884 of the whole of the line and of the Bellary Kistna Railway (849¾ miles in all), the line not having been open in 1883, and only 40½ miles in the corresponding quarter of 1884 Of the total number 91 appears under "Trains running over cattle, &c," and 15 under "Fire in trains" With one or two exceptions, the cattle accidents occurred on the unfenced portions of the line

5 Of the decrease of 76 accidents on the North-Western Railway, 14 took place under "Trains running over cattle, &c," 11 under each of the heads "The bursting of tubes, &c, of engines" and "The failure of machinery, springs, &c, of engines," and 23 under "Fire in trains"

6 On the South Indian Railway fluctuations are noticed chiefly under "Trains running over cattle on the line," 60 against 51, and "Failure of machinery, springs, &c, of engines," 10 against 1 The increase was partly due to the working of the Cuddapah-Nellore State Railway

7 On the Great Indian Peninsula Railway there was a decrease of 20 accidents under "Trains running over cattle on the line" and "Fires in trains," respectively It is also satisfactory to notice that there was not a single case of "Goods trains, or parts of goods trains, engines, &c, leaving the rails," whereas 12 accidents of this description occurred on an average during the corresponding periods of five previous years

8 On the Bombay, Baroda and Central India and Oudh and Rohilkhand Railways the increase mainly appears in the number of accidents classed as "Other accidents," which on the former was 40 against 21, and on the latter 7 against *nil*

9 On the Nizam's Railway the number of cattle accidents rose from 2 to 15

10 The total number of accidents on the East Indian Railway does not exhibit any noticeable variation, being 57 against 61, but under "Trains running over cattle on the line," there appears to have been a decrease of 15 accidents

11 The increase on the Bengal and North Western Railway was partly due to increased mileage worked Under "Goods trains, or parts of goods trains, engines, &c, leaving the rails," and "Trains running over cattle on the line," the number of accidents mainly rose, being 19 against 4 and 14 against 5, respectively The line was not fenced in those places where the cattle accidents occurred

12. On the whole Indian Railway System, the casualties resulting from accidents to trains, &c, were as follows —among passengers and others, 4 injured against 2 killed and 13 injured, and among servants, 2 killed and 7 injured against 3 killed and 16 injured Of the casualties to servants, 1 gangman was killed and 3 injured on the Jodhpur Railway by a low-sided truck, blown away by a storm, striking against them whilst working on the line

13 The following table exhibits the number of accidents under the different classes, due to accidents to trains, rolling stock, Permanent way, &c, and the number of persons killed and injured thereby (*vide Table 4*) —

		Average of corresponding quarters of five previous years	Second quarter 1888					Total all classes	
			No	Number of passengers and others		Number of servants			
				Killed	Injured	Killed	Injured	Killed	Injured
1	Collisions between passenger trains, or parts of passenger trains	1	2						
2	Collisions between passenger trains and goods or mineral trains engines and vehicles standing foul of the line	15	13				2		2
3	Collisions between goods trains, or parts of goods trains	21	15		2	1	1	1	3
4	Collisions between light engines	3	2						
5	Passenger trains, or parts of passenger trains, leaving the rails	20	25						
6	Goods trains, or parts of goods trains engines, &c, leaving the rails	76	105						
7	Trains or engines travelling in the wrong direction through points	14	10						
8	Trains running into stations or sidings at too high a speed	4	4						
9	Trains running over cattle on the line	454	518						
10	Ditto over obstructions on the line	26	42		1				1
11	Ditto through gates at level crossings	16	13				1		1
12	The bursting of boilers of engines	21	1						
12*a*	The bursting of tubes, &c, of engines		14						
13	The failure of machinery, spring &c, of engines	55	68						
14	The failure of tyres	3	2						
15	Ditto of wheels	7							
16	Ditto of axles	12	21		1				1
17	Ditto of brake apparatus		1						
18	Ditto of couplings	35	41						
19	Ditto of tunnels, bridges, viaducts, culverts, &c		1						
20	Broken rails	5	9						
21	The flooding of portions of permanent way	8	18						
22	Slips in cuttings or embankments	8	3						
23	Fire in trains	98	71						
24	Fire at stations or involving injury to bridges or viaducts	16	21						
25	Other accidents	67	87			1	3	1	3
	1888		1,113		4	2	7	2	11
	Total { Average of corresponding quarters of five previous years		988	2	13	3	16	5	29

14 The principal variations occurred under "Goods trains, or parts of goods trains, engines, &c, leaving the rails," 105 against 76, "Trains running over cattle on the line," 518 against 454, "Trains running over obstructions on the line," 42 against 26, "Failure of machinery, springs, &c, of engines," 68 against 55, "Failure of axles," 21 against 12, "Flooding of portions of permanent-way," 18 against 8, "Fire in trains," 71 against 98, and "Other accidents," 87 against 67

15 The increase under "Goods trains, or parts of goods trains, engines, &c, leaving the rails," was principally due to the number of accidents returned by the Madras Railway being 16 against 5, and by the Bengal and North-Western Railway 19 against 4

16 The cattle accidents were very numerous on the Southern Mahratta, Rajputana-Malwa, Eastern Bengal, South Indian, Oudh and Rohilkhand, and North Western Railways, being 91, 71, 68, 60, 40, and 39, respectively As compared with the average of the corresponding quarters of five previous years, there was, as already noticed, a decrease of 29 accidents on the Rajputana Malwa Railway, and of 14 on the North Western Railway

17 Of the 68 cases of "Failure of machinery, springs, &c, of engines," 12 occurred on the North-Western Railway, 10 on the South Indian, and 8 on the Rajputana-Malwa

18 The axles failed in 24 instances, of which 15 were on the Rajputana-Malwa Railway alone

19 The cases of "Failure of couplings" chiefly occurred on the Rajputana-Malwa, North Western, and Dibru Sadiya Railways, the number recorded being 12, 9 and 7, respectively, out of a total of 44

20 The number of cases of "The flooding of permanent-way" was the largest on the Jodhpur Railway, *viz*, 8 out of a total of 18

21 The decrease under "Line in trains" mainly took place on the North Western and Great Indian Peninsula Railways, the former returning 14 against 37, and the latter 9 against 29 accidents

22 Out of 87 accidents classified as "Other accidents," 40 were recorded on the Bombay, Baroda and Central India Railway

23 The casualties to passengers from causes other than accidents to trains, &c, (*vide table 2*) were—

Cause of accident	Second Quarter 1888		Average of corresponding quarters of five previous years	
	Killed	Injured	Killed	Injured
From falling between carriages and platforms	1	2	2	2
Falling on to the platform, ballast, &c, when getting into or out of trains	2	1	1	3
Whilst crossing the line at stations		1	1	1
By closing of carriage doors				1
Falling out of carriages during the travelling of trains	2	16	4	22
Other accidents	4	1		6
Total	9	21	8	35

24 The accidents to servants in the employ of railways or of contractors whilst performing duties connected directly with the transit of passengers and

goods, from causes other than accidents to trains, &c, were as follows, *vide Table 2* —

Cause of accident	Second Quarter 1888		Average of corresponding quarters of five previous years	
	Killed	Injured	Killed	Injured
During shunting operations	3	17	6	11
Falling of engines, vans, wagons &c	2	15	4	14
Coming in contact with overbridges, &c, during the travelling of trains		1		2
Coming in contact, while shunting, with vehicles, &c, standing in adjoining lines	1	1		
Getting on or off trains, engines, &c	3	9	3	14
Whilst loading, unloading, or sheeting	3	16	2	16
Whilst braking, spragging, or choking wheels	2	2		1
Whilst working at cranes or capstans	1	6	1	1
Whilst working on the permanent way or in sidings		4	2	4
Whilst walking along the line on the way home, or to work	1	2	1	1
Whilst walking, crossing or standing on the line	11	11	10	7
Whilst passing between vehicles	1	1	1	1
Whilst attending to the machinery of engines, cleaning them, &c	1	2		3
Whilst attending to gates at level crossings	3	2	1	1
Falling, or being caught, between vehicles and platforms	3	1	1	2
Falling off ladders, scaffolds, platforms, &c	1	7		3
By the falling of lamps waggon doors timber, weights, &c	2	1		3
Whilst coupling or uncoupling wagons	2	5	2	8
Miscellaneous	8	35	4	31
Total	48	133	38	123

25 Of other persons killed and injured by running trains, &c, 3 were killed and 2 injured whilst passing over the line at level crossings, 62 killed and 22 injured whilst trespassing on the line, 9 committed suicide, and 3 were killed and 1 injured from miscellaneous causes

26 The following table shows the total number of persons killed and injured from all causes on the whole Indian Railway System as compared with the average of the corresponding quarters of five previous years, *vide Table 1* —

Cause of accident	Second Quarter 1888		Average of corresponding quarters of five previous years	
	Killed	Injured	Killed	Injured
Passengers				
From cause beyond their own control		3	1	14
From misconduct or want of caution	9	22	8	32
Servants				
From causes beyond their own control	7	19	6	22
From misconduct or want of caution	43	141	36	116
Others				
Whilst passing at level-crossings	3	2	1	2
Trespassers including suicides	71	22	43	9
Other persons	3	4	5	3
Total	136	213	100	198
Total mean mileage open	14,287¾		11,602¾	
Total train mileage	14,248,047		12,412,659	

27 In addition to the above, 14 persons are reported to have been killed and 15 injured in station yards, workshops, &c, and 135 persons to have died in carriages and at stations from causes unconnected with the working of trains

---

RESOLUTION —It is noticed that in cases of "Goods trains, or parts of goods trains, engines, &c, leaving the rails," the increased number was due principally to the larger number of such accidents on the Madras Railway and on the Bengal and North Western Railway, the number being, respectively, 16 and 19 against 5 and 4, the averages of the corresponding quarters of the five previous years Of 24 cases of "Failure of axles" during the quarter, 15 occurred on the Rajputana Malwa Railway, and out of a total of 44 cases of "Failure of couplings," 12 are recorded against that Railway The attention of the officers concerned should be invited to these increases

2 On the North Western Railway it is satisfactory to observe that there was a decrease of 11 accidents in "Failure of machinery, springs, &c, of engines" as compared with the average of the five corresponding previous quarters, and that the total number of accidents for the quarter decreased by 38 78 per cent with an increased train mileage of 26 06 per cent The Government of India also notice with satisfaction the large decrease in the number of accidents on the Great Indian Peninsula Railway

---

ORDER —Ordered, that this Resolution, with the Abstract Returns, be communicated for information to the Local Governments, Administrations and Officers noted in the margin

The Governments of Madras Bombay Bengal the North Western Provinces and Oudh and the Punjab
The Chief Commissioners of the Central Provinces Burma and Assam
The Resident at Hyderabad
The Agents to the Governor General for Rajputana Central India and Baluchistan
The Director General of Railways
The Consulting Engineers to the Government of India for Railways Calcutta Lucknow and Central Division

Ordered also, that copies be forwarded for the information of Her Majesty's Government

Ordered further, that this Resolution, with the Abstract Returns, be published in the Supplement to the *Gazette of India*

By order,

M C BRACKENBURY, *Major, R E,*
Under Secretary

Documents accompanying

Abstract Returns of Accidents on Indian Railways for the second quarter of 1888

TABLE No 1.

GENERAL TOTAL.

NUMBER of PERSONS reported during the SECOND QUARTER of 1888 as KILLED or INJURED on the several RAILWAYS open for Traffic in INDIA, distinguishing between PASSENGERS, RAILWAY SERVANTS, and OTHER PERSONS, and distinguishing also, in the case of the two former Classes, between ACCIDENTS happening from causes beyond their own control, and ACCIDENTS happening otherwise

REPORTS OF THE PROGRESS OF EDUCATION IN INDIA DURING THE YEAR 1887 88

No $\frac{2}{79\ 89}$

Extract from the Proceedings of the Government of India in the Home Department,—(Education), under date Calcutta, the 11th February 1889

READ—

Despatch from Her Majesty's Secretary of State for India, No 93, dated the 6th September 1888, approving of the suggestion of the Government of India that the general Report on Educational Progress asked for by the Secretary of State in 1886 should be submitted only once in five years, but that in its place an annual Summary of a statistical kind shall be prepared for his information

Read also—

The several Reports on the Progress of Education in India during the year 1887 88 with the Resolutions and Orders thereon by Local Governments and Administrations

RESOLUTION

IN Home Department Resolution No 199, dated 18th June last, the Governor General in Council reviewed at length the Statistics regarding Education in India for 1885 86 and 1886 87 in connection with the general Report drawn up by Sir Alfred Croft, Director of Public Instruction, Bengal, on the Educational results for the former year A similar review will be made and published every fifth year, Statistics only with a brief explanation being published for general information in the intermediate years In publishing for general information the Statistics of Education for 1887-88, His Excellency in Council merely desires to call attention to the most prominent features presented by them without on this occasion further discussing their bearings or significance

2 There has been an increase in the aggregate number of Public and Private Institutions to which the Educational Reports relate from 127,116 in 1886 87 to 133,125 in 1887-88 The Public Institutions numbered 94,288 in the former and 94,636 in the latter year, so that the augmentation was mainly due to the increased number of Private Institutions which have submitted statistics regarding their working to the Departments of Public Instruction

3 The percentage of the total population of school-going age which actually attended school in 1887 88 was 11 8 as compared with 10 7 per cent in 1886-87 On 31st March 1887 there were 3,343,544 pupils on the rolls of the different schools and colleges to which the statistics relate, while by the same date in 1888 the number had risen to 3,460,844 The numbers attending school in 1886-87 were composed of 2,970,859 at Public and of 372,685 at Private Institutions, in 1887-88, of 3,021,721 at Public and 439,123 at Private Institutions The records of average attendance at Public Institutions show a corresponding improvement, such attendance having risen from 2,798,719 to 2,855,186 Statistics to show the average attendance at Private Institutions are not available The number of pupils on the rolls of the Arts Colleges rose from 8,764 at the close of 1886 87 to 10,328 at the end of 1887-88, and there was a slight increase, from 2,737 to 2,861, in the

number attending the Professional Colleges At Secondary Schools there were 441,876 pupils in 1887-88 as compared with 429,093 in 1886-87, while in Primary Schools the figures improved from 2,513,934 to 2,550,384 The Governor General in Council regrets to notice that the numbers at the Training Schools declined from 5,716 to 4,761, while the increase at the other Special Schools—from 11,215 to 11,511—was much slighter than could be desired.

4 Of the pupils under instruction the number engaged in studying English rose from 310,126 to 325,425, the chief increase being in Secondary Schools The number engaged in studying a Classical language rose from 472,518 to 478,608, while the number studying a Vernacular language only was 3,122,291 as compared with 3,036,593 in 1886 87 Of these students 2,503,680 were attending Primary Schools in 1886-87, and 2,543,983 in 1887-88 The increase was numerically as well as proportionately highest at Private Institutions, where there were 162,593 pupils studying one of the Vernaculars in 1886-87, and 199,528 in 1887-88

5 If attention be directed to the race and religion of the different pupils in 1887 88, it will be found that there were 2,365,794 Hindus as compared with 2,303,812 in 1886 87, 804,485 Muhammadans as compared with 752,441, 23,160 Europeans and Eurasians as compared with 23,185, 74,498 Native Christians as compared with 60,611, and 203,121 of other classes (including aborigines) as compared with 192,314 The most noticeable feature in the above figures is the sustained increase among Muhammadan pupils It was distributed over every stage of education but was chiefly noticeable at the Private Schools which were attended by 240,472 pupils, as compared with 195,415 pupils in 1886 87

6 Of the total number of pupils attending school there were in 1887 88 3,182,643 boys as compared with 3,115,808 in 1886-87 Assuming the number of boys of the school-going age to be 15 per cent of the population, the percentage of male scholars to the male population of school-going age rose from 19 5 in 1886 87 to 20 0 in 1887-88 The increase during the same period in the number of institutions attended by girls was from 6,674 to 7,012 Of the latter number 4,870 were Public and 2,142 Private Institutions The number of girls attending the schools rose from 227,736 in 1886-87 to 278,201 in 1887-88 those attending Public Institutions rose from 206,108 to 248,097, and those at Private Institutions from 21,628 to 30,104 The percentage of female pupils to females of a school-going age which was 1 4 in 1886 87 was 1 8 in 1887-88

7 The total expenditure on Education, which was Rs 2,52,42,414 in 1886 87, rose to Rs 2,61,91,280 in 1887-88 Of these sums Rs 1,98,31 316 in the former and Rs 2,09,09,809 in the latter year were directly devoted towards Public Instruction The expenditure on Arts Colleges rose from Rs 16,48,595 to Rs 18,02,438, that on Professional Colleges from Rs 5,99,948 to Rs 7,20,674, and that on Training Schools from Rs 5,44,178 to Rs 5,66,146 The chief expenditure is on the Secondary and Primary Schools, and the amount spent on the former rose from Rs 80,95,295 in 1886-87 to Rs 86,27,117 in 1887 88, and that on the latter from Rs 81,24,481 to Rs 83,88,897 There was a decline in the expenditure on Special Schools other than Training Schools, from Rs 8,18,819 to Rs 8,04,537 The indirect expenditure upon Education, in which are included charges on account of Direction, Inspection, Scholarships and Buildings, declined from Rs 54,11,098 in 1886-87 to Rs 52,81,471 in 1887-88 This decrease was mainly due to the reduction of the expenditure on buildings

8 This expenditure was met from Provincial and Local funds, from Municipal revenues, from Fees and from miscellaneous sources

such as Endowments Provincial revenues are shewn in the annexed statements to have contributed Rs 72,93,575 towards Education in 1887-88 as compared with Rs 85,61,249 in 1886 87 But besides the sum thus shown as directly contributed by Provincial revenues, a sum of Rs 9,26,972 was transferred from Provincial to Local Board revenues in Bengal, while smaller transfers of the same kind were effected in other provinces The contraction in Provincial expenditure is thus for the most part nominal, but some true economies were effected which is satisfactory The expenditure from Local Funds which in 1886 87 amounted to Rs 37,14,579 rose in 1887-88 to Rs 46,41,551, the rise being chiefly noticeable in the expenditure on those forms of education on which Provincial expenditure was contracted Thus Local Bodies increased their expenditure on Secondary Education from Rs 5,44,012 to Rs 7,45,002, and on Primary Education from Rs 21,43,321 to Rs 26,06,392 The expenditure on Special Schools from Local Funds fell from Rs 1,61,093 to Rs 1,45,823, of which Rs 1,20,704 were expended on training schools for masters The Governor General in Council trusts to see shortly a further development of the interest of Local Bodies in Special Schools The expenditure of Municipal Funds on Education was Rs 12,94,317 in 1887 88 as compared with Rs 12,05,984 in 1886 87

9 There remains the contribution towards expenditure on Education from the fees paid by scholars and miscellaneous sources, including endowments for expenditure on education Fees which in 1886-87 aggregated Rs 65,29,958 reached Rs 72,94,093 in 1887 88 The amount of fees paid at the Arts and Professional Colleges rose from Rs 4,73,268 to Rs 6,20,457, those paid at Secondary Schools from Rs 31,89,378 to Rs 36,01,610, and those paid at Primary Schools from Rs 23,86,832 to Rs 25,03,381 The income from miscellaneous sources which in 1886 87 was Rs 52,30,644 was in 1887 88 Rs 56,67,744

10 The Statistics summarized above exhibit, in the opinion of the Government of India, proof of satisfactory progress, and indicate that the business of the Departments of Public Instruction was during 1887 88 generally conducted in an efficient manner The Governor General in Council notices with pleasure the attention that appears to have been paid to the promotion of Primary Education, and he trusts that in this direction the efforts of Local Governments will be steadily increased and sustained

---

ORDER —Ordered, that copy of the above Resolution be forwarded to the Local Governments and Administrations marginally noted, and to the Revenue and Agricultural Department for information

Madras	Central Provinces
Bombay	Burma
Bengal	Assam
North Western Provinces and Oudh	Coorg
Punjab	Hyderabad

Ordered also, that the Resolution be published in the Supplement to the *Gazette of India*

(True Extract)

A P MACDONNELL,

Secretary to the Government of India

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and prospects of the Crops

Madras —*For week ending 9th February, 1889* —No rain, more rain wanted in Ganjam, Vizagapatam, Cuddapah, Bellary, Trichinopoly, Tinnevelly, Coimbatore and Salem Standing crops generally good, but withering in parts of Coimbatore, Cuddapah and Tinnevelly, blighted in parts of Bellary, Chingleput and Coimbatore Pasture deficient in Coimbatore and parts of Salem Prices rising in six districts, falling in six, and stationary in others General prospects favourable except in Ganjam and Coimbatore Labourers employed on last day of week on Rushikulya works 4,957, Gopalpore Canal, 8,956

Bombay —*For week ending 13th February, 1889* —Slight rain in parts of Karachi and Hyderabad, where standing crops are benefited, late crops in parts of Nasik, three talukas of Surat, four of Poona, two of Ahmednagar, and one of Kanara, and wheat in Broach unsatisfactory, safflower in one taluka of Sholapur, and exotic cotton and wheat in parts of Dharwar blighted Opium in Baroda good Harvesting progressing generally, probable outturn of late crops in Ahmednagar from four to ten annas Fodder scarce, and agricultural stock poor in Khandesh, and parts of Nasik and Kathiawar Prices rising in one taluka of Nasik

Bengal —*For week ending 12th February, 1889* —More rain fell on the 11th instant throughout Behar, and in parts of South west and North Bengal, and in Chota Nagpore The prospects of the *rabi* crops have considerably improved and are now generally reported to be fair, though some damage has been done by the recent hail in places in Behar and North Bengal In Chota Nagpore, however, the *rabi* crops have already suffered, chiefly from drought, and are not expected to yield more than eight annas on the whole The poppy and tobacco crops are reported on favourably, and the condition of the spring rice is satisfactory The ploughing for the autumn crops is steadily progressing, and *cheena* and *mung* are being sown extensively throughout Behar The sugarcane and potato harvests are proceeding with fair results The latest report regarding the affected tract in the Patna Division shows that the attendance on the relief works in Chumparun and Mozufferpore has fallen off, the labourers having resorted to the fields, and that the prices everywhere are stationary and the stocks of grain sufficient

North-Western Provinces and Oudh —*For week ending 13th February, 1889* —Light rain fell in most districts during the week *Rabi* crops promise well Supplies sufficient Slight fluctuations in prices Condition of cattle good

Punjab —*For week ending 13th February, 1889* —Slight rain in Delhi and Amballa Districts Prices rising in Delhi, falling in Jullundur, Ferozepur, Sialkot, Lahore, and Shahpur, unsettled in Multan and Peshawar, stationary elsewhere Ploughing for cotton commenced in Lahore More rain wanted in Hissar and Multan Prospects of *rabi* crops have been greatly improved by the recent rainfall and are very promising Stock cattle are generally healthy Fodder sufficient, except in Hissar, Sialkot, Dera Ismail Khan and in parts of Rawalpindi

Central Provinces —*For week ending 13th February, 1889* —Prospects of winter crops improved in Jabalpur by recent slight rain, otherwise they remain unchanged Cattle in fair condition

Burma —*For week ending 9th February, 1889* —The crop prospect is generally good Prices are generally stationary, but there has been a slight rise in

the price of paddy in Akyab, Henzada, Toungoo and Pyinmana, and a slight fall in Tavoy, Shwebo and Lower Chindwin districts

Assam —*For week ending 13th February, 1889* —Slight rain in most districts Sowing of early rice, gathering of mustard and pressing of sugarcane are in progress Rain wanted for tea in Sibsagar Potato sowing in the Khasi Hills continues

Mysore and Coorg —*For week ending 13th February, 1889* —No rain Standing crops in good condition Spring paddy sown in parts Outturn of crops harvested generally favourable Prices slightly risen in the Shimoga district

Coffee crop fully picked in Coorg

Berar and Hyderabad —*For week ending 13th February, 1889* —Picking of cotton completed in Berar Harvesting of other *kharif* crops nearly over Cutting of *rabi* in progress Prospects good Agricultural stock in good condition Fodder insufficient in some districts Prices stationary

No rain in Hyderabad *Rabi* crops thriving, weeding of *tabi* crops continues, prices stationary

Central India —*For week ending 13th February, 1889* —Rain during the week in Gwalior, Bundelkhand and Baghelkhand Crops in southern half of Bhopal reported somewhat damaged Crops in Goona partly damaged by hail Prices of food grains risen in Neemuch and Barwani, fallen in Manpur Drinking water scarce in southern portion of Bhopawar

Rajputana —*For week ending 13th February, 1889* —Favourable rain in Ajmere, Jeypore and Bhurtpore Agricultural operations satisfactory Standing crops good Agricultural stock good, but sickly at some places in Meywar Prices rising in Meywar

Nepal —*For week ending 7th February, 1889* —Slight rain Weather foggy Sowing of potatoes is in progress

LEGISLATIVE DEPARTMENT

NOTIFICATION.

Fort William, the 22nd February, 1889

No 3 —Whereas the Secretary of State for India by Resolution in Council declared the provisions of the 33rd of Vict, Chap 3, Sec 1, to be, from and after the 1st October, 1877, applicable to the territories forming the Chief Commissionership of Coorg,

And whereas the Chief Commissioner of Coorg has proposed to the Governor-General in Council a draft of the following Regulation together with the reasons for proposing the same,

And whereas the Governor-General in Council has taken the draft and reasons into consideration, and has approved of the draft and the same has received the Governor-General's assent on the twentieth day of February, 1889,

In pursuance of the direction contained in the said section, the said Regulation is now published in the Gazette of India

The Coorg Revenue Regulation, 1889

(Preliminary —Sections 1—3 Security for Revenue —Section 4 Time for Payment of Revenue —Section 5 Arrear of Revenue —Section 6 Recovery of Arrears —Section 7)

A Regulation to declare and amend the law relating to the Collection of Revenue in the Province of Coorg

WHEREAS it is expedient to declare and amend the law relating to the collection of revenue in the Province of Coorg, It is hereby enacted as follows —

Preliminary

Title extent and commencement

1 (*1*) This Regulation may be called the Coorg Revenue Regulation, 1889

(*2*) It extends to the territories administered by the Chief Commissioner of Coorg and subject to the provisions of the Statute 33 Victoria, chapter 3, section 1, and

(*3*) It shall come into force on such day as the Chief Commissioner may, by notification in the local official Gazette, appoint in this behalf

Repeal

2 (*1*) Regulation III of 1880 (*to declare and amend the law relating to the collection of the public revenue in the Province of Coorg*) is hereby repealed

(*2*) But all instalments fixed, appointments made and powers conferred under that Regulation shall, so far as may be, be deemed to have been respectively fixed, made and conferred under this Regulation

Definitions

3. In this Regulation, unless there is something repugnant in the subject or context,—

(*1*) "revenue" includes land-revenue, cesses and muhtarifa, and every other sum payable to the Government in accordance with law, contract or local usage in respect of the occupancy of land or the supply of water to it for irrigation

(*2*) "landholder" includes any person who is bound by law, contract or local usage to pay revenue direct to the Government

(*3*) "tenant" means a person who holds under a landholder, and is, or but for a special contract would be, liable to pay rent to him

(*4*) "moveable property' includes growing crops and ungathered products of land and

(*5*) "Commissioner" means the Commissioner of Coorg

Security for Revenue

Security for the revenue

4 The land, the buildings upon it and its products shall be regarded as the security for the revenue

Time for Payment of Revenue

Time for payment of revenue

5 Revenue shall be paid to the Commissioner, or to an officer empowered by the Commissioner in this behalf, on or before the day on which it falls due according to the kist-bandi or other engagement, or where no particular day is fixed then within the time when the payment falls due according to local usage

Provided that the Chief Commissioner may, by notification in the local official Gazette, alter and fix the amount of the several kists or instalments and the dates at which they are to become payable

Arrear of Revenue

Arrear of revenue

6 (*1*) When an instalment or a part of an instalment of revenue is not paid on or before the day prescribed by or under the last foregoing section, the Commissioner may at once levy the instalment or the part of the instalment, as the case may be, in addition to such charge by way of penalty and as costs of process as may be authorized by rules to be made by the Chief Commissioner with the previous sanction of the Governor General in Council

(*2*) Any sum leviable under sub section (*1*) shall, for the purposes of this Regulation, be deemed to be an arrear, and the landholder from whom it is leviable to be a defaulter or revenue-defaulter

Recovery of Arrears

Recovery of arrears

7 An arrear may be recovered by any one or more of the following processes, namely —

(*a*) by serving a written notice of demand on the defaulter,

(*b*) by serving a summons on the defaulter requiring him, in default of payment of the arrear on or before a day to be specified in the summons, to appear before, and explain the default to, the Commissioner or the Subahdar of the taluq in which the arrear accrued, as the summons may direct,

(*c*) by distraint and sale of any moveable property belonging to the defaulter, or of the growing crops or ungathered products of the land in respect of which the arrear is due, whether those crops or products do or do not belong to the defaulter,

(*d*) by attachment, or by attachment and sale, of any land or other immoveable property belonging to the defaulter

The Coorg Revenue Regulation, 1889

(Time for Issue of Process —Section 8 Notice of Demand —Section 9 Summons to Defaulter —Section 10 Distraint and Sale of Moveable Property —Sections 11-14)

Time for Issue of Process

Time for issue of process

8. (*1*) A notice of demand may be issued on or after the day following that on which the arrear became leviable

(*2*) Except by special written order of the Commissioner, a summons under clause (*b*), or process of distraint or attachment under clause (*c*) or clause (*d*), of the last foregoing section, shall not be issued for the recovery of an arrear unless a notice of demand for the arrear or for some part thereof has been served on the defaulter at least seven days previously

Notice of Demand

Form and service of notice of demand

9 (*1*) A notice of demand shall be in writing signed by the officer issuing it, and shall set forth—

(*a*) the name of the defaulter,

(*b*) the land in respect of which the arrear is due

(*c*) the amount of the arrear and particulars thereof

(*d*) the time allowed for payment of that amount and

(*e*) a warning to the defaulter that, if he fails to pay the amount within that time, he will be liable to be summoned as a defaulter and to have his moveable property distrained and his land or other immoveable property attached

(*2*) The time set forth in the notice as the time allowed for payment of the arrear shall be fixed with reference to the distance of the land in respect of which the arrear is due from the place at which the payment is to be made

(*3*) A notice of demand shall be served by delivering a copy to the defaulter or to some adult male member of his family at his usual place of residence, or to his authorized agent, or by posting a copy thereof on some conspicuous part of his last known place of residence or on some conspicuous part of the land in respect of which the arrear is due

Summons to Defaulter

Summons to defaulter

10 (*1*) At any time after the expiration of seven days from the date of the service of a notice of demand, or sooner if the Commissioner makes a special written order in this behalf, a summons may be issued to a defaulter requiring him, in default of payment of the arrear on or before a day to be specified in the summons, to appear before, and explain the default to, the Commissioner, or the Subahdár of the taluq in which the arrear accrued, as the summons may direct

(*2*) The summons shall set forth the matters stated in clauses (*b*) and (*c*) of section 9, sub-section (*1*), and shall be served in the manner prescribed for the service of a notice of demand

Distraint and Sale of Moveable Property

Time for making distraint

11 When the arrear has not been paid pursuant to the terms of the notice of demand, and no arrangement for securing the payment thereof has been entered into to the satisfaction of the Commissioner, or of an officer empowered by the Commissioner in this behalf, the Commissioner, or an officer empowered by the Commissioner in this behalf, may order the distraint and sale of such moveable property as is described in clause (*c*) of section 7

Procedure in distraint

12 (*1*) An order under the last foregoing section shall set forth—

(*a*) the matters stated in clauses (*b*) and (*c*) of section 9, sub section (*1*), and

(*b*) a warning to the defaulter that such property as may be distrained will be brought to sale under this Regulation unless the arrear is discharged

(*2*) A copy of the order signed by or on behalf of the officer making it shall be given to the distrainer and shall be his authority for making the distraint unless, before it is made, the defaulter pays the arrear to him or satisfies him that the arrear has been paid to the Government

(*3*) As soon as may be after the making of a distraint, and at the latest within three days thereafter, the distrainer shall serve on the defaulter a copy of the order with an endorsement thereon specifying the property which has been distrained and the place where that property is

(*4*) The copy so endorsed shall be served on the defaulter in the manner prescribed for the service of a notice of demand

(*5*) When the copy of the order has been so served, the distrainer shall transmit an inventory of the property distrained to the nearest officer empowered under this Regulation to sell distrained property in order that the property may be publicly sold for the discharge of the arrear

Withdrawal of distraint on tender of arrear

13 Where a defaulter tenders to the distrainer payment of the arrear after the distraint of his property and before the sale thereof, the distrainer shall receive the arrear and forthwith release the property

Disposal of distrained crops.

14 (*1*) When a distrainer attaches growing crops or ungathered products of land, he may cause them to be sold when fit for reaping or gathering, or at his option may cause

The Coorg Revenue Regulation, 1889.

(Distraint and Sale of Moveable Property —Sections 15-23)

them to be reaped or gathered in due season and stored in proper places until they are sold

(2) In the latter case the expense of reaping or gathering and storing the crops or products shall be defrayed by the owner upon his redeeming them, or from the proceeds of the sale in the event of the crops or products being sold

Distraint of crops of a tenant

15 (1) When growing crops or ungathered products belonging to a tenant have been distrained for the recovery of an arrear, the tenant may pay the arrear and deduct the amount thereof from any rent due from him, then or afterwards, to the defaulter

(2) When crops or products belonging to a tenant have been sold, the tenant may deduct the value thereof from any rent due from him, then or afterwards, to the defaulter in respect of the land on which the crops or products were grown

Treatment of distrained property

16 (1) A distrainer shall not work distrained cattle or suffer them to be worked, or make use of distrained goods or effects or suffer them to be made use of

(2) Necessary food for distrained cattle shall be provided by the distrainer, and the cost thereof shall be defrayed by the owner upon his redeeming the cattle or from the proceeds of the sale in the event of the cattle being sold

Responsibility for distrained property

17 (1) Where distrained property is lost or damaged by reason of necessary precautions for its due preservation not having been taken, or of its having been worked or made use of in contravention of the last foregoing section, the amount of the loss or damage shall, on the application of the owner of the property, be determined by the Commissioner and be recoverable by him under this Regulation as an arrear from the officer whose neglect or act occasioned the loss or damage, and the amount when recovered shall be paid to the person damnified

(2) An order refusing an application under sub-section (1), or determining on such an application the amount of any loss or damage, shall, subject to the result of any appeal preferred to the Chief Commissioner within thirty days from the date of the order, be final

Distraint not to be excessive

18 The property distrained shall be as nearly as possible proportionate to the amount of the arrear

Protection of necessary cattle, seed-grain and implements from distraint.

19 (1) Such cattle, seed grain and agricultural implements as may be required by the defaulter for the purpose of cultivation shall be exempt from distraint

(2) If a question arises whether or not any cattle, seed grain or implements should be held to be exempt from distraint under sub section (1), it shall be referred to the Commissioner and his decision thereon shall be final

Time for making distraint

20 Distraint shall be made after sunrise and before sunset

Fraudulent transfer of property to prevent distraint

21 (1) Where a defaulter makes a fraudulent transfer of property for the purpose of preventing distraint for an arrear, any Civil Court of competent jurisdiction shall, upon the application of the distrainer and proof of the fraudulent nature of the transfer, cause the property to be delivered up to the distrainer

(2) Nothing in sub section (1) shall be construed to bar a prosecution under section 424 or any other section of the Indian Penal Code XLV of 1860.

Claims to property distrained and sold

22 Where any person, not being the defaulter or responsible for the defaulter, claims a right to property distrained, and the distrainer nevertheless causes the property to be sold, the claimant, upon proof of the right in a Civil Court of competent jurisdiction, and in the event of the distrainer being unable to prove the responsibility of the claimant for the arrear for the recovery of which the property was sold, shall recover from the distrainer the full value of the property, with interest, costs and damages, according to the circumstances of the case

Provided that the title of the Government to the revenue due in respect of any land and to any charge leviable in respect thereof under section 6 shall be held to prevail over any claim to growing crops or ungathered products on the land, or any claim to any crops or products reaped or gathered on the land during the year in respect of which an arrear is due, or any claim to the proceeds of any such growing or reaped crops or ungathered or gathered products in the possession or under the control of the defaulter or of any Court, whether the claim to the crops or products, or to the proceeds thereof, is founded upon a sale, mortgage, decree or otherwise howsoever

Penalty for forcibly or clandestinely taking away distrained property

23 (1) Where it is proved to the satisfaction of a Civil Court of competent jurisdiction that distrained property has been forcibly or clandestinely taken away, the Court may, upon the application of the distrainer, cause the property to be restored to him

(2) Nothing in sub section (1) shall be construed to bar a prosecution under the Indian Penal Code XLV of 1860

The Coorg Revenue Regulation, 1889

(Distraint and Sale of Moveable Property—Sections 24-29 Attachment and Sale of Defaulter's Immoveable Property —Sections 30-31)

24. The distrainer may force open any stable, cow house granary, go down out house or other like building, and may enter any dwelling house of which the outer door is open, and break open the door of any room in that dwelling house, for the purpose of distrain ing property belonging to a defaulter and deposited therein

Forcing of houses by distrainer

Provided that the distrainer shall not, except as provided in the next following section, break open or enter any apartment which is appro priated for the residence of women and by the usage of the country is considered private

25. (*1*) Where a distrainer is of opinion that the property of a defaulter is deposited in a dwelling house of which the outer door is shut, or within an apartment which is appropriated for the residence of women and by the usage of the country is considered private, the distrainer shall represent his opinion to the officer in charge of the nearest police station

Forcing of outer doors and female apart ments by distrainer

(*2*) On the representation the officer in charge of the station shall send a police-officer to the spot, in presence of whom the distrainer may break open the outer door of the dwelling house

(*3*) The distrainer may also in the presence of the police officer, after requiring the removal of women from an apartment which is appro priated for their residence and by the usage of the country is considered private, and after furnishing means for their removal in a suitable manner, enter the apartment for the purpose of distraining the defaulter's property deposited therein, but the property, if found, shall be immediately removed from the apartment, which shall thereupon be left free to the former occupants

26 If, in contravention of the last foregoing section, a distrainer breaks open the outer door of a dwelling house, or enters an apartment appropriated for the residence of women and by the usage of the country con sidered private, he shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to six months

Punishment for un lawful entry

27 (*1*) The officer empowered under this Regulation to sell distrain ed property shall cause to be posted on the outer door of the defaulter's house, or at the place where the property was distrained, an inventory of the property to be sold, with a notice specifying the place where, and the day and hour on and at which, the property is to be sold, and shall cause proclamation of the intended sale to be made by posting a copy of the inventory and notice on the village meeting place, or by beat of drum or other customary mode at the place where the arrear accrued and at such other place or places, if any, as the Commissioner, or an officer empowered by the Commissioner in this behalf, thinks fit

Proclamation of sale

(*2*) The sale shall not take place till after the expiration of fifteen days from the day on which the inventory and notice were posted on the outer door of the defaulter's house or at the place where the property was distrained

28 (*1*) At the appointed time the property shall be put up in one or more lots as the officer conducting the sale deems advisable, and shall be sold to the highest bidder

Conduct of sale

(*2*) Where the purchase money exceeds the amount of the arrear, the surplus shall be paid to the defaulter

29 (*1*) The property shall be paid for in ready money at the time of sale or as soon after as the officer conducting the sale appoints, and the purchaser shall not be permitted to take away any part of the property until he has paid the purchase money in full

Payment of purchase money

(*2*) Where the purchaser fails in the payment of the purchase money, the property shall be re sold, and the defaulting purchaser shall be liable for any loss arising, as well as for the expenses incurred, on the resale

(*3*) The loss and expenses may be recovered from the defaulting purchaser as if they were an arrear under this Regulation

(*4*) Where the property on the re sale is sold for a higher price than at the former sale, the increase shall be credited to the revenue-defaulter

Attachment and Sale of Defaulter's Immoveable Property

30 When the arrear has not been paid pursuant to the terms of the notice of demand, and no arrangement for securing the payment thereof has been entered into to the satisfaction of the Commissioner, or of an officer empowered by the Commissioner in this behalf, the Commissioner, or an officer empowered by the Commissioner in this behalf, may order the attachment of the defaulter's land or other immoveable property

Time for making at tachment

31 (*1*) The attachment shall be made by posting a notice thereof on some conspicuous part of the property

Procedure in attach ment

The Coorg Revenue Regulation, 1889

(Attachment and Sale of Defaulter's Immoveable Property —Sections 32-38)

(*a*) The notice shall set forth—

(*a*) the matters stated in clauses (*b*) and (*c*) of section 9, sub-section (*1*),

(*b*) a description of the property attached, and

(*c*) a warning to the defaulter that, unless the arrear is paid on or before a day to be specified in the notice, the property will be liable to be brought to sale

(*3*) The attachment shall be further notified by beat of drum on the property and by posting a copy of the notice on a conspicuous place in the nad office and publishing the notice, if the Commissioner so directs, in the local official Gazette

Power to assume management of attached property

32 (*1*) The Commissioner or other officer ordering the attachment may, at the time of the attachment or at any time during the attachment assume the management of the property attached

(*2*) In that case the Commissioner shall appoint an agent with a proper establishment to manage the property, and shall give the agent a certificate of appointment, with written instructions under his signature and the expenses of management shall be defrayed out of the income of the property

Provided that, where the property is too inconsiderable to admit of its being charged with the expense of maintaining an agent and his establishment, it shall be committed to the care of such officer as the Commissioner may appoint and that officer shall be subject to all the provisions of this Regulation with respect to agents

Notice of assumption of management

33. Notice of the assumption of management shall forthwith be served on the defaulter in the manner prescribed for the service of a notice of demand, and shall be notified by beat of drum on the property and by posting a copy of the notice to the defaulter on a conspicuous place in the nad office and publishing the notice, if the Commissioner so directs, in the local official Gazette

Duties of managing agent.

34. (*1*) The agent shall during the continuance of the management collect the rents and profits due, or accruing due, upon the property

(*2*) He shall also keep accounts of all his receipts and disbursements, and shall submit the accounts and pay over the balance to the Commissioner, or to an officer empowered by the Commissioner in that behalf, monthly or whenever he is required by the Commissioner or officer to do so, and the defaulter shall be at liberty to inspect the accounts at all reasonable times, and to take copies thereof at his own expense without fee

Liability of agent to prosecution or suit

35 The defaulter may proceed by prosecution or suit against the agent in respect of any criminal or illegal act done by him to the injury of the defaulter or his property, and tenants shall have the same remedies against the agent in respect of any act done by him as they would have had against the defaulter if the act had been done by the defaulter

Effect of existing engagements between defaulter and tenants

36 (*1*) Engagements made between the defaulter and his tenants shall, subject to the provisions of sub section (*2*), be binding upon the Government during the attachment

(*2*) Engagements so made—

(*a*) collusively with a view to defeat or delay the effect of the attachment, or

(*b*) by way of lease at rates lower than the usual rates and not in good faith for the erection of factories or buildings or for the purpose of bringing waste land into cultivation, or

(*c*) after the attachment,

shall be void against the Government if the Commissioner so declares

Provided that any person aggrieved by a declaration of the Commissioner under this subsection may institute a suit against the Government to establish the validity of the engagement, and that all charges and incumbrances upon property which has been attached shall be postponed to the payment of the revenue and of expenses consequent on the accrual of any arrear thereof

Payments by tenants

37 Payments made by tenants before the date of the promulgation of the notice of the assumption of management to the defaulter, or to any person on his behalf, on account of rent or profits actually due at the time when the payments were made shall be valid against the Government, and all such payments made after the date of the promulgation of that notice, or falling due after but made before that date, shall be void against the Government, which may recover, as arrears of rent, the full amount of the payments from the tenants by whom they were made, leaving those tenants to sue the defaulter in a Civil Court

Withdrawal of attachment on liquidation of arrear

38 All sums received from the property attached, after payment of the current revenue and expenses of management, shall be carried to the credit of the defaulter in discharge of the arrear due at the time of assumption of management, and, as soon as the arrear has been so liquidated, the attachment shall be withdrawn and a full account rendered to the defaulter of all receipts and disbursements during its continuance

The Coorg Revenue Regulation, 1889

(*Attachment and Sale of Defaulter's Immoveable Property—Sections 39 47*)

Release of property by person interested

39 Any person claiming an interest in property which has been or is about to be attached for the recovery of an arrear may obtain its release by paying the arrear and, where the property has been attached and expenses of management have been incurred, those expenses, and any such payment, if made by a tenant, may be deducted from any rent then or afterwards due from him to the defaulter, and, if made by a mortgagee or other incumbrancer, shall constitute a debt from the defaulter to him and be a charge upon the property, but shall only take priority over other charges according to the date at which the payment was made

Power of Commissioner to order sale of attached property

40 If the Commissioner is of opinion that immoveable property attached under this Regulation, whether or not management thereof has been assumed, should be sold, he may order the sale and thereupon the provisions of the next following sections shall apply

Mode of sale

41 (*1*) The sale of the property shall be by public auction to the highest bidder

(*2*) The time and place of sale shall be fixed by the Commissioner, or by an officer empowered by the Commissioner in this behalf, and the time may be either before or after the expiration of the year in which the arrear accrued

(*3*) The Commissioner or officer aforesaid may from time to time postpone the sale

Proclamation of sale

42 (*1*) Before the sale the Commissioner, or an officer empowered by the Commissioner in this behalf, shall issue a notice thereof in English and in Kanarese stating whether the property is to be sold for the recovery of an arrear due in respect thereof or for the recovery of any other sum than such an arrear, and specifying the name of the defaulter, the amount of the arrear and the period in respect of which the arrear is due, the position and extent of the property and of the buildings, if any, thereon, the amount of the revenue assessed on the property or on its several parts, and the time, place and conditions of sale

(*2*) The notice shall be posted for one month at least before the sale on a conspicuous place in the Commissioner's office, the taluq office and the nad office, and on some conspicuous part of the property

(*3*) In the case of a coffee estate exceeding fifty acres in extent, and in any other case in which it may appear to the Commissioner to be desirable, a notice of the intended sale shall also be published at least one month before the sale in the local official Gazette or in one or more of the newspapers having a circulation in Coorg

Payment of purchase money

43. (*1*) A sum equal to fifteen per cent of the purchase money of the property shall on the day of the sale be deposited by the purchaser with the officer conducting the sale, and, where the remainder of the purchase money is not paid within thirty days from that day, the sum so deposited shall be liable to forfeiture by order of the Commissioner, and may, by a like order, be applied in reduction of the arrear for the recovery of which the sale was held

(*2*) Where the purchaser refuses or omits to deposit the sum, or to complete within thirty days from the day of the sale the payment of the remaining purchase money, the property shall be re sold at the risk and expense of the recusant or defaulting purchaser and the loss, if any, and expense which may attend his refusal or omission may be recovered from him as if they were an arrear under this Regulation

(*3*) Where the property on the re-sale is sold for a higher price than at the former sale, the increase shall be credited to the revenue defaulter

Agents to name their principals

44 (*1*) Any person bidding at a sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case to produce a written authority signed by his principal

(*2*) If the person does not comply with the requisition, his bid may be rejected

Tender of arrear up to sunset of last office day before sale

45 (*1*) The defaulter, or any person acting on his behalf or claiming an interest in the property, may, at any time before sunset on the last office day preceding the day fixed for the sale, pay to the officer who is to conduct the sale the full amount of the arrear and of the expenses of management, if any, and thereupon the sale shall be stayed

(*2*) Any such payment made by a tenant, or by a mortgagee or other incumbrancer, shall be deemed to be a payment under section 39

Report of sale to Commissioner

46 Every sale of immoveable property under this Regulation shall be reported to the Commissioner by the officer conducting it

Application to set aside sale

47 (*1*) At any time within thirty days from the date of the sale application may be made to the Commissioner to set aside the sale on the ground of some material irregularity or mistake in publishing or conducting it

(*2*) But a sale shall not be set aside on that ground unless the applicant proves to the satisfaction of the Commissioner that he has sustained substantial injury by reason of the irregularity or mistake

The Coorg Revenue Regulation, 1889

(*Attachment and Sale of Defaulter's Immoveable Property —Sections 48 55*)

Order confirming or setting aside sale

48 (*1*) After the expiration of thirty days from the date of the sale, if such application as is mentioned in the last foregoing section has not been made, or if such application has been made and rejected the Commissioner shall make an order confirming the sale and if such application has been made and allowed, the Commissioner shall make an order setting aside the sale

(*2*) An order of the Commissioner setting aside a sale under this section shall be final

(*3*) An order of the Commissioner confirming a sale under this section shall be final—

(*a*) on the expiration of thirty days from the date thereof if an appeal therefrom is not preferred to the Chief Commissioner within that period,

(*b*) on the disposal of an appeal so preferred when the appellate order of the Chief Commissioner confirms the order of the Commissioner

Refund of purchase money on setting aside of sale

49 Whenever a sale of property is set aside, the purchaser shall be entitled to receive back his purchase money

Fresh notice after postponement or on re-sale

50 A sale made after a postponement, and a re sale consequent on a purchaser's default under section 43 or on the setting aside of a sale, shall be made after the issue and promulgation of a fresh notice in the manner hereinbefore prescribed for the sale

On sale becoming absolute possession and certificate to be granted to purchaser

51 (*1*) After an order of the Commissioner confirming a sale has become final in manner aforesaid the Commissioner shall put the purchaser into possession of the property sold, and shall grant him a certificate to the effect that he has purchased that property

(*2*) Till the purchaser is put into possession, the property shall remain under attachment

(*3*) The certificate shall be deemed a valid transfer of the property, but need not be registered as a conveyance

(*4*) Any suit brought against the certified purchaser on the ground that the purchase was made on behalf of another person not the certified purchaser shall be dismissed with costs

(*5*) The person named in the certificate as purchaser of any immoveable property shall be liable for all instalments of revenue falling due in respect of the property after the order confirming the sale has become final

Application of proceeds of sale

52 (*1*) When the purchaser has been put into possession of the property sold, the proceeds of the sale shall be applied in the first place to the payment of any arrears due to the Government from the defaulter on the day on which the order confirming the sale became final, whether those arrears are of revenue or of sums recoverable as arrears of revenue or land revenue, and the surplus, if any, shall be paid to the person whose property has been sold, or, if the property was owned by more than one person, then to those persons either collectively or according to the extent of their respective interests, as the Commissioner thinks fit

(*2*) The surplus shall not, except under an order of a Court, be paid to any creditor of a person whose property has been sold

Effect on incumbrances of sale of property for an arrear due in respect thereof

53 (*1*) Subject to the provisions of this section with respect to engagements made between the defaulter and his tenants, immoveable property brought to sale under this Regulation for the recovery of an arrear due in respect thereof shall be sold free of all incumbrances, and all grants and contracts previously made by any person other than the purchaser in respect of the property shall become void as against the purchaser

(*2*) The provisions of section 36 with respect to the validity or invalidity, as against the Government, of such engagements as are referred to in that section shall, so far as they can be made applicable, apply as against the purchaser to such engagements as have been made between the defaulter and his tenants

Provided that an engagement which has not before the sale been declared under that section to be void shall not be liable to be set aside otherwise than by suit at the instance of the purchaser

Effect on incumbrances of sale of property for a sum other than an arrear due in respect thereof

54 When immoveable property is brought to sale under this Regulation for the recovery of any other sum than an arrear due in respect thereof the interests of the defaulter alone therein, as those interests existed immediately before the attachment of the property was notified, shall be sold, and no incumbrances created, or grants or contracts made, by him in good faith before the notification of the attachment shall be rendered invalid by the sale

Effect of sale on lands held revenue free or at favourable rates

55 When jama or umbli land, or other land held wholly or partially free of revenue and not being devarajodi land is sold under this Regulation, whether

The Coorg Revenue Regulation, 1889

(Attachment and Sale of Defaulter's Immoveable Property —Sections 56 58 Appointment of Officers —Section 59 Application of Regulation —Sections 60 61 Supplemental Provisions —Sections 62 64)

for the recovery of an arrear due in respect thereof or for the recovery of any other sum, the privileges attaching to the tenure of the land with respect to the assessment of land revenue shall be extinguished by the sale

Provisions with respect to rent and profits of property sold

56 (*1*) The person named in a certificate as purchaser of any immoveable property shall be entitled to any rent or profits falling due in respect of the property after the day on which the order confirming the sale has become final notwithstanding that payment thereof may have been made on or before that day

(*2*) So long after that day as any demand of the Government against the defaulter or the property remains unsatisfied the Government shall be entitled to any arrears of rent or profits which fell due in respect of the property on or before that day

(*3*) When all such demands have been satisfied, the defaulter shall be entitled to such of those arrears as may then be outstanding and may recover them by any process, except attachment of crops or products which may be used by a landholder for the recovery of arrears of rent or profits

(*4*) The defaulter shall also be entitled to any balance of the rents or profits of the property which, after satisfaction of all such demands as aforesaid may remain in the possession of the Government after the day on which the order confirming the sale has become final

Sale of part only of property

57 Subject to the foregoing provisions of this Regulation the whole or any part of the immoveable property of a defaulter may be sold in discharge of an arrear

Provided that, where the property consists of a farm which is readily divisible into compact blocks no more of the property shall be sold than may be sufficient to discharge the arrear with expenses of management if any

Postponement of sale on tender of security

58 (*1*) If a defaulter tenders security, the Commissioner, or an officer empowered by the Commissioner in this behalf may accept it, and postpone the sale of the defaulter's immoveable property upon such conditions and till such time as the Commissioner or officer may appoint

(*2*) In the event of default being made in the performance of any of those conditions, the Commissioner or officer may after the issue and promulgation of a fresh notice as required by section 50, sell the property and proceed against the defaulter or his surety or both for the recovery of any balance of the arrear and expenses of management, if any

Appointment of Officers

Appointment of officers

59 (*1*) Subject to the control of the Chief Commissioner, the Commissioner shall appoint the officers by whom notices, summonses and other processes are to be issued and by whom they are to be served or otherwise executed

(*2*) The Chief Commissioner may prescribe the officers, by name or by class, whom the Commissioner may empower to distrain, attach or sell property under this Regulation, and may, if necessary, appoint officers for the purpose

(*3*) The officers referred to in this section shall be subject to the control of the Commissioner

Application of Regulation

Mode of enforcing payment by sureties

60 All the remedies prescribed by this Regulation in the case of a defaulter may be employed against his surety and the Commissioner, or an officer empowered by the Commissioner in this behalf, may enforce those remedies simultaneously with or either previously or subsequently to, their enforcement against the principal

Provided that no more than the arrear and expenses of management, if any, shall be realized from both

Recovery of fees and other dues

61 Fees or other dues payable by any person to or on behalf of village servants employed on revenue or police duties may be recovered in the same manner as an arrear under this Regulation

Supplemental Provisions

Receipts for revenue

62 (*1*) Every person making a payment of revenue shall be entitled to a receipt therefor signed by the Commissioner or by an officer empowered by the Commissioner in this behalf

(*2*) The receipt shall state the name of the person making the payment and the subject matter in respect of which the payment is made, and in the case of land revenue, shall describe the land on which the revenue was due and set forth the names of the persons entered in respect thereof in the settlement account

Bar to jurisdiction of Civil Courts with respect to proceedings in assessment

63 No Civil Court shall take into consideration or decide any question as to the rate of land-revenue payable to the Government, or as to the amount of assessment fixed or to be hereafter fixed by the Government

Suits by persons aggrieved by other proceedings

64 (*1*) Except as provided by this Regulation, nothing therein shall be construed to prevent a person deeming himself aggrieved by any proceeding thereunder from suing in a Civil Court for redress

(*2*) Such a suit must be instituted within six months from the date of the accrual of the cause of action, and not afterwards

S HARVEY JAMES,
Secretary to the Government of India

No 432*E* —The following orders of Her Majesty the Queen in Council, which appeared in the *London Gazette* of the 21st December, 1888, are re-published for general information —

AT THE COURT AT WINDSOR,

The 17th day of December, 1888

PRESENT,

THE QUEEN'S MOST EXCELLENT MAJESTY

LORD PRESIDENT

LORD PRIVY SEAL

MARQUESS OF LOTHIAN

WHEREAS by Treaty, grant, usage, sufferance, and other lawful means, Her Majesty the Queen has power and jurisdiction in relation to Her Majesty's subjects, and others, within the dominions of His Highness the Sultan of Zanzibar

And whereas by the Zanzibar Order in Council of 1884 provision has been made for the exercise of such power and jurisdiction

And whereas a state of war exists between Her Majesty and other Powers in belligerent alliance with the State of Zanzibar on the one hand and insurrectionary subjects of the Sultan and other African tribes and populations on the other hand, and a blockade of the coast of Zanzibar has been proclaimed, and is to be enforced by the naval forces of Her Majesty and of the other allied Powers co operating for that purpose

NOW, THEREFORE, Her Majesty by virtue and in exercise of the powers in this behalf by the Foreign Jurisdiction Acts, 1843 to 1878, or otherwise, in Her Majesty vested, is pleased by and with the advice of Her Privy Council to order, and it is hereby ordered as follows —

1 This Order may be cited as "The Zanzibar (Prize Court) Order in Council 1888"

2 This Order shall come into operation as from its date, and shall be forthwith published in the "London Gazette," and shall continue in operation until the termination of the recited state of war and blockade shall have been notified by the Secretary of State in the "London Gazette" and thereafter, for the purposes of any then pending causes or matters, until the same are finally determined and concluded

3 The Consul General shall for the purposes of this Order have all such jurisdiction as ordinarily belongs to a Court of Vice Admiralty in Her Majesty's possessions abroad, and shall hold a Court for the purposes of this Order (hereinafter referred to as "the Court"), and shall have authority to take cognizance of, and judicially proceed in, matters of prize

4 Part II of "The Naval Prize Act, 1864," and Part III, sections 34 to 37, both inclusive (set forth in the Schedule to this Order), so far as the same are applicable, shall have effect as if they were set forth in this Order

5 Expressions defined in section 2 of "The Naval Prize Act, 1864," (set forth in the Schedule to this Order), shall have the same meanings for the purposes of the application of the provisions of that Act to this Order

6 An appeal shall lie to Her Majesty in Council from any Order or Decree of the Court under this Order, in the manner, and subject to the provisions, directed by sections 5 to 8 (both inclusive), of "The Naval Prize Act, 1864" (set forth in the Schedule to this Order)

7. The Consul-General shall appoint a Registrar and a Marshal of the Court,

8 The Consul General shall have power from time to time to make rules for regulating the procedure and practice in the Court, and the fees to be taken therein Such rules shall be submitted to the Secretary of State, and shall have effect unless and until disapproved by him

9 Subject to the provisions of this Order, and of the provisions of "The Naval Prize Act, 1864," applied by this Order, the provisions of the Zanzibar Order in Council

of 1884 shall be applicable for the purposes of this Order, and the Court acting under this Order is, for the purposes of the last-mentioned provisions, included in the expression "the Court" Provided that no appeal shall lie in any cause or matter of prize otherwise than in accordance with this Order

10 A printed copy of this Order shall be kept exhibited in the office of the Consul-General, and printed copies thereof shall be sold at such reasonable price as the Consul General directs

And the Most Honorable the Marquess of Salisbury, and the Right Honourable Viscount Cross and the Lords Commissioners of the Admiralty are to give the necessary directions herein as to them may respectively appertain

C I PEEL

SCHEDULE

"NAVAL PRIZE ACT, 1864"

Section 2 In this Act—

The term "The Lords of the Admiralty" means the Lord High Admiral of the United Kingdom, or the Commissioners for executing the office of Lord High Admiral

The term "The High Court of Admiralty" means the High Court of Admiralty of *England*

The term "any of Her Majesty's ships of war" includes any of Her Majesty's vessels of war, and any hired armed ship or vessel in Her Majesty's service

The term "officers and crew" includes Flag Officers, Commanders and other officers, engineers, seamen, marines, soldiers, and others, on board any of Her Majesty's ships of war

The term "ship" includes vessel and boat, with the tackle, furniture, and apparel of the ship, vessel, or boat

The term "ship papers" includes all books, passes, sea briefs, charter parties, bills of lading cockets, letters, and other documents and writings delivered up or found on board a captured ship

The term "goods" includes all such things as are by the course of Admiralty and law of nations the subject of adjudication as prize (other than ships)

5 An appeal shall lie to Her Majesty in Council from any Order or Decree of a Prize Court, as of right in case of a final Decree, and in other cases with the leave of the Court making the Order or Decree

Every appeal shall be made in such manner and form, and subject to such Regulations (including Regulations as to fees, costs, charges and expenses) as may for the time being be directed by Order in Council, and in the absence of any such Order or so far as any such Order does not extend, then in such manner and form and subject to such Regulations as are for the time being prescribed or in force respecting maritime causes of appeal

6 The Judicial Committee of the Privy Council shall have jurisdiction to hear and report on any such appeal, and may therein exercise all such powers as for the time being appertain to them in respect of appeals from any Court of Admiralty Jurisdiction, and all such powers as are under this Act vested in the High Court of Admiralty, and all such powers as were wont to be exercised by the Commissioners of Appeal in prize causes

7 All processes and documents required for the purposes of any such appeal shall be transmitted to, and shall remain in the custody of, the Registrar of Her Majesty in Prize Appeals

8 In every such appeal the usual inhibition shall be extracted from the Registry of Her Majesty in Prize Appeals within three months after the date of the Order or Decree appealed from if the appeal be from the High Court of Admiralty, and within six months after that date if it be from a Vice-Admiralty Prize Court

The Judicial Committee may, nevertheless, on sufficient cause shown, allow the inhibition to be extracted, and the appeal to be presented after the expiration of the respective periods aforesaid

16 Every ship taken as prize, and brought into port within the jurisdiction of a Prize Court, shall forthwith, and without bulk broken, be delivered up to the Marshal of the Court

If there is no such Marshal, then the ship shall be in like manner delivered up to the principal officer of Customs at the port

The ship shall remain in the custody of the Marshal, or of such officer, subject to the Orders of the Court

17 The captors shall, with all practicable speed after the ship is brought into port, bring the ship papers into the Registry of the Court

The officer in command, or one of the chief officers of the capturing ship, or some other person who was present at the capture, and saw the ship papers delivered up or found on board, shall make oath that they are brought in as they were taken, without fraud, addition, subduction, or alteration, or else shall account on oath to the satisfaction of the Court for the absence or altered condition of the ship papers, or any of them

Where no ship papers are delivered up or found on board the captured ship, the officer in command, or one of the chief officers of the capturing ship, or some other person who was present at the capture, shall make oath to that effect

18 As soon as the affidavit as to ship papers is filed a monition shall issue, returnable within twenty days from the service thereof, citing all persons in general to show cause why the captured ship should not be condemned

19 The captors shall, with all practicable speed after the captured ship is brought into port, bring three or four of the principal persons belonging to the captured ship before the Judge of the Court, or some person authorized in this behalf, by whom they shall be examined on oath on the standing interrogatories

The preparatory examinations on the standing interrogatories shall, if possible, be concluded within five days from the commencement thereof

20 After the return of the monition the Court shall, on production of the preparatory examinations and ship papers, proceed with all convenient speed either to condemn or to release the captured ship

21 Where, on production of the preparatory examinations and ship papers it appears to the Court doubtful whether the captured ship is good prize or not, the Court may direct further proof to be adduced, either by affidavit or by examination of witnesses, with or without pleadings, or by production of further documents, and on such further proof being adduced the Court shall with all convenient speed proceed to adjudication

22 The foregoing provisions, as far as they relate to the custody of the ship and to examination on the standing interrogatories, shall not apply to ships of war taken as prize

23 At any time before final decree made in the cause, any person claiming an interest in the ship may enter in the registry of the Court a claim, verified on oath

Within five days after entering the claim, the claimant shall give security for costs in the sum of 60*l*, but the Court shall have power to enlarge the time for giving security, or to direct security to be given in a larger sum, if the circumstances appear to require it

24 The Court may, if it thinks fit, at any time direct that the captured ship be appraised

Every appraisement shall be made by competent persons sworn to make the same according to the best of their skill and knowledge

25 After appraisement the Court may, if it thinks fit, direct that the captured ship be delivered up to the claimant on his giving security to the satisfaction of the Court to pay to the captors the appraised value thereof in case of condemnation

26 The Court may at any time, if it thinks fit on account of the condition of the captured ship, or on the application of a claimant, order that the captured ship be appraised as aforesaid (if not already appraised), and be sold

27 On or after condemnation, the Court may, if it thinks fit, order that the ship be appraised as aforesaid (if not already appraised), and be sold

28 Every sale shall be made by or under the superintendence of the Marshal of the Court or of the officer having the custody of the captured ship

29 The proceeds of any sale made either before or after condemnation, and after condemnation the appraised value of the captured ship, in case she has been delivered up to a claimant on bail, shall be paid under an order of the Court either into the Bank of England to the credit of Her Majesty's Paymaster General, or into the hands of an official accountant (belonging to the Commissariat or some other Department) appointed for this purpose by the Commissioners of Her Majesty's Treasury, or by the Lords of the Admiralty, subject in either case to such Regulations as may from time to time be made by Order in Council as to the custody and disposal of money so paid

30 The captors may include in one adjudication any number, not exceeding six, of armed ships not exceeding 100 tons each, taken within three months next before institution of proceedings

31 The foregoing provisions relating to ships shall extend and apply, *mutatis mutandis*, to goods taken as prize on board ship, and the Court may direct such goods to be unladen, inventoried, and warehoused

32 If the captors fail to institute or to prosecute with effect proceedings for adjudication a monition shall, on the application of a claimant, issue against the captors, returnable within six days from the service thereof, citing them to appear and proceed to adjudication, and on the return thereof the Court shall either forthwith proceed to adjudication, or direct further proof to be adduced as aforesaid, and then proceed to adjudication

33 Where any person, not an original party in the cause, intervenes on appeal, he shall enter a claim, verified on oath, and shall give security for costs

34 Where, in an expedition of any of Her Majesty's naval or naval and military forces against a fortress or possession on land, goods belonging to the State of the enemy, or to a public trading Company of the enemy exercising powers of Government, are taken in the fortress or possession, or a ship is taken in waters defended by or belonging to the fortress or possession, a Prize Court shall have jurisdiction as to the goods or ship so taken, and any goods taken on board the ship, as in case of prize

35 Where any ship or goods is or are taken by any of Her Majesty's naval or naval and military forces while acting in conjunction with any forces of any of Her Majesty's allies, a Prize Court shall have jurisdiction as to the same as in case of prize, and shall have power, after condemnation, to apportion the due share of the proceeds to Her Majesty's ally, the proportionate amount and the disposition of which shall be such as may from time to time be agreed between Her Majesty and Her Majesty's ally

36 Before condemnation a Petition on behalf of asserted joint captors shall not (except by special leave of the Court) be admitted, unless and until they give security to the satisfaction of the Court to contribute to the actual captors a just proportion of any costs charges, or expenses or damages that may be incurred by or awarded against the actual captors on account of the capture and detention of the prize

After condemnation such a Petition shall not (except by special leave of the Court) be admitted unless and until the asserted joint captors pay to the actual captors a just proportion of the costs, charges, and expenses incurred by the actual captors in the case, and give such security as aforesaid, and show sufficient cause to the Court why their Petition was not presented before condemnation

Provided, that nothing in the present section shall extend to the asserted interest of a Flag Officer claiming to share by virtue of his flag

37 A Prize Court, on proof of any offence against the law of nations or against this Act, or any Act relating to naval discipline, or against any Order in Council or Royal Proclamation, or of any breach of Her Majesty's instructions relating to prize, or of any act of disobedience to the orders of the Lords of the Admiralty, or to the command of a superior officer, committed by the captors in relation to any ship, or goods taken as prize, or in relation to any person on board any such ship, may, on condemnation, reserve the prize to Her Majesty's disposal, notwithstanding any grant that may have been made by Her Majesty in favour of captors

AT THE COURT AT WINDSOR,

This 17th day of December, 1888

PRESENT,

THE QUEEN'S MOST EXCELLENT MAJESTY

LORD PRESIDENT

LORD PRIVY SEAL

MARQUESS OF LOTHIAN

WHEREAS by Treaty, grant, usage, sufferance, and other lawful means, Her Majesty the Queen has power and jurisdiction in relation to Her Majesty's subjects and others within the dominions of His Highness the Sultan of Zanzibar

NOW, THEREFORE, Her Majesty, by virtue and in exercise of the powers in this behalf by the Foreign Jurisdiction Acts, 1843 to 1878 or otherwise in Her Majesty vested, is pleased by and with the advice of Her Privy Council to order, and it is hereby ordered as follows —

1 This Order may be cited as "The Zanzibar Order in Council, 1888," and shall be construed as one with the Zanzibar Order in Council of 1884, herein called the principal Order

2 The Consul General shall have power from time to time to make Regulations for peace, order, and good government, and for enforcing the observance of any Treaty or Convention to which Her Majesty may be a party, and for enforcing the observance of any local law or decree for the time being in force made by or under the authority of the Sultan of Zanzibar Every such Regulation shall be binding on all British subjects and British protected persons in Zanzibar, and if any such subject or person contravenes any such Regulation he shall be deemed guilty of an offence against the principal Order, and shall, on conviction, before a Court of competent jurisdiction, be liable to be punished with fine which may extend to 1,000 rupees, or with imprisonment which may extend to two months, or both, and the Court may declare any goods in respect of which such regulation has been contravened to be forfeited, and may enforce such forfeiture in any mode in which any judgment of the Court may be enforced or executed

Every such Regulation shall be published and exhibited by the Consul General in his public office during one calendar month, and shall come into operation at the expiration of one calendar month after the first publication thereof, or at such earlier time, not being less than seven clear days from the first publication thereof, as may be appointed in and by such Regulation

Every such Regulation shall, as soon as practicable after the making thereof, be transmitted to the Secretary of State, who may disallow the same or any part thereof and upon such disallowance being signified to the Consul-General, the Regulation or part disallowed shall cease to have effect, but not so as to invalidate further or otherwise than the Secretary of State or the Consul-General directs anything done or suffered before such signification is made or before effect can be given thereto

A printed copy of any such Regulation purporting to be sealed with a Consular seal, or to be verified by the signature of the Consul General, or of a judicial assistant, shall be evidence of the due making and publication of such Regulation

Printed copies of every such Regulation for the time being in force shall be supplied for sale at the office of the Consul General at a price not exceeding 1 rupee for the whole of such Regulations

And the Most Honourable the Marquess of Salisbury, and the Right Honourable Viscount Cross, and the Lords Commissioners of the Admiralty are to give the necessary directions herein as to them may respectively appertain

C L PEEL

H M DURAND,
Secretary to the Government of India

PRESIDENCY BANKS, &c

The 21st February, 1889

No. 949.

RESOLUTION—By the Government of India, Department of Finance and Commerce

READ the undermentioned correspondence with the Bombay Chamber of Commerce regarding the policy of Government in dealing with its cash balances —

Letter from the Chamber of Commerce, dated 9th August 1888

Letter to the Chamber of Commerce, No 4972, dated 8th September 1888

Letter from the Chamber of Commerce, dated 4th October 1888

Letter to the Chamber of Commerce, No 234, dated 12th January 1889, and enclosure

---

ORDER —Ordered, that this correspondence be published in the *Gazette of India* for general information

---

Dated 9th August 1888

From—The Secretary to the Chamber of Commerce Bombay

To—The Secretary to the Government of India DEPARTMENT OF FINANCE AND COMMERCE

I am directed by the Committee of the Chamber to address you with regard to the recent heavy withdrawals of Government funds from the Bank of Bombay Without, as the Committee understand, any preliminary notice the Government withdrew from the Bank the sum of about one and a-half crores of rupees during the week ending 28th ultimo, thereby creating an unexpected pressure in the money market and an advance in rates of discount of about two per cent per annum My Committee believe that Government must have had good and sufficient grounds for their action in this matter, and they have no doubt, when the reasons are explained, that the withdrawals were necessitated by the exigencies of the public service They are of opinion, however, that steps should be taken to avoid unexpected demands of this character, which might, under other circumstances, lead to serious results in business, and, possibly during the busy season, to financial complications These withdrawals, moreover, attract attention to a subject which has more than once been under the consideration of this Chamber in the shape of the large unemployed balances in the Government Treasuries throughout the country During the past year these balances have aggregated in round figures from 10½ to 13¾ crores of rupees, and my Committee think it worthy of the most careful consideration of the Finance Minister whether this enormous amount of money could not be made available for the purposes of trade, and thereby indirectly for the benefit of the country at large

2 In England, by the mode of finance adopted by the Government, the balances at the disposal of the treasury are made available for trade purposes through the Bank of England, and it seems to my Committee that a considerable portion of this country's funds might equally be utilized if arrangements were made to that end No doubt, a large floating balance is required for public purposes, but if the managements of the three Presidency Banks were consulted, they would probably be able to indicate some means by which the trade and commerce of the country could have the benefit, during a portion of the year at least, of the at present unemployed treasury balances

---

No 4972, dated 8th September 1888

From—The Offg Secretary to the Government of India DEPARTMENT OF FINANCE AND COMMERCE,

To—The Secretary to the Chamber of Commerce, Bombay

I am directed to acknowledge receipt of your letter of August 9th regarding the withdrawal of money in July from the Bank of Bombay to the Reserve Treasury

2 It is observed that your letter raises the general question of the extent to which the Government balances should be placed in deposit at the Presidency Banks A definite policy in this matter was laid down at the time when the Presidency Banks Act of 1876 was under discussion, and nothing has since occurred to disturb the foundations on which it rests The following extracts from documents of that date will explain it to the Chamber of Commerce

Extract paragraphs 7, 8, and 9 from a Despatch from the Government of India (in the Financial Department), to Her Majesty's Secretary of State for India,—No 256, dated 30th June 1874

Paragraph 7 —We think it doubtful, moreover, whether it is any real advantage to trade that large Government balances should be kept in he hands of the Banks It appears to us that an element of uncertainty is thereby introduced into the money market not unlikely to aggravate commercial difficulties at a time of tightness

8 An amount of capital, which is large relatively to the whole capital engaged in trade at the Presidency towns is supplied by Government but Government, for reasons quite unconnected with trade, may have to withdraw these balances suddenly

In this case a sudden demand ensues for capital to replace that which is thus removed the rate of discount rises, not from any commercial reason but from the accident of State necessities and if this should occur at a time of commercial pressure it would precipitate a crisis which otherwise might not occur If Government did not supply this capital to the trade it would be found by private individuals through Banks or in some other way

9 Had the Government funds in the hands of the Banks in January last been limited to a fair working balance and had we had a reserve in our own hands we think it may be assumed that the market rise in the rates of discount which has occurred would not have taken place, and our business would have been transacted without disturbing trade operations

Extract paragraph 13 from a Despatch from the Secretary of State for India, to the Government of India,—No 225, dated 6th May 1875

Paragraph 13—The time has come when Her Majesty's Government must consider how far these relations shall continue Originally they were probably devised to provide banking facilities for the commerce of the country which it would have been otherwise unable to procure The development of trade has lessened the cogency of this reason and I agree with Your Excellency in the doubts you express as to the real value of artificial facilities which arise from large Government balances with the Banks Capital supplied by Government and not representing the savings of the community is a resource on whose permanence no reliance can be placed and which therefore tends to lead traders into dangerous commitments It gives ease for a time and produces a prosperity which is at the mercy of an accident A political exigency suddenly withdraws the adventitious resource and the commerce which trusted to it finds itself pledged beyond what its own resources can make good

Extract from the HON'BLE SIR W MUIR'S *Speech in the Legislative Council,—dated the 14th December 1875*

Further it was urged that the necessity for connection with the State no longer existed It might have been expedient or even indispensable in the poverty of mercantile resources at the beginning of the century, to support the credit of the Bank by Government capital and direction But this had long ceased to be the case and there were now abundant materials altogether apart from the State for banking upon a secure and independent basis

Extract from the HON'BLE MR BULLEN SMITH'S *Speech in the Legislative Council,—dated the 14th December 1875*

Although he (Mr Bullen Smith) conceived there might be difference of opinion as to whether or not there did exist at the present time a real necessity for the severance of that connection which had so long and with such great advantage subsisted between the Government and these Banks yet he was for his part somewhat careless to enquire as to the precise need for that severance The Banks had derived great advantage from that connection in times past but he thought the moral support which the Government lent to the Banks besides its material support was now no longer required He thought these institutions were now in a position to go on alone which they were not at the time of their original establishment and that support which was in the early days almost necessary was now no longer required

3 The policy thus laid down the Government of India cannot consider to be open to discussion The Government cannot in its own interests revert to the system by which its use of its own balances was dependent upon the policy of the Directors of the Presidency Banks, based as it necessarily was upon commercial necessities, and not upon anticipations of State demands Nor is it, in the opinion of the Governor General in Council, advisable, in the interests of the commercial public, that the state of the money market should be subject to the violent fluctuations and the entire dependence upon Government operations, which would be the result of placing the entire Government balances at the disposal of the Presidency Banks

1 The figures of your letter, I am to remark, give a somewhat erroneous impression of the amount of money which could under any circumstances be placed at the disposal of trade A reference to paragraph 156 of the last Financial Statement will shew that the 10½ crores (the real figure was under 10,30 lakhs) afforded very little margin over the amount necessary to carry on the Treasury business of the country In fact, at the time when that balance was recorded, the balance in the reserve treasuries amounted to 83 lakhs only, and this is therefore the only addition which, on the policy proposed by the Chamber, could at that time have been made, to the amounts, stated in the margin, which under existing arrangements were available for the purposes of trade

Head Offices and Branches	R
Bank of Bengal	1 72 54 000
Bombay	71 34 000
Madras	39 80 000
	2 83 68 000

5 The example of the Home Government, which is quoted in your letter, is for more than one reason entirely inapplicable to India In the first place, the Government balances in England are not liable to the great fluctuations which arise in this country from the fact that the revenue is most unequally distributed over the year, and, in the second place, the Government balances in England are an item that disappears in the general account of available resources, while in India they amount to considerably more than half of the available cash of the Presidency Banks When the Government in England obtains assistance from the money market, the transaction is a mere ripple on the surface of the commercial world, when the Government of India makes a similar appeal the transaction is one which, as your letter shews, dominates the whole condition of the money market, notwithstanding the fact that six weeks' notice of the demand has been given

6 With these observations on the question of general policy, I am now to refer to the transactions of last July The arrangements of Government at the time of raising a loan are devised for the express purpose of enabling the demand to fall easily upon the money market Ample notice is given, and the instalments are spread over two or three months The interests of Government are the same as the interests of those who finance its loans, and the Government has always been careful that no pressure on its part shall affect the facility with which the money is raised The Chamber are doubtless aware that there is a stipulated maximum fixed for the Government balances, which in the case of the Bank of Bombay is 50 lakhs, but the Government balances at the Banks are necessarily swollen by the loan operations, and

the practice of Government has been to let the Banks retain as much in excess of the stipulated maximum as they desired, provided they paid interest upon it The fairness of this condition is obvious, the money is wanted for advances on the new paper, which money the allottees in their turn pay into the Government account The Banks cannot reasonably claim—neither have they on previous occasions claimed—that the Government should, while it is itself paying interests to the allottees, lend the banks the same money without interest, in order that they may use it to make advances at interest to the allottees, and it is obvious that so long as the Government offers to advance its money at the Bank's minimum rate, it cannot be charged with any action tending to raise that minimum rate

7 The Chamber of Commerce seem to have been wrongly informed as to the facts of the present case, for the Government on this, as on former occasions, have acted throughout in concert with the Presidency Bank From July 6th to 10th, the Government balances were increased by payments on account of the loans from 77 to 229 lakhs Next day—that is, on July 11th—the Secretary of the Bank wrote to the Accountant General with the object of retaining this balance for a time, as, according to ordinary practice, he expected to be called upon to reduce it The Accountant General replied by stating that he proposed to make considerable withdrawals, but that, if the Bank desired to retain an excess over 70 lakhs, it could do so by paying interest on the amount according to previous practice Finally, at the desire of the Bank, which did not wish to hold money at interest, another arrangement was substituted, which provided for the withdrawal of the money during the three weeks from 14th July to 4th August The Accountant General accepted the proposal which the Bank put forward in this respect, making in it one modification only—namely, that he took on 11th July 110 lakhs instead of one crore, but as he at the same time placed 20 lakhs at the Bank's call at the Reserve Treasury, he practically withdrew only 20 lakhs more than the Bank offered

8 It will, no doubt, be admitted that these transactions are somewhat inaccurately described in the Chamber's letter, which says that—

> Without any preliminary notice the Government withdrew from the Bank the sum of about 1½ crores of rupees during the week ending 28th ultimo thereby creating an unexpected pressure and an advance in the rate of discount of about 2 per cent

9 The circumstances were certainly very unusual under which over 2 crores of the loan was paid up in Bombay by the date of the first instalment and it is not surprising that a temporary difficulty should have arisen from them For these circumstances the Government is in no way responsible, but the task of getting out of the difficult position thus created fell upon the Accountant General and the Bank of Bombay With the action of the latter the Government is not at present concerned, but the mere facts that the Bank's minimum rate never stood in danger of being raised, that the Government balance from the 7th till the end of the month never went below 75 lakhs, though the fixed maximum is 50 only, and that the Bank did not find it necessary to borrow the money offered it by the Accountant General are evidence of the carefulness with which the Accountant General resumed for the Government the control over its own balances The fact that the Chamber assign to the withdrawal of the 1½ crores, a date which is a fortnight later than that of its actual occurrence would seem to show that it did not make itself manifest by any sudden stringency in the money market

10 The reference in your letter to an advance of about 2 per cent in the rate of discount is not understood The Bank's minimum rate has been steady at 4 per cent from the commencement of July till now If the Chamber's letter implies that large advances were being made at 2 per cent, while the Directors of the Bank of Bombay maintained the official rate at 4 per cent, then there is ample reason to think that the withdrawal of the Government balances was demanded just as much in the interest of the steadiness of the market as in the interest of Government, and the Government would have been justly chargeable with fostering an incipient speculation if it had departed from its prescribed methods, and left in the Bank's coffers the large sums of money, which had been collected during the month of preparation, by those who intended to subscribe to its loan The incident, in short, is an example of the danger pointed out in the above quoted Despatch of the Secretary of State, and furnishes an additional proof of the wisdom of the policy which has been described in the opening paragraphs of this letter

---

Dated 4th October 1888

From—The Secretary to the Chamber of Commerce Bombay

To—The Secretary to the Government of India DEPARTMENT OF FINANCE AND COMMERCE

I am directed by the Committee of the Chamber to acknowledge the receipt of your letter No 4972 of 8th ultimo, and in so doing to express their thanks for the detailed explanations therein given of the circumstances attending the withdrawals of the Government balances from the Bank of Bombay in July last

2 Being dependent for their information regarding the fluctuations in the treasury balances on the weekly published statements of the Bank of Bombay, the Committee perceive that they were in error in putting the withdrawals at 180 lakhs instead of 140 lakhs, and furthermore, that the action of the Accountant General in making these withdrawals had not been adopted, as the outside mercantile community generally at the time believed, without some preliminary intimation to the responsible officials of the Bank My Committee respectfully submit, however, that any misapprehension they may have inadvertently expressed on these points does not materially affect the main issue respecting which they took the liberty of addressing Government The broad fact remains that by the withdrawals in question, and notwithstanding the precautions which Government were apparently desirous of exercising the money market was suddenly and unexpectedly transformed from a position of exceptional quietude and ease to one of extreme stringency, and the market rate of discount was practically advanced in one day, without the preliminary indications which generally accompany such

movements, from about 2 to 4 per cent per annum Happily, as I have already had the honour to state, this unforeseen advance in the value of money was unattended as it might easily under other circumstances have been by any general disaster, but serious loss was occasioned to banking institutions and private individuals for which it is now manifest there was no occasion, and it will be in the interests of Government and tend to inspire confidence in investors if provision be made to avoid the recurrence of a similar state of affairs in connection with future loans

3 The fact that the Bank of Bombay minimum rate remained unchanged throughout at 4 per cent, is relied upon as showing that no such stringency as my Committee alleged really existed, but this view is based on the misconception—plainly stated in the tenth paragraph of your letter—that no money market exists apart from the Bank, and to this misconception, very possibly, the conditions which led to the exceptional pressure may be entirely attributable

4 Had Government been aware, as was the case, that money in the open market had only been worth from one and a half to two per cent per annum for a month previous to the issue of the loan they would have perceived that the privilege of being allowed to pay up instalments to the loan in advance, and thereby secure 4 per cent interest, was bound to attract unusually rapid payment, and in view of this contingency, would doubtless have instructed the Accountant General to extend his withdrawals over a longer period

5 The circumstances were no doubt unusual, but with a due appreciation of the true financial situation the ultimate results were certainly not improvable, and the Committee of the Chamber do not see that in making the concession which the Secretary of the Bank of Bombay at the time solicited, the Accountant General would have been doing more than the occasion demanded It is unquestionably to the interest of Government that subscriptions to their loans should be attended by as little risk as possible, and if by spreading the withdrawals of the unexpectedly large sum at his disposal over three weeks or a month, the Accountant General had it in his power to obviate any adverse contingency it would have been sound policy to have conceded the arrangement Government not having contemplated so rapid a payment of the loan could not have been in emergent want of the money, and any charge which the Bank might have been prepared to pay would have been so much profit, as it would not otherwise have been employed at interest The transaction no doubt would, as indicated in your letter, have trenched upon the strict letter of the prescribed relations between Government and the Presidency Bank, but the position was exceptional and might fairly, therefore, claim exceptional treatment More my Committee would not have contended for in connection with the transaction now past, and they merely ask that similar conditions may meet with adequate consideration in the future

6 As to the general question of the advisability or otherwise of utilising some portion of the unemployed treasury balances for trade purposes, the Committee regret that for reasons adduced the Government of India do not consider their present policy as open to discussion I am directed to say, however, that they trust they may not be considered wanting in due respect for the decision of Her Majesty's Secretary of State for India if they point out that the financial conditions prevailing in 1871 when the basis of the Government relations with the Presidency Banks was laid down, are widely different from those at present existing, and that the opinions, expressed about the same period by the Honourable Sir W Muir and the Honourable Mr Bullen Smith, while sound and entitled to all consideration at the time, have now lost much of their force Trade and industrial enterprises have undergone enormous expansion in the interval, necessitating and attracting banking facilities in proportion, so that while at certain seasons of the year there is an active demand for capital which would enable Government to obtain a remunerative return on their unemployed funds, their placing same at the disposal of a market so greatly developed in resources and extent would not be attended by the same risks as were rightly held to be involved thirteen or fourteen years ago Nor in so doing need the existing arrangements with the Presidency Banks be materially disturbed The Government treasury balances, the Committee understand, are as a rule at their maximum in March, April and May, which are precisely the three months in which the demands of our export trade call for the largest monetary facilities, and in consequence the highest rates of interest prevail It seems to the Committee of the Chamber, therefore, that a considerable revenue might be earned at that period of the year by Government lending out such sums as they safely had available Tenders might be invited from the Presidency Banks and from Exchange Banks on the security of Government paper for loans at thirty, sixty or ninety days in such amounts as might be convenient in the different financial circles The effect of making such advances would be all in favour of a steadier money market throughout the year, as on the one hand the result would be to keep the amount of the Government balances with the Presidency Banks—now an element of considerable uncertainty—at a more uniform level, while on the other, by limiting the rush of money into the country to meet the requirements of the export season, the after collapse which usually ensues when these funds are set at liberty would be avoided

7 Matters of detail would no doubt require to be carefully considered and worked out, but a wide spread feeling prevails in commercial circles that some such system as that indicated would be of advantage to trade, and at the same time safe and profitable to Government, and the Committee of the Chamber respectfully suggest that the subject is of sufficient importance to warrant grave consideration

* * * *

No 234, dated 12th January 1889

From—The Offg Secretary to the Government of India, DEPARTMENT OF FINANCE AND COMMERCE,

To—The Secretary Bombay Chamber of Commerce

I am directed to acknowledge the receipt of your letter of the 4th October 1888, stating the views of the Chamber on the withdrawal of a portion of the Government balances last July

from the Bank of Bombay, and on the policy of Government in dealing with its cash balances in the public treasury

2 As regards the withdrawals from the Bank, the Chamber will see from the letter addressed this day to the Bank (copy enclosed) that the Government of India approves the proceedings of the Accountant General on that occasion, and does not consider it desirable to prolong the discussion of the circumstances which gave rise to the present correspondence

3 As regards the views expressed by the Chamber on the policy pursued by the Government in dealing with the Treasury balances and the proposal that the balances should be made available for purposes of trade, I am to invite the attention of the Chamber to the paper by Mr J Westland, of which a copy is annexed to this letter, in which he sets forth at length the sums actually maintained in the treasuries, the nature and extent of the claims upon them, and the method in which the transactions of the treasury are conducted The Governor General in Council hopes that the facts stated in this paper will convince the Chamber that the Government does not maintain balances in excess of actual requirements, and that the method of dealing with those balances is sound His Excellency in Council is satisfied that no substantial change in either of these respects is called for, and that no such change could be adopted consistently with the pursuit of a prudent policy in meeting the requirements of the State

4 The Chamber will observe from the letter addressed to the Bank of Bombay that the Government of India does not see its way to comply with the desire expressed both by the Bank and the Chamber that the Treasury balances should be used, in a larger degree than at present, to facilitate trade The Chamber's remarks contained in paragraphs 6 and 7 of the letter under reply have been carefully considered, but the Governor General in Council finds himself unable to depart from the policy hitherto adopted His Excellency in Council cannot agree with the Chamber that the arguments on which that policy was based in 1875 have lost their force at the present time Trade has certainly expanded, but with its expansion banking facilities have proportionately increased, and it is less in need of State support now than in 1875 The volume of trade and the demand for money are steadier, and less liable to violent fluctuations throughout the year, than they were in past periods, and it is not necessary, therefore, to adopt special measures to prevent fluctuations which are rarer than was the case when the policy of Government was formulated

5 His Excellency in Council is moreover, convinced that nothing but evil could result from the adoption of the suggestion that the Government should enter into competition, in making loans to the mercantile community, with the Presidency Bank Trade should be left to depend upon its own financial resources If advances were systematically made by Government during the busy season there would be a tendency to reduction of the working balances of the country to an unsafe minimum and the consequent risk of panic, to guard against which is an important object of the Reserve Treasuries If advances were made at a lower rate than the published rate, it would be difficult to confine the privilege of obtaining money at less than its value to the Presidency Banks, and these Banks would also be increasingly anxious to profit by such loans, and tempted to enter upon speculative operations with the resources placed at their disposal by the State, allowing their own reserves to fall below the limit of safety The Government of India is not prepared to adopt a course which would tend to produce such results, and the deliberate conclusion of the Government, after giving the proposals of the Chamber the fullest consideration, is that any assistance in relief of the money market which may be afforded by means of the Treasury Reserve can only be made through the Bank, and at its published rate of discount, in relief of temporary stringency, and that no departure from the policy hitherto pursued can be allowed

6 I am in conclusion to invite the attention of the Chamber to paragraph 22 of Mr Westland's paper, and to say that the impression which appears to exist in some quarters that Government manipulates the Presidency Bank balances with the view of forcing a demand for Council Bills is entirely without foundation Any such manipulation would, in the opinion of the Government of India, be unjustifiable, and would, eventually, fail of its intended effect.

Note on the management of the Government Balances

In passing through Bombay, I had a conversation with Mr Forbes Adam on the subject of the recent correspondence about Government Cash Balances, between the Bombay Bank and the Bombay Chamber of Commerce (of both of which Institutions he is President) on the one side, and the Government of India upon the other, and adopting the suggestion which he made to me, I propose to put on record this general sketch of the manner in which the Government Balances are managed

2 The leading facts upon which the regulation of these balances depends are these —

(1) That the months of August, September, October and November, produce far less than their proper share of revenue, and that the current expenditure during them has to be met to a considerable extent by a depletion of balances,

(2) That the minimum balance with which the Government Treasury business can be worked, that is to say, with which we can undertake to have money ready, at every treasury, to meet the demands upon us, is at least eight crores of rupees

3 The main factor in the determination of this figure of eight crores is (as it must always in such cases be) actual experience We find, as a matter of fact, that as our balances approach a minimum of eight crores, we have to multiply very greatly the amount and rapidity of the cash remittances by which we transfer money from the treasuries at which it is received, to the treasuries at which it is wanted to meet actual payments There is a point at which it becomes more costly to make such remittances than to increase the available cash For

example, I do not say it would be actually impossible to meet the demands on our treasuries with a minimum balance of seven crores, but it is certainly the case, that any attempt to work the treasuries with that balance would be accompanied with an outlay in cost of remittances that would not fall far short of the four lakhs of interest which we would have to pay if we raised another crore, in order to raise from seven to eight crores the amount at our disposal And, besides this, there would be very great risk of our having to declare ourselves—at some of our treasuries—unable, pending the arrival of remittances, to meet our current obligations What this would mean, apart from the discredit of it may for a moment be glanced at We might be unable to pay the soldiers and create serious discontent in the army, we might be unable to meet the current expenditure of working or of constructing railways, we might be obliged to stop important Public Works—an extremely costly proceeding even if they are immediately resumed

4 This figure of eight crores might, perhaps, at first sight, seem large, but I shall state some considerations bearing upon it, which will shew it to be not unreasonable The Bank of Bengal were good enough to furnish me some time ago with an estimate of the daily amount of actual cash paid in and cash paid out, at their head office in Calcutta It amounted to about 12 lakhs each way, and to keep their position safe, they ordinarily keep over a crore of rupees in available cash, that is, an amount exceeding eight days' transactions Now the daily cash receipts and disbursements at the Government Treasuries amount to about 50 lakhs each, so that if we have a balance of eight crores, we have only sixteen days' payments and receipts in hand If the Bank finds it necessary to keep eight days in hand, in the case where all the receipts and payments occur in a single office, it may fairly be said that sixteen days is a somewhat narrow limit for a case in which the transactions are spread over 200 treasuries and 800 sub-treasuries and in which the circumstances are such that the receipts often come in at treasuries very far removed from those at which the expenditure has to be met

5 The manner in which the balances are distributed is arranged with the object of working the treasuries with the smallest possible amount They are distributed into nine groups, conterminous with the nine Provinces of account, and each group is under the regulation of its own Accountant General The Accountant General, besides receiving details of his actual balances twice a month, obtains at the beginning of each month, from each Treasury, an estimate of its transactions during the current month and the two succeeding months, and thus sees in prospect what treasuries have more funds than they require and which of them require to be supplied with funds in order to meet the demands upon them He orders remittances accordingly, and such funds as are not required by him upon the whole account, he gathers towards a few Central Treasuries chosen with reference to their accessibility, where the surplus funds lie at the disposal of the Comptroller General These operations are carried out under the immediate supervision of the Comptroller General, who exercises his supervision in this way He receives from each Accountant General, in October, an estimate shewing the minimum balance he requires for the service of his province on the first of each month, this minimum is by this time pretty well ascertained by experience Guiding himself by this, and by the monthly estimates above alluded to, which are consolidated and sent to him, he sees what provinces, from time to time, have surplus funds available and in what provinces these surplus funds are required for expenditure Such provinces as the Punjab and Burma are continually demanding funds to meet their heavy military expenditure, and the Comptroller General has also to lay down funds to meet the demands at the presidency towns on account of Council Bills, Interest Railway payments, &c The Comptroller General is thus directly interested in keeping the Provincial Balances at as low a point as possible He may not actually, at each moment, concentrate his available funds at Calcutta and Bombay He may, for example, leave them at the Central Treasuries of the Accountants General, because he may see that if he took them away he would shortly have to send them back, and he may not find, in any commercial demand, the means of moving them without actual specie remittance But whether actually moved or not they are part of his available resources, and are at places whence they can be sent at very short notice to any spot where they are required

6 This, therefore, is the general system of the management of the balances devised, it will be seen, for the express purpose of enabling the Comptroller General to carry his available resources as far as possible, towards meeting the demands on the treasuries It remains to add, in further explanation of the carefulness of management required at the hands of the Comptroller General by the limitation of the funds at his disposal, that each month he gathers together the estimates of the various Accountants General (to which allusion has already been made), and after careful collation of them, prepares a review which is laid before the Government each month, and which sets forth in detail the various demands which the Comptroller General has to meet during the current and two succeeding months, and forecasts the plans, so far as relates to movements of funds, by which he proposes to meet them Movement of funds is in itself, I may remark, a business of some complication, because it includes not only movements of actual specie, but also consideration of mercantile and banking business, a class of remittance which of course we substitute, as far as possible, for specie remittance, whenever it is available

7 I have thought it advisable to mention all this detail of management in order to shew that it is with some confidence that we set down as our practicable minimum, the balance of eight crores at which we find by experience that we begin to be doubtful as to the possibility of moving our available funds to the points where they are required to meet expenditure I may allude, before I go further, to two devices by which we call in the aid of our currency reserves in order to make this eight crores go further than of itself it would Our normal currency reserve of coin we may put down at six crores of rupees This amount is, of course, by law, sacred to the purpose of supporting the currency circulation, we cannot apply it to any

treasury purpose At the same time, it is vastly more than in ordinary times is necessary for the purpose of actual encashment of notes It is scattered over the various places from which we are by law authorized to issue notes One perfectly legitimate operation of which we take great advantage is that we depend upon this currency reserve for facilities of rapid remittance For example, we can make a remittance of, say, 20 lakhs, at a moment's notice, from Calcutta to Lahore, by simply paying in 20 lakhs to Currency Office at Calcutta, and obtaining at the Currency Office an order upon the Lahore Currency for 20 lakhs to be paid to treasury there I think it is not too much to estimate this facility of remittance at a crore of rupees, that is to say, a balance of eight crores, with this facility of remittance through currency, goes quite as far towards meeting our liabilities, as a balance of nine crores would without this facility I may further mention in this connection the utilization of the currency reserve at Rangoon for keeping, from one busy commercial season to another, the large supplies of silver which are required for the rice trade and which used to a large extent to be sent down by the Banks by specie remittance from Calcutta before each rice season, and brought back after it The other way in which the currency balance helps us is a comparatively unimportant one, but still it does give us some small assistance One of the liabilities we undertake with our treasury balances—in addition to that of meeting our payments—is that of supplying both ourselves and the public generally with small coin, and as we must always have a considerable stock of small coin in hand, the reserves of this stock are practically an inefficient balance That is, part of our eight crores consists of this class of coin, and cannot be considered available for the general purposes of a cash balance So far as copper coin is concerned, this is a weight we must bear, but it is not an appreciable one So far, however as small silver is concerned, we can transfer the burden to the currency reserve Silver bullion is a form in which it is quite lawful to hold currency reserve, and if we possess a reserve stock of ten lakhs, say, of small silver, we can keep it as part of our currency reserve, and thus have the full use of our supposed cash balance of eight crores, instead of having ten lakhs of it locked up in the unavailable form of small silver coin

8 I think, therefore, I may legitimately contend that the fact that we require a minimum of eight crores for the purpose of conducting the treasury business, arises from the actual necessities of the business, and not from any want of efficiency or attention in the conducting of it And if the demands be measured, even in the roughest way, by the number of places where funds have to be provided, eight crores will seem a small sum to cover them all For the three presidency towns alone, the Government balances at the Banks require at least 125 to 150 lakhs, and it must be remembered that the minimum period of December is that at which trade is reviving, and the Secretary of State beginning to increase his drawings to 50 lakhs a week Rangoon, Allahabad, and Lahore are all head quarters of provinces, where the Accountant General must not be left without a fair reserve wherewith to support the forty treasuries he has to supply, there are distant treasuries like Quetta and Aden, where expenditure is heavy, and which must be made independent of external aid There are first class military stations like Peshawar, Lahore, Multan, Rawalpindi, Umballa and Delhi (not to go beyond the limits of a single province), where the expenditure of the first few days of the month is measured by lakhs of rupees There is Upper Burma, a country where the heavy expenditure of a military occupation has to be met, and where the means of communication are as yet so imperfect as to necessitate each treasury being made almost independent of its neighbours Small amounts at each Treasury, which come to a considerable amount on the whole, are required to give to the public, as far as possible, facilities for obtaining and exchanging small coin and currency notes, and it may be mentioned that for the convenience of the public, we receive foreign circle notes freely in payment of revenue which necessarily to some extent locks up for the time a part of our funds The working out of the detail of the distribution will thus be found to mount up very rapidly towards the allotted total

9 Above all, there is the consideration that the treasury must outside the Presidency Towns, absolutely depend upon its own resources, and that there is no reserve of any kind upon which it may fall back, if it is itself depleted

10 It must be understood that this eight crores, of which I have been writing, is a practically irreducible minimum, it is not the actual balance with which we can, as a matter of system, carry on the treasury work On the contrary, it represents a state of strain which can be maintained for a time, but which implies a certain expenditure in remittance, and a certain incurring of risk It is a condition of things which we can afford to stand for a month or so, when we know that mere efflux of time will bring a speedy recovery, but which would be intolerable, and probably somewhat expensive, if we were obliged to accept it from year's end to year's end as the normal condition of the management of business To represent the permanently possible condition, we must first of all give ourselves a margin of 20 per cent beyond the eight crores, and put down about 960 lakhs of rupees as ordinarily absorbed in the actual meeting of demands upon the treasuries Though it is possible occasionally to work down to 800 lakhs, it is unwise to attempt to do so, if we have 960 available, that is, out of our total treasury balance at any time 960 lakhs must necessarily be scattered over the various treasuries where payments have to be made But even this is not enough during the months when the revenue is in active collection, for the revenue then collected necessarily largely increases the balances of the treasuries until such time as it can be carried away to the places —often at a considerable distance—where it is required for payments A notable instance of this occurs at the end of March in Bengal Bengal ordinarily can be easily worked with a balance of 120 lakhs at the outside (of which 10 to 15 are in the Bank of Bengal) But the Accountant General has to lay down very heavy balances at the end of the month in the Behar treasuries in order to meet the large opium payments which then begin He completes this operation, say, about 20th or 25th of March, and as soon as he has done so, he receives at the

treasuries in Lower Bengal, the March instalments of land revenue About a crore of rupees are paid in on 26th, 27th and 28th of March The consequence of these two operations—which it is not possible to fit into each other, as the money is required to be laid down in the western treasuries before it can be sent from the eastern—is that Bengal always ends the month of March with a balance considerably in excess of 200 lakhs

11 On the whole, therefore, the really practicable working balance, except at the minimum period of the year when little revenue is coming in, may be put down at at least 1,000 lakhs, and it is only the excess over that amount that can be regarded as held by the Comptroller General in reserve, mostly in the reserve treasuries, but partly also in those "central treasuries" where the Accountants General may, as explained in paragraph 5 above, place their surplus funds to await the orders of the Comptroller General The following figures show, for the past 24 months, the whole Treasury balance, divided into—

(1) the amount held in Reserve Treasuries,

(2) the amount held in all other Treasuries

Last Day of	1886-87			1887 88		
	Reserve	Other	Total.	Reserve	Other	Total
October	1 31	9 41	10 72	1 51	8 87	10,38

September	1 88	8 90	10 78	2 30	10 48	12 78

* The explanation of the especially high figure of March 31st lies in the circumstances of Bengal just mentioned

12 I stop for a moment to note upon the apparent irregularity of these figures They would seem at first sight to be subject to no particular law, but this circumstance arises out of two sets of transactions *only*, namely, the rate at which the Bills of the Secretary of State are paid, and the rate at which loan receipts are paid in The following are, in lakhs, the transactions of each of the above 24 months, divided under three heads —

1886 and 1887	Council Bill	Loans	Other transactions	Council Bills	Loans.	Other transactions
October	—38	+93	—86	—98	+43	+15
November	—1 14	+22	+51	—82	+7	+93
December	—1 42	—2	+1 80	—1 88		+1 62
January	—2 57		+3 9	1 95		+4,87
February	—1 77		+1 79	—2 05		+2 05
March	—2 27		+3 46	—2 26		+2 93
April	—2 72	+32	+28	—2 09		+32
May	—1 95	+51	+1 07	—2 28		+1 98
June	—1 58	+52	+2 38	—1 33		+3,02
July	—1 50	+67	+13	—1 56	+2 88	+59
August	—1 66	+2 49	—33	—1 33	+12	—92
September	—1 11	+49	—43	—1,03		+47

13 Now it will be seen that although there is considerable irregularity under the first two heads (Secretary of State's Bills and Loans), there is no very great diversity (considering the vastness of our transactions) under the last or residuary head In other words, if our balances were not affected by variety in the amount paid out on account of Secretary of State's Bills, and of the amounts paid in on account of loans, they would shew, year after year, very much the same details of variation The minimum period is, as I have already stated, the month of December The large Revenue receipts of the next few months cause the balance to increase considerably up till June, notwithstanding that this is the heavy period of the Secretary of State's drawings After remaining stationary for a month or two, the balance runs down very rapidly in September, October and November, in which months the amount of revenue received is very small It is during, or about, these latter months, that we usually arrange to receive the money we raise by debt, partly because they are the months in which the money market finds it easiest to supply our demand, and partly because it is the time when the money most conveniently reaches us with reference to Treasury requirements, that is, it comes in, not in supplement of a large balance already held, but so as to prevent our balances falling too low for our necessities

14 The amount of the loan is carefully calculated beforehand, upon a forecast of the monthly balances, so as to give in the amount necessary to tide over December with our minimum of eight crores or a little more If we do not, as a matter of fact, get down to that figure, or nearly so, it is usually because the Secretary of State has not succeeded in placing his bills to the extent he hoped The remittance of 15 millions sterling to England is a very

large and important operation, in which it is necessary to allow a *very* considerable amount of latitude, and it would be grievous mismanagement if, when the Secretary of State was finding a market for His Bills, we were obliged to tell him that our balances were so weak that he must reduce his drawings We must, therefore, be careful not to underestimate his demands, or in other words, we not unfrequently find that his drawings are a crore or two behind our estimates, and that, in consequence, we are, as a matter of fact, left in December, with a balance of a crore or two, in excess of the minimum down to which we can work

15 Reverting now to the figures given in paragraph 11 above, I think it will be admitted that the Bombay Chamber of Commerce state the problem wrongly when they describe the Government balances in their letter of 9th August 1888 as 10½ to 13¾ crores of "large unemployed balances," and enquire whether "this enormous amount of money could not be made available for the purposes of trade" I have shown that of this amount about 10 crores cannot in any sense be described as lying idle, but is actually required to support the treasury business of the country I shall presently examine the question whether the amount can be ever described as "unavailable for the purposes of trade," but as the Chamber's reference was mainly to trade at the Presidency towns, it is sufficient to point out at present that the only amount that can be made available for such purposes is the amount lying in the reserve treasuries, which, except immediately after the receipt of loans rarely exceeds 200 lakhs, and is ordinarily considerably less than that figure The money in the "Central Treasuries" (paragraph 5) cannot be made available at Presidency Towns, as, if it is kept in the Central Treasuries, it is so kept on the ground that it is likely to be required up country, and it would never be worthwhile to send it on a journey of some hundreds of miles only to be sent back again after a short time Besides, as will presently be mentioned, many of these Central Treasuries are at branches of Presidency Banks, so that the Banks already have the employment of the money so long as it is not required for Treasury purposes

16 The question raised by the Chamber is, therefore, narrowed to the question whether Government should lend out, for commercial purposes, the balances held in the Reserve Treasuries at the Presidency Towns And if I rightly understand their letter of October 4th, this is the form to which their proposal is actually reduced, namely, that during the months of March, April, and May, the balances which are so held might be lent out for commercial use I do not consider it necessary or desirable that I should in this place enter upon any discussion of this question, it will receive the full consideration due to a proposal emanating from such a body as the Bombay Chamber of Commerce The object of my paper is merely to remove the misconceptions which seem to me to have hitherto surrounded the subject, to set forth in a clear light what is possible and what is not possible, and to define more accurately the issue which arises out of the present correspondence

17 I come back now to the question of our 10 crores of actual working balance Are the Chamber of Commerce right in describing this balance as "unemployed," and as "not available for the purposes of trade" I am afraid I must directly traverse this statement

18 In the first place, a very considerable share of the 10 crores is placed directly at the disposal of trade through the system of Presidency Banks The actual statistics shew that during the last two years the amount of Public Deposits in the Presidency Banks and their Branches has fluctuated between 262 lakhs and 390 lakhs, and this is almost entirely supplied out of our 10 crores of Cash Balances At the three Head Offices the Government Balances have not, since December 1885, been below 130 lakhs, and they have often been much higher than 150

19 Of the District Treasuries, the largest and most important are at the places where there are Bank Agencies, and at these places the whole of the Government Balances are made available for trade through the agency of the Banks Nor is there any limit to the amount of balances which may be thus placed except that which is imposed by the action of the Banks themselves That is, whenever any of the Presidency Banks finds it worth its while to establish an agency at any place where there is a District Treasury, the balance at the District Treasury would almost, as a matter of course, be made over to its custody In other words, wherever there is trade sufficient to avail itself, under the Presidency Banks system, of the local Government Balance, there the local Government Balance is placed at the disposal of the trade

20 Another method by which the Government Balances are made available for purposes of trade is, that they are by the officers of the Government made available for purposes of remittance Indeed, it is not too much to say that the whole of the system of inland trade remittance is supported by and carried on through the Government Balances Of the extent to which this is done I believe few persons have any cognisance, and I therefore attach a report of my own written in 1883, in which the subject is generally reviewed As I am writing mainly with reference to the representations of the Bombay Chamber of Commerce, I may take the opportunity of adding, by way of completing the subject, that a very important series of remittances—those connected with the financing of the Bombay cotton trade—is carried on through the Berar Treasuries, but is not noted in the enclosed paper, as these Treasuries lie outside the system of Government Treasuries proper

21 I trust that the explanations I have given will cause the Chamber of Commerce to change its opinion about the 10 or 13 crores of money which they have hitherto considered to be lying idle, so far as the needs of trade are concerned We may fairly claim that we do—perhaps not all we might do, but still—a very great deal towards making our balances available for the purposes of commerce Their first purpose, it must be remembered, is that of supporting the actual treasury transactions of the Government, and we do our best consistently with the primary purpose, towards making them facilitate the commercial transactions of the country

22 Before I conclude this paper I would make a few remarks upon an accusation which I have over and over again seen brought against us, of manipulating our Presidency Bank Balances with the view of forcing a demand for Council Bills Having had the direct management of these matters for five years, I can say that, though the statement was repeatedly made during that time, it was in no instance true In the first place, I do not believe that any such manipulation would, in the long run, succeed We have it, indeed, in our power to tighten money by ordering large withdrawals to reserve, but as the money will have to go back sooner or later, we shall lose as much advantage when we return it, as we have gained by withdrawing it In the second place, I have a great belief in the mischievousness of all artificial manipulations of the balances available for trade, that is, any variations which are not the direct outcome of trade action I believe to be directly dangerous * Why it should be imagined that a state of things which is dangerous or inconvenient to trade is profitable to Government, I fail to perceive My endeavour has therefore always been to keep the Government Balances at the Bank at as nearly one level as possible The action of Government is usually confined to feeding the Bank with money to meet the local demands on the Government account, and my action in the matter in question has usually been directed towards feeding it so as on the whole to preserve, at as steady a level as possible, the balance at the credit of the Government account

* On this ground I disagree in the Bank of Bombay's proposal that we should receive loan money only on the days fixed for the instalments The duty of Government is to make the operation as elastic as possible and to leave to ordinary trade channels the adjustment of the Government demand to the conditions of the market I feel sure that the Bank's suggestion would not be acceptable to those who finance our loans Nor is it in conformity with the usual practice in raising capital in London

23 The real explanation of the features which give rise to the accusation, is almost amusing in the proof it affords of the way in which evidence may be twisted from its real bearing Just before the Bank's statement has been published we have received, say, forty lakhs of opium revenue, for the financing of the opium trade in Calcutta, accumulated as it is towards one short part of each month, causes nearly every month a violent fluctuation of this kind in the Government Balance, and any attempt to level down the fluctuation thus caused would give a violent wrench to the market under the appearance of maintaining a uniform level There is, however an active demand for Bills, perhaps forty lakhs come out in one mail, and are paid by the Bank of Bengal, the obvious result is that unless other transactions compensate for this withdrawal the 'Public Deposits" are reduced by forty lakhs The next weekly account of the Bank appears, and it is immediately asserted that "Government has withdrawn 40 lakhs," and Government is severely condemned for withdrawing so large a sum from a market hungry for money The truth, however, it will be seen, is exactly the opposite The forty lakhs which came in one way have now passed out in another way from the balance of the Government to feed the demands of the market, and the reduction in the Government Balance is a sign that the money market is being relieved by the regular course of transactions, and not that it is being tightened I have once or twice given this simple explanation in the public press, but without much avail, for I find that Government is still occasionally charged with "withdrawing its balances," when all it has done is that it has been paying out money in satisfaction of the bills drawn by the Secretary of State in favour of merchants and bankers in India

J WESTLAND

20th November 1888

E J SINKINSON,
Offg. Secretary to the Government of India

MILITARY DEPARTMENT

Fort William, the 22nd February, 1889

APPOINTMENTS

HYDERABAD CONTINGENT

No 151 —*No 2 Field Battery*—

Lieutenant F M Davidson R A, to officiate as Subaltern *vice* Lieutenant R Percy Smith, appointed officiating Commandant No 4 Field Battery

No 152 —*2nd Infantry*—

Lieutenant C H Macdonald, officiating Wing Officer, to be Wing Officer, with effect from the 24th October, 1888

No 153 —*3rd Infantry*—

Lieutenant W H Lewin, Wing Officer, to be Adjutant, with effect from the 21st November, 1888, *vice* Lieutenant Mason, appointed to the 4th Cavalry

No 154 —*4th Infantry*—

Surgeon E M Damla Medical Officer, 6th Infantry to be Medical Officer, *vice* Surgeon Scott, transferred to the 6th Infantry

No 155 —*6th Infantry*—

Surgeon J Scott, M B, Medical Officer, 4th Infantry to be Medical Officer, *vice* Surgeon Damla, transferred to the 4th Infantry

NATIVE ARMY

No 156 —The following direct appointment is made with effect from the date of joining —

13th Bengal Lancers

Sardár Malik Khan to be Jemadar, on probation, *vice* Muhammad Yár Khan, invalided

STAFF CORPS

No 157 —Lieutenant Charles Edward de Manley Norie, Yorkshire Light Infantry, officiating Wing Officer, 1st Battalion, 2nd Gurkha Regiment, is admitted to the Bengal Staff Corps from the 31st July, 1887, subject to confirmation by the Secretary of State for India

No 158 —The undermentioned officers having completed eighteen months' probationary service are admitted to the Bengal Staff Corps with effect from the dates specified, subject to confirmation by the Secretary of State for India —

Lieutenant Alexander Henry Eustace, East Surrey Regiment, Wing Officer 2nd Sikh Infantry Punjab Frontier Force,—13th July, 1887

Lieutenant Percy Garratt Shewell, Hampshire Regiment Wing Officer 1st Punjab Infantry, Punjab Frontier Force,—22nd July, 1887

FURLOUGH AND LEAVE

No 159 —The undermentioned officers are granted furlough or leave out of India —

Colonel G Young, Bengal S C, 1st Battalion, 1st Gurkha Regiment (p a) for one year, under the leave rules for the Staff Corps Pension Service—31st year commenced 28th September, 1888

Major G W Deane Bengal S C, 13th Bengal Lancers, (p a) for one year, under the leave rules for the Staff Corps Pension Service—21st year commenced 13th January, 1889

Captain O C Radford Bengal S C, Wing Commander, 4th Punjab Infantry, Punjab Frontier Force, (p a) for one year, under rule I of the regulations of 1875

Captain G R MacMullen, Bengal S C, Wing Officer, 6th Punjab Infantry Punjab Frontier Force (p a) for one year, under rule I of the regulations of 1875

Captain J P Sparling Bengal S C, Assistant Commissary General 4th class, (p a) for 275 days, under rule I of the regulations of 1875

Captain G E Money, Bengal S C, 2nd Regiment, Central India Horse, (p a) for one year, under the leave rules for the Staff Corps Pension Service—20th year commenced 14th July, 1888

Captain W K Downes D S O, Bengal S C, 11th Bengal Infantry, (p a) for 212 days under the leave rules for the Staff Corps Pension Service—13th year commenced 10th September, 1888

Lieutenant H Comins, Bengal S C, 1st Bengal Infantry, (p a) for one year, under the leave rules for the Staff Corps Pension Service—9th year commenced 23rd October, 1888

Lieutenant F V Whittall, Bengal S C, 1st Infantry, Hyderabad Contingent, (p a) for one year, under the leave rules for the Staff Corps Pension Service—9th year commenced 22nd January, 1889

Lieutenant C R A Bond, Bengal S C, 35th Bengal Infantry, (p a) for one year, under the leave rules for the Staff Corps Pension Service—7th year commenced 10th May, 1888

Lieutenant C I Wimberley, Bengal S C, 8th Bengal Cavalry, (p a) for one year, under the leave rules for the Staff Corps Pension Service—7th year commenced 14th January, 1889 The leave granted to Lieutenant Wimberley in G. G O No 963 of 1888, is cancelled

Surgeon Major G S A Ranking, M D, 5th Bengal Cavalry, (p a) for one year, under the leave rules for the Staff Corps Pension Service—14th year commenced 30th May, 1888

No 160 —The undermentioned officers have been granted extensions of furlough or leave by the Secretary of State for India —

Colonel J D Macpherson, Bengal S C, (m c) for six months

Lieutenant E F H McSwiney, D S O, Bengal S C (m c) for six months

Lieutenant C Cheyne, Bengal S C, (m c) for six weeks, without pay

Lieutenant K P Burne, Bengal S C, (p a) for four months

Honorary Lieutenant W Marr, Public Works Department, (m c) for six months

Surgeon Major J Bennett, M D, (m c) for six months

No 161 —Captain W R Yeilding, Bengal S C, Assistant Commissary General, 4th class is granted leave within Indian limits (p a) for 182 days, under rule X of the regulations of 1875 the first sixty days being on full staff pay

LONDON GAZETTE

No 162 —The following extracts are published for general information —

"*London Gazette, dated the 22nd January, 1889 page 491*

War Office, Pall Mall, 22nd January, 1889

INDIAN STAFF CORPS

The undermentioned Colonels have been transferred, to the Unemployed Supernumerary List —

William Peyton, Madras Dated 27th December, 1888

Arthur Thaddeus Searle, Madras Dated 29th December, 1888

William Jackson, Bengal Dated 31st December, 1888

The undermentioned Colonels have been transferred to the Unemployed Supernumerary List —

Alexander Wardrop, Bombay Dated 4th January, 1889

Thomas Ross Church, C I I, Madras Dated 5th January, 1889

INDIAN LOCAL SERVICE

Colonel Sussex William Lennox, Madras Infantry, has been transferred to the Unemployed Supernumerary List Dated 2nd January, 1889

India Office, 22nd January, 1889

The Queen has approved of the following promotions among the officers of the Staff Corps and Indian Military Forces, made by the Governments in India —

BENGAL STAFF CORPS

To be Major

Captain Malcolm Alexander Gray Dated 7th November, 1888

* * * *

INDIAN ARMY

1 Tenders should be submitted in the form to be obtained from this office and superscribed "Tenders for (name of article)," and should be accompanied by a deposit of 5 per cent on the value of tender

2 Samples of articles to be supplied should be produced with tenders such samples being distinctly marked with the name of the tenderer and rate offered

3 Every successful competitor will have to pay a security of 5 per cent on the value of the articles for which tender is accepted, and to sign a contract bond (a form of which can be seen at the Office) within fifteen days from the date of his being informed by this Office of the acceptance of his tender In case of failure to execute the bond, the deposit of 5 per cent delivered with the tender will be forfeited and credited to Government and his tender considered as cancelled

4 The necessary stamp duty on the contract bond should also be paid by the contractor

5 The quantities mentioned in the above schedule are only probable quantities, but the actual quantities required will be mentioned in the orders of this Office, given from time to time agreeably to which only the contractors should supply articles

6 The Superintendent of Stationery reserves to himself the right of rejecting any tender without assigning any reason for so doing

F C BARNES,
Supdt of Stationery

GOVERNMENT STATIONERY OFFICE,
The 23rd January, 1889

POST OFFICE

NOTIFICATIONS

Calcutta, the 1st February, 1889

ACCELERATED MAIL SERVICE FROM CALCUTTA TO BOMBAY

A special train will be run experimentally for eight weeks from Howrah to Bombay, starting from Howrah on Wednesdays at 8 P M, and reaching Bombay on Fridays at 3 P M, in connection with the homeward Peninsular and Oriental Steam Navigation Company's contract steamers

The first train will leave Howrah on Wednesday, the 20th February, 1889

Fully prepaid foreign letters, and fully prepaid foreign printed papers* only (not post cards, legal and commercial documents, samples or any other articles), may be posted for despatch by this special train On each *letter* a special fee *1½ anna per ½ ounce* will be levied in addition to the ordinary foreign postage rate, and on each packet of *printed papers* a special fee of *½ anna per 2 ounces* (or *½ anna per 4 ounces* for each newspaper) will likewise be levied

* Including newspapers and books

The rates of postage for the principal places concerned are shown below —

COUNTRIES &c	LETTERS		PRINTED PAPERS INCLUDING BOOKS &c			
	EACH LETTER PER ½ OUNCE		EACH NEWSPAPER PER 4 OUNCES		EACH PACKET PER 2 OUNCES	
	By ordinary train	By special train	By ordinary train	By special train	By ordinary train	By special train
	As	As	As	As	As	As
United Kingdom						
Served through the United Kingdom (United States of America, Canada, West Indies and Union places)	4	6	1½	2	1½	2
Continental Europe Aden Zanzibar Mauritius Egypt Malta Gibraltar also United States of America and Canada when served *vid* Italy	3	4½	1	1½	1	1½
Cape of Good Hope and Natal *vid* Brindisi	9	10½	2	2½	2	2½
Cape of Good Hope and Natal *vid* Aden	8	9½	1	1½	1	1½

These special rates will in no way affect or apply to foreign correspondence transmitted by the regular mail leaving Howrah on Tuesday evenings

Letters and printed papers (including newspapers, books, &c) intended to be conveyed by the special train, must be fully prepaid with the ordinary foreign postage, as well as with the special fee, otherwise they will be detained until the departure of the next week's regular mail

Postal notices will be circulated in the stations concerned, notifying to the public the day and hour when letters should be posted for despatch by the special train

P SHERIDAN,
Depy Dir Genl of the Post Office of India

The 21st February, 1889.

The attention of the public is invited to rule 27 A of the Indian Postal Guide (January, 1889), under which articles addressed to fictitious or assumed names or initials can only be delivered if posted to the care of some known person or firm, or if the address contains some designated place for delivery, as a house or a number in a street Such articles cannot be delivered if addressed merely to a post office or to the care of the Postmaster

PART IV

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 22nd February 1889 and is hereby promulgated for general information —

ACT NO III OF 1889

An Act to provide a Village system and amend the law relating to Rural Police in Lower Burma

WHEREAS it is expedient to provide a village system and amend the law relating to rural police in Lower Burma, It is hereby enacted as follows —

Title extent commencement and repeal

1 (1) This Act may be called the Lower Burma Village Act, 1889

(2) It extends to the whole of Lower Burma, and

(3) This section and sections 14 to 23 (both inclusive) shall come into force at once

(4) The other sections shall not come into force in any part of Lower Burma until the Local Government extends them thereto

(5) Such extension shall be by notification in the Burma Gazette, describing the part of Lower Burma to which the sections are extended and the day on which they are to take effect therein

(6) On and from that day sections 12 to 21 (both inclusive) of the Burma District Cesses and Rural Police Act, 1880, shall be repealed as regards that part

Definition

2 (1) For the purposes of this Act "village" includes—

(a) village lands,

(b) rivers passing through or by, and lakes adjacent to those lands and

(c) a group of villages

(2) The Deputy Commissioner may determine the limits of a village for the purposes of this Act

Appointment of headman

3 (1) The Deputy Commissioner shall appoint a headman in every village

(2) In appointing a headman the Deputy Commissioner shall have regard so far as circumstances admit, to any established custom which may exist respecting the right of nomination or succession or otherwise and to claims based thereon

(3) When in any village there are two or more headmen, the Deputy Commissioner shall decide which of them is to be the headman for the purposes of this Act, and, with the previous sanction of the Commissioner, may make rules to define and regulate their relations to each other

(4) The Deputy Commissioner may appoint a rural policeman or more than one such policeman in any village

Substitution of new clause for clause (a) of section 9 Act II of 1880

4 For clause (a) of section 9 of the Burma District Cesses and Rural Police Act 1880, the following shall be substituted, namely —

"(a) the remuneration of the headmen and the maintenance of the rural police appointed under the Lower Burma Village Act, 1889,'

Substitution of new section for section 45 of the Code of Criminal Procedure

5 For section 45 of the Code of Criminal Procedure 1882 the following shall be substituted, namely —

Headman bound to report certain matters

"45 (1) A headman appointed under the Lower Burma Village Act, 1889, shall forthwith communicate to the nearest

Magistrate, or to the officer in charge of the nearest police station or military post, whichever is the nearer, any information which he may obtain respecting—

(*a*) the permanent or temporary residence of any notorious receiver or vendor of stolen property in his village,

(*b*) the resort to any place within, or the passage through, his village of any person whom he knows, or reasonably suspects to be a dacoit robber, escaped convict or proclaimed offender,

(*c*) the commission of or attempt or intention to commit, within his village any of the following offences, namely —

(i) murder,

(ii) culpable homicide not amounting to murder,

(iii) dacoity,

(iv) robbery,

(v) offence against the Indian Arms Act, 1878 and

XI of 1878.

(vi) any other offence respecting which the Deputy Commissioner by general or special order made with the previous sanction of the Commissioner directs him to communicate information,

(*d*) the occurrence in his village of any sudden or unnatural death or of any death under suspicious circumstances

'(*z*) In sub section (*1*) village has the meaning assigned to that word in the Lower Burma Village Act 1889'

Duties of headman

6 (*1*) The headman of a village shall be bound—

(*a*) to investigate every offence respecting which he is required by section 45 of the Code of Criminal Procedure, 1882, to communicate information,

V of 1882

(*b*) to search for and arrest any person whom he has reason to believe to have been concerned in the commission or attempted commission of any such offence and to recover, if possible any property taken by any such person,

(*c*) to arrest any person found lurking within the limits of the village who cannot give a satisfactory account of himself,

(*d*) to forward, as soon as may be to the nearest police station or military post any person arrested by him or made over to his custody together with any weapon or other article likely to be useful as evidence,

(*e*) to resist any unlawful attack made upon the village

(*f*) to take such measures and execute such works for the protection of the village and for keeping open the communications between it and adjacent posts as the Deputy Commissioner may direct

(*g*) on the written order of the Deputy Commissioner or other Magistrate not below the rank of Myo ôk to collect and furnish on payment supplies of food or carriage for troops or police posted in or near, or marching through, the village,

(*h*) on the requisition of any Magistrate not below the rank of Myo ôk, to furnish labourers for the making or repair of roads, embankments or other public works,

(*i*) to collect or aid in collecting revenue and other money due to the Government from residents of the village or persons holding land therein,

(*j*) to allot unoccupied land within the village for cultivation or house building up to such limit and on such conditions as the Deputy Commissioner may direct,

(*k*) if so ordered, and in accordance with such rules as may be made in this behalf by the Commissioner with the previous sanction of the Local Government, to register all births and deaths which take place within the village and any other vital statistics which may be prescribed by such rules,

(*l*) to take such measures for the prevention of public nuisances and for the general sanitation of the village as may be prescribed in any rules made in this behalf by the Commissioner with the previous sanction of the Local Government,

(*m*) to supply to the best of his ability any local information which any Magistrate or officer of police may require, and,

(*n*) generally, to assist all officers of the Government in the execution of their public duties

(*2*) Every rural policeman shall be bound to perform such duties similar to those imposed on a headman by sub section (*1*) as may be imposed upon him by rules made by the Local Government in this behalf

Disposal of petty criminal cases by headman

7 (*1*) If any of the offences mentioned in the next following sub section is committed in a village, the headman of the village may, on complaint made to him within eight days from the date of the commission of the offence take cognizance of it and try any person accused thereof

(*2*) The offences referred to in sub section (*1*) are the following namely —

(*a*) assault,

(*b*) theft when the value of the property stolen does not exceed five rupees,

(*c*) mischief when the mischief causes damage to an amount not exceeding five rupees,

(*d*) criminal trespass, and

(*e*) any other offence which the Local Government may, by notification in the Burma Gazette declare to be triable by a headman under sub section (*1*)

(*3*) If the accused is convicted he may be sentenced to fine not exceeding five rupees or, if the offence was theft or mischief, twice the value of the property stolen or twice the amount of the damage caused as the case may be, or to confinement for a term not exceeding twenty-four hours in such place as the Deputy Commissioner may appoint in this behalf, or to both

(*4*) A headman specially empowered by the Local Government in this behalf may, on complaint, try any person accused of theft or mischief when the value of the property stolen or

the amount of the damage caused does not exceed fifty rupees, and may, in any case so triable by him, sentence the accused, on conviction, to fine not exceeding fifty rupees, or to confinement for a term not exceeding fifteen days in such place as the Deputy Commissioner may appoint in this behalf, or to both

(5) Proceedings under this section shall be held in the presence of the complainant and the accused

(6) The offence out of which the proceedings have arisen may be compounded at any time before the headman pronounces his decision

(7) The proceedings need not be reduced to writing, but such record shall be kept of the cases decided as the Deputy Commissioner directs

(8) Any fine imposed for an offence referred to in this section may be awarded as compensation to any person injured by the offence

(9) A fee of one rupee may be levied on a complaint under sub section (1) and of two rupees on a complaint under sub section (4)

(10) No other fee shall be leviable in any case under this section

(11) If the accused is convicted, the amount of any fee paid in respect of the complaint shall be recovered from him as if it were a fine imposed under this Act and be repaid to the complainant

Penalty for neglect of duty or abuse of authority by headman or rural policeman

8 If a headman or a rural policeman neglects to perform any of the duties imposed upon him by this Act or any rule thereunder, or abuses any of the powers conferred upon him by this Act or any such rule he shall be liable, by order of the Deputy Commissioner, to pay a fine not exceeding fifty rupees, or to be suspended from office for a period not exceeding six months, or to be dismissed from office

Obligation on villagers to aid headman and rural policeman

9 (1) Every person residing in a village shall, on the requisition of the headman or of a rural policeman, be bound to assist him in the execution of his public duties

(2) If any such person refuses or neglects to comply with the requisition of the headman or rural policeman, he shall, in the absence of reasonable excuse, the burden of proving which shall lie upon him, be liable by order of the headman, to fine not exceeding five rupees, or to confinement for a term not exceeding twenty four hours in such place as the Deputy Commissioner may appoint in this behalf, or to both, or, on conviction by a Magistrate, to fine not exceeding fifty rupees, or to imprisonment for a term not exceeding one month, or to both

Civil jurisdiction of headman

10 (1) The Local Government may, by notification in the Burma Gazette, invest any headman with the powers of a Civil Court for the trial of suits between persons of whom both or all as the case may be, reside within his village, and may, by general or special order notified in the Burma Gazette, specify the classes, and the value not exceeding twenty rupees, of the suits which such headman may try

(2) The Local Government may at any time cancel or vary any such notification or order

(3) In any suit tried in exercise of powers conferred under sub section (1), the decision of the headman shall subject to revision by such authority as the Local Government may appoint in this behalf, be final

(4) Notwithstanding anything in the Code of Civil Procedure, a person shall not be bound to institute a suit in the Court of a headman XIV of 1882.

(5) A fee of ten per centum of the value of the suit shall be paid on its institution in the Court of a headman, and no other fee shall be paid for the issue of processes or otherwise

Notification of residence of strangers in villages

11 (1) If any person comes into a village of which he is not a resident, he or the person, if any in whose house he is living shall, within twelve hours of his coming to the village report to the headman his arrival his name and occupation, and the name of the place where he last resided

(2) The departure from a village of a person whose arrival has been reported under sub section (1) shall also be reported by the person, if any, in whose house he has been living

Prohibition of unauthorized settlement of strangers in villages

12 A person who is not a resident of a village shall not build any house, hut or enclosure, or take up his residence in the village, without the permission of the headman

Penalty for breach of orders under immediately preceding sections

13 If a person contravenes the provisions of section 11 or section 12, he shall be punished, on conviction by a Magistrate, with fine which may extend to fifty rupees, or with imprisonment for a term which may extend to fifteen days, or with both

Fine on villagers accessory to crime

14 (1) The Deputy Commissioner may, with the sanction of the Commissioner, impose fines on all or any residents of a village if after enquiry he has found—

(a) that they have colluded with or harboured or failed to take all reasonable means to prevent the escape of any criminal

(b) that they have suppressed or combined to suppress evidence in any criminal case,

(c) that stolen property having been tracked to their village they have failed or neglected to restore the property or to take on the track beyond the limits of their village

(2) In either of the following cases, namely —

(a) when a fine is imposed on the ground stated in clause (a) or in clause (b) of sub section (1), and the offence of which the criminal is accused, or to which the criminal case relates, is mischief by fire, dacoity, robbery or cattle theft,

(b) when a fine is imposed on the ground stated in clause (c) of sub section (1),

a sum not exceeding the amount of any damage caused or the value of the property stolen may be given out of the fine as compensation to the owner of the damaged or stolen property

Fine on villagers where homicide committed or attempted

15 When within any village a person is dangerously or fatally wounded by unlawful attack or the body is found of a person believed to have been unlawfully killed, the residents of the village shall be deemed to have committed an offence under the last foregoing section unless they can show that they—

(a) had not an opportunity of preventing the offence or arresting the offender, or

(b) have used all reasonable means to bring the offender to justice

Power to require residents to remove from village

16 (1) When the Deputy Commissioner has reason to believe on the report of a headman or otherwise that a person residing in any place is harbouring aiding or abetting dacoits, robbers or cattle thieves, or has taken up his residence in that place for the purpose of such harbouring aiding or abetting, he may require that person to leave that place and to reside in such other place as the Deputy Commissioner may direct

(2) If a person disobeys a requisition under sub section (1) he shall be punished on conviction by a Magistrate with fine which may extend to five hundred rupees or with imprisonment for a term which may extend to six months, or with both

Mode of recovering fine

17 (1) A fine imposed under this Act may be recovered as if it were an arrear of land revenue

(2) A fine imposed under section 14 may, with the previous sanction of the Local Government, be commuted into an annual addition to the capitation tax payable by the residents of the village or to the land revenue payable in respect of the village lands or, in the case of revenue free lands, to an annual assessment at such rates and for such term of years as the Local Government may direct

Provision with respect to emoluments of headmen and rural policemen

18 (1) The emoluments of a headman or rural policeman shall not be liable to attachment in execution of a decree or order of any Civil Court

(2) An assignment of, or charge on or an agreement to assign or charge, any such emoluments shall be void

(3) Where the emoluments of a headman consist wholly or in part of a grant of land, the title to the grant shall pass with the office of headman and the Deputy Commissioner may, upon such terms, if any as to compensation for improvements or otherwise as he thinks fit, enforce the surrender of the land to the person for the time being holding that office

Protection to headman or rural policeman in execution of his duty

19 No complaint against a headman or rural policeman of any act or omission punishable under this Act shall be entertained by any Court unless the prosecution is instituted by order of or under authority from the Deputy Commissioner

Finality of orders

20 (1) An appeal shall not lie from any order made under this Act

(2) But the Deputy Commissioner may revise any such order made by any officer subordinate to him, and the Commissioner may revise any such order made by the Deputy Commissioner

(3) Save as provided by this section, an order made under this Act shall be final and shall not be liable to be contested by suit or otherwise

(4) The word "order" in this section does not include a decision of a headman in a suit tried in exercise of powers conferred under section 10, sub section (1)

Delegation of powers of Deputy Commissioner to Assistant Commissioner

21 The Local Government may authorize any Assistant Commissioner, by name or by virtue of his office, to exercise in any district or part of a district all or any of the powers of the Deputy Commissioner under this Act

Power to make rules

22 (1) The Local Government may, subject to the control of the Governor General in Council, make rules consistent with this Act—

(a) conferring on rural policemen any powers or privileges which may be exercised or are enjoyed by police officers under any enactment for the time being in force,

(b) prescribing the duties to be performed by rural policemen including any duties imposed upon police officers by any enactment for the time being in force

(c) regulating the exercise, enjoyment and performance of those powers privileges and duties by rural policemen

(d) regulating the emoluments of headmen and rural policemen,

(e) prescribing the procedure to be observed by a headman trying a suit in exercise of powers conferred under section 10, sub section (1) the record which he is to make of the suit and the mode in which that record is to be disposed of, the powers which he may exercise as regards the costs of the suit and of any proceeding arising thereout, the manner in which a decree or order made by him may be executed by himself and the manner, circumstances and conditions in and on which such a decree or order may be sent for execution to, and be executed by, another headman or a Civil Court,

(f) for the disposal of fees levied under section 7, sub section (9), and section 10, sub section (5), and,

(g) generally, for carrying into effect the purposes of this Act

(2) All such rules shall be published in the Burma Gazette

Effect of Act

23 This Act shall take effect notwithstanding anything in any enactment for the time being in force

S HARVEY JAMES,
Secretary to the Government of India

LEGISLATIVE DEPARTMENT

The following Report of the Select Committee on the Bill to provide for the establishment of a village system and amend the law relating to rural police in Lower Burma was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 8th February, 1889 —

From Officiating Chief Secretary to Chief Commissioner Burma No 1007—85 P dated 30th November 1888 and enclosures [Papers No 1]

We, the undersigned, Members of the Select Committee to which the Bill to provide for the establishment of a village system and amend the law relating to rural police in Lower Burma was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report with the Bill as revised by us annexed thereto

2 We think the Bill which is an almost exact counterpart of the Upper Burma Village Regulation, should be called the Lower Burma Village Act

3 Sections 11 and 12 and sub section (*l*) of section 16 of the Bill as introduced should, we consider, be placed among those sections of the Bill which are not to come into force at once

4 Sub section (*l*) of section 19 of the Bill as introduced appears to us to be unnecessary

5 We have revised the Bill accordingly

6 The publication ordered by the Council has been made as follows —

In English

Gazette	*Date*
Gazette of India	27th October 1888
Burma Gazette	17th November 1888

In the Vernacular

Province	*Language*	*Date*
Burma	Burmese	17th November 1888

7 We do not think that the measure has been so altered as to require re publication, and we recommend that it be passed as now amended

Bills introduced into the Council of the Governor General of India for making Laws and Regulations or published under Rule 22

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Report of the Select Committee on the Bill to consolidate and amend the law relating to Courts in Lower Burma was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 22nd February, 1889 —

WE, the undersigned, Members of the Select Committee to which the Bill to consolidate and amend the law relating to Courts in Lower Burma was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with a substituted Bill as settled by us annexed thereto

From Officiating Secretary to Government of India Legislative Department to Chief Commissioner Burma No 587 dated 7th March 1887 from Secretary to Chief Commissioner Burma No 724—19C dated 27th May 1887 and enclosures [Papers No 1]

From Officiating Secretary to Government of India Legislative Department to Chief Commissioner Burma No 2017 dated 17th December 1887 and enclosures from Secretary to Chief Commissioner Burma No 608—37C dated 27th January 1888 [Papers No 2]

From P C Sen Esq Barrister at Law Burma dated 16th March 1888 [Paper No 3]

From Officiating Secretary to Chief Commissioner Burma No 123—37 C dated 5th June 1888 and enclosures [Papers No 4]

From Officiating Secretary to Chief Commissioner Burma No 632—1 L dated 26th October 1888 [Paper No 5]

From Officiating Secretary to Chief Commissioner Burma No 739 dated 31st December 1888, and enclosure

2 The reasons which have led to the proposal to re enact the existing Burma Courts Act with certain additions and amendments, instead of proceeding on the lines of the Bill of 1887, have already been stated to the Council and need not be further referred to by us here

3 One of the objects of the substituted Bill is to enable the Chief Commissioner to relieve the Recorder of certain business which can be done by other and less costly agency The sections of the Bill which have reference to this object are sections 56 and 83 The first of these sections has been suggested by the fact that much of the Recorder's time is now occupied in the disposal of formal business which ought to be, and in a Presidency High Court would be, disposed of by a Registrar or other ministerial officer The object of section 83 is to give the Local Government power to extend the jurisdiction of the Small Cause Court, and thus transfer cases of minor importance from the Recorder's Court to that tribunal, and that of sections 84 and 85 (suggested by sections 71 and 72 of the Punjab Courts Act, 1884) is to make necessary subsidiary provisions in regard to court fees

4 Another object of the Bill is to declare the Court of the Recorder to be the High Court for the whole of Burma, inclusive of Upper Burma and the Shan States, in reference to proceedings against European British subjects and persons jointly charged with European British subjects--sentences of death passed by the Court of the Recorder as

such High Court being subject to confirmation by the Calcutta High Court The parts of the Bill having special reference to this object are section 46 and those parts of the first and second schedules which relate to Act X of 1882 and Regulation VII of 1886

5 A third object of the Bill is to enable the Local Government to direct that, for the hearing of any particular case or class of cases, the Judge of the Town of Maulmain shall be included among the members of the Special Court Effect is given to this object of the Bill by sections 62 and 69, sub section (*2*) Section 86 provides for the conferment of subsidiary jurisdiction in small causes in Maulmain, and is supplemental to those sections

6 Other noticeable portions of the substituted Bill are the following —

(*a*) *Section 12* —By this section it is proposed to limit the Small Cause Court powers of Myo ôks to suits of value not exceeding one hundred rupees

(*b*) *Section 29, sub section* (*1*) — The saving in this sub section has reference to the proposal of the Chief Commissioner that an Additional Sessions Judge be appointed in aid of the Commissioners of the Pegu and Irrawaddy Divisions

(*c*) *Section 37, sub sections* (*3*) *and* (*4*) —These sub sections will enable the Local Government to require the Recorder to sit at Mandalay or elsewhere in Upper Burma for the trial of an European British subject

(*d*) *Section 52* — This section has been inserted because in Rangoon as in the presidency towns, the parallel working of the Insolvency Statute (11 & 12 Vict c 21) and the Insolvency Chapter of the Code of Civil Procedure has been found to be almost impracticable

(*e*) *Section 69* — This section has reference to a proposal to have in each district in Lower Burma a single establishment for the service of processes of all kinds

(*f*) *Section 97 and the second schedule* —By these provisions it is proposed to have Burma divorces settled in Burma The expense of carrying proceedings to Calcutta is heavy and must in many cases be prohibitive

(*g*) *Section 99 sub section* (*2*) —In this sub section the substance of section 1 of Act XIX of 1886, in so far as the section relates to Bengal Regulation V of 1799, has been incorporated

(*h*) *Section 100* — This section removes a mere technical difficulty which has come to notice in the preparation of a new edition of the Burma Code

(*i*) *Section 101* —The object of this section is to remove a difficulty which arises from the Arakan Hill and Salwin Districts being ordinarily administered by officers of the Burma Police

7 The publication ordered by the Council has been made as follows —

In English

Gazette	*Date*
Gazette of India	12th 19th and 26th February 1887
Burma Gazette	5th March, 1887

In the Vernaculars

THE THIRD SCHEDULE—ENACTMENTS TO BE ADDED TO SCHEDULE TO REGULATION IX OF 1874

The Lower Burma Courts Bill

(Chapter I—Preliminary Section 3 Chapter II—Law to be administered—Section 4)

No II

A Bill to consolidate and amend the law relating to the Courts and declare the effect of certain enactments in Lower Burma

WHEREAS it is expedient to consolidate and amend the law relating to the Courts and to declare the effect of certain enactments, in Lower Burma, and whereas the Secretary of State for India in Council has sanctioned and approved the passing of this Act, It is hereby enacted as follows —

CHAPTER I

PRELIMINARY

Title extent and commencement

1 (*1*) This Act may be called the Lower Burma Courts Act, 1889

(*2*) Save in so far as it applies expressly or by necessary implication to other parts of British India (inclusive of Upper Burma and the Shan States), and save also as provided by the Arakan Hills Civil Justice Regulation, 1874, the Arakan Hill District Laws Regulation, 1874 and the Arakan Hills Civil Justice Amendment Regulation 1876 or by or under any other enactment heretofore or hereafter passed this Act extends to the territories for the time being comprised in Lower Burma and

VIII of 1874
IX of 1874
V of 1876

(*3*) It shall come into force at once

Repeal

2 (*1*) The enactments specified in the first schedule are repealed to the extent mentioned in the third column thereof

(*2*) Any enactment or document referring to any of the enactments hereby repealed, or to any enactment repealed by any of those enactments, or to any enactment repealed by the Burma Courts Act, 1872, shall so far as may be, be construed as referring to this Act or to the corresponding portion thereof, and

VII of 1872

(*3*) All rules orders and appointments made, limits fixed, directions given, powers and jurisdiction conferred, lists tables and notifications published, and seals forms, registers, books, accounts, statements and returns prescribed, under any of the said enactments shall, so far as may be, be deemed to have been respectively made, fixed, given, conferred, published and prescribed under this Act

[Act XVII, 1875, ss 2 and 95, and Act X, 1884, s 6]

(*4*) No trial had decree made, order passed or proceeding taken by any Court before the day on which this Act comes into force shall if not invalid before that day, become invalid by reason of any repeal effected by this Act

Definitions.

3 In this Act, unless there is something repugnant in the subject or context,—

(*1*) "Lower Burma" means the territories for the time being comprised in Lower Burma under section 2 sub sections (*1*) and (*2*), of the Upper Burma Laws Act, 1886 [New]
XX of 1886

(*2*) "Shan States" means the territories for the time being notified under sub section (*3*) of section 8 of the Upper Burma Laws Act, 1886, as Shan States for the purposes of that section and sections 6 and 7 of that Act [Act XV, 1888 s 2]

(*3*) "Upper Burma" means the whole of Burma except Lower Burma and the Shan States [New]

(*4*) "High Court" means the High Court of Judicature at Fort William in Bengal [Act XVII 1875 s 3]

(*5*) "Judicial Commissioner" means the Judicial Commissioner of Lower Burma [Act XVII, 1875 s 3]

(*6*) "Recorder" means the Recorder of Rangoon and [New]

(*7*) "Special Court" means the Special Court constituted under this Act [New]

CHAPTER II

LAW TO BE ADMINISTERED

Law to be administered by Courts under this Act

4 (*1*) Where, in any suit or other proceeding it is necessary for any Court under this Act to decide any question regarding succession, inheritance, marriage or caste, or any religious usage or institution — [Act XVII, 1875 ss 4 and 5]

the Buddhist law in cases where the parties are Buddhists,

the Muhammadan law in cases where the parties are Muhammadans, and

the Hindu law in cases where the parties are Hindus,

shall form the rule of decision, except in so far as such law has, by legislative enactment, been altered or abolished, or is opposed to any custom having the force of law in Lower Burma

(*2*) Subject to the provisions of sub-section (*1*) and of any other enactment for the time being in force, all questions arising in suits before the Recorder shall be dealt with and determined according to the law for the time being administered by the High Court in the exercise of its ordinary original civil jurisdiction

(*3*) In cases not provided for by sub section (*1*) or sub section (*2*) or by any such other enactment as aforesaid, the Court shall act according to justice, equity and good conscience

The Lower Burma Courts Bill.

(Chapter III—The Court of the Judicial Commissioner and the Courts subordinate thereto—Sections 5-10)

CHAPTER III

THE COURT OF THE JUDICIAL COMMISSIONER AND THE COURTS SUBORDINATE THERETO

Grades, Location and Control of Civil Courts

[Act XVII, 1875, s 6 and Act X, 1884, s. 3]

5 Besides the Courts of Small Causes, the Court of the Recorder and the Special Court, there shall be six grades of Civil Courts in Lower Burma, namely —

Grades of Civil Courts

(*a*) the Court of the Myo ôk,

(*b*) the Courts of the Extra Assistant Commissioner and the Assistant Commissioner,

(*c*) the Court of the Deputy Commissioner,

(*d*) the Court of the Judge of the Town of Maulmain,

(*e*) the Court of the Commissioner, and

(*f*) the Court of the Judicial Commissioner

[Act XVII 1875 s 7]

6 All existing Courts of the grades specified in the last foregoing section shall be deemed to have been established under this Act

Confirmation of existing Civil Courts

[Act XVII 1875, ss 8 and 9 and Act X 1884 ss 4 and 5]

7 The Local Government may, of its own authority, vary the number of Courts of the grade specified in clause (*a*) or (*b*) of section 5, and the local limits of the jurisdiction of any such Court, and, with the previous sanction of the Governor General in Council, the number of Courts of the grade specified in clause (*c*) or (*e*) and the local limits of the jurisdiction of any such Court or of the Court of the Judge of the Town of Maulmain

Number and local jurisdiction of Civil Courts

[Act XVII, 1875, s 10]

8 Every Court of a grade specified in section 5 shall—

Place of sitting and seal of Civil Courts

(*a*) be held at such place or places as the Local Government directs or, in the absence of any such direction, at any place within the local limits of the Court's jurisdiction which the presiding officer thinks fit, and

(*b*) use a seal of such form and dimensions as the Local Government prescribes

[Act XVII, 1875, s 11 and Act XVI, 1885, s 14.]

9 (*1*) The general superintendence and control over all Courts of the grades specified in clauses (*a*), (*b*), (*c*), (*d*) and (*e*) of section 5 shall be vested in, and all such Courts shall be subordinate to, the Court of the Judicial Commissioner

Superintendence and control over Civil Courts

(*2*) Subject to such general superintendence and control of the Court of the Judicial Commissioner, the control over all the Courts in a division which are of the grades specified in clauses (*a*), (*b*) and (*c*) of section 5 shall be vested in, and all such Courts shall be subordinate to, the Court of the Commissioner

(*3*) Subject as aforesaid and to the control of the Court of the Commissioner the control over all the Courts in a district which are of the grades specified in clauses (*a*) and (*b*) of section 5 shall be vested in, and all such Courts shall be subordinate to, the Court of the Deputy Commissioner

Ordinary Civil Jurisdiction

[Act XVII 1875 s 12 and Act X 1884 s 7] XIV of 1882, IX of 1887

10 Subject to the provisions of this Act and of the Code of Civil Procedure, the Provincial Small Cause Courts Act 1887, and any other enactment for the time being in force, the Courts mentioned in the first column of the following table shall have such civil jurisdiction, respectively, as is specified in the second column thereof —

Jurisdiction of the several grades of Civil Courts

Grade and name of Court	Extent of jurisdiction
1	2
(*a*) The Court of the Myo-ôk	Powers of a Civil Court for the adjudication of any suit of value not exceeding five hundred rupees
(*b*) The Court of the Extra Assistant Commissioner and the Court of the Assistant Commissioner	Powers of a Civil Court for the adjudication of any suit of value not exceeding three thousand rupees
(*c*) The Court of the Deputy Commissioner	Powers of a Civil Court for the adjudication of any suit without restriction as regards the value Powers of a District Judge Power to hear appeals from original decrees and orders of Courts of Myo-ôks Extra Assistant Commissioners and Assistant Commissioners
(*d*) The Court of the Judge of the Town of Maulmain	Powers of a Civil Court for the adjudication of any suit without restriction as regards the value Powers of a District Judge Powers of a Provincial Court of Small Causes for the adjudication of any suit cognizable by such a Court and of value not exceeding one thousand rupees

The Lower Burma Courts Bill

(Chapter III—The Court of the Judicial Commissioner and the Courts subordinate thereto—Sections 11 16)

Grade and name of Court	Extent of jurisdiction
1	2
[Act XVI, 1885 s 5.] (*e*) The Court of the Commissioner	As regards the Courts subordinate to the Court of the Commissioner the same powers of withdrawal trial and transfer as are conferred by section 25 of the Code of Civil Procedure on a District Court Power to hear appeals from original decrees and orders of Courts of Deputy Commissioners
(*f*) The Court of the Judicial Commissioner	Powers of a High Court in relation to all Civil Courts in Lower Burma except the Special Court the Court of the Recorder and the Court of Small Causes of Rangoon Power to hear appeals from original decrees and orders of Courts of Commissioners

Special Civil Jurisdiction

[Act XVII 1875, s 13 and Act X 1884, s. 3]

Enhancement of criminal jurisdiction of certain Civil Courts

11 The Local Government may, by notification in the Burma Gazette, invest any Extra Assistant Commissioner or Assistant Commissioner with powers for the adjudication of suits of value not exceeding five thousand rupees

[Act XVII 1875 s 14]

Power to invest certain Courts with Small Cause Court jurisdiction

12 The Local Government may, by a like notification confer, within such local limits as it thinks fit, upon any Myo ôk, Extra Assistant Commissioner or Assistant Commissioner the jurisdiction of a Judge of a Court of Small Causes under the Provincial Small Cause Courts Act, 1887, for the trial of suits cognizable by such Courts, up to such value not exceeding one hundred rupees in the case of a Myo ôk or five hundred rupees in the case of an Extra Assistant Commissioner or Assistant Commissioner, as it thinks fit, and may withdraw any jurisdiction so conferred

IX of 1887

[Act XVII 1875, s 16]

Exercise by one Civil Court of jurisdiction within local jurisdiction of another such Court

13 The Local Government may, by a like notification, empower the presiding officer of any Court of a grade specified in clause (*a*) (*b*), (*c*) or (*e*) of section 5 to exercise within the local limits of the jurisdiction of any other Court of the same grade all or any of the powers which might be exercised by the presiding officer of the other Court

[Act XVII, 1875 s 17]

Power to confer powers of Court of Deputy Commissioner on certain district officers

14 (*1*) The Local Government may, by a like notification, confer upon the officer in chief executive charge of any district the powers which might be exercised within the district by the Court of a Deputy Commissioner

[New Cf Act XVIII 1884, s 42

(*2*) Where such powers are so conferred upon such an officer, the officer shall, for purposes connected with the exercise thereof, be deemed to be a Deputy Commissioner and his Court the Court of a Deputy Commissioner

Civil Procedure

[Act XVII 1875, s 19

Procedure where the presiding officer of a Court is personally interested in a case

15 (*1*) The presiding officer of a Court of a grade specified in clause (*a*) (*b*), (*c*), (*d*) or (*e*) of section 5 shall not without the consent of the parties or authority from the Court to which he is immediately subordinate, adjudicate upon any suit or other proceeding to which he is a party or in which he is personally interested or upon any appeal against a decree or order passed by himself

(*2*) When any such proceeding or appeal comes before the presiding officer of any such Court he shall, unless the parties consent to his proceeding therewith himself, transmit the record to the Court to which he is immediately subordinate, with a report of the circumstances attending the reference

(*3*) The Court to which the record is so transmitted shall thereupon either authorise such presiding officer to proceed with the case or itself dispose thereof under section 25 of the Code of Civil Procedure

XIV of 188

(*4*) In either of the following cases, namely —

(*a*) if an appeal is preferred to the Judicial Commissioner from a decree or order which was passed by him in any other capacity or in which he is personally interested,

(*b*) if an application is made to him for the revision of such a decree or order,

he shall, unless the parties consent to his proceeding with the case himself, transmit the record to the Local Government with a report of the circumstances attending the reference, and thereupon that Government may transfer the case for trial to the Court of the Recorder

XIV of 188 [Act XVII 1875, s 20 and Act XVIII, 188 s 35]

Power of Deputy Commissioner to distribute business

16 Notwithstanding anything in the Code of Civil Procedure, a Deputy Commissioner may, by written order, direct that any business cognizable under this Act by his Court and the Courts under his control shall be distributed among those Courts in such manner as he thinks fit

The Lower Burma Courts Bill

(*Chapter III—The Court of the Judicial Commissioner and the Courts subordinate thereto—Sections 17-24*)

Provided that no direction issued under this section shall empower any Court to exercise any powers or deal with any business beyond the limits of its proper jurisdiction

[Act XVII, 1875 s 20]

Language of plaints and of record of evidence in Civil Courts

17 Notwithstanding anything in the same Code, plaints may be written and evidence may be taken down in such language or languages as the Local Government directs in this behalf

Civil Appeals and References

[Act XVII, 1875 s 22 and Act XVI 1885 s 18]

Time for appeal to Commissioner

18 (*1*) The period of limitation for an appeal to the Court of the Commissioner shall be forty two days

(*2*) In the computation of that period and in all other respects the limitation of the appeal shall be governed by the provisions of the Indian Limitation Act, 1877

XV of 1877

[Act XVII 1875 s 23 and Act X, 1884 s 7]

Transfer of civil appellate jurisdiction to Commissioner and Judicial Commissioner

19 (*1*) The Local Government may, by order notified in the Burma Gazette direct that the civil appellate jurisdiction of the Court of any Commissioner or Deputy Commissioner shall be transferred to the Court of the Judicial Commissioner or Commissioner, respectively either wholly or in respect of a particular suit or class of suits, and either for a specified time or until further orders

[Act XIV 1885 s 2(4)]

(*2*) The Local Government may, by order notified as aforesaid, cancel any order made under sub section (*1*), but not so as to affect any proceedings pending at the date of the cancelling order

[Act X 1884, s 8 and Act XVIII 1884, s 42]

Conferment of appellate powers on Assistant Commissioners

20 (*1*) The Local Government may, by notification in the Burma Gazette, confer upon any Assistant Commissioner power to hear appeals from original decrees and orders of any Myo ôk, Extra Assistant Commissioner or Assistant Commissioner, and may withdraw the power

(*2*) An Assistant Commissioner, upon whom the power mentioned in sub section (*1*) has been conferred, shall, for purposes connected with the exercise thereof, be deemed to be a Deputy Commissioner

[Act XVII 1875 ss 25 & 26]

Reference to Judicial Commissioner during progress of an appeal

21 (*1*) When in the trial of any civil appeal an Appellate Court subordinate to the Court of the Judicial Commissioner entertains a doubt in regard to a question of law or of custom having the force of law or as to the construction of any document or the admissibility of any evidence affecting the merits of the case, such Court may draw up a statement of the question in regard to which it entertains the doubt, and refer it, with the Court's own opinion on the question, for the decision of the Judicial Commissioner

(*2*) The Judicial Commissioner shall, after considering the question so referred, send a ruling thereon to the Court by which the reference was made, and that Court shall, on the receipt of the ruling, proceed to dispose of the case in conformity therewith

(*3*) The costs, if any, consequent on any such reference to the Judicial Commissioner shall be costs in the appeal out of which the reference arose

[Act XVII, 1875, s 27]

Admission of second appeals by Judicial Commissioner

22 If in any case the appellate decree or order of the Court of a Deputy Commissioner or Commissioner reverses or modifies an original decree or order, the Judicial Commissioner may receive a second appeal, if, on a perusal of the grounds of appeal and of copies of the judgments of the subordinate Courts, a further consideration of the case appears to him to be requisite for the ends of justice

[Act XVII 1875 s 28]

Finality of concurrent decisions of original and first appellate Courts on matters of fact

23 If the appellate decree or order of the Court of a Deputy Commissioner or Commissioner confirms in original decree or order on a matter of fact, the appellate decree or order shall be final

[Act XVII 1875 s 29]

Reference or appeal to Judicial Commissioner with respect to concurrent decisions of original and first appellate Courts on questions of law

24 (*1*) If in any case the appellate decree or order of the Court of a Deputy Commissioner or Commissioner confirms an original decree or order on a question of law or of custom having the force of law or as to the construction of any document or the admissibility of any evidence affecting the merits of the case, any party considering himself aggrieved by such appellate decree or order may apply to the Court of the Deputy Commissioner or Commissioner, as the case may be, either to draw up a statement of the question and submit the statement to the Judicial Commissioner, or to allow him to appeal on the question to the Judicial Commissioner

(*2*) Such application shall not be admitted unless it is made within the period prescribed for an appeal to the Court of the Deputy Commissioner or Commissioner, as the case may be

(*3*) If the Court on an application for the drawing up of a statement, considers that there is a question of law or of custom having the force of law or as to the construction of any document or the admissibility of any evidence affecting the merits of the case, it shall draw up a statement of the question and of such facts only of the case as are necessary to explain it, and shall submit

The Lower Burma Courts Bill

(Chapter III—The Court of the Judicial Commissioner and the Courts subordinate thereto—Sections 25 29)

the statement, together with the record of the case, to the Judicial Commissioner

(4) If the Court refuses to draw up such statement it shall record in writing its reasons for so refusing, and a certified copy of the reasons shall, on application to the Court, be furnished to any party to the case

(5) In the case of an application to be allowed to appeal to the Judicial Commissioner, the period during which the application was pending in the Court of the Deputy Commissioner or Commissioner shall, if the appeal is allowed, be excluded in the computation of the period of limitation for an appeal to the Judicial Commissioner

[Act XVII 1875 s 30]

Disposal of references under last foregoing section

25 (1) When a case has been referred with a statement under the last foregoing section, the Judicial Commissioner shall, on payment in respect of the statement of the fee which would be payable in the case in respect of a memorandum of appeal to his Court, proceed to try the case as if it were an appeal instituted in his Court, and shall send a copy of his judgment and of his decree or order in the case to the Court by which the statement was submitted

[Act XVII 1875, s 34]

(2) If the statement appears to the Judicial Commissioner to be unduly limited, he may amend it as he thinks fit

(3) Notwithstanding anything in sub section (1), it shall not be necessary for any party to the case referred to be present either personally or otherwise at the trial thereof by the Judicial Commissioner

[Act XVII, 1875, s 34]

Power to call for record where reference or appeal to Judicial Commissioner has been wrongly refused

26 (1) In any case in which the Court of a Deputy Commissioner or Commissioner has, in the opinion of the Judicial Commissioner, wrongly refused to submit a statement or allow an appeal under section 24, the Judicial Commissioner may call for the record of the case, and may on receipt of the record and on payment of the fee which would be payable in the case in respect of a memorandum of appeal to his Court, proceed to try the case as if it were an appeal instituted in his Court

(2) Where the Judicial Commissioner so tries the case, he shall send a copy of his judgment and of his decree or order therein to the Court of the Deputy Commissioner or Commissioner, as the case may be

[Act XVII 1875 s 31]

Reference of questions of law by Judicial Commissioner to High Court

27 (1) If any question of law or of custom having the force of law or as to the construction of any document or the admissibility of any evidence arises in a case before the Court of the Judicial Commissioner under this Act, and the Judicial Commissioner, by reason of such question arising, entertains any doubt as to the decision to be passed in the case, he may, if he thinks fit, draw up a statement of the question and submit it to the High Court with the record of the case and his own opinion on the question

(2) On receiving the statement the High Court, by a bench constituted by two or more Judges, shall decide the question referred therein and transmit to the Judicial Commissioner a copy of its judgment under the signature of its Registrar, and the Judicial Commissioner shall, on receipt of the copy, proceed to dispose of the case in conformity with the decision of the High Court

(3) It shall not be necessary for any party to the case to be present in the High Court, either personally or otherwise, when the question referred comes before that Court for decision

(4) Where the Judicial Commissioner makes a reference to the High Court under this section, he may make such a contingent decree or order, and such a decree or order shall be of such effect, as is mentioned in section 618 of the Code of Civil Procedure XIV of 1882

(5) The costs, if any, consequent on a reference to the High Court under this section shall be costs in the case [Act XVII 1875 s 32]

Criminal Jurisdiction

Judicial Commissioner as High Court

28 Except in reference to proceedings against European British subjects or persons jointly charged with European British subjects, the Court of the Judicial Commissioner shall be the highest Court of criminal appeal or revision in the whole of Lower Burma beyond the limits of the ordinary civil jurisdiction of the Recorder [Act XVII 1875 s 35 and Act X 1882 s 4 (1)]

Divisional Commissioners as Courts of Session

29 (1) Subject to the provisions of sections 7 and 9 of the Code of Criminal Procedure, 1882, with respect to the alteration of the limits of sessions divisions and the appointment of Additional Sessions Judges to exercise jurisdiction in Courts of Session, each division for the time being administered by a Commissioner shall be a sessions division, the Court of the Commissioner shall be the Court of Session for the sessions division, and the Commissioner shall be the Judge of the Court of Session [Act XVII, 1875 s 3 X of 1882]

(2) For the purposes of sub section (1) the areas for the time being comprised within the local limits of the ordinary civil jurisdiction of the Recorder and the civil jurisdiction of the Court of the Judge of the Town of Maulmain shall

The Lower Burma Courts Bill

(Chapter III—The Court of the Judicial Commissioner and the Courts subordinate thereto—Sections 30-36 Chapter IV—The Court of the Recorder—Section 37)

be deemed not to be included in the divisions in which they are respectively situate

[Act XVII 1875, s 35]

Court of Session for Town of Maulmain

30 The area for the time being comprised within the local limits of the civil jurisdiction of the Court of the Judge of the Town of Maulmain shall be a sessions division, that Court shall be the Court of Session for the sessions division, and the Judge of that Court shall be the Judge of the Court of Session

[Act XVII 1875 s 36]

Power to transfer criminal jurisdiction of Commissioner to Judicial Commissioner

31 (*1*) The Local Government may by order notified in the Burma Gazette, direct that the criminal jurisdiction of any Commissioner shall be transferred to the Judicial Commissioner either wholly or in respect of a particular case or class of cases, and either for a specified time or until further orders

[Cf Act XIV, 1885, s. 2]

(*2*) The Local Government may, by order notified as aforesaid, cancel any order made under sub section (*1*), but not so as to affect any proceeding pending at the date of the cancelling order

Provisions with respect to transferred Jurisdiction

[Act XVII 1875 s 37]

Application of Acts VII of 1870 and XV of 1877 to certain transferred proceedings

32 When any civil or criminal appellate jurisdiction has been transferred under section 19 or section 31—

VII of 1870

(*a*) fees shall be payable under the Court fees Act, 1870, and any rules there under, at the rates at which they would be payable in the Court from which the jurisdiction was transferred, and

(*b*) all appeals and applications presented to a Court in the exercise of the jurisdiction so transferred shall, for the purposes of the law relating to limitation, be deemed to have been presented to the Court in the exercise of its ordinary jurisdiction

Appointment and Removal of Officers

[Act X, 1884, s 9]

Appointment of Civil Judges

33 (*1*) The Judicial Commissioner shall be appointed by the Governor General in Council

(*2*) The presiding officers of Courts of the grades specified in clauses (*a*) (*b*), (*c*), (*d*) and (*e*) of section 5 may be appointed by the Local Government

[Act X, 1884, s 10.]

Suspension and removal of Civil Judges

34 (*1*) The presiding officer of a Court of a grade specified in any clause of section 5 may be suspended or removed by the Governor General in Council

(*2*) The presiding officer of any such Court, except the Court of the Judicial Commissioner, may be suspended or removed by the Local Government

[Act XVII 1875 s 40]

Appointment of ministerial officers of Civil Courts

35 (*1*) The ministerial officers of Courts of the grades specified in clauses (*a*) and (*b*) of section 5 shall be appointed by the Deputy Commissioner to whose Court those Courts are subordinate

(*2*) The ministerial officers of Courts of other grades specified in section 5 shall be appointed by the presiding officers of those Courts

(*3*) The foregoing sub sections are subject to the proviso that the appointment of a ministerial officer to an office in a Court of a grade specified in clause (*a*), (*b*) (*c*), (*d*) or (*e*) of section 5 shall, if the monthly salary attached to the office exceeds fifty rupees, be subject to the sanction of the Judicial Commissioner

[Act XVII, 1875 s 41]

Power to fine or remove such officers

36 (*1*) A Court of a grade specified in clause (*a*) or (*b*) of section 5 may fine in an amount not exceeding one month's salary any of its ministerial officers who is guilty of misconduct or neglect in the performance of the duties of his office

(*2*) The Deputy Commissioner may on appeal or otherwise remit or reduce any fine imposed under sub section (*1*), and may himself dismiss or suspend, or fine up to the amount of one month's salary, any ministerial officer of his own Court or of any Court subordinate to his Court

(*3*) A Court of a grade specified in clause (*d*) (*e*) or (*f*) of section 5 may dismiss or suspend any of its ministerial officers or fine any such officer in an amount not exceeding one month's salary

CHAPTER IV

THE COURT OF THE RECORDER

The Recorder

[Act XVII, 1875, s 45.]

Court of Recorder of Rangoon

37 (*1*) There shall continue to be a Court to be called the Court of the Recorder of Rangoon

(*2*) The Recorder shall be appointed by the Governor General in Council, and shall be a barrister of not less than five years' standing, and shall hold his office during the pleasure of the Governor General in Council

(*3*) He shall ordinarily hold his Court at Rangoon, but the Local Government may direct him on any particular occasion to hold his Court at any other place in Lower Burma for

The Lower Burma Courts Bill

(*Chapter IV—The Court of the Recorder—Sections 38 42*)

the trial of any civil case transferred to him, or at any other place in Lower Burma or Upper Burma for the trial of any criminal case in which a European British subject is concerned

(*4*) A direction given by the Local Government under sub section (*3*) with respect to any criminal case shall take effect notwithstanding anything in section 336 of the Code of Criminal Procedure, 1882. V of 1882

(*5*) The Recorder shall use a seal of such form and dimensions as the Local Government prescribes

Civil Jurisdiction

Act XVII 875 s 47] Variation of local limits of ordinary civil jurisdiction of Recorder

38 The Local Government may, with the previous sanction of the Governor General in Council, vary the local limits of the ordinary civil jurisdiction of the Recorder

Act XVII 875 ss 48 and 51] X of 1887 Civil jurisdiction of Recorder

39 (*1*) Subject to the provisions of this Act and of the Provincial Small Cause Courts Act, 1887, and any other enactment for the time being in force, the Recorder shall have the powers of a District Judge within the local limits of his ordinary civil jurisdiction and may adjudicate upon any suit without restriction as regards the value, if, in the case of immoveable property the subject matter of the suit or any part thereof is situate, or if, in any other case, the cause of action or a material part thereof has arisen, or the defendant at the time of the commencement of the suit dwells or either personally or by his servant or agent carries on business or works for gain, within those limits

(*2*) A corporation or company having an office within those limits shall, when the cause of action or a material part thereof, has arisen in Burma, or in any foreign territory adjacent thereto, be deemed for the purpose of this section, to carry on business at such office

Act XVII 875 s 49] Appeal from decrees and orders of Recorder

40 (*1*) There shall be no appeal from a decree or order passed by the Recorder in any suit or other civil proceeding where the amount or value of the subject matter does not exceed three thousand rupees

(*2*) But where the amount or value of the subject matter of the suit or other civil proceeding in the Court of the Recorder exceeds three thousand rupees, and is less than ten thousand rupees an appeal from his decree or order shall subject to the provisions of any other enactment for the time being in force, lie to the High Court

Provided that the amount or value of the matter in dispute on appeal must exceed the former sum and be less than the latter

[Act XVII 1875, s 53] New trial and review by Recorder

41 (*1*) The Recorder may, if he thinks fit, grant a new trial in any suit or other civil proceeding disposed of by him, if, in a suit relating to immoveable property, the new trial is applied for within ninety days from the date of the decree and if in any other case, it is applied for within thirty days from the date of the decree or order

Provided that nothing in this section shall interfere with the power of the Recorder to allow a review of judgment under the Code of Civil Procedure, if such review is applied for within the period allowed for making the application XIV of 1882

Provided also that the Recorder may, if he thinks fit, before granting a new trial or a review, require the party applying therefor to give sufficient security for due compliance with the terms of the decree or order to which the application relates, or for payment of the costs of the new trial or review, or for both purposes

[New Cf Act IX 1887 s 17] (*2*) Where a person has become liable as surety under the second proviso to sub section (*1*), the security may be realised in manner provided by section 253 of the Code of Civil Procedure

[Act XVII, 1875 ss 54, 55 56 and 57] Reference of cases by Recorder to High Court and procedure thereon

42 (*1*) If in any case before the Recorder any question of law or of custom having the force of law or as to the construction of any document or the admissibility of any evidence affecting the merits of the case arises on which the Recorder entertains any doubt, he may, if he thinks fit draw up a statement of the question and submit it to the High Court with the record of the case and his own opinion on the question

(*2*) On receiving the statement the High Court, by a bench constituted by two or more Judges, shall decide the question referred therein and transmit to the Recorder a copy of its judgment under the signature of its Registrar, and the Recorder shall, on receipt of the copy, proceed to dispose of the case in conformity with the decision of the High Court

(*3*) It shall not be necessary for any party to the case to be present in the High Court, either personally or otherwise, when the question referred comes before that Court for decision

(*4*) Where the Recorder makes a reference to the High Court under this section, he may make such a contingent decree or order, and such a decree or order shall be of such effect, as is mentioned in section 618 of the Code of Civil Procedure XIV of 1882

(*5*) The costs, if any, consequent on a reference to the High Court under this section shall be costs in the case

The Lower Burma Courts Bill

(*Chapter IV—The Court of the Recorder—Sections 43 49*)

Act XVII, 875, s 59]

Procedure where Recorder is personally interested in a case

43 (*1*) When any suit or other civil proceeding comes before the Recorder to which he is a party or in which he is personally interested, he shall, unless the parties consent to his proceeding therewith himself, transmit the record to the Local Government with a report of the circumstances attending the reference, and thereupon that Government may transfer the case for trial to the Court of the Judicial Commissioner

Cf Act XIV, 885 s 4]

(*2*) In the disposal of a case so transferred the Judicial Commissioner shall administer the same law, follow the same procedure, exercise the same powers and use the same seal as would be administered, followed, exercised and used by the Recorder in a like case, and the decree or order made in the case by the Judicial Commissioner shall for the purposes of the law relating to appeal, be deemed to be made by the Recorder

Act XVII, 875, s 52.]

Recorder as High Court for certain purposes

44 The Court of the Recorder shall—

(*a*) for the purposes of the Suits Valuation Act, 1887 and

'II of 1887

(*b*) in respect of the Court of Small Causes of Rangoon,

be deemed to be a High Court

Criminal Jurisdiction

Act XVII 875 s 60]

Recorder as Court of Session for Rangoon

45 The area for the time being comprised within the local limits of the ordinary civil jurisdiction of the Recorder shall be a sessions division, the Court of the Recorder shall be the Court of Session for the sessions division and the Recorder shall be the Judge of the Court of Session

Act XVII 875 ss 62 3 and 64 Act XI 1880, 6 and Act X, 1882, 4 (*i*)]

Recorder as High Court for Burma in reference to proceedings against European British subjects

46 (*1*) The Recorder shall be the High Court for the whole of Burma (inclusive of Upper Burma and the Shan States) in reference to proceedings against European British subjects and persons jointly charged with European British subjects

(*2*) When the Recorder, as the High Court for Burma under sub section (*1*), in reference to such proceedings, passes sentence of death, the proceedings shall be submitted to the High Court of Judicature at Fort William in Bengal, and the sentence shall not be executed unless it is confirmed by that High Court

(*3*) When proceedings are submitted to the High Court, under sub section (*2*), that Court shall, as a High Court, deal therewith, under the provisions, *mutatis mutandis*, of Chapter XXVII of the Code of Criminal Procedure, 1882, as if they had been submitted by a Court of Session and the Recorder were the Sessions Judge X of 1882

(*4*) If in any case before the Recorder as a High Court under this section any such question arises as is referred to in section 42, and the Government Advocate certifies that in his opinion there is an error in the decision of the question the Recorder shall make a reference to the High Court in the manner required by that section and shall, on receipt of the copy of the judgment of the High Court, review the case or such part of it as may be necessary, and may thereupon reduce or remit any sentence which he has passed [Letters Patent of High Court of Judicature at Fort William s 26 and Act X 1882 s 434]

Effect of the last foregoing section with respect to Shan States

47 So far as the last foregoing section relates to the Shan States, it shall come into force therein at once notwithstanding anything in section 6, sub section (*2*) of the Upper Burma Laws Act, 1886, or in section 3, sub section (*1*), of the Shan States Act, 1888 XX of 1886 XV of 1888

Recorder as High Court for certain purposes [Act XVII, 1875, ss 60 and 61]

48 The Court of the Recorder shall—

(*a*) for the purposes of section 527 of the Code of Criminal Procedure, 1882, and X of 1882

(*b*) in respect of the Magistrates within the local limits of its ordinary civil jurisdiction and the proceedings of such Magistrates

be deemed to be a High Court

Admiralty Jurisdiction

[Act XVII, 1875 s 65]

Admiralty jurisdiction of Recorder

49 (*1*) Throughout Lower Burma, including the territorial waters thereof, the Recorder shall have and exercise all such civil jurisdiction and maritime jurisdiction of a civil nature as may now be exercised by the High Court as a Court of Admiralty or of Vice admiralty and also such jurisdiction for the trial and adjudication of prize causes and other maritime questions as may now be exercised by the said High Court

(*2*) The procedure in cases brought before the Recorder in the exercise of such jurisdiction shall be regulated as far as may be by the Code of Civil Procedure and, in cases to which the rules contained in that Code are not applicable, the procedure shall be in accordance with the rules for the time being applicable to like cases in the High Court XIV of 1882

(*3*) An appeal shall lie to the High Court from any sentence or decree of the Recorder under this section subject to the laws, rules and orders for the time being in force regard

The Lower Burma Courts Bill

(*Chapter IV—The Court of the Recorder—Sections 50-54*)

ing appeals to the High Court under the Code of Civil Procedure

Insolvency Jurisdiction

[Act XVII, 1875 s 66]

50 (*1*) Within the local limits of the ordinary civil jurisdiction of the Recorder, and within the Towns of Maulmain, Akyab and Bassein, the Recorder shall have and exercise such powers and authorities with respect to insolvent debtors and their creditors as are for the time being exercisable with respect to insolvent debtors and their creditors by the High Court or a Judge thereof in Calcutta

Insolvency jurisdiction of Recorder

(*2*) The procedure in cases brought before the Recorder in the exercise of such jurisdiction shall be, as far as may be practicable, in accordance with the procedure prescribed by the Statute 11 and 12 Victoria chapter 21, as amended by any enactment for the time being in force

(*3*) The Recorder shall with the previous sanction of the Local Government, appoint a person to be official assignee in all insolvencies prosecuted in the Court of the Recorder, and the provisions of the said Statute relating to official assignees shall, *mutatis mutandis* and subject to the other provisions of this section, apply to the assignee so appointed

(*4*) Every order made by the Recorder in the exercise of the jurisdiction conferred by this section shall have the same force throughout British India as if it had been made by the High Court or a Judge thereof, and all the provisions of the said Statute relating to the persons or property of insolvents shall, *mutatis mutandis*, apply to insolvents applying for relief under this section

(*5*) Any person considering himself aggrieved by any adjudication, order or proceeding of the Recorder under this section may, within thirty days from the date thereof present a petition to the Special Court and that Court shall enquire into the matter of the petition and make such order thereon as it thinks just, and such order shall be final and conclusive on all parties and shall be binding on the Court of the Recorder

(*6*) The Recorder may from time to time, with the previous sanction of the Local Government, make rules consistent with this Act for facilitating within his jurisdiction the relief intended to be hereby given

(*7*) No conveyance, letter of attorney or other instrument executed under any order of the Recorder in exercise of the jurisdiction conferred by this section shall be chargeable with stamp duty

[Act XIV, 1885 s 2]

51 (*1*) The Local Government may, by order notified in the Burma Gazette, direct that, from a date to be therein specified, the jurisdiction vested in the Recorder within the Towns of Maulmain, Akyab and Bassein by the last foregoing section shall be vested, as regards each or any of those Towns, as follows —

Power to vest in local officers insolvency jurisdiction vested in Recorder in Maulmain Akyab and Bassein

(*a*) in the Judge of the Town of Maulmain within that Town,

(*b*) in the Deputy Commissioner of Akyab within the Town of Akyab,

(*c*) in the Deputy Commissioner of Bassein within the Town of Bassein

(*2*) While any such order is in force, the last foregoing section shall, with respect to any Town to which the order applies, have effect as if it referred to the officer in whom the jurisdiction is so vested instead of to the Recorder, and all cases pending at the date of the order shall be disposed of accordingly

Provided that nothing in this sub section shall prevent the Recorder from entertaining and disposing of in his own Court any case, whether pending at the date of the order or subsequently instituted, which, by reason of its importance or otherwise may, in his opinion, be more conveniently so disposed of

(*3*) The Local Government may, by order notified as aforesaid, cancel any order made under sub section (*1*) as to all or any of the Towns to which the order applies, but not so as to affect any proceedings pending at the date of the cancelling order

[Act VII 1888 s 31 (*4*) XIV of 1882]

52 Nothing in Chapter XX of the Code of Civil Procedure shall apply to any Court having jurisdiction within the local limits of the ordinary civil jurisdiction of the Recorder or within any of the Towns of Maulmain, Akyab and Bassein

Inapplicability of Chapter XX Act XIV 1882 to Rangoon Maulmain Akyab and Bassein

[New]

53 The Local Government may fix and vary the limits of the Towns of Maulmain, Akyab and Bassein for the purposes of the three last foregoing sections

Limits of Maulmain, Akyab and Bassein

Registers and Returns

[Act XVII 1875 s 69 and Act XVI, 1885 s 30]

54 (*1*) The Recorder shall keep such registers, books and accounts as may be necessary for the transaction of the business of his Court, and shall submit to the Local Government such of those registers, books and accounts, and such statements of the work done in his Court, as may be required by the Local Government

Books and accounts and statements and returns to be kept and furnished by Recorder

(*2*) The Recorder shall also comply, in such form and manner as the Local Government may deem proper, with such requisitions as may be made by the Local Government for records of, or papers belonging to, the Court of the Recorder or any Court with respect to which the

The Lower Burma Courts Bill

(*Chapter IV—The Court of the Recorder—Sections 55-61*)

Court of the Recorder is under section 44 or section 48 to be deemed to be a High Court or for certified copies of, or extracts from, such records or papers, or for returns, statements or reports

Ministerial Officers

[Act XVII 1875, s 70]

Appointment and removal of ministerial officers

55 The ministerial officers of the Court of the Recorder, including the Registrar of the Court, shall be appointed, and may be dismissed or suspended, or fined in an amount not exceeding one month's salary, by the Recorder, but the suspension or dismissal of any such officer drawing a monthly salary of one hundred rupees or upwards shall be subject to confirmation by the Local Government

[New Cf Act XIV 1882 s 637] XIV of 1882

Discharge of non judicial functions by Registrar

56 (*1*) Any non judicial or quasi judicial act which is required by the Code of Civil Procedure to be done by a Judge, and any act which may be done by a Commissioner appointed to examine and adjust accounts under section 394 of that Code, may in the Court of the Recorder be done by the Registrar of the Court or by such other officer of the Court as the Recorder may direct

(*2*) The Recorder may from time to time, by rule made with the previous sanction of the Local Government declare what shall be deemed to be non judicial and quasi judicial acts within the meaning of sub section (*1*)

Exceptional Provisions

[Act XVII 1875 s 46]

Discharge of functions of Recorder in case of vacancy in his office

57 Upon the occurrence of any vacancy in the office of Recorder, and during any absence of the Recorder, the Local Government may direct the Judicial Commissioner or any Commissioner to discharge the functions of the Recorder, and the Judicial Commissioner or the Commissioner so directed shall thereupon be authorized to preside in the Court of the Recorder and to exercise the jurisdiction of the Recorder until some person has been appointed by the Governor General in Council to fill, or officiate in, the office of the Recorder, and has entered upon the performance of the duties of such office, or until the Recorder resumes his duties

[Act XVII 1875 s. 58]

Transfer of civil cases from other Courts in Lower Burma to Court of Recorder

58 (*1*) The Local Government may direct the transfer to the Court of the Recorder of any civil case which may be pending in the Court of the Judicial Commissioner or in any Court subordinate to the Court of the Judicial Commissioner

(*2*) Subject to the other provisions of this Act, every case so transferred shall be tried and determined by the Recorder in the same manner as if he had originally had jurisdiction in the case and it had been instituted in his Court

[Act XIV 1885 s 4]

Transfer of cases from Court of Recorder to Court of Judicial Commissioner

59 (*1*) The Local Government may transfer to the Court of the Judicial Commissioner any particular case or class of cases which may be pending in the Court of the Recorder

(*2*) In the disposal of any such case the Judicial Commissioner shall administer the same law, follow the same procedure, exercise the same powers and use the same seal as would be administered, followed, exercised and used by the Recorder in such a case

(*3*) All decrees, orders and sentences made or passed by the Judicial Commissioner in cases transferred to him under this section shall, for the purposes of the law relating to appeal, reference and revision and to the submission of sentences of death for confirmation, be deemed to be made or passed by the Recorder

[Act XI, 188 s 2]

Appointment of Additional Recorder

60 (*1*) The Governor General in Council may, by notification in the Gazette of India, appoint, to be an Additional Recorder and to sit as such in the Court of the Recorder such person as he thinks fit being a barrister of not less than five years' standing or a person who has for at least three years served as a District Judge or exercised the like powers as those of a District Judge

(*2*) A person so appointed shall hold his office during the pleasure of the Governor General in Council

[Act XI, 18 s 3]

Disposal of business by Additional Recorder

61 (*1*) An Additional Recorder appointed under the last foregoing section shall sit at such of the places at which the Recorder's Court can be held as the Local Government directs, and shall dispose of such cases pending in the Recorder's Court as the Local Government or, subject to the control of that Government, the Recorder may from time to time direct, and in the disposal of such cases shall administer the same law, follow the same procedure, exercise the same powers and use the same seal as would be administered, followed, exercised and used by the Recorder in like cases

(*2*) All decrees, orders and sentences made or passed in such cases by an Additional Recorder shall, for the purposes of the law relating to appeal, reference and revision and to the submission of sentences of death for confirmation, be deemed to be made or passed by the Recorder

(*3*) The Local Government may cancel any direction under sub section (*1*) requiring the Additional Recorder to dispose of a case

The Lower Burma Courts Bill

(Chapter V —The Special Court —Sections 62-69)

CHAPTER V

THE SPECIAL COURT

[Act XVII 1875, s 7a]

62 (*1*) The Special Court shall ordinarily be constituted by the Judicial Commissioner and the Recorder sitting together

Constitution of Special Court

(*2*) But the Local Government may direct that for the hearing of any particular case or class of cases the Special Court shall be constituted by the Judicial Commissioner, the Recorder and the Judge of the Town of Maulmain sitting together and the Local Government may cancel any such direction

(*3*) As members of the Special Court, the Judicial Commissioner and the Recorder shall have precedence over the Judge of the Town of Maulmain and shall as between themselves, have precedence according to priority of appointment

[Act XVIII 1884 s 5]

(*4*) For the purposes of the last foregoing sub section, a Judicial Commissioner or Recorder substantively appointed shall be deemed to have precedence, by reason of priority of appointment over an officiating Recorder or Judicial Commissioner, as the case may be

[Act XVII 1875 ss 73 and 74]

63 (*1*) The Special Court shall ordinarily be held at Rangoon but the Local Government may direct it to be held at any other place in Lower Burma

Sittings seal and officers of Special Court

(*2*) The Special Court shall use a seal of such form and dimensions as the Local Government prescribes

(*3*) The Judicial Commissioner and the Recorder may appoint suspend or dismiss the ministerial officers of the Special Court

Provided that the suspension or dismissal of any officer drawing a monthly salary of one hundred rupees or upwards shall be subject to confirmation by the Local Government

[Act XVII, 1875, s 75]

64 Appeals from decrees and orders passed by the Judge of the Town of Maulmain in suits and other civil proceedings shall where such appeals are allowed by law, be heard and determined by the Special Court

Appeals to Special Court from Judge of Maulmain

[Act XVII 1875 s 77]

65 The Local Government may direct that any civil suit or appeal, or any criminal case or appeal pending in the Court of the Judicial Commissioner or in the Court of the Recorder shall be transferred to and tried before the Special Court

Trial of cases before Special Court by order of Local Government

[Act XVII 1875 s 79]

66 With reference to trials held by the Judicial Commissioner in the exercise of the original criminal jurisdiction of a Court of Session under section 31 of this Act or of a High Court under section 526 of the Code of Criminal Procedure, 1882, or by the Recorder in exercise of the original jurisdiction of a Court of Session, and to sentences passed on such trials the Special Court shall, for the purposes of the said Code, be deemed to be a High Court

Special Court as High Court in certain criminal matters

X of 1882

[Act XVII 1875, s 76]

67 If in any civil suit or appeal or in any criminal case or appeal pending in the Court of the Judicial Commissioner or in the Court of the Recorder, the Court wishes to obtain the opinion of the Special Court on any question of fact or law or of custom having the force of law or as to the construction of any document or the admissibility of any evidence, or to obtain the assistance of the Special Court for the determination of the case pending before it such Court shall record a memorandum to that effect, and the Special Court shall, as soon as may be convenient sit for the disposal of the question or for the determination of the pending case

Sittings of Special Court at request of Judicial Commissioner or Recorder

[Act XVII, 1875, s 74]

68 Any decree, order or sentence passed by the Special Court in a case tried under section 65 or on a memorandum recorded under section 67, shall issue as, and be deemed to be, a decree, order or sentence of the Court from which the case was referred to the Special Court

Decree of Special Court to be deemed decree of other Court in certain cases

[Act XVII 1875 s 80]

69 (*1*) Whenever, in cases before the Judicial Commissioner and the Recorder sitting together as the Special Court, a difference of opinion arises, the following rules shall be observed —

Rules as to finding of Special Court in case of difference of opinion

(*a*) In cases coming before the Special Court under section 67, the opinion of the Court which sought the opinion of the Special Court shall prevail unless the difference of opinion is on a question of law or of custom having the force of law or as to the construction of any document or the admissibility of any evidence and both members of the Special Court concur in stating the question and forwarding such statement, with their respective opinions on the question, to the High Court

[Act XVII, 1875 s 70 and Act X 1884 s 11]

(*b*) In cases coming before the Special Court by way of appeal, and not being criminal cases or cases provided for by clause (*a*) of this sub section, if both members of the Special Court do not concur in a judgment varying the decree or order appealed from, such decree or order shall be upheld

Provided that, if the difference of opinion is on a question of law or of custom having the force of law or as to the construction of any document or the

The Lower Burma Courts Bill

(Chapter V—The Special Court,—Sections 70-72) Chapter VI—Advocates—Sections 73 75)

admissibility of any evidence, and either member of the Special Court is of opinion that the question should be referred to the High Court both members shall state the question and forward such statement, with their respective opinions on the question, to the High Court

(*c*) In criminal cases and in cases not coming before the Special Court by way of appeal and not being cases provided for by clause (*a*) of this sub section, both members of the Special Court shall state the question as to which they differ, and forward such statement, with their respective opinions on the question, to the High Court

[Act XVII, 1875 s 72] (*2*) Whenever in cases before the Judicial Commissioner the Recorder and the Judge of the Town of Maulmain sitting together as the Special Court a difference of opinion arises, the decision shall be in accordance with the opinion of the majority of the members of the Court

[Act XVII, 1875, s 82]

Procedure of High Court on reference under the last foregoing section

70 (*1*) On receiving a statement forwarded in any case under the last foregoing section, the High Court by a bench constituted by two or more Judges shall decide the question referred therein and transmit to the Special Court a copy of its judgment under the signature of its Registrar, and the Judicial Commissioner and the Recorder sitting together as the Special Court shall, on receipt of the copy proceed to dispose of the case in conformity with the decision of the High Court

[Act XVII of 1875, s 81]

(*2*) Until the case is so disposed of, it shall be deemed to be pending in the Special Court

(*3*) It shall not be necessary for any party to the case to be present in the High Court, either personally or otherwise, when the question referred comes before that Court for decision

(*4*) The costs, if any consequent on the statement of the question for the decision of the High Court shall be costs in the case

[Act XVII, 1875, s 83] of 1870

Special Court to be deemed a High Court for the purposes of Acts VII of 1870 and XV of 1877

71 (*1*) For the purposes of the Court fees Act, 1870, the Special Court shall be deemed to be a High Court in the exercise of its jurisdiction as a Court of Appeal or as a Court of Reference, as the case may be

of 1877

(*2*) For the purposes of the Indian Limitation Act, 1877, appeals and applications to the Special Court shall be deemed to be, respectively, appeals and applications to a High Court under

[1882 / of 1882

the Code of Criminal Procedure, 1882, or under the Code of Civil Procedure, as the case may be

[Cf Act XI 1880 s 4]

Substitution of Additional Recorder for Judge of Town of Maulmain for purposes of this Chapter

72 If at any time there is an Additional Recorder appointed under section 60, the foregoing provisions of this Chapter with respect to the Judge of the Town of Maulmain shall, while the Additional Recorder holds office, be construed as referring to the Additional Recorder and not to the Judge of the Town of Maulmain

CHAPTER VI

ADVOCATES

In the Court of the Recorder and the Courts subordinate thereto

[Act XVII, 1875 s 84]

Licensing of advocates by Recorder

73 (*1*) Subject to the other provisions of this section, no person shall be permitted to appear plead or act as an advocate in the Court of the Recorder, or in any Court with respect to which the Court of the Recorder is under section 44 or section 48 to be deemed to be a High Court, or in the Court of the Judicial Commissioner when the Judicial Commissioner is disposing of a case transferred to him under section 43 or section 59, unless such person has been licensed thereto by the Recorder, either generally or specially

(*2*) The Recorder may from time to time, with the previous sanction of the Local Government, make rules for the qualification and admission of proper persons to appear, plead or act as advocates in such Courts

In the Court of the Judicial Commissioner and the Courts subordinate thereto

[Act XVII, 1875, s. 86]

Licensing of advocates by Judicial Commissioner

74 (*1*) Subject to the other provisions of this section no person shall be permitted to appear plead or act as an advocate in the Court of the Judicial Commissioner, or in any Court whether civil or criminal, subordinate thereto, or in the Court of the Recorder when the Recorder is disposing of a case transferred to his Court under section 15 or section 58 unless such person has been licensed thereto by the Judicial Commissioner, either generally or specially

(*2*) The Judicial Commissioner may from time to time, with the previous sanction of the Local Government, make rules for the qualification and admission of proper persons to appear, plead or act as advocates in such Courts

Provisos

[Act XVII, 1875 ss 84 and 87]

Provisos to the two last foregoing sections

75 The two last foregoing sections and any rules thereunder shall be subject to the following provisos, namely —

(*a*) any person having general or special authority from the Local Government

may without any license from the Recorder or the Judicial Commissioner, appear, plead or act for the Secretary of State for India in Council,

(*b*) a party may, without any such license, appear, plead or act on behalf of himself or a co party,

(*c*) a person who for the time being is an advocate, vakil or attorney at law of any of the High Courts of Judicature in India may without any such license, appear, plead or act as an advocate, and

(*d*) nothing in the sections or the rules shall be deemed to affect section 340 of the Code of Criminal Procedure, 1882 X of 1882

In the Special Court

[Act XVII, 1875 s 88] Advocates in Special Court

76 Any person for the time being authorised by or under the foregoing provisions of this Chapter to appear plead or act in the Court of the Recorder or in the Court of the Judicial Commissioner may also appear, plead or act, as the case may be, in the Special Court

Discipline and Fees

[Act XVII, 1875, s 86] Penalty for acting as an Advocate without authority

77 Any person appearing pleading or acting in any Court in contravention of the foregoing provisions of this Chapter or the rules thereunder shall be liable, by order of the Court, to a fine which may extend to five hundred rupees

[Act XVII 1875 ss 85 and 86] Suspension or withdrawal of license by Recorder or Judicial Commissioner

78 (*1*) The Recorder or the Judicial Commissioner may, for any sufficient reason, by order suspend or withdraw any license granted by him under section 73 or section 74, as the case may be

(*2*) Any person aggrieved by such an order may appeal to the High Court and, for the purposes of the Indian Limitation Act 1877, his appeal shall be deemed to be an appeal under the Code of Civil Procedure XV of 1877 XIV of 1882

[Act XVII 1875, s 89] Taxation of fees of advocates

79 The fees to be received by any advocate for business done in any Court under this Act shall at all times be subject to the control and taxation of the presiding Judge, and no such fees shall be recoverable unless they have been allowed on taxation by the Judge or such officer as he appoints in this behalf

[Act XVII 1875, s 90] Rules as to fees of advocates

80 (*1*) The Judicial Commissioner may from time to time make rules regulating the fees payable to advocates in his own Court and in Courts subordinate to him, and

(*2*) The Recorder may from time to time make rules regulating the fees payable to advocates in his own Court and in the Court of Small Causes of Rangoon, and

(*3*) The Judicial Commissioner and the Recorder may from time to time make rules regulating the fees payable to advocates in the Special Court

Legal Practitioners Act, 1879

[New] Consequences of any extension of the Legal Practitioners Act 1879

81 If the Local Government extends all or any of the provisions of sections 3 to 42 of the Legal Practitioners Act, 1879, to the whole or any part of Lower Burma, the Governor General in Council may, by order notified in the Gazette of India suspend, within the area to which such provisions have been so extended, the operation of the whole or any part of this Chapter XVIII of 1879

CHAPTER VII

SUPPLEMENTAL PROVISIONS

Court of Small Causes of Rangoon

[Act XVII 1875, s 94] Court of Small Causes of Rangoon

82 (*1*) The Governor General in Council shall be deemed to have had authority under section 15 of Act XI of 1865, from time to time to invest any person for an unlimited time with the powers of a Judge of the Court of Small Causes of Rangoon

[New] (*2*) The persons who have since the thirtieth day of June, 1887, held, or are at the commencement of this Act or may be thereafter holding office by the names of First Judge and Second Judge of the Court of Small Causes of Rangoon shall be deemed to have been appointed to the offices of Judge and Additional Judge respectively, under section 6, sub section (*1*) and section 8, sub section (*1*), of the Provincial Small Cause Courts Act, 1887 IX of 188

[New] (*3*) Notwithstanding anything in section 8, sub section (*2*), of that Act, the Local Government may make rules restricting, in such manner as it thinks fit, the functions which the Judge of the Court of Small Causes of Rangoon may assign to the Additional Judge of that Court, and any rules or instructions made or issued before the commencement of this Act for defining the respective functions of the Judges of that Court shall be deemed to have been lawfully made or issued, and shall, until they are varied by the Local Government, be deemed after the commencement of this Act to be rules under this sub-section

[Act X, 1 s 12] (*4*) Notwithstanding anything in the Code of Civil Procedure, all or any proceedings, written XIV of 1

The Lower Burma Courts Bill

(*Chapter VII—Supplemental Provisions—Sections 83 88*)

or oral, before the Additional Judge of the Court of Small Causes of Rangoon shall be in such language as the Local Government may prescribe [New]

Enhancement of powers of Judge of Court of Small Causes of Rangoon

83 (*1*) The Local Government may by order notified in the Burma Gazette, direct that such suits of a civil nature as are not excepted from the cognizance of a Court of Small Causes by section 15, sub section (*1*) of the Provincial Small Cause Courts Act, 1887, and are of value exceeding one thousand and not exceeding two thousand rupees, shall be cognizable by the Judge of the Court of Small Causes of Rangoon as if they were suits cognizable by him under the said Act, and thereupon so much of that Act as relates to— [Act XV, 1882, s 18] IX of 1887

(*a*) the exclusion of the jurisdiction of any other Court in such suits

(*b*) the practice and procedure of Courts of Small Causes,

(*c*) appeal from certain orders of those Courts and revision of cases decided by them, and

(*d*) the finality of their decrees and orders subject to such appeal and revision as are provided by the said Act,

shall apply to such suits and to the trial thereof and the decrees and orders therein

(*2*) The Local Government may by order notified as aforesaid cancel any order made under sub section (*1*) but not so as to affect any proceedings pending at the date of the cancelling order

Court fees on applications to Recorder for exercise of revisional jurisdiction over Court of Small Causes of Rangoon [Act XVIII 1884 s 71] VII of 1870

84 In the first schedule to the Court fees Act, 1870, after No 13, the following shall be inserted, namely —

Number		Proper fee
14 Application to the Court of the Recorder of Rangoon for the exercise of the revisional jurisdiction of a High Court over the Court of Small Causes of Rangoon under section 622 of the Code of Civil Procedure or section 25 of the Provincial Small Cause Courts Act 1887	When the amount or value of the subject-matter in dispute does not exceed twenty five rupees	Two rupees
	When such amount or value exceeds twenty five rupees	The fee leviable on a memorandum of appeal

XIV of 1882 IX of 1887

Refund of fees paid on applications to Recorder for revision [Act VIII 1884 72] XIV of 1882

85 If the Recorder, on an application under section 622 of the Code of Civil Procedure or section 25 of the Provincial Small Cause Courts Act, 1887, on which a fee has been paid under the Court fees Act, 1870, as amended by the last foregoing section, sets aside or modifies the decree or order of the Court of Small Causes, or remands the case for a fresh decision, he may grant to the applicant a certificate authorising him to receive back from the Collector the full amount of fee paid on the application, or any smaller amount which with regard to the circumstances of the case, he may think proper to order to be refunded IX of 1887 VII of 1870

Court of the Judge of the Town of Maulmain

Conferment of subsidiary jurisdiction in small causes in Maulmain [New]

86 (*1*) The Local Government may by notification in the Burma Gazette, confer, within the local limits of the jurisdiction of the Court of the Judge of the Town of Maulmain,—

(*a*) upon any Extra Assistant Commissioner or Assistant Commissioner at Maulmain the jurisdiction of an Additional Judge of a Court of Small Causes, and

(*b*) upon the chief ministerial officer of the Court of the Judge of the Town of Maulmain all or any of the powers conferred or conferible by or under the Provincial Small Cause Courts Act, 1887, upon the Registrar of a Court of Small Causes IX of 1887

(*2*) For purposes connected with the exercise of jurisdiction and powers so conferred the provisions of the Provincial Small Cause Courts Act, 1887, shall, so far as they can be made applicable apply as if the Court of the Judge of the Town of Maulmain were a Court of Small Causes and the Judge of that Town and the Extra Assistant Commissioner or Assistant Commissioner were respectively the Judge and the Additional Judge of the Court, and the chief ministerial officer were the Registrar thereof

(*3*) The Local Government may withdraw any jurisdiction or powers conferred under this section

Jurisdiction of the Court under Act XIII of 1874

87 The Judge of the Town of Maulmain shall, for the purposes of the European British Minors Act 1874 sections 2 and 8 be deemed to be a Deputy Commissioner [Act XVII, 1875 s 96] XIII of 1874.

Provided that appeals from his orders under that Act shall lie to the Special Court

Powers, Holidays and other Matters

Powers with respect to ministerial officers of Courts

88 (*1*) The Local Government shall have a power of general control over all appointments and punishments of ministerial officers of Courts under this Act [Act XVII 1875 ss 42 and 43]

(*2*) Any fine imposed on a ministerial officer of such a Court may, unless the order imposing [Act XVII 1875 s 42]

The Lower Burma Court Bill

(*Chapter VII—Supplemental Provisions—Sections 89 93*)

it otherwise directs be recovered by deduction from such officer's salary

[New Bill of 1867 s 38]

Power of Local Government to make rules as to process serving establishment

89 The Local Government may, with the previous sanction of the Governor General in Council, make rules with respect to the establishments to be maintained for the service and execution of processes issued by Civil and Criminal Courts and Revenue Courts and authorities, and may declare rules so made to be in supersession of any rules made under the Court fees Act, 1870, or under this Act

VII of 1870

[Act XVIII 1884 s 64]

Mode of appointment and conferring powers

90 The Local Government may, when it is empowered by this Act to make any appointment or confer any powers appoint, or confer the powers on, any person either specially by name or generally by virtue of his office

[Cf Act XVII 1875 ss 67 68 and 74 Act XIV 1882 s 65 Act XVIII 1884 s 14 and Reg VIII 1886, s 88]

Powers to make rules as to fees and other matters in Courts of Judicial Commissioner and Recorder and in Special Court

91 (*1*) The Judicial Commissioner, so far as regards his own Court and the Courts subordinate thereto, may, and on the request of the Local Government shall, with the previous sanction of that Government make rules as to the fees to be charged in respect of any of the following matters, namely —

(*a*) the making of copies and translations,

(*b*) the inspection of records, books and registers, and

(*c*) any other matter in respect of which fees are for the time being chargeable by order of the High Court in any part of the Bengal Division of the Presidency of Fort William

(*2*) The Recorder may, and on the request of the Local Government shall with the previous sanction of that Government, make rules,—

(*a*) so far as regards his own Court and any Court with respect to which the Court of the Recorder is under section 44 or section 48 to be deemed to be a High Court, as to any of the following matters, namely —

(i) the regulation of practice and procedure

(ii) the service and execution of processes, and the fees to be charged therefor,

(iii) subject to the provisions of section 554 of the Code of Criminal Procedure, 1882, and section 644 of the Code of Civil Procedure, the forms to be used for any proceedings, and

X of 1882
XIV of 1882

(iv) any matter specified or referred to in clause (*a*), clause (*b*) or clause (*c*) of sub section (*1*), and

(*b*) so far as regards his own Court and the Courts of the Judge of the Town of Maulmain the Deputy Commissioner of Akyab and the Deputy Commissioner of Bassein as Courts for the Relief of Insolvent Debtors under this Act, as to the remuneration to be allowed to the official assignees and to the other officers of those Courts

(*3*) The Judicial Commissioner and the Recorder, so far as regards the Special Court, may, and on the request of the Local Government shall, with the previous sanction of that Government, make rules as to any of the following matters, namely —

(*a*) the regulation of the times and places for the sitting of the Court,

(*b*) the distribution of business among the Judges thereof and

(*c*) any matters specified or referred to in clause (*a*) of sub section (*2*)

[Act XVII, 1875 s 91]

Power to make rules as to judgments evidence and affidavit in Court of Judicial Commissioner and Recorder and in Special Court

92 (*1*) The Judicial Commissioner and the Recorder for their respective Courts, and the Judicial Commissioner and the Recorder for the Special Court, may also make rules to provide for—

(*a*) the recording of judgments, orders and sentences

(*b*) the taking down of the evidence of witnesses, and

(*c*) the admission of affidavits as evidence of the matters to which such affidavits relate and

(*2*) The Local Government, on being satisfied that such rules provide sufficiently for the matters to which they respectively refer, may exempt the Judicial Commissioner, the Recorder or the Special Court, as the case may be, from the operation of such parts of the Code of Criminal Procedure 1882, and the Code of Civil Procedure, as relate to the mode of recording judgments, orders and sentences and of taking down the evidence of witnesses, and may permit the admission of affidavits as evidence of the matters aforesaid

X of 1882
XIV of 1882

[Act XVII 1875, s 74]

Differences of opinion between Judicial Commissioner and Recorder as administrative representatives of Special Court

93 If the Judicial Commissioner and the Recorder differ in opinion as to the appointment, suspension or dismissal of a ministerial officer of the Special Court under section 63, sub section (*3*), or as to any rule for the Special Court under section 91, sub section (*3*), or section 92, the difference shall be referred to the Local Government, and the order of that Government thereon shall be final

The Lower Burma Courts Bill

GOVERNMENT OF INDIA

PUBLIC WORKS DEPARTMENT

CIVIL WORKS

Irrigation

REVENUE REPORT OF IRRIGATION WORKS IN RAJPUTANA FOR THE YEAR 1887-88

No 261 dated Calcutta, the 18th February 1889

RESOLUTION—By the Government of India, Public Works Department

Read—

Revenue Report of Irrigation Works in Rajputana for the year 1887 88, forwarded with letter No 3792 S, dated 21st September 1888, from the Secretary to the Agent to the Governor General and Chief Commissioner, Rajputana

OBSERVATIONS —The year 1887 88 was a favourable one for the crops in Rajputana, the rainfall was more general and rather heavier than that of the previous year The results obtained from the Irrigation works were, nevertheless, satisfactory, there was an increase both in area irrigated and in assessments

2 There was no Capital outlay during the year The Capital expenditure on the three groups of tanks stood at Rs 16,46,285 at the end of the year

3 The following statement shews the actual financial results of the year under review as given in the Revenue Accounts

TANKS IN	Capital to end of year including indirect charges	Gross Revenue	Working Expenses	Net Revenue	Percentage of net Revenue on Capital at end of year
	Rs	Rs	Rs	Rs	
Ajmere Sub Collectorate	8,78 473	53,156	24,476	28,680	3 26
Beawar ,,	6,31,668	41,108	13,540	27,568	4 36
Todgurh ,,	1,36,144	23,940	10,945	12,995	9 54
	16,46,285	1,18,204	48,961	69,243	4 20

These results are less favourable than those of the previous year, the revenue being slightly less and the working expenses being about fifty per cent higher The percentage of net revenue on Capital was 5 5 in 1886 87 The decrease in revenue is due to the fact that the Rabi assessments are collected in the year following that of the crop, and the rabi of 1886 87 was not good The working expenses for the last two years are shewn in the following statement

	1886 87 Rs	1887 88 Rs	Increase Rs
Maintenance and extensions	14,903	24 281	9,378
Establishment	16,680	22,490	5,810
Tools and Plant	—289	138	427
Leave and pension allowances	1,163	2,052	889
Total	32,457	48 961	16,504

The increase in working expenses is not fully explained in the report, but it has been ascertained that it is mainly due to the fact that the number of tanks repaired in 1887-88 was 110 as compared with 67 in the previous year The expenditure is largely in excess of the average of the last three years The cost of working expenses per acre benefited was Rs 1 30 as compared with Rs 1 07 per acre in the previous year

4 The area benefited by the tanks, that is the area protected as well as that actually irrigated, was 37,625 acres as compared with 30,305 in the previous year The area was also considerably in excess of the average of the last three years The increase was both in kharif and rabi crops

5 The following statement shews the incidence of Revenue and Working Expenses —

Area actually irrigated	Gross Revenue		Working Expenses	
	Amount	Rate per acre irrigated	Amount	Rate per acre irrgated
	Rs	Rs	Rs	Rs
24,665	1,18,204	4 7	48,961	1 9

5 The assessments of the year amounted to Rs 1,26 560 as compared with Rs 1,14,973 in the previous year The collections were promptly made, a sum of Rs 180 only stood as due at the end of the year

6 The total estimated value of the crops irrigated in 1887-88 was Rs 7,80,296 as compared with Rs 4,43,834 in the previous year

ORDER —Ordered, that a copy of this Resolution be forwarded to the Agent, Governor General and Chief Commissioner, Rajputana, for information and guidance

Also that a copy of the Resolution and of the Report be forwarded to the Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab, in the Public Works Department, for information

Also that a copy of the Resolution and of the Report be forwarded to the Revenue and Agricultural Department, and to the Department of Finance and Commerce, for information

Also that the Resolution with the statement of general financial results compiled by the Examiner of Public Works Accounts, be published in the Supplement to the *Gazette of India*

Ordered further, that a copy of this Resolution and of the Report be forwarded to Her Majesty's Secretary of State for India for information

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and prospects of the Crops

Madras —*For week ending 16th February, 1889* —No rain More rain wanted in Ganjam, Vizagapatam, Tinnevelly, Coimbatore and Salem Standing crops generally good, but withering in parts of Coimbatore, Cuddapah, Anantapur, Bellary and Tinnevelly Pasture deficient in Coimbatore and parts of Salem Prices rising in nine districts, including four northern, falling in four and stationary in others General prospects favourable except in Ganjam and Coimbatore Labourers employed on last day of week on Rushikulya works 5,246, Gopalpore canal 10,003

Bombay —*For week ending 20th February, 1889* —Rain in parts of Sind and Panch Mahals, benefiting crops in Shikarpore and Upper Sind Frontier Late crops in three talukas of Surat and Poona and one of Kanara and wheat in Broach unsatisfactory, exotic cotton in parts of Dharwar damaged by blight, and gram in parts of Kathiawar by insects Opium in Baroda good Harvesting progressing generally, probable outturn of cotton in parts of Kathiawar from eight to ten annas Fodder scarce in Khandesh and Nasik and parts of Poona, Ahmednagar and Kathiawar

Bengal —*For week ending 19th February, 1889* —More rain is reported to have fallen over the greater part of the Province during the week None, however, in Orissa In Calcutta and the neighbourhood a heavy shower fell early this morning (20th) The state of the *rabi* crops is generally reported to be fair, but in Chota Nagpore, where the crops suffered most from the previous drought, the outturn will not exceed eight annas Some of the *rabi* crops, *viz*, mustard and pulses, are being gathered The sugarcane harvest is yielding a fair outturn The poppy and tobacco crops are promising The spring rice seedlings are still being transplanted, and are doing well In Behar *cheena* and *mung* are being sown extensively, and the weather is very favourable for the cultivation of indigo lands Ploughing for the autumn crops is in steady progress No further information has been received regarding the afflicted tracts in the Patna Division

N W P and Oudh —*For week ending 20th February, 1889* —Rain fell everywhere Some injury to *rabi* crops by rust but generally they are thriving Crops ripening and no more rain required Poppy flourishing Supplies ample Prices falling Condition of cattle good

Punjab —*For week ending 20th February, 1889* —Rainfall good and general throughout the Province Prices falling in Delhi, Jullundur, Ferozepore, Sialkot and Shahpore, unsettled in Multan and Peshawar, stationary elsewhere Ploughings for *kharif* commenced in Hissar, Lahore and Shahpur The crops have been greatly improved by the recent fall of rain, and prospects are very promising Stock cattle are reported healthy Fodder sufficient except in Hissar, Dera Ismail Khan and in parts of Multan and Rawalpindi Poppy weeding commenced in Jullundur

Central Provinces —*For week ending 20th February, 1889* —Showers have fallen in Saugor, Jabalpore and Seoni, and hail in the two former districts Crops somewhat benefited Winter crops being harvested Prospects favourable in southern, but poor in northern and eastern districts

Burma.—*For week ending 16th February, 1889* —No rain has fallen during the past week, and crop prospects remain good The price of paddy has fluctuated a little, showing a rise in Rangoon, Prome, Upper Chindwin, Sagaing and Lower Chindwin, and a fall in Bassein, Thôngwa, Henzada, Moulmein and Toungoo

Assam —*For week ending 20th February, 1889*—Weather seasonable Slight rain in Brahmaputra Valley districts, sowing of summer rice progressing Gathering of mustard and crushing of sugarcane continue Potatoes are being sown in the Khasi Hills

Mysore and Coorg —*For week ending 20th February, 1889*—No rain throughout the State of Mysore Crops in good condition, except in parts of the Kolar district where they require rain Sowing of spring paddy still continues Prospects generally fair Pasturage diminishing in parts of the Kolar and Mysore districts No material change in prices

No rain during the week in Coorg

Berar and Hyderabad —*For week ending 20th February, 1889*—Slight hailstorm in Amraoti taluk in Berar *Rabi* crops are being cut and harvested Condition good Prospects favourable Water sufficient Fodder insufficient in some districts Prices risen slightly in some districts

No rain during the week in Hyderabad Harvesting of *rabi* crops commenced Weeding of *tabi* and *paddy* crops continues Prices stationary

Central India —*For week ending 20th February, 1889*—Slight rain in most parts of Central India Agricultural operations in Bundelkund reported finished Prices of food grains risen in Dhar and Burwani, and fallen in Jhabua and Manpur, steady elsewhere Where high winds and cloudy weather prevailed opium crops have been slightly damaged in Rutlam, Jaora and Neemuch Price of opium high in Bhopal

Rajputana —*For week ending 20th February, 1889*—Good rain at Abu, Kerowlee and Ulwar, and slight at other places Agricultural operations satisfactory Standing crops good Agricultural stock good except in Meywar Pasturage or fodder sufficient except in Marwar, Kherwara, Meywar and Dholepur Prices rising in Meywar, falling slightly in Marwar, Jhallawar, Kotah, Kishengurh and Bhurtpore steady elsewhere

Nepal —*For week ending 14th February, 1889*—Fair rain Prospects good

LEGISLATIVE DEPARTMENT

NOTIFICATION

Fort William, the 27th February, 1889

No 4 —The following Statute, and so much of the schedule thereto as affects Statutes in force in India, are published for general information —

STATUTE LAW REVISION (No 2) ACT, 1888

[51 & 52 VICT, C 57]

An Act for further promoting the Revision of the Statute Law by repealing superfluous expressions of enactment and enactments which have ceased to be in force or have become unnecessary

[24th December, 1888]

WHEREAS in numerous Statutes the expression "be it further enacted", or similar expressions of enactment are frequently repeated and it is expedient, with a view to the revision of the Statute Law, and particularly to the improvement of the revised edition of the Statutes, to repeal these expressions which are superfluous

And whereas it is expedient that certain enactments which may be regarded as spent, or have ceased to be in force otherwise than by express specific repeal by Parliament, or have, by lapse of time or otherwise, become unnecessary, should be expressly and specifically repealed

Be it therefore enacted by the Queen s Most Excellent Majesty by and with the advice and consent of the Lords Spiritual and Temporal and Commons, in this present Parliament assembled, and by the authority of the same, as follows —

Enactments in schedule repealed

1 The enactments described in the schedule to this Act are hereby repealed, subject to the exceptions and qualifications in the schedule mentioned

Saving

Provided that the repeal of any words or expressions of enactment described in the schedule to this Act shall not affect the binding force operation or construction of any Statute, or of any part of a Statute, whether as respects the past or future,

and where any enactment not comprised in the schedule to this Act, has been repealed confirmed, revived or perpetuated by any enactment hereby repealed such repeal, confirmation, revivor or perpetuation shall not be affected by the repeal effected by this Act,

and the repeal by this Act of any enactment or schedule shall not affect any enactment in which such enactment or schedule has been applied, incorporated or referred to,

nor shall such repeal of any enactment affect any right to any hereditary revenues of the

Crown, or affect any charges thereupon or prevent any such enactment from being put in force for the collection of any such revenues, or otherwise in relation thereto,

and this Act shall not affect the validity, invalidity, effect or consequences of anything already done or suffered, or any existing status or capacity, or any right, title, obligation or liability already acquired, accrued or incurred, or any remedy or proceeding in respect thereof, or any release or discharge of or from any debt, penalty, obligation, liability, claim or demand, or any indemnity, or the proof of any past act or thing

nor shall this Act affect any principle or rule of law or equity, or established jurisdiction form or course of pleading, practice or procedure, or the general or public nature of any Statute, or any existing usage, franchise, liberty, custom, privilege, restriction, exemption, office, appointment, payment, allowance, emolument or benefit, or any prospective right, notwithstanding that the same respectively may have been in any manner affirmed, recognised or derived by, in or from any enactment hereby repealed,

nor shall this Act revive or restore any jurisdiction, office, duty, drawback, fee, payment, franchise, liberty, custom, liability, right, title, privilege, restriction, exemption usage practice, procedure, form of punishment or other matter or thing not now existing or in force

and this Act shall not extend to repeal any enactment so far as the same may be in force in any part of Her Majesty's dominions out of the United Kingdom, except where otherwise expressed in the said schedule

Application of repealed enactments in local Courts

2 If and so far as any enactment repealed by this Act applies or may have been by order in Council applied to the Court of the County Palatine of Lancaster or to any inferior Court of Civil Jurisdiction, such enactment shall be construed as if it were contained in a local and personal Act specially relating to such Court and shall have effect accordingly

Short title

3 This Act may be cited as the Statute Law Revision (No 2) Act, 1888

SCHEDULE

A description or citation of a portion of an Act is inclusive of the words section or other part first or last mentioned or otherwise referred to as forming the beginning or as forming the end of the portion comprised in the description or citation

Enactments which have been already repealed are, in a few instances, included in the schedule in order to avoid the necessity of reference to previous Statutes

PART IV.

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 1st March, 1889, and is hereby promulgated for general information —

ACT NO IV OF 1889

An Act to amend the Law relating to Fraudulent Marks on Merchandise

WHEREAS it is expedient to amend the law relating to fraudulent marks on merchandise, It is hereby enacted as follows —

Title extent and commencement

1 (*1*) This Act may be called the Indian Merchandise Marks Act, 1889

(*2*) It extends to the whole of British India, and, subject to the provision of the last section of this Act,

(*3*) It shall come into force on the first day of April, 1889

Definitions

2 In this Act, unless there is something repugnant in the subject or context,—

(*1*) "trade mark' has the meaning assigned to that expression in section 478 of the Indian Penal Code as amended by this Act XLV of 1860

(*2*) "trade description' means any description, statement or other indication, direct or indirect,—

(*a*) as to the number, quantity, measure gauge or weight of any goods, or

(*b*) as to the place or country in which, or the time at which, any goods were made or produced, or

(*c*) as to the mode of manufacturing or producing any goods, or

(*d*) as to the material of which any goods are composed, or

(*e*) as to any goods being the subject of an existing patent, privilege or copyright,

and the use of any numeral, word or mark which according to the custom of the trade is commonly taken to be an indication of any of the above matters shall be deemed to be a trade description within the meaning of this Act

(*3*) "false trade description" means a trade description which is untrue in a material respect as regards the goods to which it is applied, and includes every alteration of a trade description, whether by way of addition, effacement or otherwise, where that alteration makes the description untrue in a material respect, and the fact that a trade description is a trade mark or part of a trade mark shall not prevent such trade description being a false trade description within the meaning of this Act

(*4*) "goods" means anything which is the subject of trade or manufacture and

(*5*) "name" includes any abbreviation of a name

Amendment of the Indian Penal Code

Substitution of new sections for sections 478 to 489 of the Indian Penal Code

3. For that part of Chapter XVIII of the Indian Penal Code which relates to Trade and Property Marks the following shall be substituted, namely — XLV of 1

"Of Trade, Property and Other Marks

Trade mark

"478 A mark used for denoting that goods are the manufacture or merchandise of a particular person is called a trade mark, and for the

purposes of this Code the expression 'trade mark' includes any trade mark which is registered in the register of trade marks kept under the Patents, Designs and Trade Marks Act, 1883, and any trade mark which, either with or without registration, is protected by law in any British possession or foreign State to which the provisions of the one hundred and third section of the Patents, Designs and Trade Marks Act, 1883, are, under Order in Council, for the time being applicable

46 & 47 Vict., c 57

"479 A mark used for denoting that moveable property belongs to a particular person is called a property mark

Property mark

"480 Whoever marks any goods or any case, package or other receptacle containing goods, or uses any case, package or other receptacle with any mark thereon, in a manner reasonably calculated to cause it to be believed that the goods so marked, or any goods contained in any such receptacle so marked, are the manufacture or merchandise of a person whose manufacture or merchandise they are not, is said to use a false trade mark

Using a false trade mark

"481 Whoever marks any moveable property or goods or any case, package or other receptacle containing moveable property or goods, or uses any case, package or other receptacle having any mark thereon, in a manner reasonably calculated to cause it to be believed that the property or goods so marked, or any property or goods contained in any such receptacle so marked belong to a person to whom they do not belong, is said to use a false property mark

Using a false property mark

"482 Whoever uses any false trade mark or any false property mark shall, unless he proves that he acted without intent to defraud, be punished with imprisonment of either description for a term which may extend to one year, or with fine, or with both

Punishment for using a false trade mark or property mark

"483 Whoever counterfeits any trade mark or property mark used by any other person shall be punished with imprisonment of either description for a term which may extend to two years, or with fine, or with both

Counterfeiting a trade mark or property mark used by another

'484 Whoever counterfeits any property mark used by a public servant or any mark used by a public servant to denote that any property has been manufactured by a particular person or at a particular time or place or that the property is of a particular quality or has passed through a particular office or that it is entitled to any exemption, or uses as genuine any such mark knowing the same to be counterfeit shall be punished with imprisonment of either description for a term which may extend to three years, and shall also be liable to fine

Counterfeiting a mark used by a public servant

"485 Whoever makes or has in his possession any die, plate or other instrument for the purpose of counterfeiting a trade mark or property mark, or has in his possession a trade mark or property mark for the purpose of denoting that any goods are the manufacture or merchandise of a person whose manufacture or merchandise they are not, or that they belong to a person to whom they do not belong, shall be punished with imprisonment of either description for a term which may extend to three years, or with fine, or with both

Making or possession of any instrument for counterfeiting a trade mark or property mark

"486 Whoever sells or exposes or has in possession for sale or any purpose of trade or manufacture any goods or things with a counterfeit trade mark or property mark affixed to or impressed upon the same or to or upon any case, package or other receptacle in which such goods are contained, shall, unless he proves—

Selling goods marked with a counterfeit trade mark or property mark

(*a*) that, having taken all reasonable precautions against committing an offence against this section, he had at the time of the commission of the alleged offence no reason to suspect the genuineness of the mark, and

(*b*) that, on demand made by or on behalf of the prosecutor he gave all the information in his power with respect to the persons from whom he obtained such goods or things, or

(*c*) that otherwise he had acted innocently,

be punished with imprisonment of either description for a term which may extend to one year, or with fine, or with both

"487 Whoever makes any false mark upon any case, package or other receptacle containing goods, in a manner reasonably calculated to cause any public servant or any other person to believe that such receptacle contains goods which it does not contain or that it does not contain goods which it does contain or that the goods contained in such receptacle are of a nature or quality different from the real nature or quality thereof shall, unless he proves that he acted without intent to defraud, be punished with imprisonment of either description for a term which may extend to three years, or with fine, or with both

Making a false mark upon any receptacle containing goods

"488 Whoever makes use of any such false mark in any manner prohibited by the last foregoing section shall, unless he proves that he acted without intent to defraud, be punished as if he had committed an offence against that section

Punishment for making use of any such false mark

"489 Whoever removes, destroys, defaces or adds to any property mark intending or knowing it to be likely that he may thereby cause injury to any person, shall be punished with imprisonment of either description for a term which may extend to one year, or with fine, or with both"

Tampering with property mark with intent to cause injury

Trade Descriptions

4 (*1*) The provisions of this Act respecting the application of a false trade description to goods or respecting goods to which a false trade description is applied, shall extend to the application to goods of any such numerals, words or marks, or arrangement or combination thereof, whether including a trade mark or not, as are or is reasonably calculated to lead persons to believe

Provisions supplemental to the definition of false trade description

that the goods are the manufacture or merchandise of some person other than the person whose manufacture or merchandise they really are, and to goods having such numerals, words or marks, or arrangement or combination, applied thereto

(2) The provisions of this Act respecting the application of a false trade description to goods, or respecting goods to which a false trade description is applied, shall extend to the application to goods of any false name or initials of a person, and to goods with the false name or initials of a person applied, in like manner as if such name or initials were a trade description, and for the purpose of this enactment the expression false name or initials means as applied to any goods any name or initials—

(a) not being a trade mark, or part of a trade mark and

(b) being identical with or a colourable imitation of, the name or initials of a person carrying on business in connection with goods of the same description and not having authorised the use of such name or initials

(3) A trade description which denotes or implies that there are contained in any goods to which it is applied more yards feet or inches than there are contained therein standard yards, standard feet or standard inches is a false trade description

Application of trade descriptions

5. (1) A person shall be deemed to apply a trade description to goods who—

(a) applies it to the goods themselves, or

(b) applies it to any covering, label, reel or other thing in or with which the goods are sold or are exposed or had in possession for sale or any purpose of trade or manufacture, or

(c) places, encloses or annexes any goods which are sold, or are exposed or had in possession for sale or any purpose of trade or manufacture in, with or to any covering, label, reel or other thing to which a trade description has been applied, or

(d) uses a trade description in any manner reasonably calculated to lead to the belief that the goods in connexion with which it is used are designated or described by that trade description

(2) A trade description shall be deemed to be applied whether it is woven, impressed or otherwise worked into or annexed or affixed to the goods or any covering, label, reel or other thing

(3) The expression "covering" includes any stopper, cask, bottle, vessel, box, cover, capsule case, frame or wrapper, and the expression "label" includes any band or ticket

Penalty for applying a false trade description

6. If a person applies a false trade description to goods, he shall, subject to the provisions of this Act, and unless he proves that he acted without intent to defraud, be punished with imprisonment for a term which may extend to three months or with fine which may extend to two hundred rupees, and in the case of a second or subsequent conviction with imprisonment which may extend to one year, or with fine, or with both

Penalty for selling goods to which a false trade description is applied

7. If a person sells, or exposes or has in possession for sale or any purpose of trade or manufacture, any goods or things to which a false trade description is applied, he shall, unless he proves,—

(a) that, having taken all reasonable precautions against committing an offence against this section, he had at the time of the commission of the alleged offence no reason to suspect the genuineness of the trade description, and

(b) that, on demand made by or on behalf of the prosecutor, he gave all the information in his power with respect to the persons from whom he obtained such goods or things or

(c) that otherwise he had acted innocently,

be punished with imprisonment for a term which may extend to three months or with fine which may extend to two hundred rupees, and in case of a second or subsequent conviction with imprisonment which may extend to one year, or with fine, or with both

Unintentional Contravention of the Law relating to Marks and Descriptions

Unintentional contravention of the law relating to marks and descriptions

8 Where a person is accused under section 482 of the Indian Penal Code of using a false trade mark or property mark by reason of his having applied a mark to any goods, property or receptacle in the manner mentioned in section 480 or section 481 of that Code, as the case may be, or under section 6 of this Act of applying to goods any false trade description, or under section 485 of the Indian Penal Code of making any die, plate or other instrument for the purpose of counterfeiting a trade mark or property mark, and proves— XLV of 1860

(a) that in the ordinary course of his business he is employed, on behalf of other persons, to apply trade marks or property marks, or trade descriptions, or, as the case may be, to make dies, plates or other instruments for making or being used in making, trade marks or property marks, and that in the case which is the subject of the charge he was so employed and was not interested in the goods or other thing by way of profit or commission dependent on the sale thereof, and

(b) that he took reasonable precautions against committing the offence charged, and

(c) that he had, at the time of the commission of the alleged offence, no reason to suspect the genuineness of the mark or description and

(d) that, on demand made by or on behalf of the prosecutor, he gave all the information in his power with respect to the persons on whose behalf the mark or description was applied,

he shall be acquitted

Forfeiture of Goods

Forfeiture of goods

9. (1) When a person is convicted under section 482 of the Indian Penal Code of using a false trade mark, or under section 486 of that Code of selling, or exposing or having in possession for XLV of 1860

sale or any purpose of trade or manufacture, any goods or things with a counterfeit trade mark applied thereto, or under section 487 or section 488 of that Code of making or making use of, a false mark, or under section 6 or section 7 of this Act of applying a false trade description to goods or of selling, or exposing or having in possession for sale or any purpose of trade or manufacture, any goods or things to which a false trade description is applied or is acquitted on proof of the matter or matters specified in section 486 of the Indian Penal Code or section 7 or section 8 of this Act, the Court convicting or acquitting him may direct the forfeiture to Her Majesty of all goods and things by means of, or in relation to, which the offence has been committed or, but for such proof as afore said, would have been committed

(2) When a forfeiture is directed on a conviction and an appeal lies against the conviction, an appeal shall lie against the forfeiture also

(3) When a forfeiture is directed on an acquittal and the goods or things to which the direction relates are of value exceeding fifty rupees, an appeal against the forfeiture may be preferred, within thirty days from the date of the direction, to the Court to which in appealable cases appeals lie from sentences of the Court which directed the forfeiture

Amendment of the Sea Customs Act, 1878

Amendment of section 18 Act VIII of 1878

VIII of 1878

10 (1) For clause (*d*) of section 18 of the Sea Customs Act, 1878 the following shall be substituted namely —

"(*d*) goods having applied thereto a counterfeit trade mark within the meaning of the Indian Penal Code, or a false trade description within the meaning of the Indian Merchandise Marks Act, 1889

XLV of 1860

(*e*) goods made or produced beyond the limits of the United Kingdom and British India and having applied thereto any name or trade mark being or purporting to be or being a colourable imitation of the name or trade mark of any person who is a manufacturer, dealer or trader in the United Kingdom or in British India, unless—

(i) the name or trade mark is as to every application thereof accompanied by a definite indication of the goods having been made or produced in a place beyond the limits of the United Kingdom and British India and

(ii) that place and the country in which it is situated are in that indication indicated in letters as large and conspicuous as any letter in the name or trade mark and in the same language and character as the name or trade mark

(2) To section 18 of the Sea Customs Act, 1878, as amended by sub section (1), the following shall be added, namely —

'(*f*) piece goods, such as are ordinarily sold by length or by the piece which—

(i) have not conspicuously stamped in English numerals on each piece the length thereof in standard yards, or in standard yards and a fraction of such a yard, according to the real length of the piece, and

(ii) have been manufactured beyond the limits of India, or

(iii) having been manufactured within those limits, have been manufactured beyond the limits of British India in premises which, if they were in British India, would be a factory as defined in the Indian Factories Act, 1881 XV of 1881

Addition of a section after section 19, Act VIII of 1878

11 The following shall be added after section 19 of the Sea Customs Act, 1878, namely — VIII of 1878

"19A (1) Before determining any such goods as are or may be specified in or under section 18 or section 19, as the case may be or taking any further proceedings with a view to the confiscation thereof under this Act, the Chief Customs-officer or other officer appointed by the Local Government in this behalf may require the regulations under this section, whether as to information, security, conditions or other matters, to be complied with and may satisfy himself in accordance with those regulations that the goods are such as are prohibited to be imported

(2) The Governor General in Council may make regulations either general or special, respecting the detention and confiscation of goods the importation of which is prohibited, and the conditions, if any, to be fulfilled before such detention and confiscation, and may by such regulations determine the information, notices and security to be given, and the evidence requisite for any of the purposes of this section and the mode of verification of such evidence

(3) Where there is on any goods a name which is identical with, or a colourable imitation of, the name of a place in the United Kingdom or British India, that name, unless accompanied in equally large and conspicuous letters, and in the same language and character, by the name of the country in which such place is situate, shall be treated for the purposes of sections 18 and 19 as if it were the name of a place in the United Kingdom or British India

(4) Such regulations may apply to all goods the importation of which is prohibited by section 18 or under section 19, or different regulations may be made respecting different classes of such goods or of offences in relation to such goods

(5) The regulations may provide for the informant reimbursing any public officer and the Secretary of State for India in Council all expenses and damages incurred in respect of any detention made on his information, and of any proceedings consequent on such detention

(6) All regulations under this section shall be published in the Gazette of India and in the Calcutta, Fort St George, Bombay and Burma Gazettes"

Stamping of Length of Piece goods manufactured in British India

Stamping of length of piece goods manufactured in British India

12 (1) Piece goods, such as are ordinarily sold by length or by the piece, which have been manufactured in premises which are a factory as de-

XV of 1881 fined in the Indian Factories Act, 1881, shall not be removed from those premises without having conspicuously stamped in English numerals on each piece the length thereof in standard yards, or in standard yards and a fraction of such a yard, according to the real length of the piece

(2) If any person removes or attempts to remove any such piece goods from any such premises without the length of each piece being stamped in the manner mentioned in sub section (1), every such piece, and everything used for the packing or removal thereof, shall be forfeited to Her Majesty, and such person shall be punished with fine which may extend to one thousand rupees

Supplemental Provisions

Evidence of origin of goods imported by sea

13 In the case of goods brought into British India by sea, evidence of the port of shipment shall, in a prosecution for an offence against this Act or section 18 of the VIII of 1878. Sea Customs Act, 1878, as amended by this Act, be *primâ facie* evidence of the place or country in which the goods were made or produced

Costs of defence or prosecution

14 (1) On any such prosecution as is mentioned in the last foregoing section, or on any prosecution for an offence against any of the sections of the Indian Penal XLV of 1860 Code, as amended by this Act, which relate to trade, property and other marks, the Court may order costs to be paid to the defendant by the prosecutor, or to the prosecutor by the defendant, having regard to the information given by and the conduct of the defendant and prosecutor respectively

(2) Such costs shall, on application to the Court, be recoverable as if they were a fine

Limitation of prosecution

15 No such prosecution as is mentioned in the last foregoing section shall be commenced after the expiration of three years next after the commission of the offence, or one year after the first discovery thereof by the prosecutor, whichever expiration first happens

Authority of the Governor General in Council to issue instructions as to administration of this Act

16 (1) The Governor General in Council may, by notification in the Gazette of India and in local official Gazettes, issue instructions for observance by Criminal Courts in giving effect to any of the provisions of this Act

(2) Instructions under sub section (1) may provide, among other matters, for the limits of variation, as regards number, quantity, measure, gauge or weight, which are to be recognised by Criminal Courts as permissible in the case of any goods

Implied warranty on sale of marked goods

17 On the sale or in the contract for the sale of any goods to which a trade mark or mark or trade description has been applied, the seller shall be deemed to warrant that the mark is a genuine mark and not counterfeit or falsely used, or that the trade description is not a false trade description within the meaning of this Act, unless the contrary is expressed in some writing signed by or on behalf of the seller and delivered at the time of the sale or contract to and accepted by the buyer

Savings

18 (1) Nothing in this Act shall exempt any person from any suit or other proceeding which might, but for anything in this Act, be brought against him

(2) Nothing in this Act shall entitle any person to refuse to make a complete discovery or to answer any question or interrogatory in any suit or other proceeding, but such discovery or answer shall not be admissible in evidence against such person in any such prosecution as is mentioned in section 14

(3) Nothing in this Act shall be construed so as to render liable to any prosecution or punishment any servant of a master resident in British India who in good faith acts in obedience to the instructions of such master, and, on demand made by or on behalf of the prosecutor, has given full information as to his master and as to the instructions which he has received from his master

Transitory Provision

Date of commencement of this Act as regards unstamped piece goods

19 The prohibition of the bringing into British India of such piece goods as are described in clause (f) of section 18 of the Sea Customs Act, VIII of 1878 1878 as amended by this Act, shall not take effect till the first day of August, 1889, and the provisions of section 12 shall, as regards piece-goods made up in bales in a factory before the first day of April, 1889, remain in abeyance till the first day of July, 1889

S HARVEY JAMES,
Secretary to the Government of India

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 1st March, 1889 and is hereby promulgated for general information —

ACT NO V OF 1889

An Act to abolish the Office of Coroner of Madras

WHEREAS it is expedient to abolish the office of Coroner of Madras and for this purpose to amend the Coroners Act, 1871, the Coroners Act 1881, and the Code of Criminal Procedure, 1882, It is hereby enacted as follows —

IV of 1871
X of 1881
X of 1882

1 This Act shall come into force on such day as the Governor of Fort St George in Council may by notification in the Fort St George Gazette appoint in this behalf

Commencement

IV of 1871

2 For section 3 of the Coroners Act, 1871, the following shall be substituted, namely —

Amendment of the Coroners Act 1871

"3 Within the local limits of the ordinary original civil jurisdiction of each of the High Courts of Judicature at Fort William and Bombay there shall be a Coroner Such Coroners shall be called respectively the Coroner of Calcutta and the Coroner of Bombay"

Coroners of Calcutta and Bombay

X of 1881

3 (*1*) For the preamble to the Coroners Act 1881, the following shall be substituted, namely —

Amendment of the Coroners Act 1881

"Whereas it is expedient to amend the Coroners Act, 1871, in manner hereinafter appearing, It is hereby enacted as follows —"

IV of 1871

X of 1881

(*2*) Sections 2, 3 and 4 of the Coroners Act, 1881, are hereby repealed

X of 1882

4 (*1*) Clause (*e*) of section 1 of the Code of Criminal Procedure, 1882, is hereby repealed

Amendment of the Code of Criminal Procedure

(*2*) Sections 174, 175, and 176 of that Code shall, in their application to the area comprised within the local limits of the ordinary original civil jurisdiction of the High Court of Judicature at Madras, be read as follows, namely —

Inquiry by police officer as to the cause of death and report by officer in charge of police-station

174 (*1*) An officer in charge of a police-station or some police-officer specially empowered in this behalf by the Local Government or the District Magistrate or a Sub-divisional Magistrate on receiving information that a person —

(*a*) has committed suicide or

(*b*) has been killed by another or by an animal or by machinery or by accident or

(*c*) has died under circumstances raising a reasonable suspicion that some other person has committed an offence

shall immediately give intimation thereof to the Commissioner of Police and in the absence of any rule or order under the next following section to the contrary proceed to the place where the body of such deceased person is and there in the presence of five or more respectable inhabitants of the neighbourhood make an investigation and draw up a report of the apparent cause of death describing such wounds fractures bruises and other marks of injury as may be found on the body and stating in what manner or by what weapon or instrument (if any) such marks appear to have been inflicted

(*2*) The report shall be signed by such police-officer and other persons or by so many of them as concur therein and shall be forthwith forwarded to the office of the Commissioner of Police

'(*3*) In any of the following cases, namely —

(*a*) in any case in which the Local Government may by rule so require

(*b*) in any case in which death appears to have been caused by violence or there is any doubt regarding the cause of death

(*c*) in any other case in which the police officer considers it expedient so to do

he shall cause the body to be examined by a medical officer appointed in this behalf by the Local Government

(*4*) The police officer may by order in writing summon five or more persons as aforesaid for the purpose of the investigation under this section and any other person who appears to be acquainted with the facts of the case Every person so summoned shall be bound to attend and to answer truly all questions other than questions the answers to which would have a tendency to expose him to a criminal charge or to a penalty or forfeiture

(*5*) If the facts do not disclose a cognizable offence to which section 170 applies such persons shall not be required by the police officer to attend a Magistrate's Court

Power to make rules and orders with respect to investigations by other authorities than officers in charge of police-stations

175 (*1*) The Local Government may make rules and the Commissioner of Police may from time to time make general or special orders consistent with those rules defining —

(*a*) the circumstances in which an officer in charge of a police station after giving intimation to the

Commissioner of Police of any such event as is mentioned in clause (*a*) clause (*b*) or clause (*c*) of sub section (*1*) of the last foregoing section is not to proceed to discharge any of the further functions of such an officer under that section, and

(*b*) the circumstances in which and in such circumstances the authority by whom those further functions are to be discharged

(*2*) The authority to whom the discharge of such further functions may be entrusted by rule or orders under sub section (*1*) may be the Commissioner of Police or any of his Deputies or Assistants or any other police-officer of rank not below that of Inspector and such authority in discharge of those functions may exercise any of the powers and shall perform the duties which but for such rules or orders might be exercised and should be performed by the officer in charge of the police station

Provision with respect to inquiries by Presidency Magistrate as to disinterment of dead bodies

176 (*1*) The Chief Presidency Magistrate or such other Presidency Magistrate as the Chief Presidency Magistrate may depute in this behalf shall when any person dies while in the custody of the police or in prison and may in any other case mentioned in section 174 sub-section (*1*) clause (*a*) clause (*b*) or clause (*c*) hold an inquiry into the cause of death either instead of or in addition to the investigation under either of the two last foregoing sections and where he does so he shall have all the powers in conducting it which he would have in holding an inquiry into an offence, and shall record any evidence taken by him in the course of the inquiry as nearly as may be in the manner prescribed in section 362

(*2*) Whenever the Commissioner of Police or a Presidency Magistrate considers it expedient for the discovery of the cause of the death of a deceased person whose body has been interred that an examination should be made of the dead body such Commissioner or Magistrate as the case may be may cause the body to be disinterred and examined "

S HARVEY JAMES,

Secretary to the Government of India

LEGISLATIVE DEPARTMENT

The following Report of the Select Committee on the Bill to abolish the Office of Coroner of Madras was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 8th February, 1889 —

WE, the undersigned, Members of the Select Committee to which the Bill to abolish the Office of Coroner of Madras was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as revised by us annexed thereto

Telegram from Government Madras, dated 21st January 1889 [Paper No 1]
From Chief Secretary to Government Madras No 78 dated 21st January 1889, and enclosures [Papers No 2]

2 We have proposed that there shall be five or more, instead of two or more, persons present at investigations into violent or suspicious deaths, and that, whenever a death appears to have been caused by violence, an examination of the body of the deceased by a medical officer shall form part of the investigation

3 In other respects the Bill appears to us to be suitable

4 The publication ordered by the Council has been made as follows —

In English

Gazette	*Date*
Gazette of India	22nd December 1888
Fort Saint George Gazette	15th January, 1889

5 We do not think that the measure has been so altered as to require re publication, and we recommend that it be passed as now amended

The Hon'ble J W Quinton, C S I

LOWER BURMA VILLAGE BILL

The Hon'ble MR HUTCHINS moved that the Report of the Select Committee on the Bill to provide for the establishment of a village-system and amend the law relating to Rural Police in Lower Burma be taken into consideration He said —"The main object of this measure is to define, and where it has

been suffered to fall into abeyance to restore, the village organization which in Lower, as in Upper, Burma we found in existence when we annexed the country For Upper Burma, a Regulation, No XIV, was passed in 1887, and after more than a year's trial it is reported to have worked exceedingly well The greater part of this Bill merely re-enacts the provisions of that Regulation and extends them to Lower Burma The social conditions of the two divisions of the province are very similar, and it seems desirable that the law and the practice throughout the province should be made as uniform as possible Some of the chief sections of this Bill are not new even to Lower Burma but are already contained, substantially if not in precisely the same terms, in the Rural Police Act, II of 1880 In the Select Committee we had the very great advantage of being assisted by a gentleman from Lower Burma, the Hon'ble Maung Ôn, a native of the province and intimately acquainted with its needs and condition I am glad to say that he not only sees no objection to any of the provisions of this Bill but is satisfied that its effect will be very salutary In these circumstances I think I may content myself with explaining to the Council as briefly as possible the nature of the enactment which I ask them to take into consideration

"It consists of two parts The first section relates to the title, extent and commencement of the Bill, and of course comes into force at once Sections 2 to 13 presuppose the existence of a recognised and legally constituted village-headman they will therefore only be applied to any particular area when the Local Government is satisfied that such officers have been duly appointed throughout such area Sections 14 to 23 are of general application and will have immediate operation

"Of these, 14 to 17 merely reproduce and apply to the lower division of the province corresponding provisions of the Regulation of 1887—

(14) regarding the imposition of fines on villages accessory to crime, or (15) in which homicide has been attempted or committed,

(16) empowering a Deputy Commissioner to remove from any village a person believed to be aiding and abetting dacoits, and

(17) regarding the recovery of fines

"Section 14, as to the responsibility of villages, substantially corresponds with section 21 of Act II of 1880, which, as I have already stated, applies to the lower division of the province

"Section 18 prohibits the assignment or attachment for debt of any emoluments attached to village offices and enables the Deputy Commissioner, on the occurrence of any lapse, effectually to transfer such emoluments to the new incumbent This is a provision in force throughout British India, and its necessity needs no demonstration Section 19 gives the usual protection to a village headman or constable against improper prosecution for acts done in the execution of his duty Section 20 vests in the district officer power to revise orders passed by heads of villages Section 21 simply authorizes the Local Government to confer on Assistant Commissioners powers which the Bill vests in all Deputy Commissioners So much for that part of the Bill which is not dependent on there being a duly constituted village headman I will now go back to the first part of the Bill

"Section 2 defines a village, and section 3 requires the Deputy Commissioner to appoint a headman for each village and indicates how the selection should be made Section 4 is merely formal Section 5, requiring the headman to report certain matters, makes some trifling additions to section 45 of the Code of Criminal Procedure, the most important, so far as I can see, being that by incorporating into that section the new definition of 'village' an obligation will be cast on the headman to report any of the specified offences which may be committed on a creek or river flowing alongside his village—a most necessary provision in such a country as Burma

"Section 6 may be described as the headman's catechism It gives a categorical list of the duties of a headman and will enable a newly appointed functionary clearly to understand what he has undertaken to do I find nothing unusual here they are all duties which by law or in practice devolve on heads of villages in more settled provinces, and many of them exist in Lower Burma

already under Act II of 1880 Section 7 confers petty criminal jurisdiction on the village-headmen, such as they exercise already in Madras and Bombay It is true that sub-section (*4*) authorises the Chief Commissioner to extend the powers of selected headmen, but under the Code of Criminal Procedure he could go further and confer on such functionaries, as indeed upon any person, all or any of the powers of a Magistrate Section 10 similarly authorizes the Local Government to confer on selected headmen a petty civil jurisdiction, but such jurisdiction does not extend beyond that which the law has conferred on every head of a Madras village *ex officio* Section 8 renders a headman or village-policeman amenable to punishment for any abuse of his authority, while section 9 enables him to call on any persons residing in the village to give him their assistance in case of need This he can do already under Act II of 1880

"Sections 11 and 12 merely reproduce and apply to Lower Burma the provisions of the Upper Burma Village Regulation already mentioned requiring strangers to report their arrival to the headman and obtain his permission before acquiring or erecting a permanent residence

"It seems to me that none of these provisions are open to objection The necessity of strengthening the hands of the district officers in Lower Burma was pointed out by Sir Charles Aitchison when he introduced the Bill, and nothing will do this more effectually or in a way more consonant to the ideas and traditions of the people at large than the enforcement of village responsibility"

The Hon'ble MAUNG ÔN said —"For the past few years Burma has been very much in want of a proper Village system Act to facilitate in quieting down of the rural parts of the country, and to lighten the heavy work of the township officers, such as Myo-oks and Extra Assistant Commissioners

"The present Bill sufficiently provides for the former object by insisting on strangers to report their arrival, name, the last place they resided and the date of their departure (which I have no doubt will prevent the coming in of lawless and vicious characters), and again to force the headmen as well as the inhabitants to report to the nearest police station or to the nearest Magistrate if any member of the village gives maintenance and help to evil disposed persons, &c

"With regard to the latter object this Bill will enable the villagers to bring their suits (the value of the subject matter is too small to occupy their time in going to proper Courts) to the headmen This will not only benefit the inhabitants of villages but it will greatly relieve the township-officers from their burden In the last few years the township officers, who have to look after the revenue as well as civil and criminal matters, have scarcely any time to attend to petty cases

"As the existing Burma District Cesses and Rural Police Act of 1880 does not force the headmen to assist the officers of different departments, I have known several officers of the supplementary survey who could not get any assistance from either the headmen or inhabitants when such is required But the present Bill fully provides that the headman of the village is bound to assist all the officers of the Government

"And, for the above stated reasons and objects, I think this Village-system Bill should be passed with as little delay as possible"

The Motion was put and agreed to

The Hon'ble MR HUTCHINS also moved that the Bill, as amended, be passed

The Motion was put and agreed to

NORTH-WESTERN PROVINCES AND OUDH KANUNGOS AND PATWARIS BILL

The Hon'ble MR QUINTON moved that the Bill to authorise the imposition of a patwari rate in the North-Western Provinces and Oudh and make certain provisions respecting kanungos and patwaris in those Provinces be

referred to a Select Committee consisting of the Hon'ble Mr Scoble, the Hon'ble Sir Charles Elliott, the Hon'ble Mr Hutchins, the Hon'ble Sir David Barbour, the Hon'ble Mr Halliday, the Hon'ble Muhammad Ali Khan and the Mover, with instructions to report within three weeks

The Hon'ble MR EVANS said —"The facts laid before the Council on the last occasion by the hon'ble mover amply justify the re-imposition of this particular tax, but I think it must have occurred to every one that those facts show an exceedingly unsatisfactory state of things in the past as regards the remission of the tax It would appear that the Government of India at that time found itself in the position of having a surplus and decided to get rid of it by remitting taxation I presume that they, in making this remission, must have consulted the Lieutenant Governor of the North Western Provinces and the Chief Commissioner of Oudh, but I cannot find that they consulted the revenue authorities or the revenue officers of those provinces The result of the consultation was that the Government of India determined to take upon the imperial revenues the provision of patwaris for the North Western Provinces and Oudh It appears also that these patwaris had for about a century been supported by the zamindárs and the raiyats in some form or other, and that the great object to be gained by the remission of the tax was supposed to be, first, the relief of the raiyats, and, secondly, a principle which was considered more important, to get the patwaris of Oudh into the power of the Government by making them Government servants, divorced from all interests either in respect of the raiyats or the zamindars It also appears that when this was attempted to be put into practice the remission had no corresponding beneficial effect on the raiyat It was also found that the patwari cess paid by the raiyats in the North Western Provinces had been amalgamated with the rent Under these circumstances very little or no benefit has been derived by the raiyats from this remission As to the other object of making the patwaris servants of the Government, it appears that this was an absolutely impossible thing to do The result was that the imperial revenues were burdened to the extent of some thirty lakhs of rupees annually without apparently any benefit to anybody and in pursuance of a chimerical idea If that was all, it would be simple enough to retrace our steps and re-impose taxation, and there would be an end of it But it is not found possible to re-impose the tax in its entirety, but only partially, because it is very difficult to reintroduce the state of things existing before, and it is to be regretted that now in re imposing the tax the imperial revenues will still be burdened to a great extent It will also, to a certain extent, inflict injustice upon the raiyats who are contributing towards the old cess, which has been incorporated in their rents The Select Committee will have to consider how these difficulties can be met I think it desirable that attention should be drawn to the grave error which has been committed by this hasty and ill considered remission, in order that, if possible, some steps may be taken to frame rules by which sacrifices of revenue should not be made hastily and without due time for deliberation That no proper enquiries were made and no reasonable time for enquiries allowed in this case is abundantly clear from what took place in 1882 and it should be noted as a warning for the future"

The Hon'ble MR STEEL said —"When introducing this Bill the hon'ble member in charge prepared the way for his proposals by explaining the nature and the history of the patwari cess as it existed prior to the year 1882 He showed that the cess was not a tax, but was in fact purely a rent charge The zamindárs held their interest in State property on the distinct and well understood condition that they paid the cost of keeping correct village-accounts In the year 1882 the cess was abolished, without any attempt to secure for the raiyats the benefit of the remission, although that was the object Government had in view It thus appears that a class which had no special claim to indulgence was unwittingly presented with thirty lakhs annually at the cost of the revenue

"My Lord, I must say that the hon'ble member's speech has exposed one of the most lamentable blunders ever made public He was guarded in his

censure, but it is evident from his language that the mistake was only possible because those who were conversant with land revenue matters were never consulted There must have been scores of experienced revenue-officers whose advice, if obtained, would have kept Government right My hon'ble friend himself could certainly have given in 1882 as clear an account of the history and incidence of the cess as he did last week Again, if the public had been consulted, I do not hesitate to say that the blunder would have been impossible The opportunity would have been taken to remind Government of really pressing claims for remission of objectionable taxation The abolition of the rice-tax, promised for so many years, would again have been urged upon Government Those who protest against the exaction of revenue from the administration of civil justice would have made themselves heard When confronted with legitimate claimants this impostor must necessarily have been detected

"But I should not have considered it my duty to express lamentations over the past if I did not desire to emphasize the moral for guidance in the future A demand has been made by the public, supported by unanswerable arguments, that the Council's Act should be so modified as to permit of discussion on projects for remitting taxation The history of the patwari cess affords an admirable illustration of the need for this reform

'When a tax is imposed rapidity of action is commonly essential, in order to prevent individuals from profiting at the expense of the revenue, but the law requires that the proposal should be submitted for discussion in your Lordship's Council But when it is designed to remit taxation there is no such occasion for haste Deliberation is specially desirable, since a step once made is with greater difficulty retraced, and yet by law Government is precluded from affording an opportunity for discussion

"With respect to the measure now before us I must say that the hon'ble member's speech did not support his conclusion He shewed that the cess should never have been abolished, and the logical conclusion would appear to be that it should now be restored in its integrity Instead of this he proposes to reduce the demand by one third During the past seven years the zamindárs have been unintentionally presented with two crores of rupees, and I see no reason why the cess should not now be levied on the same scale as before 1882 I do not know why the North West Government should contribute ten lakhs from provincial funds If the money can be spared I would much prefer that the Hon'ble Finance Minister should sweep it into his capacious bag Again, there seems no sufficient reason why the Oudh tenants, who in 1882 were supposed to be entitled to relief, but who never obtained it, should now be called upon to contribute to relieve their landlords from a just claim

"If those proposals are put forward by way of compromise suggested by the zamindárs, I cannot approve them

"I am well aware, my Lord, that I have no constitutional right to propose any amendment to the Bill which would have the effect of increasing a money demand upon any class, but I feel justified in expressing the opinion that Government should re consider the subject before proceeding with the Bill"

The Hon'ble MR QUINTON said —"I should like to say one or two words in reply to what has fallen from hon'ble members to remove what I think are partial misconceptions I should be very sorry if any inference could justly be drawn from what I said when I introduced the Bill as to the Government having acted without consulting properly qualified authorities at the time of granting a remission of this taxation The Government of India referred to the then Lieutenant-Governor of the North Western Provinces and Chief Commissioner of Oudh, whose territories were to be affected by the proposed legislation Sir George Couper, who was at that time Lieutenant Governor and Chief Commissioner, I am bound to suppose, was guided in making his recommendation in a matter of such importance by the opinions of officers who he considered were the best able to give useful advice, and I certainly never meant to convey any impression to the contrary, therefore, so far as my speech is concerned, I strongly disclaim the construction which has been inferentially put upon it by my hon'ble friend

"Then, as regards what the Hon'ble Mr Steel has said as to the injustice of throwing one third of the total charge on account of these establishments upon the imperial funds, I may not have enlarged upon that point so much as I might have done when introducing this Bill I did attempt to show that the maintenance and the efficiency of the patwari establishments on an adequate scale produced great savings in the costs of the settlements which are now going on, and may be expected to produce still greater savings in the settlements which will come on in the North Western Provinces and Oudh within the next ten years The principles of assessment which have been adopted with the sanction of the Government of India and the Secretary of State to be effectually carried out depend altogether on the efficiency of these establishments and the correctness of these records, and therefore it seems to me that the public, who get the benefit of these enormous savings and who would otherwise have to pay the full charge, may reasonably be asked to contribute in some degree for the maintenance of the establishments by which the savings are effected I may also add that now a days much more is required from the patwari than formerly, that he supplies for the information of the Local Government, the Government of India, the Secretary of State and of Parliament statistics in regard to numerous agricultural matters, and that without the patwari those statistics must be procured by means of a paid agency, and unless the statistics are correct they are likely to be more mischievous than useful On this ground also I think the Government may fairly be called upon to bear a portion of the charge on account of these establishments

"Finally, as regards the Oudh tenants, who have been alluded to by the Hon'ble Mr Steel, he has overlooked the fact that up to 1886 the landholders in Oudh had absolutely unrestricted power of enhancing rents, and therefore whatever was put upon the landholders by way of a cess or charge ultimately came out of the pockets of the tenants, either in the shape of enhanced rent or as a direct charge But in 1886 this Council passed an Act which conferred very valuable statutory rights upon the Oudh tenants It checked this power of enhancement on the part of the landlord, and rendered the tenant liable to enhancement of rent only under certain well-defined rules Therefore it would be impossible for the landlord in the present case to recover from his tenants the sums which they paid under the former procedure And it must be borne in mind that in consequence of this legislation in 1886 the correctness of the patwari papers has become a matter of infinite importance to the Oudh tenants The existence of the statutory tenures conferred upon them by that Act can only be proved by these village papers, and if the patwaris are to be altogether the servants of the landlords, and if their salaries are to be paid only by the landlords, the danger is that the evidence afforded by these papers will in many cases either totally disappear or be manipulated in the interests of one party, namely, the landlord Under these circumstances I think it is by no means unreasonable to ask the tenants to contribute towards the cost of patwaris a sum which after all is exceedingly small, namely, twelve annas in the hundred rupees in Oudh, and in the North-Western Provinces one rupee and a small fraction of the same amount So far I think the objections which have been taken by my hon'ble friends can be fairly met"

The Motion was put and agreed to

LOWER BURMA COURTS BILL

The Hon'ble MR SCOBLE presented the Report of the Select Committee on the Bill to consolidate and amend the law relating to Courts in Lower Burma He said —"With your Excellency's permission I will briefly state the principal alterations which have been made by the Select Committee in the Bill as originally introduced

"For reasons which will presently appear the Select Committee were of opinion that it is not desirable at present to establish a Chief Court in Lower Burma, and that by a revision of existing arrangements it will be possible to provide efficiently for the administration of justice in that province The Bill, therefore, is one of consolidation and amendment rather than re-construc-

tion, and its bulk is to be accounted for by the fact that it contains the substance of four existing Acts of this Council

"Outside the Towns of Rangoon and Maulmain there will be five grades of Civil Courts, namely —

(*a*) the Court of the Myo ôk,

(*b*) the Courts of the Extra Assistant Commissioner and the Assistant Commissioner,

(*c*) the Court of the Deputy Commissioner,

(*d*) the Court of the Commissioner, and

(*e*) the Court of the Judicial Commissioner

"With regard to these Courts the Bill empowers the Local Government to confer Small Cause Court jurisdiction upon Myo oks to the extent of one hundred rupees, and on Extra Assistant and Assistant Commissioners to the extent of five hundred rupees

"The Town of Maulmain has a Judge of its own, who exercises original civil jurisdiction within its local limits and has also the powers of a Judge of a Small Cause Court To relieve this officer and enable him to discharge other duties which we propose to cast upon him, the Bill enables the Local Government to confer upon any Extra Assistant Commissioner or Assistant Commissioner at Maulmain the jurisdiction of an Additional Judge of a Court of Small Causes, and upon the chief ministerial officer of the Court of the Judge of the Town of Maulmain all or any of the powers conferred or conferable by or under the Provincial Small Cause Courts Act, 1887, upon the Registrar of a Court of Small Causes As this Judge in 1887 disposed of 202 original suits, of which 106 were contested, and of 2,683 small causes, of which 996 were contested, besides criminal business, he seems well entitled to the relief which these provisions are calculated to afford him

"In Rangoon, besides a Small Cause Court composed of two Judges, there have been for some years a Recorder and an Additional Recorder, to whom the disposal of civil business has been entrusted In 1887 these two Judges disposed of 265 original suits, and the small causes under ₹1,000 in value were dealt with by the two Judges of the Small Cause Court It appeared to the Committee that if the jurisdiction of the Small Cause Court were extended to suits of ₹2,000 in value—an extension which may be made without overburdening that tribunal—one Recorder would ordinarily be able to dispose of the residue of the civil business in the Recorder's Court, and they have provided accordingly in the Bill To give additional relief to the Recorder, as it appears that much of his time is now occupied in the disposal of formal business which ought to be, and in a Presidency High Court would be, disposed of by a Registrar or other ministerial officer, section 56 of the Bill provides that any non judicial or quasi judicial act which is required by the Code of Civil Procedure to be done by a Judge, and any act which may be done by a Commissioner appointed to examine and adjust accounts under section 394 of that Code, may in the Court of the Recorder be done by the Registrar of the Court or by such other officer of the Court as the Recorder may direct

"It may be conceivable however that, even with these alleviations, the growth of business in Rangoon may be so great as to necessitate the appointment of an Additional Recorder, and power is therefore reserved, under section 60, to the Governor General in Council to appoint such an officer should occasion require

"So much as regards original civil jurisdiction As regards the trial of criminal offences, we have made but few alterations in the existing law The criminal business both in Rangoon and Maulmain is not heavy, in 1887 there were 47 sessions cases in Rangoon and 22 in Maulmain But the annexation of Upper Burma has rendered it necessary to provide for the trial of European British subjects and persons jointly charged with European British subjects throughout the province, and the Bill accordingly declares the Court of the Recorder to be the High Court for the whole of Burma, inclusive of Upper Burma and the Shan States, in reference to such proceedings, sentences of

death passed by the Court of the Recorder as such High Court being subject to confirmation by the High Court in Calcutta The Bill also empowers the Recorder to hold his Court for the trial of such cases at any place in Burma which the Local Government may direct

"As regards civil appeals, we have left matters very much as they were From the Recorder's decisions, in cases where the decree is for a less sum than R3,000, no appeal lies, between R3,000 and R10,000 there is an appeal to the High Court at Calcutta, above Rs 10,000 to the Privy Council This appears a somewhat arbitrary division, but, so far as I have been able to ascertain, it is not objected to by litigants and does not seem to have worked otherwise than satisfactorily during the last quarter of a century The returns of the High Court show that, for a period of ten years from 1879 to 1888, there were only sixteen civil appeals and ten references from Burma, and, considering that Calcutta is quite as accessible from Burma as for instance from Assam, these figures are very significant

"From the decisions of the Judge of the Town of Maulmain in civil suits an appeal lies to the Special Court, which for this purpose is composed of the Recorder and the Judicial Commissioner As a Court of Reference or of Criminal Appeal, the Special Court has a wider range, and may be resorted to in suits pending before, or cases tried by, one of the judicial officers of whom it is ordinarily composed To obviate any difficulty that might arise from the Court being thus constituted the Bill provides that the Local Government may associate the Judge of the Town of Maulmain with the Judicial Commissioner and the Recorder for the hearing of any particular case or class of cases As the Special Court has hitherto sat for only about nine days in the year, the work cannot be heavy

"With regard to the admiralty jurisdiction of the Recorder, we have made no change As regards insolvency, the Bill provides that in the Towns of Rangoon, Maulmain, Akyab and Bassein the law in force in the presidency towns, and not that laid down in the Code of Civil Procedure, shall be applicable In divorce cases we have substituted the Special Court for the High Court at Calcutta

"Advantage has been taken of the introduction of this Bill to declare the effect of certain enactments in Lower Burma, and to remove difficulties which, upon a careful examination of the laws which constitute the Burma Code, have been found to exist, but, as these matters are fully specified in the Report of the Select Committee, I need not detain the Council by further alluding to them at this stage of the Bill"

The Council adjourned to Friday, the 1st March, 1889

S HARVEY JAMES,

Secretary to the Government of India,
Legislative Department.

FORT WILLIAM,
The 27th February, 1889

SUPPLEMENT TO

Irrigation

REVENUE REPORT OF IRRIGATION WORKS IN THE PUNJAB FOR 1887 88

No 291 dated Calcutta 22nd February 1889

RESOLUTION—By the Government of India Public Works Department

Read—

Letter No 7049 I, dated 21st December 1888, from the Government of the Punjab, forwarding the Revenue Report of Irrigation Works in the Punjab for 1887 88, and Resolution by that Government reviewing the Report

OBSERVATIONS —Capital Accounts are kept for all the canals in the Province of the Punjab which are under the administration of Irrigation Officers, with the exception of the Mazaffargarh Canals, for which only Revenue Accounts are kept The following statement shows the Capital expenditure

	Number of works	During the year 1887-88			To end of the year 1887 88		
		Direct	Indirect	Total	Direct	Indirect	Total
MAJOR WORKS		R	R	R	R	R	R
Protective Works (Account head 35)	1	82 072	3,309	85 381	33 32 501	1 22 702	34,55 203
Productive Works (Account head 49)	6	18 97,223	80 953	19 78 176	5 17 25 650	24,44,970	5,41 70 620
Minor Works of which Capital and Revenue Accounts are kept (Account head 43)	4	—2 816	*Nil*	—2 816	17 80 862	80 289	18 61 151
GRAND TOTAL	11	19,76 479	84 262	20 60 741	5 68 39 013	26 47 961	5 94 86 974

This expenditure of 20½ lakhs was mainly incurred on the Western Jumna Canal (three lakhs), the Sirhind (eight lakhs) and the Chenab (eight lakhs) On the Western Jumna the chief work done was the raising of the banks and the construction of new distributaries and of a main drain On the Sirhind Canal 365 miles of main and 762 miles of minor distributary channels were completed in the year The Chenab Canal is still far from complete, and considerable progress was made in the construction of the main channel, branches and distributaries In addition to the amounts shown in the above table there was an expenditure during the year of R 3,87,613 on that portion of the Sirhind Canal which has been constructed for Native States, which increased the total Capital invested by the contributing States to R1,32,39,197

2 The sanctioned estimates of the eleven works, including the Native State portion of the Sirhind Canal, aggregate about 716 lakhs, of which more than 727 lakhs have been expended The following statement shows the progress of construction on the different classes of works

	Sanctioned		Completed	
	Miles of Canals	Miles of Distributaries	Miles of Canals	Miles of Distributaries
Major Works—				
Protective Works	22	116	22	116
Productive Works	1,280	4,558	1,232	4,327
Minor Works—				
Of which Capital and Revenue Accounts are kept	1,703	150	1,703	150

The main channels are completed except on the Chenab Canal, some of the distributaries on the Western Jumna, Bari Doab, Sirhind and Chenab Canals are still unfinished

3 The actual financial results of the year on the twelve systems, excluding the Native State portion of the Sirhind Canal, were as follows —

Canal	Capital outlay	Gross Revenue			Working Expenses			Net Revenue	Percentage of net Revenue on Capital outlay
		Direct	Indirect	Total	Direct	Indirect	Total		
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
Major Works	R	R	R	R	R	R	R	R	R
A —*Protective Works*— Swat River Canal	317 203	1,03,257	Nil	1,03,257	83,715	6,378	90,193	13,134	0 98
B —*Productive Works* — Western Jumna	1,08,5 661	13,44,228	51,401	13,95,632	5,16,8[illegible]	36,18	5,82,309	8,13,323	7 47
Bari Doab	1,01,401	1,[illegible]9,081	3,75,256	16,34,337	4,31,017	34,08[illegible]	5,28,933	11,05,938	6 84
Sirhind	[illegible]31,56,184	6,98,640		6,98,640	3,40,040	16,813	3,61,853	3,36,807	1 45
Lower Sohag and Jhelum	6,28,96[illegible]	56	29,878	30,440	31,797	2,[illegible]37	37,034	—6,591	
Sutlej	7,34,997	1,42,761		1,42,761	39,215	1,734	41,009	1,01,75[illegible]	13 84
Chenab	2,83,804	2,56[illegible]		2,56[illegible]	5,[illegible]31	2,610	59,911	—59,685	
Total Productive Works	1,17,70,620	34,10,128	4,6[illegible]3	39,0[illegible],66[illegible]	1,17,10[illegible]	91,018	10,11,126	22,91,541	4 23
Minor Works									
C —*Works of which Capital and Revenue Accounts are kept*—									
Upper Sutlej	5,77,2[illegible]	27,531	1,34,263	1,61,794	1,51,306	8,336	1,59,642	2,152	0 37
Lower Sutlej and Chenab	1,10,10	2,60,[illegible]78	3,19,933	5,80,[illegible]11	3,[illegible]8,678	14,182	4,00,860	1,88,751	171 43
Indus Inundation	[illegible]08,011	80,[illegible]18	[illegible]0,411	2,85,[illegible]9	2,[illegible]9,70[illegible]	12,486	3,12,188	—26,[illegible]59	
Shahpur Inundation	40,73	41,[illegible]56		41,[illegible]56	16,398	276	16,673	24,882	60 34
Madhopur Workshops	1,[illegible]1,148								
Total	18,[illegible]1,151	1,[illegible]8,71[illegible]	[illegible],[illegible]607	10,78,313	8,54,084	35,[illegible]79	8,8[illegible],963	1,88,95[illegible]	10 15
D —*Works of which Capital and Revenue Accounts are not kept*—									
Muzaffargarh		1,06,3[illegible]2	2,47,949	3,54,271	1,66,081	6,23[illegible]	1,72,320	1,81,591	

Note —These figures differ from the Finance Accounts in three respects the indirect charges in column 7 (which are mainly a calculation of liability for leave and pension allowances) are not shown in the Finance Accounts of the indirect receipts in column 4 which are a share of Land Revenue credited to Canals only that portion which pertains to Major Works is shown in the Finance Accounts In the figures against C—Minor Works the sum of R1,61,907 is credited under column 3 and debited under column 6 on account of statute labour and expenditure from Fine Funds and this sum will not be found in the Finance Accounts Against D—Minor Works a figure of R1,01,741 is similarly debited and credited for the same reason

The results displayed by this table are extremely satisfactory The Protective Work—the Swat River Canal—has paid its working expenses, and its income will further increase when full water rates are assessed The Productive Works taken collectively are paying more than 4 per cent, although the majority of them have been less than five years in operation The Sidhnai Canal, which has only been open two years, gave a return of 13 84 per cent on its Capital, the Western Jumna, 7 47, and the Bari Doab, 6 84

Of the Minor Works the returns from the Lower Sutlej and Chenab and from the Shahpur Canals were 171 43 and 60 34 per cent respectively The Upper Sutlej Series only just paid its way and the Indus Series was worked at a loss, but here the country is not very favourable for irrigation, the credit given on account of irrigated land is small, and maintenance is expensive

4 Two of the seven Major works—the Western Jumna and the Sidhnai Canals—show a clear profit to the State on the whole of the operations since they were opened, that is to say, the total net Revenue has exceeded the total interest charges to date The excess on the Western Jumna Canal is very large On the other five systems the interest charges to date are in excess of the net Revenue, but in the case of the Bari Doab Canal, the deficit will disappear in two or three years The other works have only lately come into operation

5 The figures in the foregoing paragraphs have been based on the actual receipts as given in the accounts The following statement has been drawn up to show the revenue assessed on irrigated lands in 1887 88 (which differs from the collections mainly in this respect, that the Rabi assessment of 1887 88 is not due in that year and is not collected till 1888 89), as well as the different systems of assessment and heads under which it is credited

	Water rates	Owners' rates	Occupiers' rates	Share of land Revenue	Water advantage rates	Total assessed Revenue including remissions	Rate per acre irrigated

11 Shahpur	34 320					34 320	2 04
12 Muzaffargarh				2 47 949		2 47 949	0 88
TOTAL	13 80 010	19 57 02	2 06 816	98 72 738	4 09 763	49 15 348	2 13

6 On the Swat River, Sirhind, Sidhnai, Chenab, Shahpur and part of the Lower Sohag and Para Canals, a single charge is made for water supplied to irrigated lands, this is shown in the second column On most of the other canals occupiers rates are charged, which are supplemented by "owners" and "water advantage" rates, or by a share of land revenue On part of the area irrigated by the Western Jumna Canal, credit is given for the share of land revenue which was assessed as irrigated in the old settlements, the rest of the tract commanded by this canal has since been re assessed at dry rates, and an "owners" rate is charged on areas actually irrigated The "water advantage" rate on the Bari Doab Canal, and on that part of the Upper Sutlej Canal which is situated in Lahore District is somewhat of the same nature as an "owners" rate,

from which it differs in being a fixed charge for each acre irrigated, instead of varying with the crop grown this charge which was fixed at the last settlement, varies in different villages On the remaining part of the tracts watered by the Upper Sutlej and Lower Sohag and Para Canals, which falls within the Montgomery District, the assessment is a fluctuating one, and a share of it is credited to irrigation, as shown in column 5 On the Indus and Mazaffargarh Canals, and with a very small exception on the Lower Sutlej and Chenab Canals, no separate charge is made for water, but a share of the Land Revenue is credited to irrigation, this share is generally the whole of the land revenue where there are no wells, and half of it where the canal water is supplemented by wells

In the case of the two latter canals, the cultivators also give labour without payment for the maintenance of the canals The cultivators on the Indus Canals also contribute in cash towards the cost of maintaining their canals

7 The figures in column 8, "Rate per irrigated acre," vary considerably The low rates shown for the Lower Sutlej and Chenab, Indus, and Mazaffargarh Canals are due to the value of the free labour and contributions, as described above, being omitted from the statement The Upper Sutlej Canal rates will be reconsidered when the next settlement of the Montgomery District is made Of the remaining canals, on the Western Jumna, Bari Doab and Shahpur Canals alone is water assessed at the full sanctioned rates, the rest have only lately come into operation, and, according to the usual custom, full rates on new irrigation are only gradually arrived at

8 The actual outstandings of revenue due, but not collected, had increased from R57,187 at the end of 1886 87 to R73,132 at the end of 1887 88 The balances are mainly due from the Western Jumna and Sirhind Canals, in the former case it is attributed to distress in certain villages in the Delhi District, and in the latter to a large sum due by the Faridkote State It was anticipated that the outstandings would be realized early in the ensuing year

9 The areas irrigated by the different canals are compared in the following statement with those of previous years

		1887 88	1886 87	1885 86	1884 85	1883 84
	MAJOR WORKS					
	Protective Works—	Acres	Acres	Acres	Acres	Acres
PERENNIAL	1 Swat River Canal	96,686	71,373	44,092		
	Productive Works—					
	2 Western Jumna Canal	237 821	315,911	223,322	279,208	472,426
	3 Bari Doab Canal	473,465	405,152	505,357	376,762	390,860
	4 Sirhind Canal (British portion)	390,965	215,625	152,837	36,102	5,030
	5 Lower Sohag and Para Canal	41,159	17,340	17,246	645	
	6 Sidhnai Canal	75,284	27,162			
	7 Chenab Canal	10,854				
	Minor Works—					
INUNDATION	8 Upper Sutlej Canals	138,637	102,524	75,813	90,074	71,374
	9 Lower Sutlej and Chenab Canals	297,595	324 612	328,761	372,607	329 976
	10 Indus Inundation Canals	190,476	178,071	172,122	186,302	150,418
	11 Shahpore Inundations Canals	16,812	13,858	15,727	14,553	5,485
	12 Mazaffargarh Canals	280,327	275,112	25 ,260	258,035	226,499
	TOTAL	2,250,081	1,950,640	1,787,067	1,614,288	1,652,068

The area irrigated is again the largest on record, it consisted of 1,121,246 acres of kharif and 1,128,835 acres of rabi The increase is for the most

part due to the extension of irrigation on the new canals The irrigation on the Sirhind Canal in its fifth year exceeds the forecast for the thirteenth year, and is 75 per cent of the probable ultimate area The Sidhnai Canal in the second year and Swat River Canal in the third vear have irrigated more than the maximum ultimate areas which they were estimated to attain after eight and fifteen years respectively

The Chenab Canal was first opened in July 1887 in the middle of the kharif, some crops were irrigated in that season, but could not be matured owing to accumulations of silt in the supply channel The water rates on that crop were entirely remitted In the rabi crop 5,982 acres were irrigated. This crop was fully matured

There was a falling off in the irrigation on the Western Jumna Canal where the rabi crop was only 57,699 acres as compared with 182,602 in the previous year The decrease was due to the particularly heavy rain fall which occurred during the latter months of the kharif and to timely showers during the rabi crops

10 The whole of the facts regarding the irrigation and working of the Native State Branches of the Sirhind Canal had not been received in time for incorporation in this report It appears that the area of irrigation reached 96,541 acres in 1887-88, as compared with 63,807 acres in 1886 87, which was the first year of systematic irrigation The ultimate area which was estimated to be irrigable by these branches is 278,375 acres, so that the irrigation of 1887-88 is 35 per cent of the ultimate area, a result which must be regarded as decidedly satisfactory

11 The value of the crops irrigated during the year aggregated R6,84,66,306, which is 117 lakhs of rupees in excess of the previous year The wheat crop was, as usual, the largest and most valuable, 783,189 acres of this crop, estimated at more than 251 lakhs in value, were matured by canal irrigation There was a considerable increase in the area under sugarcane, 83,691 acres, estimated at R83,69,079 in value, were irrigated, and the area is nearly 40 per cent in excess of the average of the previous four years

12 The duty of each cubic foot per second of water entering the Canals varied in the kharif crop from 90 acres on the Western Jumna to 57 acres on the Sirhind Canal The rabi duty varied from 145 acres on the Swat River to 32 acres on the Western Jumna, where the supply was kept up more for navigation than for irrigation A foot note has been attached to form No I E of the Report explaining the method of calculating the duties, it would be well if it were stated in the next report what number of days in each case forms the "base" to which the duties are calculated

13 The working expenses, including indirect charges, are shewn in the following statement

		1887 88	1886 87	1885 86	1884 85	1883 84
		R	R	R	R	R

	Shahpur Canals	16,673	11,426	10,986	10,819	11,435
	Works for which only Revenue Accounts are kept— Mazaffargarh Canals	1,72,820	1,45,362	1,66,545	1,88,897	1,77,326
	TOTAL	27,62,931	23,77,640	21,85,741	21,13,615	21,47,654
	Per acre irrigated	1 22	1 22	1 22	1 31	1 30

The rate per acre of the working expenses of Major works was R1 28 and that of Minor works R1 14 as compared with R1 36 and R1 05 in the previous year

The increase in working expenses on the Western Jumna Canal was due to repairs of works at Dadupur, which were seriously injured by floods in July 1887, and to the construction of masonry core walls in part of the banks of the Okla Navigation Canal This increase in expenditure, coupled with a decreased area of irrigation, causes the rate per acre of the working expenses of this canal to exceed those of any other, with the exception of the newly opened Chenab Canal, where the working expenses were peculiarly heavy owing to exceptional circumstances Omitting the Chenab Canal, which was not regularly in work, the highest rate was R2 48 on the Western Jumna Canal, and the lowest was R0 51 on the Sidhnai Canal On three of the Inundation Canals, and on the Bari Doab, the rate exceeded R1 per acre, and on six canals it fell below R1

14 The details of the working expenses shown in the preceding paragraph are as follows

	1887 88 R	1886 87 R
Establishment	10,05,002	8,38,568
Works and repairs	15,85,820	13,88,697
Tools and Plant	30 195	18,617
Indirect charges	1,41 911	1,17,401
TOTAL	27,62 931	23,63,283

The charge for establishment again is made up of the following items

	1887 88 R	1886 87 R
Share of direction	1 50,704	1,26,893
Executive Officers	5,31,046	4,01,024
Medical ,,	7,557	5,640
Collection and Police	1 95,179	1,72 389
Fees of Lumbardars and Patwaris	1,20,216	82,622
TOTAL	10,05,002	8,38,568

The cost of direction and of accounts is divided between the Irrigation Department and other branches, so that the figure shown against the first line is a calculated ratio, not an actual sum The "Executive Officers" charge represents an actual, since the Irrigation Establishment of the Punjab is separate from the Roads and Buildings Branch, and its whole cost is charged against Irrigation part, however, is debited to construction (R3,60,468 in 1887 88, at 23 per cent on the cost of works and repairs, but this figure again includes a

share of the cost of direction, &c) and the rest to working expenses The charge for Medical officers generally is the cost of the Medical staff employed on the canals, and in some cases it is a contribution on payment of medical attendance The head "Collection and Police" indicates the pay of the special Revenue Establishments—Deputy Collectors, Daroghas, Zillahdars, Amins for measurement, Patwaris to prepare the record of charges and the bills on which canal rates are collected, and Patrols The last head indicates the fees to Lumbardars who collect the water rates and pay them into the Civil Treasury, retaining a commission of 3 per cent and in some cases where special Canal Patwaris are not appointed, fees are paid to the village Patwaris The Executive staff not only supervise works and repairs, but also watch over the distribution of the water, the measurement of the fields, the records of the crops, and the assessment of the water rates, and have also Magisterial powers for the enforcement of the provisions of the Canal Act

15 The receipts from and expenditure on navigation on the Western Jumna and Sirhind Canals are shown in the margin the net receipts are larger than last year, and may be expected to increase, as on the Sirhind Canal communication with Ferozepore City has just been completed On the Western Jumna Canal, also, through communication has been opened to Delhi and Hissar The value of goods carried was 24½ lakhs as compared with 11½ lakhs in the previous year

	Western Jumna Canal		Sirhind Canal	
	1886-87	1887-88	1886-87	1887-88
Receipts	11,173	4,107	8,789	1,10,5
Expenditure	5,210	9,101	21,803	18,803

The miscellaneous revenue from water-power, plantations, &c, increased to R3,13,700, and is about 32 per cent above the average of the previous four years The increase was chiefly in mill rents

16 The rainfall of the year was generally below the average in both the rabi and kharif seasons except on the Western Jumna and on the upper portions of the Sirhind and Chenab Canals, the supplies in the Ravi and Sutlej rivers were at times unequal to the requirements of the Bari Doab and Sirhind Canals

17 The Report, which is well arranged and illustrated by excellent maps which is due on the 15th of November, was received by the Government of India on the 26th December 1888, the report for the previous year was received on the 30th of November 1887 The Government of India trusts that the Report will in future years be submitted on the date fixed

18 In the concluding paragraph of the Resolution by the Punjab Government on the Chief Engineer's Report, His Honour the Lieutenant Governor congratulates the Officers of the Irrigation Department on the excellent progress made during the past year, and on the results which have been obtained His Excellency the Governor General in Council has much satisfaction in endorsing the favourable opinion expressed by the Lieutenant Governor

---

ORDER.—Ordered, that copies of this Resolution and of the Report, and of the Resolution by the Punjab Government, be forwarded to the Finance and Commerce and the Revenue and Agricultural Departments for information

Ordered also, that copies of this Resolution be forwarded to the Government of the Punjab for information and guidance, and that copies of this Resolution and of the Report and Resolution by the Punjab Government be forwarded to the Local Governments and Administrations in the Public Works Department, noted in the margin, for information

The Governments of Madras Bombay Bengal and the North Western Provinces and Oudh in the Public Works Department
The Chief Commissioners of the Central Provinces and Burma
The Foreign Department for communication to the Resident in Mysore and Coorg
The Resident at Hyderabad
The Agents to the Governor General in Central India and Rajputana

Ordered further, that this Resolution and the Resolution by the Local Government with a few selected tables, be published in the Supplement to the *Gazette of India*, and that copies of this Resolution be forwarded to Her Majesty's Secretary of State for India

J G FORBES, *Colonel, R E,*
Offg Deputy Secy to the Govt of India

IRRIGATION BRANCH

No 6988 I dated Lahore the 17th December 1888

RESOLUTION—By the Hon ble the Lieutenant Governor of the Punjab and its Dependencies

READ—

Revenue Report of the Officiating Chief Engineer, Irrigation Works, Punjab, for the year ending 31st March 1888

RESOLUTION —The following table shows the outlay under Capital during, and to the end of, the year 1887 88 —

Budget Head	Canal	Capital outlay	
		During 1887 88	To the end of 1887 88
		R	R
35 Protective Irrigation Works	Swat River	8 ,781	34,55,203
49 Irrigation Works not charged against Revenue	Western Jumna	2,97 763	1,08,82,656
	Bari Doab	17,988	1,61,54,012
	Sirhind	7,92 277	2,31,66,184
	Lower Sohág and Para	6 ,969	6 ,8,967
	Sidhnai	11,267	7,34,997
	Chenáb	7,88 912	25,83,804
	Total	19,78,176	5,11,70,620
43 Minor Works and Navigation not classed as Productive	Upper Sutlej		5,77 251
	Lower Sutlej and Chenab		1,10,102
	Indus	—1,072	7,08,911
	Shahpur		40,739
	Madhopur Workshops	—1,744	4,24,148
	Total	—2,816	18,61,151
	Total Imperial	20,60,741	5,94,86,974
Contributions	Sirhind Canal	3,87,613	1 32,39,497

Under item 43, the Capital outlay of R35,456 on Abdul Raman Khan's Canal has been struck off the books with the sanction of the Government of India For the Muzaffargarh Canals only Revenue Accounts are kept up

2 The figures of Assessments, Working Expenses, Profits and Interest charges, for the year 1887-88, are given in the following table for each Canal, and the totals compared with those of 1886 87 —

Item No	Canal	Assessments	Working Expenses	Profit	Interest charges
		R	R	R	R
35	Swat River	1,87,020	90,123	96,897	1,31,659
49	Western Jumna	11,02,415	5 91,745	5,10,670	4,07,993
	Bári Doab	17,12,122	5,30,727	11,81 395	6,20,643
	Sirhind	10,41,2(9	3,62,1 7	6,79,022	8,66,706
	Lower Sohág and Para	4 ,190	37,034	5,156	22,963
	Sidnai	1,64,120	41 009	1,23,111	28 156
	Chenab	6,232	59,941	—53,709	84,621
	Total 49	40,68,288	16 22 643	24,45,645	20,31,082
	Total 35 and 49	42,55,308	17,12,766	25,42,542	21,62,741

Item No	Canal	Assessments	Working Expenses	Profit	Interest charges
		₹	₹	₹	₹
43	Upper Sutlej	1,82 220	1,59 689	22 531	
	Lower Sutlej and Chenab	5,89,888	4,01,137	1,88,751	
	Indus	2 87,680	3,12,217	—24,537	
	Shahpur	34,994	16,673	18,321	
	Total	10,94,782	8,89,716	2,05,066	
	Muzaffargarh	3,54,286	1,72,335	1,81,951	
	Total 43	14,49,068	10,62,051	3,87,017	
	Grand Total, 1887 88	57,04,376	27,74,817	29,29,559	21,62,741
	Grand Total, 1886 87	47,63,575	23,77,640	23,25,935	20,82,512

In round numbers the Assessments have improved by ten lakhs and the Profits by six lakhs of rupees

Excluding the Muzaffargarh Canals, which have no Capital Account, the Profits amount to ₹27,47,608, and show a return of 4 62 per centum on ₹5,94,86,974, the total Capital outlay at the end of 1887-88

In 1886 87 the percentage was 3 70 and in 1885-86, 3 61

3 The Protective and Productive Works, on which alone interest is charged, show a profit of ₹25,42,542 against ₹19,11,025 in 1886 87, this is equivalent to a return of 4 41 per centum on the total Capital outlay of ₹5,76,25,823, the return having been 3 44 in 1886 87, and 3 29 in 1885 86 The Swat River Canal, a Protective Work, shows a return of 2 80 per centum and the Productive Works proper a return of 4 51 per centum

4 The total Collections for 1887-88 under Protective and Productive Works amount to ₹40,17,441, and the Working Expenses to ₹17,12,766, there remains, therefore, a balance of ₹23,04,675 to meet the charges of ₹21,62,741 on account of interest, and the net result is a surplus of ₹1,41,934, in 1886 87 there was a deficit of ₹3,12,863

The profits are equivalent to a return of ₹4 00 per centum on the Capital outlay, taking Productive Works alone the return is 4 23 per centum

The returns from the several Canals for 1886 87 and 1887-88 will be seen from the following table —

Nature of Project	Canals	Returns per centum	
		1886 87	1887 88
Protective	Swát River Canal	—0 84	0 38
Productive	Western Jumna	3 52	7 47
	Bari Doab	8 09	6 84
	Sirhind	0 51	1 45
	Lower Sohag and Páia	1 05	—1 04
	Sidhnai	—0 17	13 84
	Chenáb		—2 31
	Total Productive	3 57	4 23
	Total Protective and Productive	3 29	4 00

The high percentage on the Bari Doáb Canal in 1886-87 was due to adjustments, excluding adjustments the percentage was 6 84 The success of the Sidhnai Canal, which shows a return of 13 84 per centum in the second year of its working, is very gratifying

5 Under Minor Works and Navigation, the profits based on Collections have fallen from ₹2,05,292 in 1886 87 to ₹1,88,956 in 1887-88, owing to the

profits from the Upper Sutlej and Lower Sutlej and Chenáb systems having been smaller The profits from the Muzaffargarh Canals have also fallen from R2,00,025 to R1,81,951

6 The following table shows the financial results of Protective and Productive Works up to the end of 1887-88 —

Nature of Project	Canals	Total of net profits	Total of interest charges	Balance of	
				Net profits	Interest charges
		R	R	R	R
Protective	Swat River	—39,946	8,63,525		9,03,471
Productive	Western Jumna	3,60,16,346	69,40,805	2,90,75,541	
	Bari Doab	1,46,80,730	1,52 44,318		5 63,588
	Sirhind	2,36,508	84,3 ,133		81,98,625
	Lower Sohag and Para	1,097	64 531		63,434
	Sidhnai	1,00,581	81,647	18,934	
	Chenab	—59,685	2,16,505		2 76,490
	Total Productive	5 09,75,577	3,09,83,239	1,99,92,388	
	Total, 1887 88	5,09,35,631	3 18,46,764	1,90,88,867	
	Total, 1886-87	4,86,30,956	2,96,84,023	1,89,46,933	

Within two years the Bári Doáb Canal will have cleared off its balance of interest charges, and by that time it is hoped that the Sirhind Canal will meet its interest charges, and commence to clear off the large balance against it The state of the Sidhnai Canal account is very satisfactory

7 The Working Expenses of Protective and Productive Works, as shown in the table which accompanies para 2, amounted to R17,12,766 against R14,37,600 in 1886 87 The increase is spread over all the Canals, and is principally due to the change from construction to revenue management on the newly opened Canals, the Chenáb Canal commenced to incur maintenance charges during the year, having been opened in July 1887 The rate per acre irrigated has fallen from R1 36 in 1886-87 to R1 29 in 1887 88 The Working Expenses of Minor Works has risen from R9,40,040 in 1886-87 to R10,62,051 in 1887-88 This is due partly to new protective bunds on the Indus Canals and extensions of the tail Canals of the Muzaffargarh system, and partly to a revision of the system on which Establishment charges are distributed The rate per acre is R1 15 against R1 05 in 1886 87

8 The cost of Establishment per acre irrigated is shown in the following statement for each system of Canals for the last three years —

Canal	Cost of Establishment per acre		
	1885 86	1886 87	1887 88
Swát River Canal	0 21	0 25	0 47
Western Jumna Canal	1 22	0 81	1 09
Bari Doab Canal	0 43	0 59	0 51
Sirhind Canal	0 35	0 29	0 30
Lower Sohag and Para Canal	0 09	0 14	0 39
Sidhnai Canal		0 15	0 17
Chenáb Canal			1 72
Upper Sutlej Inundation Canals	0 76	0 54	0 41
Lower Sutlej and Chenab Inundation Canals	0 21	0 27	0 34
Indus Inundation Canals	0 47	0 44	0 44
Muzaffargarh Inundation Canals	0 15	0 13	0 16

As noticed in the Resolution in last year's Report, the high rate on the Western Jumna Canal is receiving attention, and the separate circle of superintendence for that Canal will also be abolished from the commencement of 1889 90

9 The mileage of channels sanctioned and completed at the end of 1887-88 is shown in the following table —

	Canals		Mileage of Canals		Mileage of Distributaries		Mileage available for navigation
			Sanctioned	Completed	Sanctioned	Completed	
			Miles	Miles	Miles	Miles	Miles
Perennial	Swát River		29	22	116	116

The mileage was revised and corrected during the year, which accounts for differences between this year's and last year's figures

10 The following are the areas irrigated during the past five years —

Year.	Perennial Canals.			Inundation Canals			Total		
	Kharif	Rabi	Total	Kharif	Rabi	Total	Kharif	Rabi	Total.
	Acres	Acres	Acres	Acres	Acres	Acres	Acres	Acres	Acres
1883 84	366 567	501 749	868 316	434,262	349 490	783 752	800 829	851 239	1 652 068
1884 85	345 869	346 203	692 072	522 474	399 742	922 216	868 343	745 945	1,614 288
1885 86	368 574	557 034	925 608	501 939	360 020	861 959	870 513	917 054	1 787 567
1886 87	351 472	659 589	1 011 061	536 301	403 278	939 579	887 773	1 062 867	1 950 640
1887 88	543 030	655 907	1 198 937	578 216	472 928	1 051 144	1 121 246	1 128 835	2,250 081

The area irrigated by Perennial Canals in the Rabi of 1887 88 is slightly less than in 1886 87, owing to the area on the Western Jumna Canal being unusually small, with this exception all the figures for 1887-88 are the best on record, and the total area for that year is more than one third larger than that for 1883 84 The development of irrigation on the new Canals continues to make rapid strides, and is far in advance of what was expected when the projects were prepared

11 The following are the areas of the principal crops irrigated during the last five years —

Crops	1883 84	1884-85	1885 86	1886 87	1887 88
	Acres	Acres	Acres	Acres	Acres
Sugarcane	54,675	69,610	58,398	59,104	83,691
Rice	146,857	147,401	147,529	146,777	155,837
Jowár	128,473	109,041	152,706	151,525	189,839
Maize	32,259	18,606	39,994	36,961	80,876
Wheat	615,831	533 838	649,442	747,514	783 189
Cotton	177,308	186,549	196,851	212,779	223,470

The areas of 1887-88 are in every case the largest yet recorded

12 The value of crops irrigated by Canals during 1887 88 is estimated at R6,84,66,306, in 1886-87 the estimate was R5,67,58,501

The value of crops on Perennial Canals averaged R34 7 per acre, while the average water rate, including owner's and water-advantage rates, was only R3 1 per acre, or one-eleventh

13 The supplies in the rivers Ravi and Sutlej were unequal to the demand for Rabi crops on the Bári Doab and Sirhind Canals The head-works of all the Canals are in a satisfactory condition, but the Dádúpur Regulator on the Western Jumna Canal was severely damaged by unusually high floods in the Somb and Patiala torrents, which cross the Canal above the Regulator

14 In the Kharíf season, the rains were late in commencing, and the rain-fall was below the average on most of the Canals, the exceptions being the Western Jumna, upper portion of the Sirhind and Chenab Canals In the Rabi season the rainfall was generally below the average

15 The following table shows the duty, or area irrigated per cubic foot of water entering the Canal, on the Perennial Canals for the last five years —

Canals	Area irrigated per cubic foot									
	1883 84		1884 85		1885 86		1886 87		1887 88	
	Kharíf	Rabi	Kharíf	Rabi	Kharíf	Rabi	Kharíf	Rabi	Kharíf	Rabi
Swát River						152	62	188	84	145
Western Jumna	74	121	94	81	86	70	66	110	90	32
Bari Doáb	53	139	48	115	59	140	69	123	61	123
Sirhind					57	126	46	88	57	107

The low Rabi duty on the Western Jumna Canal is due to there being very little demand for water, and to supplies having to be run for navigation purposes The discharge tables have been revised where necessary, and the duty for 1887 88 is based on the revised tables

16 The Miscellaneous Receipts for the last five years are given in the following table —

Year	Miscellaneous Receipts
	R
1883 84	2 35,631
1884 85	2,08,141
1885 86	2,73,568
1886 87	2,28,470
1887 88	3,13,700

There has been a considerable rise in mill rents on the Bári Doáb and Sirhind Canals, in navigation receipts on the Western Jumna and Sirhind Canals, and in receipts from plantations on a number of the Canals

17 The Chenáb Canal was opened for irrigation in July 1887, and water was readily taken, but as described in para 198 of the Chief Engineer's Review, the low level of water in the river and the unexpectedly heavy deposits of silt at the head of the Canal were unfavorable to successful results, and it was considered necessary to remit the assessments on the whole of the Kharíf crop At present the supply in the Canal fails at a time when water is urgently required both to mature the Kharíf crops and to prepare the land for Rabi sowings, and it appears that a command of supply, which can only be secured

by a weir across the river, is needed for the successful development of this project

18 Complete statistics of the working of the Native States Branches of the Sirhind Canal have not yet been received, but the available information is contained in the following table —

Areas irrigated

	Patiala.			Nabha			Jind			Total		
	Kharif	Rabi	Total	Kharif	Rabi	Total	Kharif	Rabi	Total	Kharif	Rabi	Total

1886 87	5 651	42 269	47 920	704	5 895	6 599	1 892	7 896	9 288	8 ?47	5, 560	63 807
1887 88	27 032	50 949	77 981	3 828	5 105	8 933	3 756	5 871	9 627	34 616	61 925	96 541

As soon as complete figures are received, accounts showing the balances of revenue and charges will be prepared and kept up

19 Projects were submitted during the year for the Sirsa Branch of the Western Jumna Canal and for a Perennial Canal from the left bank of the Jhelum River

Surveys were also started for an Inundation Canal from the left bank of the Chenab River near Chiniot to irrigate the low level lands of the Jhang District

20 His Honor the Lieutenant Governor considers that the results shown by the report are eminently satisfactory As has been shown, the estimated value of crops irrigated by the canals is higher by 117 lakhs than the estimate for the previous year, the profits have also improved by six lakhs, and are now equal to a return of 4 per cent on Capital outlay The area irrigated, which has been gradually developing, is now more than a third larger than it was five years ago Sir J Lyall wishes to congratulate Colonel Home and the officers of the Irrigation Department generally on these excellent results, which are due, no doubt, in large part to their skill, activity and careful management

By order of the Hon'ble the Lieutenant Governor,

F J HOME, *Lieut Col, R E,*

Offg Joint Secretary to Government, Punjab,
Public Works Department, Irrigation Branch

Statement showing the Financial Results of Irrigation Works in the Punjab up to and for the year 1887-88, the Revenue Account being based on the Collections for the year

REVENUE REPORT OF IRRIGATION WORKS IN THE BOMBAY PRESIDENCY (EXCLUDING SIND) FOR 1887 88

No 30 I dated Calcutta the 22nd February 1889

RESOLUTION—By the Government of India, Public Works Department

Read—

Letter from the Government of Bombay, Public Works Department, No 144 W I —2065, dated the 13th December 1888, forwarding the above Report, and the Resolution of the Local Government reviewing it

OBSERVATIONS —The Capital outlay which has been incurred on works in the Deccan and Guzerat, of which Capital Accounts are kept, is shewn in the following statement —

		Number of Works	Expenditure 1887 88			Total expenditure direct and indirect to end of 1887 88
			Direct	Indirect	Total	
Major Works			₹	₹	₹	₹
Protective Works	In operation	3	4,21,740	10,375	4,32,115	65,01,871
	In abeyance	2	975	18	993	1,00,315
	Total	5	4,22,715	10 393	4,33,108	66,02,186
Productive Works	In operation .	7	92,688	3,886	96,574	1,03,70,773
Minor Works						
(Of which Capital and Revenue Accounts are kept)	In operation	25	22,393	1,661	24,054	57,03,621
	Under construction	1	19,419	534	19,953	1,39,589
	In abeyance	1	1,912	54	1,966	1,84,613
	Total	27	43,724	2,249	45,973	60,27,823
Grand Total		39	5,59,127	16,528	5,75,655	2,30,00,782

This expenditure took place principally on the Nira canal (₹4,06,847), which was nearly completed, and on the Mutha canal, on which ₹71,017 was expended

2 The sanctioned estimates of the works included in the above statement aggregate about 233 lakhs of rupees, of which 230 lakhs have been expended.

The following statement shews the progress which has been made in the execution of the different classes of works —

	Sanctioned		Completed	
	Miles of Canals	Miles of Distributaries	Miles of Canals	Miles of Distributaries
Major Works				
Protective Works	145	169	113	160
Productive Works	269	172	263	169
Minor Works				
Of which Capital and Revenue Accounts are kept	191	136	184	136
Total	605	477	560	465

Exclusive of the Nilgund and Parsul Tanks of which the statistics are not given in Tables I A and II A

3 The discrepancy in the number and nomenclature of the Minor Works, which was noticed in the Resolution of the Government of India in the previous year's report, has been removed But the nomenclature adopted in Forms I A and II A and the order in Form I C are not uniform with that on pages 1 and 11 It will be more convenient if, in future years, the list of these works is kept in one uniform order in all statements and each work is known by a permanent number, the protective and not the productive works heading the list It is also noticed that the working expenses which are given in the detailed reports (para 12, page 12, for instance) often do not agree with the figures given in the statistical statements (Form I C)

4 The following statement shews the actual financial results of the year —

	Number of works	Gross Revenue of 1887 88			Working Expenses of 1887 88			Net Revenue	Percentage of Net Revenue on Total Capital Outlay
		Direct	Indirect	Total	Direct	Indirect	Total		
		R	R	R	R	R	R	R	R
Major Works—Protective	3	17 912		17 912	36 771	1 582	38 353	—20 441	*Nil*
Productive	7	2 53,423	5 454	2 58 877	1,31 824	5 687	1 37 511	1 21 366	1 19
Minor Works of which Capital and Revenue Accounts are kept	25	62 308	4 348	66 656	65 323	3 198	68 521	—1 865	*Nil*
Total	35	3 33 643	9 802	3 43 445	2 33 918	10 467	2 44 385	99 060	0·43

N B—The indirect receipts represent a share in the Land Revenue and of these only the portion which pertains to Major Works appears in the Finance Accounts The indirect charges which mainly represent a hypothetical liability for Leave and Pension Allowances do not appear in the Finance Accounts A debit is also made in the working expenses for collection charges by Civil Officers (R12 778) of which R3 335 the portion pertaining to Minor Works do not appear in the Finance Accounts

These results cannot be considered satisfactory A reference to Statement I C, attached to the Report, shews that out of the ten Major Works which are now in operation, only four covered their working expenses of the year, and none of them covered the interest charges The net earnings of the seven productive works were practically the net earnings of the Mutha Canal, R1,21,827, of the remaining six, two just earned enough to cover the loss on the four deficit canals Among the Minor Works, thirteen covered their working expenses and the others worked at a loss, the losses being, on the whole, R1,865 greater than the profits

5 The Irrigation Revenue actually collected within the year is composed of the following items —

	No of Works	Water rates	Share of Land Revenue	Total Irrigation Revenue 1887 88	Total Irrigation Revenue 1886 87	Plantations	Water power (a)	Miscellaneous	Total	Deduct refunds	Grand Total Revenue Collected 1887-88	Grand Total Revenue Collected 1886 87
		R	R	R	R	R	R	R	R	R	R	R
Protective	3	12 134		12 134	10 8.1	1 136	3 450	1 228	17 948	30	17 91.	13 461
Productive	7	1 16 188	, 14	1 ,1 642	1 ,5 13(	12 041	3 600	(b) 91 623	.. 8 906	29	2 ,8 877	2 ,7 796
Minor	2,	7 71,	4 348	6 ,093	59 1,8	3 40.		1 451	6(94(	2 0	66 6. 6	63 211
Total	3,	16 067	) 80.	.. ,8 80	.. ,8 11,	1(,7,	7 0,0	94 ,0.	3 13 800	,,,	3 43 4,,	3 34 468
Deduct—Refunds				3	1 114							
Total				.. 11	, 001							
Area irrigated				1(18,	1.6 8							
Rate per acre				4 88	5 32							

(a) On the Mutha and Cekak canals

(b) Of this R87 012 is collected on the Mutha Canal

The amount collected under the head of Water rates is slightly less in 1887-88 than in 1886 87, because a larger amount of arrears was collected in the previous year The assessment on account of water-rates was R2,19,545, against R1,88,803 in 1886 87, an increase of R30,742

6 The Minor Works, of which Capital and Revenue Accounts are not kept, gave the following financial results —

	Gross Revenue	Working Expenses
	R	R
Direct	4 182	1 25 790
Indirect	5 19 271	52 299
Total	5 23 453	1 78 089
Net Revenue	3 4, 364	

Here Indirect Receipts mean a share in Land Revenue and Indirect Expenses mean a share in Civil Collection Charges Neith r figure appears in the Finance Accounts The share of Land Revenue credited to Irrigation is about two thirds of the whole

The improvement in net Revenue, which has now reached R3,45,364, is considerable the corresponding figure for the previous year was R2,69,140, and in 1885 86 R2,55,1 1

7 The areas irrigated by the different classes of works are compared with those of the three preceding years in the following table —

	1887 88	1886 87	1885 86	1884 85
Major Works	Acres	Acres	Acres	Acres
Protective Public Works	11,171	7,625	16,135	2,677
Productive „ „	19,701	21,187	26,107	21,609
Minor Works				
For which Capital and Revenue Accounts are kept	15 015	13,816	17,208	15,369
Total	46,187	42,628	59,450	39,655

With reference to the descriptions of crops that have been grown on irrigated land, it appears from the report that there has been a falling off in wheat, jowar and ground-nut which is attributed to seasonable rainfall, there has, on the other hand, been for some years past a steady increase in sugarcane which is satisfactory, the areas irrigated in 1885 86, 1886 87 and 1887-88 were 4,100, 5,239 and 7,032 acres respectively The increase in this valuable crop has been the chief factor in raising the average rate per acre of the assessed water revenue, direct and indirect, from R1 65 last year to R1 96 in the year under review On the Mutha Canal, where sugarcane cultivation has increased by about 1,000 acres, the rate has risen from R8 67 to R11 51 This is the highest rate paid, except on the Dambal tank, where 58 acres pay R17 84 per acre, on the other hand, the three protective canals pay only R1 45 per acre, water being given free on about one-seventh of the area irrigated, in order to encourage the practice of irrigation

The areas irrigated by minor works, of which only Revenue Accounts are kept, were—

	Acres
1887 88	143,926
1886 87	141 806
1885 86	124,221
1884 85	110,635

8 The following statement compares the Working Expenses of the year under review with those of the two previous years —

	Number of Works	1887 88							1886 87	1885 86
		Establishment for Revenue Management	Maintenance Establishment	Civil Charges for Collection	Works and Repairs	Miscellaneous Plant and Tools and Plant	Indirect Charges	Total	Total	Total
MAJOR WORKS		R	R	R	R	R	R	R	R	R
Protective Works	3	5 180	6 117	637	22 878	1 959	1 582	38 353	36 804	20 480
Productive Works	7	20 404	20 221	8 806	77 257	5 136	5 687	1 37 511	1 34 198	1 28 301
MINOR WORKS										
Works of which Capital and Revenue Accounts are kept	25	13 288	9 563	3 335	34 475	4 662	3 198	68 521	69 325	61 905
TOTAL	35	38 872	35 901	12 778	1 34 610	11 757	10 467	4 1 38	39 417	2 10 686
Area irrigated								16 187	42 628	59 530
Per acre irrigated								5 29	5 61	3 54
Minor Works of which only Revenue Accounts are kept		82 495		52 299	42 177	1 118		1 78 089	47 601	2 54 841
Area irrigated								1 43 926	1 41 806	1 24 221
Rate per acre								1 23	1 71	2 05

Except for the last class of work, the rates shown in the above table are extremely high, and compare very unfavourably with the similar rates in other provinces of India The excessive rate is, perhaps, partly due to the comparatively smallness of the individual projects, but in the main, to the fact that the area actually irrigated is only a small fraction of the area irrigable by the works The Protective Works in 1887 88 irrigated only five per cent of the area irrigable, the Productive Works fifteen per cent and the Minor Works about ten per cent As long as only a small portion of the water available is utilised, while expenditure has to be incurred on keeping up works and distribu-

taries for the supply of a much larger quantity of water than the cultivators will take, so long the Bombay Irrigation Works must continue to be a source of loss to the Government

9 The total charge for establishment paid for in the Public Works Department has been reduced from R3,52,765 in 1886 87 to R2,73,481 in the present year This is a reduction of 22 per cent, which is explained by the Government of Bombay as being due to the amalgamation of duties and reductions effected by orders issued in August and September 1887 These orders were only in operation during a portion of the year, so that the results of the current year may be expected to be better than those of the past This establishment is distributed among the three heads of expenditure in the manner shewn in the margin The charge to Capital is regulated by a percentage on the outlay on works, together with some special establishment solely employed on construction The distribution of the remainder between the 35 works on which Capital Accounts are kept and the minor works on which only Revenue Accounts are kept is apparently based on certain hypothetical ratios on the outlay on works and on the revenue collected, but the exact mode in which the calculation is made will be the subject of separate enquiry

	1886 87	1887 88
	R	R
Capital	1,,3 143	1 16 213
Works for which Capital and Revenue Accounts are kept	75 985	74 773
Works for which no Capital Accounts are kept	1 23 637	82 495
TOTAL	3 52 765	2 73 481

Besides this establishment, the Department is debited with a share of the cost of the Civil establishments employed in collecting the Revenue, this share is calculated at 5 per cent on water-rate and 10 per cent on the irrigation share of the Land Revenue The debit amounts to R12,778 (as already shewn) on the 35 larger works, and R52,299 in the case of the minor works for which only Revenue Accounts are kept

10 The Chief Engineer, in paras 10 and 11 of his report, alludes to the causes which produce the present state of chronic deficit in the accounts of the Irrigation works, and comments briefly on the hopes of improvement arising from better organisation and more systematic working, and from a revision of the settlement which shall credit the Canal Department with a share of enhanced Revenue due to the irrigability of the land, even when the occupiers do not use the water But he admits that the construction of many of the works is so faulty that they can never work at a profit, and that they must either be realigned or abandoned It is noticed that the Government of Bombay has still under consideration the question of the revision of the water-rates which was referred to by the Government of India in the Resolution on the Report of 1886 87 In the opinion of the Government of India this is a matter that should receive immediate and earnest attention, and unless the Government of Bombay sees its way to securing a larger revenue, it should be prepared to consider whether a remedy may lie in closing or making over to the management of the District authorities such works as it may find impossible to maintain under the present system, with a fair prospect of satisfactory financial results

11 The attention of the Government of Bombay is drawn to the desirability of illustrating the report in future by separate maps of the more important canals, and a general map shewing the locality of the different works It would be convenient that each work should receive a definite number, which should be adhered to in all the statements submitted, and the order of which should be followed throughout in the arrangement of the Report

12 The Report, with the review of the Government of Bombay, was received by the Government of India on the 17th December 1888 The Report of the previous year was not received until the 10th February 1888 This improvement in the date of submission is satisfactory, and it is hoped that in future years the Report may reach the Government of India by the 15th November, when it is due

ORDER —Ordered, that copies of this Resolution and of the Report be forwarded to the Finance and Commerce and the Revenue and Agricultural Departments for information

Ordered also, that copies of this Resolution be forwarded to the Government of Bombay for information and guidance, and that copies of the Report and of the Resolution be forwarded to the Local Governments and Administrations in the Public Works Department, noted in the margin, for information

The Governments of Madras, Bengal the North Western Provinces and Oudh and the Punjab
The Chief Commissioners Central Provinces and Burma
The Foreign Department for communication to the Resident at Mysore and Coorg
The Resident at Hyderabad
The Agents to the Governor General for Central India and Rajputana.

Ordered further, that this Resolution, and the Resolution by the Local Government, be published in the Supplement to the *Gazette of India*, and that copies of this Resolution be forwarded to Her Majesty's Secretary of State for India

Revenue Report of Irrigation Works in Deccan and Gujarat for 1887-8 — Review of the

No 144 W I —2065 OF 1888

Public Works Department

BOMBAY CASTLE,
13th December 1888

Letter from the Chief Engineer, Central Division, No 2765, dated 7th November 1888

Submits the Revenue Report of Irrigation Works in the Deccan and Gujarat for 1887 88, Parts I and II, with the necessary statements

RESOLUTION —No additions were made to the number of works in operation during the year The list has been re arranged and now includes in all 35 projects of which* 23 are entirely new projects undertaken within the last 25 years † 6 are restorations of old works ‡ 5 are improvements to old tanks, and the remaining§ work is a storage tank to supplement the supply to an old irrigation system which has been further improved by extensions of branches and otherwise

* Nos 1 3 to 11 13 to 15 17 19, 20, 22, 23, 26 to 29 and 33
† Nos 12 16 18 21 25 and 32
‡ Nos 24 30 31 34 and 35
§ No 2

2 The gross area under command of these 35 works, for which Capital and Revenue Accounts are kept, is shown in Statement IV E as 911,129 acres, of which 480,021 acres are shown as the net area irrigable at present, as compared with 456,816 acres in 1886-87

3 The operations of the year may be briefly summarized as follows —

Class I —Works for which Capital and Revenue Accounts are kept —

Capital expenditure		R 5,75,655
Area irrigated		Acres 46,187
Revenue	Assessments	R 3,49,512
	Realizations	„ 3,43,445
Working expenses		„ 2,44,385
Net revenue calculated on assessments		„ 1,05,127
Do do on realizations		„ 99,060

Class II —Works for which only Revenue Accounts are kept —

Area irrigated	Acres 1,43,926
Revenue receipts	R 5 23,453
Expenditure	„ 1,78,089
Net revenue	„ 3,15,364

Total—

Area irrigated	Acres 1,90,113
Revenue receipts	R 8 66,898
Working expenses	„ 4 22,474
Net revenue	„ 4 44,424

4 The Capital outlay was principally on Protective works, as will be seen from the following table which also shows the outlay to the end of the year —

Major Works—	During year	To end of year
	R	R
Productive Works	96,574	1,03,70,773
Protective Works	4,33,108	66,02,186
TOTAL MAJOR WORKS	5,29,682	1,69,72,959
Minor Works	45,973	60,27,823
GRAND TOTAL	5,75,655	2,30,00,782

The outlay includes that on the Chankapur and Maladevi Tanks, and on the second section of the Gokak Canal, which are still in abeyance, and that on the Parsul Tank, a small storage scheme in progress, and as such not included in the list of projects in operation, referred to in para 1

5 The financial results of the year by main heads were as follows —

	Area irrigated	Revenue realized			Working Expenses	Net Revenue
		Direct Receipts	Share of Land Revenue	Total		
CLASS I	Acres	R	R	R	R	R
WORKS FOR WHICH CAPITAL AND REVENUE ACCOUNTS ARE KEPT						
Productive Works	19 701	2,53,423	5,454	2,58,877	1,37,511	1,21,366
Protective Works	11,471	17,912		17,912	38,353	—20,441
Minor Works	15,015	62,308	4,318	66,626	68,521	—1,865
TOTAL	46,187	3,33,643	9,802	3,43,115	2,44,385	99,060
CLASS II						
WORKS FOR WHICH REVENUE ACCOUNTS ONLY ARE KEPT						
Minor Works	143,926	4,182	5,19,271	5,23,453	1,78,089	3,45,364
GRAND TOTAL	190,113	3,37,825	5,29,073	8,66,898	4,22,474	4,44,424

The total shows an increase in area irrigated of 5,629 acres, and in total revenue of R15,689 The working expenses show a decrease of R64,544, and the net revenue an increase of R80,233

6 The most important feature in this comparison is the decrease in working expenses which amounts to 13 per cent The details are as follows —

	Class I		Class II	Total
	Increase	Decrease	Decrease	Decrease
	₹	₹	₹	₹
Works	1,188		2,990	1,502
Repairs	3,559		21 888	21,329
Establishment		1,212	41,142	42,354
Tools	895		1,021	126
Refunds			224	224
Total in Public Works Department	4,730		70,265	65,535
Collection charges	1.9		—753	—1,182
Indirect charges		191		191
Total	4,965		69,512	64,544

Two thirds of the decrease is thus due to reduction in establishment charges which effected a saving of ₹12,354, but to show correctly the extent of economies under this head affecting the finances of the works now under consideration, the debits to Capital should also be taken into account, these amounted to ₹1,16,213, as compared with ₹1,53,143 in the previous year, showing a reduction of ₹36,930 and raising the total saving in establishment charges to ₹79,284 This is due to the amalgamation of duties and reductions effected under the orders of Government, issued in August and September 1887, which were thus in operation for only a part of the year, so that still further reductions may be anticipated in the figures for the current year, which should have an important effect in improving the financial results of the works

7 Taking all class I works together, there was an increase in area irrigated as compared with the previous year of 3,559 acres The average rainfall was 26 35 inches as compared with 28 81 inches in the previous year The increase in area was principally on the Mhaswad Tank (2 517 acres) and Nira Canal (1,066 acres), both Protective Works The revenue *assessments* during the year show an increase of ₹16,037 and the realizations an increase of ₹8,977, as compared with 1886-87 The increase in assessments amounts to 15 per cent

8 The working expenses show an increase of ₹1,968 or 2 per cent, as compared with the previous years Details have already been given (para 6) The explanation given in para 10 of the Chief Engineer's report furnishes satisfactory reasons for this increase

9 The unrealized balance of direct revenue at the close of the year was ₹29,851, as compared with ₹23,739 at the close of 1886 87 The outstandings are principally on the Mutha Canals (₹16,775) and Krishna Canal (₹7,219), and the attention of the Collectors of Poona and Satara respectively should be drawn to the matter

10 The principal crop irrigated was wheat, 9,122 acres, or slightly less than in the previous year Sugarcane shows a considerable increase, namely, 7,032 acres, as compared with 5,239 acres in 1886 87 Rice too shows a steady improvement in area, the figures for five years being—

	Acres
1883 84	1,618
1884 85	2,304
1885 86	3,166
1886 87	4,294
1887 88	5,811

This crop is irrigated principally in the two works in Gujarat, the Hathmati Canal and Khari Cut There was an increase in the area of bajri irrigated,

4,021 acres, as compared with 2,976 acres in 1886 87 The estimated value of the crops irrigated is shown at R29,16,633

11 The details of the assessments were as follows —

	Water rates	Other receipts	Total
	R	R	R
Productive Works	1,48,066	1,15,053	2,63,119
Protective Works	16,691	5,912	22,603
Minor Works	54,788	9,002	63,790
Total	2,19,545	1,29,967	3,49,512

12 The average water rates per acre irrigated were —

	1887 88	1886-87
	R	R
Productive Works	7 52	6 16
Protective Works	1 45	1 34
Minor Works	3 65	3 47
Total	4 75	4 49

Water was given free for an area of 1,229 acres on the Mhaswad Tank, owing to the recent opening of the works

The question of the revision of water rates referred to in para 8 of the Chief Engineer's report is being separately dealt with

13 The following is a detailed statement of the assessments under other receipts —

	1887 88	1886 87
	R	R
Plantations	16,620	13 431
Water power	7,050	
Miscellaneous	96,495	91,690
Share of Land Revenue	9,802	9,551
Total	1,29,967	1,14,672

The receipts from plantations again show satisfactory improvement The item 'water-power' is a new one Of the increase under 'Miscellaneous,' R5,244 is in the item water-supply to Poona The figures under this head for water-supply of Sholapur and Karad should be shown separately in future reports The omission was noticed in the review of last year's report

14 The interest account has been revised in accordance with the orders of the Government of India of July 1887, and now includes interest at 4 per cent per annum on the outlay to the end of the previous year, *plus* half the outlay of the year itself The charge on account of Productive works calculated on this basis amounted in 1887-88 to R3,94,332, against which the net revenue realized was R1,21,366, the loss was thus R2,72,966, whereby the interest account was increased to R54 49,930 No credit is afforded in this account for the saving effected by the Mutha Canal in former outlay for the supply of water to troops and Government Departments in Poona during the year this saving amounted to R22,096

The net revenue shows a decrease, as compared with the previous year, of R2,232, due principally to the outlay on special repairs to the Krishna Canal, which work shows in consequence a deficit of R2,223, instead of a credit of R8,965 as in 1886-87 The principal work of this class, the Mutha Canals, shows satisfactory improvement, the net revenue each year for the past four years having been—

	R
1884 85	66,349
1885 86	83,181
1886 87	1,07,329
1887 88	1,21,827

Under Protective Works the several projects in operation have not had time to develope, and the year's operations show a deficit of R20,441, and the total amount at charge in the interest account was thereby increased at the end of the year to R14,10,109

15 Part II of the report dealing with Class II works, those for which only Revenue Accounts are kept, is meagre and affords little information The figures of outlay from contribution and Patphála funds are not shown, nor is the decrease in expenditure on repairs commented upon As shown in para 6, that decrease amounted to R24,888, of which R3,073 was in Khandesh and R9 054 in Belgaum and Darwar—districts not affected by the orders amalgamating Irrigation and Public Works charges In Ahmedabad, on the other hand, where the charges have been amalgamated, the outlay was larger than in the previous year, while in Kaira and Surat it was less Attention should again be drawn to the especial instructions to Superintending Engineers to see that the maintenance of works of irrigation is as carefully supervised as formerly, and that there is no sacrifice of efficiency

16 The most satisfactory features of the year's operations are—

(*a*) The increase of 8 per cent in area irrigated by Class I works

(*b*) The increase of 15 per cent in the assessed revenue from works of that class, as compared with 7 per cent in the previous year

(*c*) The reduction in the establishment charges from R3,52,765 to R2,73,481, or by 22 per cent

17 The report was submitted a fortnight earlier than last year Copies, with copies of this Resolution, should be forwarded to the Government of India and the Secretary of State

ADMINISTRATION REPORT OF IRRIGATION WORKS IN THE MADRAS PRESIDENCY FOR 1887 88

No 33 I dated Calcutta the 26th February 1889

RESOLUTION—By the Government of India Public Works Department

Read—

Administration Report of Irrigation Works in the Madras Presidency for 1887 88

OBSERVATIONS.—The irrigation works of Madras are divided into four classes Among "Major Works" there is one Protective Work, the Rushikulya Canal, which is still under construction, and nine Productive Works, of which one, the Bahur Tank, though not finished, has begun to bring in Revenue, and one, the Periyar Project, is only just commenced The "Minor Works for which Capital and Revenue Accounts are kept" are seven in number four of these supply irrigation, one, the Buckingham Canal, is purely for navigation purpose, and two are incomplete and almost in abeyance The third class, "Minor Works, of which neither Capital nor Revenue Accounts are kept," and the fourth class, "Agricultural Works," are comparatively small and very numerous It is with the first two classes that the Report for 1887 88 and this Resolution are mainly concerned of the two latter classes, the most important statistics will be given at the close of the Resolution The first class of works—the major works—are provided for out of Imperial Revenues with reference both to Capital and Revenue Expenditure The other three classes of works are entirely provincialised

2 The following statement shows the Capital Expenditure of the year 1887 88 for the construction of works of the first two classes mentioned in the preceding paragraph

	Number of works	Capital expenditure during the year			Capital expenditure to end of the year		
		Direct	Indirect	Total	Direct	Indirect	Total
		R	R	R	R	R	R
MAJOR WORKS							
Protective Works	1	2 54 571	22 346	2 76 917	8 04 761	1 75 029	9 79 790
Productive Public Works	9	11 17 227	1 02 032	12,19 259	4 81 16 694	35 95 304	5 17 11 998
MINOR WORKS AND NAVIGATION							
Works for which complete Capital and Revenue Accounts are made up	5	3 54 543	14 698	3 69 241*	1 08 41 560	9 03 649	*1 17,45 209
GRAND TOTAL	15	17 26 341	1 39 076	18 65 417	5,97 63 015	46 73 982	6 44,36 997

* The above figures (which are taken from Statement 1 B) exclude expenditure on some projects which are under investigation.

The expenditure was mainly incurred as follows

On the Godaveri Canal two lakhs of rupees, and on the Kistna Canal nearly five lakhs, were spent on carrying out towards completion the drainage works and

distributaries, on the Sangam Anicut System a lakh and a half were spent on the extension of branch channels, the Periyar Project was commenced during the year, and 2¾ lakhs expended on it, the Buckingham Canal absorbed a little over three lakhs, of which Rs 80,391 were a grant from Protective Funds, and 2¾ lakhs were spent on the Rushikulya Canal (the one protective work in the table above), which is not completed or opened for irrigation

3 The following table shows the past year's receipts and expenditure (according to the Madras system of calculation, to be explained later on) on the eight Productive and five Minor Works which are in active work, though not yet quite completed to the full extent of which they are capable, the capital outlay up to date, the Net Revenue, and the return it gives on the capital expended

Canal	Capital outlay	Gross Revenue received in 1887-88			Working expenses			Net Revenue	Percentage of return
		Direct	Indirect	Total	Direct	Indirect	Total		
	R	R	R	R	R	R	R	R	
Major Works									
Godavari	1 25 33 814	1 94 307	19 34 731	20 59 038	6 13 003	32 422	6 45 425	14 13 613	11 27

Karnul	2 16 44 705	9 234	54 025	64 260	1 40 184	3 502	1 43 686	—79 424	
Barur	9 23 699		—295	—295	—33	—2	—35	—260	
Periyar	2 74 389								
Total	5 17 11 998	1 86 532	43 65 080	45 51 612	12 79 297	62 761	13 42 058	32 09 554	6 20
Minor Works									
Chembrambakam	7 36 589	49	92 510	32 559	—2 410	—103	—2 513	35 072	4 76
Palar	18 34 496	903	1 27 006	1 27 909	6 381	1 572	67 953	60 406	3 29
Pelandorai	4 38 563	53	6 405	6 458	13 252	339	13 591	7 133	
Buckingham	69 81 016	67 516		67 516	1 32 669	4 175	1 36 844	—69 328	
Madras Water supply	17 04 045	9 446	9 114	18 560	16 317	646	16 963	1 597	0 09
Total	1 17 4 209	77 067	1 75 085	2 30 2	2 25 830	6 599	2 32 438	20 614	0 17

In these figures (which are based on Statement I C) Refunds are deducted from Gross Revenue and the 5 per cent charge for Civil collection is included in working expenses The indirect receipts are the share of Land Revenue credited to Canals and the indirect charges are the liabilities for pension &c

4 The return on the Capital laid out on Productive Works, 6 2 per cent, is very large, the profits on the Godaveri, Kistna and Cauvery Canals being more than sufficient to cover the loss on the one unsuccessful work of this class, the Karnul Canal Among Minor Works the Pelandorai has suffered from a breach of the Anicut, but is expected to recover itself The Buckingham Canal is not likely ever to be a remunerative work

5 But though these returns are compiled from a commercial point of view, to shew the revenue receipts and charges which have reference to the capital invested by Government in the works, they do not pretend to show the real total receipts and expenditure In the areas commanded by all these irrigation systems, except the Karnul and Buckingham Canals, irrigation was practised in a more or less imperfect manner before the time of the British rule, and the object of these accounts is to separate the old irrigation receipts and charges as they stood before the Irrigation Department took the works in hand, from those increased sums which have resulted from scientific treatment and the outlay of Imperial Funds

6 The system under which the Irrigation Revenue in Madras is calculated is an intricate one In the Godavery and Kistna Deltas, the land is assessed as if it were unirrigated, and a water rate is added varying according to the crop sown Elsewhere the land is assessed as irrigated, and a credit is given to Irrigation, being the difference between the actual Land Revenue and what

would have been paid if the land had been dry To this figure is added a "share of enhanced Land Revenue," of which the following details are given in the separate Canal Reports

	R
Assessment on Waste Lands brought under irrigation	4,02,918
Increment to Land Assessment after lands were brought under irrigation (Kistna Canal only)	40,438
Miscellaneous	16,778
TOTAL	4,60,134

From the irrigation revenue is deducted the estimated amount of Revenue due to old irrigation before the works constructed by the British Government came into operation (Rs 29,25,803), and a further charge of 5 per cent is deducted from the balance, to represent the cost of collection which is borne by the Civil Department The figures for the year drawn out on the above system are as follows

	Productive Works (8)	Minor Works for which Capital Accounts are kept (4)
	R	R
Water rates and share of Revenue due to Irrigation Revenue	66,96,378	3,11,683
Share of Enhanced Revenue	4,45 270	14,864
Less refunds	2,227	
TOTAL REVENUE DUE TO IRRIGATION	71,39 421	3,26,547
Deduct share due to old Irrigation	27,74,341	1,51,462
Balance credited to Irrigation Department	43 65,080	1,75,085

7 In the following table are shown the true irrigation receipts, calculated as above derived from each canal the area irrigated and the return per irrigated acre The figure shewn in the third column is the area "effectively irrigated," both for first and second crops, *i e*, on which crops have been raised and on which no remission of Revenue has been allowed, not the area "occupied," as it is called in the Report, which is slightly larger and includes all the land reached, although imperfectly, by irrigation

	REVENUE DERIVED FROM IRRIGATED LANDS		AREA IRRIGATED		RATE PER ACRE	
	1887 88	1886 87	1887 88	1886 87	1887 88	1886 87
	R	R	Acres	Acres	R	R
Godaveri	20,59,064	19,97,781	608,696	598,236	3 3	3 3
Kistna	14,66,935	12,68,736	387,505	337,419	3 8	3 7
Cauvery	29,06,778	30 92 972	937,634	1,006,626	3 1	3 0
Pennei	2,55,939	2,51,061	64,987	63,480	3 9	3 9
Sivaikuntham	1,86,791	1 90,929	40,632	40 078	4 5	4 7
Sangam	2,06,786	1,85,943	51,893	47,421	3 9	3 9

Barur	2,105		492		4 2	
TOTAL PRODUCTIVE WORKS	71,39,421	70,40,854	2,113,766	2,115,936	3 3	3 3
Chembrambakum	48,868	57,380	16,186	19,402	3 0	2 9
Palar	2,47,673	2,45,780	91,479	89,763	2 7	2 7
Pelandoiai	9,741	9,271	3,763	3,632	2 5	2 5
Madias	20,265	20,788	9,235	9,684	2 1	2 1
TOTAL MINOR	3,26 547	3,33,169	120,663	122,481	2 7	2 7
GRAND TOTAL	74,65,968	73,74,023	2,234,129	2,238,417	3 3	3 2

The Godaveri and Kistna systems shew a steady increase The only considerable decrease in area and revenue is in the case of the Cauvery Canal, and is due to the transfer of some irrigation works in the Trichinopoly District to the head of Minor Works

8 The "Direct" Revenue is made up of the following items, the receipts are compared in the table below with those of the preceding year

	1887 88	1886-87
	R	R
Navigation	2,04 546	1,77,694
Plantations	7 589	7,907
Miscellaneous	53,988	56,138
Less Refunds on the Buckingham Canal	—1,624	—68
TOTAL	2,64 499	2,41,071

Plantations bring in a Revenue only on three canals, the Godaveri, Kistna and Cauvery Navigation is a source of Revenue on four canals, and the receipts and expenditure are compared in the table below

	Length of navigable channel	Receipts		Expenditure		Value of goods	Ton mileage
		1887 88	1886 87	1887 88	1886 87	1887 88	1887 88
	Miles	R	R	R	R	R	
Godaveri	456	1 04 374	88 505	70 435	66 892	1 64 20 527	7 626 847
Kistna	281	31 798	26 909	58 246	91 406	1 90 84 039	11 981 285
Karnul	190	1 873	4 518	26 276	16 887	5 27 412	
Buckingham	262	66 501	57 762	99 657	79 783	1 62 05 222	21 356 278
TOTAL	1 189	2 04 546	1 77 694	2 54 614	2 54 968	5 22 37 200	40 964 410
Corresponding figures of previous year						3 60 53 703	31 559 419

The receipts have increased, but navigation is still a very losing business on the Karnul and Buckingham canals

9 The following table shows the details of the working expenses of the 13 chief canals, the totals of which have already been shewn in para 3

	Productive works	Minor works	TOTAL	Productive	Minor	TOTAL
	1887 88		1887 88	1886 87		1886-87
	R	R	R	R	R	R
Establishment, Public Works Department	3,93,223	46,486	4,39,709	3,80,675	44,875	4,25,550
Establishment, collection charges by Civil Officers	2,15,551	8,754	2,24,305	2,05,379	9,298	2,14,677
Works and Repairs	5,91,267	1,66,963	7,58,230	5,89,524	1,61,787	7,51,311
Tools and Plant and Miscellaneous	79,256	3,636	82,892	77,478	3,714	81,192
Indirect	62,761	6,599	69,360	59,839	6,282	66,121
TOTAL	13,42,058	2,32,438	15,74,496	13,12,895	2,25,956	15,38,851

The outlay on Works and Repairs and on Tools and Plant and Miscellaneous is very nearly the same as in the preceding year The other items are establishment charges, and are more or less hypothetical The second item is the charge of 5 per cent before referred to, calculated on the water-rates and Irrigation revenue collected by Civil Officers, after deducting the old Irrigation receipts

The "Indirect" figures are a calculation of liability incurred for the furlough pay and pensions of the staff employed

10 To obtain the real cost of working, however, it is necessary to add in the old "Maintenance charges" which correspond to the "old Irrigation receipts," and are an allowance made for the expenditure which used to be incurred on Irrigation before the present Government works were constructed

These old maintenance charges are partly fixed and partly varying The fixed charges are—

	₹
Extensions and improvements	10 039
Repairs	1,30 972
Establishment at 23 per cent on works	32 433
Indirect charges for ditto	4,540
	1,77,984

The varying charges are—

	₹
Collection charges at 6 per cent on indirect Revenue (on the Productive Works alone)	1,66,461
Indirect charges on above at 14 per cent	23,305
Tools and Plant	2,115
	1,91,881
TOTAL* OF OLD MAINTENANCE CHARGES	3,69,865

Adding this figure to the total charge given in the preceding para, Rs 15,74,496, the real sum total of the working expenses on these thirteen canals, including the old maintenance figures, amounted to Rs 19,44,361

11 Calculated in this way the working expenses of the irrigating Canals (the Buckingham Canal is here excluded) fall at the following rates per irrigated acre The irrigated area is taken at the same figure as in para 7

	Total Working Expenses	Irrigated area	Rate per acre
	₹	Acres	₹
Godaveri	6,53,930	608 696	1 07
Kistna	4,17,779	387,505	1 07
Cauvery	3,44,505	937,634	0 36
Penner	42 982	64 987	0 66
Sivaikuntham	35,296	40,632	0 86
Sangam	57 987	51,893	1 11
Karnul	1,43,686	21,927	6 55
Barur	129	492	0 26
TOTAL PRODUCTIVE WORKS	16,96,094	2,113,766	0 80
Chembrambakum	4,359	16,186	0 26
Palar	71,495	91,479	0 78
Pelandorai	13,741	3 763	3 65
Madras	21,828	9,235	2 36
TOTAL MINOR	1,11,423	120 663	0 92
GRAND TOTAL	18,07,517	2,234,429	0 80
TOTAL FOR 1886 87	18,02,441	2,238,417	0 80

* On page 67 the total is given as Rs 3,13 020 but the indirect charges are omitted there

12 The total sum charged as Public Works establishment during the last two years is shown below

	1887 88	1886 87
	R	R
Capital Account	2,74,668	2,89,869
Working Expenses of Major and Minor Canals of which Capital Accounts are kept	4,39,709	4 25,550
Minor works of which separate accounts are not kept	4,18 949	5,32,690
Agricultural works	73 091	68 083
	12 36 417	13,16,192

The system under which this charge is made is a complicated one The Executive staff of the Public Works Department in Madras is for the most part employed indiscriminately on Irrigation works, on Military Works and on Imperial and Provincial Civil Works, and the cost is distributed according to certain rules between these different heads, the charges for Direction and Accounts are similarly divided The only establishment which is solely engaged in Irrigation work is the staff employed in the survey and preparation of the Tank Restoration schemes and the Dowlaishwaram Workshops, the whole of its cost is charged against those works Under the first head, Capital Account, a charge is made for establishment amounting to 23 per cent on the outlay on works excluding cost of land Under the second head the charge is the result obtained from the application of three ratios, 23 per cent on expenditure, 10 per cent on direct Revenue (*i e*, Navigation, Plantations and Miscellaneous) collected by Canal Officers themselves, and 6 per cent on indirect Revenue (*i e*, the canal share of the Land Revenue deducting old Irrigation receipts and deducting what is shown as share of enhanced Land Revenue)

On the Minor Works (other than Tank Surveys) and Agricultural Works, it is calculated in the same way at 23 per cent on expenditure and 10 per cent on direct Revenue, but no charge is here made for indirect Revenue except in the case of old Maintenance Works, and there it is only made for the Major Productive Works, not for the indirect Revenue of the Minor Works

13 The result of this method of calculation is that no conclusion can be drawn from the figures above, showing the increase or decrease of the charge for establishment, as to whether there has been any real rise or fall in the costliness of the staff The charges debited to the Irrigation Department depend almost entirely on an arbitrary ratio calculated on the amount spent on Works and Repair, and on the direct and indirect payments made for the use of water The cost of the whole Public Works Establishment of the Province must be known before it can be seen whether there has or has not been an increase in any particular year

14 Turning now to the separate Canal reports, the following items are selected as of general interest

Floods and Breaches —One flood in the Cauvery River was of exceptional height It rose to 13 feet above the crest of the weir in October 1887—a height which has only been exceeded by a few inches on two previous occasions No injury resulted from this flood In the other rivers the floods were generally moderate Some damage was done in the central division of the Godaveri system by breaches in river embankments There was also a breach in a flood bank near Lock 15 on the Kurnul Canal

Barur Tank —This tank was opened for irrigation to a small extent in October 1887 The work is not complete The area irrigated and the revenue derived were both insignificant

Periyar —Funds for the commencement of the Periyar Project were first allotted in August 1887 The work was commenced almost immediately, and R2,70,995 for direct charges was expended during the year An officer was specially deputed to England to arrange for the purchase of the necessary plant The estimates for the head works were revised without any increase in the total sum ;

the forecast statements of the project were also recast, with the result that the ultimate revenue is expected to give a return of 8 53 instead of 7 80 per cent, which was formerly estimated

Kurnul—The financial position of this Canal is in the last degree unsatisfactory, not only did the Revenue fall off during the last year, and the irrigated area decrease, but at no time since the Canal was bought by Government has it been worked except at a heavy loss There is a loss both in navigation and irrigation, and while the irrigation return is R2 5 per acre irrigated, the cost of working expenses falls at Rs 6 5 per acre and there is no prospect of any material improvement The total estimated value of the crops raised under irrigation, Rs 2,48,350, does not largely exceed the sum which it costs Government to supply the water The revenue expenditure on works and repairs alone (Rs 1,11,780) is nearly double the income earned by the Canal It would appear that it might be economical to close the canal as an irrigating system, merely keeping it in repair so as to be ready to be put in working again if a season of drought should create a sudden demand for the water

The Governor General in Council trusts that the Government of Madras will consider this question, and formulate such proposals as may seem to them expedient with a view to putting a stop to the constant drain on the Treasury which the maintenance of the Canal on its present footing entails

15 The third class of works mentioned in para 1—Minor Works of which neither Capital nor Revenue Accounts are kept are numerous and mostly small, their exact number is nowhere stated They are divided into three classes, those of which a continuous record is kept individually, in nine Districts, those of which a continuous record is kept collectively, in 19 Districts, and those which are under Revenue Management, in 19 Districts

Here again, as elsewhere, the accounts are kept in an intricate fashion The statements on pages 72—3 and page 61 shew that the area irrigated by these works (both crops included) was 3,607,321 acres, the Irrigation Revenue Rs 94,74,377, and the Expenditure Rs 17,19,698, or, deducting the Tank Restoration scheme, referred to later on, Rs 13,59,643 But this expenditure includes the old maintenance charges, Rs 3,42,020, already dealt with as belonging to the Major and Minor Works, while it does not appear that the old irrigation receipts, Rs 29,25,803, have been included in the Irrigation Revenue Again, the expenditure as stated on pages 72—3 and page 61 does not include indirect charges (Rs 35,008) nor the 5 per cent charge for Civil collections, Rs 4,73,719 (*vide* page 7, columns 13 and 8), and adding these the total amount of working expenses, as calculated on the Madras system, appears to be Rs 15,26,350 Of this total, Rs 4,80,678 is debitable to the works under Revenue Management and the balance, Rs 10,45,672, to those under Public Works Department Management

16 The true figures appear therefore to be as follows

	Irrigated area	Irrigation revenue	Rate per acre	Working expenses	Rate per acre
		R	R	R	R
Works managed by Public Works Department Officers	1,910,230	55,62,653	2 91	10,45,672	54
Works managed by Revenue Officers	1,697,083	39,11,724	2 30	4,80,678	28
TOTAL MINOR WORKS	3,607,321	94,74,377	2 62	15,26,350	42

The total area irrigated was made up of 2,794,534 acres of first, and 812,757 acres of second crop These figures shew an improvement of about five per cent both in area and in revenue over those of the previous year The receipts from these works were made up of R11,192 of direct, and R94,63,185 of indirect revenue

17 The total area irrigated by all the works in Madras in 1887 88 may be thus stated

	First crop	Second crop	Total
	Acres.	Acres	Acres
Major Works	1,985,739	128,027	2,113,766
Minor Works (of which Capital and Revenue Accounts are kept)	91,918	28,745	120,663
Minor Works (of which Capital and Revenue Accounts are not kept)	2,794,534	812,757	3,607,321
Total	4,872,191	969,529	5,841,720
Corresponding figures of 1886 87	4,738,409	985,234	5,723,643

18 During the year under review the organization of the system of working under the Tank Restoration Scheme was remodelled Five survey parties were organized during the year to work in the districts of Madura, Chingleput, Kurnul, Coimbatore and North Arcot, respectively These parties, for an expenditure of R87,388, surveyed and prepared schemes for restoring 210 works at an estimated expenditure of R2,15,662, it was estimated that the area irrigated by the works in question would be increased from 26,645 to 29,680 acres, and the revenue from R1,10,824 to R1,36,376 On carrying out the schemes prepared in previous years, R2,72,667 were expended, for this sum about 200 tanks were restored and 25 anicuts and 100 sluices were completed, or nearly completed The grant for this class of work in 1888 89 has been fixed at 6½ lakhs of rupees, and it has been arranged that the actual financial results obtained by the expenditure shall be recorded

19 The fourth class of works, called "Agricultural" in Madras are mainly undertaken for the purpose of directing and controlling the rivers, during the year under review R4,04,598 was expended and R8,896 direct revenue received on account of these works The former figures contained an adjustment of R2,193 on account of Imperial charges, so that the actual expenditure was R4,06,791 which was distributed as follows

	R
River conservancy	1,06,484
River embankments	2,98,689
Drainages	718
Miscellaneous	920
Total	4,06,791

These figures include Establishment and Tools and Plant Rather more than one-third of the expenditure was on original works and the remainder on repairs

20 The Report was received by the Government of India on the fourth of December 1888 or six days later than in the previous year The general arrangement of the Report and its complete illustration by maps are excellent, but it would be convenient if each canal system had its formal number and if that number were adhered to throughout in the statements and in the order of the separate Reports The Madras Government will be separately addressed regarding the complexity of the accounts which has been noticed in this Resolution, if on further consideration any mode of simplifying them suggests itself to the Government of India

ORDER.—Ordered, that copies of this Resolution and of the Report be forwarded to the Finance and Commerce and Revenue and Agricultural Departments, for information

Ordered also, that copies of this Resolution be forwarded to the Government of Madras for information and guidance, and that copies of the Resolution be forwarded to the Local Governments and Administrations in the Public Works Department, noted in the margin, for information

The Governments of Bombay Bengal the North Western Provinces and Oudh, and the Punjab, in the Public Works Department
The Chief Commissioner of the Central Provinces
The Agent to the Governor General for Rajputana

Ordered further, that this Resolution be published in the Supplement to the *Gazette of India*, and that copies of this Resolution be forwarded to Her Majesty's Secretary of State for India

J G FORBES, *Colonel, R E,*
Offg Deputy Secretary to the Govt of India

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weather Summary for January, 1889.

As pointed out in last month's report, January is usually an unsettled month in Northern India This is due to the occasional occurrence of cold-weather storms, the chief characteristics of which were stated in last month's report. The great majority of these storms belong to two classes The first class comprise those depressions which first show themselves in the north or north-west of the Punjab They are frequently deep depressions, but are generally short-lived, and are either stationary or move slowly in a south-east direction along the Himalayas for a short period and then fill up They give more or less heavy rain to the Punjab and snow to the adjacent mountains, but their effects are chiefly confined to Upper India The second class of storms include the usually much shallower depressions, which appear on the north-west frontier in Upper Sind, and which probably, in the great majority of cases, advance from Beluchistan As compared with the previous, they are frequently remarkably persistent and traverse the whole breadth of the Peninsula, passing sometimes into Upper Burma, where they fill up or disappear Occasionally small depressions also form in Central India or the Central Provinces These are generally very shallow and are less persistent than the previous, but usually march in the same general east-south easterly or easterly direction, and disappear after an existence of one to three days They sometimes give moderately heavy rain to Central India, the Central Provinces, and Behar Several disturbances have occurred during the month, the majority of which were unusually feeble, and gave little rain in Upper India The two last disturbances of the month were however large and gave fairly general rain to the greater part of Northern India, but were chiefly remarkable as being examples of double storms, that is, of the combination of a storm of the first and of the second class, originating separately and co-existing as independent disturbances for some days

At the commencement of the month fine weather with normal anti-cyclonic conditions prevailed in Upper India On the morning of the 4th a small and very shallow depression, similar to those of the preceding month, appeared in Sind It moved eastwards during the day, filling up with its advance, but caused some disturbance in the Punjab Himalayas on the 5th which gave light to moderate snow to the higher elevations Anti-cyclonic conditions were again established in Upper India on the 6th and continued until the 8th Weather was slightly unsettled during this period in Southern India, and many thunderstorms occurred in Southern India, which gave light to moderate rain in South Madras, Mysore and Ceylon, on the 6th, 7th and 8th The barometer began to fall briskly on the

afternoon of the 8th in Upper Sind and Beluchistan, and a very shallow depression was formed on the 9th, which followed the same course as the previous disturbance and gave moderately heavy snow to the Punjab Himalayas on the 10th, and brought the snow line down to below 9,000 feet The weather continued somewhat disturbed in Northern India for three days longer, and light showers fell at the hill stations on the 12th, and in Behar, Chutia Nagpore and Central Bengal on the 13th Pressure increased steadily until the 17th, when very strongly marked anti-cyclonic conditions, with fine clear, cool weather and strong westerly or north-westerly winds, prevailed over the whole of Northern India The highest pressures of the month were recorded on the morning of the 17th, the absolute maximum being 30 38″ at Peshawar No change of importance occurred until the 22nd, when the barometer fell briskly in North Western India The disturbance then initiated differed considerably in character from the previous There were two separate areas of disturbance in which the barometer fell rapidly, and more or less general rain was received The first included the Punjab Himalayas and adjacent plains from Sealkot to Roorkee, and the second comprised the greater part of Rajputana and Indore The disturbance in the Punjab passed away after giving moderate snow in the hills on the afternoon of the 23rd and light showers in the adjacent plains That which originated in Rajputana drifted during the next two days eastward into East Bengal and Burma, and gave moderate general rain to the North-Western Provinces, Central India, and light local showers in Behar, Bengal, and Assam A short interval of fine weather followed until the afternoon of the 27th, when the first large and important cold weather storm of the present season was initiated It was like the previous a double disturbance It consisted in part of a shallow depression which passed into Sind from Beluchistan on the 28th and advanced in an east-south east direction across the head of the Peninsula during the next three days into Upper Burma, to which it gave cloudy weather on the 1st February It apparently filled up very slowly in that area and gave low pressure in Burma until the 5th The appearance of this depression in Sind on the 28th was followed on that day by a very rapid fall of the barometer in the North Punjab and the formation of an independent deep depression, the centre of which was to the north of Rawalpindi and Peshawar on the morning of the 29th It intensified considerably during the day and marched slowly to the south east along the hills, to which it gave very stormy weather and heavy snowfall during the next forty eight hours A very rapid rise of the barometer set in on the 31st, and the depression filled up very rapidly This deep depression very largely modified the distribution of pressure over the whole of North-Western and Central India, and obscured the shallow depression in Central India on the 29th and 30th, but with the disappearance of the former on the 31st, the latter again became clearly marked and formed the chief feature of the weather during the next two days The double disturbance gave a large general and much needed supply of rain to the greater part of Northern India, including the Punjab, Rajputana, Central India, the North-Western Provinces and Behar, and showers in Bengal A considerable portion of the rainfall due to the storms occurred on the 1st and 2nd in Bengal, and hence only a part of the rainfall due to the disturbance is included in the returns of the past month

Pressure —The mean pressure of the month for the whole of India was 017 above the normal The excess was greater at the hill stations than at the adjacent plain stations Relatively to this general state pressure was in defect over the whole of Northern and Central India (with the exception of the North Punjab) The line of greatest relative depression was defined by the following stations —

	Relative deficiency
Deesa	020″
Nowgong	015″
Allahabad	016″
Patna	018″
Dhubri	019″

A second axis of depression apparently ran along the Himalayas, being indicated by the negative anomalies at the following stations —

Gorakhpur	021″
Mooltan	012″
Ludhiana	027″

Pressure was relatively to the general state in excess over the whole of the Peninsula The relative excess was greatest at the following stations, *viz* —

Belgaum	+ 022
Bellary	+ 023
Salem	+ 029
Trichinopoly	+ 020
Madura	+ 021
Cochin	+ 025

A reference to last month's report will show that the more prominent features of the pressure variations of the month of January were identical in character with those of the previous month, but were smaller in amount It will thus be seen that the larger pressure abnormal variations or anomalies have been remarkably persistent for some time, and the probable distribution of the cold-weather rains of the months of January and February, based on this strongly marked distribution of pressure given in last month's report, has been fully confirmed up to the present date

Temperature —In consequence of the unusual prevalence of anti cyclonic conditions, and the absence of large cold-weather storms until the end of the month, the mean temperature was considerably in excess The following table gives the variation of the mean maximum, minimum and daily temperatures from their normal values in different districts —

	Maximum °	Minimum °	Mean °
Burma	+1 8	+0 5	+1 1
Bengal	+1 7	+1 7	+1 7
North Western Provinces	+2 3	+2 0	+2 1
Punjab	+1 0	+0 7	+0 8
Berars	+5 2	+2 2	+3 7
Central Provinces	+5 0	+3 0	+4 0
Central India and Guzerat	+3 4	+3 0	+3 1
Rajputana	+2 3	+1 5	+1 9
Bombay	+3 0	+0 1	+1 5
Madras	+0 5	—1 0	—0 2

Hence the figures have been most prominent in the Central Provinces and Central India, where the mean temperature of the month was four degrees above the normal

One of the more remarkable feature of the month has been the frequent inversion of the normal temperature relations between the plains and hill stations On about eleven nights of the month the lowest night or minimum temperatures of the hill stations were very considerably higher than those of the neighbouring stations in the Gangetic plains It will suffice to give one example—

Hill Stations	Minimum or lowest Temperature of night of 2nd January °	Plain Stations	Minimum or lowest Temperature of night of 2nd January °
Murree	49 3	Rawalpindi	36 9
		Dera Ismail Khan	36 9
		Sealkot	41 1
Simla	48 4	Lahore	37 2
		Sirsa	39 2
Ranikhet	50 0	Delhi	40 1
		Roorkee	36 6
		Meerut	39 0
		Bareilly	39 8
		Agra	43 6
		Allahabad	42 7
		Benares	41 9
		Patna	46 9
		Calcutta	48 8
		Silchar	47 5

These figures show that not only was the night temperature of the hill stations from 8° to 13° higher than that of the adjacent plains, but that it was actually higher than over the whole Gangetic plain down almost to the sea in Bengal

This, it may be added, is one of the most remarkable examples that have occurred during recent years of the peculiarity of the weather at the hill stations in the months of December and January, *before the occurrence of heavy snow* The only satisfactory explanation appears to be that the high night temperatures are due to an indraught of comparatively warmer air to the hills from the strata above the plains at the level of the hills

Rainfall—The preceding remarks have stated the conditions under which the rainfall of the month has occurred The cold-weather rainfall of the present season up to date has been abundant over the whole of Northern India, but the first heavy rainfall of the season occurred somewhat later than usual The rainfall of the month has been especially abundant in the Punjab, North-Western Provinces, Behar and Northern Bengal, which areas have received at least double their normal amounts The excess is relatively greatest in Behar and North Bengal The Central Provinces, Berar, Khandesh, Guzerat and Orissa which usually receive some light showers were practically rainless during the month No rain fell in Lower Burma and the Konkan In the remaining districts, including Rajputana, Assam, Lower Bengal Malabar, Mysore and Madras, the rain fall of the month was not large in amount, and was either normal or slightly in defect

The following table shows the actual average rainfall and the normal rainfall of the month of the twenty one districts into which the country is divided, so far as it is indicated by the telegraphic reports of a few stations in each district —

Districts	Number of Stations	Normal average rainfall in January	Actual average rainfall in January 1889	Difference from the average in January 1889.
Punjab, West	7	1 48	3 04	+1 56
" East	4	1 58	2 68	+1 10
North Western Provinces, Trans Gangetic	7	1 35	2 46	+1 11
North Western Provinces, Cis Gangetic	3	0 67	0 49	—0 18
Behar	2	0 55	1 40	+0 85

JOHN ELIOT,

Offg Meteorological Reporter to the Government of India

SIMLA,

The 13th February 1889

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and prospects of the Crops.

Madras —*For week ending 23rd February, 1889* —Rainfall very slight in Madura, Tinnevelly, Nilgiris, and Malabar, none elsewhere More rain wanted in Ganjam, Vizagapatam, Trichinopoly, Tinnevelly, Coimbatore, and Salem Standing crops generally good, but withering in parts of Coimbatore, Cuddapah, Trichinopoly, and Tinnevelly, affected by disease in parts of Salem and Bellary Pasture deficient in Coimbatore, Salem, and Tinnevelly Prices rising in eight districts, falling in six, and stationary in others General prospects favourable except in Ganjam and Coimbatore Labourers employed on last day of week on Rushikulya works 5,138, on Gopalpur Canal 8,593

Bombay —*For week ending 27th February, 1889* —Slight rain in parts of Karachi and Shikarpur Late crops in three taluks of Surat and Poona and one of Kanara unsatisfactory, exotic cotton and wheat in parts of Dharwar blighted and cotton in one taluka of Baroda damaged Opium in Baroda good Harvesting progressing generally Probable outturn of wheat in Broach three annas and of early crops in Dharwar nearly eight annas on average Fodder scarce in Khandesh and Nasik and in parts of Poona, Ahmednagar, and Kathiawar Prices of food-grains rising in two talukas of Nasik.

Bengal.—*For week ending 26th February, 1889* —Fairly general rain, accompanied by local thunderstorms, fell over the greater part of the province on the 19th and 20th instants The condition of the *rabi* and poppy crops is generally satisfactory, although in Behar some damage has been done by rain and hail In Sarun the hail at the end of January did considerable damage to poppy, the loss in the Sewan sub-division being estimated at 750 maunds and in the Sudder sub division at 100 maunds The *rabi* crops are ripening, and the earlier sorts are being harvested Poppy is in flower, and the collection of opium has begun in some districts The sugarcane harvest is proceeding with a fair outturn Spring rice seedlings are growing well Preparation of lands for the jute and autumn rice sowings is in active progress In Behar *cheena* and *mung* are being sown and are germinating satisfactorily, and the cultivation of indigo lands is going on The latest report regarding the affected tract in the Patna division shows that rain has done much good in providing employment in the fields for the working populaton, that it has not yet been found necessary to give gratuitous relief except upon a very limited scale, and that the grain-stocks continue to be sufficient and the prices stationary with a downward tendency

North-Western Provinces and Oudh —*For week ending 27th February, 1889* —Rain fell during the week in most districts Some injury to crops from rust, sunshine needed Prospects fair Sugarcane-pressing continues Poppy in flower Prices have fallen in several districts, but fodder scanty and dear in places

Punjab —*For week ending 27th February, 1889* —Rainfall good and general throughout the Province Prices unsettled in Peshawar, stationary in Hissar, Amballa, Jullundur, and Amritsar, falling elsewhere Ploughing for *kharif* commenced in Hissar, Jullundur, Lahore, and Shahpur The crops have been greatly improved by recent rain Certain crops damaged in Amballa and Amritsar in consequence of heavy rains Stock cattle are reported healthy Fodder sufficient except in Hissar and in parts of Multan and Rawalpindi Supply improving in Dera Ismail Khan Poppy weeding in progress in Jullundur.

Central Provinces —*For week ending 27th February, 1889* —Weather cloudy and warm Crops benefited by recent rain in Saugor Hail has injured

gram crop in Hoshangabad, prospects otherwise unchanged Reaping of winter crops commenced

Burma —*For week ending 23rd February, 1889* —Slight rain fell in Moulmein and Amherst, Bhamo and Myadaung, Crop prospects remain good The price of paddy shows very little fluctuation,

Assam.—*For week ending 27th February 1889* —Weather warmer Slight rain in almost all districts Sowing of early rice continues Mustard is still being gathered and sugarcane pressed Tea doing well

Mysore and Coorg —*For week ending 27th February, 1889* —No rain in Mysore. Standing crops in good condition, except in parts of Kolar district where want of rain is felt Sugarcane being planted in parts Outturn of crops harvested generally fair Pasturage diminishing in parts of the Kolar and Mysore districts Prices slightly fallen in the Kadur district

No standing crops in Coorg

Berar and Hyderabad —*For week ending 27th February, 1889.*— Harvesting of *rabi* crops in progress in Berar. Prospects favourable Agricultural stock in good condition Fodder and water insufficient in some districts. Prices the same as last week

No rain during the week in Hyderabad. Harvesting of *rabi* crops commenced Weeding of *tabi* crops continues. Prices stationary

Central India.—*For week ending 27th February, 1889* —Baghelkund and West Malwa report this week that fall of rain is now sufficient Crops in Bhopal somewhat damaged by heat Condition of agricultural stock improved in Goona and Bundelkund Prices of food grains falling in Neemuch

Rajputana.—*For week ending 27th February, 1889* —Rainfall partial Agricultural operations satisfactory Standing crops good, slightly damaged in Kishengurh and Dholepur Agricultural stock good Pasturage or fodder sufficient, except in Marwar, Kherwara, Dholepur and parts of Jeypur Prices steady generally

Nepal —*For week ending 21st February, 1889* —Slight rain with hail during the week. Weather cloudy Wheat progressing Potatoes are being sown

E C BUCK,
Secretary to the Government of India

GOVERNMENT OF INDIA

PUBLIC WORKS DEPARTMENT

RAILWAY TRAFFIC

No XLIV OF 1888 89

APPROXIMATE STATEMENT OF GROSS RECEIPTS AND EXPENSES OF INDIAN RAILWAYS.

Captain C Herbert, Officiating Political Assistant of the 1st class, is posted as Assistant Commissioner of Ajmere

Rae Bishen Sarup, Deputy Magistrate of Kekri, is appointed, temporarily, to hold charge of the current duties of the office of Assistant Commissioner of Merwara, with effect from the date of assuming charge, and until further orders

No 516 *E* —The following regulations, which have been issued by order of His Majesty the Shah of Persia, are published for general information —

The Persian Government in order to facilitate commerce, increase her riches and render her lands profitable, has opened the River Karun, subject to the following regulations, and has allowed the navigation from Muhammereh to Ahwaz, to the mercantile marine of all nations The vessels navigating the Karun will carry out the regulations of the Government, which regulations shall hold good for ten years without fail, after which they will be altered according to the exigencies of circumstances

(1) The commercial steamers of merchants of friendly Governments must not remain at the landing-places or in the river longer than necessary for the purpose of loading, unloading, and provisioning themselves for the journey

(2) Persons whose presence is detrimental to order and who would cause difficulties by their presence, should not be in the vessels, whoever comes should be provided with a passport from

his own Government, otherwise if any one arrives without a passport, it is impossible to understand what his business may be

(3) Under no pretext whatsoever will any vessel have the right to protect any Persian subject in any way

(4) The transport of arms is absolutely prohibited and if this rule is disregarded, the arms will be seized

(5) No explosive goods whatsoever shall be transported

(6) Shipowners shall not erect any buildings whatsoever, such as coal depôts warehouses, shops, caravanserais or manufactories, &c, on the banks of the river

(7) For the storage of merchandise and coal, depôts and warehouses as well as landing places in sufficient quantity will be constructed on the part of the Persian Government or Persian merchants

(8) Ordinary just rates to be paid by the shipowners will be fixed for the hire of the depôts and warehouses

(9) The store keeper of the coal stores shall be Persian subjects

(10) The ships shall not proceed higher than Ahwaz

(11) For the merchandise depôts a trustworthy man shall be chosen in Persia and another shall be chosen on the part of the whole of the shipowners, together they shall look after the depôts

(12) The watchmen of the depôts such as guards, &c shall all be appointed by the Persian Government

(13) No one belonging to any vessel has any right whatsoever to buy, sell or mortgage, &c, any property from or to any Persian subject

(14) From the vessels navigating the Karun to Ahwaz for the going and coming, if a steam vessel a tonnage of one kran per ton and if a sailing vessel ten shahis as toll and right of way will be levied Unladen vessels shall pay half tolls Sailing vessels belonging to Persian subjects under 30 tons will be exempted from these dues

(15) Porters for the porterage from the landing places to the vessels and from the vessels to the landing places shall be provided by the Persian Government, who will keep a register of them and supply them with a badge

(16) When a Persian subject, who with the permission of the Persian Government has entered the service of the vessels renders himself liable to the law his trial and punishment shall be conducted by the Persian representative without any interference

(17) With reference to the flags of the vessels, they will be regulated by the general maritime laws on the subject

(18) Employés of the vessel are prohibited from lending Persians generally any sums of money in excess of two Tomans, trading being excepted

(19) No friendly Government has any right whatsoever to interfere with the depth, course or bed of the river

(20) The number, names and employment of persons who, with the permission of the Government, are employed on the vessels of friendly Governments shall be entered in the Government books and should have a Persian passport, otherwise they are not allowed to take service

(21) As this permission to the mercantile marines of friendly Governments to navigate the Karun is solely for the purpose of facilitating and stimulating trade and nothing else, on this pretext no political discussion, &c, will be allowed

(22) The regulations obtaining regarding wrecks on shores generally shall govern such cases, and the salvage shall be paid to the natives of the shore

(23) Dangerous goods, such as arms, &c, shall not be sold by the employés of vessels to Persian subjects, nomads or tribes, if sold, they will be seized and their value returned

(24) Should any one vessel of a friendly power violate these regulations, if a steamer 600 Tomans and if a sailing vessel 300 Tomans fine will be inflicted and the vessel shall be prohibited from the navigation for two years

The 8th March, 1889

Secretary to the Government of India

DEPARTMENT OF FINANCE AND COMMERCE

NOTIFICATION

PENSIONS, &C

Calcutta the 5th March, 1889

No 1061

RESOLUTION—By the Government of India Department of Finance and Commerce

Read—

No 4047 dated 24th July 1888

Resolution by the Government of India Department of Finance and Commerce

By the Resolution in this Department of the 18th April 1884 special additional pensions of Rs 1 000 and Rs 1 000 respectively were authorised as rewards for approved service for Civil Engineers who might render three years service as Chief Engineer or as Superintending Engineer It was not however decided whether the service qualifying for these special pensions must be substantive service or whether periods of temporary service might be included On this question being raised the opinions of selected officers were obtained and submitted to the Government of India and after consideration of them and in accordance with the principle laid down in the Civil Pension Code that two officers cannot count service for pension at one time in the same appointment the Secretary of State was requested to allow active service both substantive and temporary to count as service qualifying for these special pensions periods of furlough being excluded

RESOLUTION—This proposal has been sanctioned by Her Majesty's Secretary of State for India In future therefore all service whether temporary or substantive will count as service towards the extra pensions but periods passed on leave other than privilege leave will be excluded

Periods of three months and under during which an officer merely officiates as a purely temporary measure will not count

2 It is important however to bear in mind that these extra pensions cannot be claimed as matter of right but that they will only be granted at the discretion of the Government of India, as rewards of approved services

RESOLUTION—With the sanction of Her Majesty's Secretary of State for India, the Governor General in Council is pleased to declare that the ruling laid down in the Resolution quoted above in the matter of counting service towards extra pensions shall also apply, from the 1st May, 1883, to the officers of the Telegraph Department serving in the Direction who are eligible for additional pensions, *viz*, the Director General, the Deputy Director General, the Directors of Construction and Traffic and the Directors, Persian and Persian Gulf Telegraphs

ORDER—Ordered, that a copy of this Resolution be forwarded to the Public Works Department* for information, and that the Resolution be published in Part I of the *Gazette of India*

* Original papers returned

FIELD OPERATIONS

HAZARA

No 214—With reference to G G O No 978 of 1888, the Right Honourable the Governor General in Council is pleased to direct the publication, for general information of the following despatch from the Right Honourable the Secretary of State for India —

MILITARY
No 20

INDIA OFFICE,
London, the 31st January, 1889

To His Excellency the Most Honourable the Governor General of India in Council

MY LORD MARQUIS,—I have to acknowledge the receipt of your Excellency's Despatch No 228, dated 18th December, 1888, forwarding papers relative to the proceedings of the force styled the Hazara Field Force, organized for the purpose of inflicting punishment on the tribes of the Black Mountain implicated in the attack made on a party of British troops under the command of Major L R Battye in June 1888, in which that officer and Captain Urmston were killed

2 The papers comprise a despatch from Major General J W McQueen, C B, Commanding the Force, giving a general report of its operations, despatches from Brigadier Generals Galbraith and Chinner, detailing the proceedings of their respective brigades a report by the principal Political Officer attached to the Force, a letter from the Adjutant General expressing the views of His Excellency the Commander in Chief in regard to the manner in which the operations have been conducted, and the General Order issued by your Government on the subject

3 I have perused the papers with much interest, and have now the pleasure of communicating to your Excellency my cordial concurrence in the sentiments expressed by you in respect to the skilful manner in which the operations have been conducted, and the satisfactory results that have been achieved, which reflect great credit on General McQueen and the officers and troops under his command

4 Although the loss of two such excellent officers as Colonel Crookshank and Captain Belcy is much to be deplored it is a matter for satisfaction that the operations generally have been attended with a comparatively small number of casualties amongst our troops

5 The papers have been duly communicated to the Secretary of State for War and His Royal Highness the Commander in Chief

I have, &c,
(Sd) CROSS

PART IV

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 8th March, 1889, and is hereby promulgated for general information —

ACT NO VI OF 1889

An Act to amend the Indian Succession Act, 1865, the Probate and Administration Act, 1881, the Court fees Act 1870, and the Indian Stamp Act, 1879, and to make provision with respect to certain other matters

WHEREAS it is expedient to amend the Indian Succession Act 1865 the Probate and Administration Act, 1881, the Court fees Act, 1870, and the Indian Stamp Act, 1879 and to make provision with respect to certain other matters, It is hereby enacted as follows —

X of 1865
V of 1881
VII of 1870
of 1879

1 (1) This Act may be called the Probate and Administration Act, 1889

Title extent and commencement

(2) It applies to the whole of British India (inclusive of Upper Burma except the Shan States), and

(3) It shall come into force at once

Indian Succession Act, 1865

2 After the 4th clause of the *explanation* to section 234 of the Indian Succession Act, 1865, the following shall be added namely —

Amendment of section 234, Act X, 1865

X of 1865

"5th, that the person to whom the grant was made has wilfully and without reasonable cause omitted to exhibit an inventory or account in accordance with the provisions of Part XXXIV of this Act or has exhibited under that Part an inventory or account which is untrue in a material respect"

3 In section 244 of the same Act, for the words "and that the petitioner is the executor therein named" the following shall be substituted, namely —

Amendment of section 244 Act X 1865

'the amount of assets which are likely to come to the petitioner's hands and

'that the petitioner is the executor named in the will,"

4 For the last forty two words of section 254 of the same Act the following shall be substituted namely —

Amendment of section 254 Act X 1865

"he having undertaken to administer the same, and to make a full and true inventory of the said property and credits and exhibit the same in this Court within six months from the date of this grant or within such further time as the Court may from time to time appoint, and also to render to this Court a true account of the said property and credits within one year from the same date or within such further time as the Court may from time to time appoint"

5 For the last forty five words of section 255 of the same Act the following shall be substituted, namely —

Amendment of section 255 Act X, 1865

"he having undertaken to administer the same, and to make a full and true inventory of the said property and credits and exhibit the same in this Court within six months from the date of this grant or within such further time as the Court may from time to time appoint, and also to render to this Court a true account of the said property and credits within one year from the same date or within such further time as the Court may from time to time appoint"

6 In section 256 of the same Act, for the words "Every person to whom any grant of administration shall be committed" the words "Every person to whom any grant of letters of administration is committed shall be substituted

Amendment of section 256 Act X 1865

7 For section 277 of the same Act the following shall be substituted, namely —

Substitution of new section for section 277 Act X 1865

"277 (1) An executor or administrator shall, within six months from the grant of probate or letters of administration, or within such further time as the Court which granted the probate or letters may from time to time appoint exhibit in that Court an inventory containing a full and true estimate of all the property in possession, and all the credits, and also all the debts owing by any person to which the executor or administrator is entitled in that character, and shall in like manner, within one year from the grant or within such further time as the said Court may from time to time appoint, exhibit an account of the estate, showing the assets which have come to his hands and the manner in which they have been applied or disposed of

Inventory and account

"(2) The High Court may from time to time prescribe the form in which an inventory or account under this section is to be exhibited

"(3) If an executor or administrator, on being required by the Court to exhibit an inventory or account under this section, intentionally omits to comply with the requisition, he shall be deemed to have committed an offence under section 176 of the Indian Penal Code

XLV of 1860

"(4) The exhibition of an intentionally false inventory or account under this section shall be deemed to be an offence under section 193 of that Code'

8 In section 277A of the same Act, for the words "it is sought to obtain a grant" the words 'a grant has been made", and for the words and figures "the person applying for administration after the first day of April, 1875,' the word "administrator", shall be substituted

Amendment of section 277A Act X, 1865

9 (1) In section 283 of the same Act, for the words "the country in which he was domiciled" the words "British India" shall be substituted

Amendment of section 283 Act X 1865

(2) The *illustration* to the same section is hereby repealed

10 To the same Act the following shall be added namely —

Addition to Act X, 1865

"333 (1) When a grant of probate or letters of administration is revoked or annulled under this Act, the person to whom the grant was made shall forthwith deliver up the probate or letters to the Court which made the grant

Surrender of revoked probate or letters of administration

"(2) If such person wilfully and without reasonable cause omits so to deliver up the probate or letters, he shall be punished with fine which may extend to one thousand rupees, or with imprisonment of either description for a term which may extend to three months, or with both"

Probate and Administration Act, 1881

11 After the 4th clause of the *explanation* to section 50 of the Probate and Administration Act, 1881, the following shall be added, namely —

Amendment of section 50 Act V 1881

V of 1881

"5th, that the person to whom the grant was made has wilfully and without reasonable cause omitted to exhibit an inventory or account in accordance with the provisions of Chapter VII of this Act, or has exhibited under that Chapter an inventory or account which is untrue in a material respect"

12 For the portion of section 76 of the same Act beginning with the words "he having undertaken to administer the same" and ending with the words "within one year from the same date" the following shall be substituted, namely —

Amendment of section 76 Act V 1881

"he having undertaken to administer the same, and to make a full and true inventory of the said property and credits and exhibit the same in this Court within six months from the date of this grant or within such further time as the Court may from time to time appoint, and also to render to this Court a true account of the said property and credits within one year from the same date or within such further time as the Court may from time to time appoint"

13 For the portion of section 77 of the same Act beginning with the words he having undertaken to administer the same" and ending with the words "within one year from the same date" the following shall be substituted, namely —

Amendment of section 77 Act V 1881

"he having undertaken to administer the same, and to make a full and true inventory of the said property and credits and exhibit the same in this Court within six months from the date of this grant or within such further time as the Court may from time to time appoint and also to render to this Court a true account of the said property and credits within one year from the same date or within such further time as the Court may from time to time appoint"

14 For section 90 of the same Act the following shall be substituted, namely —

Substitution of new section for section 90, Act V 1881

"90 (1) An executor or administrator has, subject to the provisions of this section power to dispose, as he thinks fit, of all or any of the property for the time being vested in him under section 4

Power of executor or administrator to dispose of property

"(2) The power of an executor to dispose of immoveable property so vested in him is subject to any restriction which may be imposed in this behalf by the will appointing him, unless probate has been granted to him and the Court which granted the probate permits him by an order in writing, notwithstanding the restriction, to dispose of any immoveable property specified in the order in a manner permitted by the order

"(3) An administrator may not, without the previous permission of the Court by which the letters of administration were granted,—

(a) mortgage, charge or transfer by sale, gift, exchange or otherwise any immoveable property for the time being vested in him under section 4, or

(b) lease any such property for a term exceeding five years

'(4) A disposal of property by an executor or administrator in contravention of sub section (2) or sub section (3), as the case may be, is voidable at the instance of any other person interested in the property

"(5) Before any probate or letters of administration is or are granted under this Act there shall be endorsed thereon or annexed thereto

a copy of sub-sections (1), (2) and (4), or of sub-sections (1), (3) and (4), as the case may be

"(6) A probate or letters of administration shall not be rendered invalid by reason of the endorsement or annexure required by the last foregoing sub section not having been made thereon or attached thereto, nor shall the absence of such an endorsement or annexure authorise an executor or administrator to act otherwise than in accordance with the provisions of this section"

Substitution of new section for section 98 Act V, 1881

15 For section 98 of the same Act the following shall be substituted, namely —

Inventory and account

"98 (1) An executor or administrator shall, within six months from the grant of probate or letters of administration, or within such further time as the Court which granted the probate or letters may from time to time appoint, exhibit in that Court an inventory containing a full and true estimate of all the property in possession, and all the credits, and also all the debts owing by any person to which the executor or administrator is entitled in that character, and shall in like manner, within one year from the grant or within such further time as the said Court may from time to time appoint exhibit an account of the estate, showing the assets which have come to his hands and the manner in which they have been applied or disposed of

"(2) The High Court may from time to time prescribe the form in which an inventory or account under this section is to be exhibited

"(3) If an executor or administrator, on being required by the Court to exhibit an inventory or account under this section, intentionally omits to comply with the requisition he shall be deemed to have committed an offence under section 176 of the Indian Penal Code XLV of 1860

"(4) The exhibition of an intentionally false inventory or account under this section shall be deemed to be an offence under section 193 of that Code"

Amendment of section 99, Act V 1881

16 In section 99 of the same Act, for the words "it is sought to obtain a grant" the words "a grant has been made", and for the words "the person applying for administration" the word "administrator", shall be substituted

Addition to Act V, 1881

17 To the same Act the following shall be added, namely —

Surrender of revoked probate or letters of administration

"157 (1) When a grant of probate or letters of administration is revoked or annulled under this Act, the person to whom the grant was made shall forthwith deliver up the probate or letters to the Court which made the grant

"(2) If such person wilfully and without sufficient cause omits so to deliver up the probate or letters, he shall be punished with fine which may extend to one thousand rupees, or with imprisonment which may extend to three months, or with both"

Court-fees Act, 1870, and Indian Stamp Act, 1879

Amendment of Act VII, 1870 and Act I 1879

18 (1) Article 16 (Administration bond) of the second schedule to the Court fees Act, 1870, is hereby repealed VII of 1870.

(2) In article 6 of the second schedule to the Court fees Act, 1870, for the words "Bail bond or other instrument of obligation not otherwise provided for by this Act, when given by the direction of any Court or executive authority" the following words shall be substituted, namely —

"Bail bond or other instrument of obligation given in pursuance of an order made by a Court or Magistrate under any section of the Code of Criminal Procedure, 1882, or the Code of Civil Procedure" X of 1882 XIV of 1882

(3) In article 2 of the first schedule to the Indian Stamp Act, 1879, after the words "Administration bond" the following shall be added, namely — I of 1879

"including a bond given under section 256 of the Indian Succession Act 1865 section 6 of the Government Savings Banks Act, 1873, section 78 of the Probate and Administration Act, 1881, or section 9 or section 10 of the Succession Certificate Act, 1889 X of 1865 V of 1873 V of 1881 VII of 1889.

(4) In article 13 of the first schedule to the Indian Stamp Act, 1879, after the words "not otherwise provided for by this Act" there shall be added the words "or by the Court fees Act, 1870" VII of 1870

Miscellaneous

Validation of acts under grants of administration already made

19 Notwithstanding anything in section 90 of the Probate and Administration Act, 1881, a disposal of property by an executor or administrator who was appointed before the commencement of this Act, and to whom the provisions of that section were applicable, shall not be void by reason only that the consent of the Court to the disposal of the property was not obtained V of 1881

Recovery of penalties and forfeitures under Act VII 1870

20 (1) Any penalty or forfeiture under section 19G or section 19H of the Court fees Act, 1870, may, on the certificate of the Chief Controlling Revenue authority, be recovered from the executor or administrator as if it were an arrear of land-revenue by any Collector in any part of British India VII of 1870

(2) The Chief Controlling Revenue authority may remit the whole or any part of any such penalty or forfeiture, or any part of any further penalty payable under section 19E of the said Act

Repeal of part of section 7 (3), Bengal Act VII of 1880

21 The following portion of section 7, clause (3), of the Act of the Lieutenant Governor of Bengal in Council No VII of 1880, entitled the Public Demands Recovery Act, 1880, namely —

"or in the following sections and portions of the following Act passed by the Governor General in Council, that is to say, in Act VII of 1870, 'the Court fees Act,' sections 19G, 19H,"

is hereby repealed

S HARVEY JAMES,
Secretary to the Government of India

THE FIRST SCHEDULE —ENACTMENTS REPEALED

THE SECOND SCHEDULE —FORMS OF CERTIFICATE AND EXTENDED CERTIFICATE

The Succession Certificate Act, 1889

(*Sections 1-5*)

An Act to facilitate the collection of debts on successions and afford protection to parties paying debts to the representatives of deceased persons

WHEREAS it is expedient to facilitate the collection of debts on successions and afford protection to parties paying debts to the representatives of deceased persons, It is hereby enacted as follows —

Title commencement extent and application

1 (*1*) This Act may be called the Succession Certificate Act, 1889

(*2*) It shall come into force on the first day of May, 1889, and

(*3*) It extends to the whole of British India (inclusive of Upper Burma except the Shan States),

(*4*) But a certificate shall not be granted thereunder with respect to any debt or security to which a right can be established by probate or letters of administration under the Indian Succession Act, 1865, or by probate of a will to which the Hindu Wills Act, 1870, applies, or by letters of administration with a copy of such a will annexed

X of 1865
XXI of 1870

Repeal

2 (*1*) The enactments specified in the first schedule are repealed to the extent mentioned in the third column thereof

(*2*) But nothing in this Act shall affect any certificate granted before the commencement of this Act under Act XXVII of 1860 or any enactment repealed by that Act

(*3*) Any enactment except this Act and section 152 of the Probate and Administration Act, 1881, or any document, referring to any enactment repealed by this Act shall, so far as may be, be construed to refer to this Act or to the corresponding portion thereof

V of 1881

Definitions

3 In this Act, unless there is something repugnant in the subject or context,—

(*1*) "District Court", subject to the other provisions of this Act and to the provisions of proviso (*b*) to section 23 of the Punjab Courts Act, 1884, and of any other like enactment for the time being in force, means a Court presided over by a District Judge and

XVIII of 1884

(*2*) "security" means—

(*a*) any promissory note, debenture, stock or other security of the Government of India,

(*b*) any bond, debenture or annuity charged by the Imperial Parliament on the revenues of India,

(*c*) any stock or debenture of, or share in, a company or other incorporated institution,

(*d*) any debenture or other security for money issued by, or on behalf of, a local authority,

(*e*) any other security which the Governor General in Council may, by notification in the Gazette of India, declare to be a security for the purposes of this Act

Proof of representative title a condition precedent to recovery through the Courts of debts from debtors of deceased persons

4. (*1*) No Court shall—

(*a*) pass a decree against a debtor of a deceased person for payment of his debt to a person claiming to be entitled to the effects of the deceased person or to any part thereof, or

(*b*) proceed, upon an application of a person claiming to be so entitled, to execute against such a debtor a decree or order for the payment of his debt,

except on the production, by the person so claiming, of—

(i) a probate or letters of administration evidencing the grant to him of administration to the estate of the deceased, or

(ii) a certificate granted under section 36 or section 37 of the Administrator General's Act, 1874, and having the debt mentioned therein, or

II of 1874

(iii) a certificate granted under this Act and having the debt specified therein, or

(iv) a certificate granted under Act XXVII of 1860 or an enactment repealed by that Act, or

(v) a certificate granted under the Regulation of the Bombay Code No VIII of 1827 and, if granted after the commencement of this Act, having the debt specified therein

(*2*) The word "debt" in sub section (*1*) includes any debt except rent, revenue or profits payable in respect of land used for agricultural purposes

Court having jurisdiction to grant certificate

5 The District Court within the jurisdiction of which the deceased ordinarily resided at the time of his death, or if at that time he had no fixed place of residence then within the jurisdiction of which any part of the property of the deceased may be found, may grant a certificate under this Act

The Succession Certificate Act, 1889.

(*Sections 6-11*)

6 (*1*) Application for such a certificate must be made to the District Court by a petition signed and verified by or on behalf of the applicant in the manner prescribed by the Code of Civil Procedure for the signing and verification of a plaint by or on behalf of a plaintiff, and setting forth the following particulars, namely —

Application for certificate

XIV of 1882

(*a*) the time of the death of the deceased,

(*b*) the ordinary residence of the deceased at the time of his death and, if such residence was not within the local limits of the jurisdiction of the Court to which the application is made, then the property of the deceased within those limits,

(*c*) the family or other near relatives of the deceased and their respective residences,

(*d*) the right in which the petitioner claims,

(*e*) the absence of any impediment under section 1, sub section (*4*), or under any other provision of this Act or any other enactment, to the grant of the certificate or to the validity thereof if it were granted, and

(*f*) the debts and securities in respect of which the certificate is applied for

(*2*) If the petition contains any averment which the person verifying it knows or believes to be false, or does not believe to be true, that person shall be subject to punishment according to the provisions of the law for the time being in force for the punishment of giving or fabricating false evidence

7 (*1*) If the District Court is satisfied that there is ground for entertaining the application, it shall fix a day for the hearing thereof and cause notice of the application and of the day fixed for the hearing—

Procedure on application

(*a*) to be served on any person to whom, in the opinion of the Court, special notice of the application should be given, and

(*b*) to be posted on some conspicuous part of the court-house and published in such other manner, if any, as the Court, subject to any rules made by the High Court in this behalf, thinks fit,

and upon the day fixed, or as soon thereafter as may be practicable, shall proceed to decide in a summary manner the right to the certificate

(*2*) When the Court decides the right thereto to belong to the applicant, it shall make an order for the grant of the certificate to him

(*3*) If the Court cannot decide the right to the certificate without determining questions of law or fact which seem to it to be too intricate and difficult for determination in a summary proceeding, it may nevertheless grant a certificate to the applicant if he appears to be the person having *primâ facie* the best title thereto

(*4*) When there are more applicants than one for a certificate and it appears to the Court that more than one of such applicants are interested in the estate of the deceased, the Court may, in deciding to whom the certificate is to be granted, have regard to the extent of interest, and the fitness in other respects, of the applicants

8 When the District Court grants a certificate, it shall therein specify the debts and securities set forth in the application for the certificate and may thereby empower the person to whom the certificate is granted—

Contents of certificate

(*a*) to receive interest or dividends on, or

(*b*) to negotiate or transfer, or

(*c*) both to receive interest or dividends on, and to negotiate or transfer,

the securities or any of them

9 (*1*) The District Court shall in any case in which it proposes to proceed under section 7, sub section (*3*) or sub section (*4*), and may in any other case, require, as a condition precedent to the granting of a certificate, that the person to whom it proposes to make the grant shall give to the Judge of the Court, to enure for the benefit of the Judge for the time being, a bond with one or more surety or sureties, or other sufficient security, for rendering an account of debts and securities received by him and for indemnity of persons who may be entitled to the whole or any part of those debts and securities

Requisition of security from grantee of certificate

(*2*) The Court may, on application made by petition and on cause shown to its satisfaction, and upon such terms as to security, or providing that the money received be paid into Court, or otherwise as the Court thinks fit, assign the bond or other security to some proper person and that person shall thereupon be entitled to sue thereon in his own name as if it had been originally given to him instead of to the Judge of the Court, and to recover, as trustee for all persons interested, such amount as may be recoverable thereunder

10 (*1*) A District Court may from time to time, on the application of the holder of a certificate under this Act, extend the certificate to any debt or security not originally specified therein, and every such extension shall have the same effect as if the debt or security to which the certificate is extended had been originally specified therein

Extension of certificate

(*2*) Upon the extension of a certificate, powers with respect to the receiving of interest or dividends on, or the negotiation or transfer of, any security to which the certificate has been extended may be conferred, and a bond or further bond or other security for the purposes mentioned in the last foregoing section may be required, in the same manner as upon the original grant of a certificate

11 Certificates shall be granted and extensions of certificates shall be made, as nearly as circumstances admit, in the forms set forth in the second schedule

Forms of certificate and extended certificate

The Succession Certificate Act, 1889

(Sections 12-14)

Amendment of certificate in respect of powers as to securities

12 Where a District Court has not conferred on the holder of a certificate any power with respect to a security specified in the certificate, or has only empowered him to receive interest or dividends on, or to negotiate or transfer, the security, the Court may, on application made by petition and on cause shown to its satisfaction, amend the certificate by conferring any of the powers mentioned in section 8, or by substituting any one for any other of those powers

Amendment of Act VII, 1870

VII of 1870.

13 (*1*) For articles 11 and 12 of the first schedule to the Court fees Act, 1870, the following shall be substituted, namely —

Number		Proper fee
"11 Probate of a will or letters of administration with or without will annexed	If the amount or value of the property in respect of which the grant of probate or letters is made exceeds one thousand rupees	Two per centum on such amount or value provided that when, after the grant of a certificate under the Succession Certificate Act, 1889, or any enactment repealed by that Act, or under the Regulation of the Bombay Code No VIII of 1827, in respect of any property included in an estate, a grant of probate or letters of administration is made in respect of the same estate, the fee payable in respect of the latter grant shall be reduced by the amount of the fee paid in respect of the former grant
"12 Certificate under the Succession Certificate Act, 1889	In any case	Two per centum on the amount or value of any debt or security specified in the certificate under section 8 of the Act, and three per centum on the amount or value of any debt or security to which the certificate is extended under section 10 of the Act NOTE—(*1*) The amount of a debt is its amount including interest, on the day on which the inclusion of the debt in the certificate is applied for, so far as such amount can be ascertained (*2*) Whether or not any power with respect to a security specified in a certificate has been conferred under the Act and, where such a power has been so conferred, whether the power is for the receiving of interest or dividends on, or for the negotiation or transfer of the security, or for both purposes, the value of the security is its market value on the day on which the inclusion of the security in the certificate is applied for, so far as such value can be ascertained
"12A Certificate under the Regulation of the Bombay Code No VIII of 1827		(*1*) As regards debts and securities, the same fee as would be payable in respect of a certificate under the Succession Certificate Act, 1889 or in respect of an extension of such a certificate, as the case may be, and (*2*) as regards other property in respect of which the certificate is granted, two per centum on so much of the amount or value of such property as exceeds one thousand rupees"

VII of 1889.

(*2*) In the Court fees Act, 1870, section 19, clause VIII, for the words and figures "and certificate mentioned in the First Schedule to this Act annexed, No 12," the words and figures "and, save as regards debts and securities, a certificate under Bombay Regulation VIII of 1827" shall be substituted

VII of 1870

Mode of collecting court fees on certificates

14 (*1*) Every application for a certificate or for the extension of a certificate must be accompanied by a deposit of a sum equal to the fee payable under the first schedule to the Court fees Act, 1870, in respect of the certificate or extension applied for

VII of 1870.

The Succession Certificate Act, 1889

(Sections 15 23)

(2) If the application is allowed, the sum deposited by the applicant shall be expended, under the direction of the Court, in the purchase of the stamp to be used for denoting the fee payable as aforesaid

(3) Any sum received under sub section (1) and not expended under sub section (2) shall be refunded to the person who deposited it

Local extent of certificate

15 A certificate under this Act shall have effect throughout the whole of British India

Effect of certificate

16 Subject to the provisions of this Act, the certificate of the District Court shall, with respect to the debts and securities specified therein, be conclusive as against the persons owing such debts or liable on such securities, and shall, notwithstanding any contravention of section 1, sub section (4), or other defect, afford full indemnity to all such persons as regards all payments made, or dealings had, in good faith in respect of such debts or securities to or with the person to whom the certificate was granted

Effect of certificate granted or extended by British representative in Foreign State

17 Where a certificate in the form, as nearly as circumstances admit, of the second schedule has been granted to a resident within a Foreign State by the British representative accredited to the State, or where a certificate so granted has been extended in such form by such representative, the certificate shall, when stamped in accordance with the provisions of the Court fees Act, 1870, with respect to certificates under this Act, have the same effect in British India as a certificate granted or extended under this Act

of 1870.

Revocation of certificate

18 A certificate granted under this Act may be revoked for any of the following causes, namely —

(a) that the proceedings to obtain the certificate were defective in substance,

(b) that the certificate was obtained fraudulently by the making of a false suggestion, or by the concealment from the Court of something material to the case

(c) that the certificate was obtained by means of an untrue allegation of a fact essential in point of law to justify the grant thereof though such allegation was made in ignorance or inadvertently,

(d) that the certificate has become useless and inoperative through circumstances,

(e) that a decree or order made by a competent Court in a suit or other proceeding with respect to effects comprising debts or securities specified in the certificate renders it proper that the certificate should be revoked

Appeal

19 (1) Subject to the other provisions of this Act, an appeal shall lie to the High Court from an order of a District Court granting, refusing or revoking a certificate under this Act, and the High Court may, if it thinks fit, by its order on the appeal, declare the person to whom the certificate should be granted and direct the District Court, on application being made therefor, to grant it accordingly, in supersession of the certificate, if any, already granted

(2) An appeal under sub section (1) must be preferred within the time allowed for an appeal under the Code of Civil Procedure XIV of 1882

(3) Subject to the provisions of sub section (1) and of Chapters XLVI and XLVII of the Code of Civil Procedure as applied by section 647 of that Code, an order of a District Court under this Act shall be final

Effect on certificate of previous certificate probate or letters of administration

20 Save as provided by this Act, a certificate granted thereunder in respect of any of the effects of a deceased person shall be invalid if there has been a previous grant of such a certificate or of probate or letters of administration in respect of the estate of the deceased person and if such previous grant is in force

Effect on certificate of subsequent probate or letters of administration

21 (1) A grant of probate or letters of administration under the Probate and Administration Act, 1881, in respect of an estate shall be deemed to supersede any certificate previously granted under this Act in respect of any debts or securities included in the estate V of 1881

(2) When at the time of the grant of the probate or letters any suit or other proceeding instituted by the holder of the certificate regarding any such debt or security is pending, the person to whom the grant is made shall, on applying to the Court in which the suit or proceeding is pending be entitled to take the place of the holder of the certificate in the suit or proceeding

Validation of certain payments made in good faith to holder of invalid certificate

22 Where a certificate under this Act has been superseded or is invalid by reason of the certificate having been revoked under section 18, or by reason of the grant of a certificate to a person named in an appellate order under section 19, or by reason of a certificate having been previously granted, or by reason of a grant of probate or letters of administration, or for any other cause, all payments made, or dealings had, as regards debts and securities specified in the superseded or invalid certificate, to or with the holder of that certificate in ignorance of its supersession or invalidity, shall be held good against claims under any other certificate or under the probate or letters of administration

Prohibition of exercise of certain powers by curators

23 (1) Where a certificate has been granted under this Act or Act XXVII of 1860, or a grant of probate or letters of administration has been made, a curator appointed under Act XIX of 1841 shall not exercise any authority lawfully belonging to the holder of the certificate or to the executor or administrator

(2) But persons who have paid debts or rents to a curator authorised by a Court to

The Succession Certificate Act, 1889

(Sections 24-28)

receive them shall be indemnified, and the curator shall be responsible for the payment thereof to the person who has obtained the certificate, probate or letters of administration, as the case may be

Effect of certain probates and letters

24. Any probate or letters of administration granted before the first day of April, 1881, by any Supreme or High Court of Judicature or by the Court of a Recorder in Burma, in any case in which the deceased person was not a British subject within the meaning of that expression as used in the charters of the Supreme Courts of Judicature, and in which any assets belonging to him were at the time of his death within the local limits of the jurisdiction of the Court shall, for the purpose of the recovery of debts, the protection of persons paying debts, and the negotiation or transfer of securities included in the estate of the deceased, be deemed to have and to have had the effect which a grant of probate or letters of administration has under the Indian Succession Act, 1865

X of 1865

Provided that nothing in this section shall be construed to validate any disposal of property by an executor or administrator which has before the commencement of this Act been declared by any competent Court to be invalid

Effect of decisions under this Act and liability of holder of certificate thereunder

25 No decision under this Act upon any question of right between any parties shall be held to bar the trial of the same question in any suit or in any other proceeding between the same parties, and nothing in this Act shall be construed to affect the liability of any person who may receive the whole or any part of any debt or security, or any interest or dividend on any security, to account therefor to the person lawfully entitled thereto

Investiture of inferior *Courts with jurisdiction of District Court for purposes of this Act

26 (*1*) The Local Government may, by notification in the official Gazette, invest any Court inferior in grade to a District Court with the functions of a District Court under this Act, and may cancel or vary any such notification

(*2*) Any inferior Court so invested shall, within the local limits of its jurisdiction, have concurrent jurisdiction with the District Court in the exercise of all the powers conferred by this Act upon the District Court, and the provisions of this Act relating to the District Court shall apply to such an inferior Court as if it were a District Court

Provided that an appeal from any such order of an inferior Court as is mentioned in sub section (*1*) of section 19 shall lie to the District Court, and not to the High Court, and that the District Court may, if it thinks fit, by its order on the appeal, make any such declaration and direction as that sub-section authorises the High Court to make by its order on an appeal from an order of a District Court

(*3*) An order of a District Court on an appeal from an order of an inferior Court under the last foregoing sub section shall, subject to the provisions of Chapters XLVI and XLVII of the Code of Civil Procedure as applied by section 647 of that Code, be final

(*4*) The District Court may withdraw any proceedings under this Act from an inferior Court and may either itself dispose of them or transfer them to another such Court established within the local limits of the jurisdiction of the District Court and having authority to dispose of the proceedings

(*5*) A notification under sub-section (*1*) may specify any inferior Court specially or any class of such Courts in any local area

(*6*) Any Civil Court which for any of the purposes of any enactment is subordinate to, or subject to the control of, a District Court shall for the purposes of this section be deemed to be a Court inferior in grade to a District Court

Surrender of superseded and invalid certificates

27 (*1*) When a certificate under this Act has been superseded or is invalid from any of the causes mentioned in section 22, the holder thereof shall, on the requisition of the Court which granted it, deliver it up to that Court

(*2*) If he wilfully and without reasonable cause omits so to deliver it up, he shall be punished with fine which may extend to one thousand rupees, or with imprisonment for a term which may extend to three months, or with both

Provisions with respect to certificates under Bombay Regulation VIII of 1827

28 Notwithstanding anything in the Regulation of the Bombay Code No VIII of 1827, the provisions of section 3, section 6, sub section (*1*), clause (*f*), and sections 8, 9, 10, 11, 12, 14, 16, 18, 19, 25, 26 and 27 of this Act with respect to certificates under this Act and applications therefor, and of section 98 of the Probate and Administration Act, 1881, with respect to the exhibition of inventories and accounts by executors and administrators, shall, so far as they can be made applicable, apply, respectively, to certificates granted under that Regulation, and applications made for certificates thereunder, after the commencement of this Act, and to the exhibition of inventories and accounts by the holders of such certificates so granted

The Succession Certificate Act, 1889

The Hon'ble Rájá Durga Charn Laha, C I E

The Hon'ble Maung Ôn, C I E, A T M

The Hon'ble Muhammad Ali Khan

The Hon'ble J W. Quinton, C S I

NEW MEMBERS

The Hon'ble MUHAMMAD ALI KHAN and the Hon'ble MR QUINTON took their seats as Additional Members.

MERCHANDISE MARKS BILL

The Hon'ble MR SCOBLE moved that the Report of the Select Committee on the Bill to amend the Law relating to Fraudulent Marks on Merchandise be taken into consideration He said —

"The Bill has been most carefully considered by a Select Committee, three members of which belong to the mercantile community The amendments which have been introduced were for the most part suggested by Chambers of Commerce and other bodies similarly conversant with mercantile affairs, and I think I may claim for the Bill as it stands that it is the outcome of the mature experience of the recognized organs of the commercial classes in India

"The Bill relates to all classes of merchandise, and not merely to piece-goods, as some have erroneously supposed It applies to articles of merchandise manufactured in India, as well as to those imported from other countries, whether by land or sea And it deals with three classes of offences—(1) the imitation of trade marks, (2) the application to goods of false trade-descriptions, that is, of words or figures indicating that goods are something which in fact they are not, and (3) trading in falsely marked goods

"As regards the imitation of trade marks the Bill follows the provisions of the Indian Penal Code, but gives a wider definition to the word 'trade-mark' It often happens that a trade mark is applied to articles not actually manufactured by the owner of the trade mark Dealers both in India and elsewhere frequently have a particular class or quality of goods specially manufactured for them, which are known in the market by their name, and bear their brand, and are thus identified more with them than with the actual manufacturers To protect the property in marks of this kind we have enlarged the definition of 'trade mark' so as to cover marks used to denote that goods are either the manufacture or the merchandise of a particular person

"As regards trade descriptions, the main provisions of the English Merchandise Marks Act, 1887, have been adopted The Committee has reduced the punishment for applying false trade descriptions or dealing in falsely marked goods to those provided in the Penal Code for using false trade-marks The offences being similar in character it seemed desirable to follow the Indian law rather than the more stringent provisions of the English Statute

"It may be convenient here to notice an important alteration of principle in regard to offences under this Bill Ordinarily it is incumbent on the prosecution to prove that the person charged had acted with intent to defraud, under the law now proposed it is incumbent on the person charged to prove that he acted innocently In this respect, however, a distinction is made between the originators of the fraud, that is to say, those who make or apply false trade marks or descriptions, or are responsible for their use, and mere dealers in falsely marked goods, whether as agents for sale or retailers The former must prove absolutely that they acted without intent to defraud, the latter need only show that they took reasonable precautions, had no ground to suspect fraud and have given the prosecution all information in their power Honest traders should have no difficulty in doing this

"So much in regard to offences and their punishment With regard to prevention, the proposed amendment of the Sea Customs Act, whereby the importation of falsely marked goods into British India will be prohibited, will be the most efficient weapon in the hands of the authorities But, as I said on introducing the Bill, the successful working of these provisions of the Act will depend on the extent to which the mercantile classes co operate with the custom-house authorities There will be difficulties no doubt here, as there were in England

"In their Report for the year ended 31st March, 1888, the Commissioners of Her Majesty's Customs write —

'To have established a system of exhaustive examination of imported goods would have entailed a very large additional expenditure for the increased staff which would have been required, and there was the still more forcible objection that any such system would involve serious delay and inconvenience in the delivery of goods There can be little doubt that if the trade at large had been exposed to constant risk of delay, or even to any considerable check in the present system of rapid delivery of goods, there would

have been complaint that the evil to trade which the Act was intended to remedy was more than overborne by the evils which it had created We had therefore to endeavour to give all reasonable effect to the intention of the Act without appreciable cost to the tax payer, and at the same time to preserve the advantages of a restricted tariff which naturally facilitates the free movement of trade'

"Fortunately, in India, we shall have the benefit of the experience gained in England during the past two years, and the Government will be glad to receive the assistance of the mercantile community in framing regulations which will secure the due operation of the Act without unnecessary friction or expense to the public

"The provisions thus far summarized do not go beyond those of the English Act, but in one important respect the Select Committee has felt itself at liberty to take a step in advance of English legislation We have added to the Bill clauses requiring all goods sold by length or the piece to have their real length stamped on them in standard yards before they are brought into British India in the case of imported goods, and before they are removed from the factory in the case of goods manufactured in British India The adoption of a compulsory provision of this kind was advocated by the Madras Chamber of Commerce, and has been strongly pressed upon us by the Bengal Chamber In a communication received by us from the latter body it is stated —

'A very important suggestion put forward by the Sub Committee—though with one dissentient—is that the stamping upon all goods sold by length or the piece of the length of such goods in standard yards of 36 inches or fractions of a yard should be made compulsory

'The Committee of the Chamber of Commerce have, after special consideration of the principle here involved, come to the decision that the interests of the trade generally, of the honest trader and of the Indian consumer require them to give to this recommendation their strong support The scope of the "Indian Merchandise Marks Act" is so wide that as regards goods sold by length, a door would be left open for a resort to those fraudulent practices the measure is intended to combat if the importation of goods not bearing a stamp of length were permitted The Committee have made enquiries which satisfy them that even in Calcutta this way of escaping the provisions of the Act has already begun to be availed of, and they have reason to believe that the importation of goods having no stamp of length is on the increase

'Some five years ago a powerful agitation against "unstamped goods" sprung up in Bombay and led to a combination on the part of native dealers which resulted in the almost total displacement of such goods in the Bombay market The agitation spread to Calcutta, where it forced itself on the consideration of the Chamber of Commerce, and induced the Committee to sanction special arrangements for the protection of native buyers, not only against goods not stamped with an indication of length but also against goods incorrectly so stamped To day the Committee feel themselves justified in saying that the experience of the various Indian import markets points very clearly to the mischief which will result from allowing goods to be brought forward for sale bearing no indication of their length, and on this point they would ask to be excused if they briefly mention some of the evidence which has been put before them

'In Calcutta itself a trading firm in the import trade felt themselves compelled to stamp the length on certain goods, because they discovered that the goods they had imported unstamped were being fraudulently stamped in the bazár

'At Karáchi the importation of unstamped goods has quite recently almost disorganised that market The Committee have before them a notice, published at Karáchi and dated 1st of October, 1888, in the Sindhi, Marwari, Persian and Arabic languages, which runs as follows —

"*Notice—Caution*

'"Dealers in European piece goods are warned that for some time past goods have been imported and sold in the Karáchi market bearing no length stamp as has been the invariable custom up to this time

'"Buyers of goods without length stamp plainly written on each piece run the risk of being deceived"

'The state of things which has given rise to the necessity for such a notice as that just quoted would probably cause at Karáchi, as it did in Bombay and Calcutta, a combination amongst dealers against the purchase of unstamped goods, and, as at Bombay and Calcutta, such a combination would not do more than check, to a greater or less extent, the evil at which it was directed and would fail to stop it altogether The question which thus forces itself upon the consideration of the legislature is whether, such an Act as the Indian Merchandise Marks Act being under consideration, the mercantile communities of India should be left to combat an admitted mercantile mischief by the proved ineffective means of combinations amongst native buyers

'The Committee of the Chamber of Commerce are in a position to supplement what they have said above by evidence not only weighty in itself but so independent in character as, in their opinion, to increase its value During the discussions on the Bill the Committee received from Mr James Kerr Bell, a member of the Manchester Chamber of Commerce, a letter dated from Madras, the 19th December, 1888, in which that gentleman says —

'"I find in my visits to the Indian bázars that the *omission* of length stamps is a source of great misrepresentation in the sale of piece-goods I would suggest that the new Act should make the stamping of exact length compulsory In this way the honest trader would be protected from the many underhand ways which are at present in vogue to elude the scope of the English Act"'

"The Madras, Bombay and Karáchi Chambers of Commerce and the Bombay Mill owners Association were consulted by the Committee with reference to this proposal of the Bengal Chamber and requested to state their opinion as to whether or not effect should be given to it These bodies have all replied that in their opinion the fullest effect should be given to the proposal And the recently established Chamber of Commerce in Upper India, in a valuable communication received since the publication of the Report, desire 'to emphasise the vital importance of the suggestion' In view of this very unanimous expression of opinion, the Committee felt bound to take the desired action, but, as no such provisions were contained in the Bill when originally introduced, and in order to give time to dispose of unstamped stocks, section 19 postpones the operation of these clauses as regards foreign made goods until the 1st of August, and, as regards piece-goods made up in bales in factories in British India before the day on which it is proposed that this Act shall come into force, until the 1st of July, 1889.

"An enquiry has been made as to what is to become of existing stocks of falsely marked goods after this Act has come into operation I can only say that, directly a trader gets notice that a mark on his goods is a false mark, he had better remove it or he may get into trouble

"It remains to notice one or two points in connection with prosecutions under this Act Acting on a suggestion of the Bengal Chamber of Commerce that the Governor General should be empowered to make rules for the guidance of Courts as to the mode of measurement to be adopted, and the amount of variations to be allowed—matters of considerable technical difficulty—section 16 enables the Government by notification in the official Gazette to issue instructions for observance by Criminal Courts in such matters The Select Committee has also introduced a section, in accordance with the precedent of the English Act, empowering Courts to award costs to either prosecutor or defendant, as the justice of the case may require The Committee was unable to adopt the suggestion of the Bengal Chamber of Commerce that all prosecutions under the Act should be conducted by the Public Prosecutor, as they were unwilling to fetter the action of private firms or public bodies that might be interested in the efficient working of the Act, but in section 15 the Committee has given effect to a very general desire that some limit should be fixed to the time within which prosecutions for offences against the Act may be commenced, and has adopted in this respect the same rule which prevails in England, namely, three years after the commission of the offence, or one year after the first discovery thereof by the prosecutor, whichever first happens.

"I have now gone through the principal provisions of the Bill, and it only remains for me to express, on my own behalf as well as that of the Select Committee, our best thanks for the great assistance which we have received from the criticisms and suggestions supplied by the various authorities to whom the Bill was referred for consideration The Chambers of Commerce especially have afforded most valuable information and assistance in framing the draft so as to meet the circumstances of trade in India, and, if they will be equally ready to do their part in carrying out the provisions of the Act, I have no doubt it will be successful as a working measure"

The Motion was put and agreed to

The Hon'ble MR STEEL moved that in section 10, sub section (*2*), of the Bill, in clause (*f*), sub clause (i), to be added to section 18 of the Sea Customs

Act, 1878, after the word "stamped" the words "in English numerals" be inserted, and that in section 12, sub-section (*f*), of the Bill, after the word "stamped" the words "in English numerals" be inserted He said —"This amendment is a late suggestion of the Bengal Chamber of Commerce Under the Bill as it stands each piece of goods must be stamped with the length, but there is no stipulation as to whether this shall be expressed in numerals or in words The effect of the amendment will be to require the length to be stamped in English numerals The English numerals, derived from the Arabic, are perfectly well understood throughout the country, but the numbers expressed in words of a foreign language would be unintelligible The amendment is considered to be of importance I believe it will be accepted by the hon'ble member in charge, and I trust the Council will assent to it."

The Hon'ble MR SCOBLE said —"I have no objection whatever to this amendment"

The Motion was put and agreed to

The Hon'ble MR SCOBLE moved that the Bill, as amended, be passed

The Hon'ble RÁJÁ DURGA CHARN LAHA said —"As a member of the Select Committee to whom this Bill was referred for consideration, I have hardly anything to add to the remarks which have been made in their Report The Bill appears to satisfy the legitimate requirements of trade, but I must observe that a great deal will depend on its proper and considerate working before it can fulfil the objects for which action has been taken by the legislature I am sure that the Chamber of Commerce will gladly lend its assistance to enable the Government to carry out the objects of the Bill to the satisfaction of all parties concerned"

The Hon'ble SIR DINSHAW MANOCKJEE PETIT said —"Since the Report of our Select Committee on this Bill was presented by my hon'ble friend Mr Scoble to Your Excellency's Council on the 8th ultimo for consideration, I have again considered the question of stamping breadth as well as length on piece-goods which was discussed by the Committee, and, as the Bill is still under consideration of Your Excellency's Council, I venture to express some views on the subject Owing to the practice of not stamping the breadth, buyers are deceived by wholesale and retail dealers, whereby they suffer great loss in the same way as they suffer loss when length is not stamped For instance, a buyer goes to a market to buy a piece of cloth of the known breadth of 40 inches, he buys a piece without measuring the same under the presumption that it is of the usual breadth, but when it afterwards turns out to be narrower by one to two inches, he would suffer loss in respect of the deficient breadth from 2½ to 5 per cent Perhaps it may be urged by some that a provision for compulsory stamping of breadth is not necessary, as a buyer can easily see the breadth at a glance Against this argument I should say that I know from my experience that even dealers well versed in piece goods are unable to detect shorter breadth (say two to three inches in 50 to 60 inches breadth, one to two inches in 40 to 50 inches, and half to one inch in 20 to 30 inches) than the usual breadth without actual measurement, and this being the case consumers cannot at a glance find out short breadth If one has to buy about a dozen pieces of different descriptions of cloth in a market and his time be limited, it is easy to judge whether he will ever be able to detect short breadth without wasting a great deal of his time in going about measuring the breadth of every description of cloth from shop to shop, in order to satisfy himself as to whether the cloth he is purchasing is of the usual breadth or not If, therefore, the correct breadth be stamped on a piece, the buyer will not be deceived, and he can make the purchase without any doubt This will be a great boon to the public at large, and I dare say the same, instead of doing any injury to the trade, will do it a great deal of good I therefore, under these circumstances, trust that Your Excellency's Council will see their way to insert the necessary provision in the Bill"

The Hon'ble MR STEEL said —"I have little occasion to address the Council on the subject of this Bill, but it would scarcely be fitting that a

measure of so much interest and importance to the mercantile community should pass into law without remark from me

"I am happy to say that I have no criticism to offer except by way of commendation There has long been a general consensus of opinion that legislation was called for to protect the consumer from fraud and the honest trader from unfair competition While fully sharing this opinion the representatives of commerce have considered that it would be premature to press for legislation until opportunity had been afforded to watch the operation of the English Act of 1887, with the object of avoiding any defects which might be observed in the practical working of the law

"Sufficient time having elapsed, we think the proper occasion was chosen for the introduction of this Bill We acknowledge with gratitude to the hon'ble member in charge that he has taken full advantage of the experience gained His original draft Bill was an extremely careful and able endeavour to adapt the law to the special conditions of Indian trade The Bill was energetically discussed and considered by the Chambers of Commerce of Bengal and Bombay and other competent authorities Sundry valuable suggestions were offered which have been adopted by the Select Committee, and the Bill now comes before the Council fortified by the approval of those most interested in its provisions My hon'ble friend Sir Dinshaw Manockjee Petit has expressed the opinion that it would have been proper to require the stamping of the breadth as well as the length on piece goods He made the same suggestion to the Committee, and no doubt it is in accordance with the principle of the Bill, It was, however, considered that the proposal was unnecessary, and therefore inexpedient The buyers of piece-goods can easily inform themselves of the width of such goods by inspection, and under this condition they are considered quite competent to protect their own interests Any incorrect marking of width would, of course, be an infraction of the law In dealing with a subject of so much difficulty and complexity it would be too sanguine to expect perfection, and it is quite possible that some modification of the law may be called for in the early future, but I have authority for saying that the Chamber of Commerce accepts the responsibility of recommending the legislature to pass the Bill in its present form"

The Motion was put and agreed to

MADRAS CORONER'S BILL

The Hon'ble MR HUTCHINS moved that the Report of the Select Committee on the Bill to abolish the Office of Coroner of Madras be taken into consideration He said —"The Bill is a short one and its general effect may be stated in a few words The second and third sections repeal such parts of the existing law as require the appointment of a Coroner The fourth section repeals a clause in the Code of Criminal Procedure which prevents the police of Madras from holding inquests under sections 174 to 176 of that Code, and provides that those sections shall be read with certain modifications within the limits of the City of Madras The practical effect of the measure therefore will be that inquests will be held in future by certain specified police officers instead of by the Coroner, and, subject to the modifications already alluded to, the system will be that which prevails throughout British India, including nearly all its largest towns

'Under section 174 the officer will usually be the officer in charge of the station, but, like the Coroner, he is required to associate with himself a jury or panchâyat of respectable neighbours According to the Code and the Bill as drafted, the jurors would be two or more, but in the Select Committee we thought it more prudent to require five at the least according to the present practice under the Coroner They have to draw up and sign a report or inquest paper, showing the apparent cause of death and full particulars of any marks of injury also, as far as it can be ascertained, the nature of the weapon or instrument, if any, by which such injuries seem to have been inflicted. To enable them to do this, the station house-officer, or other person presiding, is required by sub-section (3) to cause a *post mortem* examination to be held by the district surgeon or such medical officer as the Government may direct He is bound to do this

whenever the death appears to have been caused by violence, whenever there is any doubt about the cause of death, and whenever there are any other circumstances which seem to render such an examination desirable He is also required with the jury to examine all persons apparently acquainted with material facts which may throw light on the case

"Then, under section 175, the Local Government and, subject to its control the Commissioner, are empowered to make rules prohibiting the station house-officer from closing the inquest when the presence or sanction of a superior officer may be considered necessary The most important rules contemplated are, that whenever there appears serious ground for suspicion the inquest shall be held by an inspector or officer of still higher grade, and that in other cases the body shall not be burnt or interred till such superior officer has seen and considered the proceedings Lastly, by section 176, the Chief Presidency Magistrate, or some other Magistrate appointed by him, is required in case of a death in prison or police custody, and authorised in any other case, to supersede the action of the police and himself hold such investigation as may be necessary

"It will thus be seen that the lowest officer by whom any inquest whatever can be held is a station house officer, and I am glad to say that the Government of Madras, recognizing the responsibility which the legislature has thought fit to cast upon an officer in charge of a station, has recently assigned him a special allowance, over and above the pay of his grade, which will afford a material guarantee for the faithful performance of his duties Further, his proceedings will be forthwith reviewed by his divisional superior, and, whenever there is serious ground for suspicion of crime, his action will be stayed and superseded by an officer of superior rank or, if a Magistrate sees cause to intervene, by a regular magisterial investigation

"So much as to the officer by whom future inquests will be conducted I have no doubt that the Madras police can be safely entrusted with the duty, and no petitions against the Bill have been received, but I have reason to believe that the nature and effect of an inquest is misunderstood in some quarters, and I would ask leave to make a few short remarks on that point also

"An inquest is not a judicial enquiry in the sense that a decision then arrived at has any conclusive effect whatever Its object is simply to place on record the apparent cause of death, and secure that a sufficient medical examination is held before it is too late The verdict is merely a contemporaneous record of things seen and *primâ facie* conclusions, and would not in itself, at all events not in a criminal case, be even *primâ facie* evidence either of the existence of those things or the correctness of those conclusions Nor does the enquiry extend beyond the apparent cause of death An instance which will be familiar to every one in Madras is the terrible fire which occurred in the People's Park on the last night of 1886 The Coroner's inquisition was very brief he stayed his hand as soon as it was made clear that the deceased had met their death from burning When subsequently the Government desired to have the origin of the fire investigated, they made use of the Coroner's agency, it is true, because there was no other agency available, but they had to award him special remuneration for presiding at the enquiry as it was outside his proper duties Under the present Bill such an investigation would be held by a Presidency Magistrate

"I think that with the safeguards I have indicated and under the eye of the very efficient Madras Press the duty of drawing up a record of visible injuries, of the medical opinion and the apparent cause of death may safely be entrusted to the Madras police I now move that this Bill be taken into consideration"

The Hon'ble THE MAHARÁJÁ OF VIZIANAGRAM said —"Before this Bill will receive Your Excellency's final sanction I beg to submit that while I fully agree with every cogent reason lucidly set forth in one of the leading columns of the *Madras Mail*, a most reasonable and reliable journal in that presidency, I saw no objection to subscribing my name to the Report of the Select Committee now under Your Excellency's consideration for two reasons —the first is that the Bill only gives the requisite power to the Madras Government, but does not directly abolish the office of Coroner, and my second reason is that I have

every faith that the Government of Lord Connemara will not put this or any other Act into execution unless they see very strong reasons for their doing so"

The Motion was put and agreed to

The Hon'ble MR HUTCHINS also moved that the Bill, as amended, be passed

The Motion was put and agreed to

The Council adjourned to Friday, the 8th March, 1889

S HARVEY JAMES,
Secretary to the Government of India,
Legislative Department

FORT WILLIAM,

SUPPLEMENT TO

The Gazette of India.

No 10 } CALCUTTA SATURDAY MARCH 9, 1889

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such Official Papers and information as the Government may deem it be of interest to the Public and such as may usefully be made known The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT regularly on a payment of five Rupees per annum if delivered in Calcutta eight Rupees if sent by Post The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta nine if sent by Post

No Official Orders Notifications the Publication of which in the GAZETTE OF INDIA is required by Law or which it has been customary to publish in the CALCUTTA GAZETTE will be included in the SUPPLEMENT for such Orders and Notifications the body of the GAZETTE must be looked to

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and prospects of the Crops

Madras —*For week ending 2nd March, 1889* —Rainfall slight in Tinnevelly, Chingleput, Madura, Coimbatore, Nilgiris, Salem, and Malabar, none elsewhere More rain wanted in Ganjam, Vizagapatam, Cuddapah, Trichinopoly, Tinnevelly, Coimbatore and Salem Standing crops generally good, but withering in parts of Cuddapah, Trichinopoly and Coimbatore, affected by disease in parts of Bellary Pasture deficient in Coimbatore, Ganjam and Salem Prices rising in ten districts, falling in two and stationary in others General prospects favourable, except in Ganjam and Coimbatore Labourers employed last day of week on Rushikulya works 5,591, on Gopalpur Canal 8,949

Bombay —*For week ending 6th March, 1889* —Rain in parts of Upper Sind Frontier Late crops in three talukas of Surat and one of Kanara unsatisfactory, exotic cotton in parts of Dharwar blighted Opium in Baroda good Harvesting progressing generally Probable outturn of late crops in Satara from eight to twelve annas Fodder scarce in Khandesh and Nasik and in parts of Poona and Kathiawar Prices rising in two talukas of Nasik

Bengal —*For week ending 5th March, 1889* —More rain is reported to have fallen in Behar, in Central and Western Bengal, and in Chota Nagpore Prospects of the *rabi* harvest are generally fair, although in Behar some damage has been done by rain and hail The damage to the poppy crop is considerable in the Gya, Sarun, and Monghyr districts Ploughing and early sowings are proceeding satisfactorily Spring rice is doing well The latest report regarding the affected tract in the Patna division shows that the state of affairs in Chumparun and Mozufferpore is stationary, and that in Durbhunga distress in a few spots has become more intense.

North Western Provinces and Oudh —*For week ending 6th March, 1889* —Weather generally clear and seasonable *Rabi* crops ripening Prospects fair Poppy mostly in flower and promises well Markets well stocked Prices falling Condition of cattle good Fodder somewhat scanty

Punjab —*For week ending 6th March, 1889* —Slight rain in Ferozepore, Rawalpindi, and Shahpur districts Prices unsettled in Delhi, falling in Hissar, Ferozepur, Rawalpindi, and Shahpur, stationary elsewhere Ploughing for *kharif* commenced Crops are flourishing throughout the Province Crops are reported to be greatly damaged in some villages of Lahore district by hail and floods and also in some places in Shahpur by floods Stock cattle are healthy Fodder sufficient except in Hissar Poppy weeding in progress in Jullundur

Central Provinces —*For week ending 6th March, 1889* —Slight rain in the northern districts Winter crops being harvested Outturn poor in northern and eastern districts Good elsewhere Cattle generally in fair condition Prices rising in Saugor and steady in other districts

Burma —*For week ending 2nd March, 1889* —Slight rain fell in Bhamo, none elsewhere Crop prospects good The price of paddy shows little fluctuation

Assam —*For week ending 6th March, 1889* —Weather seasonable Slight rain in Lakhimpur and Naga Hills Sowing of early rice progressing Pressing of sugarcane and gathering of mustard still continues Rain wanted for tea

Mysore and Coorg —*For week ending 6th March, 1889* —No rain in Mysore Condition of crops good, though wet crops in parts of the Tumkur and Kolar districts are reported to have been slightly damaged by insects and want of rain, respectively Sowing operations still continue, and outturn of crops harvested is favourable Pasturage and water supply diminishing in parts of the Mysore and Kolar districts Prices slightly fallen in the Bangalore district

Water-supply very scanty especially in South Coorg No standing crops

Berar and Hyderabad —*For week ending 6th March, 1889* —Harvesting of *rabi* continues Prospects continue favourable Cattle healthy Fodder and water insufficient in some districts Prices remain steady or show a slight fall

No rain during the week in Hyderabad Weeding of hot-weather crops continues *Rabi* being harvested Prices stationary

Central India —*For week ending 6th March, 1889* —No change of importance reported this week in condition of crops and weather

Rajputana —*For week ending 6th March, 1889* —Slight rain in Bickaneer Agricultural operations good Standing crops satisfactory, except in Kherwara and Kishengurh Agricultural stock good Pasturage or fodder sufficient except in Kherwara, Meywar, Marwar, and parts of Jeypore and Sirohi Prices rising in Meywar

Nepal —*For week ending 28th February, 1889* —Slight rain during the week with hailstorm Weather fair Crops good

No 584 dated 5th February, 1886

the Governor General in Council is pleased to make the following rules

[Note—*The following rules do not modify or affect the rules relating to the pilgrim traffic between India and the Red Sea Ports contained in the Notification of the Department of Finance and Commerce No 986 dated the 15th February 1884 or any other subsequent Notifications or rules concerning the said traffic issued in modification of the said Notification*]

A—Food, fuel, and water

I—(1) In the case of every ship to which the said Act applies, the scale on which food fuel, and water are to be supplied to the passengers per head per diem shall, subject as regards food to the provisions of section 17 of the Act, be as follows—

	For passengers bound for ports *within* 48 hours sail	For passengers bound for ports *over* 48 hours sail
(*a*) *Food of fair quality*—		
Rice	1 lb	1 lb
Flour or ship's biscuit		4 oz
Pulse	4 oz	4 oz
Ghee or oil	½ oz	1 oz
Onions	2 oz	2 oz
Pumpkins yams, or other vegetables		2 oz
Tamarind		1 oz
Condiments (chillies, garlic, coriander seed, and turmeric)	½ oz	½ oz
Salt	½ oz	½ oz
(*b*) *Fuel*—		
Firewood	2 lbs	2 lbs
(*c*) *Water*—		
Fresh water to be stored in iron tanks or sweet casks	1 imperial gall	1 imperial gall

[NOTE—In the case of ships sailing from ports in the Presidency of Madras the scale of tamarind condiments and salt shall be double that specified above and an ounce of tamarinds shall be supplied in the case of passengers bound for ports within 40 hours sail]

(2) In the case of steam ships carrying an apparatus for distilling fresh from salt water, a supply equal to five sevenths of a gallon per head per diem shall suffice

(3) In Calcutta, Bombay, and Rangoon such water shall be obtained from the municipal pipes, and in Chittagong from the port water works

B—Medical stores and other appliances and fittings for maintaining health, cleanliness, and decency

II—(1) Every such ship shall have on board—

(*a*) if she carry a surgeon, a supply of medicines and surgical appliances as set forth in Schedule A, hereunto annexed,

(*b*) if she do not carry a surgeon, a supply of medicines and appliances as set forth in Schedule B, hereunto annexed, together with written or printed instructions for their use in a language which the commander or some other officer of the ship can read, provided that if the ship is about to commence a "short voyage" only as defined by section 5 of the Act, the ship need only have on board the medicines and surgical appliances mentioned in Schedule C hereunto annexed

(2) The medicines and surgical appliances above specified shall be supplied for the use of the passengers whenever circumstances so require and if the medical officer, or, where there is none, the master of the ship, omits, when circumstances so require, to supply the same, he shall be punished with fine which may extend to two hundred rupees

III.—(1) Every such ship carrying more than one hundred passengers as defined in the Act shall have the following hospital accommodation, or the following materials for the construction of hospital accommodation for the passengers

A.—In the case of ships making long voyages

(*a*) There shall be a permanent hospital set apart on the upper deck and fitted up either in the poop or deck house This hospital shall contain not more than six bunks, and shall have a superficial deck area of at least 144 feet, and not less than 864 cubic feet of air space It shall be lighted and ventilated to the satisfaction of the surveying officers and shall be provided with a raised floor or platform at least four inches off the deck Every permanent hospital must be made as secure as any other deck house, and the roof must be well caulked and covered with painted canvas In all such permanent hospitals, iron fittings are preferable to wood No case of small pox, cholera, yellow fever, or plague shall on any account be treated in the permanent hospital

(*b*) To provide for the treatment of such cases of sickness as it may be considered desirable to separate (such as small pox cholera, yellow fever, or plague) and for any general outbreak of sickness when the permanent hospital accommodation becomes insufficient, each ship shall carry the materials for the construction of a temporary hospital upon its upper deck The part of the upper deck upon which such hospital shall be erected shall be pointed out and measured off by the surveying officers The framework of the hospital may be either of iron (in pieces that can be easily fitted together) or of wooden spars or bamboos The roof must be tented, and both that and the side walls must be made of stout canvas and be perfectly water tight, due provision being at the same time made for ventilation The superficial area of the floor shall be not less than 144 feet, and such floor shall be raised at least four inches from the deck Sheet iron is preferable as the material of the floor

B.—In the case of ships making short voyages

(*c*) Each ship shall carry the materials for the erection of a temporary hospital, as described in clause (*b*) above, for the treatment of cases of the kind referred to in the said clause, provided that the superficial area reserved for such hospital need not be more than 72 feet This space must always be deducted from the area measured for passengers on board of such ships

(2) The permanent hospital, in the case of ships provided with the same, shall be available at all times for the use of sick passengers (other than those suffering from small-pox, cholera, yellow fever, or plague), and the temporary hospital shall always be erected at once and made available for the use of sick passengers whenever the circumstances as described above so require

(3) If the master of any ship omits either to keep any hospital available for the use of sick passengers or to erect a temporary hospital as required by this rule, he shall be punished with fine which may extend to two hundred rupees, and with a further fine of twenty rupees for every day after the first during which the omission continues

IV—(1) Every such ship shall be fitted with not less than two privies sufficiently screened from public view and readily accessible and available at all times for the use of the passengers, and with one more such privy for every 100 passengers, or part of that number, carried in excess of 100, but no privies shall be allowed in the between decks

(2) A proportion of such privies, in any case not less than one, if there be any females among the passengers, shall be set apart for the exclusive use of females, such proportion corresponding, as nearly as may be, to the proportion of female to male passengers

V—Every such ship shall be provided with and have available for the use of the passengers not less than two places for washing sufficiently screened from public view, whereof a full proportion, as described in Rule IV, shall be set apart exclusively for females A sufficient number of hand pumps shall also be provided for supplying seawater for purposes of ablution

VI—On every such ship cattle shall be kept securely penned in, so as not to inconvenience the passengers

VII—(1) Every such ship shall be provided with not less than two cabooses or cooking ranges, on deck, properly housed and covered, to which passengers shall have ready access at certain times in each day The ranges shall be made of substantial plate iron lined inside with bricks, and raised at least four inches from the deck, with an outlet or chimney at the top for the escape of smoke Each range shall contain at least five cooking places, and in additional range shall be provided for every two hundred passengers carried in excess of one hundred Cooking on board in the passengers' own stoves is prohibited, and any passenger so cooking or attempting to cook shall be punished with fine which may extend to one hundred rupees

(2) The crew of the ship shall not be allowed to use the cooking ranges set apart for passengers during the period passengers are on board, but shall be provided with a separate cooking range

(3) In the case of ships engaged in the coasting trade and carrying passengers on short voyages from port to port, who do not ordinarily cook food on board, the number of cooking ranges may be reduced to such number, not being less than two, as may seem adequate to the requirements of the passengers

VIII—The master of any ship omitting to keep any privy, washing place, or cooking range available for the use of the passengers, or any cattle securely penned in, or allowing the crew of the ship to use any cooking range set apart for passengers in breach of the foregoing rules, shall be punished with fine which may extend to two hundred rupees, and when the breach is a continuing one with a further fine of twenty rupees for every day after the first during which the breach continues

C—Boats, anchors, and cables

IX—Every such ship shall be provided with boats according to the scale laid down in the annexed Schedule, all such boats being fully fitted with all usual appliances

Schedules of boat accommodation

Registered tonnage of ship	Number of boats not less than	Sailing Vessels		Steam Vessels	
		Minimum cubic contents of life-boats	Minimum cubic contents of all the boats of the ship	Minimum cubic contents of life boats	Minimum cubic contents of all the boats of the ship
		Feet	Feet	Feet	Feet
Less than 200 tons	2	90	236 4	138	368 4
200 tons and less than 400 tons	3	120	427 2	181 2	657
400 , 600 ,	4	150	723	198	877 2
600 , 800 ,	5	198	1,038	198	1 038
800 1,000 ,	5	240	1,227	240	1 227
1,000 , 1 250	6	540	1 527	540	1 527
1 250 1 500 ,	6	540	1 800	540	1,800
1 500 upwards	7	556 8	2,160	556 8	2 160

In ships of 100 tons and upwards no boat of less than 90 feet of cubical contents is to be counted in the number
In ships of 600 tons and upwards two of the boats should be life boats
No greater number of boat need be taken than are sufficient to carry all the crew and passengers on board
The cubic contents of the boats in the foregoing table are ascertained by multiplying their outside length their outside width and their inside depth together and then the product by 0 6

X—Every such ship shall be provided with not less than three anchors and cables

D —Instruments for purposes of navigation

XI —Every such ship shall be provided with—

(*a*) not less than two good compasses, and, if she be an iron ship, with a record of the deviation of her compasses on every point entered in the logbook,

(*b*) charts suitable for the voyage she is about to undertake,

(*c*) not less then one chronometer and not less than two sextants or quadrants and barometers unless her size be under 240 tons, and she be bound on a short voyage, in which case it shall suffice if she be provided with a sextant or a quadrant

E —Apparatus for extinguishing and precautions against fire

XII —Every such ship shall be provided—

(*a*) if she be a steam ship, with hose sufficient to reach from her engines to her stem and taffrail,

(*b*) if she be a sailing ship with one fire engine or force pump with hose sufficient to reach from her stem to her taffrail, and if her tonnage exceed 800 tons, with a second such engine or force pump, with like hose, and

(*c*) in the case both of steamships and sailing ships, with fire buckets in the proportion of three for every 100 tons up to 600 and two for every 100 tons above 600, provided that 50 in all shall suffice

XIII —If fire annihilators or fire engines are carried, they shall be placed by the master under the special charge of one of the principal officers of the ship and the ship's carpenter, who should be held responsible that, with the buckets and other fire apparatus, they are kept in a state fit for immediate use The engine shall be worked not less than once a week, and shall be kept in proper order As soon as possible after leaving port, the officers and crew shall be divided into parties and assigned to stations in case of fire The master of any such ship failing to comply with the requirements of this rule shall be punished with fine which may extend to two hundred rupees

XIV —The cargo of every such ship shall before leaving port be properly stowed away, and the decks cleared of any loose straw, hay, or other inflammable material If any such ship leaves port without having the cargo so stowed and the decks so cleared, the master shall be punished with fine which may extend to two hundred rupees

XV —Immediately before leaving port, the passengers of every such ship shall be called on to deliver up whatever lucifer matches, gunpowder or other inflammable articles they may have about them Any passenger omitting or refusing to deliver up any such articles when called upon to do so shall be punished with fine which may extend to one hundred rupees

XVI —No naked lights shall on any account be used in the hold or store rooms or in the between decks except under trustworthy superintendence No person shall read in bed with a naked light Smoking between decks is strictly prohibited Spirits must never be opened in the hold, but should be hoisted on deck for the purpose Any person committing a breach of this rule shall be punished with a fine which may extend to two hundred rupees

Appliances for saving life and making signals of distress

XVII —Every such ship shall be provided with an adequate supply of life buoys, not less than four for each vessel, signals of distress, and inextinguishable lights fitted for attachment to the life buoys

Miscellaneous

XVIII —Every such ship to which clause (4) of section 18 of the Act does not apply shall be provided with a single awning of stout canvas over the whole of the portion of the deck used by the passengers

XIX —(1) Certificate B, provided for in section 11 of the Act, shall not be granted until the officer appointed to grant the same is satisfied that, in addition to the food, fuel, and pure water required by clause (*c*) of that section, the medical stores and other appliances, the fittings for maintaining health, cleanliness, and decency, the boats, anchors, and cables, the instruments for purposes of navigation, the apparatus for extinguishing fire, the appliances for saving life and making signals of distress, the awning for the portion of the deck used by the passengers, and the upper deck space for each passenger required by the foregoing rules have also been provided on board

(2) The certificate B shall stat the same have been so provided

SCHEDULE A

[REFERRED TO IN RULE II (*a*)]

Proportion of medicines necessary for a ship carrying native passengers on a "long voyage" and having on board a Surgeon

Name of medicines &c	For 1 to 100 passengers and under	For 100 to 200 passengers	For 200 to 300 passengers	For 300 to 400 passengers
Calomel	One ounce and a half	Two ounces	Three ounces	Four ounces
Blue pill	One ounce	Ditto	Ditto	Ditto
Rhubarb powder	Ditto	Ditto	Ditto	Ditto
Compound jalap powder	Six ounces	Eight ounces	Twelve ounces	Sixteen ounces

* A powder containing not less than 20 per cent of pure carbolic or cresylic acid

When the voyage which the passenger ship is about to make is longer than from any port in India to any port in the Red Sea an additional quantity of the medicines above specified to the extent of 25 per cent should be carried

SCHEDULE C

[REFERRED TO IN RULE II (*b*)]

Quantity of medicines surgical appliances, &c, necessary for a ship carrying native passengers on a "short voyage"

Aperient pills	3 dozens	Compound jalap	1 oz
Common astringent pills	3	Adhesive plaster (spread)	1 yard
Cholera pills	6	Oil of peppermint	1 oz
Ipecacuanha powder	1 oz	Scales and weights	1 set
Quinine	1	Splints common	1
Castor oil	2 bottles		

Disinfecting powder and fluid as in schedule B and in the quantities mentioned in the second column of the schedule

No 1355—In exercise of the powers conferred by section 55 of the Native Passenger Ships Act, X of 1887, and in supersession of the following Notifications, namely —

Department of Finance and Commerce—
No 1366, dated 26th May 1882
No 359, dated 20th January 1882,
No 854, dated 9th May 1884,

the Governor General in Council is pleased to declare—

I —That for the purposes of the Act, the seasons specified in the second column of the following schedule shall, as specified in the third column of that schedule be deemed to be "seasons of fair weather" and "seasons of foul weather" on the coasts specified opposite to them in the first column of that schedule respectively —

SCHEDULE

Column 1 *Coasts*	Column 2 *Seasons*	Column 3 *Fair or foul weather*
(1) Sind Bombay and Malabar (as far south as Karwar)	1st January to 15th May	Fair
	16th May to 31st August	Foul
	1st September to 31st December	Fair
(2) Western India (south of Karwar)	1st January to 15th May	Fair
	16th May to 15th September	Foul
	16th September to 31st December	Fair
(3) Ceylon (Gulf of Manaar)	1st January to 15th April	Fair
	16th April to 31st August	Foul
	1st September to 31st October	Fair
	1st November to 31st December	Foul
	Note—The whole year shall be deemed to be a season of fair weather for ships plying between the ports of Devipatam and Pesalai and between Paumben and Venakalai, provided they make the passage north of Adam's Bridge in the south west, and south of it in the north-east, monsoon	
(4) Madras (Coromandel)	1st January to 15th April	Fair
	16th April to 31st July	Foul
	1st August to 15th October	Fair
	16th October to 31st December	Foul
(5) Bengal (including Orissa) and Arakan	1st January to 31st March	Fair
	1st April to 15th August	Foul
	16th August to 30th September	Fair
	1st October to 15th November	Foul
	16th November to 31st December	Fair
(6) Rest of Burma	1st January to 30th April	Fair
	1st May to 31st August	Foul
	1st September to 31st December	Fair

II —(1) That, for the purposes of the said Act, voyages from Negapatam or ports north of Negapatam on the Coromandel coast to Moulmein or Rangoon or ports north of Rangoon on the east coast of the Bay of Bengal, touching at any one or more of the ports between Cocanada and Gopalpur, inclusive, shall, when performed by steamships between 1st September and 30th April, be deemed to be short voyages,

(2) That, for the purposes of the said Act, voyages from Moulmein or Rangoon or ports north of Rangoon on the east coast of the Bay of Bengal, to Negapatam or ports north of Negapatam on the Coromandel coast, whether touching or not at any one or more of the ports on that coast, shall, when performed by steamships between the 1st of May and the 31st of August, be deemed to be long voyages

No. 1356—In exercise of the powers conferred by section 56 of the Native Passenger Ships Act, X of 1887, and in supersession of the following Notifications, namely —

Home Department—
No 31, dated 2nd February, 1882,

Department of Finance and Commerce—
No 2339, dated 14th July, 1882
No 1441 dated 17th June, 1885
No 1408, dated 25th March, 1886,
No 697, dated 10th February, 1887,

the Governor General in Council is pleased to prescribe—

(1) that if in any ship and for any voyage to which the Act applies any passenger is by contract entitled to be accommodated with space in excess of the minimum which section 18 or section 21 of the said Act requires the ship to contain for each passenger, the said ship shall contain for each such passenger the space to which he is so entitled, and in addition thereto for every other passenger the space required by section 18 or section 21 of the said Act, as the case may be

(2) that if in any ship and for any voyage to which the Act applies the height between decks is less than six feet, the cubic space required for every passenger under sections 18 and 21 of the Act shall be increased by one fourth

(3) that in every ship to which the Act applies which proceeds on a long voyage so much of the upper deck shall be left unencumbered as to allow at least six superficial feet thereof for each passenger proceeding on the voyage

(4) that every ship to which the Act applies, which may be permitted to carry native passengers on two between decks, shall contain space in the lower between deck or orlop deck for each such passenger as follows

Short Voyages

	Fair weather		Foul weather	
	S ft	C ft	S ft	C ft
Steamships	12	72	15	90

Long Voyages

	S ft	C ft
Sailing ships	20	120
Steamships	15	90

but no such passenger shall be carried on any lower between-deck or orlop deck when the height of such deck is less than six feet from deck to deck

(5) that no ship to which the Act applies making a voyage between India and any of the ports in the Red Sea shall carry native passengers on two between decks

(6) that every ship to which the Act applies performing a voyage either between a port on the west coast of India and a port in the Red Sea, or between Aden and any port on the east coast of Africa, south of 10 degrees north, whether the ship touches at any intermediate port or not, shall, if the ship is propelled by sails, contain in the between decks not less than 12 superficial feet and 72 cubic feet of space for every passenger, and shall, if the ship is propelled by steam, or partly by steam and partly by sails, contain in the between decks not less than 9 superficial feet and 54 cubic feet of space for every passenger

(7) that the space to be allotted to each passenger carried on board steamships making voyages between Moulmein or Rangoon or ports north of Rangoon on the east coast of the Bay of Bengal and Negapatam or ports north of Negapatam on the Coromandel coast, whether touching or not at any one or more of the ports on that coast, shall be either—

(*a*) in the between-decks at least 5 superficial feet and 30 cubic feet of space for every passenger, provided that the ships are furnished with substantial bulwarks and a double awning or with other sufficient protection against the weather, and that the upper and between decks are wholly available for the reception of passengers, or

(*b*) in the case of voyages performed between the 1st of September and the 30th of April, the spaces prescribed by section 18 of the Act for voyages performed by ships propelled by steam in seasons of fair and foul weather respectively

कासंडी तांब्याची—A copper pot	0	8	0

have been discovered in Survey No 46 at Loni Vyanknath, Taluka Shrigonda, of the Ahmednagar District

All persons claiming the said treasure, or any part thereof, are therefore required to appear, either in person or by agent, at the office of the Mamlatdar of Shrigonda on the 20th July, 1889 and to assert their claims, if any, to the said treasure, so that the matter may be enquired into and determined by the Mamlatdar in accordance with the provisions of the said Act

G WADDINGTON,
Collector of Ahmednagar

CAMP PARNER
The 5th March 1889

NOTICE

It is hereby notified under Section 5 of the Indian Treasure Trove Act, VI of 1878 that on the 1st January, 1889, the undermentioned articles, valued at about R19 were found under ground near a vacant house site said to have belonged to one Vidantha Chariar of Zemin Kottur Conjeevaram Taluk, Chingleput District, by Para Karian —

1 Seventeen gold coins
2 A small gold samanthippu'
3 Gold wires (surulkambi)
4 A piece of gold wire
5 A piece of gold wire for ear ring

All persons claiming the said treasure, or any portion thereof, are hereby required to appear personally or by agent before the Collector of Chingleput District, on the 1st August, 1889, at Saidapet, with a view to their claims being enquired into and disposed of according to law

J IEFWARNER,
Collector of Chingleput

CAMP KARUNGULI
The 6th March 1889

NOTICE

It is hereby notified under Section 5 of the Indian Treasure Trove Act, VI of 1878, that on the 8th December, 1888 treasure consisting of six gold pagodas valued at R30, was found by one Golla Timmigadu in a copper amulet buried in a ruined house in Atmakur, Nandikotkur Taluq Kurnool District, Madras Presidency, which he (Timmigadu) had purchased from one Komati Bontala Gurumurti of the same village

All persons claiming the said treasure or any part thereof, are hereby required to appear personally or by agent before the Collector of Kurnool at his office, on the 12th day of July 1889 in order to the matter being enquired into and determined in accordance with the provisions of the Act

C KOUGH,
Collector of Kurnool

PART V

Bills introduced into the Council of the Governor General of India for making Laws and Regulations or published under Rule 22

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Report of the Select Committee on the Bill to authorize the imposition of a Patwari rate in North Western Provinces and Oudh and make certain provisions respecting Kanungos and Patwaris in those provinces was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 15th March, 1889 —

WE, the undersigned, Members of the Select Committee to which the Bill to authorize the imposition of a Patwari-rate in the North Western Provinces and Oudh and make certain provisions respecting Kanungos and Patwaris in those Provinces was referred have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto

From Chief Secretary to Government North Western Provinces and Oudh No 357—1 110 dated 9th March 1889 and enclosures [Papers No 1]

Opinion by the Hon'ble Muhammad Ali Khan [Paper No 2]

2 *Section 2* —We have proposed to save rules and appointments made, and patwaris circles formed under previous enactments

3 *Sections 4 and 9* —We have, at the suggestion of the Government of the North Western Provinces and Oudh, set forth the definitions at length instead of merely referring to the North Western Provinces and Oudh Local Rates Acts

4 *Sections 5 and 13* —We have considered it advisable to state expressly that the salaries of supervisor kanungos are debitable to the Patwari Fund

5 *Sections 7 and 15* —Where land is rent free or rent is payable in kind or in service, it must, we consider be left to the Local Government to lay down the rules and conditions under which the patwari cess is to be computed and payable and it would be inexpedient to compel tenants or landlords to resort to the Courts for the purpose of determining the extent of tenants' liability in such cases

6 *Sections 8 and 16* —The amendment of sections 7 and 15 has suggested a slight amendment of sections 8 and 16

7 *Sections 9 (5) and (6), 13 and 15* —In Oudh, in the case of sub settlements of whole villages, the whole of the rate will be paid by the inferior proprietors, who will realise the whole of the cess from the tenants, while sub proprietors of plots of land, not being whole villages, will be treated as tenants and pay the cess only on the rents actually paid by them

8 *Section 11* —We have, at the request of the taluqdars and with the approval of the Lieutenant Governor and Chief Commissioner, applied to Oudh the provisions of sections 25 28 of the North Western Provinces Land revenue Act, 1873, respecting the appointment of patwaris

9 *Section 17*—The Government of the North Western Provinces and Oudh is not prepared without further deliberation to adopt the rule in section 151 of the Punjab Land revenue Act, 1887 Section 17 of the Bill has been modified accordingly

10 *Section 18*—This section provides that, except with the previous sanction of the Governor General in Council, the annual contributions of the Government to the Patwari Funds shall not in the aggregate be less than ten lakhs of rupees

11 *Section 10*—This section follows section 40 of the Punjab Land revenue Act, 1887

12 The publication ordered by the Council has been made as follows —

The 14th March, 1889

No II

A Bill to authorise the imposition of a Patwari rate in the North-Western Provinces and Oudh, and make certain provisions respecting Kanungos and Patwaris in those Provinces

WHEREAS it is expedient to authorise the imposition of a patwari rate in the North Western Provinces and Oudh, and make certain provisions respecting kanungos and patwaris in those provinces, It is hereby enacted as follows —

Title and commencement

1 (*1*) This Act may be called the North-Western Provinces and Oudh Kanungos and Patwaris Act, 1889, and

(*2*) It shall come into force on the first day of April, 1889

XIII of 1882. Repeal

2 (*1*) The Kanungos and Patwaris Act, 1882, is hereby repealed,

(*2*) But all rules and appointments made and patwaris' circles formed under that Act or any enactment thereby repealed shall, so far as may be, be deemed to have been respectively made and formed under this Act

Division of Act into Parts and local extent of the several Parts

3 (*1*) The remainder of this Act is divided into Parts as follows, namely —

Part I —North Western Provinces

Part II —Oudh

Part III —North Western Provinces and Oudh

[Act XIII 1882, s 11] (*2*) Part I extends to the North Western Provinces, Part II to Oudh, and Part III to the North Western Provinces and Oudh

---

PART I

NORTH WESTERN PROVINCES

[Act III 1878, ss 3 and 4] Definitions

4 In this Part, unless there is something repugnant in the subject or context,—

(*1*) "land" means land used for agricultural purposes, or waste land which is culturable

(*2*) "estate" means the whole or any part of a village separately assessed to land revenue or separately exempt from the payment thereof

(*3*) "landlord" means the person responsible for the payment of the land revenue, if any, assessed on an estate, whether as owner, mortgagee in-possession or otherwise, and includes a muafidar, nazránadar or other person holding land whereof the revenue has, either wholly or in part, been released, compounded for, redeemed or assigned

(*4*) "tenant", used with reference to any land, means a tenant holding directly from the landlord of such land, and includes an under-proprietor of such land and a person bound to pay or deliver anything to such landlord in respect of the use or occupation of such land

(*5*) "annual value" means,—

(*1*) where the settlement of the land-revenue of an estate is liable to periodical revision, double the amount of the land revenue for the time being assessed on the estate, and

(*2*) where such settlement is not liable to such revision or where the land revenue has been wholly or in part released, compounded for, redeemed or assigned, double the amount which, if the settlement were liable to such revision, would be assessable as land revenue

(*6*) "rent" means whatever is payable to a landlord by a tenant on account of the use or occupation of land by the tenant and

(*7*) "year" means the year commencing on the first day of April

[Act III 1878, ss 4 and 5] Patwari rate

5 (*1*) Every estate shall be liable to the payment of such rate not exceeding two per cent on its annual value, as the Local Government imposes, for the purpose of defraying the salaries of patwaris and supervisor kanungos and any charges incurred for the supervision, maintenance and correction of patwaris' records and papers, including charges incurred in the preparation of village maps

(*2*) Such rate, hereinafter referred to as the patwari rate, shall be payable by the landlord independently of, and in addition to, any land revenue assessed on the estate and any rate or cess leviable under, or recognised by, the North Western Provinces Local Rates Act, 1878, and any sum due on account of the patwari rate shall be recoverable as if it were an arrear of land revenue due in respect of the estate

III of 1878

[Act III, 1878, s 6]

[Act III, 1878, s 19]

(*3*) The Local Government may, by notification in the official Gazette,—

[Act III 1878, s 20 (*a*)] (*a*) prescribe by what instalments, and at what times and places, the patwari-rate is to be paid, and by whom it is to be assessed and collected,

[Act VIII 1879, s 5] (*b*) fix the periods for which, in the cases referred to in clause (*2*) of the definition of the expression "annual value" in section 4, assessments to the patwari-rate are to have effect,

[Act III 1878 ss 17 and 18 and Act VIII 1873 s 75 (2)]

(c) determine the cases in which the conditions subject to which, and the officers to or by whom, orders with respect to the assessment or collection of the patwari-rate are to be appealable or subject to revision and

[Act III 1878, s 20 (c)]

(d) exempt any portion of the North Western Provinces from the operation of this Part or exempt any estate from liability to pay the whole or any part of the patwari rate, and cancel such exemption

[New]

North Western Provinces Patwari Fund

6 (1) There shall be formed for the North Western Provinces a fund, to be called the North Western Provinces Patwari Fund and there shall be placed to the credit thereof—

(a) the proceeds of the patwari rate and

(b) a contribution to be made thereto each year of such sum as the Local Government may allot from the general revenues at its disposal

(2) The fund so formed shall be exclusively applicable to the purpose mentioned in sub section (1) of the last foregoing section

(3) An account of the fund shall be published annually by the Local Government in the official Gazette

[Cf Act III 1878 s 9]

Payment of patwari cess by payer of patwari rate

7 (1) The landlord of any land in respect of which the patwari rate is for the time being payable shall be entitled to recover from the tenant of the land such a cess as is hereinafter mentioned that is to say —

(a) if the rent of the tenant is payable in money then a cess on such rent at the rate of two pies for every rupee thereof, or

(b) if the land is held rent free or rent in respect thereof is payable in kind or in service, then a cess equivalent as nearly as may be to one per cent of the rent in money which would on a reasonable assessment be payable in respect of the land

(2) The cess in respect of such land as is described in clause (b) of sub section (1) shall be computed, and be payable in such manner as the Local Government may by general or special rules in this behalf prescribe

[Act III 1878 s 16]

Recovery of rate or cess through Revenue Courts

8 Suits for the recovery of any sum on account of the patwari rate or for the recovery of the cess mentioned in the last foregoing section or the money equivalent of such cess, and appeals and other proceedings arising out of such suits shall be cognizable as if such suits had been included among the suits mentioned in section 93 of the North Western Provinces Rent Act, 1881 XII of 1881

PART II

OUDH

[Act IV 1878 s 3]

Definitions

9 In this Part, unless there is something repugnant in the subject or context —

(1) 'land' means land assessed to land-revenue and includes land of which the revenue has been wholly or in part released, compounded for, redeemed or assigned

(2) "estate" means the whole or any part of a village separately assessed to land revenue or separately exempt from the payment thereof

(3) 'landholder' means the person in receipt of the rent of any land whether as owner, mortgagee in possession or otherwise and includes an under proprietor with whom a sub settlement has been made of the whole village in which the land is situated

(4) 'tenant' means the person holding directly from the landholder and includes an under proprietor of land not being an under proprietor with whom a sub settlement has been made of the whole village in which the land is situated

(5) "annual value' means—

(1) where the settlement of the land revenue of an estate is liable to periodical revision, double the amount of the land revenue assessed on the estate and

(2) where such settlement is not liable to periodical revision or where the land revenue or a portion thereof has been released compounded for, redeemed or assigned double the amount which, if the settlement were liable to periodical revision, would but for such non liability, release composition, redemption or assignment be assessable as land revenue

(6) 'rent" means whatever is payable to a landholder by a tenant on account of the use or occupation of land by the tenant and

(7) 'year' means the year commencing on the first day of April

[Act XIII 1882, s 6]

Power to alter number and limits of patwaris circles

10 (1) With the previous sanction of the Local Government, the Deputy Commissioner may from time to time alter the number of patwaris circles in his district and the respective limits of such circles

[Act XIX, 1873, s 24] (2) A patwari shall be appointed to each circle whether the estates in such circle are assessed to land revenue or not

[Act XIX 1873 s 25] **Nomination and appointment of patwaris to fill vacancies**

11 (1) Whenever a circle is without a patwari, the proprietors of such circle, or their representatives in interest, shall, in accordance with local custom, nominate a person to be the patwari of the circle and he shall be appointed by the Deputy Commissioner or Assistant Commissioner

[Act XIX 1873 s 26] (2) In case of disagreement as to the nominee the Deputy Commissioner or Assistant Commissioner shall ascertain the local custom if any, and shall appoint the person nominated in accordance therewith

(3) Where no such custom can be ascertained the Deputy Commissioner or Assistant Commissioner shall appoint the nominee of those proprietors who represent the largest amount of annual value in the circle, or of their representatives in interest

(4) If an estate is held under direct management or if the proprietor of an estate is under the superintendence of the Court of Wards, the Deputy Commissioner or Assistant Commissioner shall be deemed to be the proprietor for the purpose of nominating a patwari under this section

[Act XIX, 1873 s 27] (5) If the persons in whom the nomination is vested neglect to nominate a successor to the patwari within fifteen days from the occurrence of the vacancy, the Deputy Commissioner or Assistant Commissioner shall call on them by notice to make the nomination, and, if they fail to do so within fifteen days from the receipt of the notice the Deputy Commissioner or Assistant Commissioner shall make the appointment

[Act XIX 1873 s 28] (6) If the persons in whom the nomination is vested nominate a person not qualified to perform the duties of a patwari, or in the nomination neglect to follow the local custom, the Deputy Commissioner or Assistant Commissioner shall refuse to appoint the nominee, and, if no fit person is nominated within fifteen days from the date of the notification of such refusal, shall himself appoint a person to the vacant office

Act XIII 1882, s 7] **Power to make rules respecting kanungos and patwaris**

12 The Local Government may make rules consistent with this Act—

(a) regulating the appointment of supervisor kanungos and the qualifications, remuneration, suspension, dismissal, duties and supervision of kanungos and patwaris, and

(b) prescribing the fines which may be imposed on kanungos and patwaris for neglect of duty

Cf Act IV, 1878, ss 4 & 5.] **Patwari rate**

13 (1) Every estate shall be liable to the payment of such rate, not exceeding one and a half per cent on its annual value, as the Local Government imposes, for the purpose of defraying the salaries of patwaris and supervisor kanungos and any charges incurred for the supervision, maintenance and correction of patwaris' records and papers, including charges incurred in the preparation of village maps

(2) Such rate, hereinafter referred to as the patwari rate, shall be payable by the landholder independently of, and in addition to, any land revenue assessed on the estate and any rate or cess leviable under, or recognised by, the Oudh Local Rates Act, 1878, and any sum due on account of the patwari rate shall be recoverable as if it were an arrear of land revenue due in respect of the estate IV of 1878

(3) The Local Government may, by notification in the official Gazette —

(a) prescribe by what instalments, and at what times and places the patwari rate is to be paid, and by whom it is to be assessed and collected, [Act IV, 1878, s 15.]

(b) fix the periods for which, in the cases referred to in clause (2) of the definition of the expression "annual value" in section 9, assessments to the patwari rate are to have effect, [Act VIII, 1879, s 5.]

(c) determine the cases in which, the conditions subject to which, and the officers to or by whom, orders with respect to the assessment or collection of the patwari rate are to be appealable or subject to revision and [Act IV, 1878 s 9, and Act VII 1873, s 75 (2)]

(d) exempt any portion of Oudh from the operation of this Part, or exempt any estate from liability to pay the whole or any part of the patwari-rate, and cancel such exemption [Act IV 1878, s 15 (c)]

[New] **Oudh Patwari Fund**

14 (1) There shall be formed for Oudh a fund to be called the Oudh Patwari Fund, and there shall be placed to the credit thereof—

(a) the proceeds of the patwari rate, and

(b) a contribution, to be made thereto every year, of such sum as the Local Government may allot from the general revenues at its disposal

(2) The fund so formed shall be exclusively applicable to the purpose mentioned in sub-section (1) of the last foregoing section

(3) An account of the fund shall be published annually by the Local Government in the official Gazette

[Act IV 1878, s 7] **Payment of patwari cess to payer of patwari rate**

15 The landholder of any land in respect of which the patwari rate is for the time being payable shall be entitled to recover from the tenant of the land such a cess as is hereinafter mentioned, that is to say,—

(a) if the rent of the tenant is payable in money, then a cess on such rent at the rate of one and a half pies for every rupee thereof, or

(*b*) if the land is held rent free or rent in respect thereof is payable in kind or service, then a cess equivalent as nearly as may be to three fourths of one per cent of the rent in money which would on a reasonable assessment be payable in respect of the land

(*2*) The cess in respect of such land as is described in clause (*b*) of sub section (*1*) shall be computed, and be payable, in such manner as the Local Government may by general or special rules in this behalf prescribe

Act IV 1878, s 8]

16 Suits for the recovery of any sum on account of the patwari rate, or for the recovery of the cess mentioned in the last foregoing section or the money equivalent of such cess, and appeals and other proceedings arising out of such suits shall be cognizable as if such suits had been included among the suits mentioned in section 108 of the Oudh Rent Act, 1886

Recovery of rate or cess through Revenue Courts

XII of 1886

Act XIII, 1882 s 8]

17 Every kanungo and patwari shall be deemed to be a public servant within the meaning of the Indian Penal Code, and all official records and papers kept by him shall be deemed to be public records and the property of the Government

Character of kanungos and patwaris and their records

XLV of 1860.

PART III

NORTH-WESTERN PROVINCES AND OUDH

[New]

18 The contributions to be made by the Local Government to the North Western Provinces Patwari Fund and the Oudh Patwari Fund under sections 6 and 14 shall not, without the previous sanction of the Governor General in Council, amount in the aggregate in any year to a smaller sum than ten lakhs of rupees

Contributions of the Government to the Patwari Funds

[Act XVII 1887, s 40]

19 Any person whose rights, interests or liabilities are required by any enactment for the time being in force or by any rule under any such enactment to be entered in any official record or paper by a kanungo or patwari shall be bound to furnish, on the requisition of the kanungo or patwari or of any revenue officer engaged in compiling the record or paper, all information necessary for the correct compilation thereof

Obligation to furnish information necessary for the preparation of records

PROBATE AND ADMINISTRATION BILL

The Hon'ble MR SCOBLE moved that the Report of the Select Committee on the Bill to amend the Indian Succession Act, 1865, the Probate and Admin

istration Act, 1881, and the Court fees Act, 1870, and to make provision with respect to certain other matters be taken into consideration He said —

"The first part of this Bill relates to amendments of the Indian Succession Act The principal object of these amendments is to compel executors and administrators to exhibit inventories and accounts of the estates which come to their hands The law requires that, when probate or letters of administration are granted, the executor or administrator shall undertake to make a true inventory of the property and effects of the deceased, and also to render a true account thereof The inventory should be exhibited to the Court by which the grant was made, within six months from the date of the grant, and should contain a 'full and true estimate of all the property in possession, and all the credits, and all the debts' owing to the estate, and the account, which should be exhibited within one year from the same date, should contain a statement of the assets that have come to the hands of the executor or administrator, and the manner in which they have been applied or disposed of

"Although the duty is thus clearly indicated, the provisions of the existing law have not proved sufficient to enforce the production of these statements, which are of such obvious necessity, especially where the interests of women, children and absentees are concerned In the absence of penalties, carelessness has become very much the rule The Bill therefore provides, by section 3, that on any application for probate the petitioner shall, in addition to other particulars, state the amount of assets which are likely to come to his hands, and thus furnish a basis for testing the accuracy of his subsequent inventory and account In order to give clear notice to executors and administrators of the periods within which the inventory and account respectively should be exhibited to the Court, sections 4 and 5 provide for the insertion of those periods on the grants themselves, and, lest those periods should be insufficient, section 7 empowers the Court to extend them in proper cases Failure to exhibit an inventory or account is made, by section 2, a 'just cause' for revoking or annulling a grant of probate or letters of administration, intentional omission to do so, when required by the Court, is made punishable under section 176 of the Indian Penal Code, and the exhibition of an intentionally false inventory or account is put on the same footing under section 193 of the Code as the fabrication of false evidence for the purpose of being used in a judicial proceeding

"In section 9 the Indian law as to the application of the moveable property of a deceased person to the payment of his debts is brought into accordance with the English law on the same subject, and section 10 provides that, when a grant of probate or letters of administration is revoked or annulled, the probate or letters shall be at once delivered up to the Court by which the grant was made, and not left in the possession of the person judicially declared to be no longer entitled thereto

"The second part of the Bill relates to the Probate and Administration Act, 1881, and sections 11, 12, 13, 15 and 17 merely extend to that Act the amendments with regard to inventories and accounts which I have already described as proposed to be made in the Indian Succession Act Section 14, as I stated when presenting the Report of the Select Committee, extends to native executors and administrators in India the fuller powers to deal with the estates of deceased persons which are given under the English law, and it is not necessary that I should again recapitulate the arguments in favour of this proposal

"The third part of the Bill removes an anomaly with regard to the stamping of administration-bonds

"In the fourth part of the Bill, section 19 is intended to validate transactions by native executors and administrators since the passing of Act V of 1881, which, though proper in themselves, might be impugned on the ground that they were carried out without the consent of the Court And section 20 gives the Chief Controlling Revenue authority a very useful discretion in regard to the remission, in whole or in part, of penalties and forfeitures in cases in which an insufficient court-fee has been paid on probates or letters of administration

"These are the principal provisions of the Bill Its operation will not be very extensive The Succession Act does not apply to any Hindu, Muhammadan

or Buddhist, and the Probate Act is a permissive measure limited in its operation to Bengal, the Punjab Assam, Burma, the towns of Madras and Bombay, and the Andaman and Nicobar Islands It would, I think, do much to quiet titles and obviate litigation if a wider scope were given to the latter enactment, and I hope the amendments of the law now proposed may lead to its extension to other provinces"

The Hon'ble MR EVANS said —"I entirely agree with what has been said by my hon'ble and learned friend as regards the changes introduced by this Bill, and the alteration in section 283 of the Succession Act provides a rule for the payment of the debts of foreigners dying in India out of Indian assets, which is conformable to the views of the best text writers and the latest English decisions, and which is at once just and convenient Other amendments tend to secure the keeping of better accounts and inventories of estates The main change, however introduced by the Bill is the enlargement of the powers of dealing with assets given by section 90 of the Probate and Administration Act to executors and administrators

"The necessity for the change was very clearly explained when the Bill was introduced and referred to a Select Committee, but I trust it will not be considered superfluous if I add a few remarks upon it

"Originally grants of probate and administration issued from the ecclesiastical side of the English Courts and were, and still are, in England confined to personal property, and did not affect land

"They conferred an absolute power on the executor or administrator to deal with the personal property by way of sale or otherwise for the administration of the estate of the deceased and the payment of his debts

"This jurisdiction, so far as European British subjects were concerned, was introduced into Bengal by the Charter of the Supreme Court in 1774, if not earlier, but was exercisable by the Supreme Court only

"It was found so convenient in practice that the native inhabitants of Calcutta applied for similar grants, and, though there was great doubt as to the jurisdiction, a practice grew up of issuing such grants to natives in Calcutta when they chose to apply for them The privilege was largely availed of

'It was found very inconvenient that lands and houses belonging to the migratory and transitory population of Europeans in India could not be sold to pay their debts without ascertainment of the true heirs, which was often difficult, and in 1828, by an Act of Parliament, 9 Geo IV, c 33, known as Fergusson's Act, the executors and administrators of European British subjects were empowered to sell the landed as well as personal property of the estate, and apply them in payment of debts

"This did not apply to natives and the grants in their case still affected only the moveable property and outstandings

'In 1865 the Succession Act was passed affecting all persons in India other than Muhammadans, Hindus and Buddhists, and giving full power to the executor and administrator to dispose of all the estate of the deceased, moveable and immoveable

"In 1870 the Hindu Wills Act was passed affecting Hindus, Jains, Sikhs and Buddhists in Bengal and in the towns of Madras and Bombay

"This conferred on executors appointed by a will, or administrators acting under a will, the same full power as is given by the Succession Act to Europeans, &c, but did not affect Muhammadans or provide for administration on an intestacy

"This Hindu Wills Act worked well in Bengal, though practically compulsory to the extent that no one could, where it was in force, claim in Court under a will without taking probate, and I do not think any serious complaint was made that the powers given to executors were too large

"In 1881 the Government resolved to give facilities to all Muhammadans Hindus, &c, in India to obtain grants of probate and administration of the estates of deceased persons, whether they died testate or intestate But they made it entirely optional (except as to wills in Bengal) with the large class com

prising the bulk of the natives of India to avail themselves of this privilege or not as they chose, upon payment of a duty on the estate, and further provided that no Courts, except in Bengal, should issue such grants until empowered by notification of the Local Government with the assent of the Governor General in Council

'But unfortunately they hampered the grants with a provision that neither executors nor administrators should have any power to dispose of any property of the estate, moveable or immoveable without the consent of the Court issuing the grants unless the Court at the time of issue should dispense with the provision This went very far to render the grants useless and embarrassing The difficulties which arose, and the need for enlargement of the powers, have been fully discussed in a previous stage of the Bill and I will not recapitulate them The main question which has had to be considered is whether we should give to the executors and administrators of the Hindus and Muhammadans of India the same full powers as are given to the executors and administrators of European British subjects and others by the Succession Act The conclusion arrived at after considering the history of the Acts and the circumstances of the country is that it would be wise and safe to give to executors who are chosen by the testator himself the fullest powers over immoveable as well as moveable property, subject to the provisions of the will under which they act, and to compel them to take the opinion of the Court only when it becomes necessary to do something which is contrary to the will The fact that full powers were exercised by Hindu executors in Bengal from 1870 to 1881 without complaint goes far to prove that such power can be safely given

As regards administrators, we have deemed it absolutely necessary to give them full power of dealing with moveable property, shares, Company's paper, outstandings, &c, but we have, in deference to the fears expressed by many officials in 1881 and to the opinion which seemed to prevail among many native gentlemen of experience, accepted the new section as drafted, and have not given to the administrators the power to dispose of immoveable property without the sanction of the Court The powers they will possess as to immoveable property in the capacity of administrators will be the same as those possessed by the statutory guardians of infants It is no doubt anomalous that administrators under the Succession Act should have larger powers than administrators under the Probate and Administration Act, but this is necessarily a country of anomalies, and the Procrustean principle of legislation is dangerous We have done our best to place within the reach of the Hindus and Muhammadans the means of obtaining such powers as to the administration of the estates of deceased persons as appear necessary for the transaction of business, and as they themselves appear to desire

"I observe that from 1881 to the present time several of the Local Governments have abstained from issuing the notifications necessary to enable any Courts in their provinces to issue grants of probate and administration under this Act There may be local areas so uncivilised that it is not desirable to introduce the system, even as an optional one But this is not the case with the greater portion of these provinces, and it seems hard upon the finances of the Government and upon the people that they should not have the opportunity of showing whether they value these grants sufficiently to pay the duty on them

"When the opportunity has been given the demand for them has gone on increasing, and it will, I doubt not, increase more under the Act as now amended"

The Motion was put and agreed to

The Hon'ble MR SCOBLE also moved that the Bill, as amended, be passed

The Motion was put and agreed to

SUCCESSION CERTIFICATE BILL.

The Hon'ble SIR DAVID BARBOUR moved that the Report of the Select Committee on the Bill to facilitate the collection of debts on successions and

afford protection to parties paying debts to the representatives of deceased persons be taken into consideration He said —

"The object with which the Succession Certificate Bill was introduced was explained by the Hon ble Mr Westland when the Bill was brought before this Council on 22nd August last, but it will be convenient if I re state at this time the main reasons which led to its introduction

'As matters now stand, the law which provides for the collection of a stamp duty of 2 per cent on the value of all debts and securities of a deceased person dealt with under the authority conferred by a succession certificate, is frequently evaded

"The existing law regarding the grant of such certificates is contained in Act XXVII of 1860, but this Act does not provide either for a stamp duty or for the entry in the certificate of the debts to be collected In the Court-fees Act, VII of 1870, Schedule I, article 12, it is provided that a duty of 2 per cent shall be levied on the amount or value of the property in respect of which the certificate is granted and it is further provided that the person to whom the certificate is granted, if the effects to be dealt with exceed ₹1,000 in value, shall, after the expiration of twelve months from the granting of the certificate, and at such other dates as the Court may require, file a statement on oath of all moneys recovered or realised by him under the certificate The latter provision has been to a great extent a dead letter The person wishing to obtain a certificate enters, in the first instance, only a portion of the debts due to the estate, obtains a certificate entitling him to collect all the debts due to the estate, collects under the certificate, neglects to certify to the Court the total amount of debts collected, and in this way escapes payment of a large portion of the fee which the law intended him to pay

"Evasion has also been facilitated by the provisions of section 2 of Act XXVII of 1860, which enable a person not holding a certificate to recover a debt in Court if the Court is satisfied that payment of the debt was withheld from fraudulent and vexatious motives and not from any reasonable doubt as to the party entitled

"It is now provided in section 6 of the Bill that an application for a certificate must set forth the debts and securities in respect of which the certificate is applied for, and under section 14 (*f*) such application must be accompanied by the deposit of the proper amount of fee

"If the person applying for the certificate omits to enter any debt or security in his application, whether he does so through oversight or intentionally, and finds thereafter that he cannot collect the debt or deal with the security because it has not been so entered, he will be at liberty to apply to the Court to extend the certificate to such debt or security but in such case he will be required to pay 3 per cent on its amount instead of 2 per cent This provision will have the effect of preventing an applicant from speculating on the possibility of being able to collect debts without entering them in his application and paying the proper fee If an applicant chooses to speculate in this way, he will run the risk of having to pay 3 instead of 2 per cent

"It is also provided in the present Bill that no Court shall pass a decree or proceed to execute a decree against a debtor of a deceased person for payment of his debt to a person claiming to be entitled to the effects of the deceased, except on production of a certificate granted under this Act, and having the debt specified therein, or on production of other proper authority to collect the debt

"The Select Committee has further provided that in future a certificate granted under the Succession Certificate Act shall not afford indemnity to persons paying under it except in respect of debts entered in the certificate The provision seems a very reasonable and proper one, and will undoubtedly check the disposition which exists at the present time to obtain and use a certificate while omitting to pay the fee fixed by the legislature If a debtor pays his debt to a person holding a certificate, he will obtain complete indemnity if his debt is mentioned in the certificate If, however, he chooses to pay without reference to the certificate, and merely on his general knowledge that the person claiming to recover the debt is legally entitled to do so, he will not be

able to make the certificate the ground of a plea for indemnity He acts entirely on his own judgment and must accept the consequences of so doing

"If a person claiming to be entitled to the effects of the deceased finds that there are debts which he can collect without a certificate, or without entering them in his application, and if the debtor chooses to pay such debts without the indemnity which is given by the entry of the debt in a certificate, the law will not interfere If the parties to the transaction prefer not to avail themselves of the facilities and protection which the law provides, they need not pay the prescribed fee, and they take the risk of any inconvenience or loss which such action on their part may involve

"The provisions to which I have just referred are those which are of most importance, at any rate from a fiscal point of view, but there are others intended for the improvement of the law, to some of which I think it desirable that I should also call attention

"In section 7, sub section (3), of the Bill as it now stands, provision has been made which will enable the Court to prevent an application for a certificate being perverted into a means for obtaining a decision on intricate and difficult questions of law or fact Such decisions are not conclusive as to the rights of the parties concerned, and it is desirable that prolonged litigation which is necessarily of an inconclusive character, should be discouraged This is done by giving the Court power to stay proceedings when it considers it necessary to do so, and to grant a certificate to the person who appears *primâ facie* to have the best claim to it

"Any person who may consider himself aggrieved thereby has his remedy in a regular suit Any risk of loss to the parties legally entitled to the effects of the deceased arising from a summary decision of this nature is obviated by requiring that in every such case the Court shall require security to be given before the grant of the certificate is made In other cases it will be optional with the Court to require security or not as the circumstances of the case may appear to require

"Section 18 of the Bill as now amended also makes a very necessary provision for the revocation of certificates in certain cases

"Under section 5 of the Bill power has been given to District Courts to grant applications for certificates, but it would obviously be very inconvenient and unduly expensive in some cases if every applicant had to attend at the Court of the District Judge, and the hardship would be specially great if the effects in respect of which a certificate was desired happened to be of small value For this reason and for other reasons of less weight section 26 of the Bill as it now stands gives power to the Local Government to invest any Court, inferior to a District Court, with the functions of a District Court in respect of these certificates, as well as to cancel or vary any such notification

'In the Bill as originally introduced it was proposed to repeal Bombay Regulation VIII of 1827, and I still believe that that course was in itself desirable But Regulation VIII of 1827 applies to immoveable property as well as to debts and securities, and if it had been repealed it would have been necessary for the Bombay Government to authorise District and perhaps other Courts to receive applications for probate or letters of administration under the Probate and Administration Act of 1881

"That course has not yet been adopted by the Bombay Government, and the local authorities in that presidency are strongly in favour of retaining Regulation VIII of 1827 In deference to their wishes the Regulation has been left on the statute book, but advantage has been taken of the present opportunity to amend the procedure under the Regulation in question and to assimilate it, as far as practicable, to the procedure of the present Bill Consequently the provisions of the present Bill as regards the particulars of the debts and securities to be set forth in an application for a certificate, the limitations of the powers that may be granted by a certificate, the taking of security, the extending of a certificate to a debt or security not originally specified therein, the extent of the indemnity afforded to debtors, the revocation of certificates, appeals, the surrender of certificates which have been suspended or become invalid, and regarding other minor matters, as well as the provisions of section 98 of the Probate and Administration Act, 1881, regarding the exhibition of

inventories and accounts, have been made applicable to certificates under Bombay Regulation VIII of 1827

"In conclusion, I may mention that it has been provided that the Act shall not come into operation till 1st May, 1889, so as to afford time for the making and circulation of the necessary translations"

The Hon'ble MR SCOBLE said —"As this Bill has a legal as well as a fiscal aspect, I will venture to add a few words to the statement which has just been made by my hon'ble friend Sir David Barbour

"The Bill is not designed to furnish a complete system of administration of estates, but rather to give security to those who are called upon to pay debts to the representatives of deceased persons in the absence of probate or letters of administration In this country, where the personal law varies so greatly, according to the origin or religion of the individual, it is necessary that some simple method should exist whereby debtors to a deceased creditor may be certified that they will not be called upon to pay their debts more than once If a will is left and probate obtained, or if letters of administration are taken out, they have this security by paying the debts to the executor or administrator, but these cases are comparatively few, and, where the succession is disputed, the debts either remain unpaid or the debtor runs the risk of paying the wrong person To obviate this difficulty a system was long ago introduced of granting certificates to persons claiming to be 'the representatives of deceased Hindus, Muhammadans and others not usually designated as British subjects,' which served the double object (1) of conclusively establishing the representative title of the holder against all debtors to the deceased, and (2) of affording full indemnity to all debtors paying their debts to the person in whose favour the certificate had been granted

"It would be wearisome to trace the history of legislation on this subject Act XXVII of 1860 embodies the existing law in British India generally, though Bombay has, in Regulation VIII of 1827, a special system of its own, which gives to the certificate holder rather more extensive powers and privileges than he enjoys in other provinces The Bill, in deference to the wishes of the Bombay Government leaves this Regulation unrepealed, though modifying it in certain respects, while it absolutely repeals Act XXVII of 1860

"As my hon'ble friend has said, the principal feature of the Bill is that it limits the power of the certificate holder as regards the collection of debts and securities of a deceased person to those debts and securities which are specified in the certificate The fiscal reasons for this limitation are obvious, it is, I think equally obvious that for the protection of the debtor the certificate should clearly show that the person seeking to recover the debt had satisfied a competent Court of his title to do so It is not to be expected, nor is it the intention of the Bill, that the certificate should apply to all debts and securities belonging to the estate, or that the applicant should include in his certificate debts which he might expect to collect amicably without one the value of the certificate will be where debts are contested, and it would not be fair to the defendant to put him to the expense and trouble of disputing the representative character of the claimant as well as the liability to the debt Moreover, the insertion of the debt in the certificate may be expected to operate as a check upon false claims, for a man would scarcely pay duty on the amount of a debt which he did not consider himself legally entitled to recover

"Section 4 of the Bill accordingly provides that no Court shall (*a*) pass a decree against a debtor of a deceased person for payment of his debt to a person claiming to be entitled to the effects of the deceased person or to any part thereof, or (*b*) proceed, upon an application of a person claiming to be so entitled, to execute against such a debtor a decree or order for the payment of his debt, unless the person so claiming has established, by some method recognized by the law, his title to represent the estate of the deceased in regard to the claim

"In laying down this rule the Bill follows the general tenor of the decisions of the High Courts which establish that a plaintiff is bound to prove his representative title before he can obtain a decree or execute a decree already obtained by the deceased person through whom he claims, though he may institute his

suit or apply for execution without such proof provided he completes his title before decree or before execution issues

'Section 6, which specifies the particulars to be given in applications for certificates, is drawn very widely so as to include applications by creditors, as well as by heirs, of a deceased person

"In section 7 it is provided that proceedings on these applications are to be of a summary character Under section 3 of Act XXVII of 1860 the Judge had 'to determine the right to the certificate' This phrase has led to many conflicting decisions The Bill adopts the ruling of the Madras High Court that in determining the right to a certificate the Courts are not required to enter on the determination of intricate questions of law or of fact, but that the proper course is to issue the certificate to the person who *primâ facie* has the clearest title to the succession, such as the natural heir, and to leave a person whose claim to a superior title is on reasonable grounds disputed to establish that title by regular suit And, in deciding between various applicants who stand in pretty much the same relation to the deceased the Bill further provides that the Court may have regard to the extent of interest, and the fitness in other respects, of the several applicants

'As my hon'ble friend has mentioned, in section 18 provision is made for the revocation of certificates for just cause Sections 2 and 22 provide for cases in which certificates have become superseded, and section 27 enacts that certificates which have become invalid from any cause shall be delivered up to the Court which granted them

"The last matter to which I need refer is the power given by section 26 to Local Governments to confer upon lower Courts the functions of a District Court under the Act If there is any great increase in the number of applications for certificates after the passing of this Bill it will be essential that the Courts which are to exercise jurisdiction with respect to them should be more accessible and less expensive than District Courts"

The Hon'ble MR EVANS said —"The alterations made by the Bill, and the reasons for them both from a fiscal and administrative point of view, have been so fully detailed by the hon'ble mover and the hon'ble Mr Scoble that they have left little or nothing for me to say as to the details, except that I agree with what they have said

"But I propose to make some observations upon the relation between the Bill and the one immediately preceding it, and upon the principles underlying them

"Succession or as they are often termed death duties are recognised as one of the least objectionable forms of taxation If there be one occasion more than another upon which a tax can fairly be levied upon property, it is when the owner has ceased to exist and the property is about to pass to a person who has done nothing to acquire it except being born into the world—an occasion on which he plays a passive rather than an active part

"The Europeans in India, and the Eurasians, Jews, Armenians, Parsis and others who have not the privilege of being Muhammadans, Hindus or Buddhists, are practically obliged to take out probate or administration, as the case may be, and to pay the succession duties on the whole estate or inheritance by the combined effect of the Succession Act and the Court-fees Act

"It has long been seen that it would be fair in principle to render the payment of such duties compulsory on all alike But principle is one thing practice is another It was found that it would be very difficult, if not impossible, without great hardship, to render it compulsory upon all the inhabitants of India to take out probate or administration so as to subject them to these duties India, in spite of the ferment of Western ideas among the educated classes, is very immoveable and slow to change It has often been found impossible by legislation to compel the inhabitants to do things which they have not been in the habit of doing and which they do not wish to do Witness the abortive Regulation and Acts by which it was sought to force the raiyats to take leases from the zamindars and the zamindárs to give leases to the raiyats

"It takes years for any Act introducing a novelty to get known and worked in the remoter districts

"If an Act like the Succession Act had suddenly been made compulsorily applicable for the whole of India, the consequences would have been very serious The people would for a long time have paid no attention to it, and their dealings with their property after a succession would have been invalid, and much confusion and injustice would have ensued

"But what can be got out of them in the way of succession duties without friction or injustice it is, I take it, the duty of the Government to itself and to the class which pays these duties to get There are two methods by which this object can to some extent be effected—one is by encouraging Hindus and Muhammadans to resort of their own accord to the probate and administration procedure on account of the certainty of title which it gives and its manifold advantages Even if they did so, a very large quantity of Hindu property would escape taxation under the present law, owing to the Mitakshara doctrine of survivorship among co owners The other method is by means of the Certificate Act, which is now being amended

"The certificate procedure was introduced in 1841 for the purpose of protecting debtors from being harassed by conflicting claimants after the death of the creditor, and to facilitate the collection of debts on succession by the issue of a certificate which should render it safe for the debtor to pay the holder of it Various amending Acts were introduced from time to time, and the certificates are now granted under Act XXVII of 1860

"The certificates were made liable to a duty by the Court-fees Act of 1870

"Theoretically the result was that no Hindu or Muhammadan could have the benefit of the aid of the Courts to enable him to collect debts as representative of a deceased person without obtaining a certificate and paying duty upon the amount of outstanding debts due to the estate Thus, in theory he paid on outstanding claims, but not on property already in possession of the deceased, while his fellow subjects paid on the whole estate But in practice the result to the State in the way of taxation was very small The first source of leakage, so to speak, was that the Court might dispense with the certificate if it thought the objection of the debtor to the creditor's title was frivolous This, I am told, was very largely done by some Courts Secondly, the applicant for the certificate seldom or never put down anything like the real amount of the outstandings of the estate Having got the certificate upon a small payment, he proceeded to collect very large amounts of outstandings Thirdly, the applicant often used to get an order for a certificate and then never pay the duty or take out the certificate, but show the debtor a copy of the order as a proof of the title and collect on the strength of this

"The first and the third methods of evading the payment of the duty have been easily met by slight alterations of the Act, and we have defined securities so as to cover shares, &c , of various sorts

"The second has been a great difficulty It has been found practically impossible to verify or check the statements put in, and the plan has been adopted of allowing the applicant to insert what debts or securities he pleases, and of providing that his certificate shall be of no avail in any way except as regards the particular debts or securities inserted in it

"Whether this particular plan will yield any practical result in the way of increased payment of duty I have no sufficient data to judge But I think that on the whole the Act will be productive of some increase of revenue And the limitations of the effect of the certificates will, I hope, induce many persons to prefer the more costly but more effectual letters of administration, and to pay the duty on the whole estate in consideration of the benefits they will derive and the troubles they will avoid

"The administration procedure, when questions of title are raised, decides them once for all, whereas the certificate procedure decides nothing except as between the particular debtors and the applicant The one confers the right to possession of land, the other does not

"One reason why I have troubled Your Excellency and the Council at this length is because it appears to me of great importance that no reasonable means should be left untried of obtaining in some form or another, from those who are

not under the Succession Act, the same succession duties as are paid by their fellow subjects so far as is practicable I do not consider that this result can be obtained except to a very small extent by means of the Certificate Act A little is better than nothing But I anticipate a considerable increase from applications under the Probate and Administration Act, and I do marvel, when the Government of India has announced its policy of offering the advantages of the Probate and Administration Act to those who will pay for it, to see the Local Governments year after year steadily declining to empower any Courts in their provinces to grant either probates or letters of administration to Hindus or Muhammadans

"I also wished to show that there was no hardship in confining the effect of certificates granted to Hindus and Muhammadans to the particular debts mentioned therein, seeing that they were not provided with the same facilities as their brethren of other religions for obtaining grants of administration covering the whole estate It is not unlikely that means will some day be devised for bringing property held under Mitakshara law within the reach of a succession duty I do not think the difficulties will be insuperable"

The Hon'ble MR HUTCHINS said —"Sections 7 and 9 have been referred to by my hon'ble friends the mover and Mr Scoble as laying down certain rules of procedure to guide District Courts in dealing with applications for certificates Speaking from twenty years' experience of a High Court and District Courts, I feel justified in saying that these rules contain nothing novel They simply recognise and sanction the judicial practice which has grown up out of the necessities of the case and from what the best Judges took to have been the intention of the legislature

"The only new departure is the conversion of a certificate from one of a general character, enabling the holder to collect any debt, into one which will be mere waste paper in respect of any debt not particularly mentioned in the schedule In my opinion this is the proper principle to adopt If a man wants to establish his general representative character, he should take out letters of administration, if he merely wants to collect one or more specific debts, let him particularise it or them I can see no just reason why one class of Her Majesty's subjects should be made to pay succession duty on the whole inheritance, while another can obtain almost equal advantages without paying anything at all

"The change, however, is an important one, and it cannot be stated too often or too emphatically, for until debtors realise it they may be liable to be imposed on If a debtor chooses to pay without reading the certificate, he may have to pay again Before, however, this can happen two things must combine—the certificate holder must turn out not to have been rightly entitled, and the person who is entitled must have some strong reason for electing to sue the innocent debtor rather than his own adversary, who has presumed to collect his money

"I think it desirable to point out further that the present Bill follows the old law in speaking of the 'effects of a deceased person' A debt due to an undivided coparcenery will not be affected by any alteration of the law now made"

"I hope, with my hon'ble friend opposite, that the effect of this measure will be to drive most representatives to take out letters of administration To enable them to do so without difficulty, and to meet what has been said by the Hon'ble Mr Evans, the Home Department will address the Local Governments, pointing out the necessity of authorising all District Courts, under Act V of 1881, to grant administration"

The Motion was put and agreed to

The Hon'ble SIR DAVID BARBOUR also moved that the Bill, as amended, be passed

The Motion was put and agreed to

PORTS BILL

The Hon'ble SIR DAVID BARBOUR also moved that the presentation of the Report of the Select Committee on the Bill to consolidate and amend the

law relating to Ports and Port-charges be deferred until the next meeting of the Council

The Motion was put and agreed to

SEA CUSTOMS AND TARIFF ACTS AMENDMENT BILL

The Hon'ble SIR DAVID BARBOUR also moved that the Select Committee on the Bill to amend the Sea Customs Act, 1878, and the Indian Tariff Act, 1882, be instructed to submit their Report at the next meeting of the Council

The Motion was put and agreed to

The Council adjourned to Friday, the 15th March, 1889

S HARVEY JAMES,
Secretary to the Government of India
Legislative Department

SUPPLEMENT TO

The Gazette of India.

No 11 } CALCUTTA, SATURDAY MARCH 16 1889

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such Official Papers and information as the Government of India may deem to be of interest to the Public and such as may usefully be made known The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta or eight Rupees if sent by Post The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post

No Official Orders or Notifications the Publication of which in the GAZETTE OF INDIA is required by Law or which it has been customary to publish in the CALCUTTA GAZETTE will be included in the SUPPLEMENT Such Orders and Notifications the body of the GAZETTE must be looked to

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and prospects of the Crops

Madras —*For week ending 9th March, 1889* —Rainfall slight in Vizagapatam, Tanjore, Trichinopoly, Madura, Tinnevelly, Coimbatore, Nilgiris and Salem, none elsewhere More rain wanted in Ganjam, Vizagapatam, Cuddapah, Trichinopoly, Tinnevelly, Coimbatore and Salem Standing crops generally good but withering in parts of Cuddapah, Trichinopoly, and Coimbatore, affected by disease in parts of Bellary Pasture deficient in Coimbatore, Ganjam, Salem and Tinnevelly Prices rising in seven districts, falling in five, and stationary in others General prospects favourable except in Ganjam, improving in Coimbatore Labourers employed last day of week on Rushikulya works 5,370, on Gopalpur Canal 8,694

Bombay.—*For week ending 13th March, 1889* —Slight rain in parts of Poona and Belgaum Late crops in three talukas of Surat unsatisfactory, exotic cotton in parts of Dharwar blighted, opium in Baroda good, harvesting progressing generally Probable outturn of cotton twelve annas and of wheat and gram sixteen annas in parts of Kathiawar, and of late crops in Karachi thirteen annas Fodder scarce in Khandesh and Nasik and in parts of Poona, Ahmednagar, Ratnagiri and Baroda

Bengal —*For week ending 12th March, 1889* —The hot weather has fairly set in, the mornings and evenings, however, being still cool No rain during the week, but general agricultural prospects generally favourable The *rabi* harvest is progressing satisfactorily and promises to yield fair results, but in Chota Nagpore, where the crops suffered most from drought, the average outturn will not much exceed eight annas Opium collections are proceeding, the weather being favourable Spring rice promising *Mohua* crop in Chota Nagpore and

Sonthal Pergunnahs has suffered from recent rain and storms, but is still hopeful Ploughing for early rice and jute is well forward *Cheena* and other millets are being sown and are coming up well Sugarcane cuttings are being planted Distress is apprehended in parts of the Bhaugulpore and Sonthal Pergunnahs Districts No further account regarding the distressed tracts in the Patna Division has been received

North Western Provinces and Oudh —*For week ending 12th March, 1889* —Weather clear and getting warm *Rabi* harvest commenced Sugarcane crushing in progress Poppy crop looks promising Indigo sowings begun Supplies sufficient Prices falling Fodder scarce in places Condition of cattle fair

Punjab —*For week ending 13th March, 1889* —No rain Prices falling in Delhi, Jullundur, Rawalpindi, Shahpur and Peshawar, and stationary in other districts Ploughing for *kharif* commenced Prospects of *rabi* crops are generally most promising throughout the Province The bright weather of the week has been most beneficial Crops are reported to have been damaged by hot winds in parts of Hissar and by rust in one village of tahsil Chunián in Lahore district Stock cattle are healthy Fodder sufficient except in Hissar Poppy crops progressing in Jullundur

Central Provinces —*For week ending 13th March, 1889* —Winter crops being harvested Probable outturn of wheat in Saugor and Jabalpur ten annas, in Hoshangabad six annas Linseed average in Jabalpur Crops also below average in Chattisgarh Water scarce in Nimar Cattle generally in fair condition

Burma —*For week ending 9th March, 1889* —No rain fell during the week Crop prospects on the whole good, though dry weather crops in Shwegyin want rain The price of paddy remains much the same

Assam —*For week ending 13th March, 1889* —Weather seasonable Rainfall *nil* Sowing of summer rice in progress Pressing of sugarcane still continues Prospects of tea good

Mysore and Coorg —*For week ending 13th March, 1889* —No rain in Mysore Standing crops in good condition, except in parts of the Kolar and Tumkur districts, where want of rain is felt Prospects generally favourable No material change in prices

No standing crops in Coorg Prices of coffee and cardamom rising

Berar and Hyderabad —*For week ending 13th March, 1889* —Harvesting of *rabi* crops in Berar continues Prospects unchanged Ground is being prepared for the next crop Agricultural stock generally good Fodder and water insufficient in some districts Prices easy

No rain during the week in Hyderabad Weeding of hot weather and harvesting of *rabi* crops continue Scarcity of water and fodder felt in some parts Prices stationary

Central India —*For week ending 13th March, 1889* —The following changes are reported this week Prices of food grains somewhat lower in Bhopal and in West Malwa, but risen in Ali Rajpur in Bhopawar Agency Condition of crops improved in Baghelkund and West Malwa Agencies

Rajputana —*For week ending 13th March, 1889* —Slight rain in Bikaneer Agricultural operations satisfactory Standing crops ripening Harvest poor in Kherwara Agricultural stock good Pasturage or fodder sufficient except in parts of Sirohi, Kherwara, Marwar and Meywar Prices falling at many places

Nepal —*For week ending 7th March, 1889* —No rain. Weather seasonable Slight earthquake on the afternoon of the 3rd instant. Agricultural operations are in progress Prospects of wheat, garlic and onions good

APPROPRIATION REPORT ON THE ACCOUNTS OF 1887 88

GENERAL REVIEW

In the financial statement for this year the revenue was estimated at Rx 77,460,200 and the expenditure at Rx 77,443,500, leaving a surplus of Rx 16 700 No addition was made to existing taxation, but the contracts with the Provincial Governments were revised on the lines recommended by the Finance Committee, and the Famine Insurance Grant was restricted to Famine Relief and the construction of Protective Irrigation Works The rate of exchange for the year was estimated at 17½*d*, and the annual Public Works loan was fixed at 5½ crores, of which 3½ crores was obtained by the investment, at the desire of the Gwalior Council of Regency, of treasure hoarded by the late Maharaja, Scindiah The situa ion was one of "unstable equilibrium," but for reasons explained in paragraph 6 of the financial statement, the Government did not consider that it could be avoided in the circumstances This situation became more unfavourable as the year advanced, owing to a continuance of the military expenditure in Burma at a higher rate than was expected, to diminished proceeds from Opium, to a decline in Railway earnings and to a fall in Exchange It was necessary to provide against these deficiencies, and the Government accordingly raised the Salt duty and adopted other minor measures The final results of the year, as compared with 1886-87 as well as with the Budget and Revised Estimates, are explained in the following paragraphs

2 Some minor changes in the classification of Civil receipts and expenditure that were introduced and partially effected in the Revised Estimate and Accounts of 1886 87 have been fully carried out in 1887-88 These changes relate principally to the adjustment of *malikana* allowances under *2—Assignments*, instead of under *3—Land Revenue*, the separation of *Hill Journey Charges* from other *Tour Charges* and the treatment of *Rents, Rates and Taxes* as a contingent charge of the Department which incurs them The recoveries from Railways, of the cost of Police supplied to them, are now everywhere adjusted by deduction from expenditure, instead of being credited as revenue

3 The following summary gives the Budget and Account figures of 1887 88 to be reviewed in this report, and the details will be found in the statements on pages 123 to 136 Throughout the report the figures are tens of rupees (Rx 1 = R10) with the last two figures cut off for the sake of shortness, thus, 149,7 reads one hundred and forty-nine thousand seven hundred tens of rupees —

Comparison with the year 1886-87

4 The comparison in respect of revenues is as follows —

Revenues	1886 87	1887 88	Difference 1887 88 greater (+) or less (—)
Principal Heads of Revenue	54,482,1	54,781,0	+298,9
Interest	670,5	746,6	+76,1
Post Office, Telegraph, and Mint	2,027,5	2,229,6	+202,1
Civil Departments	1,461,6	1,495,7	+34,1
Miscellaneous	848,3	1,606,1	+757,8
Railways	14,477,8	14,533,3	+55,5
Irrigation	1,656,7	1,714,3	+57,6
Buildings and Roads	727,6	592,3	—135,3
Army Services	985,0	1,060,8	+ 75,8
	77,337,1	78,759,7	+1,422,6

5 Under *Principal Heads of Revenue* the largest difference is in Opium which suffered a further fall during the year The other heads were satisfactory as noticed in paragraph 12 The large receipts on account of *Interest* were obtained in England where the rate of interest was high and the Secretary of State's balance unusually large The *Post Office and Telegraph* revenues continue to expand, and in the *Mint* the seignorage receipts were good The excess under *Miscellaneous* is due chiefly to gain by exchange on transactions of the Subsidized Railway Companies, and in a minor degree to recoveries on account of Upper Burma and to certain unexpected receipts in Bengal The *Railway* revenue has enlarged with the opening of new lines and the extension of old ones, and a similar improvement has taken place under *Irrigation*, owing to development and extensions chiefly in the Punjab The decline in *Buildings and Roads* is more apparent than real, as the accounts of 1886 87 included 150,0 realised in connection with the rendition of the Gwalior Fort and Morar Cantonment The larger sum entered as *Army Services* is the outcome of various causes, the chief being the additions made to the European force

6 The comparison of the expenditure side is as follows —

	1886-87	1887 88	Difference, 1887 88, greater (+) or less (−)
Direct Demands on the Revenue	9,746,2	9,438,2	− 308,0
Interest	4,310,4	5,441,8	+1,131,4
Post Office, Telegraph, and Mint	2,145,3	2,255,8	+ 110,5
Civil Departments	12,698,5	12,906,4	+ 207,9
Miscellaneous	4,701,1	4,761,1	+ 60,0
Famine	309,0	91,4	− 217,6
Construction of Railways	183,1	80,9	− 102,2
Railways	15,666,4	16,655,7	+ 989,3
Irrigation	2,310,7	2,461,6	+ 150,9
Buildings and Roads	5,201,7	5,451,1	+ 249,4
Army Services	19,525,0	20,417,9	+ 892,9
Special Defence Works	325,6	456,0	+ 130,4
	77,123,0	80,417,9	3,294,9

7 The principal difference in the head *Direct Demands on the Revenue* is in Opium, the expenditure being 304,5 less than last year consequent upon the smaller crop in Bengal There was also a large saving in Salt caused partly by reduction of establishments and partly by the abolition of the agency system for the sale of Salt The cost of collecting the Assessed Taxes was 21,5 less than in 1886 87, but Assignments and Compensations were higher by 22,1 and Land Revenue by 22,4 The *Famine* expenditure was small in consequence of the grant for Protective Railways having been withdrawn The *Construction of Railways* was also small, as the works in progress did not require much expenditure The charge for *Interest* was greater than in 1886 87, partly because of the additions made to the debt in India and England, but chiefly in consequence of the conversion in England of the 4 per cent stock into $3\frac{1}{2}$ per cent, which involved the payment of an extra quarterly dividend and other charges The rise in *Post Office, Telegraph, and Mint* has occurred mainly in the Telegraph Department, and consists largely of stores, the purchase of which was particularly small in 1886 87 The increase is also due to a revision of salaries in the higher grades of the Department and to Exchange As regards *Civil Departments* the principal excess is in Police, 360,2 of the amount being composed of Upper Burma charges Next, in point of importance, are the savings of 177,2 and 70,1 under Marine and Political resulting from smaller outlay in connection with Burma and the termination of the Afghan Delimitation Commission The large sum spent on *Railways* is spread over many heads, but the principal items are the maintenance of the new Frontier lines opened in 1887 88, the fall in Exchange and the interest paid by the Secretary of State on new deposits received from the Bengal Nagpur Railway Company The excess under *Irrigation* is caused (1) by greater working expenses following on the additional lengths of canal opened for irrigation, (2) by a larger charge for interest consequent upon additional capital outlay, (3) by transfer of the Khusdil Khan Reservoir from Section N of the accounts to this group, and (4) by a higher scale of expenditure undertaken from Provincial funds in Bengal In *Buildings and Roads* large sums have been spent in Upper Burma and on the frontier roads in the Punjab and Beluchistan The excess in *Army Services* arises mainly in regimental pay, &c, in Commissariat charges, in stores, and in non effective charges

Comparison of Accounts with Budget Estimates, 1887 88

8 The following figures exhibit the differences in the net accounts —

	Better	Worse
Principal Heads of revenue	864,7	
Interest		969,5
Post Office, Telegraph, and Mint	210,0	
Civil Administration	343 7	
Miscellaneous	524,2	
Famine	3,1	
Construction of Railways		5 9
Railways		533 0
Irrigation	6,0	
Buildings and Roads	154,9	
Army Services		1,057,5
Special Defence Works		456,0
	2,106,6	3,021,9
Combined Deficit, Imperial and Provincial		915,3

9 The difference of 864,7 in *Principal Heads of Revenue* is made up of 652,3 excess receipts and 212,4 saving in expenditure As stated above in paragraph 5 there was a further decline in the price of Bengal Opium, but the effects were counteracted by improvement in other heads, especially Land Revenue, Stamps and Excise Part of the increase in Land Revenue was obtained by a per contra charge under Assignments and Compensations, which has exceeded the Budget, but otherwise the expenditure has been kept down and has produced the saving noted above The amount under *Interest* is largely due to the charges connected with the conversion of the 4 per cent Stock into $3\frac{1}{2}$ per cents for which the Budget did not provide The *Post Office* has kept very near the estimates, but the *Telegraph* Department shows a larger revenue and smaller expenditure by 125,3 and 24,3 respectively The *Mint* receipts were good both as regards seignorage on silver and gain on copper coinage In *Civil Administration* the revenue is better by 70,4 than was expected, and the improvement is spread over all the heads, except Law and Justice—Jails where there is a deficiency in sale proceeds of Jail manufactures On the expenditure side there is a net saving of 273,3 The satisfactory result under *Miscellaneous* is due to various causes On the receipt side there is an excess of 429,1 of which 379,1 is contributed by exchange as explained in paragraph 100 On the expenditure side considerable savings have accrued from various causes In Political pensions there is a large decrease from the death of the late King of Oudh, but the ordinary pension charges are growing Under *Railways* the revenue was short by 359,2 owing largely to diminished traffic on some of the principal lines, while the expenditure exceeded the Budget by 173,8 partly on account of the fall in exchange and partly on account of the surplus profits of the Great Indian Peninsula Railway In *Buildings and Roads* there is an excess of receipts over Budget amounting to 52,8 consisting of various small items The expenditure account shows a saving of 102,1, but the estimate was too high The *Army* receipts are better by 163,4 from larger sales of malt liquor, &c, and the charges are greater by 1,220,9 Of this sum 755,3 relates to operations in Burma and the rest to the ordinary military expenditure The excess in *Special Defence Works* arises from the progress made in frontier roads and defences, but in the Budget these charges were taken as expenditure not chargeable to Revenue and were entered in Section N of the Account

10 The Budget estimated for an excess expenditure of 742,9 on the whole account, but this included charges amounting to 759,6 out of past accumulations of Provincial and Local balances, thereby making a surplus in the Imperial account of 759,6—742,9 or 16,7 The accounts, however, show a deficit of 2,028,8 in the Imperial account, and an increase in the Provincial and Local balances of 370,6 instead of a decrease of 759,6 as estimated The net Imperial expenditure has, therefore, exceeded the estimate by 16,7+2,028,8 or 2,045,5, while the Provincial and Local balances show an improvement over the estimate of 759,6 + 370,6 or 1,130,2 The details of these differences are given below, the sign + meaning better and — worse than estimate —

	Revenue Side			Expenditure Side		
	Imperial	Provincial	Total	Imperial	Provincial	Total
Principal Heads of Revenue	+161,0	+491,3	+652,3	+176,6	+35,8	+212,4
Interest	+60,8	−7	+60,1	−1,029,6		−1,029,6
Post Office, Telegraph, and Mint	+204,6	−3	+204,3	+3,0	+2,7	+5,7
Civil Departments	+27,2	+43 2	+70,4	+167,8	+105,5	+273,3
Miscellaneous	+398,9	+30,2	+429,1	+90,1	+5 0	+95,1
Famine				+1,5	+1,6	+3,1
Construction of Railways					−5,9	−5,9
Railways	−489,2	+130,0	−359 2	−188,3	+14,5	−173,8
Irrigation	+74 1	−47,8	+26,3	−55 4	+35,1	−20,3
Buildings and Roads	+11 5	+41,3	+52 8	−146,6	+248,7	+102,1
Army	+163,4		+163,4	−1,220,9		−1,220,9
Special Defence Works				−456,0		−456,0
Total	+612,3	+687,2	+1,299,5	−2,657,8	+443,0	−2,214,8
Total Net		+1,130,2		−2,045,5		−915,3

11 The improvement in the Provincial Section occurs chiefly in the Principal heads of revenue and in the expenditure of the Civil Departments and under Buildings and Roads.

The notable items making up the difference in the Imperial Section are as follows —

Imperial	Better	Worse
Land Revenue (net)	83,3	
Opium Revenue (net)		296,5
Salt Revenue (net)	124,0	
Stamps Revenue (net)	65,5	
Excise Revenue (net)	223,5	
Customs Revenue (net)	116,9	
Interest (net)		555,8
Telegraph (net)	150,1	
Mint (net)	73,3	
Burma—		
Police	41,6	
Army		755,3
Marine	144,9	...
Territorial and Political Pensions	76,8	
Gain by Exchange	379,1	
Other Military expenditure (net) excluding exchange		139,6
State Railways (net) excluding exchange on English expenditure shown below		389,7
Saving under Military Works	74,7	
Excess expenditure under Civil Works		203,0
Special Defence Works		430,9
Exchange on English Expenditure		922,1
Minor improvements under other heads	93,7	
	1,647,4	3,692,9
Net worse		2,045,5

Section A —PRINCIPAL HEADS OF REVENUE

1886-87 Accounts		Budget	1887 88, Revised	Accounts
54,482,1	RECEIPTS	54,128,7	54,555,7	54,781,0

12 The most prominent fact in this group is the continued decline in the *Opium* revenue, which has yielded 427,5 less than was received in 1886 87 and 377,8 less than was expected in the Budget This is the only head which shows a deficiency *Land Revenue* is better than last year and the Budget by 133,6 and 251,7, respectively, the principal improvements being in Madras from extended cultivation and favourable seasons, and in Bombay from new settlements and recovery of arrears Part of the improvement in Bombay however is nominal since there is an equivalent increase under the charge head 2—Assignments and Compensations The increase in the *Salt* duty has added to the collections under that head, and in *Stamps* there seems to be a general growth of the revenue The proceeds from *Excise* were large in Burma from the restoration of order in that country, in Bengal from improvement in the condition of the people, in the Punjab from suppression of illicit sales, and in Madras and Bombay from the various causes explained in paragraph 19

13 Under *Ordinary Revenue* the improvement in India as compared with 1886-87 occurs chiefly in Coorg, and is attributed to the extension of coffee assessments to baré lands on which the berry is produced The budget was not reached chiefly in consequence of short collections in Ajmere and Beluchistan The amount entered against the Central Provinces for 1886 87 included some arrears, but those for 1887 88 were nearly as large, owing to enhanced rates of assessments principally in the Chattisgarh Division The rice crop in Lower Burma was poor as compared with 1886 87, but the receipts were better than expected on account of extended cultivation and assessments, resumption of grants and the restoration of order in the country The Assam budget was made low, as the agricultural prospects

Section A.—PRINCIPAL HEADS OF REVENUE—*continued*

were not bright at the time They improved, however, towards the end of the year, and in Sylhet the realizations were unexpectedly large Special efforts were made in Bengal and the North Western Provinces and Oudh in 1886 87 to collect all demands within the year, and hence there was little left in the form of arrears to be realised in 1887 88 Apart from this fact, the amounts receivable in 1887 88 do not appear to have been as fully recovered as the corresponding demands in 1886 87 The Punjab revenue was low in consequence of remissions and suspensions which became necessary towards the end of the year owing to the partial failure of the winter rains In Madras, the land newly brought under cultivation during the year measured six and a half lakhs of acres, which raised the revenue demand by 150,0 and increased the collections The improvement in that Presidency is also due to the favourable character of the season, the prompt collections in certain districts and advance collections in others, though these were counterbalanced to some extent by a falling off in Tanjore, Ganjam, Salem and Madura The increase in Bombay is largely the result of a change of classification, by which receipts formerly classed under the minor head Fisheries and Other Miscellaneous Revenue are now taken under ordinary revenue A portion of the excess is also attributed to the unexpected recovery of certain arrears in the Broach District and to new settlements in other parts of the Presidency

14 As regards the other headings, the Bombay budget for *Rent of Resumed Lands* was based on the old survey rates, but the collections in 1886 87 as well as in 1887 88 proceeded on the new scale These collections are adjusted by *per contra* debit to 2—Allowances and Assignments, where a corresponding increase has occurred as stated in paragraph 29 The *capitation tax* in Burma improved with the increase of population and by assessments on immigrants whose term of exemption had expired Some reforms were also introduced in the method of collecting the tax The *sale of proprietary right*, &c in Bengal during 1886 87 was unusually high, as it comprised some special items which were noticed in last year's report The Bombay budget comprised items which really belonged to ordinary revenue and have been so classed in the accounts The India Revised Estimate for the head *Fisheries and Other Miscellaneous Revenue* exceeded the budget, because it provided 11,1 on account of the revenues of the Borey Valley and Khettrin country which have been brought into the public accounts for the first time The actual collections amounted to 7,1 The large proceeds from *fisheries*, &c, in Burma in 1886 87 included heavy arrears which accumulated during the military operations in that country From Assam it is reported that there was a good increase in the *miscellaneous revenue* partly from higher assessments and partly from advance payments, but the *fisheries* brought in less than was expected, chiefly in Sylhet, and the yield from elephant mahals was also short as half the number of mahals are now allowed rest annually As explained in last year's report, the decline in Bengal is nominal being due to the recovery of copying fees in stamps The Punjab revenue was enhanced by greatly increased mutation fees and other miscellaneous items The mutation fees have accrued from extensive settlement operations in the Province and were not anticipated in the budget The change of classification noticed above, by which collections formerly classed as miscellaneous are now treated as ordinary revenue, accounts for the variations under the former head in Madras and Bombay

15 The following Statements A and B give the usual particulars respecting the distribution of the Land Revenue between the Imperial and Provincial Governments In the case of the Punjab, this distribution is made according to the provincial contract of 1882 which is still in force in that Province, but as regards the other Provinces new contracts have been framed which came into operation on the 1st April 1887 It was explained in paragraph 54 of the report for 1882 83 that the distribution proceeded on the method "of adjusting the total amount of assigned provincial revenues to the total of assigned provincial expenditure by including in the former a calculated proportion of Land Revenue" In the new contracts a share of the land revenue is assigned to the Provincial Government in the same way as the shares from other heads of revenue and expenditure, and then the account is balanced either by making a grant to the Provincial Government should the assigned revenues be deficient, or by taking a contribution from it if the reverse happens These grants or contributions, as the case may be, are entered in the following statements in the column headed "Contributions, &c," together with such other amounts as the Imperial and Provincial Governments may have mutually agreed to treat as exceptional items to be withdrawn from the ordinary operation of the provincial contracts

55 2	Bengal	53 5	56 2	56,7
43,7	North Western Provinces	44,0	42,5	42,7
3 2	Punjab	4 2	5,0	5,2
13,5	Miscellaneous	9,7	13 1	8 8
8,943,0	Total	8 893 3	8 544,2	8 515 5

16 The decline in *Bengal* is due to the average price realised at the opium sales having been less by R41 than was estimated in the budget and in *Bombay* to the revenue from pass fees having been affected, it is understood, by the dealers holding back for higher prices The Bombay receipts in 1886 87 were abnormally high, as explained in last year s report The excise revenue was short in the *Central Provinces* owing to a failure of harvests and in *Assam* from decreasing consumption In the *N-W Provinces* and *Oudh* the budget was too high, but the other provinces report a general improvement, which in the case of *Burma* may be attributed to the quieter state of the country whereby the revenue officers have been able to give more time to excise administration The following table shows the sales and produce in Bengal and the exports from Bombay —

Year		Bengal					Bombay			
		Balance in stock on 1st April Chests	Produce of season Chests	Chests sold	Average price per chest R	Total price	Chests		Rate	Amount
1877 78		71 315	67,167	49 500	1,266	6 269 3	45,830		600	2,749,8

17 In *India* the increased receipts in Customs and Excise duties are due to development of trade on the opening of the Jhelum Bridge, the Sindh-Sagar Railway, and the Salt Branch of the Jodhpore State line, as well as to the reduction in freight charges to the North Western Provinces and Sindh markets, but these advantages were more than counterbalanced by a falling off in the sale of Government salt which was caused partly by the increase in the rate of duty and partly by the abolition of the Agency system for the sale of Sambhar salt which has told most seriously on the collections on account of carriage and freight The unsatisfactory results in the *Central Provinces* are due to the abolition of the Baragora Salt Agencies, and in *Bengal* to an over estimate but there was also in this province a short clearance from bond during the year owing to high prices prevailing at the time In *Burma*, on the other hand, the realizations are more satisfactory, owing to the large importations which, though affecting the local manufacture, increased the duty The fluctuations in *Madras* are attributable partly to the Orissa portion of the budget having been too high and partly to the extended substitution of the excise system in place of the Government monopoly, as well as to the introduction of the enhanced rate of duty In *Bombay* the demand for Kharagoda salt declined in consequence of the abolition of the agencies beyond the Presidency and of the competition of the Pachbudra commodity On the other hand, the increased rate of duty enlarged the revenue, and this was attended by greater exports by sea and land in consequence of the opening of the Western India Portuguese Railway It is also reported that a large quantity of salt has been used for fish-curing purposes

Section A—PRINCIPAL HEADS OF REVENUE—*continued.*

18 The *India* budget was too low In the *Central Provinces*, there has been a steady growth of the revenue, for which the budget did not allow as it was supposed that the receipts in 1886 87 were largely the result of special causes The *Burma* budget for Court fee Stamps was too sanguine and for Commercial and other Stamps too low The budget for Upper Burma was necessarily rough The report from *Assam* shews that the rise of Court fee Stamps in that Province is largely due to process fees recovered in stamps with reference to arrears of land revenue realised in Sylhet There has also been some increase in the Assam Valley The decline in Commercial and other Stamps has also occurred in Sylhet from the impoverished condition of the people owing to floods and bad harvests The *Bengal* figures indicate a steady development of revenue although this year there was a specially large receipt on the probate of the will of a Zemindar in Monghyr There is a progressive rise in the *North-Western Provinces and Oudh* for which neither the revised estimate nor the budget made sufficient allowance The increase in the Punjab under Court fee Stamps is ascribable to the institution of several suits for large sums, and in the other Stamps to bad harvests and expansion of trade, while in Madras it is partially accounted for by large sales to a New Bank opened during the year, and by the value of stamps taken in connection with the lease of a large Zemindary But apart from these special items, there was a great increase in Madras both in judicial and non judicial stamps, the former being attributable chiefly to greater litigation and the latter to activity in trade The Bombay figures include a receipt of 8,3 on account of probate duty on the estate of a millionaire, independently of which trade was brisk in that Presidency and the revenue was benefited accordingly

19 The large Revenue in *India* has accrued chiefly in Bangalore, to which a number of camp followers returned from Burma and where there was a rise in the wages of labourers and workmen generally This increase of wages extended to Coorg and gave a lift to the excise revenue There were also arrear collections in Ajmere, but the completion of the railway to Quetta reduced the number of workmen there and so diminished the sale of exciseable articles The budget omitted to provide for the recovery from the Mysore State of the amount due from it towards the Toddy revenue of the assigned tracts In the *Central Provinces* bad harvests ruled throughout the year In *Burma* the more settled state of the country, the high price of paddy, the introduction of revised rules for the sale of liquor, and a better excise administration contributed largely to the increase In *Assam* the vendors of Country spirits in the Sibsagar District formed a combination not to sell country spirits, and no licenses for the sale of country spirits were therefore put up for sale, rum shops being substituted The fall under opium is attributed to a decrease in the use of the drug by the Assamese The *Bengal* revenue suffered in 1885 86 from the bad agricultural season of that year, but revived in 1886-87 The budget was framed on the experience of 1885 86, but was raised in the Revised according to the facts then available The Revised however was not reached, as some advance payments were made in 1886 87 and included in the accounts of that year The *North Western Provinces and Oudh* had a bad year as regards excise revenue owing to high price of food grains In the *Punjab* a large number of illicit shops were suppressed and the bids for licenses rose The budget was too low The improved receipts in *Madras* under *License and Distillery fees*, &c, have accrued chiefly from an increase in the rates of excise duty on Country spirits in certain districts from higher rents for the lease of Toddy and Country spirits farms, and from better

Section A —PRINCIPAL HEADS OF REVENUE—*continued*

administration and preventive arrangements generally The fall in *Opium* is due to a reaction from excessive bids for opium farms in the previous year In *Bombay* agreements have been concluded by which the excise arrangements in certain Native States, such as Cambay, Bhandaria, Umeta, &c , have been brought under British management, and toddy was tapped throughout the year, while in 1886 87 the tappers were on strike for the first six months It is also reported as regards opium that the farmers in Gujarát imported the Doongarpur drug largely for home consumption, owing to a rise in the price of Málwa opium The budget for other receipts was too high

20 These rates being raised from the land are affected more or less by the causes which influence the collection of land revenue In *Burma* the collections last year included large arrears During the present year a change has been made in *Bengal* in bringing to account the Road cess Collections which are now partly shown under the minor head Miscellaneous instead of wholly under Road cess In the *Punjab* there were arrear realizations and some additional revenue was also obtained from the assessment of land watered by the Sidhnai canal in the Mooltan district In *Madras* the bulk of the increase appertains to the Village Service Fund, the receipts of which show a general improvement in nearly all districts The newly imposed house tax in that Presidency under Local Funds Act V of 1884 also shows considerable improvement as compared with the previous year Moreover, an item of about 6,2 being the sale-proceeds of Service Inams has been shown here instead of under XXV —Miscellaneous

	Accounts		570 5	368,3	105 8	254 2	1,348,8

21 The *import duties* have yielded more than was anticipated in the Budget owing to a general improvement in trade, as well as to the changes introduced by the Tariff Act of 1887, and to the new tax on mineral oils The Bengal Revised expected too much from this new tax, and made no allowance for the falling off in revenue on the imports of wines and spirits The high receipts in Madras are mainly in consequence of large importations of Colombo arrack into the town of Madras, owing to the temporary closing of toddy shops on the introduction of the free tapping system

22 The *export duties*, on the whole, have also produced more than was expected, although the collections were short in Burma, where the demand for rice in Upper Burma diminished the exports of that article, and in Madras from which Ceylon took less than in 1886 87 These deficiencies, however, were more than covered by larger exports from Bengal and Bombay

Section A.—PRINCIPAL HEADS OF REVENUE—*continued*

23 The amounts entered above against Civil Departments represent assessments on both official and non official incomes while those entered against other departments consist almost entirely of collections from Government Officers Hence as regards the latter the accounts approach the estimates very closely With respect to the recoveries in the Civil Departments, it was difficult to frame an accurate estimate as the Income Tax was only introduced in the preceding year The total result, however, is satisfactory being in excess of the estimates as well as of the accounts of 1886 87

24 In contrasting the figures of 1886 87 with those of 1887 88, it is to be noted that in the former year the revenue in the Andamans was not included in this head, but was taken to XVIA —Law and Justice— Courts of Law, with the other receipts of that penal settlement In 1886 87, moreover, the demand for timber was weak in the Central Provinces, Bengal, and Madras, while the state of Burma interfered with forest operations in that country During 1887 88 the *India* revenue was unexpectedly increased by the sale proceeds of 600 tons of *Padouk* sent to Europe, and which, it was supposed, would not come so soon into the accounts There was also a good demand for timber and other forest produce in *India* and the *Central Provinces*, while the more settled condition of *Burma* led to large sales and higher prices were obtained than were expected The budget for *Upper Burma receipts* was in the circumstances very rough The collections in *Assam* suffered from the extraordinary difficulties encountered in bringing the timber of the Garo Hills to sale depôts, but this was more than covered by recovery of the export trade in sal timber from Lower Assam to Bengal, by large imports from Manipur into Cachar and by the levy throughout the year of pass fees on the timber drawn from Hill Tipperah into Sylhet In *Bengal* the indents from State Railways were small, about 88,000 bamboos were lost by floods, and in the Chittagong Division people avoided the forest in the interior of the hill tracts for fear of raids from across the frontier, but on the other hand, the sale improved of some descriptions of timber and minor produce The report from the *North-Western Provinces and Oudh* shows that the demand for sleepers had nearly ceased and so caused the small receipts in 1887 88 There was also a decline in the sale of firewood and of dry timber which is used by the poorer classes, who were in less prosperous circumstances this year These deficiencies, however, were partly met by increased indents from the Irrigation Department, by sales of standing trees, of timber obtained from improvement fellings and of grass, by salvage receipts in connec-

tion with operations on the Gunduk river, by royalty on elephants captured by the Bulrampur Khedda, and by the Jumna river dues The *Punjab* revenue also suffered from the diminished requirements of the Public Works Department and of the public generally, but the proceeds from scantling and firewood and from grazing dues were better than expected in some parts of the country In *Madras* higher prices were obtained and a larger yield from grazing dues secured than in 1886 87, but both the budget and revised were too sanguine As regards *Bombay* the aggregate results nearly agree with the actuals of the previous year, though the details differ The falling off under timber, &c , removed by Government agency is in the Sind and Northern Circles due to slack traffic on the North Western Railway and to a small demand for timber and myrabolams The decline would have been much greater, but for a large increase in the Southern Circle from (1) an unexpected indent for 35,000 teak sleepers from the Southern Mahratta Railway, as well as from the value of sleepers supplied to the Western India Portuguese Railway Company, in 1886 87 having been credited in the accounts for the year under report, (2) to the fact that 3 000 teak trees were added to the departmental fellings originally in the budget and (3) to a larger supply of fuel to the Southern Mahratta Railway than was anticipated The improvement in timber removed by purchasers is in the Northern and Sind Circles, and is due in the former (1) to large quantities of timber and firewood having been sold in the Thana Division by "Compartments" of so many acres for a lump sum, in connection with the clearance of the site of the new "Tansa Lake" for the supply of additional water for the city of Bombay and (2) to grazing fees, which, in the original estimate, were under estimated by the Conservator The improvement in the Sind Circle is due (1) to the growing demand in Lower Sind for small bábul timber for export, and (2) to a demand for grazing and fodder grass due to the larger area that has been added to the reserves On the other hand, there was a decrease in the revenue of the Southern Circle due (1) to fewer permits for timber being taken out in the Southern Division of Kanara than were originally anticipated, (2) to the diminished demand for wood in Bijápur owing to sales from Inámdári forests, and to the restriction of operations in Kolába, the markets having become overstocked with wood sold in the previous year

	Accounts		1 5	8 3	3 5	3 2	101,8	37,1	22 1	90,7	43 1	311,3

25 There is nothing specially noticeable in India, the Central Provinces, Burma and Assam The diminished receipts in *Bengal* are due to a loss in searching fees, consequent upon an order of the High Court cancelling the rule which required a search to be made prior to the sale of immoveable property under attachment in execution of decree, in order to ascertain whether it was subject to any antecedent incumbrance In the *North-Western Provinces and Oudh* the high price of food-grains contributed largely to the increase, while in the *Punjab* it is explained to be the result of bad harvest and a rise in the price of land leading to numerous transfers The steady improvement observable in *Madras* is secured by affording greater facilities in the registration of documents, and the high actuals in Bombay are accounted for by the introduction of an enhanced rate of fees

26 As regards *Tributes and Contributions for R5,000 and over*, the Oodeypore Tribute was estimated at 21,7, 1,7 being for arrears, of which however only 3 was realized The excess recovery in Kathiawar includes arrears, and the amount entered against the Baroda State represents the subsidy for the Police employed in the Political Agencies in Gujarat, and which was formerly credited to the Gujarat (excluded) Police Funds These funds have been provincialized from April 1887 Under *Contributions for Special Military forces*, the increased amount received from Bhopal is due to the instalment of 1888 89 having been paid in advance in March 1888 The India budget for *Tributes and Contributions under R5,000* was exceeded, as it did not provide for the sums payable by the Dholepore and Kerowlee States towards the cost of the triple Agency of Bhurtpore, Dholepore, and Kerowlee, as sanctioned by the Government of India in October 1887 The decrease in the Central Provinces is due to a moiety of the tribute from the Sonapore State in the Sambalpore District having been received in advance in 1886 87, and the other moiety in 1888 89 In Bombay the Junagadh Tribute was previously credited to the Gujarat Police Funds mentioned above, but these having now been provincialized, the credit is brought under this head The improvement in *Fees on Succession to Native States* arises, in India, from unexpected nazerannas from Alirajpore and Kothi, and in Bombay, from the Savanpur State having paid the balance due by it in one sum in May 1887 instead of by instalments as anticipated

1886 87 Accounts	Budget	1887 88 Revised	Accounts.
9,746,2	9,650,6	9,611,5	9,438,2

27 The following are the principal differences comprised in this group The payments under *Assignments* exceeded the estimate by 101,4, owing mainly to the adjustment of the alienated revenue in Bombay at new survey rates, but this was done by per contra credit, and hence there has been a corresponding increase under 1—Land Revenue Under *Land Revenue*, the budget provided 38,2 for the revision of the revenue establishments in Madras, but the amount was not utilized, and it also took "Malikana" charges amounting to 33,8 under this head, but the classification having been changed, the payments appear in the actuals under 2—Assignments and Compensations The *opium* expenditure was less than expected in consequence of a smaller produce, and the charges for *Salt* were also low, chiefly in India, owing partly to the abolition of the agency system for the sale of salt, and partly to reduced establishments The salt expenditure in 1886-87 was abnormally high, as explained in last year's report

28 The Actuals under this head show an increase over the previous year and the budget and the increase is principally in Burma and Madras The India figures comprise 9 on account of income tax realised in excess on certain Government Securities and refunded to the parties concerned The accounts of 1886 87 included 1,5 on account of certain local cesses credited to Government but subsequently paid to the Municipality of Bangalore to which the revenue properly belongs, and 2,8 representing an excess payment by traders to whom it was refunded in consequence of the reduction in the price of Sambhar Salt There were special refunds of Excise and Salt revenues in Burma and of Land Revenue in Upper Burma The actuals in the North Western Provinces and Oudh under *Land Revenue* include a special payment of 2,3 made to free an estate from encumbrances which escheated to Government on the possessor of the estate being declared a disqualified proprietor In Madras the Land Revenue Refunds includes 1,8 erroneously credited to Imperial Revenues instead of to Local funds, and there were also excess collections which had to be

Section A.—DIRECT DEMANDS ON THE REVENUE—*continued*

refunded Under *Salt* 2,6 had to be refunded as the Salt could not be issued The *stamp* refunds are also high owing to return of spoilt stamps and of Small Cause Court fees on certain compromised suits of large value The high figures under Assessed Taxes in 1886 87 comprised an item of 8,3 on account of income tax refunded to the Madras and South Indian Railways under a ruling of Government by which net profits not exceeding the guaranteed interest were declared not to be liable to taxation In Bombay the revised estimate provided 5,6 for a special Land Revenue refund to certain land holders in Gujarat of which a part only was brought to account in 1887 88

29 The compensation payable to the *Dholepore* State was not drawn till April 1888 As regards *Meywar*, the revised estimate was reduced on account of the amount paid in advance in 1886 87 under the arrangement explained in last year's report This arrangement was continued in 1887 88, and as the postal collections were greater than the compensation a similar advance payment occurred in that year The royalty payable to the Joudhpore and Jeypore States is variable since it depends upon the quantity of salt taken The amount paid on account of other compensations is small as the sums drawn by the Raisini Sirdars are now charged to 25—Political The difference between budget and accounts, in *other compensations, &c*, *Bengal*, is due chiefly to a change of classification by which Malikana has been brought into this head from 3—Land Revenue, and in a minor degree to compensation paid to the

Section A—DIRECT DEMANDS ON THE REVENUE—*continued*

Chief of the Mourbhunj State for loss of revenue in consequence of the prohibition to cultivate ganja in his State The *North Western Provinces and Oudh* compensations also include Malikana for the first time The short payments in *Madras* have been caused by the allowances not being fully drawn A revised classification of alienated revenue having been adopted in Bombay, it is necessary, for the purposes of the present review, to take together the two heads—*Pensions in lieu of resumed lands* and *Inamdars and other grantees* These two heads consist partly of cash allowances and partly of alienated revenue The cash allowances are never regularly drawn, and in 1887 88 they were 12,0 more than in previous year and 8,2 more than the budget The alienated revenue is also largely in excess of the budget and the actuals of 1886 87, owing to the introduction of new survey rates, &c , as well as the transfer to this head from 3—Land Revenue of the revenue of lands alienated for services rendered to the community This is the fourth year in which attention has been drawn to the large differences in these heads between estimates and accounts The subject has been under the consideration of Government and instructions have been issued which, it is hoped, will secure accuracy in future The variations in the last two heads are due chiefly to the Goa Customs Tariff compensation of 5,9 having remained undrawn and to a saving of 8 in the Goa salt compensation

3—Land Revenue.

30 The *Charges of District Administration* exceeded the budget in India owing to the Putwari charges having been debited to this head in the accounts, whereas in the budget they were taken under 18—General Administration There is a similar excess in the Central Provinces, and it is due to a rise in Putwari charges consequent on the operations now in progress for a revision of the land revenue settlements The Bengal accounts of 1886-87 were high as they included a special payment of 2,3 for land

Section A—DIRECT DEMANDS ON THE REVENUE—*continued*

taken up for the construction of public offices in Chittagong The North-Western Provinces and Oudh budget was too high, and in Madras the amount estimated in connection with the revision of revenue establishments was not utilised The Bombay estimate did not allow sufficiently for general savings As regards *Survey and Settlement*, the excess in India was caused partly by the Coorg Survey which was sanctioned after the budget was passed, and partly by insufficient provision for the Surveyor General's Office The India expenditure in 1886 87 was swollen by the outlay connected with Settlement operations in Ajmere In the Central Provinces the establishments contemplated in the budget were not fully maintained, and the expenses relating to the Commissioner of Settlement, though estimated under this head, have been classified in the accounts under Land Records and Agriculture A similar change in classification has caused the difference in Burma The savings in Assam, Bengal, the North Western Provinces and Oudh and the Punjab are almost wholly in the charges connected with the Survey of India Department, and in Bombay in salaries, establishments and travelling allowances As regards *Land Records and Agriculture* the difference in Burma is explained above In Bengal additional officers were appointed under the Director of Agriculture and additional expenditure incurred for travelling and other expenses In the North Western Provinces and Oudh the post of the Deputy Director was abolished In Madras, the full scope of this minor head was not understood when the budget was framed, and the estimate was accordingly framed too low The excess under *Management of Government Estates* in Bengal has occurred in the outlay on public improvements and in the commission paid on collection of rents and cesses On the other hand, the expenditure on temporary establishments and improvements was low in the Mirzapore and Tarai districts of the North Western Provinces The saving under *Commission on Collections* is due in Burma to a portion of the amount not having been drawn within the year, and in Assam to the gradual extension of the Tehsili in lieu of the Mouzadari system In *Allowance to District Officers* a change of classification has been introduced in Bengal, North Western Provinces and Oudh, and Bombay, by which Malikana or allowance to excluded proprietors has been transferred to "2—Assignments and Compensation" The small excess in Madras was chiefly on account of arrears The budget for Upper Burma charges was based on the information available at the time, but the result has shown a smaller payment on account of commission than was expected

4—Opium

31 The opium expenditure in *India and Bombay* do not call for remark The variations in *Bengal* occur chiefly in cultivation and manufacturing charges, which are regulated by the outturn, the large payments made in 1886 87 being principally due to the produce of the great crop of 1885 86

32 In *England* part of the anticipated payments were not made till the following year

33 In *India* the saving in *establishment and contingencies* resulted from large reductions made on the suggestions of the Finance Committee The *manufacturing* charges were also low as the Punjab mines held a large stock of salt, and the season in Sambhar commenced later than was anticipated The total absence of *freight* charges in India is attributed to the abolition of the agency system for the sale of salt In *Madras* the budget proved too high, as the full sanctioned scale of establishment was not entertained throughout the year Some circles were also abolished, and other economies were carried out in Orissa In *Bombay* the revised estimate under *purchase and freight* provided 6,0 on account of carriage of Baragora salt from the Runn Salt Works, but only 3,1 were required

Section A.—DIRECT DEMANDS ON THE REVENUE—*continued*

34 There is nothing calling for notice under this head except that the Bengal and North Western Provinces and Oudh budgets were respectively too high and too low as regards stamps supplied from Central Stores, but they seem to have been based on the actuals of 1886 87 as far as they were known at the time In England the indents from India for stamps were smaller than were anticipated in the estimates

7—Excise

1886-87 Accounts		Budget	1887 88 Revised	Accounts
	CHARGES OF COLLECTION—			
1 3	India	1 5	1 4	1 1

1	England	3	1	
1	Exchange	1		1
116 7	TOTAL	118 9	122 5	127 1

35 The fluctuations under this head are trifling, except in Burma, Bengal Madras, and Bombay In *Burma*, the decrease, as compared with the budget, is due to the closing of a distillery, and as compared with 1886 87 to the abolition of the appointment of Commissioner of Excise Stamps and Registration *Bengal*, on the other hand, incurred some excess expenditure in consequence of the revision of Excise establishments and by the amalgamation, in certain districts of the posts of Income Tax Assessors with those of Excise Inspectors This head is charged with a moiety of the pay and travelling allowances of the former The *Madras* figures represent the proportionate cost of the combined Salt and Abkari establishments, and hence the explanations given under *Salt* are applicable to these charges also The increase in *Bombay* is ascribed to the entertainment of an additional Abkari establishment in Sindh, to exceptional rewards in smuggling cases of opium to the construction of temporary distilleries in the Thána district and to the deputation of a special officer at Baroda in connection with the settlement of excise arrangements with Native States

8—Provincial Rates

1886 87 Accounts		Budget	1887 88 Revised	Accounts
	ESTABLISHMENT AND OTHER CHARGES—			
5,1	Burma	4 5	4 1	4 2
4	Assam	4	4	4
22 6	Bengal	19 1	36 9	35,2

5,2	Bombay	5 7	5 1	4 8
51 1	TOTAL	47 2	64 0	62 1

36 The expenditure was high in *Burma* during 1886 87 as large arrears were collected in that year and commission was paid on them as well as upon the ordinary receipts of the year In *Bengal*, there has been a change of system as explained in the last year's report, and the new procedure having been extended has caused a further rise in the charges recorded under this head

	Revised						Revised		137,0
	Accounts						Accounts		134 9

37 The rise in *Bengal* is caused by the transfer to this head from "32—Miscellaneous" of charges on account of Rents, Rates and Taxes of the Customs buildings, as well as by the entertainment of two additional appraisers for half the year *Madras* shows a reduced expenditure as compared with the previous year owing chiefly to a revision of the establishments The small saving in *Bombay* is spread over various items, the savings carried out in the Gujarat and Konkan Divisions under "Salaries, &c" being partially counterbalanced by the purchase of a steam launch for the Customs Department Karachi, and by an increase in the establishment charges of the Reporter General of External Commerce

10—Assessed Taxes

1886 87 Accounts		1887 88 Budget	1887 88 Revised	Accounts
1	India		1	1
1	Central Provinces	2	1	1
5	Assam	6	3	2
27 1	Bengal	17 0	15,0	15,1
3,9	N W Provinces and Oudh	2 5	2 0	1,8
3 4	Punjab	3 7	1 4	1,4
6,2	Madras	3 6	4,0	3 4
8 9	Bombay	6 0	7,7	6,6
50 2	Total	33 6	30 6	28 7

38 The low expenditure in 1887 88 is the result of reduced establishments The actuals of 1886-87 were comparatively high as it was the first year of the Income Tax under the present enactment

39 The differences in the *India* column are explained by the fact that in the accounts of 1886 87 and in the Budget of 1887 88, the expenditure in Port Blair and the Nicobars was not entered under this head, but charged to Law and Justice—Courts of Law In the *Central Provinces* there has been a change of classification by which certain charges which had formerly been regarded as appertaining to timber removed by purchasers, are now treated as establishments Apart from this alteration in account, there was an increase of expenditure owing to revisions of establishments, to extension of fire protection and improvement in demarcation, but on the other hand, savings were effected in roads and buildings and in feed and keep of cattle As stated in paragraph 24, forest operations were extended in *Burma* as the country became more quiet, and hence the outlay in 1887 88 surpassed that of 1886 87, the revenue being increased at the same time The expenditure, however, was much below the Budget, the principal savings being in survey charges, in purchase of elephants, in roads and buildings, and in the controlling staff and subordinates, both of which were under the sanctioned strength The expenditure in *Upper Burma* was almost nil in 1886 87, as regular work had hardly commenced, and even in 1887 88 the state of the country restricted operations, and so kept down charges As explained in paragraph 24, the demand for timber and forest produce was small in *Bengal*, and this was followed by shorter expenditure generally In the *North Western Provinces and Oudh*, the diminished outlay was the consequence of smaller indents, chiefly for sleepers, but the estimates also were in some instances framed too high The *Punjab* expenditure was kept well within the budget, except under the head timber and other produce removed by Government Agency, which includes 9 5 for preparation of additional sleepers and construction of auxiliary slides, and 9 1 for carriage of boxwood to Simla, not sanctioned in the estimates More timber also was felled in Multan and Chenab than had been expected, and cost 9, and extended operations in Kulna caused an increase of 3 As regards *Madras*, the expenditure in 1887 88 was less than that of the previous year under *Timber removed, &c*, owing to restriction of departmental felling operations in both Northern and Southern Circles, where the stock in hand was found equal to the demand It was also less under *Other Charges* but the expenditure in 1886 87 included an exceptional outlay of 7,5 to secure the lease of the Takedi Forest, in South Coimbatore In 1887 88 the charge for establishment was greater, owing to a gradual strengthening of the establishments The budget for *Timber removed, &c*, was too high, and though the amounts were reduced in the revised, yet these diminished figures were not reached in the actuals owing to (1) curtailment of expenditure consequent upon restricted felling operations, (2) payment of lower rates of commission to seignorage collectors, and (3) the engagement of temporary establishments at lower rates than was anticipated Under *Other charges* the amount sanctioned in the Budget was increased in the revised, chiefly by the grants for purchase of elephants, and for roads and buildings which could not be utilised during the year, but the saving which so accrued was counterbalanced by unforeseen expenditure connected with the purchase of the Amrapoliem forests in the Malabar district The charge for establishment was kept down by not working up to the sanctioned scale in the lower grades The *Bombay*

Section A —DIRECT DEMANDS ON THE REVENUE—*concluded*

accounts show an excess under other charges and it is due to the causes which led to an augmentation of the revenue as explained in paragraph 24 The cost of establishments was apparently high, but includes 1 0 paid to officers of other Provinces passing through Bombay If this be deducted, the actuals practically agree with the revised The Budget allowed too large a deduction on account of probable savings

40 There is a decrease in *Bengal* under *District Charges*, as compared with the budget, owing to the provision for commission to Sub Registrars and *ex officio* Registrars not being fully used In *Madras*, a re organization of the Department, not contemplated in the estimates, was carried out, which resulted in a saving The *Bombay* budget was framed with reference to certain economies proposed by the Finance Committee, but these have not for the most part, been carried into effect A slight saving (8) has been effected by amalgamating the appointments of Inspector General of Jails and of Registration, only one third of the pay of the combined appointments being charged under this head It will be noticed that as compared with 1886 87 there is a rise in the cost of superintendence and a fall in district charges This is due to the charges for Inspectors having been transferred from the latter to the former minor head

Section B.—INTEREST

1886-87 Accounts		Budget	1887 88 Revised	Accounts
670,5	Receipts . .	686,5	749,2	746,6

41 The principal points in this group are (1) that the arrears due in respect of the Kidderpore Dock Loan have been realised, (2) that the Loan on account of the Hughli Bridge having been paid up the interest has ceased, and (3) that the cash balance of the Secretary of State was abnormally large, and the rate of interest obtained in connection with it was unusually high

a Included under 'other items

42 The *Interest on loans to Native States*, &c, shows a decline in *India, the North Western Provinces and Oudh* and *Madras*, owing respectively to the re payment of the Scindia loan, to the cancellation of the Government Promissory notes belonging to the Benares College, and to the liquidation of the Famine-loan to the Mysore Durbar and the debt due by the Ramnad estate The increase in *Bombay* is caused by the recovery of arrears from certain talukdari estates The credits under *Interest on loans to municipalities, &c*, includes in Bengal arrears on account of the Kidderpore Dock Loan, but the interest realised

Section B.—INTEREST—*continued*

on the Hughli Bridge loan was small owing to the capital having been paid off The differences in Bombay are ascribed to the dates on which the loans were taken thereby altering the dates from which interest is payable The interest *on over-drawn Capital of Guaranteed Railways* is a fluctuating item and cannot be estimated with accuracy The large receipts in England are explained by the cash balance being abnormally great, and the rate of interest being unusually high

43 The balances under Loans to Municipalities &c, have, in the last six years, stood as follows —

Description of Loans	31st March 1883	31st March 1884.	31st March 1885	31st March 1886	31st March 1887	31st March 1888

1886-87 Accounts		Budget	1887-88 Revised	Accounts
4,310,4	EXPENDITURE	4,412,2	5,518,7	5,441,8

44 It is necessary in the first instance to ascertain the amount of Loans raised or discharged during the year, and the following figures supply these particulars for 1886-87 and 1887-88 —

1886-87 Accounts		Budget	1887-88 Revised	Accounts
	INDIA—			
1,208,9	Debt incurred	2,001,5	5,501,9	5,505,3
1,192,3	Debt discharged	1,0	67,9	69,5
+16,6	NET IN INDIA	+2,000,5	+5,434,0	+5,435,8
	ENGLAND—			
	Debt incurred—			
4,914,5	at 3½ per cent			
6,000,0	at 3 per cent			
10,914,5	TOTAL INCURRED			
	Debt discharged—			
3	at 5 per cent			
410,7	at 4 per cent			
411 0	TOTAL DISCHARGED			
+10,503,5	NET IN ENGLAND			
+10,520,1	NET IN INDIA AND ENGLAND	+2,000,5	+5,434,0	+5,435,8*

* The above amounts are exclusive of—88 0 comprising 80 6 charged to Railways on account of Sinking Funds of East Indian Eastern Bengal and Sind Punjab and Delhi Railways and 7 4 to Discount Sinking Fund

45 The 5,505,3 entered as debt incurred in India consists of 3,500,0 received from the Gwalior Durbar and 2,000 0 raised in the open market, the remaining 5,3 representing the value of Stock Notes sold The loan from the Gwalior Durbar was entered under "Special Loans" in the Budget, but was subsequently classified as Permanent Debt in the Revised Estimate and the accounts The sum of 69,5 shown as debt discharged is composed of three items amounting to 63,8, 2,9, and 2,8, respectively The item of 63,8 includes 63,7 representing the nominal value of Government Promissory Notes which were purchased some years ago on account of certain Educational funds in the North Western Provinces This purchase was made out of Government money, and hence the notes have been cancelled and the money credited to Government The item of 2,9 is the amount of debt appertaining to the Transfer Loan of 1854 discharged in England, but adjusted upon the Indian accounts The item of 2,8 is also made up of debt discharged, 1,5 being on account of debentures of the Nagpur Raipur Railway, 7 on account of Loans on which the interest ceased some time ago, and 6 chiefly on account of Stock Notes returned by Post Offices and Syndicates to whom they were issued for sale

46 In *England*, no addition was made to debt during the year, but the India 4 per cent stock was converted into 3½ per cents.

Section B—INTEREST—*continued*

13.—Interest on Ordinary Debt.—

A Statement analysing this charge may be given as follows —

1886-87		Debt in India on 31st March 1887		1887 88		
Accounts	Rate	Principal	Interest	Budget	Revised	Accounts
1,044 9	4½	23 290,3	1,048,1	1,048,2	1,029,7	990,0
2,725,0	4	68,958,1	2,758 3	2,858 1	2,861 1	2,803,4
9	3½	52,8	1 9	1,9	1,8	1,2
7,6	Provincial	142,8	5,7	5,9	5 7	6,1
6,8	Stock Notes	156,4	6,3	6,2	6,3	6,0
3,785,2	Total	92,600,4	3,820,3	3,920,3	3,904,6	3,806,7
7	Interest on Loans in course of discharge			5	8	7
5,5	Discount on new Loans and Miscellaneous			82,9	43 0	43,4
3,791 4	Total Interest paid in India			4,003,7	3 948,4	3 850 8
3,163 0	England			3,182,6	3,917,8	3 917,3
1 189,5	Exchange			1,182,1	1,645 5	1 646 1
4,352,5	Total Interest paid in England			4 364 7	5 563,3	5 563 4
8,143,9	GRAND TOTAL, INTEREST			8,368,4	9 511 7	9,414,2
	Divided into—					
3 949,0	Interest on ordinary Debt			4,025 1	5,121,3	5,054,8
4 194 9	Interest on debt for Railways and Irrigation Works			4,343,3	4 390,4	4,359,4

47 As compared with 1886 87, the *Indian* payments on account of the 4½ per cent Debt were short by 54,9, from interest not having been fully claimed chiefly in connection with the Transfer Loan of 1879 On the other hand, the payments on account of the 4 per cent Loans were naturally higher in consequence of the additions made to that debt In the Budget of 1887 88 provision was taken for a full year's interest on the debt of 1,200,0 raised in 1886 87 *plus* 93,4 on account of interest connected with the additional debt of 5,500,0 mentioned above in paragraph 45 The accounts show that the full amount of interest payable during the year was not claimed, including London drafts for 20,0 which were not presented until after 31st March 1888

48 The 43,4 under "Discount on new Loans and Miscellaneous" is made up of the following sums, and the discrepancy between them and the Budget is due to the Loan of 2,000,0 having been obtained on better terms than was expected The charges, moreover, attending the Gwalior Loan were 1,0 less than the Budget provision, and the Budget also made no allowance for the share recoverable from the Calcutta and Bombay Port Trusts of the discount on the loan mentioned above

Discount on the Loan of 2 000 0 raised during the year		51 5
Remittance charges on Gwalior Loan of 3,500,0		6,9
		58,4
Deduct—Discount charged to the Calcutta and Bombay Port Trusts to whom advances were made on the condition that they received the money at the rate at which it was raised	14,3	
Recredit of interest paid on paper purchased on Government account	7	
		15,0
		43,4

49 The amount entered above as Interest paid in *England* consists of two parts, namely, interest on debt excluding that charged to Railways and the interest that is charged to Railways The sums pertaining to each division are given below, and in this place only the interest not charged to Railways is explained The second portion of the account, Interest charged to Railways, is examined in paragraph 163 under the head Railway Expenses As compared with 1886 87, the accounts of the present year include an additional charge of 663,0 owing to an extra quarterly dividend and other interest charges consequent on the conversion of 4 per cent stock into 3½ per cent stock, together with 82,7 as commission paid on the conversion and 45,0 as additional interest on the 3 per cent stock created in May 1886 These three items make a total of 790,7, from which should be deducted the interest on the Transfer Loan of 1854 paid off in 1886-87 This being done, the net remaining difference is 768,2 As compared with the Budget, the accounts show the two sums of 663,0 and 82,7 mentioned above as an excess because the

Section B —INTEREST—*concluded*

Budget did not provide for the conversion On the other hand, the Budget allowed a sum of 10,4 for interest on temporary loans, but it was not paid

50 As explained in former reports, the interest on "*Special Loans*" is steadily declining in consequence of the commutation of pensions connected with the Oudh Loans Particulars of the interest on *Treasury Notes and Service Funds* are given below, the 4,9 entered therein against "Other Funds" included an over estimate for interest on Madras Non-transferable Treasury Notes which was corrected in the Revised The charge for "*Savings Bank Deposits*" compares fairly with the Budget, but the Revised in some cases proved a little too high Under *Miscellaneous* the India Budget omitted to provide for the interest on the balances of net traffic receipts of Guaranteed Railways, and the excess in Bombay represents arrears of interest paid in the year on the Administrator General's deposits

51 The Post Office has done better than last year, and has kept very near to the estimates In the Telegraph Department the net result is very much what it was in 1886 87, but the revenue and expenditure are larger by 71,1 and 72,1 respectively The improvement in revenue has occurred wholly in the Indian lines and has accrued partly from development of traffic and partly from a revised scale of the charges that are recoverable from the various railways Of the increased expenditure, 56,2 has arisen in the Indian lines chiefly on account of Burma and a revision of salaries in the superior grades, 4,5 in the Indo European line and 11,5 in Exchange As compared with the budget, the expenditure was economised and the revenue enlarged chiefly by the increased recoveries from railways mentioned above The Mint figures are also satisfactory, the seignorage on silver and the gain on copper coinage having exceeded expectations

52 On the whole, the actuals are in advance of the previous year and extremely close to the budget Under *Sale of Postage Stamps, Service*, the budget provided a sum of 1,5, on account of collections in Upper Burma, but the official correspondence in that province having been carried free, the expected revenue was not realised The revised was accordingly reduced, but the accounts show that the deficiency in Upper Burma has been filled up by the Stamps used in the other parts of that province The

Section C —POST OFFICE, TELEGRAPH, AND MINT—*continued*

Payments to English, Colonial, and other Foreign Post Offices have been high this year, as they include 2,0 on account of Statistical Account of open and closed Mail Transit Postage for the year 1887, not anticipated at the time the estimates were framed The *Money Order* receipts indicate a more extended use of the Money Order system than was witnessed in the previous year or contemplated in the budget The discrepancy between Estimates and Accounts under Bullock Train Collections is due to payments to the North-Western Railway on account of *Bullock Train* packages having been treated as distinct charges in the former, whereas in the accounts they have been deducted from the receipts The decrease under the *District Post* in the Punjab is ascribed to the abolition of the Mail Cart Service between Jhang and Bhakkar

Indian Telegraphs

53 Compared with the Actuals of 1886 87 a great improvement has taken place in the message revenue owing to the expansion of the Department, and the numerous connections of wire with post offices There has also been a rise in interest and recoveries resulting from the extension of railway communication in India, and the modification of the terms on which railways are allowed to use the Government lines of telegraph The principle formerly adopted, was to charge interest on the actual capital expenditure on

Section C —POST OFFICE, TELEGRAPH, AND MINT—*continued*

each line in proportion to the number of wires provided for the use of each administration, *plus* a maintenance rate proportionate to the total maintenance charges of the Telegraph Department for the year for which the bill was prepared This procedure was altered by Public Works Department Resolution No 53T, dated 23rd February 1887, the charges being now based on fixed rates, and the change, while simplifying the preparation of bills and equalising charges for identical services, has also increased the revenue

54 The Actuals also exceed the Budget and Revised estimate of the year, the excesses in both cases being partly due to extensions and recovery of arrear charges from railways, but chiefly to the State traffic with and in Burma, which, instead of declining as was expected, proved to be greater than in the previous year

Indo-European Telegraph

55 The receipts in 1887 88 fell short of those in 1886 87, owing to the adjustment in the latter year of 3,3, recovered on account of the Persian Telegraph Department debt, and also to the total cessation of traffic to and from the United Kingdom during the months of February and March 1888

56 The budget was framed low, as interruptions of the Turkish route had reduced the balance of earnings receivable in 1887 88, and it was also anticipated that the lower rates introduced for the Far East traffic would lead to a decrease of revenue

57 During the year, however, the local messages, private and state, in the Persian Gulf section increased greatly, and the Perso-Afghan Boundary Commission with the flight of Ayub Khan having caused an abnormal accession of traffic, the Revised estimate was raised to 104,6 The lengthy interruption on the Indo-European Telegraph Company's line between Emden and Lowestoft in February and March 1888, however, reduced the receipts considerably, and the Actuals fell short of the Revised estimate by 9,7

Exchange

58 The Exchange, which on this side of the accounts relates to the Indo European Telegraph only, has been steadily increasing, partly on account of larger receipts and partly on account of the fall in the rate of Exchange

XV —Mint

1886-87 Accounts			1887-88 Budget	1887-88 Revised	1887-88 Accounts
93,1	Seignorage on Silver		109,8	152 8	149,8
	Ditto on Gold		1	1	1
76,7	Gain on Copper coinage		52,5	50,0	90,3
	Other Receipts—				
5 5	Calcutta		4,8	6,1	7 6
5,0	Bombay		3 2	7,0	3,7
180,3		TOTAL	170,4	216 0	251,5
1	England				
180 4		GRAND TOTAL	170 4	216,0	251,5

59 As explained in previous reports, these receipts are of a fluctuating character and depend on circumstances which it is difficult to forecast The *seignorage on silver* was high in consequence of the large quantity of silver tendered at the Mint, as is shown in the following figures Of this sum Gwalior rupees to the value of Government R3,18,37,783 were received from the Maharajah Sindhia in part of his loan of R3,50,00,000, and were coined at the Calcutta Mint The *gain on copper coinage* was higher than anticipated in the budget owing to the large demand for the coins, partly on account of opium payments and Hindu marriages as in the North Western Provinces and Oudh, and partly for the requirements of railways in course of construction as in the Central Provinces The excess in *other receipts*, Calcutta, is mainly due to the coinage of the Gwalior rupees received by the British Government when the loan was taken from that State The importation of silver in recent years has been as follows —

	Net Importation	Silver Coinage	Seignorage
1880 81	3,892,6	4,249,7	76,1
1881 82	5,379,0	2 186,3	43 4

60 The increased cost of the *Chief Office, Calcutta*, is due mainly to additional establishment sanctioned for the Comptroller's Department in consequence of the expansion of the Money Order system and other causes of the same nature The excess in *Presidency and District Offices* is the net result of numerous increases and savings Under *Conveyance of Mails* the expenditure on *Road Establishment* was less than the previous year by 3,4, owing to a change of classification by which certain charges have been transferred from it to mail cart The *Payments to State Railways* were less than in 1886-87 owing to economies in the carriage of mails, but the budget limit was exceeded in consequence of the haulage being greater than was anticipated The *Bullock Train and Mail Cart* Line from Umballa to Simla have been amalgamated during the year, and hence the Actuals of 1887 88 cannot well be compared with the estimates or with the accounts of the previous year In addition to this amalgamation certain transfers have been made from road establishment to mail cart establishment, as stated above, and certain recoveries from the railways have been deducted from the bullock train and mail cart charges instead of being distinctly credited, as was contemplated in the estimates This change is explained in paragraph 52 Apart from these changes, there has been some saving of expenditure from a reduction of the rate allowed to certain railways The rise in *Railway charges* is caused by the Bengal North-Western Line having drawn certain arrears due to it The difference under *Subsidies* is attributable to the Tigris and Euphrates Steam Navigation Company not having taken the full amount payable to it, counterbalanced by the payment of arrears for the conveyance of mails between Bombay and Goa.

61 As regards the *District Post charges*, India reports a saving in Beluchistan consequent on the extension of railway communication. In the North-Western Provinces and Oudh certain district lines were

Section C—POST OFFICE, TELEGRAPH, AND MINT—*continued*

taken over by the Imperial Post Office, and in the Punjab, the line from Jhang to Bhakkar has been abolished, as explained in paragraph 52

62 In *England* the large expenditure on stores proceeded from large indents from this country The loss by exchange was greater, partly on account of the greater expenditure and partly from the diminished value of silver

Indian Telegraphs—Imperial

63 The *Capital* expenditure in 1886 87 was abnormally low, the excess in 1887 88 is almost entirely due to larger purchases of stores both in India and England. The Budget for 1887-88 represented the

Section C —POST OFFICE, TELEGRAPH, AND MINT—*concluded*

average annual outlay, but during the year the expenditure on works in Upper Burma was so large, that the Revised estimate was framed with a view to the additional outlay The outlay in India turned out even larger than the amount so provided, but in England there was a saving of 5,5 as some payments for stores were not made so soon as had been expected

64 The *Revenue* outlay in 1887 88 also exceeded by 13,3 that of 1886-87, the increase being almost entirely due to revision of salaries in the superior grades, to additional establishment required for Upper Burma, and to annual increments in all grades The Budget was framed to meet these increases, and special provision made for the outlay of 1886 87 which had to be postponed on account of the absence of many members of the Department in Upper Burma During the year, however, fewer offices were opened than was at first anticipated, and less repairs were required, so that the Revised estimate was passed for a smaller sum corresponding with the expenditure of the previous year The Revised has proved inadequate in consequence chiefly of more repairs having been carried out than were provided for, and of the payment of certain frontier allowances to officers The saving in England occurred in the absentee allowances of officers on leave

Indo-European Telegraph

65 The *Capital* expenditure is affected by the quantity of stores issued on revenue account, or sold since the credits obtained in connection with them are deducted from the outlay Accordingly the greater expenditure in 1887-88 as compared with the previous year is largely due to stores issued from stock being smaller than in 1886 87 On the other hand, the Actuals of 1887 88 fell short of both the Budget and Revised estimates of the year, as more line stores were issued than was anticipated, and large quantities of obsolete stores were sold at a nominal rate at the close of the year

66 The *Revenue* outlay in 1887-88 compared with that in 1886 87 shows a decrease of 3,0, due to more repairs having been carried out in 1886 87 The Actuals fell short of both the Budget and Revised estimates of 1887 88, the decrease in both cases is chiefly under establishment and is ascribed to economy in working, to absence on furlough, and to general over estimate of requirements

Exchange

67 The Exchange was very much less in 1886 87 than in 1887 88, owing to the abnormally small expenditure on stores in that year The necessity for a larger outlay on stores was anticipated, and provision was made in the Budget for 1887 88 accordingly The fall in the rate of Exchange necessitated an increase in the Revised estimate, but owing to the outlay in England having been less than that provided for, the Exchange was only 2,8 over the Budget

68 The establishment charges in Calcutta were high owing to extra work in the Operative Departments of the Mint the small expenditure in 1886-87 was due in a large measure to the absence of officers on leave, their places being filled by officers in lower grades The increase in *Loss of weight in coinage* is ascribed to the recoinage of uncurrent coin to a larger extent than was expected in the budget, but this was foreseen in the Revised estimate The excess in *other charges*, Calcutta, is in the purchase of local stores The Revised estimate under this head in Bombay included a grant of 2,0 for coal and coke, the major portion of which passed into the accounts of 1888 89

69 The most important deficiency in this group is connected with *Jail manufactures* owing to a reduced demand for such articles and a diminution in the jail population The increases occur chiefly in *Fees and Fines* levied under Law and Justice—Courts of Law, in rents from Cattle Pounds under *Police* in Bengal, and in fees and contributions for *Educational* purposes in Burma and the Punjab respectively

70 The fall in "Sale proceeds of unclaimed and escheated property" in *India* is due to smaller transfers than were expected on account of unclaimed estates in the hands of the Administrator General, Bengal The improvement in general fees, fines and forfeitures, *Burma*, and in *Upper Burma receipts* ensues from the country becoming more quiet *Bengal* reports that the increase in that province on account of general fees, &c, consists entirely of the large commission realised by the Receiver, High Court The rise in Court-fees in the North Western Provinces and Oudh is traced to higher receipts on ccount of "Amin's fees" The general fees, fines and forfeitures have been large in the *Punjab* owing to an increase in crime, and in *Madras* to large receipts from Magisterial fines and Translation and Printing fees in the High Court, but also and chiefly to Magisterial fines which have fluctuated greatly in recent years

71 The *India* receipts on account of Port Blair and the Nicobars have been affected by a reduction in the rate at which Native States now pay for the maintenance of their convicts in those places, and also by a change of system whereby the value of supplies issued to the Military Department is deducted from the corresponding charge instead of being entered as a credit under this head Another change has been made during the year whereby the Forest Revenue of Port Blair is now classified under IX—Forests The deficiency in the *Central Provinces* is counterbalanced by diminished expenditure for purchase of raw materials, the School of Industry having held large stocks awaiting manufacture The improvement in *Burma* is attributed to the presence of a larger number of prisoners in the jails than was expected when the budget was framed The fall in *Bengal*, the *North Western Provinces and Oudh* and the *Punjab* is due to smaller indents for manufactured articles and convict labour from other Government Departments, and also in the North-Western Provinces to the Central Prison at Bareilly not having been completed, and in the Punjab to sickness among the prisoners *Madras* still reports a steady decline in its Jail revenue, and in *Bombay* it is said that the decrease is due "primarily to the large number of releases on the occasion of the Jubilee, which, setting free the most skilled of the workmen and materially reducing the jail population, seriously affected the Factory operations"

Section D —RECEIPTS BY CIVIL DEPARTMENTS—*continued*

72. The budget for Police supplied to Railways in the *Central Provinces* related to the contribution payable by the Great Indian Peninsula Railway, which is now deducted from expenditure, as mentioned in last year's report The increase in *Burma* is due to larger employment of Punitive Police and larger Cattle Pound fees The *Upper Burma* receipts were high, owing, it is explained, to fees, fines, and forfeitures, which it was expected in the budget would be credited to new Municipalities, but many of them were not established till the end of the year The improvement in *Bengal* and in the *North-Western Provinces and Oudh* under fees, fines, &c, results from the high rents obtained for pounds farmed out, and under other receipts in *Bengal* as compared with 1886 87 from the sale of provisions to the Chittagong Frontier Police, including the recovery of arrears on account of the previous year The *Punjab* credits have been enlarged by additions made to the Municipal Police Force and th Punitive Police located in certain towns, after the budget had been passed In *Madras* there was a misclassification in the budget, certain sums having been entered under Police supplied to Public Departments, which should have been taken under Police supplied to Municipal and Cantonment Funds Allowing for this misclassification, the first named head is short owing to the abolition of the Abkari distillery guards and the other to certain Mopila fines not having been recovered in full The increase in fees, fines, &c, occurs almost entirely in Pound Fund receipts, which were formerly classified under "Other Receipts" As regards *Bombay*, the head Police supplied to Municipalities, &c, has increased in consequence of the recovery from Cantonment Funds of the full cost of the Cantonment Police force, the former practice being to recover only a moiety, and in a few cases no contribution at all The head Presidency Police presents a large increase, consisting (1) of a moiety of the cost of the Harbour Police, (2) of the sale proceeds of the hulk *Elphinstone*, (3) of recoveries from the public in connection with private watchmen, and (4) by the pension contributions on account of Police lent to private Companies The first was not anticipated in the budget, and the others were estimated for under "Other Receipts" The excess under fees, fines, and forfeitures is attributed to the gross receipts of the Municipal Cattle Pounds in Sindh having been credited to this head for the first time, whereas previously they went direct to the Municipalities The head "Other Receipts" in 1886 87 and in the budget included clothing recoveries which are now deducted from the expenditure

73 The increase in *Pilotage receipts* is ascribed in Bengal to the development of trade, in Madras to the transfer to this head of the receipts of the Harbour Master's Department at Madras now provincialized and the rise in *Dockyard Services, &c*, to the large amount of work done for other Departments owing apparently to reduction of Departmental charges on the cost of labour and material employed, and also to unusual supplies to Royal Navy Vessels The Budget for *Sale proceeds of Vessels and Stores* was framed on the supposition that only the *Amherwitch* would be disposed of, but subsequently the hulks

Section D—RECEIPTS BY CIVIL DEPARTMENTS—*continued*

Semiramis and *Koel*, the troop flat *Gogra*, the water boat *Carnac*, and the Survey Cutter *Greenwich* were also sold This excess was partly counterbalanced by diminished sales of Stores owing to the clearance last year of obsolete and surplus stock from the Kidderpore Dockyard

74 In *India* the decrease in contributions consists of the Educational Plough Tax in Coorg, which though entered under this head in the estimates has been credited to "VI—Provincial Rates" in the accounts The Municipalities in *Burma* were for the first time required to contribute for educational purposes after the budget was framed The increase in other receipts, *Bengal*, is due to recoveries from District Boards by transfer debit to the heads concerned of charges paid on their account in 1886 87, deducting these the actuals compare well with the budget In 1886 87 the head "Other Receipts" in the *North Western Provinces and Oudh* contained special items as stated in last year's report The *Punjab* excess in fees and fines arises from an enhanced scale of fees introduced during the year, and from large proceeds from the sale of Government books The *Bombay* improvement occurs principally in the "local" figures and is produced very much in the same way as the improvement in the Punjab

75 In 1886 87 the *Hospital Receipts* in Bengal were high owing to large recoveries from the Hospital Port Dues Fund on account of seamen treated in the Calcutta General Hospital Under *Contributions* the North-Western Provinces and Oudh Budget was too low and had to be raised in the Revised. The fall in *Lunatic Asylum Receipts*, Punjab, is attributable to certain payments by District Funds, which were formerly credited to this head, having this year been adjusted under Contribution from Local to Provincial, and a similar change was made in Madras The increase under *Other Receipts* in that province occurs chiefly in the "Local Section" for which the budget was insufficient The *Bombay* credits under *Contributions* are small as compared with 1886-87, but in that year there were special recoveries, as explained in last year's report The rise in the *English* figures is due to an increase in the number of patients in the Royal Indian Lunatic Asylum, portions of whose pensions are appropriated to their maintenance

76 Under orders of the Chief Commissioner the expenditure on *experimental cultivation* in Burma

Section D—RECEIPTS BY CIVIL DEPARTMENTS—*continued*

has been considerably reduced since 1886 87 The increase in *Botanical and other Garden receipts*, Punjab, is in the local section for which no Budget was proposed by district boards The rise under *Cinchona Plantations* in Bengal comes from large issues of the febrifuge to Madras The decline in that Presidency is attributed to no sales having taken place during the year The *receipts on account of Public Exhibitions and Fairs* were good in the North Western Provinces where the proceeds of the Mágh Méla Fair at Allahabad were greater than was anticipated, but Punjab obtained less than was expected owing to the Amritsar Cattle Fair having been transferred to the Municipal Committee The *Sale of Instruments and Stores* depends on the demand for these articles and it is not regular, but during the last three years there has been a steady rise, the amounts being 10,3, 20,6, and 27,7 respectively As regards *Miscellaneous receipts* the Punjab Budget made no provision for local items, while in Madras the actuals were increased in consequence of additional examinations held during the year

77 The failure in the English Budget is caused by the receipts anticipated for sales of the "Imperial Gazetteer of India" not having been realised till after March 1888

Section D —SALARIES AND EXPENSES OF CIVIL DEPARTMENTS

1886-87 Accounts		1887 88 Budget	Revised	Accounts
12,698,5	EXPENDITURE	13,179,7	12,897,3	12,906,4

78 As compared with 1886-87 there was an excess expenditure under *Police* on account of the military police in Burma On the other hand, the *Marine* and *Political* charges were less owing respectively to smaller requirements on account of Burma and the withdrawal of the Afghan Delimitation Commission As compared with the Budget, the principal difference is in *Marine*, which shows a large saving, as 177,0 was provided for torpedo boats, but no payments were made during the year The grant for *Administration* was exceeded by 59,6, of which 17,7 is debitable to Burma, and the rest chiefly to expenditure in England and exchange The head *Political* shows an increase of 54,1 chiefly in connection with the delimitation of the Perso Afghan frontier and the deportation of Sirdar Ayub Khan

Total including England: Accounts 1886 87 — 1 733,9; Budget 1887 88 — 1 710 3; Revised 1887 88 — 1 752 7; Accounts 1887 88 — 1 769 9

79 The excess in *Salaries of Governor General*, &c, is due in Burma to the increased pay granted to the Chief Commissioner, and in Bengal to a portion of Sir Charles Barnard's salary as Chief Commissioner of Burma having been paid in that Province The difference between the India Budget and accounts under *Staff and Household* arises partly from a change of classification, by which rents and taxes are now entered here as explained in last report, and partly from larger outlay for service telegrams and contingencies counterbalanced by savings in hill journey charges The Revised estimate allowed an additional grant of 5,4 on these accounts but it was not all required The charges for the *Executive Council* were higher than was expected owing to acting arrangements

80 As regards the *Secretariats*, the charges relating to the Government of India are particularised in the following figures, from which it will be seen that the Foreign Department, India, spent about 6,1 more than its budget grant chiefly in service telegrams, hill journey charges and miscellaneous contingencies Some increase also occurred from acting arrangements The Home Department presents an excess of 1,3 on account of acting arrangements and hill journey charges, and the Revenue Department 1,0 in connection with the new appointment of Reporter on Economic Products The rise in Burma is due to additions made to the strength of the Secretariat in that Province

1886-87 Accounts		1887-88 Budget	Revised	Accounts
	Secretariat			
31,7	Financial Department	31,6	31,5	31,3
21,7	Home Department	21,0	21 9	22,3
42,2	Foreign Department	36 2	41 0	42 3
16,4	Revenue and Agriculture	17,0	18,1	18,1
7	Translator's Department	7	7	7
29 7	Public Works Department	29,1	29,1	28,7
142,4	Total	135,6	142 3	143 4

81 The *tour charges* in India and the North Western Provinces and Oudh were smaller than was anticipated, owing apparently to the tours having been curtailed The large difference under *Board of Revenue*, Madras, is caused by the charges for the Commissioner of Revenue Settlement and the Commis-

Section D—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*contd*

sioner of Salt and Abkari Revenue having been entered under this head in the Budget, whereas in the accounts they have been debited to 3—Land Revenue and 5—Salt respectively Acting arrangements have occasioned the fluctuations in the head *Commissioners*, but in Burma and Bengal an additional Commissioner was appointed for a short time Acting arrangements have also affected the figures relating to *Account Offices*, but the office in Burma has been permanently enlarged in consequence of the annexation of Upper Burma The *allowance to Presidency Banks* is now regulated by the new agreements, but the accounts of 1887 88 include some charges which became payable under the former contract The charges entered in the India Budget as relating to the *General Establishment of Local Funds* were on account of Patwaris and have been classified under 3—Land Revenue These charges are growing in Bengal by reason of the extended operation of the Local Self Government Act In the Punjab, the Budget was too low, and in Madras large additions were made to the number of Punchayats and Unions existing in the previous year, but not to the extent contemplated in the Budget The Budget for *Upper Burma charges* was necessarily a rough forecast The saving in *other charges*, India, is nominal since the budget allowed for certain rents, rates and taxes which under present arrangements have been placed against the departments concerned

82 In *England*, there was an exceptional increase this year under the charge for management of debt attending the conversion of the 4 per cent stock into 3½ per cent stock, counterbalanced to a small extent by a decrease in the cost of telegrams to India Further increases occurred from the detention of the Member of the Royal Commission on Gold and Silver who was deputed from India, and from the demand for currency notes having been larger than was anticipated

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*contd*

83 The fluctuations under *High Courts* are largely due to the absence of officers on leave, but in the North-Western Provinces and Oudh, in the Punjab and in Madras, additional expenditure was sanctioned In the last-named province the grant for printing and translation was exceeded, but this was met by larger receipts as explained in paragraph 70 The head *Law officers* in Madras is high as compared with 1886 87, but in that year the appointments were held for the most part by acting officers The Bengal excess in *Civil and Sessions Courts* arises entirely from the appointment of additional munsifs and their establishments The saving under this head in the Punjab and in Madras consists of several small items, but in Bombay it is due to a native of India having been appointed Special Judge under the Deccan Agriculturists Relief Act whereby only two-thirds of the sanctioned pay was drawn Some changes have been made during the year in connection with *Criminal Courts* which have affected the expenditure on their account In India certain charges relating to the police of the Rajputana Malwa Railway have been transferred to the head 20—Police In the Central Provinces the outlay has been curtailed since last year by abolishing the office of Cantonment Magistrate at Saugor and the substitution of an allowance of R100 a month to a Military Officer for performing the duty In Burma, Assam, Bengal, the North Western Provinces and Oudh and Bombay the savings have resulted from the absence of officers on leave and in miscellaneous charges, for which sufficient allowance was not made in the Estimates The Punjab excess is in diet and road money of witnesses and in postage The Madras Budget was made high in expectation of a revision of establishments which, however, was not carried out The diminished expenditure on *Small Cause Courts* in Bengal and Bombay has resulted from the absence of officers on leave, but in the latter Presidency a permanent saving of about 1,0 has been effected by Government purchasing the house in which the Court is held The Budget for *Upper Burma Charges* was necessarily incomplete The excess over the payments in 1886 87 is spread over many heads, and arises out of the extension of judicial establishments as the country settles down *Refunds* are always a fluctuating quantity, and this year in India, Burma and Bengal the claims to escheats were greater than was anticipated Of the saving of 1,1 in *Other Charges*, North Western Provinces and Oudh, 9 is in compensation pay of Covenanted Civil Servants and 2 in examinations for Pleaderships

84 The Budget in *England* provided for outfit for three Judges, but none came to India during the year

85 The reduced expenditure on *Jail Manufactures* in Burma is attributed to economy in the purchase of raw materials In the other provinces it was the result of restricted manufacture and was counter balanced by diminished receipts The rise in *Other Jail charges*, India, comes mainly from the establishment of a new prison at Quetta The excess in the Central Provinces is due to an increase in the number of prisoners, rise in the price of food grains, introduction of a more liberal diet scale and substitution of Warder for police guards The increase in the North-Western Provinces and Oudh and in the Punjab is also due to the higher cost of rations, but in the former the jail allowance of Medical officers has been charged for the first time to this head It was previously classified under 24—Medical The

Section D—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*contd*

saving in Burma was obtained by smaller expenditure in the transport of prisoners, in Bengal by closing the Bhaugulpore district Jail and by converting the Central Jail at Hazaribagh into a district Jail, in Madras by the abolition of three district Jails and of the European penitentiary at Ootacamund, and in Bombay by the release of prisoners in connection with the Jubilee, by the conversion of several district Jails into subordinate Jails and by the abolition of some subordinate Jails The Assam Budget was too high The small amount of *convict charges at Port Blair and Nicobars* as compared with the budget is caused chiefly by the transfer of 5,5 from this head to 11—Forests Independently of this transfer the accounts show that the budget was exceeded in the item of stores but this was counteracted by savings in establishment from the absence of officers on leave Considering the circumstances of the country the estimates for *Upper Burma charges* have proved satisfactory

(a) Included under District Executive Force

86 The high cost of the *Presidency Police*, Madras, as compared with 1886 87, is caused by the transfer to this head of the pay of the superior officers of that body, formerly taken under Superintendence In Bombay, on the other hand, the expenditure was higher in 1886-87, but in that year a special payment of 2,5 was made for a police hulk The reduced charge for *Superintendence* in Madras is due partly to the transfer mentioned above and partly to a reduction in the number of Deputy Inspectors General The saving in *District Executive Force*, India, is the result of reduced establishments at Quetta In the Central Provinces, it is due partly to the employment of warder guards in jails and the withdrawal of police from conservancy supervision, and so far the saving is nominal

Section D—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS —*contd*

as it has led to increased expenditure under jails and to a fall in police receipts A third cause of the saving is the transfer of the Saugor Cantonment Police to the Cantonment Fund The Burma budget included 27,0, which really appertained to special police, and should have been classified as such Allowing for this correction, the actuals have exceeded the forecast in the items of escort charges, and arms, accoutrements, and clothing The Assam police is officered from Bengal, and changes occur in the grade of the officers employed This explains the fluctuations in that Province In Bengal, the grant for pay of constables was not fully utilised In the North Western Provinces and Oudh the budget was too high The Punjab budget included the grant for *Municipal and Cantonment Police* which has been separately classified in the accounts The fall in Madras is caused by the employment of warder guards in jails, and is subject to the criticism noted above in the case of the Central Provinces In Bombay, some interchanges have taken place between this head and Special and Municipal and Cantonment Police, and hence the figures cannot be compared separately The principal difference here is in the charges of the Gujarat Police which amounted to 42,0 and 40,0, respectively, in the revised estimate and accounts of 1887 88, while they were not included in the accounts of 1886 87 or in the budget, because they were charged at that time to an Excluded Local Fund Allowing for this difference the accounts and estimates agree fairly well except in the cost of clothing which is now shown net instead of gross as formerly The higher cost of *Government Railway Police* in India ensues from the additional force required by extension of the Sindh Pishin line The saving in the Central Provinces is, for the most part nominal owing to recoveries from the Great Indian Peninsula Railway having been deducted from the expenditure instead of being distinctly credited In Bengal, the grant for the police on the Northern Bengal and Tirhoot lines was not fully used, and in the Punjab, the Company working the Rajputana Malwa Railway paid a portion of the charges connected with the Rewari Ferozepore line The charge for *Village Police* was small in Burma owing to fewer men having been employed in Akyab than was anticipated The Bengal budget was high, and in Bombay it did not allow sufficiently for arrears that were due and for the *pro-forma* adjustments on account of alienated (service) land revenue The Bombay estimates also provided for some items under 3—Land Revenue, which belong properly to this head As regards *Special Police*, the fluctuations in Burma and Bombay have been noticed above under the head *District Executive Force* The excess in Bengal is in the cost and carriage of clothing and stores *Cattle Pounds* have outstripped the budget, but this is counterbalanced by large receipts These increases arise, chiefly from the construction of additional pounds and remuneration to additional pound-keepers The rise in *other charges*, Bengal, consists of refunds to District Boards of sums received from them in 1886 87 It was difficult in the circumstances of the country to make an accurate estimate of *Upper Burma charges*

87 The budget for *Marine Survey and establishments* was too high The grant for *dockyards* had to be raised in the revised as a good deal of work came in from other departments for which there has been an increase in receipts as explained in paragraph 73 The actuals did not reach the revised from various causes, of which the chief are a revision of certain appointments and establishments in Kidderpore and the employment of less labour than was anticipated The *salaries and allowances of officers and men* were high owing to demands on account of Upper Burma for which it was necessary to employ additional establishments, some new vessels having been added to the Indian Marine The cost of *Marine Stores, &c*, was high in 1886 87, chiefly on account of coal and stores required for the conveyance of troops and material to Burma, and for the steamers and launches employed in Upper Burma Both the budget and revised contemplated a considerable reduction of expenditure on this account, but the circumstances of the country did not admit of such savings being effected The increase in *pilotage and pilot establishments* is due, in Bengal, to improved trade and is accompanied by larger receipts as mentioned in paragraph 73 In Madras it has been caused by the transfer to Provincial Services of the Harbour Master's Department, as already noted in the same paragraph The excess in India under *other charges* is connected chiefly with the operations in Upper Burma, but unforeseen charges for the Bushire Coal Depôt and the Perim Light House have also contributed to it The Lower Burma budget provided for a contribution to the Akyab Port Fund which was not paid, and fewer vessels were employed than was anticipated These produced a saving of 3,2, but on the other hand the expenditure on Light Houses and Light Ships was 1,6 more than expected The Bengal budget provides 10,0 for the purchase of a new vessel which was not obtained during the year Allowing for this special item the accounts of 1887 88 shew an excess both as regards the accounts of 1886 87 and the budget and this excess arises from the contribution of 2,0 granted to the Balasore Port Fund, and from the share due from that Province of the subsidy for conveying mails between Naraingunge and Assam

88 In *England*, a sum of 177,0 was entered in the budget for torpedo boats, but no payments were made on this account during the year

89 The Bengal figures cannot be analysed this year in the usual detail, as a good deal of the expenditure has been transferred to District Boards, which have not followed the classification observed in the State accounts The total outlay in Bengal has exceeded the budget by 15,1 in consequence of additional expenditure incurred by District Committees The whole system of administering these funds by means of district bodies is in a transition state, and defects like these are not, I am told, likely to occur again As regards the other Provinces, the North Western Provinces and Oudh budget for *Inspection* was too high, and the Punjab revised too low The appointment of two additional Deputy Inspectors explains the excess in Madras, the Bombay saving being due to the abolition of the inspectorship of the North Eastern Division The short charge for *Government Colleges*, Madras, is attributed to the authorised staff not having been fully engaged The saving under *Government Schools*, Central Provinces, is the result of orders issued by the Chief Commissioner, restricting the outlay from district funds on education to the amount of the Education Cess, added to a fixed contribution from Provincial Revenues, and the private subscriptions and fees collected In comparing the Burma charges for 1886 87 and 1887 88, it is to be noted that in the former year contributions to Municipalities were classified under "other charges," where there is a corresponding abatement In 1887 88 the amounts did not work up to the budget owing to a general reduction of expenditure and the same may be said with respect to the North-Western Provinces and Oudh The Punjab report states that the budget was too high and the revised too low, and that as compared with the previous year, the expenditure in 1887 88 is large, owing partly to the establishment of four new Normal Schools and partly to greater outlay by district bodies The Bombay excess over 1886 87 is in the local section, there being a reduction of 3,4 in the Provincial portion of the account The differences between budget and accounts consists of various small increases and decreases The India accounts under *grants-in aid*, &c, include 7, for which the budget grant was entered under 32—Miscellaneous, and 4 sanctioned after the budget was framed In Burma fewer grants were made than

Section D—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued*

was expected, and in the Punjab the amounts provided for building and miscellaneous purposes were not fully utilised The large sum spent in 1886 87 was mainly on account of the Aitchison College Building Fund The amount allowed in Madras was raised in the revised, with reference to sanctions given late in the year, and the actuals have followed closely upon this provision The year 1886 87 was one of unusually high expenditure on education in Bombay, and the budget to some extent was based upon it, but the revision of the Provincial contract caused a curtailment of the outlay The principal economies have been 10 5 in the building grant and 2,1 in the technical grant, but on the other hand there was an increase of 4,0 in payment by results With respect to *scholarships*, the Burma budget provided for sums payable in Calcutta and Madras, but these are adjusted inter provincially The Bombay saving in *other charges* is due to a smaller purchase of books for resale at the Government Central Book Depôt than was anticipated

90 The fluctuations in India are mostly due to absence of chaplains on leave In the English Budget provision was made for six chaplains whereas eleven came out.

91 The increase under *Medical Establishments* in India is due principally to the whole salary of the Surgeon at Ajmere having been charged to this head, whereas formerly part was debited to 25—Political In the Central Provinces and Bengal certain appointments were filled by junior officers, and establishments were not maintained at their full strength This explanation also applies to the other provinces, but in the North Western Provinces and Oudh and in Madras there has also been a change of classification In the former about 5,4 has been transferred to Jails, Police and Education on account of the allowances of Medical Officers connected with those departments and in the latter certain charges of the Medical College, which were formerly included in this minor head, have been removed to Medical Colleges and Schools The Bombay outlay on *Vaccine Establishments* &c was small, owing chiefly to the absence of officers on deputation and leave The Burma Budget for *Medical Colleges and Schools* allowed for charges in Calcutta and Madras, but these are settled interprovincially In Madras the actuals have been increased by the transfer noted above as well as by a similar transfer from the head *Hospitals and Dispensaries* where there is a corresponding reduction as regards that Presidency This last named transfer has also been made in Bombay The excess expenditure on these institutions in Bengal was in Services and Supplies and Contingencies The India Budget for *Lunatic Asylums* proved insufficient, because of arrears claimed by the Mysore State for the maintenance of lunatics belonging to the Mysore Assigned Tract The short expenditure on this account in the Punjab and Madras is nominal, since it is caused by a change in the method of dealing with certain contributions The Budget for *Upper Burma Charges* was unavoidably imperfect

92 The charges of the Maisur Residency having been removed from Madras to the India accounts have caused a reduction in the former by a corresponding increase in the latter In addition to this transfer, the head *Political Agents* in India includes an excess expenditure of 7,8 on account of telegrams chiefly in Persia The saving in Bombay is spread over many items, but it has been obtained largely by the substitution of a Cantonment Magistrate, with an allowance of ₹200 per mensem, for one of the Assistant Political Agents in Baroda The increase in *Charges on the North Western Frontier* is connected with the delimitation of the Perso-Afghan frontier, for which the budget did not provide The Punjab excess is in charges for Jezailchi corps, &c, and in payments for guarding hill passes *Political Subsidies* are small, from the Amir of Afghanistan not having drawn the full amount payable to him. The Bengal charge under *Durbar presents* embraces the cost of articles purchased for the Thibet Mission As regards *Refugees and State prisoners*, the payments in India include charges for deporting Ayub Khan and his party from Persia, the abatement in the Punjab being mainly due to the lapse of certain allowances to Kabul refugees The budget for *Upper Burma charges* could not be otherwise than approximate The India budget for *Other charges* proved inadequate, chiefly in pensions to men of the Merwara Battalion, and the Punjab Budget made no provision for the Gilgit and Kashghar Missions, for the Viceregal Durbar held at Peshawar and for the exploration and survey of the Gomal Pass

93 In *England*, the payments on account of the Afghan Boundary Commission exceeded the provision made in the budget

	Accounts		18 6	7 8	26 4		Accounts	448,5

94 The charge on account of the *Survey of India* is a net sum, the amounts payable by Provincial Governments being deducted from the gross expenditure In the present instance the provincial shares as entered in the accounts are less by 9 5 than the amount computed in the Budget, and this is the principal cause of the difference between the estimates and accounts of 1887 88 As compared with 1886 87, the expenditure in 1887 88 has been greater by 2,6 in the Mathematical Instrument Factory, by 3 1 in the salaries of Deputy Superintendents, by 5,0 in native establishments, by 1,3 in contingencies, and by 5,4 in extra departmental charges The expenses of the *Geological Survey and Museum* fell short of the Budget in consequence of the absence of officers on leave The charges of the *Archæological Department* have now been consolidated in the India accounts, and hence the provincial distribution contemplated in the estimates has not been fully carried out The India actuals under *Museums* include 1,2 for rents, rates, and taxes for which provision was made in the Budget under the minor head *Miscellaneous* The outlay on *Public Exhibitions and Fairs* was larger than anticipated in India owing to payments in connection with the Indo Colonial Exhibition, while in Bombay there was a saving of 2,0 in the provincial and an excess of 7 in the local grant The large amount of *Bull and Stallion Charges* occurred in Beluchistan, where about 2,2 more than the Budget limit was spent on the feed and keep of stallions As regards *Other Agricultural Charges*, the Budget was not reached in Burma, as the establishments were not maintained at full strength The saving in the Punjab consists of various small economies, and in Madras it has been obtained chiefly in the expenditure on account of Cattle Disease Inspectors The reduced expenditure on *Other Statistical Charges*, India, as compared with 1886 87 comes from abolishing the Office of Director General of Statistics The saving in *Miscellaneous* is due to rents, rates and taxes having been distributed among the Departments concerned

Section E.—MISCELLANEOUS.

1886-87 Accounts		1887 88 Budget	1887 88 Revised	Accounts
848,3	RECEIPTS	1,177,0	1,349,9	1,606,1

95 These receipts have been largely influenced by *Exchange*, which gave a loss of 26,3 in 1886-87, but has produced a gain of 744,5 in 1887 88 The unfavourable result in 1886-87 proceeded mainly from the repayment of the stock receipt Loan of 1854, as explained in paragraph 122 of last year's report The gain this year is obtained largely from the expenditure of the Subsidized Railway Companies both in England and in India There were also additional receipts under *Miscellaneous* in connection with Upper Burma, and with the extended operations of the Local Self Government Act in Bengal, &c

96 The Madras Budget on account of the *Military and Medical Retiring Funds* and the India Budget on account of *appropriation from the Capital of the Military Orphan Fund*, were too sanguine The *subscriptions to the Bengal Civil Fund* were enhanced by fines levied for disparity of age on marriage

Section E —MISCELLANEOUS—*continued*

and by composition for future payments The Madras Budget for the *Madras Civil Fund* allowed for recoveries on account of advances, but it was subsequently ruled that such advances, if made after the Government had taken over the Fund, should be carried to a debt account The large recovery on account of *contributions* in the Central Provinces includes unforeseen receipts on account of officers of the Public Works Department lent for service on the Bengal Nagpur and Indian Midland Railways In Bombay the contributions from Local Boards' employés and from Municipalities on account of their school masters were greater than expected

97 In *England* the Budget was short in the receipts on account of the Military Funds

98 *The India budget for receipts from sale of stationery* provided for expected receipts from the Rajputana Malwa Railway, but they were not realised owing to the management of the line having been transferred to the Bombay, Baroda Railway Company The Punjab budget and revised for this head included 4,5 and 4,8, which belonged really to other Press receipts The large sale of *Gazettes and other publications* in Bengal consists chiefly of Indian Law Reports The discrepancy between estimates and accounts as regards *other Press receipts* in the Punjab is explained above

99 In paragraph 103 of the report for 1885 86, it was explained in detail how the gains and losses arise on the various transactions included in the foregoing statement, and the information was repeated in a condensed form in paragraph 122 of last year's report It is unnecessary therefore to enter into these particulars now, but during the present year, a question was raised as to the proper method of treating exchange on the sums withdrawn in England by the subsidized Railway Companies from Her Majesty's Secretary of State in Council The question was referred by the Government of India to the Secretary of State, whose decision was communicated in a despatch No 201, dated 16th August 1888 The actuals for 1887 88 entered above have been compiled in accordance with that decision

100 The results produced in this account depend first upon the sterling amount of the transactions with which the exchange is connected, and second upon the average rate at which Her Majesty's Secretary of State in Council is able to sell his bills on India In comparing therefore the results of the two years 1886 87 and 1887 88, it is to be noted that the sterling amount of transactions was 745,6 and 1,974,3, respectively, and the average rate 17 4*d* and 16 9*d* The difference between budget and accounts may be explained in the same way, the figures being 391,5 and 1,828,9 and 17 5*d* and 16 9*d*

Section E —MISCELLANEOUS—*continued*

The amount of transactions is largely regulated by the arrangements of the various Railway Companies, and the average rate by the gold value of silver The loss by exchange in 1886 87 was increased by the repayment of the stock receipt loan of 1854

101 With the following exceptions the variations in this group are of the ordinary kind and inseparable from items of such a fluctuating character The large amount of *miscellaneous fees* in Bengal consists of partition and other fees which accrued from the extended operations of the Local Self Government Act The failure of the North Western Provinces and Oudh Budget for *contributions* is attributed to the Lucknow Municipality having been exempted from payment of the amount assessed upon it The Madras figure for *rents* includes 1,8 on account of certain endowments in the Tanjore district which were erroneously treated as land revenue, imperial, in former years The *extraordinary items* in India relate to recoveries connected with Upper Burma, and in Bombay to the sale proceeds of Government securities belonging to several Local Boards which were held contrary to rule and were sold under orders of Government The Bengal receipts under *other items* were unusually great this year owing to large recoveries on account of insurance on State Railway Stores and Durbar Presents The Punjab and Bombay Budgets were too sanguine

102 The excess in *England* occurred mainly in fines and penalties incurred by contractors in providing stores

4,701,1	EXPENDITURE	4,856,2	4,777,2	4,761,1

103 In this section there is a large saving under *Territorial and Political Pensions* consequent on the death of the late King of Oudh, but it is counterbalanced by an excess of 126,0 over 1886-87 and 68,8 over Budget in *Superannuation allowances* and pensions owing to additions to the pension list The other charges have been kept well under control

	Accounts		15 8	6 6	22 4		Accounts 1887 88	595,2

104 The large abatement in India under *Territorial and Political Pensions* is due to the death of the late King of Oudh, and in the Central Provinces and Bombay to ordinary lapses There were lapses also in Bengal, in addition to which a pension of 4,6 per annum was transferred to Bombay from November 1887 The North Western Provinces payments were high owing to arrears drawn by the Maharajah of Benares and to two new pensions sanctioned by the Government of India Several of the Punjab stipendiaries did not claim their pensions before the close of the year, and in Madras there were several lapses including a stipend of 4 8 The Punjab estimates for *charitable allowances* were too high

105 The discrepancy between budget and accounts in *England* is explained by the undrawn stipend of His Highness the Maharajah Dhulip Singh

28 —Civil Furlough and Absentee Allowances

107 The charges under this head need to be examined in totals for the whole of India, as the provincial distribution is liable to disturbance by change of residence among the pensioners The payments on account of *Superannuation and retired allowances* have largely exceeded the expenditure in 1886 87, as well as the budget and revised estimates, and shew the rapid growth of these allowances As regards the other heads, the budget has been fairly well sustained, considering the uncertain character of the charges, and the only point requiring notice is that the saving in England arises from a change in account keeping, by which loans granted under the rules of the Madras and Bombay Civil Funds are now treated as remittances to India

108 The budget for *purchase of stationery* was again exceeded in Bengal but this was due partly to arrear bills of the previous year and partly to higher prices ruling for country made paper The Bombay excess was caused by the increased substitution of articles of local manufacture for European stores The cost of *Government Presses* has fluctuated in some of the Provinces In India 3 9 more than Budget was spent on fixed and temporary establishments, but 1,5 was saved in overtime allowance and 7 in the establishment of the Type Foundry Again there is an excess of 2 1 in the contract payments for printing stock forms, but 1 8 was short paid for purchase of type The excesses in Burma and Bengal are in overtime allowance and contingencies In the Central Provinces the Budget allowed 1,4 for printing to be executed by the Jail Presses, but such departmental transfers were not permitted in the accounts The Budget also allowed 1,1 for contract printing which has been classified in the accounts under other charges The short payment in Bombay is the result chiefly of economies in contingencies but about 1,2 was also curtailed under Establishments The cost of *stationery supplied from Central Stores* is always an uncertain quantity, and there is nothing special to record this year except that an addition of 12 per cent has been made to the value of the issues in order to cover the loss by exchange on imported articles for which some of the estimates did not provide

109 In *England* the saving is chiefly in stores for India as the consignments were smaller and obtained at lower prices than was contemplated in the Budget The payments for printing done for the India Office were also small as the Stationery Office did not present accounts as rapidly as had been expected

	Accounts		32 8	15 8	46 6		Accounts		292 9

110 Considering the nature of the items, the fluctuations in the first two heads are not greater than might have been expected Large payments were made in Bengal on account of *Charitable Donations* in 1886 87, partly in grants to the Hospital Nurses' Institution and specially in a contribution to the District Charitable Society for repairs of the Alms House buildings The Punjab Budget for *destruction of wild animals* was too low, and the Madras budget too high The Madras excess under *petty establishments* has occurred entirely in the local section and is due to increased charges for sanitation The India budget for *Special Commissions of Enquiry* contemplated a very large expenditure on account of the Public Service Commission, but the commission closed earlier than was expected The nominal expenditure under *irrecoverable loans written off* is made up of small writes off of irrecoverable advances to cultivators, &c, but it is subject to great variations owing to the occasional cancellation of large items This year the figures represent ordinary writes off only *Rents, rates, and taxes* seem small in Bengal owing to assessments on the customs buildings having been charged to 9—Customs The *extraordinary item* of 9 in Assam includes a write off under orders of Government to clear an advance which was made to the contractors of the Tonga Service between Gowhatty and Shillong The *Upper Burma charges* were small, as unsettled claims were not paid to the extent anticipated and the amount provided in the budget for Conservancy, Lighting and other town charges at Mandalay were not required The India Budget and Revised for *other items* allowed too much for petty construction and repairs and miscellaneous and unforeseen charges The high charge in Bengal comprises the write off connected with the frauds in the late District Savings Bank, in Chittagong The Punjab and Madras budgets provided a reserve for certain outlays which were not required, and the Bombay budget made allowance for some petty local works, which by a change in accounting have been classified under 45—Civil Works

Section F —FAMINE RELIEF AND INSURANCE

1886 87 Accounts		Budget	1887 88 Revised	Accounts
309,0	EXPENDITURE	94,5	93,3	91,4

111 Considerable changes have been made in this head as explained in para 124 of last year's report, and it is now limited to the following charges —

1886-87 Accounts		Budget	1887 88 Revised	Accounts
1,0	Famine Relief	2,0	8	4
200,0	Construction of Protective Railways	*Nil*	*Nil*	*Nil*
108,0	Construction of Protective Irrigation Works	92,5	92,5	91,0
309,0	TOTAL	94,5	93,3	91,4

33 —Famine Relief

1886 87 Accounts		Budget	1887 88 Revised	Accounts
5	Central Provinces	1 0	5	3
5	Bengal Madras Bombay	1 0	3	1
10	TOTAL	2 0	8	4

112 The amount spent in the Central Provinces was on account of relief works in the Bilaspur District, but it was not necessary to incur expenditure to the extent provided in the Budget The amount entered against Madras represents the write off of an irrecoverable advance made during the famine of 1876 78

35 —Construction of Protective Irrigation Works

RESULTS	ACTUALS More	Less
Actuals with Actuals of previous year		17 0
" Budget Estimate		1,5
" Revised Estimate		1 5

(a) Includes £285 400 outlay from funds not classed under this special head

113 As explained in para 128 of last year's report, the charges comprised in this head are regulated by the amount available for expenditure and by the works awaiting construction The decrease of 17,0 compared with the Actual expenditure of the previous year is due chiefly to the operation of this rule

114 During the year 1887 88 the grants for the Betwa and Swat River Canals and the Rushikulya projects were reduced, and those for the Nira Canal and Mhasvad tank increased, while a sum of 6,4 was held in reserve to meet an excess charge under *43—Minor Works and Navigation* These changes were embodied in the Revised Estimate and have been followed in the Actuals There was an excess outlay on the Rushikulya project and Nira Canal, but on the other hand the reserve of 6,4 was not fully used

Section G —CONSTRUCTION OF RAILWAYS (charged against Revenue in addition to that under Famine Insurance)

1886 87 Accounts		1887 88 Budget	1887 88 Revised	1887 88 Accounts
183,1	Expenditure	75,0	81,7	80,9

115 The following figures give the details of the amount spent, and explain the differences between the Actuals of 1886 87 and 1887 88, and the Budget Estimate of the last named year —

1886 87 Accounts		1887 88 Budget	1887 88 Revised	1887 88 Accounts
	PROVINCIAL			
	ASSAM—			
10,2	Jorhat Railway	4 5	5 9	5,4
11 6	Cherra Companyganj Railway	11 5	10 1	10,3
	BENGAL—			
4	Kaunia Dhurla Railway	1 0	—7	—4
	N W PROVINCES AND OUDH—			
160 9	Lucknow Sitapur Seramau Railway	58 0	66 0	65 4
183 1	TOTAL	75 0	81 7	80,9

RESULTS	ACTUALS More	ACTUALS Less
Actuals with Actuals of previous year		102 2
Budget Estimate	5 9	
, Revised Estimate		8

116 The small outlay of 1887 88, as compared with the previous year, is due (1) to the practical completion of the Jorhat State Railway in 1886 87, necessitating smaller expenditure during 1887 88, (2) to no work of any importance having been carried out on the Kaunia Dhurla State Railway during 1887-88 and (3) to the Lucknow Sitapur Seramau Railway needing less construction work than was required on this line in 1886 87 The budget of the Kaunia Dhurla line provided for the substitution of iron pile and girder bridges for the wooden ones now on the road, but this work has been deferred pending settlement of the question of extending the metre gauge line in the direction of Dhubri The excess over budget on the Lucknow Sitapur-Seramau Railway is due chiefly to greater progress of work than was anticipated

Section H —RAILWAYS

117 The following is a general statement of the Revenue Accounts —

1887-88	State Railways	Guaranteed Railways	Subsidized Companies	Miscellaneous	TOTAL
GROSS EARNINGS .	10,871,9	7,241,4	24,8		18,138,1
WORKING EXPENSES .	5,329,2	3,604,8			8,934,0
Surplus Profits . .	265,0	662,6			927,6
Interest	4,008,3	3,853,0			7,861,3
Annuities .	2,390,8				2,390,8
Land and Supervision		51,4	43,6		95,0
Miscellaneous Railway Expenditure .				51,8	51,8
TOTAL EXPENDITURE	11,993,3	8,171,8	43,6	51,8	20,260,5
NET GAIN OR LOSS TO THE GOVERNMENT—					
1887-88 .	*—1,121,4*	*— 930,4*	*— 18,8*	*— 51,8*	*—2,122,4*
1886 87	*— 375,1*	*— 675,6*	*— 43,6*	*— 94,4*	*—1,188,7*
1885 86	+ 394,9	*— 983,3*	*— 44,0*	*— 99,3*	*— 731,7*
1884-85 . .	+ 173,9	*—1,043,3*	*— 84,2*	*— 97,6*	*—1,051,2*
1883-84	+ 647,5	*— 996,4*	*— 85,5*	+ 129,4	*— 305,0*

118 These figures show that the *State Railways* did worse than last year by 746,3, and the *Guaranteed Railways* by 254,7 The deficiency under the former is due to a great extent to heavy payments on account of Interest and Annuities connected with the purchase of Guaranteed lines, and which amounted to 245,7 and 5,8, respectively, plus exchange 163,4 There was an increase of 355,2 also in the working expenses of State Railways As regards *Guaranteed Railways*, the increase is due to larger payments on account of Interest and Surplus Profits The other items do not call for special remark here

Section H —RAILWAYS—EARNINGS

1886 87 Accounts		Budget	1887 88 Revised	Accounts
14,477,8	RECEIPTS	14,892,5	14,412,8	14,533,3

119 The following sums are comprised in these receipts, particulars of them being given in the succeeding statements As regards *State Railways* the gross earnings exceeded those of the previous year by 42,8 and the revised by 20,4, but fell below the Budget by 446,9 The increase over the Actuals of 1886 87 is due principally to the opening of the Bellary Kistna and Cuddapah Nellore State Railways, and to large additions to the open mileage of existing lines The decrease on the Budget Estimate is caused by a considerable fall in traffic on the East Indian, Rajputana Malwa, and North Western Railways, as explained below, but it did not go down to the extent apprehended in the Revised Estimate as the traffic on some lines, notably the Rajputana-Malwa and North-Western Railways, revived somewhat during the closing months of the year These several differences are more fully explained below The *Guaranteed* lines have worked up very closely to last year's figures, and the net traffic receipts have exceeded the Budget owing to the large quantity of grain and other produce carried by the Great Indian Peninsula Railway and to increased receipts in the Madras Railway The discrepancy between Budget and accounts in the *Subsidized* Companies is attributable to a change in the method of showing the capital expenditure of the Mysore State Railway

1886 87 Accounts		Budget	1887 88 Revised	Accounts

Section H —RAILWAYS—EARNINGS—*continued*

120 The net earnings realised during 1887-88 are considerably less than those of 1886 87, owing to reduced exports of wheat consequent on smaller crops, and the low prices prevailing in foreign markets They were also diminished by the cash collections of the last two days of the official year 1887 88, which were holidays, not having been accounted for till 1st April 1888 On the other hand, the coaching receipts were better owing to a larger number of pilgrims having used the line, as well as to a development of traffic from the opening of the Dufferin and Gunduk bridges and the extension of through booking to other lines

121 The Budget was based upon the Actuals of the previous year as far as they were known at the time, and hence it has been affected by the same causes The decline from the Revised Estimate is due principally to the cash collections of the 30th and 31st March not having been accounted for till 1st April 1888, as explained above

122 These figures comprise the earnings of the Eastern Bengal Railway under the head Imperial, and of the various lines entered in the foregoing statement under the heads from Eastern Bengal to Kaunia Dhurla subordinate to Provincial, they are united as parts of the same undertaking The improvement in the earnings, compared with the previous year, is due partly to the 69 miles of the Assam-Behar Railway, from Munihari to Kusba and from Dinagepore to Raigunj, opened to the public in 1887 88 There was a large improvement in *Goods* traffic also, owing to better rates and to larger quantities of jute requiring carriage over the line, in addition to which a sum of 9,3 was received chiefly from the East Indian Railway Company for running powers over the Naihati Chitpore Section The increase over the Budget is due to the same causes The Revised Estimate was not reached owing to delay in recovering the amounts due for the conveyance of troops and stores in connection with the Sikkim Expedition

„ Revised Estimate	18,3	

123 It will be noticed that the figures entered above as accounts of 1886 87 do not agree with the corresponding amounts in the report of that year The difference is composed of the earnings of the Cawnpore-Achnera line which has become Imperial from 1st April 1887 and is included in the Rajputana-Malwa Railway The diminished earnings of this line are due principally to a decline in the wheat, grain, seed, and cotton traffic, the receipts on this account being 114,2 less than in the preceding year, and 125,3 less than the budget The fall was anticipated in the Revised Estimate, but the traffic improved during the closing months of the year and the result is better than seemed probable at that time

124. Although there was a large addition to the open mileage during the year, the earnings have not been satisfactory The falling off is general and is due in the *Goods* Department, to a decline in the grain traffic produced by the high prices which followed the partial failure of last year's crops, and in the *Coaching* receipts, to the depression in trade and scarcity prevailing in some parts of the Punjab The proceeds from steam boats were also low owing in a great measure to the abolition of special charges for ferry service as well as to diminished traffic The earnings, however, were not quite so bad as they appear in these figures since there were large outstandings awaiting recovery The increase over the Revised Estimate is due to the carriage of larger quantities of stores for Revenue purposes before the close of the year than anticipated

Other State Railways—Imperial

RESULTS	ACTUALS More	ACTUALS Less
Actuals with Actuals of previous year	446,9	
„ Budget Estimate	57,7	
„ Revised Estimate	17,4	

125 A good deal of the increase over the previous year is nominal, being due to the transfer to *Imperial* of the Nagpur Chhattisgarh (now called the Bengal Nagpur Railway), the Patna-Gya and the Dildarnagar Ghazipur State Railways, which were formerly classed under *Provincial* The two latter were so treated under the terms of the new Provincial Contract, and the former in consequence of its transfer to the Bengal Nagpur Railway Company from 1st April 1887 Excluding these Railways the increase over 1886 87 would amount to 251 7, due principally to the opening of the Bellary-Kistna and the Cuddapah Nellore State Railways and of various additions to existing lines On the Bellary Kistna 90 miles were opened, on the Cuddapah-Nellore 83 miles, on the Southern Mahratta an addition of 167½ miles, and on the Indian Midland 84¾ miles Apart from these extensions, the traffic was better on the Wardha Coal, Sindia Katni Umaria, Umaria Colliery, the Bengal Central and the Mysore State Railways In the case of the Wardha Coal State Railway, the improvement is ascribed principally to large sales of coal, and in the Sindia State Railway to an improvement in both passenger and goods traffic, greater quantities of grain, stone and Revenue stores having been carried over the line than in the previous year The increase on the Katni Umaria Railway is due to only 5 months' and in the Bengal Central and Mysore State Railways to only 9 months' transactions having appeared in the accounts for 1886 87 The increase on the Umaria Colliery is due chiefly to larger sales of coal to the Katni Umaria Railway

126 The actual earnings realised during 1887 88 exceeded the Budget by 57,7, the principal variations being as follows —

Wardha Coal	+10,5
Bengal Central	+15,5
Southern Mahratta	+26,4
Mysore	+51,5
Katni Umaria	— 9,4
Umaria Colliery	—16,0
Bellary Kistna	—11,3
Cuddapah Nellore	—12,7

127 The improvement on the *Wardha Coal* State Railway is caused by large sales of coal, the growing demand for which was foreseen and provided for, but the actuals far exceeded the most sanguine expectation In the case of the *Bengal Central* Railway, the Budget provision represented the estimated earnings of the calendar year 1887, as the transactions were at that time adjusted with the Eastern Bengal Railway according to the calendar half year It was subsequently arranged to adjust the transactions monthly, and the Actuals of 1887 88 therefore include the earnings from 1st January 1887 to 31st March 1888, and this change has caused the large increase noticed on this line The large excess on the *Southern Mahratta* Railway is due to increased open mileage, to the traffic on some of the newly opened sections proving more favourable than it was prudent to anticipate, and to the transfer of the Bellary Kistna Railway to the Southern Mahratta Railway Company from 1st January 1888, since which date it is worked as an integral portion of the Company's own line The *Mysore* State Railway was not included under the head *State Railways* in the Budget for 1887 88 It was subsequently decided that they should be recorded under this head and the Actuals have now been so shown

Section H —RAILWAYS—EARNINGS—*continued*

128 The falling off on the *Katni Umaria* Railway is due to the anticipated mineral and passenger traffic not having been realised to the extent expected When the Budget for 1887-88 was framed, the traffic on this line had not had time to develop, and it was difficult to frame a trustworthy estimate The decrease on the *Umaria Colliery* is ascribed to a smaller demand for coal than expected, and the failure to attract customers for slack coal As regards the *Bellary Kistna* Railway, it was assumed, when the Budget was under preparation, that a section of the line from Guntakul to Nandyal would have been opened to traffic on the 1st April 1887, but that was not done till the 11th July 1887, besides which the traffic was not so good as expected The same may be said of the *Cuddapah Nellore* State Railway, the Budget having been framed on the assumption that the line would be opened to traffic on the 1st May 1887, whereas the actual date was the 15th September 1887

129 The Actuals are in excess of the Revised Estimate by 17,4, of which 5,0 is in the Bengal Nagpur, 3,0 in the Wardha Coal and 7 9 in the Southern Mahratta Railways These improvements are due on the Bengal Nagpur Railway to the carriage of construction material to greater extent than was anticipated, on the Wardha Coal Railway to the large sales of coal and on the Southern Mahratta Railway to the traffic having been more favourable than was expected

Other State Railways—Provincial, Excluding Eastern Bengal Railway System

RESULTS	ACTUALS More	Less
Actuals with Actuals of previous year		241,3
„ Budget Estimate	46,6	
Revised Estimate		7 3

130 As explained in paragraph 125 the comparison between the two years 1886-87 and 1887 88 is interrupted by the transfer of the Nagpur Chhattisgarh, the Patna Gya, the Cawnpore Achnera and the Dildarnagar Ghazipur State Railways from the *Provincial* to the *Imperial* section of the account Eliminating these lines from the figures for 1886 87 the earnings during 1887 88 actually exceeded those of the former year by 78,9, of which 39,4 occurs in Burma, 20,6 in Tirhoot and 16,6 in Lucknow Sitapur Seramau The improvement on the Burma State Railway is attributed to the pacification of the country, and the impetus to trade caused by the opening out of Upper Burma, as well as to the revenue derived from the carriage of construction material for the Lounghoo Mandalay Extension The increase in the case of the Tirhoot State Railway is due to an additional length of line opened for traffic during 1887 88, and to a considerable development of 3rd class passenger and Goods traffic, owing to the completion of the Gunduck Bridge The improvement on the Lucknow Sitapur Seramau Railway is due to increased mileage an additional length of 50½ miles from Sitapur to Gola Gokarahnath having been opened during 1887 88

131 Compared with the Budget Estimate, the actual earnings realised during 1887 88 show an increase of 46 6, of which +41,1 was in Burma, +15 5 in Tirhoot and —9,7 in Lucknow Sitapur-Seramau The explanations given above in the preceding paragraph apply also to the differences in the Burma and Tirhoot lines, and as regards the Lucknow Sitapur-Seramau Railway when the Budget was framed, only a portion of the line had been opened for traffic, and no information was available on which to base a reliable estimate

132 The actual earnings realised are less than the Revised Estimate by 3,9 in Burma and 3,5 in Tirhoot In the case of the Burma Railway the Goods traffic was not as large as anticipated The decrease on the Tirhoot Railway is due to the outstanding earnings at the close of the year being higher than was expected when the Revised Estimate was framed

Gross Earnings

133 The earnings realised during 1887 88 fell short of those of the preceding year by 39,1, chiefly in the Bombay, Baroda and Central India and in the South Indian Railways The decrease on the Bombay, Baroda and Central India Railway is due to a falling off in *Goods* traffic exchanged with the Rajputana Malwa State Railway, and in the carriage to and from Bombay of wheat, coal, coke, grain, salt, and seeds The fall on the South Indian Railway was the result chiefly of fluctuations in *Suspense* transactions, the payments to other lines in excess of receipts from them having been larger than in the previous year

134 The increase over the Budget Estimate occurred chiefly on the Great Indian Peninsula and the Madras Railways The large increase on the former line may be attributed to the moderate estimate adopted by the Government of India, as it was not considered advisable to calculate on a continuance of the very favourable traffic which had developed in the preceding year The increase was in 3rd class passengers, and in wheat, cotton, oil seeds, food grains, &c The increase on the Madras Railway s attributed to development of traffic and to larger receipts from other lines These results were counterbalanced by a falling off in the Bombay, Baroda and Central India as noted above in paragraph 133 and in the Oudh and Rohilkhund Railways The decrease on the latter line occurred entirely in *Goods* traffic, in which the Budget expected an improvement, but the result has been a further decline

135 The comparison with the Revised Estimate is made below, and is satisfactory as showing an increase of 87,4 The increase on the Bombay, Baroda and Central India Railway is due to a sudden improvement in traffic during the last months of the year, which was little expected at the time of the preparation of the Revised Estimate, and in the Great Indian Peninsula Railway to a greater number of 3rd class passengers, and to larger quantities of wheat, cotton, oil seeds, and food grains having been carried over the line than was expected The small decrease on the Madras and South Indian Railways needs no remark The improvement on the Oudh and Rohilkhund Railway is caused by a better traffic during the closing months of the year than it was considered safe to calculate upon when framing the Revised Estimate

Bombay, Baroda and Central India	+ 17 2
Great Indian Peninsula	+ 64,6
Madras	— 1,0
Oudh and Rohilkhund	+ 11,7
South Indian	— 5,1
NET INCREASE	87 4

Working Expenses

136 The decrease on the actuals of the preceding year is made up as under—

Bombay Baroda and Central India	— 42 8
Great Indian Peninsula	— 15 1
Madras	+ 9 3
Oudh and Rohilkhund	— 6 2
South Indian	+ 26,2
NET DECREASE	28,6

137 The decrease on the Bombay, Baroda and Central India Railway is due to the smaller traffic noticed above in paragraph 133 as well as to a considerable reduction of expenditure in the Engineering Department The saving on the Great Indian Peninsula Railway occurred in the Locomotive and in the Carriage and Wagon Departments, the decline in the former being attributed to charges for renewals having been considerably less than in the previous year, and in the latter to cheaper rates paid for timber and to other economies The increase on the Madras Railway is connected with the reconstruction of the Penner and Chitravati bridges and with extensive renewals of goods vehicles The saving on the Oudh and Rohilkhund Railway is satisfactory, especially as the traffic worked in 1887 88 was larger than that of 1886 87 The increase on the South Indian Railway is caused chiefly by a larger renewal of permanent way and by repairs to bridges

Section H —RAILWAYS—EARNINGS—*continued*

138 Compared with the Budget Estimate of 1887 88, the actuals shew a small increase of 9,8 as under—

Bombay, Baroda and Central India	— 29,8
Great Indian Peninsula	+ 12,2
Madras	+ 38,9
Oudh and Rohilkhund	—33,9
South Indian	+ 22,4
NET INCREASE	9,8

139 The decrease on the Bombay, Baroda and Central India Railway is due principally to the late receipt of stores from England for renewals of permanent way, and to non arrival from England of material required for renewals of Carriage and Wagon stock The increase on the Great Indian Peninsula Railway is attributable to insufficient provision having been made in the Budget for maintenance and traffic expenses, and in the Madras Railway to heavier renewals of engines and goods vehicles than anticipated, and to charges connected with the re construction of the Penner and Chitravati bridges The saving on the Oudh and Rohilkhund Railway is due to the provision in the Budget Estimate having been too liberal for requirements, while on the South Indian Railway extensive renewals of permanent way became necessary, and the loss by Exchange was greater than anticipated

140 The Revised Estimate was not reached in the Bombay, Baroda and Central India owing to smaller payments to the Great Indian Peninsula Railway Company on account of traffic arising from the Carnac Bunder Bridge, to non arrival of material from England for renewal of Carriage and Wagon stock and to economy in working The decrease on the Great Indian Peninsula Railway is due to the charges on account of engine renewals having been considerably less than anticipated

141 The Gross Receipts, Expenses and Net Receipts of these lines for the past six years are given in the following Statement —

Guaranteed Railway Companies	Gross Receipts						Expenses						Net Receipts					
	1882 83.	1883 84	1884 85	1885 86	1886 87	1887 88	1882 83	883 84	1884 85	1885 85	1885 87	1887 88	1882 83	1883 84	1884 8	1885 86	1886 87	1887 88

XXVIII —Subsidized Companies (Repayment of Advances of Interest).

1886-87	1887 88		
Accounts	Budget.	Revised	Accounts
1,6	58,7	27,3	24,8

142 When the Budget for 1887-88 was under preparation, the system of accounting for the Mysore State Railway was not definitely arranged, and hence, pending a final settlement, it was decided to enter the amount of interest on Capital Expenditure, which it was understood would be recoverable from the Mysore State under this head, and the sum of 58,7 entered above represented the interest charges for the two years 1886 87 and 1887 88 Under later orders from the Secretary of State, the receipts and working expenses as well as the interest charges are now recorded in the accounts under State Railways—gross earnings and working expenses, and only the *net* charge for interest (*i e*, interest on Capital Expended *minus* Net Receipts), which is recoverable from the Mysore Durbar, is credited to this head, by transfer debit to the Civil Department for realisation from the Durbar The transactions for 1886-87 were finally adjusted in the accounts of 1886 87 in accordance with these orders, which have also been carried out in Revised Estimate and Actuals of 1887-88 Hence the difference between the latter and the Budget

Section H —RAILWAYS—EXPENSES

1886-87 Accounts		Budget	1887 88 Revised	Accounts
15,666,4	EXPENDITURE	16,481,9	16,567,1	16,655,7

143 These figures comprise the expenditure under the following heads —

1886-87 Accounts		Budget	1887 88 Revised	Accounts
	STATE RAILWAYS—			
5,219,9	Working Expenses	5,831,3	5,460,7	5,594,2
3,202,4	Interest on debt	3,318,4	3,371,2	3,341,9
2,308,6	Annuities .	2,308,1	2,390,6	2,390,8
473,2	Interest on Capital Deposits .	585,2	666,4	666,4
	GUARANTEED COMPANIES—			
600,8	Surplus Profits, &c . .	573,0	721,0	714,0
3 721,9	Interest .	3,732,3	3,856,8	3,853,0
	SUBSIDISED COMPANIES—			
45,2	Land, &c	60,0	47,0	43,6
	Advances of Interest			..
94,4	MISCELLANEOUS RAILWAY EXPENDITURE	73,6	53,4	51,8
15,666,4		16,481,9	16,567,1	16,655,7

144 The excess over the Actuals of 1886-87 is 989,3, and is spread over all heads, and more particularly *State Railways*, where it is due chiefly to heavy charges for the maintenance of the new frontier lines opened in 1887 88 The rise in Interest, Annuities, &c , has been caused for the most part by the lower rate of exchange which prevailed in 1887-88, as compared with the previous year, and in the case of Interest on Capital Deposits, by capital deposited with the Secretary of State by the Bengal-Nagpur Railway Company for the first time

145 The differences between the Actuals and Budget and Revised Estimates of 1887-88 are comparatively small, and are chiefly owing to the fall in exchange

38 —State Railways—Working Expenses

1886 87 Accounts		Budget	1887 88 Revised	Accounts
5,219,9	Expenditure	5,831,3	5,460,7	5,594,2

146 Particulars of these charges are given in page 67, and the results as compared with the previous year and the estimates may be summarised as follows —

	ACTUALS	
	More	Less
Actuals with Actuals of previous year	374,3	..
„ Budget Estimate		237,1
„ Revised Estimate	133,5	

147 The excess over the Actuals of 1886-87 may be briefly attributed to increased open mileage, to growth of traffic on some lines necessitating larger expenditure, and to the charges connected with the new lines opened on the frontier

148 The decrease as compared with the Budget is due generally to economies following the decline of traffic on some of the principal lines, to less expenditure on repairs and renewals, and to the special renewals contemplated on the North Western Railway not having been carried out to the extent provided for

149 The excess over the Revised Estimate occurred chiefly on the North-Western Railway, where the special renewals mentioned in the preceding paragraph made greater progress than was anticipated, and where the credits for material taken out of the line were not so large as expected. The expenditure on

Section H —RAILWAYS—EXPENSES—*continued*

repairs of bridges, flood damages, and on fuel for the Sind-Pishin Section was greater than the Revised allowed. The following paragraphs explain these differences in detail

East Indian Railway

1886 87 Accounts		1887-88 Budget.	1887-88 Revised.	1887-88 Accounts
	WORKING EXPENSES—			
464,5	Maintenance	571,9	460,2	464,0
421,3	Locomotive	425,8	343,0	358,0
126,0	Carriage and Wagon	144,3	127 1	130,7
295,1	Traffic	305,8	299 8	296,6

182,5	½ Surplus profits paid to the Company and Contribution to Provident Fund of one per cent on Net Earnings	190,0	205,0	205,1
1,721 8	TOTAL EAST INDIAN RAILWAY	1,840 0	1 650,0	1,662,6

RESULTS	ACTUALS More	ACTUALS Less.
Actuals with Actuals of previous year		59 2
,, Budget Estimate		177,4
, Revised Estimate	12 6	

150 The short expenditure in 1887 88, as compared with 1886 87, arose chiefly from less renewals of engines and vehicles in the former, and to the inclusion in the accounts of 1886-87 of the cost of a new steamer

151 The difference between the Actuals and Budget Estimate is due to 9 engines and 18 tenders not having arrived from England during the year, as expected, and hence the debit to working expenses on account of them was delayed Some part of the difference is also attributable to less repairs and renewals of vehicles, to steel rails not having been available for renewals of permanent way, and to savings effected in consequence of a falling off in the traffic generally

152 The excess over the Revised Estimate is not large, considering the magnitude of the transactions of the East Indian Railway The Government Examiner of Accounts reports that no specific reason can be assigned for the variations leading up to this excess

Eastern Bengal Railway

RESULTS	ACTUALS More	ACTUALS Less
Actuals with Actuals of previous year		26,7
, Budget Estimate		14,9
, Revised Estimate	16,1	

153 As stated in para 122, the foregoing figures include the charges of the main line and also of its branches The expenditure in 1887-88 was considerably less than that of the preceding year, when the expenses were exceptionally heavy, owing to the diversion of the line at Goalundo and the removal of the Station from Goalundo to Rajbari, and also to extensive repairs of locomotives and steamers There were no abnormal charges of this nature in the accounts for 1887-88, besides which there was a large reduction of establishment, owing to the amalgamation of the Northern Bengal, Dacca, Kaunia Dhurla, and the open portion of the Assam Behar Section of the Assam-Behar State Railway with the Eastern Bengal Railway The saving on the Budget is due to reduced establishment caused by the amalgamation just mentioned, and to less expenditure on repairs and renewals than was at first thought necessary The excess over the Revised Estimate is small, and is the net result of various savings and excesses of which the following are the chief Under *Locomotive* expenses, there was an excess of 9,0, due chiefly to the cost of two locomotives debited to Revenue The expen-

Section H.—RAILWAYS—EXPENSES—*continued.*

diture in the *Traffic* department exceeded the provision in the estimate by 5,8 chiefly in handling charges owing to increased traffic which was not fully provided for Against these excesses there was a saving of 1,4 under *Carriage and Wagon* expenses, owing to less expenditure on renewals of those vehicles

Rajputana Malwa Railway.

1886-87 Accounts		1887 88 Budget	Revised	Accounts
	WORKING EXPENSES—

147,2	General, Miscellaneous and Suspense	160 0	177,0	168,2
1,326,9	TOTAL NORTH WESTERN RAILWAY	1,700,0	1,550,0	1,633,5

RESULTS.	ACTUALS More	Less
Actuals with Actuals of previous year	316,6	
„ Budget Estimate		66,5
„ Revised Estimate	83 5	

155 The large increase in expenditure, compared with the previous year, is due to heavy charges connected with the maintenance of the new frontier lines opened in 1887-88, as well as to a re-organization in the establishments employed on the line, and to the transfer to the North Western Railway of the Port Stores Establishment at Kurrachee The decrease on the Budget Estimate is due to the special renewals of permanent way not having been executed to the extent contemplated owing to delay in supplying material from England The excess over the Revised Estimate is attributed to certain important special renewals of permanent way being in progress in the closing months of the year, and to credits for material taken out from the line not being as large as expected Larger expenditure also was incurred on the carriage of Revenue stores in connection with the work of special renewals, repairs of bridges flood damages at Saharanpore and the consumption of fuel on the Pishin Section.

Section H —RAILWAYS—EXPENSES—*continued*

Other State Railways—Imperial

RESULTS	Actuals More	Actuals Less
Actuals with Actuals of previous year	291,3	
,, Budget Estimate	53,4	
, Revised Estimate	13,8	

156 The large increase over the actuals of the previous year is to a great extent merely nominal owing to the transfers mentioned in para 125 Eliminating these transfers, the increase would only amount to 177,7, which occurred principally on the following Railways —

Wardha Coal	+ 8,4
Katni Umaria	+ 7,0
Bengal Central	+ 24,2
Indian Midland	+ 12 0
Southern Mahratta	+ 92,8
Bellary Kistna	+ 8,5
Cuddapah Nellore	+ 9 2
Mysore	+ 17,4
	179 5
Umaria Colliery	— *5 6*
Net Increase	173,9

157 The increase on the Wardha Coal Railway is due to extra cost of cutting coal to meet the increased demand, and to heavy renewals of sleepers and repairs to goods vehicles and machinery In the case of the Katni-Umaria Railway the increase is due to only five months' transactions appearing in the accounts for 1886 87, the line having been opened for traffic on the 2nd November 1886 The increase on the Bengal Central Railway is due to the accounts for 1886-87 having included the transactions of 9 months only, while the accounts for 1887 88 include the transactions of 15 months, as explained in para 127 The increase on the Indian Midland and Southern Mahratta Railways is due to additional lengths of line having been opened for traffic as explained under Earnings The Bellary Kistna and Cuddapah-Nellore Railways were opened during 1887 88 The increase in the case of the Mysore Railway is due to only 9 months transactions appearing in the accounts for 1886 87 The decrease on the Umaria Colliery is chiefly due to a write back to Capital, ordered by the Government of India, of R83,100 being the net loss on the working of the undertaking to the end of 1886 87

158 The actual working expenses during 1887 88 exceeded the Budget Estimate by 53,4 The principal differences occurred on the following Railways —

Wardha Coal	+ 10 5
Bengal Central	+ 5 6
Southern Mahratta	+ 38 7
Mysore	+ 37 4
Umaria Colliery	— *18,9*
Bellary Kistna	— *7 5*
Cuddapah Nellore	— *5,8*

159 The increase on the Wardha Coal Railway is due to the cost of cutting and raising a larger quantity of coal than it was anticipated would be necessary, to extensive repairs to machinery, to charges incurred in connection with repeated outbreaks of fire in the mines, and to increased outlay on pumping and ventilating arrangements The increase in the case of the Bengal Central Railway is due to increased earnings, as the line is worked by the Eastern Bengal State Railway for a certain percentage of gross earnings The increase on the Southern Mahratta Railway is due to increased open mileage The transactions of the Mysore Railway were not included under State Railways in the Budget Estimate It was subsequently decided that they should be recorded under this head, and the Actuals have now been so shown The decrease on the Umaria Colliery is due to the out-put of coal having been less than anticipated and to the write-back to Capital of R83,100, being the net loss on the working of the undertaking to the end of 1886 87 The decrease in the case of the Bellary Kistna and Cuddapah Nellore Railways is due to the lines not having been opened as early as was expected when the Budget Estimate was under preparation

160 As compared with the Revised Estimate, the Actuals show an increase of 13,8 chiefly on the following Railways —

Bengal Nagpur	4,3
Wardha Coal	3,0
Bengal Central	3,1
Southern Mahratta	2,4

Section H.—RAILWAYS—EXPENSES—*continued*

161 The increase on the Bengal-Nagpur Railway is due to a larger consumption of coal owing to improved traffic, to heavier repairs to stock, to increased maintenance charges, and to the employment of additional train staff The increase in the case of the Wardha Coal Railway is due to extensive renewals of sleepers and to larger outlay than was expected in connection with outbreaks of fire in the mines The increase on the Bengal Central Railway is due to an increase in the maintenance charges, owing to a re allocation of the expenditure on flood damage repairs The increase on the Southern Mahratta Railway is due to increased traffic

Other State Railways—Provincial, excluding Eastern Bengal State Railway

RESULTS

	Actuals More	Actuals Less
Actuals with Actuals of previous year		164,2
,, Budget Estimate	5,2	
,, Revised Estimate	7	

162 As explained in paragraph 130, the large decrease, compared with the Actuals of the previous year, is merely nominal, owing to the transfer of the Nagpur Chhattisgarh, Patna Gya, and Dildarnagar-Ghazipur State Railways to *Imperial* during 1887 88 There were also no transactions against the Rajputana Malwa and Cawnpore Achnera State Railways in 1887 88, owing to the transfer of the latter line to Imperial Eliminating the transactions of these lines for 1886 87 for purposes of comparison, the working expenses during 1887 88 exceeded those of 1886 87 by 27,2, of which 2,6, 7,6 and 13,8 relate respectively to the Burma, Tirhoot and Lucknow Sitapur Seramau lines The increase on the Burma Railway is due to the growth of traffic and to greater train mileage, and in the Tirhoot Railway to increased traffic, to large payments to the Bengal and North Western Railway Company for hire of rolling stock, and to charges for rent of the Sonepore Junction Station The increase on the Lucknow Sitapur Seramau Railway is due to increased mileage, an additional length of 50½ miles having been opened during 1887 88 As regards the Budget the improvement in the actuals has been caused by development of traffic

Section H.—RAILWAYS—EXPENSES—*continued*

Interest on Capital.

163. As explained in former reports, the interest charge for State Railways depends upon the progress of construction during the year, and hence the payments in 1887 88 were greater than in the previous year, owing to the larger sum expended upon construction Considering the nature of the charge, the estimates have been fairly well-maintained The following statement shews in usual form how the interest charged in the accounts of 1887-88 has been computed It will be noticed that the amount entered in this statement under the head "Other State Railways" as capital expenditure at the end of 1886 87 is 53,968,0, whereas the corresponding figure in the report for 1886 87 is 55,334,8 The difference of 1,366,8 consists of 1,390,4 on account of the capital expenditure on the Nagpur-Chattisghar, Bilaspur Etawa and Nag pore Bengal Railways, removed from this statement because those lines have been made over to the Bengal-Nagpore Railway Company, less 23,6, being the survey charges of the Chaman and Bezwada extensions now brought into the capital account

CAPITAL EXPENDITURE ON WHICH INTEREST IS CHARGEABLE	E I Ry	E B Ry	Other State Railways	TOTAL

Interest

167 The increase over the Actuals of the previous year is due principally to the formation of the Bengal-Nagpur Railway Company which did not exist in 1886-87, and to more capital deposited with the Secretary of State for existing lines The increase over the Budget Estimate is also due to the latter cause

Exchange

168 The increased charges for exchange, compared with the Actuals of the previous year and with the Budget Estimate, are due to larger payments of interest on increased deposits of capital, as well as to a further fall in the rate of exchange

Surplus Profits

169 The large increase over the Actuals of the preceding year and the Budget Estimate of 1887-88 occurred on the Great Indian Peninsula Railway, owing to increased earnings

Land and Supervision

170 The recoveries from Companies were larger in 1887 88 than in the previous year when they amounted to 29,0 only, which accounts chiefly for the decrease in the total expenditure The saving on the Budget provision is due chiefly to delay in settling claims for compensation for land in Bombay and Oudh The saving on the Revised Estimate is attributed to the same cause

Section H —RAILWAYS—EXPENSES—*continued*

Interest

171 The increase under this head, as compared with the Actuals of the preceding year, is due principally to larger payments by the Oudh and Rohilkhund and Great Indian Peninsula Railways on account of interest on overdrawn Capital

172 The decrease between the Actuals and Budget and Revised Estimates of 1887 88 is due to smaller payments in England in consequence of Capital not having been raised to the extent anticipated, besides which the provision for interest on overdrawn Capital in India in the Revised Estimate was overestimated in the case of the South Indian Railway

Exchange

173 The excess in all cases is the result of a fall in the rate

„ Budget Estimate		16,4
„ Revised Estimate		3 4

174 The difference between the Actuals of 1886 87 and 1887 88 is very small and is due to slightly smaller payments for land on the Bengal North Western Railway during 1887 88, and to a credit of 3 realised by the sale of C Class land and a house at Dum Dum in connection with the Bengal Central Railway

175 The saving on the Budget Estimate is due to the above credit, which was not foreseen when the estimate was under preparation, to shorter payments on the Bengal North Western Railway, and to the provision for land in connection with the proposed Nilgiri Railway not having been utilised

176 The saving on the Revised Estimate is due to smaller payments for land on the Bengal and North-Western Railway It may be mentioned that the estimates for land are prepared by the Revenue authorities, and are beyond the control of the Public Works Department

178 The first difference calling for notice is the rise in *Surplus Establishment and Miscellaneous Charges*, and it is due to this head being now debited with the leave allowances of Government officers lent to Railway Companies The *reserve* of 24 6 was in excess of the demands which arose during the year and was saved accordingly The minus figure against the *Nagpur Chhattisgarh Extension Survey* arises out of the refund received from the Bengal Nagpur Railway Company on that account The *Bannu Railway Survey* was ordered after the Budget was passed and the expenses of the *Survey for Extension beyond the Khwaja Amran Mountains* are now classified under the head 48—State Railways—Construction The Budget provision for the *Share of the Public Works Secretariat Establishment* was made under 45—Civil Works, but the Government of Bengal has asked that the charges may be entered under 41—Miscellaneous Railway Expenditure

Imperial Works

Gross Revenue

180 The gross revenue in 1887 88 exceeded that in 1886 87 by 105 1 The excess, it will be observed from the details, occurred chiefly in the Punjab and was caused by extension and development of almost all the works in that province In the North-Western Provinces there was a slight increase due to development of irrigation on the Betwa Canal, and in Madras there was also a rise in consequence of improvements made to the Sangam Anicut

181 The Budget Estimate anticipated to a great extent the increase in revenue in the Punjab, but in preparing the Revised Estimate it was discovered that owing to the rapid advance of irrigation from the Western Jumna Canal it did not go far enough The Revised Estimate was therefore prepared for a considerably larger income which has been exceeded in the actuals owing to a larger irrigation of *kharif* and

Section J—IRRIGATION—RECEIPTS—*continued*

rabi crops on the Sidhnai Canal, the recovery of arrears on the Sirhind Canal and the sale of water and plantation on the Bari Doab Canal

Working Expenses

182 With the increase in gross revenue there was also an augmentation of the working expenses, though not nearly to the same extent as in the case of revenue One of the chief causes of this increase was the transfer to this head from 49—Irrigation, Section N, Expenditure not charged to revenue, of the old expenditure on the Kali Nadi aqueduct on the Lower Ganges Canal This transfer has become necessary because the cost of the new aqueduct is being treated as capital outlay and is debited to Expenditure not charged to revenue In the Punjab the increase is caused by maintenance and repairs of the newly opened Chenab Canal, by repairs to damages caused by floods, and by the progress of operations on the Swat river, the Sirhind, and the Western Jumna Canals The same causes have led to the excess over the Budget and Revised Estimates

Provincial Works

Gross Revenue

183 The falling-off in the revenue of 1887 88 as compared with 1886 87 is due chiefly to the agitation against the irrigation system of the Sone canals During the sitting of the Commission that was appointed to enquire into their complaints the rate payers withheld payment of the sums due from them in the hope of obtaining remissions In the North Western Provinces also, there was a decrease in the revenue owing to the abundant rainfall having lessened the demand for artificial irrigation

184 These causes also operated in diminishing recovery of the amounts entered in the Budget and Revised Estimates

Working Expenses

185 Compared with 1886 87, the rise in working expenses during 1887 88 is entirely due to a change of system by which the Irrigation Branch in Bengal has now its own establishment The Budget provision had to be increased in the Revised owing to additional charges for repairing the Mahanady weir breached by floods in 1886, and the damages to the Midnapore Canal caused by the cyclone of 1867 as well as to correct a short estimate on account of Establishment in the North West Provinces and Oudh The effect of these increases was nullified by the write back to Imperial of expenditure on the Kali Nadi aqueduct mentioned above in para 182 This expenditure is first transferred from capital outlay on Irrigation Works to working expenses, but as provincial funds are not able to bear the charge, the Imperial Government removes the burthen by allowing the amount to be charged against itself

186 The Actuals fell short of the Revised Estimate by 20,4 The falling off occurs chiefly in the North West Provinces, and is due to the transfer to Imperial funds mentioned in the preceding paragraph

XXIX —Major Works—Indirect Receipts.

Portion of Land Revenue due to Irrigation

1886 87		1887-88		
Accounts		Budget	Revised	Accounts
87,2	N W Provinces and Oudh	87 2	87 2	87,2
68,2	Punjab	40 1	43 2	45,7

51 9	Bombay	71 3	61 2	60,1
597 5	TOTAL	576 5	578,4	602,6

187 The Actuals of 1887 88 exceeded those of the previous year by 5,1 The increase is attributed chiefly to a large collection of water rates on the Godavari and Kistna Delta systems in Madras, owing to a favourable season and sufficient supply of water in the canals, and partly to an extension of irrigation on some of the canals in Sindh The decrease in the Punjab is only apparent, and comes from an item of 20,0 on account of arrears of previous years on the Bari Doab canal, having been included in the figures of 1886-87

188 The Budget and Revised Estimates of 1887 88 were prepared on the basis of the actuals of the previous year exclusive of adjustments The Actuals, however, show an improvement of 24,2 over the Revised Estimate owing to an increase of revenue in Madras, as explained in the preceding paragraph

, Budget Estimate	4,4	
,, Revised Estimate	1,9	
Provincial and Local		
Actuals with Actuals of previous year	12,1	
Budget Estimate	4,0	
, Revised Estimate	4,9	

189 The Actuals of 1887 88 were better by 11,3 than those of 1886-87, and this improvement is the net result of numerous small increases and decreases

190 The Budget and Revised Estimates were framed for normal earnings, but the Actuals were slightly in excess of the Estimates This increase is the aggregate of small increases in all the provinces excepting Lower Burma, where there was a falling off of 7, owing to a considerable area of land on the Pegu and Sittang canal having been allowed to remain fallow on account of the disturbed state of the country

Section J —IRRIGATION—EXPENDITURE

1886-87 Accounts		1887 88 Budget	1887 88 Revised	Accounts
2,310,7	EXPENDITURE	2,441,3	2,484,4	2,461,6

191 The expenditure of 1887 88, though close to the Budget and Revised Estimates, exceeded that of the previous year by 150,9, the excess being due (1) to larger working expenses consequent on a greater length of canals having been opened for irrigation, (2) to increased charge for interest owing to the additional capital outlay, and (3) to higher rate of expenditure from Provincial funds in Bengal These differences have been further enlarged by the transfer to this group under *43—Minor Works and Navigation* of the outlay on the Khusdil Khan reservoir which has hitherto been charged under *Capital Expenditure not charged against Revenue*

42 —Major Works—Working Expenses

193 The variations under this head are due to fluctuations in the amount of capital expenditure on the works This capital expenditure is charged under *35—Construction of Protective Irrigation Works* and *Capital Expenditure not charged against Revenue*, and is explained in paras 114 and 235 The following statement shows how the interest charged in the accounts of 1887 88 has been calculated —

CAPITAL EXPENDITURE

Imperial Works.

194 The decrease as compared with the accounts of the previous year is due to the transfer from *Imperial* to *Provincial* of the outlay on certain works in Bengal and Madras which have been provincialized from the commencement of 1887 88

195 The Budget was framed for 271,7, which took into account the transfers to Provincial mentioned above and allowed 24,0 for irrigation works in Upper Burma An additional grant, however, was sanctioned during the course of the year for canal clearances in Sind and so the Revised Estimate was placed at 280,6, against which the Actuals have amounted to 292,9 The increase in the Actuals is due chiefly to the debit under this head of the outlay on the Khushdil Khan reservoir, for which provision was made under *49—Capital Expenditure not charged against Revenue* in section N of the accounts The short charge in Bombay, as compared with the revised estimate, occurs under Establishment, and is ascribed to the amalgamation of the Irrigation Executive offices with those of the General Branch

Provincial and Local Works.

196 The excess of 315,5 over the expenditure of 1886-87 is due chiefly to the works in Bengal and Madras hitherto constructed from Imperial funds, having been provincialized from the commencement of 1887 88 as stated above in para 194

197 The Budget and Revised Estimates were framed for 498 8 and 501,9 respectively, whereas the Actuals have amounted to 473,6 only The decrease is attributed to an over-estimate of the actual requirements of the year in Bengal and to several small savings in Madras

Section K —BUILDINGS AND ROADS—RECEIPTS

1886-87 Accounts		1887 88 Budget	1887 88 Revised	1887 88 Accounts
727,6		539,5	566,2	592,3

198 Compared with 1886 87 the receipts under the head Buildings and Roads are short by 135,3, which is chiefly due to the recovery in the previous year of 150,0 from His Highness the Maharajah of Sindia on account of the rendition of the Gwalior Fort and the Morar Cantonment The excess of Actuals over Estimates is obtained principally by an improvement in the receipts from ferry tolls and the Roorkee workshops, and to unexpected realizations from sales of buildings and old materials The differences between the Accounts and Estimates of the various Provinces are explained in the following paragraphs —

XXXI —Military Works

1886 87 Accounts		Budget	1887 88 Revised	1887 88 Accounts
171,9	India (General and Political)	23 3	21 9	23 6

6	Punjab	7	6	5
2,4	Madras	2 5	2,5	2,7
11 3	Bombay	7 6	10 2	11,0
188,4	TOTAL	36,4	37,7	40,4

RESULTS		Actuals More	Actuals Less
Actuals with	Actuals of previous year		148,0
„	Budget Estimate	4,0	
„	Revised Estimate	2,7	

199 The decrease of 148,0 in the total revenue compared with that of the previous year is due to the exceptional recovery in 1886 87 of 150,0 on account of the rendition of the Gwalior Fort and the Morar Cantonment to His Highness the Maharajah Sindia

200 The Actuals are better than the Budget Estimate by 4,0 owing to increased receipts from sale of water at Aden The improvement of 2,7 over the Revised Estimate is the result of the estimate of the Inspector General, Military Works, having been placed at too low a figure

Section K.—BUILDINGS AND ROADS—RECEIPTS—*concluded*

Imperial

201 There is little change in the *departmental revenue*, but the collections by *Civil Officers* has improved owing to an extension of ferries in Upper Burma consequent on the pacification of the country

Provincial

202 The *departmental revenue* in the Central Provinces is near last year's figure, but the Budget was too low There is apparently a large decline in Bengal as compared with 1886 87, but the credits in that year included the receipts derived from the Burrakur Iron Works from 1882 83 to 1886-87, these having previously been held in the deposit account There is a rise in the North-Western Provinces and Oudh, consisting of improved receipts from the Roorkee Workshops and the Printing Press and Book Depôt of the Thomason Engineering College There is also an increase in Bombay in Public Works tolls and sales of old buildings and materials

203 As regards the revenue collected by *Civil Officers*, Bengal presents a decline which is due to the transfer of ferries to Local Boards, but these transfers were not made to the extent contemplated in the Budget The decline in the North Western Provinces and Oudh is attributed to the opening of the Dufferin bridge over the Ganges at Benares, and in the Punjab to a revision of the conditions under which the ferries in that Province are administered by Local Boards

Local

204. The total revenue is greater than that of 1886 87 by 46,0, of which 43,3 represents the increase under Bengal from the transfer of Provincial ferries to District Boards as noticed in the preceding paragraph In view of these transfers, the Bengal Budget was placed at 51,7, but owing to the transfers not having been carried out to the extent originally contemplated, the Actuals are short by 6,2 The improvement of 13,5 on the Revised Estimate is attributed to high rates having been obtained for the lease of ferries In Madras, the Actuals are better than the Budget Estimate by 8,7 owing to larger receipts from ferry tolls This was duly provided for in the Revised Estimate

Section K.—BUILDINGS AND ROADS—EXPENDITURE

1886-87 Accounts		Budget.	1887-88 Revised	Accounts
5,201,7	EXPENDITURE	5,553,2	5,599,6	5,451,1

205 The total Expenditure under this head exceeds that of the previous year by 249,4, owing chiefly to the provision of buildings and roads in Upper Burmah, and to increased work on the Frontier roads in the Punjab and Beluchistan The increases in the Expenditure chargeable to Imperial and Local Funds amount to 462,3 and 36,9 respectively, but on the other hand, the Provincial Expenditure has been reduced by 249,8, so that the net increase is only 249,4 The reduction in the Provincial Expenditure is chiefly due to smaller grants having been assigned for expenditure on Public Works in consequence of the revision of the Provincial contracts in 1887-88

206 The Estimates have been fairly worked up to on the whole The Budget Estimate of Expenditure from Local Funds was placed too high, particularly under Public Works in charge of Civil Officers

207 In comparing the actuals of the two years it will be convenient to note the differences in each province As regards *India General and Political* the largest difference is in the accounts of the Inspector General of Military Works, who seems to have spent 11,2 more on new works, but 5,6, and 19,4 less in repairs and establishments In Central India there was an excess of 25,1 in 1887 88 arising mainly from a grant in aid of 30,0 to the Mhow Cantonment Fund on account of the Mhow water-works There was a similar excess of 8,8 in the Hyderabad circle, owing to the provision of additional accommodation for British cavalry at Trimulgherry In the *Central Provinces* the expenditure was less, owing to the completion in 1886 87 of the more important military works and to the stock balances having been worked off in 1887-88 The large outlay in *Upper Burma* is due to the necessity of providing accommodation for troops and erecting fortifications in consequence of the recent occupation of the country, while the decrease in *Lower Burma* is mainly in the accommodation of European and Native troops, Commissariat buildings and works of communication In *Assam* the savings occur mainly in the grants for housing the Native infantry at Shillong and for the fortified post at Kohima In *Bengal* the works

Section K—BUILDINGS AND ROADS—EXPENDITURE—*continued*

required by the Commissariat and Khedda Departments were in an advanced state when the year 1887 88 commenced, and no new works were undertaken It is also reported that the military buildings at Bhagulpur and Dacca were transferred during the year to Provincial Services The increase in the *North-West Provinces and Oudh* is due mainly to the works connected with the defences of Jhansi In the *Punjab* a large expenditure was incurred in 1887 88 on buildings for the Native infantry at Abbottabad and Mardan, the total outlay on this account being 10,4 against 5,5 in 1886-87 The saving in *Madras* is made up of numerous small items, and in *Bombay* is due partly to diminished expenditure and partly to a recovery of 25 8 from Her Majesty's Imperial Government as its share of the cost of the Aden Defences up to 1885 86 This recovery has been deducted from the expenditure

208 As compared with the budget the accounts of 1887 88 shew a *saving* in India, the Central Provinces, Assam, Bengal, Madras and Bombay The saving in *India, General and Political*, is mainly in the reserve of 83,9 held in the budget, and which was distributed afterwards in the manner and to the extent found to be necessary Allowing for this reserve, the accounts show an excess expenditure of 6,6 and 19,1 respectively in the Hyderabad Circle and in the department of the Inspector General of Military Works The excess in the former was caused mainly by providing additional accommodation for the troops in Trimulgherry and Secundrabad, and in the latter partly by similar expenditure, and partly by the construction of block houses on the railway bridges at Benares and Ferozepore and of the defensive post at Loralai

209 The saving in the *Central Provinces* is the result of a deduction of 4,1 on account of suspense balances connected with the stock account, and in *Assam* it arises partly from an over estimate, partly from the drainage of the Silchar Cantonment not having been carried out in the year, and partly from failure of the arrangements for carriage of material for the Golaghat-Nichuguard road The *Bengal* saving has accrued from the transfer to Provincial Services of all military buildings at Bhaugulpur and Dacca as noticed in the preceding paragraph In *Madras* the expenditure on original works was curtailed by 1,2, and there were small savings in repairs and establishments The large abatement in *Bombay* is caused chiefly by the recovery of 25,8 from the Home Government on account of the defences at Aden and in a minor degree to a reduction of 3,6 in the store balances

210 The accounts also show that the budget has been exceeded in some provinces The principal *excess* is in *Upper Burma*, where it amounts to 14,8, and consists of charges for the acquisition of land for a cantonment at Mandalay There was a small excess of 7 in *Lower Burma* in consequence of the construction of temporary barracks for Native troops at Bassein The increase of 1,5 in the *North Western Provinces and Oudh* has reference to the defences at Jhansi, and of 5,4 in the *Punjab* to the new barracks at Mardan and Abbottabad

211 The higher expenditure in *England* as compared with the budget is due to larger indents for stores sent from this country The larger charge for exchange has followed upon this higher expenditure

Imperial

212 Of the difference of 276,1 between the two years 1886 87 and 1887 88 as noted above, 14,1 relates to *India—General and Political*, and consists of the following items There was an excess in the last named year of 3,1 in Central India, owing partly to expenditure on the Political Agent's house at Sirdarpur and to smaller percentage of establishment recoverable from Military and Contribution Works, while from the Mhow Water works no recovery whatever was made There was also an increase of 1,4 in Coorg connected with the maintenance of metalled and bridged roads, and of 9 in Hyderabad on account of additional rooms required for the civil offices In the Military Works Branch additional church accommodation was provided at Ferozepore, Multan and Quetta at an increased cost of 2,3, and in Biluchistan the charges increased by 5,5, chiefly on account of the petroleum experiments The accounts of the Simla Circle present an excess of 9,5 on account of the new Viceregal Residence on Observatory Hill There were some counterbalancing decreases, chiefly in Rajputana where most of the major works were completed in the previous year In addition to these savings the amount deducted from expenditure in 1887 88 is 12,6 against 3,1 added in 1886 87 The other provincial differences between the two years may be summarised as follows In *Upper Burma* there was an increased expenditure of 171,4 in opening out the country and erecting buildings for the Civil Administration *Bengal* spent 11,2 more than last year on the buildings for accommodating the Photographic, Lithographic, and Mathematical Instrument Departments of the Surveyor General's Office in Calcutta The excess in the *Punjab* is 91,0, of which 69,3 was on account of frontier roads, the balance being due to the transfer of the Murree-Kohala road to the Imperial Section of this account The increase in *Bombay* was caused by extension of the Telegraph Office, Bombay, and by work done for the Salt Department. There were small savings in *Assam* and in the *North-Western Provinces and Oudh*, the saving in the latter being due to a smaller number of buildings required for Postal, Telegraph and Opium purposes

213 These remarks give the main features of the expenditure in 1887-88 As contrasted with the Budget there was in *India—General and Political*, a saving of 8,9 in the Military Works Division from withdrawal of the grants for the new Protestant Church at Allahabad, and for additional church accommodation at Rawalpindi On the other hand, there was an excess expenditure in Biluchistan of 33,8 on account of petroleum explorations, frontier roads, and the Political Agent's house at Loralai There was also an excess of 8,0 in Simla owing to the new Viceregal Residence, the Foreign Office, and various minor works connected with the Secretariat buildings As regards the other Provinces, the Budget was exceeded in the *Central Provinces* by 1,2 in consequence of coal-boring operations in Rampur, in *Upper Burma* by 187,0 for the

Section K.—BUILDINGS AND ROADS—EXPENDITURE—*continued*

reason mentioned in the preceding paragraph, and in *Bengal* by 14,4 on account of additions to the Surveyor General's Office in Calcutta and of extensions and improvements to the Viceregal Residences in that City and Barrackpore The *Punjab* figures show an excess of 12,1 in 1887 88, owing to the construction of the Murree Kohala and the Dehra Ghazi Khan Pishin roads The saving of 6,6 in *Bombay* arises from inability to utilise the whole of the Budget grant

214 The excess of 2,2 under civil offices, *Upper Burma* represents the contribution given to the Mandalay Municipality to cover the deficit in its transactions during the year 1887 88

Provincial

215 The provincial expenditure was less in 1887 88 than in 1886 87 in all parts of India except in the *North-Western Provinces and Oudh*, where there is an increase owing to the transfer from Local to Provincial of the charges payable from the Tarai and Bhabar Improvement Fund, and to a larger expenditure on account of the Ghazipur Steam Ferry But for this transfer there would have been a saving of 6,1 owing to the completion in the preceding year of certain important jail works at Benares, Fategarh and Bareilly The savings in the *Central Provinces*, *Lower Burma* and *Assam* were 12,3, 5,7 and 5,9 and accrued respectively from restricted expenditure on works of communication and on Jails and other district buildings In *Bengal* the decrease amounted to 92 5 and resulted mainly from the separation of the establishments appertaining to the Buildings and Roads and the Irrigation Branches, whereby a considerable reduction has been effected in the cost of the former The decrease is also due to smaller suspense balances, especially in the Akra Brick Factory where extensive manufacturing operations are proceeding for the Port Commissioners in Calcutta, as well as to the accounts of 1886 87 having included a special charge in connection with the Burrakur Iron Works These abatements were partially counterbalanced by the increase of 8,9 under Civil Officers arising from the refund of ferry collections erroneously credited as Provincial Revenue in 1886 87 The decrease of 22,9 in the *Punjab* is the outcome largely of the transfer to Imperial of the Murree Kohala road as noticed above in paragraph 212 It is also occasioned partly by a reduction under suspense and by a smaller charge for establishments in consequence of a percentage being debited to other funds In *Madras* the decrease in departmental officers was 23,4, and was mainly the result of a considerable reduction in the cost of the construction establishment of the Province It was 12,0 in the expenditure by Civil Officers and accrued in Miscellaneous Public Improvements The fall in *Bombay* is in the expenditure in Civil Buildings many of which were completed in the previous year

216 The following are the principal variations in the accounts of 1887 88 as contrasted with the budget In the *Central Provinces* and *Assam* a saving of 54,0 and 3 5 was secured by curtailing expenditure generally, and in the former by postponing till next year the construction of the Chief Commissioner's residence at Nagpur The saving in the *North Western Provinces and Oudh* amounted to 7 9 in Original Works, Civil Buildings, and to 1,4 and 2,7 respectively in Civil Buildings and Communications, Repairs On the other hand Original Works, Communications, cost 3,9 more than the budget which was also exceeded in the expenditure by Civil Officers owing to the transfer from Local to Provincial mentioned in the preceding paragraph The *Punjab* Budget was apparently too high, while in *Bombay* the grants were reduced during the year, in addition to which certain charges were removed from the Provincial to the Local head The Provinces which have exceeded their grants are *Bengal* and *Madras*, the former having retained under Provincial Services, certain ferries which it was intended to make over to District Boards In *Madras* the grants for departmental officers were exceeded by 24,7 and 4,3 as regards original works and repairs, but the charge for establishments was short by 6,7 owing to the amounts recoverable from other funds, &c , having been larger than was anticipated

Local

217 The differences in this section of the account are not important and arise from various causes In the *Central Provinces* the work to be done departmentally was almost wholly postponed to the following year, while the work done by Civil Officers included several undertakings that had lain over from 1886 87 In *Lower Burma* a good deal was done in the way of constructing new roads and markets and in general improvements in various large towns Owing to the financial exigencies of the year the expenditure in *Assam* was diminished under all the heads and reduced to 4,6 below 1886 87 and 20,0 below the budget The *Bengal* accounts shew an increased expenditure by departmental officers of 1,1 on the Chandbally and Bhudruck road, and a saving of 67,9 as compared with the budget in the expenditure by Civil Officers owing to the postponement of many works The *North Western Provinces and Oudh* exhibit also a large saving, which is partly due to the transfer to Provincial mentioned above in para 215, and partly to diminished outlay resulting from difficulty in acquiring land and collecting materials, and from delay on the part of contractors The *Punjab* expenditure was 15,3 below the budget, but the latter was framed too high The charges by departmental officers in *Madras* were more than double the amount spent in 1886 87, chiefly in the progress made with the Vagai bridge at Madura The expenditure by Civil Officers was also great as compared with 1886 87, but it was particularly small in that year The budget proved too high The departmental charges in *Bombay* were lower than in the previous year, but a little higher than the budget owing to numerous small differences The expenditure by Civil Officers was enlarged by the transfer to Local noticed in the preceding paragraph

19 5-5 0	TOTAL	19,197,0	20 459,7	20,417 9

219 The army receipts in India are in some measure dependent upon the number of British troops in the country, and the revised estimate was accordingly fixed at 920,0 as compared with 850,0 in the budget, on account of larger sales of malt liquors to be expected from additions to the British force The actuals have outstripped the revised, the excess being due chiefly to additional sales of Commissariat stores, cattle and other supplies, to sales of condemned and unserviceable ordnance stores, to additional receipts on account of officers who have served under the Hyderabad Administration, and larger recoveries for Indian military service family pensions They also include a recovery of 30,0 on account of an advance to the Irrawaddy Flotilla Company in 1886-87 The fluctuations in army receipts in England arise out of the Indian troop service and the stores carried home by troops when transferred from the Indian to the British establishment

220 As regards army expenditure, the figures at foot of this paragraph show how much of the payments made in India during the two years, 1886-87 and 1887-88, relates severally to operations in Burma, and to what may be regarded as the ordinary requirements of the army In paragraph 227 are given details of the charges on account of Burma The budget for these charges was altogether inadequate, but it was not anticipated at the time that the operations in that country would be prolonged The budget, for what may be considered as the ordinary requirements of the army, has also been exceeded, and this is due to special purchases of transport, of additional horses to raise the reserve, and of clothing for the army, including locally manufactured boots at enhanced rates, as well as to increased expenditure for barrack and medical supplies, the Sikkim Expedition, and compensation for losses

	Excess of actuals over Budget and Revised Estimates, excluding Burma	339,6	116,6	

221 As regards the charges in England, the principal difference is a sum of 75,0 which was included in the budget on account of deferred pay, but payment was postponed in consequence of Lord Northbrook's Committee not having reported on the subject The next large difference is in Medical and Commissariat stores, the payments for which were greater by 29,6 than was anticipated in the budget

222 The following paragraphs supply the particulars usually given with respect to army services

223 These receipts are all more or less of a fluctuating character and dependent upon circumstances which it is difficult to forecast The deficiency in *Regimental Pay, &c*, has occurred almost entirely in Madras in the item of miscellaneous recoveries, counterbalanced in the same presidency by various refunds on account of hutting advances and bounty money, and by larger receipts than were expected from British soldiers purchasing their discharge Madras also contributes the largest difference under *Commissariat Establishments, &c*, the excess being 56,3 of which about 30,0 represents the refund of advances made in the previous year to the Irrawady Flotilla Company The remainder of the difference under this head is attributed to the following causes The sale of Commissariat provisions and stores was high in Burma, but in Bengal it diminished owing to the extension of supply by contract of meat to the troops The augmented strength of the army led to a larger sale of malt liquor, except in Burma, where it declined, and the sale of rum increased The sale of surplus cattle at the Hoonsoor Depôt was unexpected in the Budget, and so also were the credits taken in Madras for the value of supplies sent to Suakim in 1885 and of the ponies made over to the Military Police in Upper Burma The head *Clothing Establishments* compares well as regards totals, but there are considerable variations in the figures of each Presidency The principal facts connected with this group are that the Clothing Agency in Bombay has discontinued the supply of great coats to native troops on payment, that the issue of clothing to the Hyderabad Contingent, for which payment would have been received in 1887 88, was not made and that the "sale of necessaries" was large owing to the augmented strength of troops in India The head *Medical Establishments* is small owing to diminished sales of medical stores on payment and the reduced price of quinine The excess in *Ordnance Establishments* is mainly the result of credits received for the value of Naval Stores taken over by Her Majesty's Imperial Government, and in a minor degree to larger sales of condemned and unserviceable stores in Bengal, but on the other hand the indents from the Hyderabad Contingent and some other Government Departments were unusually small The increase in *Sea Transport charges* is composed of large receipts on account of table money, chiefly in connection with Burma and also in connection with the Indian Troopships The estimates for *Military Pensions to Europeans* were also framed too low, in addition to which Berar paid up the arrears due from it on account of officers lent for service in that Province The recoveries on account of *Military Pensions to Natives* are very small and do not amount even to 1 The accounts of *Widows' Pensions, &c* surpassed the budget in consequence partly of the admission of new subscribers and partly by recovery of arrears

224 The increase in *England* occurs partly under the head of Indian Troop Service and partly in the value of stores in possession of Regiments on their transfer from the Indian to the British Establishment

225 The short expenditure on *Army and Garrison Staff* is obtained mainly by a reduction in the divisional and brigade commands and staff in Upper Burma, although it was attended by a larger number of station commands and station staff officers Extra contingent and telegram charges were incurred in the Adjutant General's and Quarter Master General's Departments on account of Burma, but on the other hand the cost of telegrams sent by Army Head Quarter Offices in Bengal without prepayment, have been charged this year under the head Miscellaneous Services During the year a new appointment was created in connection with Cavalry inspection, but a Brigade Command of about equal emoluments was abolished at the

Section L —ARMY SERVICES—EXPENDITURE—*continued*

same time No changes requiring notice have occurred in connection with the *Administrative Staff*, except that additional establishments have been sanctioned for Burma Of the large reduction in *Regimental Pay*, *&c*, 16,1 falls under European army and 120 5 under Native army The saving under European army was due to the withdrawal of artillery batteries from Burma, and the diminished strength of that arm for a portion of the year, to a reduced force of British Cavalry, to casualties in the invalid and veteran establishments, to fewer unemployed officers of the Staff Corps, to the retirement of unattached and general officers on the unemployed list, and to less expenditure on account of recruiting rewards and bounty for extension of service These abatements were partly counteracted by increased charges resulting from the strength of British Infantry battalions having exceeded the budget, and from greater postage and miscellaneous charges of a regimental nature About two-thirds of the saving under Native army accrued from reductions made in the strength of the infantry regiments Considerable savings also resulted from a smaller number of men having been transferred to the Reserve force than was contemplated in the budget The *Commissariat* budget was inadequate in consequence of requirements in Upper Burma, in addition to which the extension of Kheda operations led to larger establishments, and a rise in prices caused an increase in the compensation granted for dearness of provision, and in the cost of forage, &c On the other hand, various economies were carried out in the Hoonsoor Cattle Depôt, and the grants for contingencies, freight and miscellaneous were not fully used It may be noted here that owing to the amalgamation of the Supply and Transport Branches of the Commissariat during the year, the comparison between estimates and accounts cannot be thoroughly made The excess under *Remounts and Cattle* consists of additional horses purchased to raise the strength of the reserve The budget for *clothing* proved inadequate from large demands against Supplies and Services Agency, partially counterbalanced by smaller issues under Supplies and Services, Regimental The increase under 'Supplies and Services, Agency," is due to large purchases of locally manufactured cloth, a portion of which was to meet requirements in Burma to a large supply of boots for the army at increased contract prices, by Messrs Cooper, Allen and Company, Cawnpore, and to arrear charges in Madras on account of local purchases of khaki drill in 1886 87 In Bombay there was a saving under the above head, owing to the non supply of helmets to certain British troops The balance of the increase falls under 'Compensation in lieu of clothing," the result of grants to battalions of Native troops newly raised in Bengal partly counterbalanced by smaller payments of compensation to British troops on the Madras establishment The chief saving under 'Supplies and Services, Regimental,' is in the allotment for clothing for reserve forces of the Native army, which was used to a very limited extent in consequence of the small number of soldiers transferred to the reserve There was also a saving under manufacturing and store establishment, the result of retirements and temporary vacancies and a general decrease in the total expenditure, owing to recoveries on account of supplies to the Burma Military Police and other departments As regards *Barrack Establishments*, *&c*, there was a saving in Bengal and Bombay on account of punka pulling and tattie watering, but in Madras additional conservancy establishments were entertained for service in Burma The estimates for barrack furniture and bedding and for lighting charges and miscellaneous were too low, in addition to which the demands from Burma were greater than expected, and certain arrear charges had to be met on account of water supplied to troops by the Bombay and Kurrachi Municipalities The abatement under *Administration of Martial Law* is the result mainly of the reduction of one Deputy Judge Advocate on the Madras establishment The *Medical* expenditure was high owing partly to the necessity of granting extra allowances to officers and others in Burma and entertaining additional establishments in that country The principal rise however is in supplies owing to higher prices as well as increased requirements for troops in Burma to the number of sick to additional purchases of reserve stock, and to purchases of instruments, drugs, diets and equipment The value of stores supplied to Civil Departments, which is deducted from the expenditure, was unexpectedly large in Madras in consequence partly of issues to the Burma Military Police The figures relating to the *Ordnance* Deparment have been largely affected this year by the issues to Civil Departments including the Burma Military Police and the Hyderabad Contingent, since these have been unusually great Apart from these issues, the accounts present an increase of about 30,0 over the budget, of which about 25,5 represents credits given to Her Majesty's Government and various Indian Departments for the value of stores returned to the arsenals in India The balance consists of extra expenditure caused by the condition of Burma by the fire in the arsenal at Rawal Pindi, and by the demands on the Harness and Saddlery Factory at Cawnpore The effect of these increases, however, was partly diminished by closing the gunpowder factory at Madras and by various economies in the matter of establishments, and purchase of timber, &c The *Ecclesiastical* expenditure includes the pay and allowances of chaplains serving with troops in Burma With respect to *Miscellaneous* services, the explanation is that a sum of 300,0 was included in the Revised under this grant, chiefly for Burma and Sikkim, but the expenditure against it has been classified under the various heads with which they were severally concerned Allowing for this, the excess charge in the accounts was chiefly due to Burma, including the gratuity and cost of medals granted to the troops who took part in the field operations, as well as the heavy charges for field telegraph messages and services The accounts also include the following special and extra charges, some of which were not provided for in the estimates *viz*, Mobilization Committee, Camp of Exercise, Bengal, Committees for purchasing remounts for native (silladar) cavalry, and compensation to contractors for losses or cancellation of contracts These expenses

Section L —ARMY SERVICES EXPENDITURE—*continued*

were partly counterbalanced by savings, chiefly in rewards for passing in the native languages, in personal allowances to officers serving in the police, and in the charges for Sub Marine Mining The grant for *Volunteer Corps* was exceeded in extra staff allowances, establishments, and in capitation grants to existing and newly raised corps, that for *Rewards for Military Services*, in an increase to the establishment of the "Order of British India" after the budget was prepared The *Military Pensions to Europeans* have been high in consequence of new admissions to the pension list and of large payments in India to officers who have capitalized their pensions The estimates for *Military Pensions to Natives* were framed too high, and there were also numerous casualties among the pensioners The rise in *Widows' Pensions, &c*, represents the growth resulting from new admissions

226 In England the saving in *Home charges* is due to postponement of the payment of 75,0 provided in the budget, on account of arrears of deferred pay no report having been received from Lord Northbrook's Committee, and to Furlough Allowances of officers of British Regiments serving in India not having been drawn to the extent anticipated On the other hand, the excess of 19,9 under *Furlough Allowances of Officers of the Indian Service* was caused by a larger number of such officers going to England The decline under *Indian Troop Service* represents unusually low expenditure for repairs of the Troopships, while the number of officers provided with *passages otherwise than in Troopships* being larger than estimated, produced the excess under that head Of the increased charge under *Miscellaneous*, 1,7 is on account of the expenses of Native officers attending the Queen's Jubilee, and 1 2 for Burma field allowance to Naval Brigade, the remainder being due to the purchase of stallions and the pay and expenses of Military Officers on special duty or under technical instruction in England The budget for *Stores* did not provide sufficiently for the requirements of the Medical and Commissariat Departments The non effective charges were low for *British forces* in the pay of non-effective Colonels of Royal Artillery and new Line Regiments, and high for the *Indian service*, owing to the large number of retirements The budget for "*Miscellaneous pensions*" allowed 5,0 on account of the Burma medals but these were subsequently struck in India

227 The following statement supplies details of the additional expenditure on account of Burma —

	Grants	Bengal	Madras	Bombay	Total

325,6	EXPENDITURE	568,9	456,0

228. In the Budget of 1887 88 this expenditure was shewn as not chargeable to revenue, but the arrangement was subsequently altered as explained in paragraph 258 of last year's report For the sake of comparison, however, the Budget figures are placed below in juxta position with the revised estimate and the actuals The increase of 130,4 over the expenditure of the previous year is due to the Frontier and Coast Defences having been pushed on rapidly The actuals compare on the whole favourably with the Budget Estimate, but the Revised Estimate was fixed too high

229 The expenditure in India shows an increase of 248,0 over that of the previous year, in consequence of larger grants for the construction and improvement of the fortifications and lines of Military communication on the North-Western Frontier The Budget was framed for 383,7 as entered above, but during the course of the year an additional grant of 260,0 was sanctioned for special expenditure, of which 137,3 was surrendered before the close of the year owing to certain projects not having been matured In consequence of these modifications and of certain reappropriations which became necessary to provide for additional indents sent forward for English stores, the Revised Estimate for Indian outlay was fixed at 487,1 Of this grant, a sum of 75,7 remained unexpended at the close of the year owing (1) to the establishment charges under India having been over estimated, (2) to inability to utilise fully the grants sanctioned for the defensible post at Mooltan, the Baleli-Regi Ghazabund Defensive Works and the Miri fortifications, and (3) to stoppage of work on the Karachi defences by reason of bad weather and the late receipt of plans To this sum of 75,7 must be added the recovery of 40,3 from the Home Government on account of a moiety of the expenditure incurred during 1886 87 and 1887 88 on the Aden Defence Works This recovery is in addition to the sum of 25,8 mentioned in section K of this report, and like it has been treated as a reduction of the Indian outlay during the year, and neither the budget nor the revised estimate allowed for it.

230 As regards the charges in England the variations arise from large payments having been made for heavy guns for India which had not been anticipated, while the payments for heavy guns for Aden were much less than the estimate

Section M —PROVINCIAL ADJUSTMENT

Provincial and Local Revenue as by Budget	Provincial Balances April 1st 1887	Provincial Balances March 31st 1888		1887 88 Budget	1887 88 Revised	1887 88 Accounts
16 3	11 9	12,6	India	—2	+3,0	+7
782 9	261,7	271 9	Central Provinces	—94 9	—17 6	+10,2
1 382 1	114 6	200,2	Burma	—9,1	+41,2	+85 6
544 7	72 1	78,6	Assam	—51 2	—19 0	+6,5
5 137 9	417 5	553 0	Bengal	—124 1	+165,7	+135,5

4,007 2	765 5	752 1	Bombay	—183 7	—88 2	+16,6
21,044 6	3 418 8	3 769 4	Total	—759 6	+27 7	+370 6

231 As explained in former reports, the above figures represent the surplus or deficit of each Provincial Government in respect of the revenues and charges assigned to it, including Incorporated Local Funds The Budget contemplated a deficit of 759,6 as compared with the revenues of the year, but the actuals show a surplus of 370,6 as compared with the charges The net improvement therefore is 1,130,2, and it is derived from economy in expenditure to the extent of 442,9 and additional revenues amounting to 687,3 These differences between the Budget and the accounts are explained in the earlier part of this report, and all that is required now is to show how they have affected each Provincial Government This is done in the following figures which show that the Provincial balances have increased in all the Provinces except the North Western Provinces and Bombay where they have diminished by 53,1 and 24,6 respectively It will also be seen from these figures that as regards Provincial Funds the revenue was short in the North Western Provinces and Oudh by 38 6, but the other Provinces collected more than was expected in their Budgets Under Expenditure there are savings in all Provinces except Burma, Bengal, and Bombay which have exceeded their Budgets by 22,5, 26,0, and 15,3 respectively In the local section the revenue was short by 1, 15,1 and 2 in India, Bengal, and the North Western Provinces and Oudh The other Provinces received more than was anticipated in the Budget, and all show a saving as regards expenditure —

EXTRAORDINARY RECEIPTS.

232 The amount taken under this head during 1887-88 is 63,7, and it was obtained by the cancellation of certain Government Promissory Notes belonging to the North-Western Provinces Educational Funds As these Promissory Notes appear to have been purchased originally from Government money, they were cancelled and their value credited to Government as an extraordinary receipt

Section N —EXPENDITURE NOT CHARGED TO REVENUE.

10,585,0	EXPENDITURE	4,994,2	2,976,8	2,784,8

233 The Expenditure is less than the Actuals of the previous year by 7,800,2, and the Budget by 2,209,4, and particulars of these deviations are given at foot of this paragraph, + meaning better and — worse In the case of the capital outlay on railways, the differences are due to two main causes, namely, the practical completion in 1886-87 of certain lines and the sale of certain other lines to the Bengal-Nagpur Railway Company The deviations have also resulted, but in a minor degree, from postponement of works and reduced expenditure on stores The capital outlay on Irrigation works was in some instances over-estimated, but in other respects there is nothing special to record No capital charges were incurred during 1887 88 in the redemption of liabilities

234 It will be convenient to arrange the following explanatory remarks separately for each province and in the order in which the lines have been placed in the foregoing statement

India, General and Political—The comparatively small expenditure on the East Indian Railway is due in a great measure to the completion in 1886 87 of the "Jubilee" Bridge over the Hughli, and to the postponement of a number of works, chiefly the Mogul Serai junction arrangements and additional sidings at certain stations The sum of 126,5, entered against the Rajputana Malwa line, is the net outlay after deducting 9,2 as gain by exchange on English stores in stock on the 1st January 1885, and sold between that date and the 31st December 1887 There was a large excess over 1886 87 and also over the budget caused in both instances by the purchase of land for the Colaba Basin, and by increased supplies of stores from England The actuals of 1886-87 in the case of the Holkar Railway included credits on account of stores transferred to the Rajputana Malwa Railway from the Choral Bridge and the workshop buildings at Khandwa The expenditure in 1887 88 fell below the budget, as the provision made in the latter for 14A class traffic quarters and for the water supply at Khandwa, was not required, the Rameshwar Nulla in the last named case having been found sufficient for all necessary requirements The head Stores represents

Section N —EXPENDITURE NOT CHARGED TO REVENUE—*continued*

48—State Railways—*continued*

on one side the value of stores purchased during 1887-88, plus the balance brought over from the previous year, and on the other the value of stores issued during 1887-88 The value issued in 1887 88 exceeded the purchases, and produced 97,0 in the Indian account, and 215,5 in the English account, or a total of —312 5 This result is very near the figure of 1886 87, but differs from the budget The principal cause of this difference is a short expenditure of 235,1 in England, the indents having been less than was anticipated

Central Provinces—The large difference apparent in the expenditure of the Wardha Coal line between 1886 87 and 1887 88 is attributed principally to credit taken in the latter year for one hundred ten ton coal wagons transferred to the Pilaspur Etawa Railway, as well as to heavy outlay in 1886 87 for tools and machinery required for the Colliery The transfer of the wagons was not contemplated in the budget The credits on account of the Nagpur-Chattisgarh, Bilaspur Etawah, and Nagpur Bengal Railways comprise the recovery from the Bengal Nagpur Railway Company of the capital outlay on those lines The expenditure was small on the Katni Umaria Railway, as the construction work was practically complete in 1886 87 In fact the budget was framed for a credit on account of sales to the Umaria Colliery, but it became necessary during the year to purchase coal wagons, the cost of which exceeded the anticipated receipts The amount entered against the Umaria Colliery includes a write back of 8,3 from the revenue account of the line, being the loss incurred in working the Colliery to 31st March 1887 Allowing for this special item the real difference between the two years is an excess expenditure of 26,2 in 1886 87, owing to the completion of the works in that year The budget appears to have been framed too high

Burma—The outlay on the Burma open line has followed the budget closely but has exceeded the expenditure of 1886 87 by 7,7 This result, however, is due to a large credit taken in 1886 87 under the head Ballast Permanent way, whereby the outlay appeared to be less than it really was As regards the Lounghoo Mandalay extension, work was only commenced in December 1886 and was carried on vigorously throughout 1887 88 Hence the large difference between the payments of the two years The budget allotment was not reached partly in consequence of some rolling stock not having been received from England within the year, and partly owing to an overestimate on account of land permanent-way, buildings, and other charges

Bengal—The increase in the Eastern Bengal Railway, as compared with 1886 87 is caused by the transfer to this line of the suspense balances of the Dacca and Northern Bengal Railways, and as compared with the budget by additional expenditure for rolling stock and for the land required at Chitpur to double the line to Calcutta The credits entered against the Northern Bengal and Dacca lines have resulted from the transfer just mentioned Increased expenditure was incurred in the Tirhoot line for fencing, for the new temporary Mothurapur ghât line, and for the staff quarters at Mozufferpur and Somastipur, which explains the excess over 1886 87 and the budget The diminished charges of the Patna Gya line ensue from completion of the works, which were agreed upon with the East Indian Railway Company as necessary to bring the line up to the required standard of efficiency The saving is chiefly in ballasting and in the postponement of other work The transaction relating to the Nalhati consist principally of two locomotive engines taken over from the Akhra brick fields for a sum of 4 not contemplated in the budget This charge was covered by the value of stores issued from stock There were practically no transactions during 1887 88 in connection with the Ranaghat Bhagwangola Railway project The expenditure in 1886 87 on the Tirhoot section of the Assam Behar Railway included the outlay on the Gunduck Bridge, which was practically completed in that year During 1887 88 the Kosi extension involved considerable outlay, and additional grants in excess of the budget were granted for it, but the effect of these charges was practically counterbalanced by credits obtained for plant and material sold or transferred The charges relating to the Assam Behar section of this line are also connected with the extension west of the Kosi

North Western Provinces and Oudh—There was a large credit in 1886 87 on account of the Cawnpore Achnera Railway owing to the transfer of large quantities of stock to the Lucknow Sitapur Seeramau Line, and of stores to the Rajputana Malwa Railway The difference between the budget and accounts of 1887 88 arises partly from postponement of expenditure, and partly from credits realised from sale of land at Muttra, from transfer to working charges of the interchange sidings at Hattras and from large quantities of machinery and stores returned to stock on the abolition of the workshops at Fatehgurh The Bareilly Pilibhit Railway is 36 miles long and has been constructed from contributions made by the Government of the North-Western Provinces and Oudh from provincial revenues There is nothing special to note respecting it

Punjab—The large expenditure on the North-Western Railway as compared with 1886 87 is connected with the Sukkur Bridge and gradient improvements carried out during the present year, and with a large quantity of permanent-way material purchased in 1887-88 but not used till the following year The excess over the budget is caused (1) by the transfer to this line of the reserve stores at Kurrachi, and of certain other stores which were imported for the Sind Pishin Railway and (2) by stores which arrived too

Section N —EXPENDITURE NOT CHARGED TO REVENUE—*continued*

48 —State Railways—*concluded*

late to be used in the year and so remained in balance With two very trifling exceptions the transactions relating to the Amritsar Pathankot Railway consisted of stores issued to the North-Western Line and which produced the credit noted in the foregoing statement The large difference under Rewari Ferozepur is the result of various writesback in 1887 88 on account of ballasting, permanent way materials and rolling stock, which were also not foreseen in the budget The short outlay on the four sections of the Sind Pishin Railway as compared with 1886 87 is due to the approaching completion of the line The budget of the Sibi Quetta Section was high, in addition to which some parts of the work were put off till the following year A quantity of permanent way material was returned to the Kandahar Reserve Stores, and the line having been opened earlier than was expected, the cost of maintenance became a charge on revenue instead of on capital The outlay on the Killa Abdulla section was also reduced by credits taken for permanent way materials returned to stock while the saving in the Bostan Gulistan Section accrued (1) from the impossibility of completing certain works owing to their not having been sanctioned in time, and (2) to economies resulting from alterations in designs The short payments on account of the Durwaza Quetta section were caused by the temporary suspension of work pending settlement of the question whether Quetta or Bostan should be an engine changing station The excess in the Chaman Extension occurs in the stores used The western section of the Sind Sagar line was nearly complete in 1886 87, and hence the outlay was small during the present year As compared with the budget the chief saving is in the charges for the Victoria Bridge over the Jhelum and partly also in the expenditure for level crossings and fencing The charges on account of the Eastern section of the line relate to the conversion from metre to the standard gauge of the two divisions from Lalla Musa to Malikwal and from Malikwal to Bhera The increase in 1887 88 is compared with the previous year is due to larger outlay on rolling stock and stations and buildings The budget was exceeded chiefly because it did not provide sufficiently for loss by exchange As regards the Sutlej Bridge less work was required in 1887 88 than in the previous year, and this accounts for the fall in expenditure The whole of the budget grant could not be utilised in 1887 88 The Bolan temporary line is a surface one and was laid down in the Bolan Pass to meet the requirements of the Military Department There is nothing special to record here about it The head Kandahar Reserve represents a net charge and is dependent upon the amount of stores purchased and issued during the year The fluctuations are unavoidable The Chenab Bridge was sanctioned and commenced during 1887 88

Madras —The bulk of the work on the Cuddapah-Nellore Railway under construction of line, ballast and permanent way and rolling stock was finished in 1886 87 The budget for 1887 88 was exceeded in consequence of new work sanctioned after it was framed As regards the Bellary Kistna Railway the accounts of 1887 88 include the expenditure up to 31st December 1887, when it was made over to the Southern Mahratta Railway Company This expenditure must be borne by Government according to the terms of the agreement with the Company The Bezwada extension is being constructed on behalf of the Government of India by His Highness the Nizam's Guaranteed State Railway Company Work was commenced in January 1887, but under an agreement with the Government, the payments in 1886 87 were made from the funds of the Company Those payments with interest at 4 per cent have been refunded to the Company and included in the accounts of 1887 88 The full amount sanctioned in the budget has not been spent owing to reduced outlay in England accompanied by smaller loss by exchange and reduced freight and landing charges, &c

235 The following are the principal points in this group

Biluchistan —The charges on account of the Khushdil Khan Reservoir have been removed from this group to 43—Minor Works and Irrigation

Bengal —The short payments in this province occur chiefly in connection with the Orissa Canals for which the budget was too high, and where the rapid percolation of water retarded the progress of some works Work was also delayed partly from scarcity of labour and partly from sanctions having been received late

The *North Western Provinces and Oudh* —Here the decrease is in the Ganges Canals and is also attributed mainly to an overestimate, and in a minor degree to the stoppage of the Myapur regulator and to payment not having been made during the year for lands that were purchased

Punjab —As compared with 1886 87 the Sirhind Canal shews a decrease as it is nearing completion, the Chenab Canal an increase on account of additional work done

Madras —The charges of the Kistna Canal were apparently over estimated

50 —Capital Charge involved in Redemption of Liabilities

237 These figures have already been explained in paragraph 45 Of the sum of 5,505,3 mentioned above 2,000,0 comprised the loan from the public and 3,500,0 the loan from the Gwalior Durbar Of the latter loan, 315,6 was received in Government rupees and 3,183,8 in Gwalior and Chandori coins, making a total of 3,499,4 These coins were melted by the mint and credit given at one rupee for each 165 grains of pure silver, and the balance of 6 was received by deduction from the accruing interest

Section P—UNFUNDED DEBT

	Budget	1887 88 Revised	Accounts
Special Loans	+3,499,8	— 2	— 5
Treasury Notes and Service Funds India	+ 53 1	+ 46,9	+ 42,3
Savings Bank Deposits	+ 660 2	+875,4	+884 7
TOTAL	+4 213 1	+922 1	+926 5

238 As already stated in paragraph 45, the Gwalior loan was provided for in the Budget under *Special Loans* but classified as Permanent Debt in the Revised Estimate and Accounts The —5 entered under Special Loans in the accounts represents the commuted value of certain pensions chargeable against the 1st Oudh Loan These commutations are compulsory when the monthly stipends fall below four annas, and they are also allowed on the application of the pensioners if the pension is below one rupee per mensem The Budget for *Service funds* was too high as regards the Bengal Uncovenanted Service Family Pension Fund

239 Details of the *Savings Bank Deposits* are given below The budget for Presidency Savings Banks contemplated a large excess of withdrawals over deposits at the mofussil stations in the Madras and Bombay Presidencies where those Banks received deposits through the treasuries, in consequence of the transfer of district accounts to the Post Office Banks, but the deposits at the Presidency towns were unexpectedly great and covered these special withdrawals The increase in the Civil Engineer's Provident Fund is due to the extension of its benefits to the superior Civil Officers of the Telegraph Department and to the pensionable employes of the Revenue Establishments of State Railways

TOTAL			—1 160 8			+764			+4 8

240 In the foregoing statement the third line of figures in each column shows net transactions The gross receipts and payments are entered in the first and second lines, except for the head *Provincial Balances* as they are already given in Section M of this report The gross receipts and payments relating to Exchange on Remittance Accounts are entered at foot of this paragraph The first head, *Provincial Balances*, has already been explained in para 231 The net result under *Excluded Local Funds* is very nearly what the estimates contemplated, considering that they represent purely Banking accounts The gross transactions were large, as the Gujarat Police Fund was provincialised during the year, and its receipts and payments were written back from this group to Revenue and Service expenditure The head *Political and other Funds* now includes the Bahu Begum's Stipend Fund and the various funds belonging to the Guaranteed Railway Companies The large credit in 1887 88 has accrued from increased receipts in the Fire Insurance and Provident Funds of the Bombay, Baroda and Central India Railway The fluctuations under *Departmental and Judicial Deposits* are unavoidable considering the character and magnitude of the transactions During the last three years the net result has been +67,0+44,6 and +66,9 The head *Advances* shows larger payments than were contemplated in the Budget, and the excess occurs chiefly in "Mint Certificates and Bullion Advances," the silver coinage being about double the amounts contemplated in the Budget and larger receipts occurring towards the close of the year The large sum standing against *Suspense Account* is made up largely of the balances in the hands of Opium Agents in Bengal on 31st March 1888, and which were higher than usual The amount entered under *Exchange on Remittance Accounts* may be analysed as follows The difference between Budget and Accounts is connected with the operations of the Railway Companies as stated in para 245 —

Budget 1887 88 Sterling amount	Exchange Cr	Exchange Dr	Sterling liabilities increased	Accounts 1887 88 Sterling amount	Exchange Cr	Exchange Dr

TOTAL 660 7		937 2	TOTAL		347 3	836 8
NET		276 5	NET			489 5

241 Of the sum of 323,6 under *Miscellaneous*, 318,7 is credited to the head "London Bills Payable Exchange," and represents the difference between the Exchange on Council Bills drawn in the year and the Exchange on the bills discharged The amount is comparatively large, as the drawings of the Secretary of State in March 1888 were almost entirely in the form of bills which could not be presented until after March 1888

242 The —1,4 in *England* is made up as follows —

Repayment by the Imperial Government of expenses in England in connection with the employment of Native troops in Soudan and Nubia	+1
Net amount recovered from the Imperial Exchequer in repayment of expenditure on account of Defence Works at Aden	+5
Portion of the outstanding interest repaid by the Sindh, Punjab and Delhi Railway Company on the purchase of their undertaking by the State claimed during the year	

Section R —LOANS TO MUNICIPALITIES, NATIVE STATES, &c

	1887 88 Budget	1887 88 Revised	1887 88 Accounts
India	162 6 —839 8	267 3 —689 8	271 2 —668,2
	—677 2	—422 5	—397,0

243 The details of these amounts are given in the following figures, which for the first time shew the Budget Estimate, as well as the account entries This addition admits of a more minute examination of the amounts than has been made hitherto —

1887 88 Budget Amount advanced	1887 88 Budget Amount repaid		1887 88 Accounts Amount advanced	1887 88 Accounts Amount repaid
	14 6	Loans to Native States	7,1	42 7
	1 8	Advances for Ceylon Cable		1 8
716 3	57 3	Loans to Presidency Corporations and Port Trusts	600 5	126,0
2 5	17 3	Do Mofussil Municipalities	4 0	17 3
100 0		Do Port Fund	48 5	
	3 0	Do District and other Local Committees		5 2
21,0	68 6	Do Landholders and other Notabilities	8,1	78 2
839 8	16 6	TOTAL	668 2	271 2

244 The 7,1 advanced to *Native States* comprises 3,1 taken by the Jaora State and 4,0 by the Nawab of Cambay for which no provision was made in the Budget On the other hand, the Maisur State repaid in the year 28,0 more than was expected from it The loans contemplated in the Budget to *Presidency Corporations, &c*, were 386 3 and 250 0 respectively to the Calcutta and Bombay Port Trusts for the new Docks, and 80 0 for Madras Harbour Works, but the actual amounts drawn were 300,2, 256 6, and 43,7 The repayments by these Corporations and Trusts were unusually large in Calcutta where those on account of the Hugli Bridge, the Calcutta Municipality and the Port Trust loans amounted to 83 4 against an estimate of 37,8 only The 2,5 provided in the Budget for advance to *Mofussil Municipalities* referred to the Simla Town Hall, but the actual amount taken was 2,8, in addition to which an unexpected advance of 1,0 was granted to the Cawnpore Municipality for drainage improvement The sum of 48,5 entered against *Port Funds* includes 45 3 advanced to the Kurrachee Harbour Board and 3,2 to the Moulmein Port Fund, the provision of 100,0 in the Budget being for the former alone The excess recovery from *District and Local Committees* occurs in Madras and Bombay and is distributed among a number of funds As regards loans to *Landholders and other Notabilities*, Bombay provided for a payment of 20,0 to the Manager, Sindh Encumbered Estates, but only 5 was taken The saving of 19,5, however, was counterbalanced to some extent by new loans of 2,5 and 4,0 respectively to the Talukdaree Settlement Officer, Broach, and to Rajah Feroze Khan of Khairpore, which were not anticipated at the time the Budget was prepared The excess recovery of 9 6 from *Landholders, &c*, includes 5 from the Rajah of Hindole in Bengal, 5 from the Dholepore State in the North West Provinces, 2 5 from Ramnad Zemindary in Madras, and the rest chiefly from the Manager, Sindh Encumbered Estates, Bombay

245 As explained in former reports these are all net sums The Indian figures represent the difference between the advances taken by the Railway Companies and the credits given to them chiefly on account of stores used The English figures represent the capital deposited by the Companies with the Secretary of State, less payments made therefrom These figures are necessarily exposed to great fluctuations During the present year, in the Indian account the advances to Guaranteed Companies were less than the Budget Estimate by 253,9 of which 106,3 was short drawn by the Oudh and Rohilkund Company The credits were very near the Budget, the actual difference being 8,1 only In the case of the Subsidized Companies the advances exceeded the Budget by 1,604,9, the Southern Mahratta, the Indian Midland and the Bengal-Nagpur having drawn respectively 100,8, 345,0 and 1,155,8 more than was provided in the Budget

246 In England, the amount received on account of the subscribed capital was 226,0 less than the Budget This sum represents three short receipts, one of 1 591,3 owing to debentures having been renewed instead of being replaced by fresh capital, another of 2,000,0 owing to capital having been subscribed in March 1887, which was not expected until 1887 88, and the third of 127,8 owing to that sum not having been required On the other hand, the receipts from several Companies exceeded the Budget by 3,493,1 There was a short receipt in England of 29,7 on account of transfer fees and miscellaneous refunds, which are at all times difficult to estimate On the payment side the expenditure was less by the sum of 1,591,3 mentioned above, the discharge of debentures having been below the Budget to that extent The payments on account of stores and establishment charges, &c were also short by 45,4

Section T.—REMITTANCES

	Budget	1887 88 Revised	Accounts
Money Order (net)			5 0
Other Local Remittances (net)	6 5	1 6	—20,9
Other Departmental Accounts (net)	—2	395 2	6 9
Accounts between Civil and other Departments (net)—			
Post Office			—6 8
Telegraph			1

Remittance Account between England and India (net)	—93 3	—18 2	40 1
TOTAL	—85 0	948 6	—14 3

247 The 5,0 against the first item here represents money orders issued but not paid on 31st March 1888 From the following figures it will be seen that this method of remitting small sums is still in great favour and has made important strides during the present year The other figures entered in this group are the net result of very large transactions and there is nothing special to record in respect of them

		Issued	Paid
1884 85	Money order transactions	8 192 8	8 197 0
1885 86		9 312 4	9 298 4
1886 87		10 538 9	10 519 1
1887 88		11 665 7	11 660,7

Section U —SECRETARY OF STATE'S BILLS

	Budget	1887 88 Revised	Accounts
Drawings	16 250 0	15 250 0	15 358 5
Payments	16 250 0	14 691 1	14 682 5

248 The following bills were drawn during the year by the Secretary of State —

	£	Rx	Rate in Pence
On account of allotments in April 1887	1,773 4	2 498 6	17 03
, May	1 527 8	2 182 0	16 80
, , June	1 452 8	2 170 7	16 83
, , July	1,399 8	1 902 6	16 90
August	874 4	1 231 0	17 04
, September ,	710 7	998 5	17 08
, October	475 8	675 5	16 90
, November	1,062 1	1 521,3	16 75
December	1 470 0	2 076 6	16 02
January 1888	1 557 0	2 194 4	17 02
February	1 411 7	2 002 5	16 91
March	1 703 0	2 458 7	16 62
	15 ,585	21 8124	16 89

249 The receipts in England of capital subscribed by the Railway Companies being much in excess of the Budget as explained in paragraph 245, the original estimate of drawings by the Secretary of State on India was reduced by 1,000 0 in the Revised Estimate which was closely followed by the actual allotments

250 The payment account of the year may be stated as follows —

	£	Rx
Bills of 1886 87 outstanding on 1st April 1887	271 3	380 0
Bills drawn in 1887 88 as entered above	15 358 5	21 812 4
Total bills for payment	15 629 8	22 192 4
Bills paid in 1887 88	14 682 5	20 817 7
Bills outstanding on 1st April 1888	947 3	1 374 7

Section V —CASH BALANCE

	Budget	1887 88 Revised	Accounts
Balance on 1st April 1887	15 093,7	18 476 6	18 476 6
Balance on 31st March 1888	13 276 0	19 347 4	19 784,4
Increase (+) or decrease (—) of balance on 31st March 1888	—1 817 7	+870 8	+1 307 8

251 This difference between the estimate and the accounts is distributed between India and England in the following proportions —

	Budget	1887 88 Revised	Accounts
India	—1,911 9	+537 3	+687 9
England	+94,2	+333 5	+619,9
TOTAL	—1 817 7	+870,8	+1 307 8

GOVERNMENT OF INDIA

HOME DEPARTMENT

EXECUTION OF DEEDS CONTRACTS, &c, ON BEHALF OF THE SECRETARY OF STATE

No 311-312

Extract from the Proceedings of the Government of India in the Home Department (Judicial),—under date Calcutta, the 12th March 1889

READ again —

Home Department Resolution, No 613, dated 11th May 1878, relative to the execution of deeds, contracts, &c, on behalf of the Secretary of State

Read also the under mentioned papers —

Letter from the Government of the Punjab, No 1727½, dated 15th December 1888

Letter to the Solicitor to Government, No 149, dated 8th February 1889

Letter from Solicitor to Government, No 184, dated 15th February 1889

RESOLUTION

IN exercise of the power conferred by the thirty-third and thirty fourth of Victoria, Cap fifty-nine, section two, the Governor General in Council is pleased to declare, in supersession of the orders contained in the Resolution dated 11th May 1878 cited in the preamble, that the under-mentioned classes of the deeds, contracts and other instruments referred to in the twenty second and twenty third of Victoria, Cap forty-one, section two, may be executed as follows in the territories under the administration of the Government of the Punjab —

By the Chief Engineer and Secretary to Government in the Public Works Department	Contracts and other instruments for the supply of building materials, stores, machinery, &c, for public works, contracts and other instruments for the conveyance or carriage of such materials, stores, machinery, &c, and for the execution and maintenance of public works generally

ORDER —Ordered, that this Resolution be communicated to the Government of the Punjab, and be published in the Supplement to the *Gazette of India*

(True Extract)

A P MACDONNELL,

Secretary to the Government of India

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

NOTIFICATION

Fort William, the 22nd March, 1889

No 7.—Whereas by Resolutions passed by the Secretary of State for India in Council on the 19th day of September, 1872, and the 4th day of June 1874, respectively, the provisions of the 33rd of Vic, chap 3 sec 1, were declared applicable to the territories under the administration of the Chief Commissioner of Assam,

And whereas the Chief Commissioner of Assam has proposed to the Governor General in Council a draft of the following Regulation, together with the reasons for proposing the same

And whereas the Governor General in Council has taken the draft and reasons into consideration, and has approved of the draft and the same has received the Governor General's assent on the twentieth day of March, 1889

In pursuance of the direction contained in the said section, the said Regulation is now published in the Gazette of India —

REGULATION No II OF 1889

A Regulation to amend the Assam Land and Revenue Regulation, 1886

WHEREAS it is expedient to amend the Assam Land and Revenue Regulation, 1886, It is hereby enacted as follows —

Title commencement and application

1 (1) This Regulation may be called the Assam Land and Revenue Regulation 1889

(2) It shall come into force on such day as the Chief Commissioner may, by notification in the local official Gazette, appoint in this behalf, and

(3) It shall apply to arrears of revenue which have accrued, whether before or after it comes into force, but not so as to affect any proceedings instituted before it comes into force

Definition

2 In this Regulation "section" means a section of the Assam Land and Revenue Regulation, 1886

Amendment of section 70

3. In the proviso to section 70, clause (1), before the words "an estate which is not permanently settled" the words "except when the Chief Commissioner by general order applicable to any local area or any class of cases or by special order otherwise directs" shall be inserted

Substitution of new section for section 72

4 For section 72 the following shall be substituted, namely —

Notice of sale

"72 (1) If the Deputy Commissioner proceeds to sell any property under section 70, he shall prepare a statement in manner prescribed, specifying the property which will be sold, the time and place of sale, the revenue assessed on the property, and any other particulars which he may think necessary

(2) A list of all estates for which a statement has been prepared under sub section (1) shall be published in manner prescribed, and a copy of the statement relating to every such estate shall be open to inspection by the public free of charge in manner prescribed

(3) If the revenue of any estate for which a statement has been prepared under sub section (1) exceeds five hundred rupees, a copy of the statement shall be published in the local official Gazette

(4) When the arrear has accrued on an estate, not being a permanently-settled estate in the district of Sylhet, a copy of the statement prepared under sub section (1) shall be served on the defaulter, or, if he cannot be found, posted on the estate in manner prescribed

(5) When the arrear has accrued on a permanently settled estate in the district of Sylhet, a copy of the statement shall be posted on or in the vicinity of the estate in manner prescribed, and, if any proprietor of the estate has registered his name and address in manner prescribed, a copy of the notice shall be despatched to him by post in a registered cover to that address

(6) In making rules prescribing the manner of registering names and addresses for the purposes of sub section (5), the Chief Commissioner may impose a fee for such registration and may fix a period after which such registration will, unless renewed, become void"

Amendment of section 74

5 In section 74, sub section (2), for the words "proclamation of sale" the words "list of estates" shall be substituted

Amendment of section 75

6 In section 75 after the word "sold" the words "and the fee (if any) prescribed in this behalf" shall be inserted

Addition to section 79

7 To section 79 the following shall be added, namely —

"Provided also that the non delivery or misdelivery of a registered cover despatched under section 72, sub section (5), shall not, for the purposes of this section, be deemed an irregularity or mistake in publishing or conducting the sale"

Substitution of new section for section 81

8 For section 81 the following shall be substituted, namely —

Annulment of sale on ground of hardship

"81 The Chief Commissioner may, on application made to him at any time within one year of a sale becoming final under section 80, set the sale aside on the ground of hardship or injustice"

Addition to section 85.

9 To section 85 the following shall be added, namely —

"(3) A certificate granted to a purchaser under this section shall be conclusive evidence in his favour, and in favour of any person claiming under him, that every publication, service, posting or despatch of any statement, list, notice or letter required by this Regulation, or the rules made under it, to be published, served, posted or despatched, has been duly effected, and the title of any person who has obtained any such certificate or of any person claiming under him shall not be impeached or affected under section 82 or otherwise by reason of any omission, informality or irregularity as regards the publication, serving, posting or despatching

of any statement, list, notice or letter in the proceedings under which the sale was held at which the property was purchased

Provided that nothing in this sub section shall affect the power conferred on the Chief Commissioner by section 81"

S HARVEY JAMES,
Secretary to the Government of India

HOME DEPARTMENT

NOTIFICATIONS—PUBLIC

Calcutta, the 21st March, 1889

No 549—In accordance with the provisions of section 18, sub section (1) of the Indian Explosives Act IV of 1884, and with the directions contained in Home Department Notification, No 1964, dated the 2nd September, 1887, the Governor General in Council is pleased to publish for the information of persons likely to be affected thereby, the following draft addition to rules 12 and 17 of the rules to regulate the transport and importation of explosives (published in Home Department Notification, No 1417, dated the 24th June, 1887) which he proposes to make under the Act

The draft will be taken into consideration on the expiry of two months from the date of this notification

Draft addition to Rules 12 and 17

but if any explosive imported under a license into a British port is exported thence to another British port named in rule 10, the necessary license for such re import may be granted on payment of a fee of one rupee instead of 10 rupees

SANITARY

The 22nd March, 1889

No. 72—THE following translation of the special Regulations of the Ottoman Board of Health applicable to the Mecca pilgrimage of 1889, received through Her Majesty's Secretary of State for India, is published for general information

Special Regulations applicable to the Mecca Pilgrimage of 1889

Article 1—From the beginning of the month of Redjeb until the end of the month of Zilhidjé (4th March to end of August), the Lazaretto of Camaran will be open to arrivals by sea subject to quarantine

Article 2—During the period of six months above-mentioned (Redjeb, Chaban, Rémazan, Chewal, Zilcadé, Zilhidjé) pilgrim ships arriving from outside the Straits of Bab-el-Mandeb, no matter what the tenor of their Bill of Health must go direct to the Island of Camaran without touching at any other port of the Red Sea Coasts

Article 3—Pilgrim-ships are ships expressly chartered for the conveyance of pilgrims going to Mecca

Article 4—Vessels bound to the Red Sea having on board only one pilgrim for every 100 tons of registered tonnage are not included in the definition of pilgrim-ships Such vessels will be dealt with according to the character of their Bills of Health, conformably to the provisions of the General Regulation of 1867, applicable to cases of cholera

Article 5—Mail-boats and vessels not carrying more than five pilgrims for every 100 tons register, can proceed to Abou Saad, where they will discharge, subject to quarantine, their pilgrims and merchandise destined for the Hedjaz

Merchandise not destined for Yemen can be landed at Hodeyda under the supervision of the Sanitary authorities

Article 6—For this purpose, a Lazaretto is established at Abou-Saad as a branch of the Camaran Lazaretto, which will be open to arrivals specified in articles 4 and 5 of the present regulation throughout the year.

Article 7—Arrivals from Egyptian ports, Sambouks, and other coasters, navigating from one port to another of the Red Sea coast, will also perform quarantine at Abou Saad in case of necessity

Article 8—Indo Malayan pilgrims who come to the Hedjaz *viâ* Suez will be subjected to quarantine unless they can prove by their passports that they have come from beyond the Suez Canal

Captains of ships are forbidden to embark pilgrims of this class under penalty of their ships and the crews being subjected to quarantine under Articles 2, 4, and 5 of these Regulations

Article 9—On the arrival of a pilgrim ship in Camaran Harbour, or Abou Said, all pilgrims will be disembarked and undergo the usual medical examination If the health of the ship is good and no suspicious case has occurred on the voyage, the ship and the pilgrims will undergo five full days' quarantine, baggage and effects will be disinfected, the ship will be washed and purified, but the cargo will not be landed nor purified nor taxed

Article 10—Pilgrim ships which arrive from infected ports, but have had no cholera case during the voyage or after arrival, will undergo a quarantine of ten days Merchandise coming from a cholera-infected port will remain on board the ship, if there have been no cholera cases during the voyage or after arrival, but will be exempt from disinfection and from sanitary fees, except in the case of old personal effects and stuffs already used, unwashed wool, old cottons, hair and feathers, raw skins and hides and other raw animal remains, and rags

Article 11—Ships upon which cases of cholera or suspicious cases have occurred during the voyage, or after arrival, will be subjected, ships and pilgrims, to a quarantine of at least 15 days This quarantine will be renewed each time a cholera case occurs among crew or passengers after their arrival in Lazaretto and will date from the day of the last case of sickness In such cases the clauses in the Regulation of 1867 for cholera will be strictly applied

Article 12—No pilgrim ship shall leave Camaran for good without having re shipped, at the expiration of the quarantine, all the pilgrims brought by her Vessels which have completed their quarantine without cholera cases or suspected cases among the crew shall have a right to free pratique

Article 13—Sambouks coming from outside Cape Bab el-Mandeb with pilgrims will be subject to the same rules as vessels specially chartered for pilgrims They must go direct to Camaran, and will be refused admission at all other Arabian ports of the Red Sea

Vessels coming from Bassora, with pilgrims on board bound for the Hedjaz, will have to go to Camaran, and will be treated according to the tenor of their Bill of Health and the general Regulations of 1867

The same exceptional treatment is applicable to arrivals from Muscat, Zanzibar, and Bushire, provided such vessels are furnished with a regular Bill of Health indicating a good sanitary condition of the port of departure, and also if they have not touched at any intermediate port in the course of the voyage

Read at the Board of Health and approved at the sitting of the 26th December 1888

JUDICIAL

The 20th March, 1889

PART IV

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 22nd March 1889 and is hereby promulgated for general information —

ACT No VIII OF 1889

An Act to amend the Sea Customs Act 1878 and the Indian Tariff Act, 1882

WHEREAS it is expedient to amend the Sea Customs Act 1878, and the Indian Tariff Act, 1882, It is hereby enacted as follows —

Sea Customs Act, 1878

Amendment of section 37 Act VIII 1878

1 For the provisos to section 37 of the Sea Customs Act, 1878, the following proviso shall be substituted, namely —

"Provided that, if such goods are warehoused under this Act the rate and valuation (if any) applicable thereto shall be the rate and valuation in force on the date on which application is made to clear such goods from the warehouse for home consumption"

Amendment of section 115 Act VIII, 1878

2 In section 115 of the same Act for the words and figures "the second proviso to section 37" the words "such alteration" shall be substituted

Indian Tariff Act, 1882

Amendment of section 1 Act XI 1882

3 In section 1 of the Indian Tariff Act, 1882, the words "and Perim" shall be inserted after the word "Aden"

Addition of new section to Act XI 1882

4 The following section shall be added to the same Act, namely —

When contracts have been entered into amount of increased or decreased duty to be added or deducted

"10 In the event of any duty of customs or excise on any article being imposed, increased, decreased or remitted after the making of any contract for the sale of such article without stipulation as to the payment of duty where duty was not chargeable at the time of the making of the contract, or for the sale of such article duty paid where duty was chargeable at that time —

(*a*) if such imposition or increase so takes effect that the duty or increased duty, as the case may be, is paid, the seller may add so much to the contract price as will be equivalent to the duty or increase of duty and he shall be entitled to be paid and to sue for and recover such addition, and

(*b*) if such decrease or remission so takes effect that the decreased duty only or no duty, as the case may be, is paid the purchaser may deduct so much from the contract price as will be equivalent to the decrease of duty or remitted duty, and he shall not be liable to pay or be sued for or in respect of such deduction"

Amendment of the Second Schedule to Act XI 1882

5 In No 1 of the Second Schedule to the same Act, for the following namely —

No	Names of Articles	Per	Tariff valuation	Rate of duty
*	*	*	*	*
			Rs A	
	Gunpowder common	lb	0 5	10 per cent
	Gunpowder, sporting	lb	1 0	
	All other sorts		*Ad valorem*	

there shall be substituted the following, name ly —

No	Names of Articles	Per	Tariff valuation	Rate of duty
*	*	*	*	*
			Re A	
	Gunpowder, common	lb	0 5	10 per cent
	Gunpowder sporting	lb	1 0	
	All other sorts of Arms Ammunition and Military Stores		*Ad valorem*	10 per cent

Explanation —The expression Arms Ammunition and Military Stores as used in the foregoing part of this Schedule includes in addition to any article specifically mentioned in that part —

XI of 1878

(*a*) all articles which are either arms or ammunition within the meaning of the Indian Arms Act 1878 and

(*b*) any articles which the Governor General in Council may from time to time by notification in the Gazette of India declare to be military stores for the purposes of this Act

S HARVEY JAMES,
Secretary to the Government of India

LEGISLATIVE DEPARTMENT

The following Report of the Select Committee on the Bill to amend the Sea Customs Act, 1878, and the Indian Tariff Act 1882 was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 15th March, 1889 —

WE, the undersigned, Members of the Select Committee to which the Bill to amend the Sea Customs Act 1878 and the Indian Tariff Act, 1882, was referred, have considered the Bill and the papers noted in the margin and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto

From Secretary for Berar to Resident Hyderabad No 91G dated 27th February 1889 [Paper No 9]
From Chief Secretary to Government Bombay No 1641 dated 27th February 1889 and enclosures [Papers No 10]
From Under Secretary to Chief Commissioner Central Provinces No 1342—60 dated 2nd March 1889 [Paper No 11]
From Officiating Under Secretary to Chief Commissioner Burma No 4—4L dated 1st March 1889 and enclosures [Papers No 12]
From Secretary Bengal Chamber of Commerce No 212 dated 9th March 1889 [Paper No 13]

Section 110 of the Sea Customs Act 1878, is one of several interdependent sections, and it seems to us to be unnecessary to amend it for the purpose mentioned in the Statement of Objects and Reasons It is sufficiently clear from the new proviso to section 37 of the Act that where, after goods liable to duty have been assessed and warehoused, the duty is repealed, the goods may be cleared for home consumption free of duty

3 We have slightly altered the proposed amendment of section 115 of the Sea Customs Act, 1878

4 At the instance of the Government of Bombay we have expressly excluded Perim from the operation of the Indian Tariff Act, 1882

5 The Bengal, Bombay and Rangoon Chambers of Commerce approve, and the Madras Chamber disapproves the addition of the proposed section 10 to the Indian Tariff Act, 1882 We concur with the majority in thinking that the section should be added to the Act

PART V.

Bills introduced into the Council of the Governor General of India for making Laws and Regulations or published under Rule 22

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Report of the Select Committee on the Bill to consolidate and amend the law relating to Ports and Port charges was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 22nd March, 1889 —

WE, the undersigned, Members of the Select Committee to which the Bill to consolidate and amend the law relating to Ports and Port charges was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto

From Officiating Secretary to Chief Commissioner Burma No 598—10 P D, dated 22nd February 1889 and enclosure [Papers No 1]
From Under Secretary to Government Bengal No 476 Marine dated 1st March, 1889 and enclosures [Papers No 2]
From Under Secretary to Government Bengal, No 493 Marine dated 5th March, 1889 and enclosure [Papers No 3]
From Registrar High Court Calcutta No 592 dated 5th March 1889 [Paper No 4]
From Chief Secretary to Government Madras No 81, dated 1st March 1889 and enclosures [Papers No 5]
From Officiating Secretary to Chief Commissioner, Burma, No 187—10 P D, dated 8th March 1889 and enclosure [Papers No 6]
From Chief Secretary to Government, Bombay No 1906, dated 9th March 1889 and enclosures [Papers No 7]
From Secretary Bengal Chamber of Commerce, No 231 dated 14th March, 1889 and enclosure [Papers No 8]
From Chief Secretary to Government Bombay No 1960 dated 12th March 1889 and enclosures [Papers No 9]
From Chief Secretary to Government, Bombay No 2027, dated 14th March 1889, and enclosure
Telegram from Government, Bombay dated 18th March, 18 9

2 In section 3 we have, at the instance of the Government of Bengal, declared, with reference to enactments in which mention is made of master attendant, that "port-officer" and "master-attendant" are synonymous expressions We have also, on the advice of the Bengal Chamber of Commerce and the Calcutta Port Commissioners, omitted the definition of "owner", and we have made it clear by the definition of "ton" that the proposed Act is concerned with net, and not gross, tonnage

3 To section 6 sub section (*i*), we have added a clause (clause (*p*)) in the terms of the second of the additional clauses in Madras Act II of 1872 We have also added a sub-section requiring port rules to be hereafter made after previous publication in the manner set forth in section 6 of the General Clauses Act, 1887

4 We have not considered it necessary, as suggested in one of the papers before us, to amend section 7 so as to define more clearly the position of the port officer In Calcutta the port officer is not the subordinate of the Port Commissioners In Bombay he is, and will continue to be, as deputy conservator, the subordinate of the Port Trustees, who hold and will continue to hold the office of Conservator

5 Nor have we considered it expedient, with reference to another paper before us, to modify section 8 so as to require notice of a direction under that section to be in writing There are circumstances in which notice must be given orally or by signal

6 We have so modified section 14 as to remove an objection to the repeal of Bengal Act III of 1872

7 We have omitted from section 21 the clause which had been suggested by the case reported at I L R 9 Cal 849 The Trustees of the Port of Bombay accepted the clause, but the Calcutta Port Commissioners, in whose interest the clause was inserted and the Bengal Chamber of Commerce, have objected to it

8 Certain amendments in section 31 have been proposed by the Trustees of the Port of Bombay but the difficulties brought to our notice may, in our opinion, be overcome by action under section 4 sub section (*t*), clause (*c*), or by the licensing of certain masters as pilots, or by both means The case of inland steam vessels is covered by section 68, sub section (*t*), of the Inland Steam vessels Act, VI of 1884

9 In section 37 of the Bill as revised we have made special provision with respect to the grouping of ports and the levy and expenditure of port dues in ports which have been grouped either by the Act or in pursuance of powers conferred thereby

10 In section 39 and Schedule I Part I, we have maintained existing arrangements as regards ballam boats in the Port of Chittagong

11 In the Second Schedule, Part II, we have inserted the scale of fees proposed by the Madras Chamber of Commerce and Harbour Trust Board, as modified by the Local Government The modifications made by that Government will appear from its order of the 1st instant, which is in the following terms —

The Government entirely approve of the complete separation of Madras from the eastern group of ports as set forth in the draft schedule now proposed by the Chamber of Commerce and the Harbour Trust Board

2 It is observed however that the proposed maximum charges on coasting ships and steamers disturb the relation which has hitherto existed between the dues leviable on these two classes of vessels the latter being at present liable to pay twice as much as the former The Government think that this proportion should be preserved and would therefore raise the maximum charge on coasting steamers calling at Madras to 3 annas a ton

3 The proposed schedule reduces very considerably the rates chargeable on foreign vessels entering the Madras port The maximum rate now leviable is 8 annas a ton and the actual charge was 6 annas until it was reduced to 4½ annas by G O 7th April 1888 No 161 A further reduction to 3 annas is now proposed The future receipts and charges at Madras under the present rates have been estimated by the Presidency Port officer at Rs 1 33 300 and Rs 1 03 900 respectively (in round numbers) as shown below —

Receipts

	Rs
(*a*) Dues on coasters	36 300
(*b*) Do foreign vessels	86 300
(*c*) Sundry receipts	10 700
Total	1 33 300
Charges	1 03 900
Balance	29 400

The reduction of item (*b*) of receipts by one third would almost entirely destroy the estimated surplus and the Government consider that this is a loss which the port could not in the long run be able to afford At present no doubt the port is in a prosperous condition having accumulated a considerable surplus which will operate as a reserve to meet special charges and which when invested will yield an annual income But this state of things may not last, and it may ultimately be necessary to increase the revenue from port as well as from harbour dues in order to meet the charges of harbour improvements Without therefore, in any way implying that the dues should be raised at present but on the contrary with every readiness to sanction a further reduction of existing rates with reference to the surplus now in hand should the Chamber and the Harbour Trust Board desire it the Government consider that a higher maximum should be authorized in the Act This maximum they would fix at 6 annas a ton

4 Subject to these remarks, the draft schedule will be forwarded for the favourable consideration of the Government of India

12 The Trustees of the Port of Bombay have consented to waive the privilege, which they have exercised since 1873, of fixing the rates of port dues for that port Hence the alterations in sections 33, 34, 46 and 47 and in Schedule I, Part III

13 The publication ordered by the Council has been made as follows —

Gazette	*Date*
Gazette of India	2nd February, 1889
Fort Saint George Gazette	19th February 1889
Bombay Government Gazette	7th February 1889
Calcutta Gazette	6th February 1889
Burma Gazette	16th February 1889

14 We do not think that the measure has been so altered as to require re publication, and we recommend that it be passed as now amended

THE SECOND SCHEDULE—ENACTMENTS REPEALED

The Indian Ports Bill

(Chapter I —Preliminary —Sections 1 3 Chapter II —Powers of the Local Govern ment —Section 4)

No II

A Bill to consolidate and amend the law relat ing to Ports and Port charges

WHEREAS it is expedient to consolidate and amend the law relating to ports and port charges, It is hereby enacted as follows —

CHAPTER I

PRELIMINARY

[Act XII, 1875 ss 1 and 2]

Title commencement and extent

1 (*1*) This Act may be called the Indian Ports Act, 1889, and

(*2*) It shall come into force on the first day of April, 1889

(*3*) It shall extend, save as otherwise appears from its subject or context,—

(*a*) to the ports mentioned in the first schedule and to such parts of the navigable rivers and channels leading to such ports respectively as have been declared to be subject to Act XXII of 1855 (*for the regulation of Ports and Port dues*) or to the Indian Ports Act, 1875,

XII of 1875

(*b*) to the other ports or parts of navigable rivers or channels to which the Local Government in exercise of the power hereinafter conferred, extends this Act

(*4*) But nothing in this Act shall—

(i) apply to any vessel belonging to or in the service of, Her Majesty or the Government of India, or to any vessel of war belonging to any Foreign Prince or State, or

(ii) deprive any person of any right of property or other private right, except as hereinafter expressly provided or

(iii) affect any law or rule relating to the customs or any order or direction lawfully made or given pursuant thereto

(*5*) And nothing in section 31 or section 32 shall apply to any port river or channel to which the section has not been specially extended by the Local Government

[Act XII 1875 s 3]

Repeal

2 (*1*) The enactments mentioned in the second schedule are hereby repealed to the extent specified in the third column of that schedule

(*2*) All declarations appointments, requisitions, orders and rules made, authorizations, directions and permissions given, prohibitions issued and notifications published under any of those enactments or under any enactment repealed by any of them shall, if in force at the commencement of this Act, be deemed so far as may be, to have been made given, issued and published under this Act and

(*3*) Any enactment or document referring to any such repealed enactment shall, so far as may be, be construed to refer to this Act or to the corresponding portion thereof

[Act XII 1875, s 4]

Definitions

3 In this Act, unless there is something repugnant in the subject or context,—

(*1*) "port" includes also any part of a river or channel in which this Act is for the time being in force

(*2*) "port officer" is synonymous with master-attendant

(*3*) "vessel" includes anything made for the conveyance by water of human beings or of property

(*4*) "master", when used in relation to any vessel means, subject to the provisions of any other enactment for the time being in force, any person (except a pilot or harbour master) having for the time being the charge or control of the vessel

(*5*) "pilot" means a person for the time being authorized by the Local Government to pilot vessels

(*6*) "ton" means a ton as determined or determinable by the rules for the time being in force for regulating the measurement of the net tonnage of British ships and

[New]

(*7*) "Magistrate" means a person exercising powers under the Code of Criminal Procedure, 1882 not less than those of a Magistrate of the second class, and includes in the towns of Calcutta, Madras and Bombay a Presidency Magistrate

X of 1882

CHAPTER II

POWERS OF THE LOCAL GOVERNMENT

[Act XII 1875 s 5]

Power to extend or withdraw the Act or certain portions thereof

4 (*1*) With the previous sanction of the Governor General in Council, the Local Government may by notification in the official Gazette,—

(*a*) extend this Act to any port in which this Act is not in force or to any part of any navigable river or channel which leads to a port and in which this Act is not in force,

(*b*) specially extend the provisions of section 31 or section 32 to any port to which they have not been so extended,

(*c*) withdraw this Act, or section 31 or section 32 from any port or any part thereof in which it is for the time being in force

The Indian Ports Bill

(Chapter II —Powers of the Local Government —Sections 5-6 (Chapter III —Port officials and their Powers and Duties —Section 7)

(2) A notification under clause (*a*) or clause (*b*) of sub section (1) shall define the limits of the area to which it refers

(3) Limits defined under sub section (2) may include any piers, jetties landing places wharves, quays, docks and other works made on behalf of the public for convenience of traffic, for safety of vessels, or for the improvement, maintenance or good government of the port and its approaches whether within or without high water mark, and subject to any rights of private property therein any portion of the shore or bank within fifty yards of high water mark

(4) In sub section (3) the expression "high water mark" means the highest point reached by ordinary spring tides at any season of the year

t XII 5 s 6] **Alteration of limits of ports**

5 (1) The Local Government may with the previous sanction of the Governor General in Council and subject to any rights of private property, alter the limits of any port in which this Act is in force

(2) When the Local Government alters the limits of a port under sub section (1) it shall declare or describe, by notification in the official Gazette and by such other means, if any as it thinks fit, the precise extent of such limits

s XII 5 s 7] **Power to make port rules**

6 (1) The Local Government may, in addition to any rules which it may make under any other enactment for the time being in force, make such rules consistent with this Act, as it thinks necessary for any of the following purposes, namely —

(*a*) for regulating the time at which, and the manner in which vessels are to enter or leave any port subject to this Act

(*b*) for regulating the berths stations and anchorages to be occupied by vessels in any such port,

(*c*) for striking the yards and top masts, and for rigging in the booms and yards of vessels in any such port, and for swinging or taking in davits, boats and other things projecting from such vessels,

(*d*) for the removal or proper hanging or placing of anchors, spars and other things being in or attached to vessels in any such port,

irtly new] (*e*) for regulating vessels whilst taking in or discharging passengers ballast or cargo, or any particular kind of cargo, in any such port, and the stations to be occupied by vessels whilst so engaged,

(*f*) for keeping free passages of such width as may be deemed necessary within any such port, and along or near to the piers, jetties, landing places, wharves, quays, docks, moorings and other works in or adjoining to the same, and for marking out the spaces so to be kept free,

(*g*) for regulating the anchoring, fastening, mooring and unmooring of vessels in any such port,

(*h*) for regulating the moving and warping of all vessels within any such port and the use of warps therein,

(*i*) for regulating the use of the mooring buoys, chains and other moorings in any such port,

(*j*) for fixing the rates to be paid for the use of such moorings when belonging to the Government, or of any boat, hawser or other thing belonging to the Government

(*l*) for licensing and regulating catamarans plying for hire, and flats and cargo, passenger and other boats plying whether for hire or not and whether regularly or only occasionally in or partly within and partly without, any such port and for determining the quantity of cargo or number of passengers to be carried by any such vessel, [Partly new]

(*l*) for regulating the use of fires and lights within any such port,

(*m*) for enforcing and regulating the use of signals or signal lights by vessels by day or by night in any such port, [Partly new]

(*n*) for regulating the number of the crew which must be on board any vessel afloat within the limits of any such port,

(*o*) for regulating the employment of persons engaged in cleaning or painting vessels, or in working in the bilges, boilers or double bottoms of vessels, in any such port, and [New]

(*p*) for regulating the action to be taken by a master where there is disease or sickness, or a dead body, on board his vessel in any such port

(2) The power to make rules under sub section (1) is subject to the condition of the rules being made after previous publication

Provided that nothing in this sub section shall be construed to affect the validity of any rule in force immediately before the commencement of this Act and continued by section 2, sub section (2)

CHAPTER III

PORT OFFICIALS AND THEIR POWERS AND DUTIES

Appointment of conservator

7 (1) The Local Government shall appoint some officer or body of persons to be conservator of every port subject to this Act, and may suspend or remove such officer or body [Act XII 1875 s 8]

(2) Subject to any direction by the Local Government to the contrary,—

(*a*) in ports where there is a port officer, the port officer shall be the conservator

(*b*) in ports where there is no port officer, but where there is a harbour master, the harbour-master shall be the conservator

The Indian Ports Bill

(Chapter III—Port-officials and their Powers and Duties—Sections 8-13)

(3) Where the harbour master is not conservator, the harbour master and his assistants shall be subordinate to, and subject to the control of, the conservator

(4) The conservator shall be subject to the control of the Local Government, or of any intermediate authority which that Government may appoint

[Act XII 1875 s 9]

Power of conservator to give and enforce directions for certain specified purposes

8 (1) The conservator of any port subject to this Act may, with respect to any vessel within the port, give directions for carrying into effect any rule for the time being in force therein under section 6

(2) If any person wilfully and without lawful excuse refuses or neglects to obey any lawful direction of the conservator after notice thereof has been given to him, he shall, for every such offence, be punished with fine which may extend to one hundred rupees, and with further fine which may extend to one hundred rupees for every day on which, after such notice as aforesaid he wilfully and without lawful excuse continues to disobey the direction

(3) In case of such refusal or neglect, the conservator may do, or cause to be done, all acts necessary for the purpose of carrying the direction into execution, and may hire and employ proper persons for that purpose, and all reasonable expenses incurred in doing such acts shall be recoverable by him from the person so refusing or neglecting to obey the direction

[Act XII, 1875 s 10]

Power to cut warps and ropes

9 The conservator of any such port may in case of urgent necessity cut, or cause to be cut, any warp, rope, cable or hawser endangering the safety of any vessel in the port or at or near to the entrance thereof

[Act XII 1875 s 11]

Removal of obstructions within limits of port

10 (1) The conservator may remove, or cause to be removed, any timber, raft or other thing, floating or being in any part of any such port, which in his opinion obstructs or impedes the free navigation thereof or the lawful use of any pier, jetty, landing place, wharf, quay, dock, mooring or other work on any part of the shore or bank which has been declared to be within the limits of the port and is not private property

(2) The owner of any such timber, raft or other thing shall be liable to pay the reasonable expenses of the removal thereof, and if such owner or any other person has without lawful excuse caused any such obstruction or impediment, or causes any public nuisance affecting or likely to affect such free navigation or lawful use, he shall also be punished with fine which may extend to one hundred rupees

(3) The conservator or any Magistrate having jurisdiction over the offence may cause any such nuisance to be abated

[Act XII 1875, s 12]

Recovery of expenses of removal

11 If the owner of any such timber, raft or other thing, or the person who has caused any such obstruction, impediment or public nuisance as is mentioned in the last foregoing section neglects to pay the reasonable expenses incurred in the removal thereof, within one week after demand, or within fourteen days after such removal has been notified in the official Gazette or in such other manner as the Local Government by general or special order directs, the conservator may cause such timber, raft or other thing, or the materials of any public nuisance so removed, or so much thereof as may be necessary, to be sold by public auction

and may retain all the expenses of such removal and sale out of the proceeds of the sale, and shall pay the surplus of such proceeds, or deliver so much of the thing or materials as may remain unsold, to the person entitled to receive the same,

and, if no such person appears, shall cause the same to be kept and deposited in such manner as the Local Government directs

and may, if necessary, from time to time, realize the expenses of keeping the same, together with the expenses of sale, by a further sale of so much of the thing or materials as may remain unsold

[Act XII 1875 s 13]

Removal of lawful obstructions

12 (1) If any obstruction or impediment to the navigation of any port subject to this Act has been lawfully made, or has become lawful by reason of the long continuance of such obstruction or impediment or otherwise the conservator shall report the same for the information of the Local Government, and shall, with the sanction of that Government, cause the same to be removed or altered, making reasonable compensation to the person suffering damage by such removal or alteration

(2) Any dispute arising concerning such compensation shall be determined according to the law relating to like disputes in the case of land required for public purposes

[Act XII 1875 s 14]

Fouling of Government moorings

13 (1) If any vessel hooks or gets foul of any of the buoys or moorings laid down by or by the authority of the Local Government in any such port, the master of such vessel shall not, nor shall any other person, except in case of emergency, lift the buoy or mooring for the purpose of unhooking or getting clear from the same without the assistance of the conservator

The Indian Ports Bill

(*Chapter III—Port-officials and their Powers and Duties—Sections 14-19*)

and the conservator, immediately on receiving notice of such accident, shall assist and superintend the clearing of such vessel,

and the master of such vessel shall, upon demand, pay such reasonable expenses as may be incurred in clearing the same

(2) Any master or other person offending against the provisions of this section shall for every such offence, be punished with fine which may extend to one hundred rupees

ict XII, 75 ss 15 d 44]

Raising or removal of wreck impeding navigation within limits of port

14 (1) If any vessel is wrecked, stranded or sunk in any such port so as to impede or be likely to impede the navigation thereof, the conservator may cause the vessel to be raised, removed or destroyed

(2) If any property recovered by a conservator acting under sub section (1) is unclaimed, or the person claiming it fail to pay the reasonable expenses incurred by the conservator under that sub section and a further sum of twenty per cent of the amount of such expenses, the conservator may sell the property by public auction, if the property is of a perishable nature forthwith, and, if it is not of a perishable nature, at any time not less than six months after the recovery thereof

(3) The expenses and further sum aforesaid shall be payable to the conservator out of the sale proceeds of the property, and the balance shall be paid to the person entitled to the property recovered, or, if no such person appears and claims the balance, shall be held in deposit for payment, without interest, to any person thereafter establishing his right thereto

Provided that the person makes his claim within three years from the date of the sale

t XII 5 s 16]

Power to board vessels and enter buildings

15 (1) The conservator or any of his assistants may, whenever he suspects that any offence against this Act has been or is about to be, committed, or whenever it is necessary for him so to do in the performance of any duty imposed upon him by this Act,

and the person appointed under this Act to receive any port dues, fees or other charges payable in respect of any vessel, may, whenever it is necessary for him so to do in the performance of any duty imposed upon him by this Act,

either alone or with any other person, board any vessel, or enter any building or place, within the limits of any port subject to this Act

(2) If the master of the vessel, or any person in possession or occupation of the building or place, without lawful excuse, refuses to allow any such person as is mentioned in sub section (1) to board or enter such vessel, building or place in the performance of any duty imposed upon him by this Act he shall for every such offence be punished with fine which may extend to two hundred rupees

[Act XII 1875 s 17]

Power to require crews to prevent or extinguish fire

16 (1) For the purpose of preventing or extinguishing fire in any port subject to this Act, the conservator or port officer may require the master of any vessel within the port to place at his disposal such number as he requires not exceeding three fourths of the crew then under the orders of such master

(2) Any master refusing or neglecting to comply with such requisition shall be punished with fine which may extend to five hundred rupees and any seaman then under his orders who, after being directed by the master to obey the orders of the conservator or port officer for the purpose aforesaid refuses to obey such orders shall be punished with fine which may extend to twenty five rupees

[Act XII, 1875 s 18 A — Act V 1883 s 31]

Appointment and powers of health officer

17 (1) The Local Government may appoint at any port subject to this Act an officer to be called the health officer and may suspend or remove from office any officer so appointed

(2) A health officer shall subject to the control of the Local Government have the following powers within the limits of the port for which he is appointed, namely —

(a) with respect to any vessel the powers conferred on a shipping master by Act I of 1859, section 71,

(b) power to enter on board any vessel and medically examine all or any of the seamen or apprentices on board the vessel,

(c) power to require and enforce the production of the log book and any other books, papers or documents which he thinks necessary for the purpose of enquiring into the health and medical condition of the persons on board the vessel,

(d) power to call before him and question for any such purpose all or any of those persons and to require true answers to any questions which he thinks fit to ask,

(e) power to require any person so questioned to make and subscribe a declaration of the truth of the statements made by him

[Act XII 1875 s 19]

Indemnity to Government against act or default of port official or pilot

18 The Government shall not be responsible for any act or default of any conservator port officer or harbour master of any port subject to this Act or of any deputy or assistant of any of the authorities afore-

The Indian Ports Bill

(Chapter IV—Rules for the Safety of Shipping and the Conservation of Ports—Sections 19 26)

said, or of any person acting under the control or direction of any such authority, deputy or assistant or for any act or default of any pilot, or for any damage sustained by any vessel in consequence of any defect in any of the moorings hawsers or other things belonging to the Government which may be used by the vessel

Provided that nothing in this section shall protect the Secretary of State for India in Council from a suit in respect of any act done by or under the express order or sanction of the Government

---

CHAPTER IV

RULES FOR THE SAFETY OF SHIPPING AND THE CONSERVATION OF PORTS

General Rules

[Act XII 1875 s 20]

Injuring buoys beacons and moorings

19 (*1*) No person shall without lawful excuse, lift injure loosen or set adrift any buoy, beacon or mooring fixed or laid down by, or by the authority of the Local Government in any port subject to this Act

(*2*) If any person offends against the provisions of this section, he shall for every such offence be liable in addition to the payment of the amount of damage done to fine which may extend to two thousand rupees, or to imprisonment for a term which may extend to two years

[Act XII 1875 s 21]

Wilfully letting vessel from moorings

20 If any person wilfully and without lawful excuse looses or removes from her moorings any vessel within any such port without leave or authority from the owner or master of the vessel, he shall, for every such offence be punished with fine which may extend to two hundred rupees, or with imprisonment for a term which may extend to six months

[Act XII 1875 s 22]

Improperly discharging ballast

21 (*1*) No ballast or rubbish, and no other thing likely to form a bank or shoal or to be detrimental to navigation, shall, without lawful excuse, be cast or thrown into any such port or into or upon any place on shore from which the same is liable to be washed into any such port, either by ordinary or high tides, or by storms or land floods

(*2*) Any person who by himself or another so casts or throws any ballast or rubbish or any such other thing, and the master of any vessel from which the same is so cast or thrown, shall be punished with fine which may extend to five hundred rupees, and shall pay any reasonable expenses which may be incurred in removing the same

(*3*) If, after receiving notice from the conservator of the port to desist from so casting or throwing any ballast or rubbish or such other thing, any master continues so to cast or throw it he shall also be liable to simple imprisonment for a term which may extend to two months

(*4*) Nothing in this section applies to any case in which the ballast or rubbish or such other thing is cast or thrown into any such port with the consent in writing of the conservator, or within any limits within which such act may be authorized by the Local Government

[Act XII 1875 s 23]

Craving vessel within prohibited limits

22 If any person graves, breams or smokes any vessel in any such port, contrary to the directions of the conservator, or at any time or within any limits at or within which such act is prohibited by the Local Government, he and the master of the vessel shall for every such offence be punished with fine which may extend to five hundred rupees each

[Act XII, 1875, s 24]

Boiling pitch on board vessel within prohibited limits

23 If any person boils or heats any pitch, tar, resin, dammer, turpentine, oil or other such combustible matter on board any vessel within any such port, or at any place within its limits where such act is prohibited by the Local Government, or contrary to the directions of the conservator, he and the master of the vessel shall for every such offence be punished with fine which may extend to two hundred rupees each

[Act XII 1875, s 25]

Drawing spirits by unprotected artificial light

24 If any person, by an unprotected artificial light, draws off spirits on board any vessel within any port subject to this Act, he and the master of the vessel shall for every such offence be punished with fine which may extend to two hundred rupees each

[Act XII 1875, s 26]

Warping

25 (*1*) Every master of a vessel in any port subject to this Act shall, when required so to do by the conservator, permit warps or hawsers to be made fast to the vessel for the purpose of warping any other vessel in the port, and shall not allow any such warp or hawser to be let go until required so to do

(*2*) A master offending against sub section (*1*) shall be punished for every such offence with fine which may extend to two hundred rupees

[Act XII, 1875, s 27]

Leaving out warp or hawser after sunset

26 (*1*) A master of a vessel shall not cause or suffer any warp or hawser attached to his vessel to be left out in any port subject to this Act after

The Indian Ports Bill

(Chapter IV—Rules for the Safety of Shipping and the Conservation of Ports—Sections 27 32 Chapter V—Port dues, Fees and other Charges—Section 33)

sunset in such a manner as to endanger the safety of any other vessel navigating in the port

(2) A master offending against sub section (1) shall be punished for every such offence with fine which may extend to two hundred rupees

[Act XII, 1875, s 35]

Discharge of fire arms in port

27 If any person, without lawful excuse discharges any fire arm in any port subject to this Act, or on or from any pier landing place, wharf or quay thereof, except a gun loaded only with gunpowder for the purpose of making a signal of distress or for such other purpose as may be allowed by the Local Government, he shall for every such offence be punished with fine which may extend to fifty rupees

[Act XII, 1875, s 36]

Penalty on master omitting to take order to extinguish fire

28 If the master of any vessel in which fire takes place while lying in any such port wilfully omits to take order to extinguish the fire or obstructs the conservator or the port officer, or any person acting under the authority of the conservator or port officer, in extinguishing or attempting to extinguish the fire he shall be punished with imprisonment which may extend to six months or with fine which may extend to one thousand rupees, or with both

[Act XII 1875 s 40]

Unauthorized person not to search for lost stores

29 (1) No person, without the permission of the conservator shall in any port subject to this Act creep or sweep for anchors, cables or other stores lost or supposed to be lost therein

(2) If any person offends against the provisions of sub section (1), he shall be punished with fine which may extend to one hundred rupees

[Act XII 1875 s 41]

Removing stones or injuring shores of port prohibited

30 (1) No person without the permission of the conservator shall in any port subject to this Act remove or carry away any rock, stones, shingle gravel, sand or soil or any artificial protection from any part of the bank or shore of the port,

and no person shall sink or bury in any part of such bank or shore, whether the same is public or private property, any mooring post, anchor or any other thing, or do any other thing which is likely to injure or to be used so as to injure such bank or shore except with the permission of the conservator, and with the aid or under the inspection of such person, if any, as the conservator may appoint to take part in, or overlook the performance of, such work

(2) If any person offends against sub section (1), he shall for every such offence be punished with fine which may extend to one hundred rupees and shall pay any reasonable expenses which may be incurred in repairing any injury done by him to the bank or shore

Special Rules

[Act XII, 1875 s 38]

Moving of vessels without pilot or permission of harbour master

31 (1) No vessel of the measurement of two hundred tons or upwards shall enter, leave or be moved in any port to which this section has been specially extended without having a pilot, harbour master or assistant of the port officer or harbour master on board,

and no vessel of any measurement less than two hundred tons and exceeding one hundred tons shall enter, leave or be moved in any such port without having a pilot, harbour master or assistant of the port officer or harbour master on board, unless authority in writing so to do has been obtained from the conservator or some officer empowered by him to give such authority

(2) If any vessel, except in case of urgent necessity, enters, leaves or is moved in the port contrary to the provisions of sub section (1), the master of the vessel shall for every such offence be punished with fine which may extend to two hundred rupees, unless upon application to the proper officer the master was unable to procure a pilot, harbour master or assistant of the port officer or harbour master to go on board the vessel

[Act XVII, 1882, s 2]

(3) Nothing in sub sections (1) and (2) shall apply to Native vessels when they are entering, leaving or being moved in the port of Bombay

(4) If any question arises as to whether any vessel is a Native vessel within the meaning of this section, the decision thereon of such authority as the Governor of Bombay in Council may appoint in this behalf shall be conclusive

[Act XII, 1875 s 39]

Provision of certain vessels with fire extinguishing apparatus

32 (1) Every vessel exceeding the measurement of two hundred tons and lying in any port to which this section has been specially extended shall be provided with a proper force pump and hose and appurtenances, for the purpose of extinguishing any fire which may occur on board

(2) The master of such a vessel who having been required by the conservator to comply with the provisions of sub section (1) neglects or refuses, without lawful excuse, so to do for the space of seven days after such requisition, shall be punished with fine which may extend to five hundred rupees

---

CHAPTER V

PORT DUES, FEES AND OTHER CHARGES

[Act XII 1875 s 45

Levy of port dues

33 (1) In each of the ports mentioned in the first schedule such port due, not exceeding the amount specified for the port in the third column of the

The Indian Ports Bill

(*Chapter V—Port-dues, Fees and other Charges—Sections 34-36*)

schedule as the Local Government directs shall be levied on vessels entering the port and described in the second column of the schedule, but not oftener than the time fixed for the port in the fourth column of the schedule

(2) Whenever the Local Government with the previous sanction of the Governor General in Council declares any other port to be subject to this Act it may with the like sanction by the same or any subsequent declaration, further declare,—

(*a*) in the terms of any of the entries in the second column of the first schedule the vessels which are to be chargeable with port dues on entering the port,

(*b*) the highest rates at which such dues may be levied in respect of vessels chargeable therewith, and

(*c*) the times at which such vessels are to be so chargeable

(3) All port dues now leviable in any port shall continue to be so leviable until it is otherwise declared in exercise of the powers conferred by this section

(4) An order increasing or imposing port dues under this section shall not take effect till the expiration of sixty days from the day on which the order was published in the local official Gazette

[Act XII 1875 s 46] **34** The Local Government may exempt the vessels entering a port subject to this Act from payment of port dues and cancel the exemption or may vary the rates at which port dues are to be levied in the port, in such manner as having regard to the receipts and charges on account of the port it thinks expedient by reducing or raising the dues, or any of them

Variation of port due by Local Government

Provided that the rates shall not in any case exceed the amount authorized to be taken by or under this Act

[Act XII 1875 s 61] **35.** (1) Within any port subject to this Act, fees may be charged for pilotage hauling, mooring, re mooring hooking, measuring and other services rendered to vessels at such rates as the Local Government may direct

Fees for pilotage and certain other services

Provided that, in the case of fees for pilotage the previous sanction of the Governor General in Council has been obtained

(2) The fees now chargeable for such services shall continue to be chargeable unless and until they are altered in exercise of the power conferred by sub section (1)

[Cf Act XII 1875, ss 47 and 48] **36** (1) The Local Government shall appoint some officer or body of persons at every port at which any dues, fees or other charges are authorized to be taken by or under this Act to receive the same and, subject to the control of the Local Government, to expend the receipts on any of the objects authorized by this Act

Receipt expenditure and account of port-charges

(2) Such officer or body shall keep for the port a distinct account, to be called the port fund account, showing in such detail as the Local Government prescribes, the receipts and expenditure of the port, and shall publish annually as soon after the first day of April as may be practicable an abstract, in such form as that Government prescribes of the account for the past financial year

(3) If for any of the purposes of this Act, an advance of money has been or shall be made by the Government on account of any port subject to this Act, simple interest upon that advance, or upon so much of it as remains or shall remain unrepaid, at such rate as the Governor General in Council may determine shall be charged in the port fund account of the port

(4) All moneys received under this Act at or on account of any port subject to this Act, excluding receipts on account of pilotage but including—

(*a*) fines,

(*b*) proceeds of waifs, and

(*c*) any balance of the proceeds of a sale under section 14 where no right to the balance has been established on a claim made within three years from the date of the sale,

shall be credited in the port fund account of the port

(5) All expenses incurred for the sake of any such port, excluding expenses on account of pilotage but including—

(*a*) the pay and allowances of all persons upon the establishment of the port,

(*b*) the cost of buoys beacons lights and all other works maintained chiefly for the benefit of vessels being in or entering or leaving the port or passing through the rivers or channels leading thereto,

(*c*) pensions, allowances and gratuities of persons who have been employed in the port under this or any other enactment relating to ports and port dues, or such portion of those pensions, allowances and gratuities as the Local Government may by rule determine [Act V 1885 s 2]

(*d*) with the previous sanction of the Local Government, contributions towards the support of public hospitals or dispensaries suitable for the reception or relief of seamen or otherwise towards the provision of sanitary superintendence and medical aid for the shipping in the port and for seamen whether ashore or afloat, belonging to vessels in the port, and [Act V 1885 s 3]

(*e*) with the like sanction, contributions towards sailors' homes, institutes, rest-houses and coffee houses and for other purposes connected with the health, recreation and temporal well-being of sailors, [New]

shall be charged to the port fund account of the port

(6) Subject to the provisions of any local law as to the disposal of any balance from time to time standing to the credit of a port fund account, any such balance may be temporarily in-

The Indian Ports Bill

(*Chapter V—Port-dues, Fees and other Charges—Sections 37-42*)

vested in such manner as the Local Government may direct

Grouping of ports

37 (*1*) The Local Government may direct that for the purposes of the last foregoing section any number of ports shall be regarded as constituting a single port, and thereupon all moneys to be credited to the port fund account under sub-section (*4*) of that section shall form a common port fund account which shall be available for the payment of all expenses incurred for the sake of any of the ports

Provided with respect to the ports of Calcutta Madras, Bombay Rangoon Karáchi, Chittagong and Aden, that none of those ports may be grouped with any other port and that the port fund account of each of those ports shall be kept separate from the port fund account of any other port

(*2*) Where ports are grouped by or under this Act, the following consequences ensue namely —

(*a*) the Local Government in the exercise of its control over expenditure debitable to the common port fund account of the group, may with the previous sanction of the Governor General in Council, make rules with respect to the expenditure of the fund for the sake of the several ports of the group on the objects authorised by this Act and shall cause effect to be given to any directions which the Governor General in Council may deem it necessary to issue with respect to such expenditure, and

(*b*) the Local Government may exercise its authority under section 34 as regards all the ports in the group collectively or as regards any of them separately

[Act XII 1875 s 48]

Receipts for port charges

38 The person to whom any dues fees or other charges authorized to be taken by or under this Act are paid shall grant to the person paying the same a proper voucher in writing under his hand describing the name of his office, the port or place at which the dues, fees or other charges are paid, and the name, tonnage and other proper description of the vessel in respect of which the payment is made

[Act XII, 1875 s 49]

Master to report arrival

39 (*1*) Within twenty four hours after the arrival within the limits of any port subject to this Act of any vessel liable to the payment of port dues under this Act the master of the vessel shall report her arrival to the conservator of the port

(*2*) A master failing without lawful excuse to make such report within the time aforesaid shall for every such offence be punished with fine which may extend to one hundred rupees

(*3*) Nothing in this section applies to tug-steamers, ferry steamers or river steamers plying to and from any of the ports subject to this Act or to ballam boats plying to and from the port of Chittagong

[Act XII 1875 s 50

Conservator may in certain cases ascertain draught and charge expense to master

40 If any vessel liable to the payment of port dues is in any such port without proper marks on the stem and stern posts thereof for denoting her draught the conservator may cause the same to be ascertained by means of the operation of hooking and the master of the vessel shall be liable to pay the expenses of the operation

[Act XII 1875 s 51]

Ascertainment of tonnage of vessel liable to port dues

41 In order to ascertain the tonnage of any vessel liable to pay port dues the following rules shall be observed —

(*1*) (*a*) If the vessel is a British registered vessel or a vessel registered under Act X of 1841 or Act XI of 1850 or under any other law for the time being in force for the registration of vessels in British India the conservator may require the owner or master of the vessel or any person having possession of her register to produce the register for inspection

(*b*) If the owner or master or such person neglects or refuses to produce the register or otherwise to satisfy the conservator as to what is the true tonnage of the vessel in respect of which the port dues are payable he shall be punished with fine which may extend to one hundred rupees, and the conservator may cause the vessel to be measured, and the tonnage thereof to be ascertained according to the mode of measurement prescribed by the rules for the time being in force for regulating the measurement of British vessels, and in such case the owner or master of the vessel shall also be liable to pay the expenses of the measurement

(*2*) If the vessel is not a British registered vessel or a vessel registered under Act X of 1841 or Act XI of 1850 or under any other law for the time being in force for the registration of vessels in British India, and the owner or master thereof fails to satisfy the conservator as to what is her true tonnage according to the mode of measurement prescribed by the rules for the time being in force for regulating the measurement of British vessels, the conservator shall cause the vessel to be measured and the tonnage thereof to be ascertained, according to the mode aforesaid, and in such case the owner or master of the vessel shall be liable to pay the expenses of the measurement

[New]

(*3*) If the vessel is a vessel of which the tonnage cannot be ascertained according to the mode of measurement mentioned in clauses (*1*) and (*2*), the tonnage of the vessel shall be determined by the conservator on such an estimate as may seem to him to be just

[Act XII 1875 s 52.

Distraint and sale on refusal to pay port charges

42 If the master of any vessel in respect of which any port dues, fees or other charges are payable under this Act refuses or neg-

The Indian Ports Bill

(*Chapter V—Port dues, Fees and other Charges—Sections 43 49*)

lects to pay the same on demand the authority appointed to receive such port dues, fees or other charges may distrain or arrest the vessel, and the tackle, apparel and furniture belonging thereto or any part thereof, and detain the same until the amount due is paid,

and in case any part of the port dues, fees or other charges, or of the costs of the distress or arrest or of the keeping of the vessel or other thing distrained or arrested, remains unpaid for the space of five days next after any such distress or arrest may cause the vessel or other thing distrained or arrested to be sold, and with the proceeds of such sale may satisfy the port dues fees or other charges and the costs including the costs of sale, remaining unpaid and shall render the surplus if any, to the master of the vessel upon demand

[Act XII 1875 s 53]

No port clearance to be granted until port charges are paid

43 The officer of Government whose duty it is to grant a port clearance for any vessel shall not grant such clearance—

(*a*) until her owner or master or some other person, has paid or secured to the satisfaction of such officer the amount of all port dues, fees and other charges, and of all fines, penalties and expenses to which the vessel or her owner or master is liable under this Act,

(*b*) until all expenses, which by the Merchant Shipping Act, 1854, section 228 are to be borne by her owner, incurred since her arrival in the port from which he seeks clearance, have been paid

7 & 18 Vict, c 104

[Act XII 1875 s 54]

Port charges payable in one port recoverable at any other port

44 (*1*) If the master of any vessel in respect of which any such sum as is mentioned in the last foregoing section is payable causes her to leave any port without having paid the sum, the authority appointed to receive port dues, fees and other charges at the port under this Act may require in writing the authority appointed to receive port dues fees and other charges under this Act at any other port in British India to which she may proceed, or in which she may be to levy the sum

(*2*) The authority to whom the requisition is directed shall proceed to levy such sum in the manner prescribed in section 42 and a certificate purporting to be made by the authority appointed to receive port dues, fees and other charges at the port where such sum as is mentioned in the last foregoing section became payable, stating the amount payable, shall be sufficient *primâ facie* proof of such amount in any proceeding under section 42 and also (in case the amount payable is disputed) in any subsequent proceeding under section 59

[Act XII 1875 s 55]

Penalty for evading payment of port charges

45 (*1*) If the master of a vessel evades the payment of any such sum as is mentioned in section 43 he shall be punished with fine which may extend to five times the amount of the sum

(*2*) In any proceeding before a Magistrate on a prosecution under sub section (*1*), any such certificate as is mentioned in section 44, sub-section (*2*), stating that the master has evaded such payment, shall be sufficient *primâ facie* proof of the evasion, unless the master shows to the satisfaction of the Magistrate that the departure of the vessel without payment of the sum was caused by stress of weather, or that there was lawful or reasonable ground for such departure

(*3*) Any Magistrate having jurisdiction under this Act in any port to which the vessel may proceed, or in which she may be found, shall be deemed to have jurisdiction in any proceeding under this section

[Act XII 1875, s 56]

Port due on vessels in ballast

46 A vessel entering any port subject to this Act (other than a port in Burma) in ballast and not carrying passengers shall be charged with a port due at a rate to be determined by the Local Government and not exceeding three fourths of the rate with which she would otherwise be chargeable

[Act XII 1875 s 57]

Port due on vessels not discharging or taking in cargo

47 When a vessel enters a port subject to this Act but does not discharge or take in any cargo or passengers therein (with the exception of such unshipment and reshipment as may be necessary for purposes of repair), she shall be charged with a port due at a rate to be determined by the Local Government and not exceeding half the rate with which she would otherwise be chargeable

Provided that a vessel entering any of the ports within the territories administered by the Governor of Fort St George in Council and leaving the same within forty eight hours, without discharging or taking in any passengers or cargo, shall not be charged with any port due

[Act XII 1875 s 58 and Act XVII 1882, s 3]

Port dues not chargeable on pleasure yachts or on vessels re entering from stress of weather

48 No port due shall be chargeable in respect of any pleasure yacht, nor shall any such due be chargeable in respect of any vessel which, having left any port is compelled to re enter it by stress of weather or in consequence of having sustained any damage

[Act XII, 1875, s 59]

Power to impose hospital port dues

49 (*1*) The Local Government may, by notification in the official Gazette, order that there shall be paid in respect of every vessel entering any port subject to this Act, within a reasonable distance of which there is a public hospital or dispensary suitable for the reception or relief of seamen requiring medical aid, such further port-dues not exceeding one anna per ton as the Local Government thinks fit

(*2*) Such port dues shall be called hospital port dues, and the Local Government shall, in making any order under sub section (*1*), have regard to any contributions made under section 36, sub section (*5*), clause (*d*)

(*3*) An order imposing or increasing hospital port-dues shall not take effect till the expiration

The Indian Ports Bill

(Chapter V—Port-dues, Fees and other Charges—Section 50 Chapter VI—Hoisting Signals—Sections 51 53 Chapter VII—Provisions with respect to Penalties—Sections 54 57)

of sixty days from the day on which the order was published in the local official Gazette

(4) Whenever the Local Government is satisfied that proper provision has been made by the owners or agents of any class of vessels for giving medical aid to the seamen employed on board such class of vessels, or that such provision is unnecessary in the case of any class of vessels, it may by notification in the official Gazette exempt such class of vessels from any payment under this section

[Act V 1885, s 4] (5) The Local Government may by notification in the official Gazette cancel any order under sub section (1) or withdraw any exemption under sub section (4)

[Act XII 1875 s 60] 50 (1) Hospital port dues shall be applied, as the Local Government may direct to the support of any such hospital or dispensary as aforesaid, or otherwise for providing sanitary superintendence and medical aid for the shipping in the port in which they are levied and for the seamen belonging to the vessels therein, whether such seamen are ashore or afloat

Application and account of hospital port dues

(2) The Local Government shall publish annually in the official Gazette, as soon after the first day of April as may be, an account for the past financial year of the sums received as hospital port dues at each port where such dues are payable, and of the expenditure charged against those receipts

(3) Such account shall be published as a supplement to the abstract published under section 36, sub section (2)

CHAPTER VI

HOISTING SIGNALS

[Act XII 1875, ss 62 and 63] 51 (1) The master of every inward or outward bound vessel, on arriving within signal distance of any signal station established within the limits of the river Hooghly, or within the limits of any part of a river or channel leading to a port subject to this Act, shall, on the requisition of the pilot in charge of the vessel, signify the name of the vessel by hoisting the number by which she is known, or by adopting such other means to this end as may be practicable and usual and shall keep the signal flying until it is answered from the signal-station

Master to hoist number of vessel

(2) If the master of a vessel arriving as aforesaid offends against sub section (1) he shall be punished for every such offence with fine which may extend to one thousand rupees

[Act XII, 1875, s 64] 52 (1) Every pilot in charge of a vessel shall require the number of the vessel to be duly signalled as provided by the last foregoing section

Pilot to require master to hoist number

(2) When, on such requisition from the pilot, the master refuses to hoist the number of a vessel, or to adopt such other means of making her name known as may be practicable and usual, the pilot may on arrival at the first place of safe anchorage, anchor the vessel and refuse to proceed on his course until the requisition has been complied with

[Act XII 1875, s 65] 53 Any pilot in charge of a vessel who disobeys, or abets disobedience to any of the provisions of this Chapter shall be punished with fine which may extend to five hundred rupees for each instance of such disobedience or abetment and in addition shall be liable to have his authority to act as a pilot withdrawn

Penalty on pilot disobeying provisions of this Chapter

CHAPTER VII

PROVISIONS WITH RESPECT TO PENALTIES

[Act XII 1875 s 12] 54 If any person disobeys any rule or order which a Local Government has made in pursuance of this Act and for the punishment of disobedience to which express provision has not been made elsewhere in this Act, he shall be punished for every such offence with fine which may extend to one hundred rupees

Penalty for disobedience to rules and orders of the Local Government

[Act XII, 1875 s 66] 55 All offences against this Act shall be triable by a Magistrate, and any Magistrate may, by warrant under his hand, cause the amount of any fine imposed upon the owner or master of any vessel, for any offence committed on board of the vessel, or in the management thereof, or otherwise in relation thereto, whereof the owner or master is convicted, to be levied by distress and sale of the vessel and the tackle apparel and furniture thereof, or so much thereof as is necessary

Offences how triable and penalties how recovered

[Act XII, 1875, s 67] 56 (1) In case of any conviction under this Act the convicting Magistrate may order the offender to pay the costs of the conviction in addition to any fine or expenses to which he may be liable

Costs of conviction

(2) Such costs may be assessed by the Magistrate, and may be recovered in the same manner as any fine under this Act

[Act XII, 1875, ss 68 and 76 cf Act X 1887 s 46] 57 (1) If any dispute arises as to the sum to be paid in any case as expenses or damages under this Act it shall be determined by a Magistrate upon application made to him for that purpose by either of the disputing parties

Ascertainment and recovery of expenses and damages payable under this Act

(2) Whenever any person is liable to pay any sum, not exceeding one thousand rupees, as expenses or damages under this Act, any

The Indian Ports Bill

(Chapter VII—Provisions with respect to Penalties—Sections 58 61 Chapter VIII—Supplemental Provisions—Sections 62 to 64)

Magistrate, upon application made to him by the authority to whom the sum is payable, may, in addition to or instead of any other means for enforcing payment, recover the sum as if it were a fine

Costs of distress

58 Whenever any fine, expenses or damages is or are levied under this Act by distress and sale the costs of the distress and sale may be levied in addition to such fine, expenses or damages, and in the same manner

Magistrate to determine the amount to be levied in case of dispute

59 If any dispute arises concerning the amount leviable by any distress or arrest under this Act or the costs payable under the last foregoing section the person making the distress or using the arrest may detain the goods distrained or arrested, or the proceeds of the sale thereof, until the amount to be levied has been determined by a Magistrate, who upon application made to him for that purpose may determine the amount and award such costs to be paid by either of the parties to the other of them as he thinks reasonable, and payment of such costs, if not paid on demand, shall be enforced as if they were a fine

Jurisdiction over offences beyond local limits of jurisdiction

60 (*1*) Any person offending against the provisions of this Act in any port subject to this Act shall be punishable by any Magistrate having jurisdiction over any district or place adjoining the port

(*2*) Such Magistrate may exercise all the powers of a Magistrate under this Act, in the same manner and to the same extent as if the offence had been committed locally within the limits of his jurisdiction notwithstanding that the offence may not have been committed locally within such limits, and, in case any such Magistrate exercises the jurisdiction hereby vested in him, the offence shall be deemed, for all purposes to have been committed locally within the limits of his jurisdiction

Conviction to be quashed on merits only

61 (*1*) No conviction, order or judgment of any Magistrate under this Act shall be quashed for error of form or procedure, but only on the merits and it shall not be necessary to state on the face of the conviction, order or judgment, the evidence on which it proceeds

(*2*) If no jurisdiction appears on the face of the conviction, order or judgment, but the depositions taken supply that defect, the conviction, order or judgment shall be aided by what so appears in the depositions

CHAPTER VIII

SUPPLEMENTAL PROVISIONS

Hoisting unlawful colours in port

62 (*1*) If any vessel belonging to any of Her Majesty's subjects, or sailing under British colours, hoists, carries or wears, within the limits of any port subject to this Act, any flag, jack pennant or colours the use whereof on board such vessel has been prohibited by the Merchant Shipping Act, 1854, or any other statute now or hereafter to be in force, or by any proclamation made or to be made in pursuance of any such statute, or by any of Her Majesty's regulations in force for the time being the master of the vessel shall for every such offence be punished with fine which may extend to fifty rupees [Act XII 1875, s 73] 17 & 18 Vict c 104

(*2*) Such fine shall be in addition to any other penalty recoverable in respect of such an offence

(*3*) The conservator of the port, or any officer of Her Majesty's Navy or Indian Marine Service, may enter on board any such vessel and seize and take away any flag jack pennant or colours so unlawfully hoisted, carried or worn on board the same

Foreign deserters

63 Any Magistrate upon an application being made to him by the Consul of any Foreign Power to which the Foreign Deserters Act 1852, has by an order of Her Majesty in Council been, or shall hereafter be, declared to be applicable, or by the representative of such Consul and upon complaint on oath of the desertion of any seaman not being a slave from any vessel of such Foreign Power may, until a revocation of such Order in Council has been publicly notified, issue his warrant for the apprehension of any such deserter and, upon due proof of the desertion, may order him to be conveyed on board the vessel to which he belongs or at the instance of the Consul to be detained in custody until the vessel is ready to sail or if the vessel has sailed, for a reasonable time not exceeding one month [Act XII 1875 s 74] 15 & 16 Vict c 26

Provided that a deposit be first made of such sum as the Magistrate deems necessary for the subsistence of the deserter during the detention, and that the detention of the deserter shall not be continued beyond twelve weeks

Application of sections 10 and 21

64 (*1*) The provisions of sections 10 and 21 shall be applicable to all ports heretofore or hereafter declared by the Local Government to be ports for the shipment and landing of goods but not otherwise subject to this Act, and may be enforced by any Magistrate to whose ordinary jurisdiction any such port is subject [Act XII, 1875, s 75]

(*2*) Any penalties imposed by him, and any expenses incurred by his order, under the said

The Indian Ports Bill

(Chapter VIII—Supplemental Provisions—Sections 65 70)

provisions shall be recoverable respectively in the manner provided in sections 55 and 57

(3) In any of the said ports for the shipment and landing of goods the consent referred to in section 21, sub section (4), may be given by the principal officer of customs at such port or by any other officer appointed in that behalf by the Local Government

[Act XII, 1875, s 77, and Act IX, 1879, s 17]

Application of Maulmain and Bassein port dues

65 The port due leviable under this Act in either of the ports of Maulmain and Bassein shall, to the extent of one anna and six pie per ton, be applicable in the first place to defray the expenses of maintaining the existing port lights of Burma

Validation of irregular contributions

66 Any money contributed before the passing of this Act from any port fund for any purpose connected with the health, recreation and well being of sailors shall be deemed to have been lawfully contributed from the fund

[17 & 18 Vict c 104, s 546]

Grant of sites for sailors institutes

67 Any local authority in which any immoveable property in or near a port is vested may, with the previous sanction of the Local Government, appropriate, and either retain and apply, or transfer by way of gift or otherwise, the whole or any part of the property as a site for, or for use as, a sailors' home or other institution for the health, recreation and temporal well being of sailors

[Act XII 1875, s 18.]

Exercise of powers of conservator by his assistants

68 (1) All acts, orders or directions by this Act authorized to be done or given by any conservator may, subject to his control, be done or given by any harbour master or any deputy or assistant of such conservator or harbour master

(2) Any person authorized by this Act to do any act may call to his aid such assistance as may be necessary

[Act XII, 1875, s 9]

Service of written notices of directions

69 Any written notice of a direction given under this Act, left for the master of any vessel with any person employed on board thereof, or affixed on a conspicuous place on board of the vessel, shall, for the purposes of this Act, be deemed to have been given to the master thereof

[Act XII, 1875 s 42, and Act V 1885, s 1]

Publication of orders of Local Government

70 Every declaration, order and rule of a Local Government made in pursuance of this Act shall be published in the official Gazette, and a copy thereof shall be kept in the office of the conservator and at the custom house, if any, of every port to which the declaration, order or rule relates, and shall there be open at all reasonable times to the inspection of any person without payment of any fee

The Indian Ports Bill

(The First Schedule—Ports, Vessels chargeable, Rate of Port-dues and Frequency of Payment)

THE FIRST SCHEDULE

PORTS, VESSELS CHARGEABLE, RATE OF PORT-DUES AND FREQUENCY OF PAYMENT.

(See sections 1 and 33)

PART I—BENGAL

Name of port	Vessels chargeable	Rate of port dues	Due how often chargeable in respect of same vessel
1	2	3	4
Calcutta	Sea going vessels of twenty tons and upwards	Not exceeding four annas per ton provided that, in the case of *dhonis* and country vessels employed in the coasting trade, the rate shall be one half the rate chargeable in respect of other vessels	Whenever the vessel enters the port, except in the case of *dhonis* and country vessels employed in the coasting trade, which shall not be chargeable with port-dues at the same port more than once in sixty days
	Tug steamers and river steamers	Not exceeding four annas per ton	Once between the 1st January and the 30th June, and once between the 1st July and the 31st December, in each year

Explanations to Part II of the First Schedule

Explanation 1—In this Part of the Schedule—

(*a*) ship means a sailing vessel and steamer a steam vessel

(*b*) coasting ship or coasting steamer means respectively a ship or steamer which at any port discharges cargo exclusively from, or takes in cargo exclusively for any port in the island of Ceylon or in any part of India between the westernmost part of Sind and the south easternmost part of Burma; and coasting steamer includes a coasting steam vessel having a general pass under section 164 of the Sea Customs Act 1878 VIII of 1878.

(*c*) foreign ship or foreign steamer means respectively a ship or steamer not being a coasting ship or coasting steamer

Explanation 2—As regards the levy of port dues each of the following pairs of ports namely Cocanada and Coringa Nagore and Negapatam Beypore and Calicut is to be treated as if it were only one port every vessel in respect of which such dues have been charged and taken at one of any of the said pairs being exempted from the dues on entering the other of the same pair immediately after leaving the one in which the dues were charged and taken.

S HARVEY JAMES,
Secy to the Govt of India

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Further Report of the Select Committee on the Bill to consolidate and amend the law relating to Courts in Lower Burma was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 22nd March 1889 —

WE, the undersigned, Members of the Select Committee to which the Bill to consolidate and amend the law relating to Courts in Lower Burma was recommitted, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our further Report, with the Bill as settled by us annexed hereto

From Sherlock Hare Esq dated the 8th March 1889
From E Garnet Man, Esq, dated the 8th March, 1889, and enclosures
From the Rangoon Trades Association dated the 8th March, 1889
From the Officiating Secretary to the Chief Commissioner of Burma, No 251—32 C dated the 12th March 1889, and enclosures

2 *Section 20* —We have, at the request of the Chief Commissioner, empowered him to confer appellate jurisdiction on Extra Assistant Commissioners as well as on Assistant Commissioners

3 *Section 40* —We have, on the recommendation of the Chief Commissioner, the Recorder and the Rangoon Bar, Chamber of Commerce and Trades Association, provided that appeals from original decrees of the Recorder in suits of smaller value than ten thousand rupees shall lie to the Calcutta High Court We consider that appeals from original decrees of the Recorder in suits of higher value should continue to lie to Her Majesty in Council

4 *Sections 50-53* —We have, on the advice of the Chief Commissioner, so revised these sections as to exclude Akyab and Bassein from their operation

5 The Bill was published in the Gazette of India of the 23rd ultimo and in the Burma Gazette of the 9th instant

6 The Bill has not, in our opinion, been so altered as to require republication, and we recommend that it be passed as amended by us

ANDREW R SCOBLE
PHIL P HUTCHINS.

The Lower Burma Courts Bill

(Chapter I—Preliminary Sections 1-3 Chapter II—Law to be administered—Section 4)

No. III.

A Bill to consolidate and amend the law relating to the Courts and declare the effect of certain enactments, in Lower Burma

WHEREAS it is expedient to consolidate and amend the law relating to the Courts, and to declare the effect of certain enactments, in Lower Burma, and whereas the Secretary of State for India in Council has sanctioned and approved the passing of this Act, It is hereby enacted as follows —

CHAPTER I

PRELIMINARY

Title, extent and commencement

1 (1) This Act may be called the Lower Burma Courts Act 1889

(2) Save in so far as it applies expressly or by necessary implication to other parts of British India (inclusive of Upper Burma and the Shan States), and save also as provided by the Arakan Hills Civil Justice Regulation, 1874, the Arakan Hill District Laws Regulation 1874, and the Arakan Hills Civil Justice Amendment Regulation 1876 or by or under any other enactment heretofore or hereafter passed, this Act extends to the territories for the time being comprised in Lower Burma, and

VIII of 1874
X of 1874
I of 1876

(3) It shall come into force at once

Repeal

2 (1) The enactments specified in the first schedule are repealed to the extent mentioned in the third column thereof

(2) Any enactment or document referring to any of the enactments hereby repealed, or to any enactment repealed by any of those enactments, or to any enactment repealed by the Burma Courts Act, 1872 shall so far as may be, be construed as referring to this Act or to the corresponding portion thereof, and

VII of 1872

(3) All rules, orders and appointments made, limits fixed, directions given, powers and jurisdiction conferred, lists tables and notifications published and seals, forms, registers, books, accounts statements and returns prescribed, under any of the said enactments shall, so far as may be be deemed to have been respectively made, fixed, given, conferred, published and prescribed under this Act.

Act XVII, 1875, ss 2 and 95, and Act X 1884, s 6]

(4) No trial had decree made, order passed or proceeding taken by any Court before the day on which this Act comes into force shall if not invalid before that day, become invalid by reason of any repeal effected by this Act

Definitions

3. In this Act, unless there is something repugnant in the subject or context,—

(1) "Lower Burma" means the territories for the time being comprised in Lower Burma under section 2 sub sections (1) and (2) of the Upper Burma Laws Act, 1886 [New]

XX of 1886.

(2) "Shan States" means the territories for the time being notified under sub section (3) of section 8 of the Upper Burma Laws Act, 1886, as Shan States for the purposes of that section and sections 6 and 7 of that Act [Act XV 1888, s 2]

(3) "Upper Burma" means the whole of Burma except Lower Burma and the Shan States [New]

(4) "High Court" means the High Court of Judicature at Fort William in Bengal [Act XVII, 1875 s 3]

(5) "Judicial Commissioner" means the Judicial Commissioner of Lower Burma [Act XVII, 1875 s 3]

(6) "Recorder" means the Recorder of Rangoon and [New]

(7) "Special Court" means the Special Court constituted under this Act [New]

CHAPTER II

LAW TO BE ADMINISTERED

Law to be administered by Courts under this Act

4. (1) Where, in any suit or other proceeding, it is necessary for any Court under this Act to decide any question regarding succession, inheritance, marriage or caste, or any religious usage or institution — [Act XVII, 1875 ss 4 and 5]

the Buddhist law in cases where the parties are Buddhists,

the Muhammadan law in cases where the parties are Muhammadans, and

the Hindu law in cases where the parties are Hindus,

shall form the rule of decision, except in so far as such law has, by legislative enactment, been altered or abolished or is opposed to any custom having the force of law in Lower Burma

(2) Subject to the provisions of sub section (1) and of any other enactment for the time being in force, all questions arising in suits before the Recorder shall be dealt with and determined according to the law for the time being administered by the High Court in the exercise of its ordinary original civil jurisdiction

(3) In cases not provided for by sub section (1) or sub section (2) or by any such other enactment as aforesaid the Court shall act according to justice, equity and good conscience.

The Lower Burma Courts Bill

(Chapter III—The Court of the Judicial Commissioner and the Courts subordinate thereto—Sections 5-10)

CHAPTER III

THE COURT OF THE JUDICIAL COMMISSIONER AND THE COURTS SUBORDINATE THERETO

Grades, Location and Control of Civil Courts

[Act XVII, 1875, s 6 and Act X, 1884 s 3]

Grades of Civil Courts

5 Besides the Courts of Small Causes, the Court of the Recorder and the Special Court there shall be six grades of Civil Courts in Lower Burma, namely —

(*a*) the Court of the Myo ôk,

(*b*) the Courts of the Extra Assistant Commissioner and the Assistant Commissioner,

(*c*) the Court of the Deputy Commissioner,

(*d*) the Court of the Judge of the Town of Maulmain,

(*e*) the Court of the Commissioner, and

(*f*) the Court of the Judicial Commissioner

[Act XVII 1875 s 7]

Confirmation of existing Civil Courts

6 All existing Courts of the grades specified in the last foregoing section shall be deemed to have been established under this Act

[Act XVII, 1875, ss 8 and 9 and Act X 1884 s 4 and 5]

Number and local jurisdiction of Civil Courts

7 The Local Government may, of its own authority, vary the number of Courts of the grade specified in clause (*a*) or (*b*) of section 5, and the local limits of the jurisdiction of any such Court, and with the previous sanction of the Governor General in Council, the number of Courts of the grade specified in clause (*c*) or (*e*) and the local limits of the jurisdiction of any such Court or of the Court of the Judge of the Town of Maulmain

[Act XVII, 1875, s 10.]

Place of sitting and seal of Civil Courts

8 Every Court of a grade specified in section 5 shall—

(*a*) be held at such place or places as the Local Government directs or, in the absence of any such direction, at any place within the local limits of the Court's jurisdiction which the presiding officer thinks fit, and

(*b*) use a seal of such form and dimensions as the Local Government prescribes

[Act XVII 1875, s 11 and Act XVI 1885, s. 14.]

Superintendence and control over Civil Courts

9 (*1*) The general superintendence and control over all Courts of the grades specified in clauses (*a*) (*b*), (*c*), (*d*) and (*e*) of section 5 shall be vested in, and all such Courts shall be subordinate to, the Court of the Judicial Commissioner

(*2*) Subject to such general superintendence and control of the Court of the Judicial Commissioner, the control over all the Courts in a division which are of the grades specified in clauses (*a*), (*o*) and (*c*) of section 5 shall be vested in, and all such Courts shall be subordinate to, the Court of the Commissioner

(*3*) Subject as aforesaid and to the control of the Court of the Commissioner the control over all the Courts in a district which are of the grades specified in clauses (*a*) and (*b*) of section 5 shall be vested in, and all such Courts shall be subordinate to, the Court of the Deputy Commissioner

Ordinary Civil Jurisdiction

[Act XVII 1875, s 12 and Act X, 1884 s 3] XIV of 1882 IX of 1887

Jurisdiction of the several grades of Civil Courts

10 Subject to the provisions of this Act and of the Code of Civil Procedure, the Provincial Small Cause Courts Act, 1887, and any other enactment for the time being in force, the Courts mentioned in the first column of the following table shall have such civil jurisdiction, respectively, as is specified in the second column thereof —

Grade and name of Court	Extent of jurisdiction
1	2
(*a*) The Court of the Myo ôk	Powers of a Civil Court for the adjudication of any suit of value not exceeding five hundred rupees
(*b*) The Court of the Extra Assistant Commissioner and the Court of the Assistant Commissioner	Powers of a Civil Court for the adjudication of any suit of value not exceeding three thousand rupees
(*c*) The Court of the Deputy Commissioner	Powers of a Civil Court for the adjudication of any suit without restriction as regards the value. Powers of a District Judge Power to hear appeals from original decrees and orders of Courts of Myo-ôks, Extra Assistant Commissioners and Assistant Commissioners
(*d*) The Court of the Judge of the Town of Maulmain	Powers of a Civil Court for the adjudication of any suit without restriction as regards the value Powers of a District Judge Powers of a Provincial Court of Small Causes for the adjudication of any suit cognizable by such a Court and of value not exceeding one thousand rupees.

The Lower Burma Courts Bill

(*Chapter III—The Court of the Judicial Commissioner and the Courts subordinate thereto—Sections 11 16*)

Grade and name of Court	Extent of jurisdiction
1	2
[Act XVI, 1885 s 5.] (*e*) The Court of the Commissioner	As regards the Courts subordinate to the Court of the Commissioner the same powers of withdrawal trial and transfer as are conferred by section 25 of the Code of Civil Procedure on a District Court Power to hear appeals from original decrees and orders of Courts of Deputy Commissioners
(*f*) The Court of the Judicial Commissioner	Powers of a High Court in relation to all Civil Courts in Lower Burma except the Special Court the Court of the Recorder and the Court of Small Causes of Rangoon Power to hear appeals from original decrees and orders of Courts of Commissioners

Special Civil Jurisdiction

[Act XVII 1875 s 13, and Act X, 1884, s 3]

11 The Local Government may, by notification in the Burma Gazette, invest any Extra Assistant Commissioner or Assistant Commissioner with powers for the adjudication of suits of value not exceeding five thousand rupees

Enhancement of original jurisdiction of certain Civil Courts

[Act XVII 1875 s 14]

12 The Local Government may, by a like notification, confer, within such local limits as it thinks fit, upon any Myo ôk, Extra Assistant Commissioner or Assistant Commissioner the jurisdiction of a Judge of a Court of Small Causes under the Provincial Small Cause Courts Act, 1887, for the trial of suits cognizable by such Courts, up to such value not exceeding one hundred rupees in the case of a Myo ôk, or five hundred rupees in the case of an Extra Assistant Commissioner or Assistant Commissioner, as it thinks fit, and may withdraw any jurisdiction so conferred

Power to invest certain Courts with Small Cause Court jurisdiction

IX of 1887

[Act XVII, 1875, s 16.]

13 The Local Government may, by a like notification, empower the presiding officer of any Court of a grade specified in clause (*a*), (*b*), (*c*) or (*e*) of section 5 to exercise within the local limits of the jurisdiction of any other Court of the same grade all or any of the powers which might be exercised by the presiding officer of the other Court

Exercise by one Civil Court of jurisdiction within local jurisdiction of another such Court

[Act XVII, 1875, s 17]

14 (*1*) The Local Government may, by a like notification, confer upon the officer in chief executive charge of any district the powers which might be exercised within the district by the Court of a Deputy Commissioner

Power to confer powers of Court of Deputy Commissioner on certain district officers

[New Ct Act XVIII 1884, s 42]

(*2*) Where such powers are so conferred upon such an officer, the officer shall, for purposes connected with the exercise thereof, be deemed to be a Deputy Commissioner and his Court the Court of a Deputy Commissioner

Civil Procedure

[Act XVI, 1875, s 19]

15 (*1*) The presiding officer of a Court of a grade specified in clause (*a*) (*b*), (*c*), (*d*) or (*e*) of section 5 shall not, without the consent of the parties or authority from the Court to which he is immediately subordinate, adjudicate upon any suit or other proceeding to which he is a party or in which he is personally interested, or upon any appeal against a decree or order passed by himself

Procedure where the presiding officer of a Court is personally interested in a case

(*2*) When any such proceeding or appeal comes before the presiding officer of any such Court, he shall, unless the parties consent to his proceeding therewith himself, transmit the record to the Court to which he is immediately subordinate, with a report of the circumstances attending the reference

(*3*) The Court to which the record is so transmitted shall thereupon either authorise such presiding officer to proceed with the case or itself dispose thereof under section 25 of the Code of Civil Procedure

XIV of 1882

(*4*) In either of the following cases, namely —

(*a*) if an appeal is preferred to the Judicial Commissioner from a decree or order which was passed by him in any other capacity or in which he is personally interested,

(*b*) if an application is made to him for the revision of such a decree or order,

he shall, unless the parties consent to his proceeding with the case himself, transmit the record to the Local Government with a report of the circumstances attending the reference, and thereupon that Government may transfer the case for trial to the Court of the Recorder

XIV of 1882 [Act XVII, 1875, s 20, and Act XVIII, 1884, s 35]

16 Notwithstanding anything in the Code of Civil Procedure, a Deputy Commissioner may, by written order, direct that any business cognizable under this Act by his Court and the Courts under his control shall be distributed among those Courts in such manner as he thinks fit

Power of Deputy Commissioner to distribute business

The Lower Burma Courts Bill

(Chapter III—The Court of the Judicial Commissioner and the Courts subordinate thereto—Sections 17-24)

Provided that no direction issued under this section shall empower any Court to exercise any powers or deal with any business beyond the limits of its proper jurisdiction

Act XVII 1875 s 20] Language of plaints and of r cord of evid ence in Civil Courts

17 Notwithstanding anything in the same Code, plaints m ıy be writ ten and evidence may be taken down in such language or languages as the Local Government directs in this behalf

Civil Appeals and References

Act XVII 875, s 22 nd Act XVI 885 s 18] Time for appeal to Commissioner

18 (*1*) The period of limitation for an appeal to the Court of the Com missioner shall be forty two days

(*2*) In the computation of that period and in all other respects the limitation of the appeal shall be governed by the provisions of the Indian V of 1877 Limitation Act, 1877

Act XVII 875 s 23 id Act X, 884 s 7] Transfer of civil appellate jurisdiction to Commissioner and Judi cial Commissioner

19 (*1*) The Local Government may, by order notified in the Burma Gazette, direct that the civil appellate jurisdiction of the Court of any Com missioner or Deputy Com missioner shall be transferred to the Court of the Judicial Commissioner or Commissioner, re spectively, either wholly or in respect of a parti cular suit or class of suits, and either for a specified time or until further orders

Act XIV 885 s. 2 (*4*)] (*2*) The Local Government may, by order noti fied as aforesaid, cancel any order made under sub section (*1*), but not so as to affect any proceedings pending at the date of the cancelling order

Act X 1884, 8, and Act VIII 1884, 42.] Conferment of appel late powers on Assistant and Extra Assistant Commissioners

20 (*1*) The Local Government may, by notification in the Burma Gazette, confer upon any Assistant Commissioner power to hear appeals from original decrees and orders of any Myo ôk, Extra Assistant Commissioner or Assistant Commissioner, and upon any Extra Assistant Commissioner power to hear appeals from origi nal decrees and orders of any Myo ôk or Extra Assistant Commissioner, and may withdraw such power

(*2*) An Assistant Commissioner or Extra As sistant Commissioner upon whom power to hear appeals has been conferred under sub section (*1*) shall, for purposes connected with the exercise thereof, be deemed to be a Deputy Commis sioner

Act XVII, 875, ss 25 & 26] Reference to Judicial Commissioner during progress of an appeal

21 (*1*) When in the trial of any civil appeal an Appellate Court subor dinate to the Court of the Judicial Commissioner en tertains a doubt in regard to a question of law or of custom having the force of law or as to the construction of any document or the admis sibility of any evidence affecting the merits of the case, such Court may draw up a statement of the question in regard to which it entertains the doubt, and refer it, with the Court's own opinion on the question, for the decision of the Judicial Commissioner

(*2*) The Judicial Commissioner shall, after considering the question so referred send a ruling thereon to the Court by which the reference was made, and that Court shall, on the receipt of the ruling, proceed to dispose of the case in conformity therewith

(*3*) The costs, if any, consequent on any such reference to the Judicial Commissioner shall be costs in the appeal out of which the reference arose

[Act XVII, 1875, s 27] Admission of second appeals by Judicial Commissioner

22 If in any case the appellate decree or order of the Court of a Deputy Commissioner or Commis sioner reverses or modifies an original decree or order, the Judicial Commis sioner may receive a second appeal, if, on a per usal of the grounds of appeal and of copies of the judgments of the subordinate Courts, a further consideration of the case appears to him to be requisite for the ends of justice

[Act XVII, 1875 s 28.] Finality of concurrent decisi ns of original and first appellate Courts on matters of fact

23 If the appellate decree or order of the Court of a Deputy Commis sioner or Commissioner confirms an original decree or order on a matter of fact, the appellate decree or order shall be final

[Act XVII 1875, s 29.] Reference or appeal to Judicial Commis sioner with respect to concurrent decisi ns of original and first appel late Courts on questions of law

24 (*1*) If in any case the appellate decree or order of the Court of a Deputy Commissioner or Commissioner confirms an original decree or order on a question of law or of custom having the force of law or as to the con struction of any document or the admissibility of any evidence affecting the merits of the case, any party considering himself aggrieved by such appellate decree or order may apply to the Court of the Deputy Commissioner or Commissioner, as the case may be, either to draw up a statement of the question and submit the statement to the Judicial Commissioner, or to allow him to appeal on the question to the Judicial Commis sioner

(*2*) Such application shall not be admitted unless it is made within the period prescribed for an appeal to the Court of the Deputy Com missioner or Commissioner, as the case may be

(*3*) If the Court on an application for the drawing up of a statement, considers that there is a question of law or of custom having the force of law or as to the construction of any document or the admissibility of any evidence affecting the merits of the case, it shall draw up a statement of the question and of such facts only of the case as are necessary to explain it, and shall submit

The Lower Burma Courts Bill

(*Chapter III—The Court of the Judicial Commissioner and the Courts subordinate thereto—Sections 25 29*)

the statement, together with the record of the case, to the Judicial Commissioner

(*4*) If the Court refuses to draw up such statement, it shall record in writing its reasons for so refusing, and a certified copy of the reasons shall, on application to the Court, be furnished to any party to the case

(*5*) In the case of an application to be allowed to appeal to the Judicial Commissioner, the period during which the application was pending in the Court of the Deputy Commissioner or Commissioner shall, if the appeal is allowed, be excluded in the computation of the period of limitation for an appeal to the Judicial Commissioner

Act XVII 1875, s 30]

Disposal of references under last foregoing section

25. (*1*) When a case has been referred with a statement under the last foregoing section, the Judicial Commissioner shall, on payment in respect of the statement of the fee which would be payable in the case in respect of a memorandum of appeal to his Court, proceed to try the case as if it were an appeal instituted in his Court, and shall send a copy of his judgment and of his decree or order in the case to the Court by which the statement was submitted

[Act XVII 1875, s 34]

(*2*) If the statement appears to the Judicial Commissioner to be unduly limited, he may amend it as he thinks fit

(*3*) Notwithstanding anything in sub section (*1*), it shall not be necessary for any party to the case referred to be present either personally or otherwise at the trial thereof by the Judicial Commissioner

[Act XVII, 1875, s 34]

Power to call for record where reference or appeal to Judicial Commissioner has been wrongly refused

26 (*1*) In any case in which the Court of a Deputy Commissioner or Commissioner has, in the opinion of the Judicial Commissioner, wrongly refused to submit a statement or allow an appeal under section 24, the Judicial Commissioner may call for the record of the case, and may, on receipt of the record and on payment of the fee which would be payable in the case in respect of a memorandum of appeal to his Court, proceed to try the case as if it were an appeal instituted in his Court

(*2*) Where the Judicial Commissioner so tries the case, he shall send a copy of his judgment and of his decree or order therein to the Court of the Deputy Commissioner or Commissioner, as the case may be

Act XVII, 1875, s 31]

Reference of questions of law by Judicial Commissioner to High Court.

27. (*1*) If any question of law or of custom having the force of law or as to the construction of any document or the admissibility of any evidence arises in a case before the Court of the Judicial Commissioner under this Act, and the Judicial Commissioner, by reason of such question arising, entertains any doubt as to the decision to be passed in the case, he may, if he thinks fit, draw up a statement of the question and submit it to the High Court with the record of the case and his own opinion on the question

(*2*) On receiving the statement the High Court, by a bench constituted by two or more Judges, shall decide the question referred therein and transmit to the Judicial Commissioner a copy of its judgment under the signature of its Registrar, and the Judicial Commissioner shall, on receipt of the copy, proceed to dispose of the case in conformity with the decision of the High Court

(*3*) It shall not be necessary for any party to the case to be present in the High Court, either personally or otherwise, when the question referred comes before that Court for decision.

(*4*) Where the Judicial Commissioner makes a reference to the High Court under this section, he may make such a contingent decree or order, and such a decree or order shall be of such effect, as is mentioned in section 618 of the Code of Civil Procedure

XIV of 1882.

(*5*) The costs, if any, consequent on a reference to the High Court under this section shall be costs in the case

[Act XVII 1875, s 32]

Criminal Jurisdiction

[Act XVII, 1875 s 35 and Act X, 1882 s 4 (*t*)]

Judicial Commissioner as High Court

28 Except in reference to proceedings against European British subjects or persons jointly charged with European British subjects, the Court of the Judicial Commissioner shall be the highest Court of criminal appeal or revision for the whole of Lower Burma beyond the limits of the ordinary civil jurisdiction of the Recorder

[Act XVII, 1875 s 35] X of 1882

Divisional Commissioners as Courts of Session

29 (*1*) Subject to the provisions of sections 7 and 9 of the Code of Criminal Procedure, 1882, with respect to the alteration of the limits of sessions divisions and the appointment of Additional Sessions Judges to exercise jurisdiction in Courts of Session, each division for the time being administered by a Commissioner shall be a sessions division, the Court of the Commissioner shall be the Court of Session for the sessions division, and the Commissioner shall be the Judge of the Court of Session

(*2*) For the purposes of sub section (*1*) the areas for the time being comprised within the local limits of the ordinary civil jurisdiction of the Recorder and the civil jurisdiction of the Court of the Judge of the Town of Maulmain shall

The Lower Burma Courts Bill

(Chapter III—The Court of the Judicial Commissioner and the Courts subordinate thereto—Sections 30-36 Chapter IV—The Court of the Recorder—Section 37)

be deemed not to be included in the divisions in which they are respectively situate

[Act XVII 1875, s 35]

Court of Session for Town of Maulmain

30 The area for the time being comprised within the local limits of the civil jurisdiction of the Court of the Judge of the Town of Maulmain shall be a sessions division, that Court shall be the Court of Session for the sessions division, and the Judge of that Court shall be the Judge of the Court of Session

[Act XVII 1875 s 36]

Power to transfer criminal jurisdiction of Commissioner to Judicial Commissioner

31 (*1*) The Local Government may, by order notified in the Burma Gazette, direct that the criminal jurisdiction of any Commissioner shall be transferred to the Judicial Commissioner either wholly or in respect of a particular case or class of cases, and either for a specified time or until further orders

[Cf Act XIV, 1885 s 2]

(*2*) The Local Government may, by order notified as aforesaid, cancel any order made under sub section (*1*), but not so as to affect any proceeding pending at the date of the cancelling order

Provisions with respect to transferred Jurisdiction

[Act XVII 1875, s 37]

Application of Acts VII of 1870 and XV of 1877 to certain transferred proceedings

32 When any civil or criminal appellate jurisdiction has been transferred under section 19 or section 31—

(*a*) fees shall be payable under the Court fees Act, 1870, and any rules there under, at the rates at which they would be payable in the Court from which the jurisdiction was transferred, and

VII of 1870.

(*b*) all appeals and applications presented to a Court in the exercise of the jurisdiction so transferred shall, for the purposes of the law relating to limitation, be deemed to have been presented to the Court in the exercise of its ordinary jurisdiction

Appointment and Removal of Officers

Act X, 1884, s 9]

Appointment of Civil Judges

33 (*1*) The Judicial Commissioner shall be appointed by the Governor General in Council

(*2*) The presiding officers of Courts of the grades specified in clauses (*a*) (*b*), (*c*), (*d*) and (*e*) of section 5 may be appointed by the Local Government

Act X, 1884, s 10.]

Suspension and removal of Civil Judges

34 (*1*) The presiding officer of a Court of a grade specified in any clause of section 5 may be suspended or removed by the Governor General in Council

(*2*) The presiding officer of any such Court, except the Court of the Judicial Commissioner, may be suspended or removed by the Local Government

[Act XVII 1875, s 40]

Appointment of ministerial officers of Civil Courts

35 (*1*) The ministerial officers of Courts of the grades specified in clauses (*a*) and (*b*) of section 5 shall be appointed by the Deputy Commissioner to whose Court those Courts are subordinate

(*2*) The ministerial officers of Courts of other grades specified in section 5 shall be appointed by the presiding officers of those Courts

(*3*) The foregoing sub sections are subject to the proviso that the appointment of a ministerial officer to an office in a Court of a grade specified in clause (*a*), (*b*) (*c*), (*d*) or (*e*) of section 5 shall, if the monthly salary attached to the office exceeds fifty rupees, be subject to the sanction of the Judicial Commissioner

[Act XVII, 1875 s 41]

Power to fine or remove such officers

36 (*1*) A Court of a grade specified in clause (*a*) or (*b*) of section 5 may fine in an amount not exceeding one month's salary any of its ministerial officers who is guilty of misconduct or neglect in the performance of the duties of his office

(*2*) The Deputy Commissioner may on appeal or otherwise remit or reduce any fine imposed under sub section (*1*), and may himself dismiss or suspend, or fine up to the amount of one month's salary, any ministerial officer of his own Court or of any Court subordinate to his Court

(*3*) A Court of a grade specified in clause (*d*) (*e*) or (*f*) of section 5 may dismiss or suspend any of its ministerial officers or fine any such officer in an amount not exceeding one month's salary

---

CHAPTER IV

THE COURT OF THE RECORDER

The Recorder

[Act XVII, 1875, s 45.]

Court of Recorder of Rangoon

37 (*1*) There shall continue to be a Court to be called the Court of the Recorder of Rangoon

(*2*) The Recorder shall be appointed by the Governor General in Council, and shall be a barrister of not less than five years' standing, and shall hold his office during the pleasure of the Governor General in Council

The Lower Burma Courts Bill

(*Chapter IV—The Court of the Recorder—Sections 38-42*)

(3) He shall ordinarily hold his Court at Rangoon, but the Local Government may direct him on any particular occasion to hold his Court at any other place in Lower Burma for the trial of any civil case transferred to him, or at any other place in Lower Burma or Upper Burma for the trial of any criminal case in which a European British subject is concerned

(4) A direction given by the Local Government under sub section (3) with respect to any criminal case shall take effect notwithstanding anything in section 336 of the Code of Criminal Procedure, 1882 — of 1882.

(5) The Recorder shall use a seal of such form and dimensions as the Local Government prescribes

Civil Jurisdiction

Act XVII 875 s 47] Variation of local limits of ordinary civil jurisdiction of Recorder

38 The Local Government may, with the previous sanction of the Governor General in Council, vary the local limits of the ordinary civil jurisdiction of the Recorder

Act XVII 875 ss 48 nd 51] X of 1887 Civil jurisdiction of Recorder

39 (1) Subject to the provisions of this Act and of the Provincial Small Cause Courts Act, 1887, and any other enactment for the time being in force, the Recorder shall have the powers of a District Judge within the local limits of his ordinary civil jurisdiction, and may adjudicate upon any suit, without restriction as regards the value, if, in the case of immoveable property, the subject matter of the suit or any part thereof is situate, or if, in any other case, the cause of action or a material part thereof has arisen, or the defendant at the time of the commencement of the suit dwells, or either personally or by his servant or agent carries on business or works for gain, within those limits

(2) A corporation or company having an office within those limits shall, when the cause of action, or a material part thereof, has arisen in Burma, or in any foreign territory adjacent thereto, be deemed, for the purpose of this section, to carry on business at such office

[Act XVII, 1875, s 49.] Appeal from original decrees and orders of Recorder

40 Save as otherwise provided by any enactment for the time being in force, an appeal shall lie to the High Court from an original decree or order passed by the Recorder in any suit or other civil proceeding of which the amount or value of the subject-matter is less than ten thousand rupees

[Act XVII, 1875 s 53] New trial and review by Recorder

41 (1) The Recorder may, if he thinks fit, grant a new trial in any suit or other civil proceeding disposed of by him, if, in a suit relating to immoveable property, the new trial is applied for within ninety days from the date of the decree, and if, in any other case, it is applied for within thirty days from the date of the decree or order

Provided that nothing in this section shall interfere with the power of the Recorder to allow a review of judgment under the Code of Civil Procedure, if such review is applied for within the period allowed for making the application XIV of 1882.

Provided also that the Recorder may, if he thinks fit, before granting a new trial or a review, require the party applying therefor to give sufficient security for due compliance with the terms of the decree or order to which the application relates, or for payment of the costs of the new trial or review, or for both purposes

[New Cl Act IX, 1887, s 17] (2) Where a person has become liable as surety under the second proviso to sub section (1), the security may be realised in manner provided by section 253 of the Code of Civil Procedure

[Act XVII, 1875, ss 54, 55, 56 and 57] Reference of cases by Recorder to High Court and procedure thereon

42 (1) If in any case before the Recorder any question of law or of custom having the force of law or as to the construction of any document or the admissibility of any evidence affecting the merits of the case arises on which the Recorder entertains any doubt, he may, if he thinks fit, draw up a statement of the question and submit it to the High Court with the record of the case and his own opinion on the question

(2) On receiving the statement the High Court, by a bench constituted by two or more Judges, shall decide the question referred therein and transmit to the Recorder a copy of its judgment under the signature of its Registrar, and the Recorder shall, on receipt of the copy, proceed to dispose of the case in conformity with the decision of the High Court

(3) It shall not be necessary for any party to the case to be present in the High Court, either personally or otherwise, when the question referred comes before that Court for decision

(4) Where the Recorder makes a reference to the High Court under this section, he may make such a contingent decree or order, and such a decree or order shall be of such effect, as is mentioned in section 618 of the Code of Civil Procedure XIV of 1882.

(5) The costs, if any, consequent on a reference to the High Court under this section shall be costs in the case

The Lower Burma Courts Bill

(*Chapter IV—The Court of the Recorder—Sections 43-49*)

[Act XVII, 1875, s 59.]

Procedure where Recorder is personally interested in a case

43 (*1*) When any suit or other civil proceeding comes before the Recorder to which he is a party or in which he is personally interested, he shall, unless the parties consent to his proceeding therewith himself, transmit the record to the Local Government with a report of the circumstances attending the reference, and thereupon that Government may transfer the case for trial to the Court of the Judicial Commissioner

Cf Act XIV, 1885, s 4.]

(*2*) In the disposal of a case so transferred the Judicial Commissioner shall administer the same law, follow the same procedure, exercise the same powers and use the same seal as would be administered, followed, exercised and used by the Recorder in a like case, and the decree or order made in the case by the Judicial Commissioner shall, for the purposes of the law relating to appeal, be deemed to be made by the Recorder

Act XVII, 1875, s 52.]

Recorder as High Court for certain purposes

44 The Court of the Recorder shall—

(*a*) for the purposes of the Suits Valuation Act, 1887, and VII of 1887

(*b*) in respect of the Court of Small Causes of Rangoon,

be deemed to be a High Court

Criminal Jurisdiction

Act XVII, 1875, s 60.]

Recorder as Court of Session for Rangoon

45. The area for the time being comprised within the local limits of the ordinary civil jurisdiction of the Recorder shall be a sessions division, the Court of the Recorder shall be the Court of Session for the sessions division, and the Recorder shall be the Judge of the Court of Session

Act XVII, 1875, ss 62, 63 and 64 Act XI, 1880, s 6; and Act X, 1882, s 4 (*b*)]

Recorder as High Court for Burma in reference to proceedings against European British subjects

46 (*1*) The Recorder shall be the High Court for the whole of Burma (inclusive of Upper Burma and the Shan States) in reference to proceedings against European British subjects and persons jointly charged with European British subjects

(*2*) When the Recorder, as the High Court for Burma under sub section (*1*), in reference to such proceedings, passes sentence of death, the proceedings shall be submitted to the High Court of Judicature at Fort William in Bengal, and the sentence shall not be executed unless it is confirmed by that High Court

(*3*) When proceedings are submitted to the High Court under sub section (*2*), that Court shall, as a High Court, deal therewith, under the provisions, *mutatis mutandis*, of Chapter XXVII of the Code of Criminal Procedure, 1882, as if they had been submitted by a Court of Session and the Recorder were the Sessions Judge X of 1882

(*4*) If in any case before the Recorder as a High Court under this section any such question arises as is referred to in section 42, and the Government Advocate certifies that in his opinion there is an error in the decision of the question, the Recorder shall make a reference to the High Court in the manner required by that section, and shall, on receipt of the copy of the judgment of the High Court, review the case or such part of it as may be necessary, and may thereupon reduce or remit any sentence which he has passed [Letters Patent of High Court of Judicature at Fort William s 26, and Act X, 1882, s 434]

Effect of the last foregoing section with respect to Shan States

47 So far as the last foregoing section relates to the Shan States, it shall come into force therein at once notwithstanding anything in section 8 sub section (*2*), of the Upper Burma Laws Act, 1886, or in section 3, sub section (*1*), of the Shan States Act, 1888 XX of 1886 XV of 1888

Recorder as High Court for certain purposes

48 The Court of the Recorder shall— [Act XVII, 1875, ss 60 and 61]

(*a*) for the purposes of section 527 of the Code of Criminal Procedure, 1882, and X of 1882

(*b*) in respect of the Magistrates within the local limits of its ordinary civil jurisdiction and the proceedings of such Magistrates,

be deemed to be a High Court

Admiralty Jurisdiction

[Act XVII, 1875, s 65.]

Admiralty jurisdiction of Recorder

49 (*1*) Throughout Lower Burma, including the territorial waters thereof, the Recorder shall have and exercise all such civil jurisdiction and maritime jurisdiction of a civil nature as may now be exercised by the High Court as a Court of Admiralty or of Vice admiralty, and also such jurisdiction for the trial and adjudication of prize causes and other maritime questions as may now be exercised by the said High Court

(*2*) The procedure in cases brought before the Recorder in the exercise of such jurisdiction shall be regulated, as far as may be, by the Code of Civil Procedure, and, in cases to which the rules contained in that Code are not applicable, the procedure shall be in accordance with the rules for the time being applicable to like cases in the High Court XIV of 1882.

(*3*) An appeal shall lie to the High Court from any sentence or decree of the Recorder under this section, subject to the laws, rules and orders for the time being in force regard-

The Lower Burma Courts Bill

(Chapter IV—The Court of the Recorder—Sections 50-54)

ing appeals to the High Court under the Code of Civil Procedure

Insolvency Jurisdiction

Insolvency jurisdiction of Recorder

50 (*1*) Within the local limits of the ordinary civil jurisdiction of the Recorder, and of the jurisdiction of the Court of the Judge of the Town of Maulmain, the Recorder shall have and exercise such powers and authorities with respect to insolvent debtors and their creditors as are for the time being exerciseable with respect to insolvent debtors and their creditors by the High Court or a Judge thereof in Calcutta

(*2*) The procedure in cases brought before the Recorder in the exercise of such jurisdiction shall be, as far as may be practicable, in accordance with the procedure prescribed by the Statute 11 and 12 Victoria, chapter 21, as amended by any enactment for the time being in force

(*3*) The Recorder shall, with the previous sanction of the Local Government, appoint a person to be official assignee in all insolvencies prosecuted in the Court of the Recorder, and the provisions of the said Statute relating to official assignees shall, *mutatis mutandis* and subject to the other provisions of this section, apply to the assignee so appointed

(*4*) Every order made by the Recorder in the exercise of the jurisdiction conferred by this section shall have the same force throughout British India as if it had been made by the High Court or a Judge thereof, and all the provisions of the said Statute relating to the persons or property of insolvents shall, *mutatis mutandis*, apply to insolvents applying for relief under this section

(*5*) Any person considering himself aggrieved by any adjudication, order or proceeding of the Recorder under this section may, within thirty days from the date thereof, present a petition to the Special Court and that Court shall enquire into the matter of the petition and make such order thereon as it thinks just, and such order shall be final and conclusive on all parties, and shall be binding on the Court of the Recorder

(*6*) The Recorder may from time to time, with the previous sanction of the Local Government, make rules consistent with this Act for facilitating within his jurisdiction the relief intended to be hereby given

(*7*) No conveyance, letter of attorney or other instrument executed under any order of the Recorder in exercise of the jurisdiction conferred by this section shall be chargeable with stamp duty

Power to vest in Judge of Town of Maulmain the insolvency jurisdiction vested in Recorder in that Town

51 (*1*) The Local Government may, by order notified in the Burma Gazette, direct that, from a date to be therein specified, the jurisdiction vested by the last foregoing section in the Recorder within the local limits of the jurisdiction of the Court of the Judge of the Town of Maulmain shall be vested in the Judge of that Town

(*2*) While any such order is in force, the last foregoing section shall, within the local limits of the jurisdiction of the Court of the Judge of the Town of Maulmain, have effect as if it referred to the Judge of that Town instead of to the Recorder, and all cases pending at the date of the order shall be disposed of accordingly

Provided that the Recorder may withdraw from the Court of the Judge and dispose of in his own Court any case, whether pending at the date of the order or subsequently instituted, which, by reason of its importance or otherwise, may, in his opinion, be more conveniently so disposed of

(*3*) The Local Government may, by order notified as aforesaid, cancel any order made under sub section (*1*), but not so as to affect any proceedings pending at the date of the cancelling order

Inapplicability of Chapter XX Act XIV 1882 to Rangoon and Maulmain

52 Nothing in Chapter XX of the Code of Civil Procedure shall apply to any Court having jurisdiction within the local limits of the ordinary civil jurisdiction of the Recorder or of the jurisdiction of the Court of the Judge of the Town of Maulmain [Act VII 1888 s 31 (*4*)] XIX of 1884.

Temporary continuance of insolvency jurisdiction of the Deputy Commissioners of Akyab and Bassein

53 The provisions of section 2 of the Burma Courts Act, 1885, shall continue to apply, as if this Act had not been passed, to any proceedings under section 66 of the Burma Courts Act, 1875, which may be pending before the Deputy Commissioner of Akyab or the Deputy Commissioner of Bassein at the commencement of this Act [New] XIV of 1884. XVII of 1885.

Registers and Returns

Books and accounts and statements and returns to be kept and furnished by Recorder

54 (*1*) The Recorder shall keep such registers, books and accounts as may be necessary for the transaction of the business of his Court, and shall submit to the Local Government such of those registers, books and accounts, and such statements of the work done in his Court, as may be required by the Local Government [Act XVII 1875 s 69 and Act XVI, 1885 s 20]

(*2*) The Recorder shall also comply, in such form and manner as the Local Government may deem proper, with such requisitions as may be made by the Local Government for records of, or papers belonging to, the Court of the Recorder or any Court respect to with which the

The Lower Burma Courts Bill

(*Chapter IV—The Court of the Recorder—Sections 55-61*)

Court of the Recorder is under section 44 or section 48 to be deemed to be a High Court, or for certified copies of, or extracts from, such records or papers, or for returns, statements or reports

Ministerial Officers

[Act XVII 1875, s 70.]

Appointment and removal of ministerial officers

55 The ministerial officers of the Court of the Recorder, including the Registrar of the Court, shall be appointed, and may be dismissed or suspended, or fined in an amount not exceeding one month's salary, by the Recorder, but the suspension or dismissal of any such officer drawing a monthly salary of one hundred rupees or upwards shall be subject to confirmation by the Local Government

[New Cf Act XIV 1882 s 637]

Discharge of non judicial functions by Registrar

XIV of 1882

56 (*1*) Any non judicial or quasi judicial act which is required by the Code of Civil Procedure to be done by a Judge, and any act which may be done by a Commissioner appointed to examine and adjust accounts under section 394 of that Code, may in the Court of the Recorder be done by the Registrar of the Court or by such other officer of the Court as the Recorder may direct

(*2*) The Recorder may from time to time, by rule made with the previous sanction of the Local Government, declare what shall be deemed to be non judicial and quasi judicial acts within the meaning of sub section (*1*)

Exceptional Provisions

[Act XVII 1875, s 46]

Discharge of functions of Recorder in case of vacancy in his office

57 Upon the occurrence of any vacancy in the office of Recorder, and during any absence of the Recorder, the Local Government may direct the Judicial Commissioner or any Commissioner to discharge the functions of the Recorder, and the Judicial Commissioner or the Commissioner so directed shall thereupon be authorized to preside in the Court of the Recorder and to exercise the jurisdiction of the Recorder until some person has been appointed by the Governor General in Council to fill, or officiate in, the office of the Recorder, and has entered upon the performance of the duties of such office, or until the Recorder resumes his duties

[Act XVII 1875 s 58]

Transfer of civil cases from other Courts in Lower Burma to Court of Recorder

58 (*1*) The Local Government may direct the transfer to the Court of the Recorder of any civil case which may be pending in the Court of the Judicial Commissioner or in any Court subordinate to the Court of the Judicial Commissioner

(*2*) Subject to the other provisions of this Act, every case so transferred shall be tried and determined by the Recorder in the same manner as if he had originally had jurisdiction in the case and it had been instituted in his Court

[Act XIV 1885 s 4]

Transfer of cases from Court of Recorder to Court of Judicial Commissioner

59 (*1*) The Local Government may transfer to the Court of the Judicial Commissioner any particular case or class of cases which may be pending in the Court of the Recorder

(*2*) In the disposal of any such case the Judicial Commissioner shall administer the same law, follow the same procedure, exercise the same powers and use the same seal as would be administered, followed, exercised and used by the Recorder in such a case

(*3*) All decrees, orders and sentences made or passed by the Judicial Commissioner in cases transferred to him under this section shall, for the purposes of the law relating to appeal, reference and revision and to the submission of sentences of death for confirmation, be deemed to be made or passed by the Recorder

[Act XI 18 s 2]

Appointment of Additional Recorder

60 (*1*) The Governor General in Council may, by notification in the Gazette of India, appoint, to be an Additional Recorder and to sit as such in the Court of the Recorder such person as he thinks fit being a barrister of not less than five years' standing or a person who has for at least three years served as a District Judge or exercised the like powers as those of a District Judge

(*2*) A person so appointed shall hold his office during the pleasure of the Governor General in Council

[Act XI, 18 s 3]

Disposal of business by Additional Recorder

61 (*1*) An Additional Recorder appointed under the last foregoing section shall sit at such of the places at which the Recorder's Court can be held as the Local Government directs, and shall dispose of such cases pending in the Recorder's Court as the Local Government or, subject to the control of that Government, the Recorder may from time to time direct, and in the disposal of such cases shall administer the same law, follow the same procedure, exercise the same powers and use the same seal as would be administered, followed, exercised and used by the Recorder in like cases

(*2*) All decrees, orders and sentences made or passed in such cases by an Additional Recorder shall, for the purposes of the law relating to appeal, reference and revision and to the submission of sentences of death for confirmation, be deemed to be made or passed by the Recorder

(*3*) The Local Government may cancel any direction under sub section (*1*) requiring the Additional Recorder to dispose of a case.

The Lower Burma Courts Bill

(*Chapter V—The Special Court—Sections 62-69*)

CHAPTER V

THE SPECIAL COURT

[Act XVII, 1875, s 72]

Constitution of Special Court.

62 (*1*) The Special Court shall ordinarily be constituted by the Judicial Commissioner and the Recorder sitting together

(*2*) But the Local Government may direct that for the hearing of any particular case or class of cases the Special Court shall be constituted by the Judicial Commissioner, the Recorder and the Judge of the Town of Maulmain sitting together, and the Local Government may cancel any such direction

(*3*) As members of the Special Court, the Judicial Commissioner and the Recorder shall have precedence over the Judge of the Town of Maulmain, and shall, as between themselves, have precedence according to priority of appointment

[Act XVIII, 1884, s 5]

(*4*) For the purposes of the last foregoing sub section, a Judicial Commissioner or Recorder substantively appointed shall be deemed to have precedence, by reason of priority of appointment, over an officiating Recorder or Judicial Commissioner, as the case may be

[Act XVII, 1875 ss 73 and 74]

Sittings, seal and officers of Special Court

63 (*1*) The Special Court shall ordinarily be held at Rangoon, but the Local Government may direct it to be held at any other place in Lower Burma

(*2*) The Special Court shall use a seal of such form and dimensions as the Local Government prescribes

(*3*) The Judicial Commissioner and the Recorder may appoint, suspend or dismiss the ministerial officers of the Special Court

Provided that the suspension or dismissal of any officer drawing a monthly salary of one hundred rupees or upwards shall be subject to confirmation by the Local Government

[Act XVII, 1875, s 75]

Appeals to Special Court from Judge of Maulmain

64 Appeals from decrees and orders passed by the Judge of the Town of Maulmain in suits and other civil proceedings shall, where such appeals are allowed by law, be heard and determined by the Special Court

[Act XVII, 1875, s 77]

Trial of cases before Special Court by order of Local Government

65 The Local Government may direct that any civil suit or appeal, or any criminal case or appeal, pending in the Court of the Judicial Commissioner or in the Court of the Recorder shall be transferred to and tried before the Special Court

[Act XVII, 1875, s 79]

Special Court as High Court in certain criminal matters

66 With reference to trials held by the Judicial Commissioner in the exercise of the original criminal jurisdiction of a Court of Session under section 31 of this Act or of a High Court under section 526 of the Code of Criminal Procedure 1882, or by the Recorder in exercise of the original jurisdiction of a Court of Session, and to sentences passed on such trials, the Special Court shall, for the purposes of the said Code, be deemed to be a High Court

X of 1882

[Act XVII, 1875, s. 76]

Sittings of Special Court at request of Judicial Commissioner or Recorder

67 If, in any civil suit or appeal or in any criminal case or appeal pending in the Court of the Judicial Commissioner or in the Court of the Recorder, the Court wishes to obtain the opinion of the Special Court on any question of fact or law or of custom having the force of law or as to the construction of any document or the admissibility of any evidence, or to obtain the assistance of the Special Court for the determination of the case pending before it, such Court shall record a memorandum to that effect, and the Special Court shall, as soon as may be convenient, sit for the disposal of the question or for the determination of the pending case

[Act XVII, 1875, s 74]

Decree of Special Court to be deemed decree of other Court in certain cases

68 Any decree, order or sentence passed by the Special Court in a case tried under section 65, or on a memorandum recorded under section 67, shall issue as, and be deemed to be, a decree, order or sentence of the Court from which the case was referred to the Special Court

[Act XVII 1875, s 80.]

Rules as to finding of Special Court in case of difference of opinion

69 (*1*) Whenever, in cases before the Judicial Commissioner and the Recorder sitting together as the Special Court, a difference of opinion arises, the following rules shall be observed —

[Act XVII, 1875 s 76, and Act X, 1884 s 11]

(*a*) In cases coming before the Special Court under section 67, the opinion of the Court which sought the opinion of the Special Court shall prevail unless the difference of opinion is on a question of law or of custom having the force of law or as to the construction of any document or the admissibility of any evidence, and both members of the Special Court concur in stating the question and forwarding such statement, with their respective opinions on the question, to the High Court

(*b*) In cases coming before the Special Court by way of appeal, and not being criminal cases or cases provided for by clause (*a*) of this sub section, if both members of the Special Court do not concur in a judgment varying the decree or order appealed from, such decree or order shall be upheld

Provided that, if the difference of opinion is on a question of law or of custom having the force of law or as to the construction of any document or the

The Lower Burma Courts Bill

(Chapter V —The Special Court —Section 70 72 Chapter VI.—Advocates —Sections 73 75)

admissibility of any evidence, and either member of the Special Court is of opinion that the question should be referred to the High Court both members shall state the question and forward such statement, with their respective opinions on the question, to the High Court

(*c*) In criminal cases and in cases not coming before the Special Court by way of appeal and not being cases provided for by clause (*a*) of this sub section, both members of the Special Court shall state the question as to which they differ, and forward such statement with their respective opinions on the question to the High Court

[Act XVII, 1875, s 72] (*2*) Whenever, in cases before the Judicial Commissioner, the Recorder and the Judge of the Town of Maulmain sitting together as the Special Court a difference of opinion arises, the decision shall be in accordance with the opinion of the majority of the members of the Court

[Act XVII, 1875 s 82] **Procedure of High Court on reference under the last foregoing section**

70 (*1*) On receiving a statement forwarded in any case under the last foregoing section, the High Court by a bench constituted by two or more Judges shall decide the question referred therein and transmit to the Special Court a copy of its judgment under the signature of its Registrar and the Judicial Commissioner and the Recorder sitting together as the Special Court shall, on receipt of the copy proceed to dispose of the case in conformity with the decision of the High Court

[Act XVII 1875, s 81] (*2*) Until the case is so disposed of it shall be deemed to be pending in the Special Court

(*3*) It shall not be necessary for any party to the case to be present in the High Court, either personally or otherwise, when the question referred comes before that Court for decision

(*4*) The costs, if any consequent on the statement of the question for the decision of the High Court shall be costs in the case

VII of 1870 [Act XVII 1875 s 83] **Special Court to be deemed a High Court for the purposes of Acts VII of 1870 and XV of 1877**

71 (*1*) For the purposes of the Court fees Act, 1870, the Special Court shall be deemed to be a High Court in the exercise of its jurisdiction as a Court of Appeal or as a Court of Reference, as the case may be

XV of 1877 (*2*) For the purposes of the Indian Limitation Act, 1877, appeals and applications to the Special Court shall be deemed to be respectively, appeals and applications to a High Court under

X of 1882 XIV of 1882 the Code of Criminal Procedure, 1882, or under the Code of Civil Procedure, as the case may be

[Cf Act XI, 1880, s 4] **Substitution of Additional Recorder for Judge of Town of Maulmain for purposes of this Chapter**

72 If at any time there is an Additional Recorder appointed under section 60, the foregoing provisions of this Chapter with respect to the Judge of the Town of Maulmain shall, while the Additional Recorder holds office, be construed as referring to the Additional Recorder and not to the Judge of the Town of Maulmain

CHAPTER VI

ADVOCATES

In the Court of the Recorder and the Courts subordinate thereto

[Act XVII, 1875, s 84] **Licensing of advocates by Recorder**

73 (*1*) Subject to the other provisions of this section no person shall be permitted to appear plead or act as an advocate in the Court of the Recorder, or in any Court with respect to which the Court of the Recorder is under section 44 or section 48 to be deemed to be a High Court, or in the Court of the Judicial Commissioner when the Judicial Commissioner is disposing of a case transferred to him under section 43 or section 59 unless such person has been licensed thereto by the Recorder, either generally or specially

(*2*) The Recorder may from time to time, with the previous sanction of the Local Government, make rules for the qualification and admission of proper persons to appear, plead or act as advocates in such Courts

In the Court of the Judicial Commissioner and the Courts subordinate thereto

[Act XVII, 1875, s 86] **Licensing of advocates by Judicial Commissioner**

74. (*1*) Subject to the other provisions of this section, no person shall be permitted to appear, plead or act as an advocate in the Court of the Judicial Commissioner, or in any Court, whether civil or criminal, subordinate thereto, or in the Court of the Recorder when the Recorder is disposing of a case transferred to his Court under section 15 or section 58, unless such person has been licensed thereto by the Judicial Commissioner, either generally or specially

(*2*) The Judicial Commissioner may from time to time, with the previous sanction of the Local Government, make rules for the qualification and admission of proper persons to appear, plead or act as advocates in such Courts

Provisos

[Act XVII, 1875, ss. 84 and 87] **Provisos to the two last foregoing sections**

75 The two last foregoing sections and any rules thereunder shall be subject to the following provisos, namely :—

(*a*) any person having general or special authority from the Local Government

The Lower Burma Courts Bill

(*Chapter VI—Advocates—Sections 76 81 Chapter VII—Supplemental Provisions—Section 82*)

may, without any license from the Recorder or the Judicial Commissioner, appear, plead or act for the Secretary of State for India in Council,

(*b*) a party may, without any such license, appear, plead or act on behalf of himself or a co party,

(*c*) a person who for the time being is an advocate vakil or attorney at law of any of the High Courts of Judicature in India may without any such license, appear, plead or act as an advocate, and

(*d*) nothing in the sections or the rules shall be deemed to affect section 340 of the Code of Criminal Procedure, 1882 — of 1882.

In the Special Court

[Act XVII, 1875, s 88] **Advocates in Special Court**

76 Any person for the time being authorised by or under the foregoing provisions of this Chapter to appear plead or act in the Court of the Recorder or in the Court of the Judicial Commissioner may also appear, plead or act, as the case may be, in the Special Court

Discipline and Fees

[Act XVII, 1875, s 86.] **Penalty for acting as an Advocate without authority**

77 Any person appearing pleading or acting in any Court in contravention of the foregoing provisions of this Chapter or the rules thereunder shall be liable, by order of the Court, to a fine which may extend to five hundred rupees

[Act XVII 1875 ss 85 and 86] **Suspension or withdrawal of license by Recorder or Judicial Commissioner**

78 (*1*) The Recorder or the Judicial Commissioner may, for any sufficient reason, by order suspend or withdraw any license granted by him under section 73 or section 74, as the case may be

(*2*) Any person aggrieved by such an order may appeal to the High Court and, for the purposes of the Indian Limitation Act, 1877, his appeal shall be deemed to be an appeal under the Code of Civil Procedure — V of 1877 — XIV of 1882

[Act XVII 1875, s 89.] **Taxation of fees of advocates**

79 The fees to be received by any advocate for business done in any Court under this Act shall at all times be subject to the control and taxation of the presiding Judge, and no such fees shall be recoverable unless they have been allowed on taxation by the Judge or such officer as he appoints in this behalf

[Act XVII, 1875, s. 90] **Rules as to fees of advocates**

80 (*1*) The Judicial Commissioner may from time to time make rules regulating the fees payable to advocates in his own Court and in Courts subordinate to him, and

(*2*) The Recorder may from time to time make rules regulating the fees payable to advocates in his own Court and in the Court of Small Causes of Rangoon, and

(*3*) The Judicial Commissioner and the Recorder may from time to time make rules regulating the fees payable to advocates in the Special Court

Legal Practitioners Act, 1879

[New] **Consequences of any extension of the Legal Practitioners Act 1879**

81 If the Local Government extends all or any of the provisions of sections 3 to 42 of the Legal Practitioners Act, 1879, to the whole or any part of Lower Burma, the Governor General in Council may, by order notified in the Gazette of India suspend, within the area to which such provisions have been so extended, the operation of the whole or any part of this Chapter — XVIII of 1879

CHAPTER VII

SUPPLEMENTAL PROVISIONS

Court of Small Causes of Rangoon

[Act XVII 1875, s 94.] **Court of Small Causes of Rangoon**

82 (*1*) The Governor General in Council shall be deemed to have had authority under section 15 of Act XI of 1865, from time to time to invest any person for an unlimited time with the powers of a Judge of the Court of Small Causes of Rangoon

[New] (*2*) The persons who have since the thirtieth day of June, 1887, held, or are at the commencement of this Act or may be thereafter holding office by the names of First Judge and Second Judge of the Court of Small Causes of Rangoon shall be deemed to have been appointed to the offices of Judge and Additional Judge, respectively, under section 6, sub section (*1*) and section 8, sub section (*1*), of the Provincial Small Cause Courts Act, 1887 — IX of 1887

[New] (*3*) Notwithstanding anything in section 8, sub section (*2*) of that Act, the Local Government may make rules restricting, in such manner as it thinks fit, the functions which the Judge of the Court of Small Causes of Rangoon may assign to the Additional Judge of that Court, and any rules or instructions made or issued before the commencement of this Act for defining the respective functions of the Judges of that Court shall be deemed to have been lawfully made or issued, and shall, until they are varied by the Local Government, be deemed after the commencement of this Act to be rules under this sub section

[Act X, 1888, s 12] (*4*) Notwithstanding anything in the Code of Civil Procedure, all or any proceedings, written — XIV of 1882

The Lower Burma Courts Bill

(Chapter VII—Supplemental Provisions—Sections 83 88)

or oral, before the Additional Judge of the Court of Small Causes of Rangoon shall be in such language as the Local Government may prescribe

[New] **83** (*1*) The Local Government may, by order notified in the Burma Gazette, direct that such suits of a civil nature as are not excepted from the cognizance of a Court of Small Causes by section 15, sub section (*1*), of the Provincial Small Cause Courts Act, 1887, and are of value exceeding one thousand and not exceeding two thousand rupees, shall be cognizable by the Judge of the Court of Small Causes of Rangoon as if they were suits cognizable by him under the said Act, and thereupon so much of that Act as relates to—

Enhancement of powers of Judge of Court of Small Causes of Rangoon

[Act XV, 1882, s 18] IX of 1887

(*a*) the exclusion of the jurisdiction of any other Court in such suits,

(*b*) the practice and procedure of Courts of Small Causes,

(*c*) appeal from certain orders of those Courts and revision of cases decided by them, and

(*d*) the finality of their decrees and orders subject to such appeal and revision as are provided by the said Act,

shall apply to such suits and to the trial thereof and the decrees and orders therein

(*2*) The Local Government may by order notified as aforesaid cancel any order made under sub section (*1*) but not so as to affect any proceedings pending at the date of the cancelling order

[Act XVIII, 1884 s 71] VII of 1870.

Court fees on applications to Recorder for exercise of revisional jurisdiction over Court of Small Causes of Rangoon

84 In the first schedule to the Court fees Act, 1870, after No 13, the following shall be inserted, namely —

Number		Proper fee
14 Application to the Court of the Recorder of Rangoon for the exercise of the revisional jurisdiction of a High Court over the Court of Small Causes of Rangoon under section 622 of the Code of Civil Procedure or section 25 of the Provincial Small Cause Courts Act 1887	When the amount or value of the subject-matter in dispute does not exceed twenty five rupees	Two rupees
	When such amount or value exceeds twenty five rupees	The fee leviable on a memorandum of appeal'

XIV of 1882

IX of 1887

[Act VIII 1884 s 72] XIV of 1882

Refund of fees paid on applications to Recorder for revision

85. If the Recorder, on an application under section 622 of the Code of Civil Procedure or section 25 of the Provincial Small Cause Courts Act, 1887, on which a fee has been paid under the Court fees Act, 1870, as amended by the last foregoing section, sets aside or modifies the decree or order of the Court of Small Causes, or remands the case for a fresh decision, he may grant to the applicant a certificate authorising him to receive back from the Collector the full amount of fee paid on the application, or any smaller amount which, with regard to the circumstances of the case, he may think proper to order to be refunded

IX of 18 VII of 1

Court of the Judge of the Town of Maulmain.

[New] **86** (*1*) The Local Government may, by notification in the Burma Gazette, confer, within the local limits of the jurisdiction of the Court of the Judge of the Town of Maulmain,—

Conferment of subsidiary jurisdiction in small causes in Maulmain

(*a*) upon any Extra Assistant Commissioner or Assistant Commissioner at Maulmain the jurisdiction of an Additional Judge of a Court of Small Causes, and

(*b*) upon the chief ministerial officer of the Court of the Judge of the Town of Maulmain all or any of the powers conferred or conferable by or under the Provincial Small Cause Courts Act, 1887, upon the Registrar of a Court of Small Causes

IX of 18

(*2*) For purposes connected with the exercise of jurisdiction and powers so conferred, the provisions of the Provincial Small Cause Courts Act, 1887, shall, so far as they can be made applicable, apply as if the Court of the Judge of the Town of Maulmain were a Court of Small Causes, and the Judge of that Town and the Extra Assistant Commissioner or Assistant Commissioner were respectively the Judge and the Additional Judge of the Court, and the chief ministerial officer were the Registrar thereof

(*3*) The Local Government may withdraw any jurisdiction or powers conferred under this section

[Act XV 1875, s. 9 XIII of

Jurisdiction of the Court under Act XIII of 1874

87 The Judge of the Town of Maulmain shall, for the purposes of the European British Minors Act, 1874, sections 2 and 8, be deemed to be a Deputy Commissioner

Provided that appeals from his orders under that Act shall lie to the Special Court

Powers, Holidays and other Matters

[Act XV 1875, ss and 43]

Powers with respect to ministerial officers of Courts

88 (*1*) The Local Government shall have a power of general control over all appointments and punishments of ministerial officers of Courts under this Act

[Act XVI 1875, s 4

(*2*) Any fine imposed on a ministerial officer of such a Court may, unless the order imposing

The Lower Burma Courts Bill

(Chapter VII —Supplemental Provisions —Sections 89-93)

[New Bill of 1887, s. 98]

it otherwise directs, be recovered by deduction from such officer's salary

Power of Local Government to make rules as to process serving establishments

89 The Local Government may, with the previous sanction of the Governor General in Council, make rules with respect to the establishments to be maintained for the service and execution of processes issued by Civil and Criminal Courts and Revenue Courts and authorities, and may declare rules so made to be in supersession of any rules made under the Court fees Act, 1870, or under this Act

VII of 1870

[Act XVIII, 1884 s 64]

Mode of appointment and conferring powers

90 The Local Government may, when it is empowered by this Act to make any appointment or confer any powers, appoint, or confer the powers on, any person either specially by name or generally by virtue of his office

[Cf Act XVII 1875 ss 67 68 and 74 Act XIV 1882 s 652: Act XVIII 1884 s 14 and Reg VIII 1886, s 88]

Powers to make rules as to fees and other matters in Courts of Judicial Commissioner and Recorder and in Special Court

91 (*1*) The Judicial Commissioner, so far as regards his own Court and the Courts subordinate thereto, may, and on the request of the Local Government shall, with the previous sanction of that Government, make rules as to the fees to be charged in respect of any of the following matters, namely —

(*a*) the making of copies and translations,

(*b*) the inspection of records, books and registers, and

(*c*) any other matter in respect of which fees are for the time being chargeable by order of the High Court in any part of the Bengal Division of the Presidency of Fort William

(*2*) The Recorder may, and on the request of the Local Government shall, with the previous sanction of that Government, make rules,—

(*a*) so far as regards his own Court and any Court with respect to which the Court of the Recorder is under section 44 or section 48 to be deemed to be a High Court, as to any of the following matters, namely —

(i) the regulation of practice and procedure,

(ii) the service and execution of processes, and the fees to be charged therefor,

(iii) subject to the provisions of section 554 of the Code of Criminal Procedure, 1882, and section 644 of the Code of Civil Procedure, the forms to be used for any proceedings, and

X of 1882

XIV of 1882

(iv) any matter specified or referred to in clause (*a*), clause (*b*) or clause (*c*) of sub section (*1*), and

(*b*) so far as regards his own Court and the Court of the Judge of the Town of Maulmain as Courts for the Relief of Insolvent Debtors under this Act, as to the remuneration to be allowed to the official assignees and to the other officers of those Courts

(*3*) The Judicial Commissioner and the Recorder, so far as regards the Special Court, may, and on the request of the Local Government shall, with the previous sanction of that Government, make rules as to any of the following matters, namely —

(*a*) the regulation of the times and places for the sitting of the Court,

(*b*) the distribution of business among the Judges thereof, and

(*c*) any matters specified or referred to in clause (*a*) of sub section (*2*)

[Act XVII, 1875 s 91]

Power to make rules as to judgments evidence and affidavits in Courts of Judicial Commissioner and Recorder and in Special Court

92 (*1*) The Judicial Commissioner and the Recorder for their respective Courts, and the Judicial Commissioner and the Recorder for the Special Court, may also make rules to provide for—

(*a*) the recording of judgments, orders and sentences,

(*b*) the taking down of the evidence of witnesses, and

(*c*) the admission of affidavits as evidence of the matters to which such affidavits relate and

(*2*) The Local Government, on being satisfied that such rules provide sufficiently for the matters to which they respectively refer, may exempt the Judicial Commissioner, the Recorder or the Special Court, as the case may be, from the operation of such parts of the Code of Criminal Procedure, 1882, and the Code of Civil Procedure, as relate to the mode of recording judgments, orders and sentences and of taking down the evidence of witnesses, and may permit the admission of affidavits as evidence of the matters aforesaid

X of 1882

XIV of 1882

[Act XVII 1875, s 74]

Differences of opinion between Judicial Commissioner and Recorder as administrative representatives of Special Court

93 If the Judicial Commissioner and the Recorder differ in opinion as to the appointment suspension or dismissal of a ministerial officer of the Special Court under section 63, sub section (*3*), or as to any rule for the Special Court under section 91, sub section (*3*) or section 92, the difference shall be referred to the Local Government, and the order of that Government thereon shall be final

The Lower Burma Courts Bill

(Chapter VII—Supplemental Provisions—Sections 94-102)

[Act XVII 1875 ss 44 and 71 Cf Act XII, 1887 s 15 Act XVI 1887, s 102 and Act XVII, 1887 s 24]

Holidays

94 (*1*) The Judicial Commissioner and the Recorder, respectively, with the approval of the Local Government, shall publish in the Burma Gazette, before the commencement of each calendar year a list of days to be observed in that year as holidays in their own Courts and the Courts respectively subject to their authority

(*2*) A judicial act done by a Court on a day specified in the list as a day to be observed by the Court as a holiday shall not be invalid by reason only of its having been done on that day

[Act IX, 1887, s 75 and Act XII 1887, s 17]

Continuance of proceedings of abolished Courts

95 (*1*) Where a Court has from any cause ceased to have jurisdiction with respect to any case, any proceeding in relation to the case which, if that Court had not ceased to have jurisdiction, might have been had therein may be had in the Court to which the business of the former Court has been transferred

(*2*) Nothing in this section applies to cases for which provision is made in section 623 or section 649 of the Code of Civil Procedure or in any other enactment for the time being in force

XIV of 1882

[Act XVII, 1875 ss 66 67 68 74 and 86]

Publication of rules in Burma Gazette

96 No rule made under this Act shall take effect until it has been published in the Burma Gazette

Laws

[Cf Act XVII, 1875, s. 51]

Modification of certain enactments

97 In the enactments mentioned in the second schedule, for the words specified in the third column of that schedule, there shall be substituted the words specified in the fourth column thereof

[Act XVII 1875 s 93]

XV of 1869.

Amendment of sections 7 and 8 Act XV of 1869

98 (*1*) For the last paragraph of section 7 of the Prisoners Testimony Act, 1869, the following shall be substituted, namely —

"For the purposes of this Act, every jail in Lower Burma shall be deemed to be situate within the local limits of the appellate jurisdiction of the Judicial Commissioner, and the Recorder of Rangoon may issue orders under this section or section 3 or 4, and may also issue commissions under Part III of this Act, in any jail in Lower Burma"

(*2*) For the second paragraph of section 8 of the same Act the following shall be substituted namely —

"To obtain the removal of a person confined in a jail situate beyond the limits of Lower Burma for the purpose of giving evidence in any criminal matter in any Court within the local limits of the ordinary civil jurisdiction of the Recorder of Rangoon, the Recorder shall have the power conferred on a Judge of a High Court by the former part of this section, and the other provisions of such part shall, *mutatis mutandis*, apply"

[Act XVII 1875, ss 9 and 98]

Saving of Act XL of 1858 and Bengal Regulations V of 1799 and III of 1818

99 (*1*) Act XL of 1858 is hereby declared to be, and from the fifteenth day of January, 1863, to have been in force throughout Lower Burma

(*2*) The unrepealed portions of Regulation V of 1799 section 7, and Regulation III of 1818 of the Bengal Code shall, *mutatis mutandis*, be deemed to extend and on and from the sixteenth day of September, 1875, to have extended, to Lower Burma, and the former of those enactments shall have effect, and, so far as may be necessary to validate anything heretofore done thereunder by the Local Government, shall be deemed to have had effect, as if the Local Government were therein referred to instead of the Governor General in Council

[Act XIX 1886, s 1

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weather Summary for February 1889

February is usually the last cold weather month of the year in Northern India, as hot weather conditions generally set in at the end of this month or the beginning of the month of March and rapidly intensify It is occasionally a very unsettled stormy month in Upper India and the adjacent hill districts, more especially if the preceding month has been finer than usual The majority of the most severe cold weather storms of recent years have occurred during the last week of January and first ten days of February The storms of the month usually belong to the class known as cold weather storms, the chief features of which have been described in the two previous monthly reports These are generally shallow depressions but are almost as persistent as the storms of the rains proper They usually move quickly and in the great majority of cases advance in an easterly course and hence in the opposite direction to the storms of the rains Each storm gives moderate to heavy snow to the hill districts and light to moderate rain, chiefly in the plain districts to the north of the area of low est barometer One of the more remarkable features of these storms is the temperature relations and changes which accompany them Temperature is generally considerably above the normal before the formation of each storm A rapid increase of temperature generally occurs immediately in front of the advancing storm, and an even more rapid decrease of temperature takes place in the rear of the storm, where fine clear weather with westerly winds usually prevails Hence a wave of high temperature appears to advance across Northern India in front of each of these storms and a similar wave of low temperature follows them

Another interesting feature of the temperature conditions of the month is that the changes and variations of temperature in Southern India are usually

inverse to those in Northern India, that is, when temperature is excessive and increasing in Northern India, it is below the normal and decreasing in Southern India, and *vice versâ*

The past month has been unusually stormy and rainy in Northern and Central India, and the temperature relations indicated in the preceding remarks have been exhibited to a marked extent during the month

BAROMETRIC DEPRESSIONS AND STORMS OF THE MONTH

First storm of January 27th to February 3rd.—This was fully described in the previous month's report It was a double storm consisting of a shallow depression which drifted from Beluchistan across the head of the Peninsula into Burma and of a deep depression which formed in the North Punjab and advanced for some distance eastwards along the Himalayas and filled up on the 31st The shallow depression was passing through East Bengal into Upper Burma on the 1st, and local showers were received in Assam and Bengal on that day It gave low barometer and cloudy skies but no rain to Burma on the 2nd

A very rapid rise of the barometer in Northern India on the 1st and 2nd established anticyclonic conditions with fine cool weather and westerly winds The fall of temperature following the storm continued until the 3rd, when the variations of the mean temperature of the day from the normal were as follows —

Sind and Rajputana		6° below
North Western Provinces		5° „
Punjab	}	4° „
Guzerat and Central India	}	
Central Provinces	}	2° „
Bengal	}	
Bombay		1½° above
Madras		1½ „

This storm gave a heavy fall of snow in the hill districts and general rain to the Punjab, North Western Provinces, Rajputana, Central India, Behar, Chutia Nagpur and Bengal

Depression of 5th to 8th February.—This was a very shallow depression and of little importance It appeared in Sind on the morning of the 5th Temperature increased very rapidly in Sind, Rajputana and Guzerat on the 5th, in the Central Provinces on the 6th, and in the North Western Provinces and Bengal on the 7th The average variations of the mean temperature from the normal on these days and on the 8th were as follows —

	Average Temperature Variation				
	4th	5th	6th	7th	8th
Punjab	−1½°	−1	+3°	+3½°	+3°
Sind and Rajputana	Normal	+5	+5½	+4	+4
North Western Provinces	−5	−2½	+1	+4½	+3½
Central India	−2½	+2	+4	+8½	+8
Central Provinces	−4½	−1	+4½	+7½	+7½
Bengal	−4½	−3	−2	+ ½	+2
Bombay	+1	+1½	+2	+3	+3½
Madras	+1½	+2	+1	+ ½	−1

The depression passed into Bengal on the 8th and gave some cloud and filled up on the 9th

Little or no rain fell in the plains or hills during the advance of this depression and hence the temperature relations were different from those of the preceding storm, and no rapid fall of temperature occurred in the the rear of the storm

Depression of 10th to 13th February.—The barometer fell rapidly on the 9th in North-Western India and a shallow depression overlay Guzerat and

South-West Rajputana on the morning of the 10th Thunderstorms giving light showers occurred during the day in Central India, Rajputana, and the South-East Punjab

The depression was transferred to Chutia Nagpur and the adjacent districts on the morning of the 11th, and numerous thunderstorms and light showers had fallen during the previous twenty four hours in the North-Western Provinces and Central India Temperature was now decreasing rapidly in North-Western and Central India and increasing briskly in Eastern India

The depression passed into Central Bengal on the morning of the 12th Thunderstorms giving moderate rain occurred in Behar and Bengal during the previous twenty four hours

Temperature increased rapidly on the 12th in Burma, East Bengal and Assam and was now falling steadily in North West and Central India The following gives the temperature variations of the 9th, 10th, 11th, and 12th —

	Average Temperature Variation			
	9th	10th	11th	12th
Punjab	+4½°	+3½°	+3½°	+4°
Sind and Rajputana	+6°	+1°	+1°	+3½°
North Western Provinces	+4½°	*Nil*	+1°	+2°
Central India	+10½°	+4°	*Nil*	+1½°
Central Provinces	+9½°	+6°	*Nil*	−10°
Bengal	+2½°	+4°	+4½°	−½°
Assam	+1½°	+4°	+7½	+2°
Bombay	+3°	+1°	−½°	+½°
Madras	−½°	+2°	+1½°	+½°
Burma	−½°	+2°	+2°	+1½°

The depression passed into Burma on the 13th when it filled up

Temperature increased rapidly in North Western India on the 14th and 15th and decreased in North Eastern India A fall of the barometer in Beluchistan and Sind on the 15th preceded the advance of another depression from Beluchistan

Depression of 16th to 19th February —The depression shewn by the Quetta observations on the 15th covered Guzerat and South West Rajputana on the 16th The temperature variations of the 15th immediately antecedent to the storm were as follows —

Sind	5½° above
Rajputana	10 „
Guzerat and Central India	8½° „
Central Provinces	7° „
North-Western Provinces	4½° „
Bengal	2° „
Madras	2° below

The depression changed its character during the next twenty four hours and, at 8 A M on the 17th, formed a long trough stretching from the Central Provinces to the South East Punjab Heavy rain fell on the 16th and 17th over the whole of this area, except the southern portion of the Central Provinces Falls of one inch were recorded on the 17th at Sutna and Nowgong and at the Hill Stations The depression was transferred to Bengal on the 18th Temperature had increased rapidly in North-East India and fallen very quickly in North West

and Central India were as follows — The temperature variations on the 16th, 17th, 18th, and 19th

	16th	17th	18th	19th
Punjab	+1°	+1°	+2½°	+3°
Sind and Rajputana	+1°	−3°	*Nil*	+3½°
North Western Provinces	+3°	−4°	−1°	−1½°
Central India	+3°	−2°	−2°	−1°
Central Provinces	+4°	−2°	−3°	−4½°
Bengal	+2½°	+3½°	+3	−2½°
Bombay	+2°	−1°	−2°	−1½°
Madras	−2°	−1°	*Nil*	+½°
Burma	+3°	+3½°	+3½°	+4½°

Moderately heavy rain fell on the 17th in the North Western Provinces, Chutia Nagpur, and Behar The depression passed into Bengal on the 19th, but filled up and disappeared before the morning of the 20th It gave some local thunderstorms on the 18th and 19th in Bengal

Temperature again began to increase rapidly in North West India and continued to decrease in North East India, and on the 21st the temperature variations were as follows —

Quetta	15½° above
Sind and Rajputana	7½° ,,
Punjab	3½° ,,
Central India	2½° ,,
Central Provinces	½ below
Bengal	3½° ,,
Assam, Burmah	1° ,,

Depression of 22nd to the 25th February —This was by far the most remarkable storm of the month, partly by reason of the unusual direction of its advance and partly by reason of the excessive burst of rainfall it gave to the whole of the Punjab It formed in East Beluchistan and Sind on the 21st and 22nd, and advanced in a northerly instead of the usual easterly direction The centre was between Mooltan and Jacobabad on the morning of the 23rd Light showers fell on the 22nd in the hill districts, and skies were densely covered over the Punjab On the morning of the 24th, the centre was to the west of Dera Ismail Khan, and the depression had increased to a third of an inch Very heavy rain had fallen in the Punjab during the previous twenty-four hours Murree received 5 inches, Rawalpindi 3¼ inches, Lahore 2½ inches, and Ludhiana and Simla 2 inches The depression filled up with unusual rapidity during the day The rise of the barometer was larger and more rapid than has been observed for many years in the Punjab, and exceeded half an inch at Peshawar Showers were received during the previous day in the Punjab and north western districts of the North Western Provinces

Strongly marked anticyclonic conditions were re established in Upper India on the 25th, when pressure was two tenths of an inch above the normal in the North Punjab, and this continued during the remainder of the month

Hence, of the four depressions or storms of the month, three advanced across Northern India in the usual direction, whilst the fourth marched northwards parallel to, or more probably over, the Suliman Mountains and developed until it reached the much higher ground to the north of the Punjab when it broke up very rapidly Its history hence confirms the supposition that these cold-weather storms are generated and maintained at a very considerable elevation, and are not primarily phenomena of the lower atmosphere

Pressure —The mean pressure of the month for the whole of India was 024″ in excess of the normal The excess was, as in the month of January, greater at the hill than in the plain stations Pressure was relatively to the general state in defect generally in Northern India There were two areas in which

the local deficiency exceeded 02", *viz*, Sind and Rajputana, and Burma The following gives data —

	Relative deficiency
Jacobabad	— 032"
Kurrachee	— 024"
Ajmere	— 021"
Alyab	— 022"
Diamond Island	— 023"

Pressure was relatively in excess over the greater part of the Peninsula, but the abnormal variations exceeded 02 only at Ratnagiri (027") and Bellary (022")

Temperature —The chief feature of the temperature of the month, *viz*, the rapid fluctuations which accompanied the passages of an unusually large number of storms across Northern India, has been already fully shewn in the preceding remarks The cloudy weather which accompanied these storms increased the night temperature and diminished the day temperature This effect is shewn very clearly in the average temperature variations of the month in Northern India given below —

	Variation of maximum temperature from normal	Variation of minimum from the normal	Variation of mean temperature from normal
Burma	+0 8	+1 4	+1 1
Bengal and Assam	—0 4	+1 3	+0 5
Behar	—2 0	+3 0	+0 5
Nort Western Provinces	—2 5	+3 0	+0 2
Punjab	—1 0	+2 5	+1 2
Rajputana	—1 2	+3 2	+1 0
Bombay	+1 0	+0 3	+0 7
Madras	+0 7	—0 4	+0 2
Berar and Central Provinces	+1 2	+1 9	+1 6
Central India—Guzerat	+1 0	+2 4	+1 7

Rainfall — The most remarkable feature of the weather of the month is the rainfall The whole of the Punjab, North Western Provinces, Chutia Nagpur, Rajputana, and Central India received from two to ten times their normal amount In Bengal and Assam there was a moderate excess In the Central Provinces, the Deccan, and Southern India the rainfall of the month is always very small in amount, but was even smaller than usual during the first month

The conditions of its occurrence were as abnormal as its amount Excessive rainfall in February (such as that of the past month) usually accompanies excessive rain throughout the whole of the cold-weather months, as was the case in the cold weather of 1877 The excessive rain of the past month on the contrary followed a period of drier weather than usual in the months of December and January

The following table gives the actual and average rainfall at several typical stations in Northern India for two periods, *viz*, one from the 15th of December 1888 to the 27th of January 1889, and the second extending from 27th January to the end of February —

Provinces	Stations	Rainfall from 15th December to 27th January			Rainfall from 28th January to 28th February		
		Actual	Average	Variation	Actual	Average	Variation
Punjab	Rawalpindi	0 53	2 85	—2 32	11 81	2 06	+9 75
	Sialkot	0 26	1 99	—1 73	8 62	1 46	+7 16
	Dera Ismail Khan	0 05	0 47	—0 42	2 28	0 37	+1 91
	Lahore	0 05	1 05	—1 00	5 34	0 96	+4 38
	Ludhiana	0 11	2 09	—1 98	5 14	1 09	+4 05
	Delhi	0 05	1 35	—1 20	3 96	0 66	+3 30

Provinces	Stations	Rainfall from 15th December to 27th January			Rainfall from 28th January to 25th February		
		Actual	Average	Variation	Actual	Average	Variation
North West Provinces	Roorkee	0 28	2 05	—1 77	4 22	1 18	+3 04
	Agra	0 11	0 68	—0 57	1 85	0 11	+1 74
	Lucknow	0 58	1 36	—0 78	1 44	0 17	+1 27
	Allahabad	0 51	1 04	—0 53	1 31	0 16	+1 15
	Gorakhpur	0 44	0 61	—0 17	4 01	0 33	+3 68
Behar	Patna	0 17	0 51	—0 34	3 47	0 43	+3 04
	Durbhanga	0 23	0 60	—0 37	2 67	0 50	+2 17
	Purneah	0 15	0 35	—0 20	3 91	0 62	+3 29
Rajputana	Jeypore	0	0 55	—0 55	1 11	0 20	+0 91
	Ajmere	0	0 44	—0 44	0 96	0 29	+0 67
Central India	Jhansi	0 37	0 58	—0 21	1 00	0 35	+0 65
	Nowgong	0 25	1 11	—0 86	1 24	0 28	+0 96
	Saugor	0 10	1 39	—1 29	0 62	0 28	+0 34
	Jubbulpur	0 05	1 28	—1 23	0 89	0 31	+0 58

This table exhibits fully the contrast between the rainfall of December and January and that of February, and also the excessive character of the latter

As might be expected from the circumstances under which the rainfall of the cold weather occurs, the precipitation in the hill districts of Northern India was even more excessive than in the adjacent plains The following gives data for the hill stations similar to that in the preceding table —

Stations	Rainfall from 15th December to 27th January			Rainfall from 28th January to 25th February		
	Actual	Average	Variation	Actual	Average	Variation
Murree	2 57	2 92	—0 35	18 58	2 87	+15 71
Simla	1 97	2 78	—0 81	10 38	2 62	+ 7 76
Mussoorie	1 48	?	?	12 26	?	?
Ranikhet	1 28	2 56	—1 28	8 78	1 85	+ 6 93
Quetta	2 10	1 99	+0 11	2 89	1 83	+ 1 06

No such rainfall has occurred in February during the past fifteen or sixteen years, so far as can be ascertained from the records of the Meteorological Office The most remarkable feature was, that at the hill stations the precipitation during the storms occurred chiefly as rain and not as snow, and hence there has been apparently no excessive accumulation of snow in the hill districts, such as occasionally happen to influence the weather in Northern India This inference from the weather at the hill stations is confirmed by the few snowfall reports that have been received up to date Thus the Deputy Commissioner of Kohat states "that there was a good fall of snow on the Sufed Koh and neighbouring mountains on the last week of January, but that heavy rain followed the snowfall and washed the greater part away"

The Political Officer, Khyber, writes as follows respecting the snowfall in the Khyber and Tirah Hills —"Snow fell on three different occasions in January, and the amount was reported to have been from one to three feet Heavy rain fell during February and was followed by snow The depth was reported to be about two feet"

The Assistant Commissioner, Kulu, states "that between 30th January and 2nd February there was an exceptionally heavy fall of snow, and that up to that date the winter had been one of frequent showers of exceptional severity"

No reports have been received up to date from the Assam and Sikkhim Himalayas

Hence it is almost certain that there is not at present any excessive accumulation of snow in the Himalayan and Afghan Mountain areas, and it is also

probable, after the dry cold-weather season of 1886-87 and 1887 88, that the amount of snow at the present time is not above the average This appears to be confirmed by the excessive temperature which has prevailed during the past fortnight over the whole of Northern India For example, the mean temperature at Ajmere and Dera Ismail Khan on the 13th and 14th was 13° above the normal temperature of the day

The following table shows the actual average rainfall and the normal rainfall of the month of the twenty one districts into which the country is divided, so far as it is indicated by the telegraphic reports of a few stations in each district —

Districts	Number of stations	Normal average rainfall in February	Actual average rainfall in February 1889	Difference from the average in February 1889

JOHN ELIOT,

Offg Meteorological Reporter to the Government of India

SIMLA,

The 13th March 1889

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and prospects of the Crops

Madras —*For week ending 16th March, 1889* —Rainfall very slight in Madura and Salem, none elsewhere Rain wanted in Ganjam, Vizagapatam, Trichinopoly, Tinnevelly and Coimbatore Standing crops generally good, withering in parts of Cuddapah, Trichinopoly, and Coimbatore, affected by disease in parts of Bellary Pasture deficient in Ganjam, Coimbatore, Bellary, Salem and Tinnevelly Prices rising in eight districts, falling in six, and stationary in others General prospects favourable except in Ganjam, improving in Coimbatore Labourers employed on last day of week on Rushikulya works 5,294, on Gopalpur Canal 8,672

Bombay —*For week ending 20th March, 1889* —Rain throughout Sind and in one taluka of Poona Late crops in three talukas of Surat and one of Sholapur unsatisfactory Exotic cotton in parts of Dharwar blighted Opium in Baroda fair Harvesting progressing generally Preparations for next season's crops commenced in parts of Kirachi, Poona, Sholapur, Bijapur and Kathiawar Probable outturn of late crops in Ahmednagar from four to twelve annas and of opium in Baroda twelve annas Fodder scarce in parts of Poona, Ahmednagar, Khandesh, Kathiawar and Baroda

Bengal —*For week ending 19th March, 1889* —Light local showers reported in Darjeeling and Dacca, otherwise the whole province has been without rain Prospects of the *rabi* harvest are generally fair, and have improved in consequence of the recent rain and the present favourable weather In Chota Nagpore, however, the *rabi* will, owing to previous drought, be a short crop of from eight to twelve annas Opium collections are proceeding satisfactorily *Mahua* prospects are hopeful, except in Manbhoom where the crop has been considerably injured by rain and storms Spring rice is a promising crop Cultivation of early rice and jute is well forward, but rain is wanted throughout East Bengal, and in places in Central Bengal *Cheena* and other millets are still being sown and are coming up well Indigo sowings in Behar are also in progress, and sugarcane is being planted Prices of rice are fairly stationary, particularly in the distressed districts

North Western Provinces and Oudh —*For week ending 20th March, 1889* —Weather seasonable Slight rain in some districts *Rabi* harvest in progress, a fair outturn is expected Sugarcane pressing continues Opium extraction commenced Supplies sufficient Prices falling Condition of cattle good

Punjab —*For week ending 20th March, 1889* —Slight rain in Hissar, Amritsar, Lahore and Peshawar, general in Rawalpindi and Dera Ismail Khan Prices falling in Delhi Jullundur, Rawalpindi, Shahpur, Dera Ismail Khan and Peshawar, stationary in other districts Ploughing for *kharif* in progress Prospects for *rabi* crops are generally good throughout the Province Crops are reported to have been damaged by hot winds and floods in the Ghaggar in the Hissar district Stock cattle are healthy Fodder sufficient Poppy in good condition in Jullundur

Central Provinces —*For week ending 20th March, 1889* —Weather cloudy and warm Harvesting of winter crops continues Outturn of wheat, except in Jubbulpore, is ten annas, and in Hoshangabad only six annas Prospects are better in the southern districts, but in Raipur only an eight anna crop is anticipated Cattle generally in fair condition Scarcity of water felt in places

Burma —*For week ending 16th March, 1889* —A little rain fell in several districts in Upper and Lower Burma The dry weather crops on the whole promise well, but in Bhamo rain is badly wanted Prices of grain are almost stationary

Assam —*For week ending 20th March, 1889* —Weather seasonable Slight rain fell in most districts Sowing of early rice going on Sugarcane crushing continues Tea plucking begun

Mysore and Coorg —*For week ending 20th March, 1889* —No rain in Mysore Crops in parts of the Kolar and Mysore districts are suffering from want of rain, elsewhere they are reported to be in good condition Outturn of crops harvested fair Water supply diminishing in parts of the Mysore district Prices slightly fallen in the Kolar district

No standing crops in Coorg

Berar and Hyderabad —*For week ending 20th March, 1889* —Cutting and threshing of *rabi* crop still in progress in Berar Prospects good, except in Melghat, where wheat has been affected by grubs, outturn about twelve annas Cattle free from disease Fodder and water same as last week Prices rather high in the Akola district

No rain in Hyderabad during the week Weeding of hot-weather and reaping of *rabi* crops continue Scarcity of fodder and water still felt in some places Prices stationary

Central India —*For week ending 20th March, 1889* —Slight rain during the week in parts of Western Malwa and Goona Agencies Prices of food grains reported stationary in Western Malwa Condition of opium crops indifferent in Goona No other change of importance during the week

Rajputana —*For week ending 20th March, 1889* —Good rain in Ajmere and Jeypore Agricultural operations satisfactory Standing crops good and being harvested Harvest poor in Kherwara Agricultural stock good Pasturage or fodder sufficient, except in Kherwara, Meywar and parts of Sirohi Prices rising slightly in Pertabgarh and Bhurtpore

Nepal —*For week ending 14th March 1889* —Slight rain Weather beginning to get hot Mornings are sometimes foggy Potatoes are germinating Agricultural prospects good

E C BUCK,

Secretary to the Government of India

DESPATCH TO HER MAJESTY'S SECRETARY OF STATE FOR INDIA, NO 256, DATED 30TH JUNE 1874	47

APPENDIX II

ACCOUNTS AND ESTIMATES

PAGE

GENERAL STATEMENT of the ACCOUNTS and ESTIMATES of the REVENUE and EXPENDITURE and RECEIPTS and DISBURSEMENTS of the GOVERNMENT of INDIA in INDIA and in ENGLAND 50—51

A.—STATEMENT of the REVENUE of INDIA in INDIA and in ENGLAND 52—53

B.—STATEMENT of the EXPENDITURE chargeable on the REVENUES of INDIA in INDIA and in ENGLAND 54—57

C.—STATEMENT of RECEIPTS and DISBURSEMENTS other than REVENUE and EXPENDITURE of the GOVERNMENT of INDIA in INDIA and in ENGLAND 58—61

D.—ACCOUNT of PROVINCIAL and LOCAL SAVINGS charged to REVENUE and held at the disposal of PROVINCIAL GOVERNMENTS under their PROVINCIAL CONTRACTS 62

E.—STATEMENT of NET REVENUE and EXPENDITURE—ENGLAND and INDIA 63

FINANCIAL STATEMENT for 1889-90.

Section I —Preliminary

1 THE Financial Statement for 1889 90 deals with the Accounts of 1887-88, which have been finally closed, with the Revised Estimate for the current year, 1888 89, and with the Budget Estimates for the coming year, 1889 90 In this Statement tens of rupees are denoted by the symbol Rx , tens of rupees represent what used to be called conventional sterling, when pounds sterling are meant the words "true sterling" are always added, pounds sterling are also denoted by the customary symbol, and not by Rx

In previous years columns have been inserted in Statements A and B, showing (1) differences between the Revised and Budget Estimates of the current year, and (2) differences between the Revised Estimate of the current and the Budget Estimate of the coming year In order that the change in the financial position, as estimated a year ago and as estimated now, may be seen at a glance, it has been decided to add a column showing the increases and decreases resulting from a comparison of the Budget Estimate of the current year with the Budget Estimate of next year

The magnitude of the financial transactions of the Government of India is now very great, the aggregate of Revenue and Expenditure, as entered in the estimates for 1889 90, being more than Rx 166,000,000 The Revenue and Expenditure, as recorded in the Accounts, include the gross receipts and working expenses of Indian State Railways and the net receipts of the old Guaranteed Railways, and it is this inclusion which swells the total Revenue and Expenditure and causes them to increase so rapidly

The Accounts and Estimates include three distinct categories of Revenue and Expenditure—Imperial, Provincial, and Local,—and deal with the transactions of eight Local Governments and Administrations and of many Local Funds, as well as with those of the Supreme Government

The Local Governments and Administrations are Madras, Bombay, Bengal, the North Western Provinces and Oudh, the Punjab, Burma, the Central Provinces, and Assam, all of which enjoy a considerable measure of financial independence

The transactions of the Government of India are carried on in India in the silver standard, and in England in the gold standard, and are consequently attended with the inconvenience and uncertainty which result from the frequent and considerable fluctuations in the relative value of the two standards which have been experienced in recent years

The Accounts of the Government of India also include, as I have already stated, the transactions of a great system of Railways, some of which are owned by the Government, being either worked directly by Government, or leased to Companies, while others are owned and worked by Companies to whom a minimum rate of interest is guaranteed, a few are owned and worked by Private Companies which receive a greater or less amount of assistance from the Government The contracts between Government and the different Railway Companies are numerous and complex, and vary in their terms in the case of different Railways

For the reasons I have just stated, the preparation of a satisfactory Financial Statement is a task of difficulty To fully explain the details of every transaction would weary the attention of the most patient reader or listener, while a mere attempt to sketch briefly the leading features of the situation would exclude much valuable information In such circumstances nothing is practicable but a compromise, and a compromise, from the very nature of the case, cannot be wholly satisfactory to everybody interested

Section II —Accounts of 1887-88

2 In the Financial Statement of March 1888 the Revenue of the year 1887 88, which was then about to close, was estimated at Rx 77,926,600, and the Expenditure chargeable thereon at Rx 80,943,300, the deficit being Rx 3,016,700, the cost of the Special Defence Works, which were being constructed for the protection of the North West Frontier and the chief places on the Coast, was included in the Expenditure

A statement was subsequently published in the *Gazette of India* of the 12th May 1888 giving the corrections in that Estimate rendered necessary by the further information at that time available

This additional information referred only to the Indian portion of the transactions, and not to the Home Accounts, and indicated a net improvement of Rx 397,000 as compared with the figures of the Financial Statement, the probable deficit of the year 1887 88 being reduced from Rx 3,016,700 to Rx 2,619,700,

3 As the process of compilation of the accounts of the year proceeded the position was shown to have further improved by Rx 238,000, making the probable deficit Rx 2,381,700 This alteration of the Estimate was telegraphed to the Secretary of State in August 1888, and was adopted in the "latest estimate" laid before Parliament in the Under Secretary of State's Financial Statement of September 1888 The probable deficit announced to Parliament was, however, Rx 1,960,800, and not the sum of Rx 2,381,700 just mentioned The difference of Rx 420,900 was due, as explained by Sir John Gorst, to an improvement in the English Account of Rx 120,900, and to the inclusion as revenue of a special item,* then estimated at Rx 300,000, representing the gain by exchange on the capital transactions of Subsidized Railways in England, which had been placed under a suspense head in the Revised Estimates pending the decision of the Secretary of State whether it properly formed an item of current revenue, or not

4 On closing the Accounts of the year 1887 88 the actual figures proved to be, Revenue Rx 78,759,744, Expenditure Rx 80,788,576, and the deficit of 1887 88 is finally shown to be Rx 2,028,832, being Rx 68,032 more than the deficit as estimated in September last The principal differences between the Revised Estimate as given in the last Financial Statement and the Actuals of 1887-88 are set out in the following statement, and complete details will be

* "I mentioned just now a sum of £300 000, which I said the Government had gained by exchange transactions I must just explain how that arises The Committee are no doubt aware that the Government have contracts with certain Railway Companies —the Southern Mahratta the Indian Midland, and the Bengal Nagpur—by which the Government undertake to transmit to India the capital of these Companies subscribed in London which is required for expenditure in India at a certain fixed rate of exchange In the case of the Southern Mahratta money is transmitted by contract at 12 rupees per £1 sterling in the case of the Indian Midland at 12½ rupees per £1 sterling and in the case of the Bengal Nagpur a 13 rupees per £1 sterling The Committee will see that when exchange comes down below the rate named in the contract the Government gain by the transaction For instance at the present time the £1 sterling is nearly equivalent to 15 rupees in India whereas the Government would only have to pay the Southern Mahratta Railway 12 rupees So long as the rupee is lower than the exchange rate of the contract there is again, and that gain makes up this sum of Rx 300 000"

found in the appropriation audit report published in the *Gazette of India* of 16th March 1889

DEFICIT	Rx	3 016 700	2 028 832	98, 868	

5 The Revenue in India (Imperial, Provincial, and Local) proved to be Rx 829,003 more, and the Expenditure in India (Imperial, Provincial, and Local) Rx 379,713 less than the estimate of March 1888 Allowing for the increase in the Provincial adjustment of Rx 342,891, these figures give a net Imperial improvement of Rx 865,825, and if we add the net improvement in the English Accounts, and under Exchange, of Rx 122,043, we get a total improvement of Rx 987,868, being the amount by which the actual deficit falls short of the estimated deficit of March last

6 Of the increase of Revenue in India, Rx 244,540 resulted from the gain by exchange on capital transactions of Subsidized Railways in England, which was not taken credit for in the Estimates for reasons already stated, and the balance Rx 584,463 represents the actual improvement in Revenue It has been explained on former occasions that the financial year terminates in the middle of the season of heavy revenue collections and large Railway receipts A difference of a day in the payment of the instalments of Land Revenue due at the end of March may seriously affect the estimate of revenue for the year If the Land Revenue is paid on 31st March, it appears as a receipt of the year 1887 88, if it is paid on 1st April it appears as a receipt of 1888 89 The estimated results are further liable to be falsified by an unexpected distribution of the Railway traffic between March and April The months of March and April are also periods of heavy Public Works expenditure, and it is difficult to say beforehand how much of such expenditure will fall into March and how much into April In fact, for the purposes of the Revised Estimate, the year could hardly end on a more inconvenient date than the last day of the month of March If the variations from the Estimate occur under Provincial or Local heads the estimated surplus or deficit, which depends solely on Imperial revenue and Imperial expenditure, is not affected, but the total revenue and total expenditure recorded in the Accounts may be materially altered

7 The improvement in the Revenue figures calls for no further remarks The reduction of the Indian Imperial Expenditure below that of the Revised Estimate, amounting to Rx 204,434 in all, was mainly due to a less expenditure of Rx 115,963 on Special Defence Works, of Rx 87,162 under Opium, of

Rx 66,559 under Interest on ordinary Debt, of Rx 49,937 under Military Works, and to an excess of Rx 116,739 under working expenses of State Railways The gain in the English Account was mainly due to reduced Military expenditure and to the resulting saving in exchange The saving under Provincial and Local expenditure occurs mainly under Civil Works and Irrigation and, in a less degree, under charges for collection of Land and Forest Revenue

8 The above explanations dispose of the Revenue and Expenditure Account of 1887-88, on the results of which depends the surplus or deficit of the year The Capital Expenditure on Railways and on Irrigation Works constructed from loan funds amounted to Rx 2,251,776 and Rx 533,048 respectively, thus falling short of the anticipations of the Revised Estimates by Rx 191,976, of which Rx 122,224 was due to short expenditure on Railways and Rx 69,752 to short expenditure on Irrigation This result does not of course affect the question of surplus or deficit on the Revenue and Expenditure Account, and, as already stated, the final result of the year 1887-88 was a deficit of Rx 2,028,832, including as expenditure Rx 456,017 on account of Special Defence Works Excluding the cost of these Works the deficit of 1887 88 was Rx 1,572,815

Section III —Revised Estimates of 1888-89

9 The Estimates of 1887 88 as originally framed in March 1887 showed a surplus of Rx 16,700, representing practically a bare equilibrium of Revenue and Expenditure

As I have just stated, the trifling surplus shown in the Budget Estimate of 1887 88 has proved, on closing the accounts of the year, to have become a deficit of Rx 2,028,832

The deterioration in the financial position manifested itself in the course of 1887-88, and led to steps being taken in the course of the year for increasing the revenue Of the actual deficit, Rx 1,059,000 were due to the conversion of the India 4 per cent stock of £48,200,000 into 3½ per cent stock in consequence of the operation throwing on the Accounts of that year a charge of £1 7 6 per cent which would otherwise have been paid in 1888 89 A further deterioration resulted from the decision to charge against Revenue the expenditure on Special Defence Works which had been treated in the Estimates as a charge against borrowed money, the additional charge imposed on the Revenue Account being Rx 456,017 Other causes for apprehension were found in the fall in Exchange, the reduction in the net Railway revenue, the fall in the price of Opium, and increased Military expenditure in Burma The position was deemed to be of a nature so serious that, as I have said, steps were taken towards the close of the year to add to the revenue by the imposition of fresh taxation The measures adopted for this purpose were the following—

(1) the raising of the rate of the duty on Salt from R2 to R2 8 a maund, with effect from the 19th January 1888 except in Burma where the rate was raised from 3 annas to R1 a maund,

(2) the imposition of a duty on the import of petroleum with effect from the same date, and

(3) the extension of the Income Tax Act to Lower Burma, from 1888-89

These measures were estimated to produce about Rx 1 900,000, but as they were introduced in the end of 1887 88 they had but little effect on the Revenue of that year

10 The full effect of the measures just referred to would be felt in 1888-89, and the Estimates of that year showed a deficit of only Rx 698,000 after including in the expenditure of the year a sum of Rx 1,121,500 for Special Defence Works If the expenditure on Special Defence Works had been

excluded the Estimates would have shown a surplus of Rx 423,500 The financial position has, I regret to say, been again affected injuriously by various influences during the progress of the year On the expenditure side we have had to allow for a considerable fall in Fxchange In the Estimates the rupee was taken at 1-4 9, the rate actually received has been 1-4 38, a fall of more than a half penny per rupee, which adds Rx 684,400 to the expenditure of the year There has also been unforeseen expenditure, estimated at Rx 387,500, on Military Expeditions—being Rx 142,500 on the Black Mountain Expedition, and Rx 210,000 on account of Sikkim, besides Rx 35,000 on account of the Lushai Expedition The Revenue Account has been affected by a reduction in the quantity of salt that has paid duty, and there have been short crops in some parts of India—a condition which exercises an injurious effect on the revenue generally

In face of these adverse circumstances it will be a surprise to most people to learn that, including expenditure on Special Defence Works, we now estimate for a deficit of Rx 201,700 as against the deficit of Rx 698,000 which was anticipated in the Financial Statement of March last, and if the cost of Special Defence Works be excluded, for a surplus of Rx 616,600 as against the previous estimate of Rx 423,500 Although the improvement is due in some respects to what may be termed accidental and temporary causes, yet, on the other hand, some of the influences which have adversely affected the finances of the year are of a precisely similar character, and the final result is not unsatisfactory

I shall now explain the various causes which have tended to modify the Budget Estimates of 1888 89

11 The Revenue of the current financial year 1888 89 was estimated in March last at Rx 80,010 500, it is now estimated at Rx 81,585,500, an improvement of Rx 1,575,000

The Expenditure proper of 1888 89 was estimated at Rx 81,192,100 and the Provincial adjustment at *minus* Rx 483,600, giving a total charge against Revenue of Rx 80,708,500, the deficit being Rx 698,000 What is meant by a *minus* Provincial adjustment of Rx 483,600 is that the total Provincial Expenditure of the year was estimated to exceed the total Provincial Revenue by Rx 483,600, and this sum was consequently shown as a charge against the accumulated balances of former years, and not against current Provincial Revenue

The Expenditure properly so called is now estimated at Rx 81,584,100, and the Provincial adjustment at *plus* Rx 203,100, giving a total charge against Revenue of Rx 81,787,200, being an increase over the former estimate of Rx 1,078,700 The increase of Revenue over the Estimate has exceeded the increase of Expenditure chargeable against that Revenue by Rx 496,300, and the estimated deficit has been reduced by that amount and now stands at Rx 201,700 instead of Rx 698,000.

12 The increase of Revenue for which we have to account is Rx 1,575,000, and it is due mainly to increases under the following heads —

	Rx
Receipts under Exchange	536,800
Railways	243,300
Interest	182 500
Forests	154,100
Land Revenue	111,800
Post Office, Telegraph, and Mint	109,100
Opium	107 000
Excise	96,200
Irrigation	80 200
Stamps	77,800
Assessed Taxes	56,800
TOTAL	1,755,600

The total increase under these heads comes to Rx. 1,755,600, and there are increases under other heads amounting in the aggregate to Rx 283,200, and making the total increase of Revenue under certain heads no less than Rx 2,038,800 On the other hand, there is a falling off of Revenue under certain heads amounting to Rx 463 800, of this sum the falling off under Salt accounts for no less than Rx 445,600, leaving Rx 18,200 as the total falling off under the remaining heads The net increase of Revenue, as already explained, is Rx 1,575,000

13 In attempting to present an intelligible statement of a subject so extensive and complicated as the financial position of British India, more would be lost than gained by going into minute details, and attempting to explain every petty fluctuation in Revenue and Expenditure due to ordinary causes I shall, therefore, confine myself to dealing with those variations in Revenue or Expenditure which are due to important or special causes, and which have had a perceptible influence on the financial results of the year

14 The head under which the greatest increase of Revenue is anticipated is Exchange, and the increase is no less than Rx 536,800

The receipts under Exchange arise from the net gain accruing to Government in consequence of certain remittance transactions being carried out by it, under contract or as concessions, at a rate of exchange different from the average rate obtained by the Secretary of State by the sale of bills and telegraphic transfers on India These receipts occur chiefly in connection with the contracts with Guaranteed and Subsidized Railways, with transactions with Her Majesty's Imperial Government, with family remittances of officers serving in India, and with remittances for the purchase of stores through the Secretary of State for Local Bodies and Native States

The very large amounts of revenue accruing in this way in the current and past years have been due almost entirely to the heavy transactions of the Subsidized Railway Companies Transactions are carried out at contract rates which are more favourable than the market rates, and a gain is made in this way which increases as the market rate falls below the contract rate Of course, this is not a source of gain to which we can permanently look forward, and we run the risk of loss when the reverse transaction takes place, as well as when the rate of exchange is rising instead of falling

The large difference between the Budget and Revised Estimates of the current year under this head is due partly to the fall in the rate of exchange since the Budget Estimate was prepared, but mainly to no provision having been made in the Budget Estimate for the gain, now estimated at Rx 266,000, accruing from the payments made to the Railway Companies in England, as the question whether this should be treated as current revenue was under the consideration of the Secretary of State at the time the Estimates were prepared The gain accrued mainly in connection with transactions relating to the Indian Midland, the Bengal Nagpur, the Southern Mahratta, and the various Guaranteed Railways

15 Increased Railway receipts account for an improvement of Rx 243,300, and, as the receipts under this head are intimately connected with the expenditure on working expenses and surplus profits of Guaranteed Companies, I propose to deal with both the Revenue and the Expenditure at the same time, thus anticipating to some extent what it would otherwise be necessary to say hereafter The improvement in Railway Revenue amounts to Rx 243,300, but there is an increase of Rx 393,300 in Expenditure (including Exchange), so that the net result in the Railway Account is a deterioration of Rx. 150,000

The following is a statement of the increase or decrease under the Revenue heads of the Railway Account —

	Increase + and Decrease—
	Rx
State Railways (gross receipts)	—500
Guaranteed Companies (net traffic receipts)	+247,500
Subsidized Companies (repayments of advances of interest)	—3,700
TOTAL	243 300

The gross earnings of State Railways are almost the same as in the original Estimate, but there are considerable increases and decreases in the case of particular lines

The main fluctuations are as follows —

	Increase	Decrease
State Railways (gross receipts)—	Rx	Rx
East Indian		250,000
North Western	150 000	
Rajputana Malwa	95,000	
Eastern Bengal	70,000	
Bengal Nagpur	13 500	
Indian Midland	12 500	
Tirhoot		25,000
Oudh and Rohilkhund		20,000
Southern Mahratta		17,500
Burma		12,500
Tounghoo Mandalay		10,000
	341,000	335,000
Guaranteed Companies (net traffic receipts)—		
Great Indian Peninsula	270,000	
South Indian	27 500	
Madras	25,000	
Oudh and Rohilkhund		60,000
Bombay Baroda		15 000

The serious falling off on the East Indian Railway is ascribed to a variety of causes, amongst which may be enumerated the cessation of an abnormal traffic in the previous year caused by scarcity in the North Western Provinces, a continued falling off in a long lead traffic of wheat and grains from Upper India, certain writes back due to overcharges, and, possibly, a diversion of traffic consequent on the opening of the Indian Midland Railway

On the other hand, the grain traffic of the North Western Railway, which fell off so much in the previous year, has revived to a great extent, the Rajputana Malwa and Eastern Bengal Railways have both had prosperous years,—the jute season having been extremely favourable for the latter Railway

16 The total increase of expenditure in the Railway Account amounts to Rx 393,300, which is mainly due to the loss on sterling payments owing to the fall in Exchange

The rupee expenditure in India has only increased by Rx 86,400, and the expenditure in England by only £37,100 (true sterling), but the conversion of the sterling payments on account of interest and annuities (which amount to £5,652,600 (true sterling)) into rupees at a lower rate of Exchange than was taken in the Budget Estimate, raises the total increase to no less than Rx 393,300

It should also be explained that a more unfavourable exchange adds to the working expenses, under the head of Indian expenditure, by increasing the

rupee price of stores procured from England, though, owing to the system of accounting, this factor does not appear separately in the Accounts

It is possible that up to the present this loss by the fall in exchange may have been to a great extent met by a corresponding fall in English prices, but with prices constant, it is obvious that an unexpected fluctuation in exchange would have a considerable effect on working expenses

17 The increased receipts under Interest appear in the Home Accounts, and are due to the Secretary of State having, as explained hereafter, raised the loan required for purchase of the Oudh and Rohilkhand Railway much earlier than it was required This had the effect of placing a large cash balance at his disposal, most of which he was able to lend out temporarily at high rates of interest

18 The increase of Revenue under Forests is Rx 154,100, but there is an increase of Expenditure on the other side of the Account amounting to Rx 39,700, and making the net improvement Rx 114,400 This increase is due mainly to increased receipts in Upper and Lower Burma The increase in Upper Burma is Rx 81,500, and includes a payment of Rx 37,700 by the Bombay Burma Trading Company on account of previous years The increase in Lower Burma amounts to Rx 84,700 The increased expenditure is mainly due to the payment of Rx 43,400, to the Trading Company just referred to, in satisfaction of a claim against the late Government of Upper Burma, and of Rx 10,000 on account of expenditure incurred by the Company for guards owing to the disturbed state of the country

19 In the Budget Estimate for 1888 89, the total Land Revenue, including the portion due to Irrigation, which is shown in the Estimates under the Irrigation head of account, was Estimated at Rx 23,680,800 The Revised Estimate now shows the following increases and decreases —

	Increase		Decrease
	Rx		Rx
India	3,500	Lower Burma	71,500
Central Provinces	14,600	Bengal	21,000
Upper Burma	36,200	North-Western Provinces and Oudh	40,000
Assam	15,700		
Punjab	14,500		
Madras	78,500	TOTAL	132,500
Bombay	103,100		
TOTAL	266,100		
Deduct decrease	132,500		
Net increase	133,600		

Considering the magnitude of the Revenue under this head in the different Provinces, the various items of increase and decrease are of little importance, with the exception of the increases of Rx 103,100 in Bombay, of Rx 78,500 in Madras, and of Rx 36,200 in Upper Burma, and the decrease of Rx 71,500 in Lower Burma The decrease in Lower Burma is due entirely to the postponement of the date of the Land Revenue demand in two Districts, which transfers Rx 87,000 from 1888 89 to 1889-90 The increase in Bombay is stated to be due to prompt realisation of the demand, that in Madras is due to land newly brought under cultivation having raised the demand of the year and to expected advance collections, and in Upper Burma to growing receipts in that Province as order is established The decrease in Bengal and the North-

Western Provinces reflects the influence of an unfavourable season and poor crops in some places

20 The increase of Revenue under the group which comprises Post Office, Telegraph and Mint is made up as follows —

	Rx
Post Office	49,800
Telegraph	33,100
Mint	25 900
TOTAL	109,100

The increased revenue of the Post Office is due to the steady growth of the Department, the receipts of the Telegraph Department have increased from a similar cause and from the extension of private lines, while the increased revenue of the Mint is due to a larger amount of copper coin passing into circulation than was taken credit for in the Estimates

21 The increase of Rx 107,000 in receipts from Opium is entirely due to the rise in the price of the Bengal drug The increased revenue from this source alone has been Rx 444,600, against which has to be set a reduction of Rx 333,000 in duty on exports of Malwa Opium and a small falling off of Rx 4,600 under other heads The average price of Bengal Opium has been Rs 1,120, as against an estimate of Rs 1,042 In the Budget Estimate it was anticipated that duty would be paid on 35,350 chests of Malwa Opium It is now expected that duty will be paid on only 30,300 chests The rise in the price of the Bengal drug, and the reduced exports of Malwa, appear to have been due to short crops both in China and Malwa

22 The increase of Rx 96,200 in Excise Revenue is the net result of the following increases and decreases in the different Provinces —

	Increase Rx		Decrease Rx
India	1,700	Central Provinces	6,000
Lower Burma	42,000	Upper Burma	12,000
Bengal	5,000	Assam	1,200
Punjab	10,700	North Western Provinces and Oudh	11,000
Madras	40,000		
Bombay	27,000		
TOTAL	126,400	TOTAL	30,200

The increase in Lower Burma is due to an enhancement of the rate of duty, in Madras to the extension of the stricter system of excise, and the introduction of the tree tax system, and in Bombay and the Punjab to expansion of the revenue due to a good season and general prosperity

23 The increase under Irrigation is Rx 80,200, but there is an increase of expenditure on the other side of the Account amounting to Rx 48,500, making the net improvement Rx 31,700 The increase in Revenue is mainly due to higher direct receipts in the North-Western Provinces and Punjab and an increase in Madras of the portion of the Land Revenue due to Irrigation, and in the Punjab to the increased area under Irrigation from new Canals

24 The increase in Stamps of Rx 77,800 is distributed between all Provinces except Bengal, where a reduction of Rx 20,000 is expected

25 The increase of Rx 56,800 in Assessed Taxes is mainly due to the fol-

lowing changes In the "India" Account an increase of Rx 23,100 chiefly in interest on Government securities, in Bengal Rx 5,000 due to revision of assessments and realization of arrears in Madras Rx 10,000 from revision of assessments, and in Bombay Rx 9,200

The year 1887 88 was the second in which the Income Tax of 1886 was in operation, and though I have already completed the examination of the Accounts of that year in another place, it may be of interest if I state here that the smoother working of the administrative machinery is indicated by the reduction, in 1887 88, in the number of objections from 100,428 to 72,571, in the amount refunded from Rx 27,067 to Rx 19,949, and in the cost of collection from Rx 50,157 to Rx 28,679 The net collections amounted to Rx 1,382,808, and exceeded those of the previous year by Rx 105,297

26 The estimated falling off in the Salt Revenue is Rx 445,600, and it is due to a reduction in the quantity of salt on which duty was paid The question of the causes which have brought about this reduction is of importance, because it has followed the increase of duty which took place towards the close of last year I shall deal specially with this matter hereafter

27 Turning to the Expenditure side of the Account, we find a total increase in Expenditure proper of Rx 392,000, as well as an alteration in the Provincial adjustment of Rx 686,700, the result appearing as an increase on the whole Account of Rx 1,078,700

It will be convenient, in the first place, to divide the total increase of Expenditure into its three component parts of (1) rupee expenditure in India, (2) sterling expenditure in England, and (3) Exchange

In the Indian or rupee expenditure there has been an increase of Rx 208,800 in Imperial expenditure and a reduction of Rx 254,400 in Provincial expenditure In the English or sterling expenditure there is a decrease of £168,400 (true sterling), and notwithstanding this reduction in the gold payments, an increased charge on account of Exchange of no less than Rx 606,000 If the sterling expenditure had equalled the Estimate, the increased charge for Exchange would have been Rx 684,400 This increased charge on account of Exchange is due of course to the Budget Estimates having been calculated in March last at an exchange of 1*s* 4 9*d* per rupee, while in the Revised Estimate we have only been able to take 1*s* 4 38*d*

28 The principal heads under which increases of expenditure have occurred are the following —

	Increase Rx
Army	402 500
Railway Revenue Account	393,300
Interest on debt	189,100
Opium	93,800
Superannuation Allowances and Pensions	88,800
Political	51 800
Forests	39,700
Irrigation	48,500
TOTAL	1,307,500

The aggregate increase under these heads comes to Rx 1,307,500 Minor increases under other heads come to Rx 166,700, making a total increase of

Rx 1,474,200 Against this figure must be set decreases amounting to Rx 1,082,200, of which the following are the most important —

	Decrease Rx
Special Defence Works	303,200
Civil Works	221,600
Land Revenue	145,200
Stationery and Printing	71,000
TOTAL	741 000

The explanations of the increased expenditure under the Railway Revenue Account and Forests have already been given

29 The increased cost under Army is accounted for by an increase of Rx 210,000 in India, of £16,000 (true sterling) in England, and of Rx 176,500 for Exchange The increase in India is due to the Sikkim, Black Mountain, and Lushai Expeditions already mentioned, to the rupee payments to British Troops having been increased by the fall in the rate of Exchange, and to the introduction of the practice of fixing the rate of Exchange for the issue of pay to British troops serving in India for the half year only, instead of for the whole year, and to higher expenditure on account of dearness of provisions and forage (including compensation paid to Native Troops on this account) These increases were balanced to some extent by considerable savings in Military expenditure in Burma

30 The increased charge of Rx 189,100 on account of Interest on debt is made up of an increase of £68,100 (true sterling) in England, and a decrease of Rx 27,400 in India, *plus* an increase of the charge for Exchange amounting to Rx 148,400 The increase in the English sterling payment is due to the inclusion, under this head, of so much of the interest on the sum raised for the purchase of the Oudh and Rohilkhand Railway as was not chargeable to the Railway Revenue Account, and there is a corresponding receipt arising from the investment by the Secretary of State of a portion of his surplus cash balance owing to the favourable condition of the money market The loan was raised in April 1888 and payment was not due till 1st January 1889, except in the case of some of the debenture loans which matured intermediately Obviously, therefore, the Railway Revenue Account could not be charged with the interest, for the period April to 31st December, on any portion of the loan that was not applied to pay off debentures at maturity

31 The increase in the charge for Opium is due to a larger crop than was anticipated, and the increase under Superannuation Allowances and Pensions of Rx 88,800 is due, to the extent of Rx 72,800, simply to the increased exchange on the sterling payments made in England

The increased Political charge of Rx 51,800 is chiefly due to the payment of arrears of the subsidy of the Amir of Afghanistan, as well as to an advance payment on the same account of Rx 20,000

The increase in expenditure under Irrigation is the net result of a great many variations, amongst which may be mentioned a heavy increase in the Punjab (Rx 26,300) to repair damages by flood, and the classification of the Khushdil Khan Reservoir (Rx 26,124) in Biluchistan as a work to be constructed from Revenues instead of from Loan Funds, as was originally intended

32 The decrease of Rx 303,200 in the estimated expenditure on Special Defence Works is mainly due to a decrease in the estimated expenditure in England of £186,300 (true sterling) caused by the fact that payments for heavy guns for arming the Indian defences were not made as rapidly as was expected

33 The decrease in the expenditure on collection of Land Revenue is distributed over the several Provinces in the following manner —

	Decrease Rx
India	600
Central Provinces	24,900
Upper Burma	4,000
Lower Burma	16,100
Assam	4,000
Bengal	8,300
North Western Provinces and Oudh	49 500
Punjab	12 300
Madras	32 700
England	200
Exchange	100
TOTAL	152,700

Against this decrease is to be set an increase of Rx 7,500 in Bombay In the Central Provinces the saving is partly due to low expenditure on Survey and Settlement Operations and partly to the transfer of Forest Survey Charges to the head of Forests In Upper Burma it is due to provision having been made for reorganisation of the Commission from 1st April, whereas it actually took effect from 1st December In the North Western Provinces it is chiefly in Survey and Settlement Charges owing to cessation of operations in certain Districts The saving in the Punjab also occurs in Survey and Settlement expenditure, and that in Madras is due to the revision of Revenue Establishments not having been carried out as intended

34 The reduction in cost of Stationery and Printing is due to the demand for stores from England having been less than was anticipated

The reduced Estimate of Expenditure under Civil Works is due, under Imperial (Rx 31,800), to short outlay in Upper Burma and to the non completion of the Surveyor General's Office in Bengal and to payments in England for Light houses not having been made to the full extent anticipated, under Provincial, to outlay in the Central Provinces (Rx 37,600) having been postponed, while in Bombay the expenditure appears to have been over estimated (Rx 53,300) The expenditure from Local Funds in Bengal by Local Boards was also over-estimated (Rx 81,300)

35 The alteration in the Provincial adjustment arises in the following manner —

The Original Estimate of Provincial Revenue was Rx 21,668,100, and of Expenditure Rx 22,151,700, giving a Provincial deficit of Rx 483,600, which represents the Provincial adjustment of the Budget Estimate of 1888-89

The Provincial Revenue of the year is now taken at Rx 22,100,400, and the Provincial Expenditure at Rx 21,897,300, giving a surplus on Provincial Account of Rx 203,100, which represents the Provincial adjustment of the Revised Estimate

36 The outlay on Railways (not charged against Revenue) has fallen from Rx 3,444,500, as estimated in the Budget, to Rx 1,364,800, as provided in the Revised Estimate The greater portion of this apparent lapse, however, is nominal, and is due to the transfer from the State Railway account of the following sums—

	Rx
Past outlay incurred by the State on the Sindia State Railway transferred to the Capital Account of the Indian Midland	921,000
Katni-Umaria Railway transferred to the Capital Account of the Bengal-Nagpur	485,700

But, apart from this, the expenditure has fallen short of the provision to the extent of about Rx 673,000, the principal causes being the following Rx 200,000 were provided for the re purchase by the State from the Bengal-Nagpur Rail way Company of the old metre-gauge material of the Nagpur-Chhattisgarh line on the conversion of the gauge having been completed Up to date the rolling stock only has been taken over, and for this a purchaser has been found in the Southern Mahratta Railway Company The permanent-way and other metre-gauge materials have not yet been valued, so that the whole provision in the Budget has practically proved unnecessary

There have been further heavy lapses in the provision for the following items, which may be approximately stated, thus—

	Rx
Bolan High Level Line	147,500
North Western Railway (including Jhelum Pindi gradients)	143,000
Kandahar Reserve, due to heavy issues to the Chaman Extension	93,000
Sind Pishin Railway	67,000
Sind Sagar Railway	63,000
Bellary-Kistna	25 000
Jammu Kashmir	20,000

There have also been small excesses and lapses on other lines which it is unnecessary to detail It was found possible to provide about Rx 90,000 for expenditure on the Villupuram Dharmaveram line just commenced, and also for an increased outlay on the Chenab Bridge

37 The reduced estimate of Expenditure under Irrigation Capital expenditure from loan funds (Rx 107,000) is mainly due to the transfer of the Kushdil Khan Reservoir from this head to works chargeable to ordinary revenues (Rx 26,124) and to the inability of the Executive Engineers in the North West Provinces and Oudh to spend the full grants provided on the Jani Escape, Ganges Canal, and Nadrai Acqueduct (Rx 63,200)

Section IV —Estimates of 1889-90

38 The Revenue of the coming year 1889 90 is estimated at Rx 82,935,300, and the total Expenditure at Rx 83,469,800

The Provincial adjustment for the year is estimated at *minus* Rx 640,800, and consequently the expenditure chargeable against the Revenue of the year is Rx 82,829,000, and the estimated surplus is Rx 106,300 This surplus is obtained after including in the expenditure of the year a sum of Rx 1,102,900 on account of the cost of Special Defence Works Exchange has been taken at 1*s* 4 38*d* = 1 rupee

A comparison of the Budget Estimates of 1889-90 under the different heads with the Budget Estimates of 1888 89 will show the progress of Revenue and Expenditure during the year which is now drawing to a close

39 Before, however, proceeding with this comparison, it is necessary to give some explanation of a special arrangement which has had a considerable influence on the Estimates of the coming year It was explained in the Financial Statement for 1887 88 that the Provincial Contracts had been renewed with Local Governments for a further period of five years from 1st April 1887 The average annual gain to Imperial Revenues during the period of revision was stated to be Rx 550,000, in addition to which, a greater share in the improvement of the revenue was secured under the new arrangements It has been explained elsewhere in this Statement that the continued fall in exchange and growth of Military expenditure compelled the Government to raise the duty on salt and to impose

a tax on imported petroleum The Secretary of State, in sanctioning this additional taxation, examined and reviewed the financial relations between the Imperial and Provincial Governments, and pointed out the inequality of the existing arrangements which secure freedom from financial difficulties to Local Governments, while the Supreme Government may be passing through a phase of acute embarrassment The Government of India was requested to reconsider the propriety of arrangements which protected Local Governments from sharing in the financial responsibilities of the Empire, and from contributing to their relief

Proposals for an alteration in the financial relations between the Supreme and Local Governments, which virtually had the effect of terminating the Provincial Contracts of 1887 88, were made on 2nd October last These proposals met with much opposition, and it was decided to reserve for future determination a decision on the questions involved It was, however, settled as a temporary expedient, that each Local Government, except the Punjab, should make a contribution in aid of Imperial Revenues in 1889 90 The total of this contribution is Rx 740,000, and, with scarcely an exception, Provincial resources are so ample, that the contribution has been made without seriously affecting the financial position of any of the Local Governments

The contributions made by the several Local Governments are as follows —

	Rx
Central Provinces	30,000
Burma	50,000
Assam	10,000
Bengal	100,000
North Western Provinces	200,000
Madras	175,000
Bombay	175,000
TOTAL	740,000

In the case of the North-Western Provinces and Oudh and Lower Burma the contributions will be permanent In the former case the Local Government will be reimbursed its contribution by receiving the proceeds of the Patwari cess now about to be re imposed, in the case of Lower Burma the financial position of the Province had so far improved in recent years that a special annual grant of Rx 47,900, made to it in 1887 88, has been simply resumed

The important and difficult question of the nature of the future financial relations between the Supreme and Local Governments remains for future consideration

40 The Revenue of the year 1888-89 was estimated in March last at Rx 80,010,500, and the Revenue of 1889-90 is now estimated at Rx 82,935,300 The increase is Rx 2,924,800

The following are the principal heads under which the increase occurs —

	Increase Rx
Railway Account	1 501 800
Land Revenue	301,200
Provincial Rates	244,700
Post Office, Telegraph, and Mint	197,400
Irrigation	130,600
Excise	117,800
Receipts under Exchange	112,300
Stamps	105,100
Forest	98,000
Assessed Taxes	63,500
Customs	49,300
TOTAL	2,921,700

The total increase under the heads just specified comes to Rx 2,921,700, leaving a balance of Rx 3,100, which is the net result of variations under other heads of which the most important are, a decrease of Rx 193,900 under Opium and of Rx 92,600 under Salt

41 In the Budget Estimate of 1888-89 the receipts from Railways were estimated at Rx 15,184,700 For 1889 90 they are estimated at Rx 16,686,500, giving the increase of Rx 1,501,800 If we consider the expenditure side of the Account, however, we find that the estimated expenditure of Rx 17,299,600 in 1888-89 has risen to Rx 18,713,100 in 1889-90, showing an increase of Rx 1,413,500, the net improvement in the Railway Revenue Account is, therefore, only Rx 88,300

42 The variations in receipts of the Railway Account fall under the following heads —

	Increase+ Decrease—
	Rx
State Railways (gross receipts)	+1,362,600
Guaranteed Companies (net traffic receipts)	+155,000
Subsidized Companies (repayment of advances of interest)	—15,800
TOTAL Rx	1,501,800

The increased receipts of State Railways shown in the above figures are not altogether real, as they are exaggerated by the transfer of the Oudh and Rohilkhand Railway to this head from that of Guaranteed Railways The line was purchased by the State on 1st January 1889, so that the transactions relating to it, which were entered in the Budget of 1888-89 for nine months under Guaranteed Railways and for three months under State Railways, now appear in the Budget for 1889 90 wholly in the latter category

The principal increases and decreases of receipts occur in connection with the following lines —

STATE	Increase+ Decrease—
	Rx
East Indian Railway	—240,000
Rajputana Malwa	+100,000
Bengal-Nagpur	+95,000
Tounghoo Mandalay	+85,000
Eastern Bengal System	+90,000
Oudh and Rohilkhand	+550,000
Indian Midland	+400,000
North Western Railway	+200,000
Mysore Railway	+54,600
TOTAL	1,334,600

GUARANTEED	(Net receipts)
	Rx
Madras	20,000
South Indian	40,000
Bombay Baroda	15,000
Great Indian Peninsula	310,000
Oudh and Rohilkhand	—230,000
TOTAL	155,000

The cause of the increase and decrease in the case of the Oudh and Rohilkhand line has been explained In the case of the Indian Midland, Bengal-Nagpur, Tounghoo Mandalay, and Mysore it is due to the opening of additional lengths of line

On the remaining lines noticed, the estimate has been fixed principally on a consideration of the current year's results The very serious falling off on the East Indian Railway has been explained in dealing with the Revised Estimate The opening of the Indian Midland will probably still further affect the receipts, but to what extent it is impossible to foretell

The falling off is fortunately more than covered by the increase on the Great Indian Peninsula line The estimated gross receipts of this line show an anticipated increase of Rx 400,000 over the Budget of the year about to close, the estimate is based on the traffic of the past twelve months, which has shown a steady improvement, likely not only to be maintained but to be still further augmented by the opening of the Indian Midland and Bengal Nagpur Railways The opening of the Indian Midland may, on the other hand, tend to reduce the earnings of the Rajputana Malwa and Bombay Baroda lines, so that there is considerable uncertainty in framing the Estimates this year of individual lines taken as a whole the estimate is likely to prove a fairly correct one

To meet the increased traffic on the Great Indian Peninsula Railway, it has been necessary to raise the estimate of Working Expenses by Rx 90,000, showing a net increase of Rx 310,000

43 Turning to the Expenditure side of the Account, it will be found that there has been an increase of Rx 1,177,900 in the Indian or rupee portion of the transactions, a decrease of £11,600 (true sterling) in the English expenditure, and an increased charge of Rx 247,200 on account of Exchange

The increase in working expenses of State Railways is mainly due to the Oudh and Rohilkhand Railway being treated as a State line for the whole year, to the opening out of new lines, and to increase of traffic on lines already open

An item appears for the first time in the Estimates, namely, "Interest chargeable against Companies for advances of Capital" It represents interest on moneys, raised directly by the Secretary of State under the provisions of the Oudh and Rohilkhand Railway Purchase Act, to meet expenditure incurred by Companies in preference to allowing Companies to borrow themselves It is found that Capital can be raised on more favourable terms in this way

The increase in the charge against Revenue for Exchange is wholly due to the fall in value of the rupee, the estimated sterling expenditure, other than on account of Revenue stores, being actually less than in the current year, in addition to the amount shown on this account, Rx 247,200, a large sum, representing a further loss, is concealed in the working expenses, as explained in dealing with the Revised Estimate

44 Considering the very heavy increased burdens on account of the fall in exchange and bearing also in mind the fact that in recent years a very large amount of Capital has been expended on lines for the defence of the Frontier, which cannot be expected to prove remunerative, a net improvement, though only of Rx 88,300, cannot be considered unsatisfactory

The rapidity with which the construction of Railways has been pushed on, and the influence of the fall in exchange, had, however, an injurious influence

on the net results of the Railway Revenue Account in recent years, as will be seen from the following figures —

	Net Receipts + Net Expenditure — Rx
1880 81	—1,044,203
1881 82	—285,955
1882 83	—1,306,194
1883 84	—305,239
1884 85	—1,051,751
1885 86	—731,713
1886 87	—1,188,668
1887-88	—2,122,386
1888 89 (Revised Estimate)	—2,264,900
1889 90 (Budget Estimate)	—2,026,600

The net loss on the Railway Account has increased from Rx 1,044 203 in 1880 81 to Rx 2,026,600 in the Estimates of 1889-90

The following figures show the rate at which Railways have been constructed at the cost, or on the responsibility, of the Government since 1880 —

Date	No of miles open	No of miles under construction
31st March 1880	8,382	1,037
1881	9 134	539
1882	9,437	1,155
1883	9 748	1,552
1884	10,188	2,185
1885	10 824	2,809
1886	11,173	2,969
1887	12,000	2,557
1888	12,918	1,882
1889 (Revised Estimate)	13 671	1,438

Between March 1880 and March 1889 the number of miles open has increased from 8,382 to 13,671, or by more than 63 per cent

TOTAL CAPITAL EXPENDITURE

To end of—	State Railways	State Railways constructed through the agency of Companies	Guaranteed lines	Total	Annual Progress
	Rx	Rx	Rx	Rx	Rx
1879 80	28 007 395		96 829 969	124,837,364

1886 87	108,456 220	7 915,378	57 046 325	173,417,923	9,896,071
1887 88	110,788 941	12,979 680	57,694,898	181 463 519	8,045 596
*1888-89 Revised	122 507,721	18 254 330	49 116 331	189 878,382	8,414,863
1889-90 Budget	126 079 721	20,890,990	49 840 731	196,811,442	6,933 060

The average yearly expenditure of capital on Railways has been Rx 7,197,000

45 Land Revenue (including the portion due to Irrigation) is estimated to increase by Rx 340,300, distributed in the following manner —

	Increase Rx
India General	3,400
Central Provinces	29,300
Lower Burma	81,400
Upper Burma	68,300
Assam	10,700
North Western Provinces and Oudh	47,200
Punjab	36,700
Madras	28,600
Bombay	50,700
TOTAL	Rx 356,300
Deduct falling off in Bengal	16,000
NET INCREASE	340 300

Rx 39,100 of the increase is credited as irrigation revenue In the Central Provinces, North Western Provinces, and the Punjab the increases are due to settlement operations, and in the case of the last mentioned Province also to collection of arrears A large portion of the increase in Lower Burma is due to the postponement of the demand from the current year, and the remainder to revised assessments, and to the resumption from certain Local Funds of receipts which they formerly obtained, a fixed contribution being given them as compensation The increase in Madras is due to a higher percentage of collections being anticipated, and in Bombay to reduction of arrears and suspensions In Upper Burma the increase is due to the gradual development of the country

Provincial rates are estimated to increase by Rx 244,700, due almost entirely to the receipts expected from the re imposition of the Patwari cess The Revenue classed under this head is appropriated to Local purposes and shown in the Local column in the Estimates

46 The receipts under Irrigation are expected to increase by Rx 130,600, but there is an increased charge of Rx 32,400, giving a net improvement of Rx 98,200

The increase in Revenue is due to increase of direct receipts from Irrigation in the North-Western Provinces and the Punjab, and to an increase in the Land Revenue due to Irrigation in Madras and Bombay The increased expenditure is chiefly due to increase in the charge for interest owing to additional capital expenditure

47 Post Office, Telegraph, and Mint—The net account of these Departments stands as follows —

	Net Estimate 1888 89 Surplus + Deficit—	Net Estimate, 1889 90 Surplus + Deficit—	Improvement.
	Rx	Rx	Rx
Post Office	—118,100	— 54,800	+ 63 300
Telegraph	— 36,700	— 10 300	+ 26 400
Mint	+103,900	+125,500	+ 21,600
TOTAL	— 50 900	+ 60,400	+111,300

The improvement in the case of the Post Office is due to steady progress of the Department The figures just given do not profess to be a strict Profit and Loss Account of the working of the Departments concerned They represent merely the difference between the Revenue and Expenditure as recorded in the

Accounts and Estimates, but they are sufficient for the purpose of indicating the financial progress of the Departments

48 The increase of Rx 117,800 in the case of Excise and of Rx 105,100 in the case of Stamps is generally distributed over the several Provinces with the exception of Bengal, where a decrease of Rx 50,000 in Excise revenue is anticipated on the ground that the unfavourable crops and the changes which are being introduced in the management of the Excise may have an unfavourable effect on the Revenue for a time

49 The increase in Customs (Rx 49,300) is mainly due to large exports of rice anticipated from Burma in 1889 90

The Petroleum tax when it was first imposed was expected to give a Revenue of Rx 100,000 on a total import of 32,000,000 gallons It is expected to give in the current year a Revenue of Rx 115,000 on an import of 38,000,000 gallons And for 1889 90 it is expected to give Rx 120,000

50 I have already explained the nature of the Receipts under Exchange In the Budget Estimate of 1888 89 these Receipts were estimated at Rx 415,000, in the Revised Estimate for that year the figure has been raised to Rx 951,800, due largely to the addition of a credit now estimated at Rx 266,000 which was not included in the Original Estimate owing to a difference of opinion as to the proper method of dealing with it in the Accounts The estimate of these receipts in 1889 90 is Rx 527,300 The large decrease is due to reduced capital expenditure on some of the Subsidized Railways now approaching completion

51 In the case of Forests the improvement expected in Revenue is Rx 98,000, against which must be set an increase of expenditure amounting to Rx 30,700, giving a net improvement of Rx 67,300 This improvement is due to increased Revenue in Upper and Lower Burma

52 Under Assessed Taxes the increase of Revenue is expected to be Rx 63,500 The expectation of an increase is based on the results of the current year

53 The decrease of Rx 193,900 under Opium is due to an increase of Rx 159,600 under Bengal opium, the selling price having been taken at R1,070 instead of R1,042 as in the current year's Estimates, and to a decrease of Rx 347,000 under Malwa opium owing to an expected reduction in the number of chests exported, from 35,350 to 30,000

54 For Salt we have taken a moderate estimate of Rx 8,029,900, which is Rx 353,000 more than the Revised Estimate, and Rx 92,600 less than the Budget Estimate for the current year A large increase over the receipts of the current year is expected, as the falling off this year is mainly due to unfounded rumours of an immediate reduction of the duty

55 The Expenditure of 1889 90 is estimated at Rx 83,469,800 as compared with an estimated expenditure of Rx 81,192,100 for 1888 89, showing an increase of Rx 2,277,700 which requires explanation

The Provincial Adjustment is *minus* Rx 640,800 as against an adjustment of *minus* Rx 483,600 in the Estimates of 1888 89

The increase of Rx 2,277,700 is made up of an increase of Rx 1,651,500 in the rupee portion of the Account, of a decrease of £39,700 (true sterling) in the Home Account, and of an increase of Rx 665,900 in Exchange The increase in Exchange of Rx 665,900 is almost entirely due to the fall in the value of the rupee, the alteration in the rate of exchange for converting the pay of the British troops which is fixed in gold but payable in rupees, adds an additional charge to the Military expenditure of about Rx 195,000, so that the additional expenditure for which the Government of India has to provide has been increased in one year by Rx 860,900 on account of the fall in Exchange

56 It will facilitate explanation of the various increases or decreases, if the heads of expenditure are dealt with in the first instance according to the grouping which is generally adopted in the Accounts

The following statements show the groups under which (I) increases and (II) decreases have occurred —

I		Expenditure Increased
		Rx
Railway Revenue Account		1,413,500
Army		1,005,700
Salaries and Expenses of Civil Departments		192,900
Post Office, Telegraph, and Mint		86,100
Irrigation		32,400
Famine Relief and Insurance		27,300
	TOTAL	2,757,900

II		Expenditure Decreased.
		Rx
Interest		149,800
Direct demands on the Revenue		133,000
Buildings and Roads		110,500
Miscellaneous Civil Charges		34,700
Construction of Railways (charged against Revenue)		33,600
Special Defence Works		18,600
	TOTAL	480,200

The aggregate of increases is Rx 2,757,900 and of decreases Rx 480,200, giving a net increase of Rx 2,277,700

57 The causes of the increase under Railway Revenue Account, Post Office, Telegraph and Mint, and Irrigation have already been explained

By far the most important of the other increases is that under Army The total increase of Rx 1,005,700 is made up of an increase in rupee expenditure of Rx 477,000, in English expenditure of £245,500 (true sterling), and of Rx 283,200 under Exchange The increased charge for Exchange is chiefly due to the fall in the value of the rupee, and the increases, of which special explanation is necessary, are an increase in the Indian Estimates of Rx 477,000, and an increase in the English Estimates of £245,500 (true sterling)

Taking the latter item first it may be said with practical accuracy that the increase in the Home Expenditure is due to provision made for the purchase of Magazine rifles and 12 pounder breech-loading guns However much the Government of India may regret that it should be necessary to incur such expenditure, it is not possible to avoid it, without placing the Indian Army in a position of inferiority as compared with that of other countries The cost of these rifles and guns accounts for £206,000 (true sterling) of the Home expenditure

As regards the increased cost of the Army in India, it will be obvious that the increase to the number of troops, European and Native, must give rise to petty increases in the various Departments that deal with them, and minor reforms account in the aggregate for a perceptible amount of increase. But the

greater portion of the increase is due to special measures of which the most important are the following —

	Rx
Provision for rapid mobilisation of an Army Corps in case of necessity	203,500
Exchange on pay of British Troops	195,000
Provision on account of Troops in Sikkim	100,000
Ditto ditto Lushai Country	10,000
Increased cost of provisions, including compensation for dearness of provisions and forage	79,500
TOTAL	588,000

The total comes to Rx 588,000, but there is a saving of Rx 220,000 in the extra cost of troops in Burma, so that the additional cost is reduced to Rx 368,000 The difference of Rx 109,000 between this figure and the total increase in India of Rx 477,000 is due to the minor elements of increase to which I have just referred, balanced to some extent by savings under other heads

The sum of Rx 203,500 on account of mobilisation is intended to meet the cost of purchasing transport animals, provisions, and equipments, so that in case of need an Army Corps may be in a position to take the field promptly This is one of these precautions which in the present days of scientific warfare cannot safely be neglected The greater portion of the cost will be incurred once for all, and will not recur The pay of the British troops is fixed in sterling, and as the Exchange falls, the number of rupees which they are entitled to receive increases In the Estimate of 1888 89 the rate was taken at 1*s* 5½*d*, it has now been fixed at a much lower rate, and the change has added Rx 195,000 to the estimate of expenditure for 1889 90

58 The increased expenditure on Salaries and Expenses of Civil Departments is mainly due to the entertainment of additional Police The increase of expenditure on Police is Rx 168,800, and of this Rx 125,600 is on account of Police in Upper Burma There is also an increase of Rx 45,200 in Bengal, due to Government undertaking to bear the whole cost of the Police of the Presidency Town There is also some increase in Madras, due to a provision for giving a special allowance to officers in charge of Police Stations

59 The decrease of Rx 149,800 under Interest is made up of a decrease of Rx 21,300 in the rupee portion of the Account, of a decrease of £167,400 (true sterling) in the English Account, and an increase of Rx 38,900 in the charge for Exchange

The statement below brings together the net charge for interest on debt in India and in England excluding that incurred for Railways and Irrigation Works —

In thousands of Rx

	1880-81	1881-82	1882-83	1883-84	1884 85	1885-86	1886-87	1887 88	1888 89 Budget	1888 89 Revised	1889-90 Budget
India	1 139	987	1 049	697	703	450	123	9	182	157	113
England	2 144	2,457	2 458	2 418	2 578	2,420	2 556	3 300	2 584	2,529	2,397
Exchange	435	506	564	552	626	762	961	1 386	1 086	1,176	1,114
TOTAL	3 718	3 950	4 071	3 667	3 907	3 632	3 640	4 695	3 852	3 862	3 624

It will be seen from these figures that the net charge for interest on ordinary debt has not varied much between the years 1880 81 and 1889 90, if the year 1887 88 is left out of consideration The irregular result in that year arises (*a*) in India, from (1) about Rx 90,000 of the interest charges having

remained unpaid at the end of the year, and (*a*) the realisation of arrears due on the Kidderpore Dock loan, and (*b*) in England, from special charges amounting to about Rx 1,059,000 having fallen into that year in consequence of the conversion of about £28,200,000 of 4 per cent Stock into 3½ per cent Stock The gradual diminution of the net burden of debt in India is of course due to the transfer to the Capital Account of Railways and Irrigation Works of their portion of the debt, and means that the expenditure on Capital construction has exceeded the amounts borrowed by public loans The decrease in England in 1889 90 is accounted for by the conversion of £53,262,000 of 4 per cent Stock into 3½ per cent Stock, which reduces the yearly interest charge by £266,300 The increase in Exchange requires no explanation

60 The decrease under "Direct Demands on the Revenues" is Rx 133,000 It occurs under Opium cultivation and manufacture (Rx 190,400), Collection of Land Revenue (Rx 55 000), and Stamps (Rx 40,700) The other heads in this group, except Customs, show increases The expenditure on Opium cultivation and manufacture is determined by the amount of crude opium produced The area under cultivation in the present season is 14 per cent less than last year, and the produce is estimated at 15 per cent less Our reserve is unusually large and is expected to stand at 49,705 chests at the end of 1889 With a reserve of this magnitude it is obviously desirable to temporarily contract production, and this policy has been adopted in making the engagements for the present season The decrease under Collection of Land Revenue occurs under Survey and Settlement charges, and that under Stamps is owing to smaller indents for supplies of stamped paper from England

61 The reduction under Buildings and Roads of Rx 110,500 is due to a reduction of Rx 110,600 in Civil Works Of the decrease under Civil Works, Rx 96,200 is in Imperial expenditure, and is owing to the completion of the bulk of the Frontier Roads and other Imperial Works On the other hand, a large Imperial grant (Rx 298,100) is still being made for Civil buildings and roads in Upper Burma, and it is hoped that the Light houses on Oyster Rock and Savage Islands on the Burmese coast will be completed

62 The reduction in Miscellaneous Civil Charges is the net result of a number of increases and decreases, of which the most important are an increase of Rx 118,000 on account of Superannuation Allowances and Pensions, and decreases of Rx 47,500, Rx 81,000, and Rx 40,000 under Territorial and Political Pensions, Stationery and Printing, and Miscellaneous

The increase in Superannuation Allowances is very largely due to the increase of Exchange on sterling pensions, the decrease in Political Pensions to the death of the Ex-King of Oudh, and the decrease under Stationery and Printing to a reduced demand for stores from England

63 In the Budget Estimates of 1888 89 Provincial Revenues were estimated to yield Rx 21,668,100, and Provincial Expenditure was taken at Rx 22,151,700, the Provincial Adjustment being *minus* Rx 483,600

In the Estimate for 1889 90 Provincial Revenues are taken at Rx 21,781,300, and Provincial Expenditure at Rx 22,422,100, and the Provincial Adjustment is *minus* Rx 640,800

CAPITAL EXPENDITURE

64 The provision in 1889 90 for Railways not charged to Revenue varies but little in the aggregate from the original provision of the previous year, thus—

	India Rx	England £	Exchange Rx	Total Rx
1888 89	2,062,800	973,000	408,700	3,444,500
1889 90	1,697,100	1,273,000	591,900	3,562,000

The Mandalay Extension, for which a heavy grant was made in 1888 89, is now practically completed, and for the Sind-Pishin, Sind-Sagar, and Assam-Behar lines, which are approaching completion, a comparatively small sum is required The grants for the Chaman Extension and for the Chenab Bridge are about the same as in last year, and provide for the completion of the latter work

On the other hand, a provision of Rx 1,021,600 is made for the Villupuram-Dharmaveram line, which is to be constructed by the South Indian Railway In this figure a very large sum is included for English expenditure (£436,000).

Other new works are an extension of the Eastern Bengal Railway to Budge Budge (Rx 90,000), Barrakar branch (Rx 110,000), Peshawar Jamrood (Rx 70,000), and a small provision for ferry arrangements over the Kistna

Section V.—General Financial Position

65 Having now explained the Estimates of Revenue and Expenditure for 1889-90, I propose to make a few remarks on the general financial position and the prospects of the future The special difficulties with which Indian finance has to contend are, War, Famine, the fall in Exchange, and the reduction of the Revenue from Opium On the question of War I can say little, petty frontier wars are almost certain to occur at intervals, but their cost is not such as to seriously embarrass the finances I am not aware of any reasons for thinking that War on a large scale is likely to occur in the immediate future, but expenditure must be incurred as an insurance against national danger The country has happily escaped Famine for a decade, but we have no ground for assuming that the climatic conditions of the Indian continent have changed, and that there will never be drought sufficient to produce famine

66 Regarding the future of Exchange, it is impossible to give a confident opinion Before the year 1873, gold and silver were never used as legal standards without the regulating influence of a system of double legal tender, and there is consequently no experience in the past to which we can appeal in forming our opinion as to the probable course of events in the future The sanguine declare the rupee will soon be worth two shillings, the despondent anticipate a further fall of undefined magnitude

I cannot pretend to arbitrate between these conflicting views But during the last 15 years the great falls in the value of the rupee have coincided to an extent, which can hardly be the result of accident, with corresponding falls in the gold prices of commodities If this law should hold good in the future, the gold value of the rupee will not again fall largely and suddenly unless the gold prices of commodities fall

I will venture to depart so far from the safe attitude of reserve, as to say that, if there is another heavy fall in gold prices, it will probably be accompanied by another heavy fall in the gold price of silver At present gold prices have ceased to fall, and there is even a slight tendency to a rise

67 It is needless to say that the question of the future relations between the gold and silver standards is one of great importance for India The present condition is not one of permanent equilibrium Either there will be continuous progress in the direction of demonetising silver and substituting gold, or the world will revert to the old system of double legal tender In the former case our financial difficulties will probably be greater in the future than they have been in the past, and it is impossible to forecast the ultimate result, in the latter case we may have to pass through a severe convulsion caused by foreign nations attempting

to restore the old ratio of 1 to 15½ between gold and silver If we are unable to join with them in attempting to settle the question by international agreement, we cannot expect them to consider our interests in any course which they may think fit to adopt

In the interests of India a sudden reversion to the old ratio of 1 to 15½, brought about by the action of foreign countries, and the continuous and progressive demonetisation of silver, accompanied with a fall in the value of the rupee to an unknown and unlimited extent, are alike to be deprecated Yet if the question is not dealt with by international agreement, we must accept the risks and inconveniences of either the one result or the other, unless we are prepared to choose the heroic and hazardous remedy of adopting a gold standard Nor is it possible for us to conjecture at what time the action of the United States and the continental nations of Europe may bring on a crisis either of the one kind or the other

For these reasons it is of paramount importance to India that an attempt to settle the question by international agreement should be made No other course affords a prospect of a safe solution to be gradually carried out with the minimum of disturbance to existing interests It is to be hoped that, if any prospect of a settlement appears, India shall not be required to subordinate her interests to the needs, or supposed needs, of countries which may desire to maintain the single gold standard

68 The future of the Opium revenue is surrounded with almost as much uncertainty as the question of Exchange There has been, during the current financial year, a considerable rise in the price of the Bengal drug, but that rise appears to have been due, in a very large degree, to poor crops in Malwa and China, and has been accompanied with a large falling off in the exports of Malwa Opium

Already the price of Bengal Opium has fallen from its highest figure of R1,244 a chest in November to R1,126 a chest at the sales of the present month

69 The dangers I have just indicated are of a general nature We must also anticipate some falling off in revenue in the immediate future from two special causes As I have explained elsewhere, we expect to receive in the coming year a contribution of Rx 740,000 from Local Governments Of this amount Rx 250,000 is permanent, being made up of Rx 200,000 from the Patwari cess and about Rx 50,000 from Lower Burma The balance of Rx 490,000 we receive for a single year only, and unless other arrangements can be made, we must be prepared to accept a reduction of Rx 490,000 in the Estimates of 1890 91 There is also a credit of Rx 527,300 arising from receipts on account of exchange on the capital transactions of Railway Companies This credit must soon disappear, with a corresponding reduction in revenue It may then be said that temporary causes give us an additional revenue of Rx 1,017,300 in 1889 90, which is not permanent, and which will be largely reduced in future years, and will ultimately disappear altogether

70 But I should give a very erroneous opinion of our position if I were to dwell only on the difficulties and dangers of the future There are hopeful as well as discouraging elements, and I may say at once that in my judgment there are no grounds for a despairing or pessimistic view of Indian finance If we could get rid of the exchange difficulty, I should be prepared to adopt a hopeful view of the future, and if there were in addition no risk of a great war, I should look forward to our progress in coming years with as much confidence as it is ever safe to feel in financial matters

71 Among the more encouraging features in Indian finance is the elasticity

of the ordinary revenue It is true that we have not many new sources of revenue open to us, but the receipts from existing sources grow with satisfactory rapidity The figures which I have given in comparing the Budget Estimates of 1888 89 with the Budget Estimates of 1889 90 have made this point sufficiently clear, and I need not add anything more on the subject

72 In Upper Burma, too, we appear to have turned the corner and may now look forward to steady reduction of the net charge which that Province imposes on the finances

The account for Upper Burma stood as follows in the Estimates of 1888 89 —

	Rx		Rx
Revenues	547,000	Civil Expenditure—	
		Police	732,000
		Other Departments	339,00
		Military Works	190,000
		Civil Works	314,000
		Irrigation	23,000
		Army Special Expenditure	824,000
		TOTAL	2,422,000

The net charge was Rx 1,875,000

In the Estimates of 1889 90 the account of Upper Burma stands thus —

	Rx		Rx
Revenues—		Civil Expenditure—	
State Railways	115,000	Police	868 200
Other Revenues	755,200	Other Departments	366,400
		Railways (including Interest on Railway Capital)	192,800
		Military Works	150,000
		Civil Works	298,100
		Irrigation	20,000
		Army Special Expenditure	600,000
	870,200		2,495,500

The net charge is Rx 1 625,300

A net improvement of Rx 249,700 in a single year is an encouraging symptom, especially as there is every ground for supposing that the improvement will continue The improvement is really greater by Rx 77,800, as the account now presented includes a net charge of Rx 77,800 on account of railways, which is not charged in the Estimates of 1888 89, and which we may hope will very soon disappear

73 It should also be recollected that in recent years we have had to bear the burden of a considerable increase to the Native and European Army That increase has been completed and its cost provided for, with the exception of the expenditure on the Reserve for the Native Army, which will not be great

Heavy expenditure has also been incurred on Frontier Railways The total estimated cost of these Railways is Rx 13,410,700, of which Rx 10,083,300 will have been met at the end of this month, and Rx 1,191,800 is provided for in the Estimates of 1889 90, leaving only Rx 2,135,600 for future years

74 We have also been carrying out an extensive scheme of Coast and Frontier Defences, estimated to cost Rx 5,449,515 (which is charged against Revenue), of which Rx 1,850,768 will have been expended by the end of this year, and Rx 1,102,900 is provided for in the Estimates of the coming

year, leaving Rx 2,495,847 to be incurred in subsequent years There are also special charges in the Estimates for next year of Rx 110,000 for the Sikkim and Lushai Expeditions, Rx 203,500 for thoroughly equipping at least one army corps with transport, and of Rx 301,800 on account of magazine rifles and 12-pounder breech-loading guns The former charge will not recur, and though considerable expenditure may be necessary for a time on account of rifles and guns, the charge is not a permanent one

75 It would be rash to assume that we are able to foresee the end of all special military expenditure In such matters there is no finality, new dangers may arise involving further preparations and additional expenditure, but the figures I have given are sufficient to show that the sacrifices which the country has been called on to make in recent years have not been in vain, that the original programme of military defences is approaching completion, and that there is at least some prospect of a material alleviation of existing burdens within the next few years

76 The improvement of means of communication by the opening out of Railways is exercising a marked beneficial influence on the country, and India is entering on what I hope may prove to be but the beginning of a prosperous industrial career No better example of the change that is taking place can be found than the progress of the cotton spinning industries

In 1880 81 there were 13,307 looms and 1,470,830 spindles at work, employing 39,537 people In 1887 88 there are no less than 18,840 looms and 2,375,739 spindles and 80,515 people at work

The exports of Indian yarn and cotton cloth were valued at Rx 1,909,134 in 1880 81 In 1887 88 they came to Rx. 5,227,928, and the returns of the current year show still further progress

These are results of which India may well be proud, they have been achieved without the fostering aid of Protective Tariffs, or any special assistance from Government, and are due to the patient industry and intelligence of the Indian people, and to the enterprise of her capitalists who have begun to avail themselves of the natural advantages of the country, under these circumstances it may confidently be anticipated that the ground that has been gained will be maintained, and that still greater progress will be made in the future

Nor does there seem to be any good reason why India should not very shortly undertake the manufacture of iron and steel on a large scale with success

77 I have tried to state fairly both the probable difficulties of the future, and the reasons that exist for holding that we shall be able to encounter them successfully, and my deliberate conclusion is that while there is every need for economy and for husbanding our revenue, there is no ground for despondent or pessimistic views Unless some unforeseen disaster occurs, there is every reason to hope that the lapse of two or three years will show a decided improvement in the financial position of the Government of India It is true that the surplus which we have been able to show in the Estimates of the coming year is little more than nominal, only Rx 106,300, but the Estimates have been framed with great moderation, and if the Indian revenues continue to exhibit their usual elasticity and no unforeseen disaster occurs, I anticipate that the Financial Statement of 1890 91 will show decided improvement

Section VI —Falling off in the Revenue from Salt.

78 As a preliminary step in dealing with the question of the causes of the falling off in the Salt Revenue during the current year, I wish to point

out that the quantity of salt paying duty in any year is not a perfect test of the quantity of salt actually consumed in that year by the people There is always a large amount of salt in the hands of dealers, and a falling off in any one year in the quantity of salt paying duty may represent a reduction in the quantity of salt in the hands of dealers, and not a reduction in the quantity of salt actually consumed It would be rash to jump to the conclusion that a reduction in the quantity of salt paying duty necessarily represents an equivalent reduction in the quantity of salt actually consumed

It will also be convenient to treat Burma separately from the rest of India, as that Province has been subject to special conditions

The consumption of salt (using consumption in the sense of the quantity on which duty was paid) has been as follows since 1882 83, excluding Burma —

	Maunds
1882 83	28,720 000
1883 84	29,338,000
1884 85	31,348 000
1885 86	30,606 000
1886 87	32,200,000
1887 88	31,186,000

In 1884 85 the recorded consumption increased by 2,010,000 maunds, or 6 8 per cent

In 1885 86 there was a falling off of 742,000, or nearly 2 4 per cent

There is no ground for assuming that in 1884 85 there was anything approaching to an increase of 6 8 per cent in the quantity of salt actually consumed by the population, and there is just as little ground for supposing that in 1885-86 there was a falling off in the real consumption of 2 4 per cent

These variations were due entirely, or almost entirely, to trade fluctuations, and the actual consumption of salt in 1884 85 per head of population was probably not, in any considerable degree, higher than in 1883 84, and was not lower in 1885 86 than in 1884 85 I state these figures, in order to show that an increase or decrease in the quantity of salt that pays duty in any one year does not necessarily indicate a corresponding increase or decrease in the quantity actually consumed

79 Opinions vary as to the effect on the real consumption of a rise of duty Some authorities hold that it has very little effect, others that it has a considerable effect Experience seems to show that the truth lies between the two opinions, and that a rise in the rate of duty has an appreciable, but not a very great, effect on the real consumption But a rise in duty may have a considerable temporary effect on the trade and on the quantity of salt on which duty is paid, especially when rumours prevail that the rise in duty is not likely to be permanent

80 The raising of the rate of duty in January 1888 was followed by reduced issues, and rumours regarding an impending reduction of the duty have had an unfavourable effect on the trade during 1888 89 In Northern India persistent rumours have prevailed of an impending change, and it was believed that the rise in the rate of exchange which took place in January 1889, would so improve the position of the Government of India as to lead to the reduction of the duty These rumours have had the effect of checking issues and causing traders to keep their stocks at a minimum No trader was willing to pay a duty of ₹2 8 a maund on salt, so long as it was expected that the duty would be shortly reduced

This state of affairs was accentuated and brought to a crisis by a telegram sent by Reuter's Agency on the 1st of March and published in the Indian newspapers of the following day The telegram stated that the Secretary of State for India, speaking on 28th February, had said that " he was convinced that the earliest occasion should be taken to abrogate the increase in the salt tax "

The telegram was published on a Saturday On the following Monday sales of salt in Bombay began to fall off, and by Tuesday they had practically ceased On that day only one application was received for the removal of 267 maunds of salt The salt merchants applied to the departmental officials stating that trade was paralysed, and enquiring whether it was true that the duty was to be reduced On the 5th of March one firm telegraphed direct to the Government of India in the same sense

On the 9th and 10th of March the Government of Bombay drew attention to the disturbance to the trade, and on the 12th the Accountant General telegraphed that the estimate of salt receipts must be reduced for that Province alone, by nearly 16 lakhs of rupees, as salt sales had ceased since the 4th of March

The Commissioner of Northern India Salt Revenue telegraphed on the evening of 15th as follows —

"Trade is disturbed by telegram published locally on second instant Lord Cross's opinion regarding salt duty understood to mean that reduction is imminent Collections fell from average ₹55 000 to under ₹1,000 daily from fourth to eleventh In consequence of the contradiction published on twelfth trade is since recovering Collections on twelfth were ₹16,000, on thirteenth ₹38,000 Progress is watched'

The recent news is more favourable, as the rumours of an intention to reduce the duty have been contradicted through the agency of the Press But the magnitude of the effect of these rumours on the Revenue will be understood when I explain that at the end of February the estimate of salt revenue for the current year was Rx 7,840,700, whereas it is now taken at Rx 7,676,900, a reduction of more than 16 lakhs of rupees No doubt, this amount will be to a very great extent recovered, but probably too late to materially affect the revenue of 1888 89

81 There have been other causes also at work which unfavourably affected the salt revenue In Calcutta, the trade was greatly disorganised after the increase of the duty, and the price of salt (free of duty) rose from 11 5 annas a maund in December 1887 to 28 3 annas a maund in February 1888, but has since fallen to 14 6 annas a naund in February 1889

In Madras, where the Government was giving up its monopoly of manufacture, the manufacturers and traders secured something like a monopoly for themselves with the natural result of raising the price to the public The salt revenue of the year has also been adversely affected by the want of rain and prospects of a bad harvest in certain tracts I mention these facts not with the view of showing that the increase of the salt duty can have no effect on consumption, because I cannot believe that an increase of 25 per cent should not have some effect, but in order to make it clear that there is as yet no ground for assuming that the falling off in the issues of salt, which has occurred, is permanent, and due to the increased cost which the public have to pay for that article The publication of the present Financial Statement will dissipate the fears of an immediate reduction of the salt duty, and we shall doubtless see an increase of the issues

82 The following figures giving the total quantity of salt on which duty was paid from the beginning of the financial year to 22nd February for a series of years shows the amount of falling off in the current year (Burma excluded) —

	Maunds
1882 83	25,068,000
1883-84	25,832,000
1884 85	27,093,000
1885 86	26,714,000
1886 87	27,603,000
1887-88	27,847,000
1888 89	26,797,000

These figures show distinctly that there had been a considerable falling off before Reuter's telegram was received, but the quantity that paid duty up to 22nd February in the current year is larger than the quantity which paid duty in any year previous to 1886 87, and is 1,729,000 maunds, or 6 9 per cent in excess of the quantity that paid duty in 1882-83, the first year after the duty was reduced Even allowing for increase of population, the issues of salt in the current year to 22nd February last are sufficient to provide as large a quantity of salt per head of population as in 1882-83

83 In Lower Burma there has been a great falling off in the quantity of salt that paid duty in 1888 89, but that falling off is mainly due to the excessive imports of the preceding year

The following figures show the quantity of salt that paid duty every year up to 22nd February for a series of years —

	Maunds
1881 82	973,000
1882 83	972 000
1883 84	1 152,000
1884 85	1,562,000
1885 86	930,000
1886 87	1,160,000
1887 88	1,841,000
1888 89	235,000

The falling off in 1888-89 which seems excessive at first sight, is explained by the great imports of 1887-88, the average for the two years being not much below the normal quantity

Salt is locally manufactured on the sea coast in Burma, and there is a certain amount produced from brine wells in Upper Burma The local manufacture is, from the nature of the case, insufficiently supervised, and an experienced officer of the Northern India Salt Department has just been deputed to Burma by the Government of India to enquire into the whole question on the spot It is said that the increase in the rate of duty on salt interferes to some extent with the local production of *ngapi* and salted fish, and has led to an increased import of salt fish from abroad The facts are, however, obscure, and a final opinion cannot be formed until the report of the officer specially deputed to Burma has been received

Section VII —Excise Policy

84 I take this opportunity of correcting a misapprehension which has arisen in some quarters regarding the policy of the Government of India in connection with the Excise Revenue Last year Mr Westland used the following language in the Legislative Council—

"I look hopefully to a considerable increase in the Excise Revenues, and believe that a great deal might be done in Northern India by the introduction of the methods which, in Bombay and Madras, have so powerfully contributed to the increase of revenue under this head."

With reference to this language it has been alleged that Mr Westland expressed gratification at the prospect of an increase in drinking among the Indian population on account of the increased revenue which such a change in the habits of the people would produce I make no insinuation of wilful misrepresentation against those who have brought this charge, nor do I say that they acted otherwise than in good faith, and yet the charge is absolutely without foundation Mr Westland used the language which I have quoted in the Legislative Council of the Government of India, and in the presence of the Members of that Council His remarks passed without challenge Is it conceivable that if he had meant, or been understood to

mean, that the people of India should be encouraged to drink in order that the revenues of the Government of India might grow, there would have been found not a single Member of that Council, official or non official, to protest against the adoption of such a policy?

85 Less than two months afterwards the Financial Statement for 1888-89 was published under Mr Westland's signature, and in that statement he used language which puts his meaning beyond the reach of cavil The words he used were as follows —

"As regards Excise it will be seen that it is in Madras and Bombay that the revenue administration has been most successful, as these two provinces with 31 and 16½ millions of inhabitants respectively produce a revenue nearly as large as that of Bengal with 69 millions In fact, in both these Provinces, a very remarkable progress has been made The whole system of distillation has been brought more thoroughly under control, and stricter and more methodical preventive measures have enabled the Government to greatly enhance the rate of duty for the question of the rate of duty which it is possible to levy, is simply the question of the prevention of illicit distillation"

Mr Westland's expectation was that by the prevention of illicit dealings, it would be possible to raise a larger revenue, the increase of revenue being accompanied not by an increase of, but by a check on, drinking To show that there really was, and is, extensive smuggling in Northern India, I will quote a passage from the report of the Financial Commissioner of the Punjab, who is now the Lieutenant-Governor of that Province, for the year 1881 82 —

"Mr Hawkins, the Deputy Commissioner of Amritsar, says—'There were twelve cases of illicit distillation It is notorious that there are few villages in this district which have no private stills of their own The police are constantly finding pieces of stills and jars of materials in deserted houses while searching for other property' The Lahore District has also a bad reputation in this respect The Deputy Commissioner of Jullunder, Mr Bullock, writes—'Illicit distillation is of very general occurrence throughout the district Twenty four cases have been detected, and it is to be hoped that some check will be found to have been given to the system, which, however, we can never expect wholly to extirpate'

"In Hoshiarpur the khansama of a dâk Bungalow was found to possess a still, and there were three cases in which villagers were convicted of the same offence Sirdar Gurdayal Singh, the Assistant Commissioner in charge of Excise, says that illicit distillation is carried on in some villages of the Gurshankar Tahsil He adds—'These cases of illicit distillation it is very difficult to detect and to prove Generally they distil during the night and keep good watch all round In one village, it is said, they distil the wine on the banks of the Bein stream, and whenever their sentinels espy any stranger approaching the place, they throw down all the materials, &c, into the stream, and leave no trace behind But it prevails only in villages where the inhabitants are united and have confidence in each other'

"The Deputy Commissioner of Jhang, Mr Macauliffe, strongly suspected the existence of the practice among powerful zemindars living in remote jungle villages Whenever liquor shops in Native States are situated close to our border, it is a common practice for our villagers to resort to them, and they often bring back small quantities of spirits for their own use and that of their friends Even when the Sadr distillery system has been adopted at the request of our Government in independent States, the price of liquor is far less than in our own territory This must be due to lower rates of still-head duty The Assistant Commissioner in charge of excise at Sirsa Mr Kennedy, says—'In Patiala spirits are sold at about eight annas a bottle, not differing much in quality from the Sirsa spirits at Rı 8 a bottle The only hope of grappling with the existing evil is to lower the price of Sirsa spirits so as to bring them into competition with the Patiala spirits Any other method is impracticable The Sikh Jats will drink, and we cannot wean them from the practice by making the cost of liquor high, the only effect of this is to demoralize them by leading to a continual evasion of the law without any corresponding benefit in increased sobriety'

"There is probably some exaggeration here Mr Lyall is inclined to believe that

the dearness of lawfully distilled liquor had led to a decrease in drinking among the Sikh population, but to an increased use of opium and perhaps also of bhang"

The Lieutenant Governor, before whom this Report was placed, was Sir Charles Aitchison, who throughout his whole service had striven to reduce the consumption of liquor and drugs, and the following passage will show the views which he then entertained —

"In paragraph 15 of the Report, the Financial Commissioner has dwelt on the loss caused to the Excise revenue by illicit distillation and by the smuggling of country spirits into British districts from Native States It is no doubt difficult, if not impossible, entirely to put an end to the latter practice, though the chief Native States of the Province have, at the request of the Punjab Government, accepted the system of Sadr distilleries to the restriction, it is believed, of smuggling, at least in some degree But as regards the former evil, His Honour cannot consider it creditable to the magistracy of the Province that the unlawful manufacture of spirits should prevail unchecked and unpunished to the extent alleged"

86 The state of things which these extracts show to have existed in the Punjab in 1881 82 is the state of things which has continued to exist up to the present time

In May 1887 the following opinion was expressed by a Punjab officer —

"The Excise Department in this Province has never been properly supervised and controlled for the simple reason that the Department has never had a responsible head, and has been left to take care of itself with such perfunctory attention as district officers have been able to pay to it I can speak on this point from twenty four years of district experience in various parts of the Province The extent to which country spirit is illicitly manufactured and sold is enormous, and the quantity so disposed of is in my opinion as large as that which is lawfully sold and the Excise revenue is therefore much smaller than it would be if the Department were carefully controlled"

It is right that I should mention that the Financial Commissioner did not accept these remarks in their entirety He remarked that the "description of Excise management in the Punjab must, in the absence of specific evidence, be regarded as exaggerated," but no authority, so far as I am aware, has ever denied that there was, and is, a very great amount of smuggling and of illicit distillation in that Province

87 I have now shown that when Mr Westland, speaking on behalf of the Government of India, anticipated an increase of Excise revenue in Northern India, he based his expectation of an increase not on the possibility of being able to increase the consumption of liquor and drugs, but on the prospect of being able to increase the revenue by means of a stricter control and the suppression of illicit practices I shall show by one or two instances that the policy which Mr Westland favoured had already proved a marked success in other Provinces, both in respect of checking consumption and increasing the revenue

From 1st October 1884 a new system of Excise Administration was introduced into a portion of the Madras Presidency The change in system resulted in a rise in the price of country liquor, varying from 8 annas to one rupee per gallon

For five years the consumption of spirits and the revenue in the districts where the manufacture is centralised in large distilleries were as follows —

	Consumption in gallons reduced to 30 under proof	Revenue
		Rx
1883 84	1,204 241	280,977
1884 85	Year of transition	
1885 86	1,014,566	347,526
1886 87	1,084,474	380 213
1887 88	1,270,146	415,319

The average annual consumption of the three years of the new system is less than the consumption of the last year of the old system by more than 6 per cent, while simultaneously the average annual revenue increased by more than 35 per cent These figures show conclusively that a large increase of Excise revenue is not necessarily attended with an increase of consumption, and may coincide with a positive decrease

88 A still more remarkable illustration of the possibility of increasing the Excise revenue while diminishing the consumption is afforded by the statistics of the consumption of ganja in Bengal Ganja is probably the most pernicious of all drugs in common use, and the Government has never felt any hesitation in increasing the rate of duty leviable on it

The following statement shows the number of shops licensed for the sale of ganja, the quantity of ganja consumed, the total revenue, and the incidence of taxation per seer for every year from 1868 69 to 1887-88 —

	No of shops	Consumption	Total Revenue	Taxation per seer
		Mds	Rx	R
1868 69	4 073	8,442	89,524	2 6
1869 70	4,437	8 667	92,521	2 6
1870 71	4 749	9,682	103 251	2 6
1871 72	4,934	9,972	106,275	2 6
1872 73	4,694	8,593	110,028	3 2
1873 74	4,398	8,125	107,785	3 3
1874 75	4,394	7 830	105 818	3 3
1875 76	3,340	7,389	112,035	3 7
1876 77	3 130	7,458	119 711	4 0
1877 78	3,247	8,197	138,566	4 2
1878 79	3,244	5,460	134,555	6 1
1879 80	3,210	5,137	129,016	6 2
1880 81	3,411	5,600	145,467	6 4
1881 82	3 488	6,431	171,379	6 6
1882 83	3,271	5 646	186,050	8 2
1883 84	3,298	5,881	197,371	8 3
1884 85	3,196	5 798	198,760	9 0
1885 86	3,033	5,717	194 662	8 5
1886 87	3 046	6,264	207,567	8 2
1887 88	2,949	6 550	224,497	8 5

Notwithstanding the large increase of population which must have taken place between 1868 69 and 1887 88, the number of shops for the sale of ganja has decreased by more than 27 per cent, and the consumption by more than 22 per cent, while simultaneously the revenue has increased by more than 150 per cent, and the incidence of taxation per seer has increased by more than 226 per cent These figures may be left to speak for themselves The reduction during the same period in the number of shops for the sale of opium and in the quantity of opium consumed is even more remarkable than in the case of ganja, but there has not been the same increase of revenue, mainly, I believe, because opium smuggling prevails extensively

89 In mentioning this subject my object has been to defend my predecessor against the charge which has been brought against him, and indirectly against the Government of India, of encouraging intemperance for the sake of revenue, and it must not be supposed that I have been dealing with the whole Excise system of India, or that I intend to assert that that administration has been as successful in every instance as in the cases which I have quoted

Section VIII —Ways and Means—Home Treasury

90 The Secretary of State's Revised and Budget Estimates of the transactions at the Home Treasury for 1888 89 compare as follows —

	Budget	Revised
Net Receipts		
	£	£
Council Bills	14 000 000	14,310,100
Receipts from Railway Companies for Capital expenditure	5,667,800	2,545,100
Deposits and Advances	4,500	800
Permanent Debt—India 3½ per cent stock issued for the discharge of a like amount of 4 per cent stock		4,030,700
3 per cent stock ssued for purchase of the Oudh and Rohilkhand Railway and the discharge of its debentures as they fell due		6,921,000
Debentures and Debenture stock taken over by the Secretary of State		3,415 000
Add Opening Balance	5,614,329	5,900,697
TOTAL	25,286,629	37,123,397
Net Outgoings		
Excess of expenditure over Revenue	15,028 700	14,714,300
Capital expenditure of Government in England	973,000	792,200
Issues to Railway Companies for expenditure	5 915,300	2,550,000
Capital charge involved in redemption of liabilities Purchase of the Oudh and Rohilkhand Railway		10 336,000
Permanent Debt—Discharge of 4 per cent stock		3 730,700
On account of Remittances from India	1,091,200	1,150,400
Add Closing Balance	2,278,429	3,849,797
TOTAL	25,286 629	37,123,397

The most important variations from the Budget Estimate have occurred in the transactions connected with the discharge of the 4 per cent stock remaining unconverted in October 1888 and the purchase of the Oudh and Rohilkhand Railway These are explained below

CONVERSION OF 4 PER CENT INTO 3½ PER CENT STOCK

91 It was explained in the last Financial Statement that the terms offered by the Secretary of State for conversion of the 4 per cent into 3½ per cent stock were accepted by a majority of the holders Out of a total 4 per cent stock of £53,261,820, only £4,030,700 remained to be paid off in October 1888 For the discharge of this sum, 3½ per cent stock for an equal amount was issued at par, but it is believed that the whole of the outstanding stock will not be presented for payment during the current year, and that £300,000 will remain unclaimed until 1889 90 No entries were made in the Budget Estimates of the current year on account of these transactions, as it could not be foreseen how much of the stock would remain unconverted

PURCHASE OF THE OUDH AND ROHILKHAND RAILWAY

92 No provision was made in the Budget Estimate on account of the purchase of the Oudh and Rohilkhand Railway, as the nature of the offer to be made to the Company had not been determined at the time The terms upon which the purchase has been made are, briefly, that the Company has been paid £125 18*s* -0½*d* for every £100 of its share capital, and that out of a total amount of £5,300,000

of debentures and debenture stock issued by the Company, debentures for £1,885,000, which fell due during the current year, have been discharged by the Secretary of State, and the liability for debentures and debenture stock for £3,415,000 has been accepted by him The total amount required for the purchase of the Railway and the discharge of the debentures was £6,921,000, which was raised by the Secretary of State by the issue of £7,206,531 of 3 per cent stock

AIDED RAILWAY COMPANIES

93 The variations in the transactions of the Railway Companies will appear from the following figures —

Receipts from	Budget	Revised
STATE—		
On account of subscribed capital—	£	£
Bengal Nagpur Railway	1,032 700	513,500
Indian Midland Railway	1,121,100	2,022,800
Southern Mahratta Railway	500,000	
Miscellaneous Receipts		3,100
GUARANTEED—		
For discharge of debentures—		
Great Indian Peninsula Railway	1,069,000	
Madras Railway	60,000	
Oudh and Rohilkhand Railway	1,885,000	
Miscellaneous Receipts		5,700
TOTAL	5,667,800	2,545,100
Issues to		
STATE—		
On account of stores, establishment charges, &c —		
Bengal Nagpur Railway	871,000	892 900
Bengal Central Railway	2,000	2,000
Indian Midland Railway	635,000	421,000
Southern Mahratta Railway	241,000	214,600
GUARANTEED—		
For discharge of debentures—		
Great Indian Peninsula Railway	1,069,000	200
Madras Railway	60,000	
Oudh and Rohilkhand Railway	1,885,000	
On account of stores, &c	1,152,300	1,019,300
	5,915,300	2,550,000

In the Budget Estimate it was anticipated that the debentures of the Oudh and Rohilkhand, Great Indian Peninsula and Madras Railway Companies falling due in the current year would be discharged by the Companies by raising fresh capital In the case of the Great Indian Peninsula and Madras Railway Companies the debentures were, however, renewed, and the Oudh and Rohilkhand Railway debentures were, as mentioned above, discharged by the Secretary of State by the issue of India 3 per cent stock The additional capital expected to be raised by the Indian Midland Railway Company is mainly owing to the transfer to the Company of the Sindia Railway, as the Company has to repay the Government the capital cost of the line

94 The following is the Secretary of State's Budget Estimate of Ways and Means for 1889 90, made up in the same form as above —

Net Receipts	£
Council Bills	14,689,900
Permanent Debt for Advances to Companies	3,750,000
Receipts from Railway Companies	515,000
Add Opening Balance	3,849,797
TOTAL	22,804,697

Net Outgoings	
Excess of expenditure over Revenue	14,956,100
Capital expenditure of Government in England	1,273,000
Permanent Debt—Discharge of 4 per cent stock	300,000
Issues to Railway Companies for expenditure	3,056,700
Deposits and Advances	2,700
On account of Remittances from India	1,069,500
Add Closing Balance	2,146,697
TOTAL	22,804,697

95 By the Oudh and Rohilkhand Railway Purchase Act, the Secretary of State has been authorised to raise in London, in addition to the amount required for the purchase of the Oudh and Rohilkhand Railway, further amounts up to a limit of £10,000,000 for the purpose of advancing funds to Railway Companies, when it may seem more economical to do so than to authorise them to raise debenture capital under his guarantee The exercise of this power forms the most important feature of the Secretary of State's Ways and Means Estimates of next year The total capital required to meet outlay in England and India by the Aided Railway Companies will be £3,750,000 in addition to the balances at their credit, and the whole of this will be raised by the Secretary of State by a sterling loan The Secretary of State also proposes to draw £14,689,900 of Council Bills during the year It should be fully understood that, in stating these as the present intentions of the Secretary of State, no sort of pledge is given that he will adhere to the programme thus explained, and he will be absolutely at liberty to raise the money by bills or by loans from time to time as he deems expedient

Section IX —Ways and Means—India, 1888-89

96 The following figures compare the Budget Estimate of Ways and Means of 1888-89 with the Revised Estimates —

NET RECEIPTS

	Budget	Revised
	Rx	Rx
1 Excess of Revenue in India over the Expenditure charged against it	20,642,800	21,354,600
2 Public Loan	3,000,000	2,777,500
3 Increase of Unfunded Debt—mostly Savings Bank Deposits	845,300	1,043,700
4 *For Remittance to Secretary of State*	1,020,700	1,142,200
Add Opening Balance	13,733,100	13,883,701
	39,241,900	40,201,701

		Budget	Revised
	NET OUTGOINGS		
5	Expenditure charged to Provincial Balances	483 600	—203,100
6	Capital Expenditure of Government in India	2,662,800	697,200
7	Loans to Municipalities &c (chiefly the Calcutta and Bombay Dock Loans)	486,800	510,900
8	Other items (*a*)	472 500	811,900
9	*Issues on Capital Account to Railway Companies, against receipts in England*	2,895 900	3 345,800
10	Council Bills *Sterling Account*	14,548,500	15,119,900
11	Do Exchange	6 110,400	7,019 100
	Add Closing Balance	11,581,400	12,900,001
		39,241,900	40,201,701

The transactions recorded in italics are connected with and explained by the corresponding figures of the Secretary of State's account in England The others are purely Indian transactions

(*a*) The explanation of this is omitted as it would be of a highly technical character It arises to a very large extent out of the exchange entries that are necessary in charging off exchange upon the English expenditure and in connection with Railway Companies and other Remittance accounts

RUPEE LOAN OF 1888 89

97 By Notification No 2952, published in the *Gazette of India, Extraordinary*, of 2nd June 1888, tenders were invited for a Public Loan of Rx 3,000,000, the notes issued for this amount to form part of the 4 per cent Loan of 1865 Tenders were received up to the 3rd July following, on which date they were opened simultaneously at Calcutta, Madras, and Bombay The total amount tendered was Rx 7,705,680, and the result was as follows —

	Rx
Accepted at minimum rate, *viz*, R99 11 (60 45 per cent)	493,150
Above that rate	2,506,850
TOTAL	3 000,000

The actual amount realised was Rx 2,993,650, or an average rate of R99 12-7 per 100 Rupees

The permission to tender at Madras was an innovation intended to satisfy a local demand, and was made use of to some extent, the aggregate value of the tenders at Madras was Rx 686,000, of which Rx 82,550 were accepted

The account in paragraph 96 shows a net receipt on account of Public Loan of Rx 2,777,500 and not of Rx 3,000,000 It will be understood that the difference of Rx 222,500 represents the reduction of debt during the year, in connection with the conversion of the 4½ per cent Loan of 1870, and payment of Stock Notes and other loans under discharge

CONVERSION OF 4½ PER CENT LOAN OF 1870

98 The 4½ per cent Loan of 1870 matured on the 15th July 1885, and as 4 per cent paper was above par in July last, it was determined to convert the Loan into one bearing interest at 4 per cent, and to pay off all Notes which were not converted It was accordingly notified on the 27th July 1888 that all Notes or Stock Certificates of this Loan would be paid off on the 27th October 1888, on which date the interest on them was to cease But proprietors of such Notes or Stock Certificates were allowed the option, which had to be exercised

before 1st September 1888, of transferring their holdings into the 4 per cent Transfer Loan of 1865 The terms offered were as follows —

I —Payment of Interest at 4½ per cent to 31st October 1888 inclusive

II —Issue of Notes of 4 per cent loan of 1865, bearing interest from 1st November 1888

III —A further payment of two annas per R100 in India and of two pence per R100 in England as brokerage or commission to the persons presenting the Notes for transfer

These terms were very generally accepted Rx 1,490,000 out of Rx 1,787,540 were at once transferred into the 4 per cent Loan of 1865 and less than Rx 200,000 have been demanded in cash

99 In order to distribute the payments for interest more evenly over the year, it was decided in December last to allow transfers from other 4 per cent Loans to the Loan of 1854 55, of which the dates for payment of interest are 1st January and 1st July It is expected that this will prove convenient both to the Public Debt Office and to the holders of Stock

Stock Notes

100 With the object of affording greater facilities to the public for the investment of small sums at interest, securities termed Stock Notes were issued in 1882 as an experimental measure

These notes were of four denominations, namely, R12½, R25, R50, and R100 respectively They were issued at par and bore interest at 4 per cent payable yearly, but were not enfaceable to Europe After six years' experience it was found that the public would not adopt these securities as a regular form of investment, and it was decided to discontinue their further sale and to withdraw, as far as possible, those in circulation, amounting to Rx 162,350, by substituting for them Government Promissory Notes of the 4 per cent Loan of 1842 43 Accordingly in August last, orders were issued, authorizing (1) the payment in cash at par at any Treasury in India of Stock Notes of less value than R100, and (2) the conversion into Government Promissory Notes of the 4 per cent Loan of 1842 43 of any amount of Stock Notes tendered in even hundreds of rupees, at a premium of eight annas per cent (altered to par from 24th January last)

The following amounts of Stock Notes were reported as discharged up to the end of February last, namely —

	R
Tendered for conversion	10,68,000
Paid off in cash	3,31,686 8
TOTAL	13 99 686 8

leaving R2,23,813 8 as the balance outstanding on the 1st March 1889

Indian Savings Banks

101 There are two classes of Savings Banks, namely, (*a*) the Presidency and Post Office Banks, which are open to the public, and (*b*) Banks established for the benefit of servants of Government, such as the Railway and Civil Engineers' Provident Institutions and the Regimental Savings Banks

In class (*a*) there were, on the 31st of March 1888, 300,560 depositors, with an aggregate balance of Rx 6,217,700 at their credit, and in class (*b*) 31,616 depositors with Rx 457,800, making a total of 332,176 depositors, to whom Rx 6,675,500 were due Of this amount more than Rx 5,100,000 had been

received from Natives, and the balance from Europeans and Eurasians In the previous year there were 289,277 depositors in all, with Rx 5,795,200 at their credit There was therefore an increase in 1887 88 of 42,899 in the number of depositors and of Rx 880,300 in the amount deposited in excess of withdrawals Moreover, in all Banks, except the Military ones, the average balance at credit of each depositor was considerably larger than in 1886 87

The interest paid to depositors in 1887 88 was Rx 224,049, and only Rx 196,910 in the previous year

It is no doubt very satisfactory to be able to point to such evidence of the growing popularity of these Banks But as facilities for persons residing in the interior of districts for investing money in Government securities have of late years been considerably extended, and as Savings Bank Depositors are allowed to purchase and sell these securities through Post Office Banks, and also to deposit them for safe custody, it seemed unnecessary and, for some reasons, it was certainly undesirable, to maintain the existing high limits for deposits Accordingly, on the 19th January 1889, orders were issued directing that, with effect from 1st April next, the yearly limits of deposits should be reduced from ₹500 to ₹200, and the maximum limit for each account from ₹3,000 to ₹2,000 It has been estimated that the effect of these orders will be to make the net addition to our cash balances in 1889 90 on this account only Rx 564,500, the corresponding figures in 1887 88 and 1888 89 (Revised Estimate) being Rx 880,300 and Rx 981,300

Capital Expenditure of Government in India

102 The reduction in the Estimate from Rx 2,662,800 to Rx 697,200 is the result, as explained in paragraph 36, of the credits afforded (*a*) by the transfer of the cost of the Sindhia Railway to the Capital Account of the Indian Midland Railway (Rx 921,000), (*b*) by transfer of the cost of the Katni Umaria Railway to the Capital Account of the Bengal Nagpur Railway (Rx 485,700), (*c*) to a provision of Rx 200,000 for taking over metre gauge stock from the Bengal Nagpur Railway, not having been required as part of the stock has not yet been valued, and the Southern Mahratta Company took over the rest, and (*d*) to various lapses

Calcutta and Bombay Dock Loans

103 In the last Financial Statement it was explained for what reasons and under what conditions the Government undertook to raise and advance, to the Port Trustees of Calcutta and Bombay, funds for the construction of the Kidderpore Docks, and for the extension of Prince's Dock

The advances made on this account by the Government to the Port Trustees of Calcutta and Bombay have been as follows —

Advances	Calcutta Rx	Bombay Rx
Up to the end of 1887 88	860 700	768,400
In 1888 89 (*a*)	496,800	80,000
TOTAL	1,357,500	848,400

In 1889-90 the Trustees will, it is estimated, require funds to the following extent —

Calcutta Rx	Bombay Rx
549,000	35,000

(*a*) Partly estimate

Interest is payable on all these sums half-yearly, on the 1st May and 1st November of each year, at the rate at which Government borrows money in India in the year in which the advances are made, and the repayment of the principal is secured by a sinking fund of one per cent

The further amount which the Government will have to advance on these accounts after 1889 90 is estimated at Rx 426,100

Issues on Capital Account to Railway Companies

104 The increase from Rx 2,895,900 to Rx 3,345,800 is the net result of over-estimates by the Companies, and of the transfer, as explained above, of the cost of the Sindhia Railway to the Capital Account of the Indian Midland Railway and of the Katni Umaria Railway to that of the Bengal Nagpur Railwa

Management of Government Balances

105 The present year has seen a great scarcity of money in the Indian markets, which has kept the Bank rate at 12 per cent for a considerable period, and, as usually happens in such cases in this country, the question has been raised whether Government might not in some way come to the assistance of trade

The scarcity is no doubt owing in part to an early cotton season in Bombay coinciding with a demand for rice in Burma, and other customary requirements at this season, but the root of the difficulty appears to be the doubtful position of silver But for this, it seems inexplicable that for week after week there should be a difference of 9 per cent in the rate of money in London and India, and yet that in some weeks the whole amount of bills and transfers offered by the Secretary of State should not be taken up

106 That Government has not been unmindful of the fact The best way in which Government can assist trade is by providing that the Secretary of State's drawings shall never be curtailed for lack of money to meet them, and in one week demands for bills and telegraph transfers exceeded 77 lakhs Arrangements are also made to grant telegraph transfers freely at a small charge between the three Presidency towns, and Government, besides keeping up the normal current balances, has further been able to offer to the Presidency Banks at Calcutta and Bombay temporary loans at their own minimum rate of interest if they cared to avail themselves of the offer

107 As the Treasury balances are nearly two crores below last year, and in fact lower than they have been for twenty years at this season, all this would scarcely have been possible without the assistance derived from what are called "currency transfers," a system which, while preserving the Reserve of the Paper Currency Department intact for the payment of the currency notes, yet gives the advantage of a large balance that can be made available without the delay of actual remittance, wherever it may be wanted Thus in the present month the accruing revenue of the opium districts has been allowed to remain in those districts in the charge of a currency agency, an equivalent being immediately released to the Treasury in Calcutta, a fortnight hence this money will be wanted for payments to opium cultivators in the districts, but by that time the Land Revenue from Eastern Bengal will have been received, and being in like manner made over to the Currency Department will liberate the coin where it is wanted

108 The charge that Government does not do all it might to assist trade, sometimes takes the form of an assertion that the currency balances

should be lent out in a time of pressure This is of course impossible, as the currency balances are pledged by law to secure the convertibility of the currency notes, and can no more be lent to the market than can the gold in the Issue Department of the Bank of England

109 Another contention is, that the cash balance of the Government of India is too high Now the question whether the Government cash balance is too high or too low, is one that must be determined by the experience of those who actually deal with that balance, and are responsible for seeing that there is sufficient money in the treasury to meet all the claims against Government

I do not think I exaggerate when I say that every person who has experience of the actual work of dealing with the balances in this country is in favour of rather a high cash balance The question has been frequently considered both in India and in England, and though a cash balance of 10 to 13 crores may seem enormous, yet if we reflect on the special difficulties in the way of suddenly obtaining a large amount of cash in this country, on the sudden and large demands to which Government is exposed, and on the enormous extent of country over which the balance has to be spread, it will easily be recognised that the mere fact of the cash balance being large is no proof that it is larger than is required by the wants of the case

Some authorities hold that, if anything, the Indian cash balance has been kept somewhat too low in recent years In that opinion I am inclined to concur The cash balance of recent years has been low, because the claims against the Government were heavy owing to expenditure of all kinds, and it was thought desirable to avoid borrowing more than was absolutely necessary

110 I have mentioned the allegations (1), that Government ought to lend out the currency balance, and (2), that Government keeps too high a cash balance, simply in order to bar the ground There is no force in them, and they could only be made by persons ignorant of the facts of the case I now [illegible] of the maintenance of the Reserve Treasuries in the Presidency Towns Should the Government keep the whole of its spare cash in the Presidency Banks, or should it aim at keeping balances of tolerably constant amounts in those Banks, the surplus being kept in the Reserve Treasuries? This is a question which deserves consideration, and on which there may reasonably be a difference of opinion, though I can hold out no hope of any change in the policy of Government in this respect

The justification for the existence of the Reserve Treasuries is to be found in the special conditions affecting the Indian money market These special conditions are the liability of that market to extreme pressure at times, the difficulty in adding temporarily to the amount of cash by drawing on other markets, and the magnitude of the cash transactions of the Government as compared with those of the trade Under the circumstances I have just stated, and looking to the fact that the Government in case of war, famine, or other unexpected cause, is exposed to the risk of having to meet sudden and large demands on it for cash, it was decided by Lord Northbrook's Government that it would be to the interest both of the commercial public and the Government of India that the surplus cash, for the time being, of the Government of India in excess of certain regulated balances in the Presidency Banks and the cash balances in Reserve Treasuries, should be kept in Reserve Treasuries

that, if the whole of the surplus cash was kept in the Presidency Banks and rely on the permanence of the resources thus supplied to it, in the event of a sudden demand for cash, the Government of India would be obliged to abandon its right to reduce its balance in the Presidency Banks, thereby causing a financial crisis by suddenly and largely reducing the balances in the Presidency Banks

To show that this is not an imaginary fear, I will quote a telegram received in 1874 from the Government of Bombay —

"Clear the line You are placing the exchange banks and trade of Bombay in great danger The eight Exchange Banks are indebted to the Bank of Bombay 68 lakhs of rupees, half payable on demand secured by Government paper and remainder in February Their balances for current purposes in the Bank of Bombay are under 20 lakhs of rupees, balance of other customers of Bank of Bombay exceedingly low Bank of Bombay has to meet Council Bills for 25 lakhs of rupees arrived from England this morning, and similar Bills for 20 lakhs of rupees will shortly arrive Bills on Calcutta absolutely unsaleable If you draw more on Bank of Bombay, they must call in the sums due from the Exchange Banks and there will be a general panic and serious danger of stoppages'

There was at that time a Government balance of about 100 lakhs in the Bank of Bombay, and the proposed withdrawal, which called forth this startling protest from the Governor of that Province, only came to 35 lakhs I do not think a stronger argument could be produced to show the dangers that might arise if the Government of India reverted to the old system of keeping all its spare cash in the Presidency Banks The arguments which weighed with the Government of India in introducing the system of Reserve Treasuries are contained in a Despatch to the Secretary of State, No 256, dated 30th June 1874, it has been printed in the Appendix to this Statement It will show that the policy of the establishment of Reserve Treasuries was adopted deliberately and in order to meet real difficulties

111 It has been urged that Government could relieve the market by lending out the balance of the Reserve Treasuries on favourable terms to the Banks, but if this course were followed the same difficulties that arose when the Presidency Banks held the whole of the surplus balances would again occur Trade would become accustomed to rely on the resources furnished by the Government, and at a time of pressure the withholding of the assistance usually given by Government might have a very serious effect

Section X.—Ways and Means—India, 1889-90

112 The Ways and Means Estimate of India, made up in the same form as in paragraph 96, is as follows —

	NET RECEIPTS	Rx
1	Excess of Revenue in India over the Expenditure charged against it	22 016 900
2	Public Loan	2,500 000
3	Increase of Unfunded Debt—mostly Savings Bank Deposits	629,700
4	*For Remittance to Secretary of State*	1,11 ,300
	Add Opening Balance	12,900 001
		39,158,901

	NET OUTGOINGS	Rx
5	Expenditure charged to Provincial Balances	640,800
6	Capital Expenditure of Government in India	2 224 600
7	Loans to Municipalities, &c	827,706
8	Other items	170,400
9	*Issues on Capital Account to Railway Companies against receipts in England*	1,221,400
10	Council Bills *Sterling Account*	14,690,900
11	Do Exchange	6,829 800
	Add Closing Balance	12,553,301
		39,158,901

PROPOSED RUPEE LOAN

113 It is estimated that a loan of Rx 2,500,000 will be required during the year, but no pledge can be given either as to the amount of the loan or the time when it will be issued, or the conditions which will attach to it According to the estimates, a loan of Rx 2,500,000 will give an ample cash balance, and if matters turn out favourably, it may not be necessary to borrow so much We expect, with this assistance, to close 1889 90 with a cash balance of Rx 12,553,301

LOANS TO MUNICIPALITIES, &c

114 Before 1838 89 all loans and advances of public money were treated as advances on Imperial account The loans were made on the advice and through the agency of Local Governments, and Local Governments were so far responsible that irrecoverable sums were charged off as Provincial Expenditure But they had no concern with the punctual and complete realisation of the interest due on these advances, which was credited as an asset of Imperial Revenue At the instance of the Secretary of State the arrangements were re considered, and the occasion was thought appropriate for extending the principle of decentralisation beyond the limits of the Revenue account The interest received on these loans is almost always higher than that paid by Government on its public loans, and by surrendering this advantage it was obvious that an inducement might be offered to Local Governments to undertake complete responsibility for the administration of this department of finance This responsibility was accepted in every case, the necessary arrangements were completed last year, and orders were published in the *Gazette of India* of 5th

115 In connection with this subject the question of lending from public funds to Municipalities and other public bodies was considered It was believed from the Secretary of State's observations in a despatch of September 1887, that, under the arrangements described above, sanction might be given to a relaxation of the restrictive policy which has been followed in this matter since 1876

116 Experience has shewn that the rigid refusal to lend money to small Municipalities and Local Boards has operated unfavourably in delaying and preventing sanitary improvement and reform It has been found that such bodies cannot raise money in the market, except at high rates of interest, and Municipalities have in several cases found it necessary in consequence to abandon, or indefinitely postpone, well considered schemes of drainage and water-supply The Government of India accepted the Secretary of State's invitation to review the question, and the Secretary of State has, in consideration of the fact that, under the scheme described above, Provincial responsibility will be enforced, withdrawn the prohibition

117 It is not proposed at present to adopt the policy of lending to the Presidency Corporations, as they have a public credit of their own and can borrow, in ordinary cases, in the open market, while the claims on the Government of India are so great that it cannot without difficulty find the necessary funds But in pursuance of the principles enunciated above, Local Governments have been authorised to grant loans to Mofussil Municipalities in future, on the following conditions —

(1) Loans may be granted only for works of public and general convenience and utility, such as drainage and water works, bridges and the like, and not for works which are merely or mainly ornamental or convenient, such as town halls, public gardens or market places

(2) A local body, having borrowed from Government, may not borrow from any other source until it has obtained the sanction of the Local Government concerned, which should not be given until it is clearly shown that the sum lent by Government, with interest thereon, is duly secured

118 I have stated that the rules regulating the new scheme were published in the *Gazette of India* on 5th January The demands of Local Governments have since been received These demands, so far as they relate to advances to cultivators, to embarrassed landed proprietors, and for drainage embankments and the like, have no special interest, as the only change in respect of them is the transfer of administration and responsibility As regards loans to Mofussil Municipalities, the importance attached to the change of policy will be understood when it is stated that, notwithstanding the short notice given, the applications for loans for Municipal sanitary purposes amount to Rx 254,900, which sum it has been found possible to place at the disposal of Local Governments The projects comprise schemes of water supply for Allahabad, Agra, Nagpore, Delhi, and Peshawar Although an important step has now been taken towards facilitating the carrying out of Local Works and Improvements, the large claims on the resources of the Government of India on account of Railway and Irrigation Works will prevent, for the present, any very important extension of the system

Section XI —Summary

119 The principal features of this Statement are summarised as follows —

(*a*) The Accounts of 1887 88 have closed with a deficit of Rx 2,028,832, including as expenditure Rx 455,017 on account of Special Defence Works Excluding the cost of these works, the deficit was Rx 1,572,815 This has resulted mainly from a special charge of Rx 1 059,000 incurred in connection with the conversion of the 4 per cent Sterling Stock into 3½ per cent, from heavy military expenditure in Burma, from a fall in exchange and in the price of opium, and from a reduction in Railway Revenue, counter balanced by an improvement in Revenue and reduced Expenditure under other heads

(*b*) The Revised Estimates of 1888 89 show a deficit of Rx 201,700, including as expenditure Rx 818,300 on account of Special Defence Works, and a surplus of Rx 616,600, if the cost of these works be excluded Seeing that there has been a further fall in the rate of exchange, which has been taken for the current and coming year at 1s 4 38*d* = 1 rupee, heavy unforeseen expenditure on Military Expeditions, and a decline in the salt revenue owing to persistent rumours of an impending reduction of the duty, the result is satisfactory

(*c*) The Budget Estimates for 1889 90 show a surplus of Rx 106,300 after providing Rx 1,102,900 for Special Defence Works If the cost of these works be excluded, there is a surplus of Rx 1,209 200 Imperial revenues have received a special asset of Rx 740,000, towards which all Local Governments, except the Punjab, contributed Of this only Rx 250,000, most of which represents the proceeds of the re imposed Patwari Cess in the North Western Provinces and Oudh, will be permanent, the remainder being a receipt of next year only

(*d*) The Capital Expenditure on Railways and Irrigation Works is expected to amount to Rx 1,857,800 in 1888 89, and Rx 4,089,500 is provided for 1889 90 The expenditure in 1888-89 is really Rx 3,264,500 but Rx 1,406,700 of it has been transferred to the Capital Accounts of the Indian Midland and the Bengal-Nagpur Railways on account of the cost of the Sindia and Katni Umaria Railways transferred to them

(*e*) As regards the general financial position of the Government of India, while there is every need for economy and for husbanding our revenue, there is no ground for despondingor pessimist views There are probable difficulties in the future, but there are also reasons for holding that we shall be able to encounter them successfully The Estimate of Revenue for 1889 90 have been framed with moderation

(*f*) The Secretary of State proposes to draw, during 1889 90, £14,689,900 of Council Bills He also proposes to raise a loan of £3,750,000 under the Oudh and Rohilkhand Railway Purchase Act for the purpose of advancing funds to Railway Companies

(*g*) The Government of India will probably raise a loan of Rx 2,500,000 in India, of which Rx 584 000 is required for the Dock Works at Calcutta and Bombay, and Rx 254,900 for Municipal Water Works, but no pledge can be given either as to the amount of the loan or the time when it will be issued, or the conditions which will attach to it

D BARBOUR

CALCUTTA,
March 27, 1889

APPENDIX I

Despatch from the Government of India, to Her Majesty's Secretary of State for India, No 256, dated 30th June 1874

We have postponed consideration of the Bill for the regulation of the Presidency Banks and of the agreements depending upon it, pending receipt of the decision of Your Lordship in Council on the question of the agency of the Bank of Bengal in Bombay, in regard to which we forwarded with our despatch of the 9th January, No 17, a letter from the Directors of the Bank of Bengal

2 The strain to which our finances were exposed early this year has given us the advantage of an experience which we had not when the terms of the new agreements were last under our consideration

3 We have been much impressed with the consideration that the effect of the existing agreements with the banks which compels us to place all the cash balances belonging to Government in their hands leads to consequences which may be very inconvenient, if not worse, both to Government and to trade

4 The only use of these balances to Government is that they may be made available the moment the public service requires them

5 We have had no difficulty in regard to the balances in the hands of the Banks of Bengal and Madras the Bank of Bombay, however, protested against meeting drafts upon it, and on the urgent representations of the Governor of Bombay, we were obliged, on the 29th January, to allow a month's time before drawing

Progs May 1874 Nos 33A & 33 B

6 The Bank of Bombay, accustomed to high Government balances, and relying on the maintenance of those balances, had so employed them that they were practically locked up, for had we insisted on withdrawing them more suddenly, we should have done so in the face of a warning that we should produce a commercial crisis, and therefore for a time the Government balances at Bombay were useless for the purposes of the Government

7 We think it doubtful, moreover, whether it is any real advantage to trade that large Government balances should be kept in the hands of the banks It appears to us that an element of uncertainty is thereby introduced into the money market not unlikely to aggravate commercial difficulties at a time of tightness

8 An amount of capital which is large relatively to the whole capital engaged in trade at the Presidency towns is supplied by Government, but Government, for reasons quite unconnected with trade, may have to withdraw these balances suddenly

In this case a sudden demand ensues for capital to replace that which is thus removed, the rate of discount rises, not from any commercial reason, but from the accident of State necessities and if this should occur at a time of commercial pressure, it would precipitate a crisis which otherwise might not occur If Government did not supply this capital to the trade, it would be found by private individuals through banks or in some other way

9 Had the Government funds in the hands of the banks in January last been limited to a fair working balance, and had we had a reserve in our own hands we think it may be assumed that the market rise in the rates of discount which has occurred would not have taken place, and our business would have been transacted without disturbing trade operations

10 The resources of a large money market are not open to us and we do not think it would be safe to trust to being able to raise funds readily and immediately in India The amount (£350,000) that we wanted in January out of our balance of about a million with the Bank of Bombay, and the demand for which brought down the remonstrance that we should place in jeopardy the trade of Bombay, cannot be considered as large Calcutta may have larger resources, but we cannot suppose that even here the supplies immediately available are really considerable

11 We are of opinion that a Government subject to the contingencies to which the Government of India is exposed ought not to be without a reserve, and that this reserve should be in its own hands

12 This object might be attained by dissolving our connexion with the banks and re establishing our treasuries We are unwilling to take this course unless forced to do so the banks are useful institutions, and the Bank of Bengal especially has upon several occasions been of great assistance to the Government

13 We should prefer, as an alternative plan, to make a change in the agreements with the banks, so that, instead of giving them the right to hold all the Government balances, the stipulation may be confined to engaging to pay them interest when our balances are reduced below certain amounts

If it be necessary to go further than this, we might stipulate that the banks should have the use of our balances up to certain limits, after which we should be unfettered as to their employment The exact sums to be fixed in connection with the proposed stipulations would be settled in communication with the banks

14 The amount to be kept in reserve need not, in our opinion, be very large, as the main difficulty is one only of time The sense of security which we should derive from the possession of a reserve of two millions immediately available for any emergency would, in our judgment, amply repay the charge for interest on that amount

Summary of Financial Statement, 1889-90.

The Financial Statement of 1889-90 was made in the Legislative Council by Sir David Barbour on the 27th March

The principal features are summarised as follows —

The Accounts of 1887-88 have closed with a deficit of Rx 2,028,000, including as expenditure Rx 456,000 on account of Special Defence Works The deficit has resulted mainly from a special charge of Rx 1,059,000 incurred in connection with the conversion of the 4 per cent Sterling Stock into 3½ per cent, from heavy military expenditure in Burma, from a fall in exchange, and in the price of opium, and from a reduction in Railway Revenue, counter balanced by an improvement in Revenue and reduced Expenditure under other heads

The Revised Estimates of 1888 89 show a deficit of Rx 202,000, including as expenditure Rx 818,000 on account of Special Defence Works, and a surplus of Rx 616,000, if the cost of these works be excluded This deficit is less than that originally estimated by Rx 496,000, and as there has been a heavy fall in the rate of exchange, unforeseen expenditure on Military Expeditions, and a temporary decline in the Salt revenue owing to persistent rumours of an impending reduction of the duty, the result is held to be satisfactory

The Budget Estimates for 1889 90 show a surplus of Rx 106,000 after providing Rx 1,103,000 for Special Defence Works, and excluding the cost of these works, a surplus of Rx 1,209,000 Imperial revenues have received a special asset of Rx 740,000, towards which all Local Governments, except the Punjab, contribute The Estimates are stated to have been framed with moderation

It is announced with the usual reserve that the Secretary of State proposes to draw, during 1889 90, £14,690,000 of Council Bills, and to raise a loan of £3,750,000 under the Oudh and Rohilkhand Railway Purchase Act for the purpose of advancing funds to Railway Companies, also that the Government of India will probably raise a loan of Rx 2,500,000 in India, of which Rx 584,000 is required for the Dock Works at Calcutta and Bombay, and Rx 255 000 for Municipal Water Works

Sir David Barbour alludes to the Excise question at some length, and shows that a remarkable improvement in revenue has in some cases been secured by greater strictness of control, and attended with a reduction in consumption He also corrects a misapprehension regarding the policy followed by the Government

The unfavourable receipts from the Salt revenue in the current year are clearly shown to be largely due to the persistent rumours that have been current throughout the year that a reduction of duty was imminent

Regarding the position of silver he says —

"The present condition is not one of permanent equilibrium Either there will be continuous progress in the direction of demonetising silver and substituting gold, or the world will revert to the old system of double legal tender"

He holds that the action of the United States and the Continental nations of Europe may bring on a crisis at any moment, and declares that no solution of the currency question is possible without international agreement

Reviewing the general financial position, he adds —

"Among the more encouraging features in Indian finance is the elasticity of the ordinary revenue It is true that we have not many new sources of revenue open to us, but the receipts from existing sources grow with satisfactory rapidity"

Attention is called to the progress made in completing the military defensive preparations

The annual deficit in Upper Burma is shown to have been reduced by Rx 328,000 in the year, and the position is summed up as follows —

"I have tried to state fairly both the probable difficulties of the future, and the reasons that exist for holding that we shall be able to encounter them successfully, and my deliberate conclusion is, that while there is every need for economy and for husbanding our revenue, there is no ground for desponding or pessimist views Unless some unforeseen disaster occurs, there is every reason to hope that the lapse of two or three years will show a decided improvement in the financial position of the Government of India It is true that the surplus which we have been able to show in the Estimates of the coming year is little more than nominal, only Rx 106,000, but the Estimates have been framed with great moderation, and if the Indian revenues continue to exhibit their usual elasticity, and no unforeseen disaster occurs, I anticipate that the Financial Statement of 1890 91 will show decided improvement"

March 27, 1889

These figures show distinctly that there had been a considerable falling off before Reuter's telegram was received, but the quantity that paid duty up to 22nd February in the current year is larger than the quantity which paid duty in any year previous to 1886-87 except one, and is 1,729,000 maunds, or 6 9 per cent in excess of the quantity that paid duty in 1882-83, the first year after the duty was reduced. Even allowing for increase of population, the issues of salt in the current year to 22nd February last are sufficient to provide as large a quantity of salt per head of population as in 1882-83

83 In Lower Burma there has been a great falling off in the quantity of salt that paid duty in 1888-89, but that falling off is mainly due to the excessive imports of the preceding year

The following figures show the quantity of salt that paid duty every year up to 22nd February for a series of years —

	Maunds
1881-82	973,000
1882 83	972,000
1883 84	1,152,000
1884 85	1,562,000
1885 86	930 000
1886 87	1 160 000
1887 88	1,841 000
1888 89	235,000

The falling off in 1888 89 which seems excessive at first sight, is explained by the great imports of 1887 88, the average for the two years being not much below the normal quantity

Salt is locally manufactured on the sea coast in Burma, and there is a certain amount produced from brine wells in Upper Burma The local manufacture is, from the nature of the case, insufficiently supervised, and an experienced officer of the Northern India Salt Department has just been deputed to Burma by the Government of India to enquire into the whole question on the spot It is said that the increase in the rate of duty on salt interferes to some extent with the local production of *ngapi* and salted fish, and has led to an increased import of salt fish from abroad The facts are, however, obscure, and a final opinion cannot be formed until the report of the officer specially deputed to Burma has been received

Section VII.—Excise Policy

84 I take this opportunity of correcting a misapprehension which has arisen in some quarters regarding the policy of the Government of India in connection with the Excise Revenue Last year Mr Westland used the following language in the Legislative Council—

"I look hopefully to a considerable increase in the Excise Revenues, and believe that a great deal might be done in Northern India by the introduction of the methods which, in Bombay and Madras, have so powerfully contributed to the increase of revenue under this head"

With reference to this language it has been alleged that Mr Westland expressed gratification at the prospect of an increase in drinking among the Indian population on account of the increased revenue which such a change in the habits of the people would produce I make no insinuation of wilful misrepresentation against those who have brought this charge, nor do I say that they acted otherwise than in good faith, and yet the charge is absolutely without foundation Mr Westland used the language which I have quoted in the Legislative Council of the Government of India, and in the presence of the Members of that Council His remarks passed without challenge Is it conceivable that if he had meant, or been understood to

mean, that the people of India should be encouraged to drink in order that the revenues of the Government of India might grow, there would have been found not a single Member of that Council, official or non official, to protest against the adoption of such a policy?

85 Less than two months afterwards the Financial Statement for 1888 89 was published under Mr Westland's signature, and in that statement he used language which puts his meaning beyond the reach of cavil The words he used were as follows —

"As regards Excise it will be seen that it is in Madras and Bombay that the revenue administration has been most successful, as these two provinces with 31 and 16½ millions of inhabitants respectively produce a revenue nearly as large as that of Bengal with 69 millions In fact, in both these Provinces, a very remarkable progress has been made The whole system of distillation has been brought more thoroughly under control, and stricter and more methodical preventive measures have enabled the Government to greatly enhance the rate of duty for the question of the rate of duty which it is possible to levy, is simply the question of the prevention of illicit distillation"

Mr Westland's expectation was that by the prevention of illicit dealings, it would be possible to raise a larger revenue, the increase of revenue being accompanied not by an increase of but by a check on, drinking To show that there really was, and is, extensive smuggling in Northern India, I will quote a passage from the report of the Financial Commissioner of the Punjab, who is now the Lieutenant Governor of that Province, for the year 1881 82 —

"Mr Hawkins, the Deputy Commissioner of Amritsar, says—'There were twelve cases of illicit distillation It is notorious that there are few villages in this district which have no private stills of their own The police are constantly finding pieces of stills and jars of materials in deserted houses while searching for other property' The Lahore District has also a bad reputation in this respect The Deputy Commissioner of Jullunder, Mr Bullock, writes — Illicit distillation is of very general occurrence throughout the district Twenty four cases have been detected and it is to be hoped that some check will be found to have been given to the system, which, however, we can never expect wholly to extirpate'

'In Hoshiarpur the khansama of a dák Bungalow was found to possess a still, and there were three cases in which villagers were convicted of the same offence Sirdar Gurdayal Singh, the Assistant Commissioner in charge of Excise, says that illicit distillation is carried on in some villages of the Gurshankar Tahsil He adds—'These cases of illicit distillation it is very difficult to detect and to prove Generally they distil during the night and keep good watch all round In one village, it is said, they distil the wine on the banks of the Bein stream, and whenever their sentinels espy any stranger approaching the place, they throw down all the materials, &c, into the stream, and leave no trace behind But it prevails only in villages where the inhabitants are united and have confidence in each other'

"The Deputy Commissioner of Jhang, Mr Macauliffe, strongly suspected the existence of the practice among powerful zemindars living in remote jungle villages Whenever liquor shops in Native States are situated close to our border, it is a common practice for our villagers to resort to them, and they often bring back small quantities of spirits for their own use and that of their friends Even when the Sadr distillery system has been adopted at the request of our Government in independent States, the price of liquor is far less than in our own territory This must be due to lower rates of still head duty The Assistant Commissioner in charge of excise at Sirsa Mr Kennedy, says—'In Patiala spirits are sold at about eight annas a bottle, not differing much in quality from the Sirsa spirits at Rs 8 a bottle The only hope of grappling with the existing evil is to lower the price of Sirsa spirits so as to bring them into competition with the Patiala spirits Any other method is impracticable The Sikh Jats will drink, and we cannot wean them from the practice by making the cost of liquor high, the only effect of this is to demoralize them by leading to a continual evasion of the law without any corresponding benefit in increased sobriety'

"There is probably some exaggeration here Mr Lyall is inclined to believe that

EMIGRATION

The 27th March 1889

No 58—2-5-E—In exercise of the powers conferred by Section 80 of the Indian Emigration Act, XXI of 1883, the Governor-General in Council is pleased to make the following rules to be substituted for the last paragraph (beginning with the word ventilation) of Schedule B of the Appendix to the Rules relating to Colonial Emigration published with Revenue and Agricultural Department Notification, No 94 E, dated the 18th March, 1886 —

Artificial Ventilators

1 Every sailing and steam vessel carrying emigrants shall be fitted with some efficient contrivance, to be approved by the Protector and Medical Inspector of Emigrants for artificially ventilating the between decks and hold The conditions which require to be as far as possible fulfilled are the following —

(*a*) That the ventilator provided shall supply not less than 500 cubic feet of fresh air per adult an hour

(NOTE —This minimum allowance, calculating 70 cubic feet of space for each adult, would provide for about seven renewals of air an hour)

(*b*) That the air supplied shall be equally distributed throughout the space to be occupied by the passengers

(*c*) That the apparatus shall be capable of being worked at will, when required

(*d*) That the apparatus shall be capable of being worked by hand

(*e*) That the apparatus be in proper working order

2 Vessels which are on the 30th day of March, 1889, fitted with ventilating apparatus, approved under the rules under Act VII of 1871, shall be permitted to continue running with such apparatus, provided it be found to be in proper working order

3 Pending further modification of this rule, vessels, whether sailing or steam, provided with Boag's, Blackman's or Acme's ventilators, or, if steam, with Boyle's, Gibb's, or Capell's ventilators, will be held, until the contrary be proved, to have satisfied the required conditions

4 A notice of at least three years shall be given before any ventilator of which use is permitted under these rules is proscribed by any modification of them

5 The Government of India may exempt any colony or class of vessel from the operation of the four last foregoing rules

---

No 1370 *I*.—In supersession of Foreign Department Notification, No 167 *J*, dated the 22nd August, 1873, the Governor General in Council is pleased to extend the provisions, in so far as they may be applicable, of Act XIV of 1882 (Code of Civil Procedure) as amended by subsequent Acts, to the Cantonment of Neemuch, with effect from the 1st of April, 1889

No 1371-*I*.—WHEREAS it is expedient to amend the law relating to the Court of Small Causes in the Cantonment of Secunderabad, the Governor General in Council has been pleased to make the following rules —

CHAPTER I

PRELIMINARY

1 (*1*) These rules may be called the Secunderabad Small Cause Court Law, 1889, and are hereinafter referred to as "this Law", and

Title and commencement

(*2*) They shall come into force on the first day of July, 1889

2 (*1*) The Notification of the Government of India in the Foreign Department, No 213 J, dated the 24th of October, 1873, in so far as it relates to the application of the Mufassal Small Cause Courts Act, XI of 1865, to the Cantonment of Secunderabad, is hereby rescinded.

Rescission of notification with respect to the application of Act XI of 1865

(*2*) Any enactment or document referring to the said Act shall, so far as may be, be construed to refer to this Law or to the corresponding portion thereof

3 Nothing in this Law shall be construed to affect—

Savings

(*a*) any proceedings before or after decree in any suit instituted before the commencement of this Law, or

(*b*) the jurisdiction of a Magistrate under any law for the time being in force with respect to debts or other claims of a civil nature, or

XIV of 1882 (*c*) any local law or any special law other than the Code of Civil Procedure as applied to the Cantonment of Secunderabad (that Code being hereinafter referred to as "the Code")

CHAPTER II

CONSTITUTION OF THE COURT OF SMALL CAUSES

The Court of Small Causes at Secunderabad

4 (*1*) The Court of Small Causes established in the Cantonment of Secunderabad by Letter of the Government of India in the Foreign Department, No 180, dated the 20th of July, 1864 to the Resident at Hyderabad (hereinafter referred to as the Court of Small Causes), is hereby continued and shall be deemed to be a Court of Small Causes established in manner mentioned in section 5 of the Cantonments Act, III of 1880 as applied to that cantonment (hereinafter referred to as the Cantonments Act,

(*2*) The local limits of the jurisdiction of the Court of Small Causes shall be the limits for the time being of the Cantonment of Secunderabad, and the Court may be held at such place or places within those limits as the Resident at Hyderabad (hereinafter referred to as the Resident) may from time to time appoint

Appointment punishment and transfer of ministerial officers

5 Subject to any orders of the Resident in this behalf, the practice heretofore followed with respect to the appointment, punishment and transfer of ministerial officers of the Court of Small Causes shall so far as it can be made applicable, apply to the appointment, punishment and transfer of ministerial officers of that Court

Duties of ministerial officers

6 (*1*) The ministerial officers of the Court of Small Causes shall, in addition to any duties mentioned in this Law or in any other enactment for the time being in force, as duties which are or may be imposed on any of them, discharge such duties of a ministerial nature as the Judge from time to time directs

(*2*) The Resident may from time to time make rules consistent with this Law, and with any other enactment for the time being in force, conferring and imposing on the ministerial officers of the Court of Small Causes such powers and duties as he thinks fit, and prescribing the mode in which powers and duties so conferred and imposed are to be exercised and performed

CHAPTER III

JURISDICTION OF THE COURT OF SMALL CAUSES

Cognizance of suits

7 (*1*) The Court of Small Causes shall not take cognizance of the suits specified (as being excepted from the cognizance of a Court of Small Causes) in the second schedule to the Provincial Small Cause Courts Act, 1887, being Act IX of 1887 of the Acts of the Governor General of India in Council

(*2*) Subject to the exceptions specified in that schedule and to the provisions of any enactment for the time being in force, all suits of a civil nature of which the value does not exceed the amount for the time being declared to be the pecuniary limit of the jurisdiction of the Court of Small Causes under the provisions of section 5 of the Cantonments Act, shall be cognizable by the Court of Small Causes

Exclusive jurisdiction of the Court of Small Causes

8 Save as expressly provided by this Law or by any other enactment for the time being in force, a suit cognizable by the Court of Small Causes shall not be tried by any other Court having jurisdiction within the local limits of the jurisdiction of the Court of Small Causes

CHAPTER IV

PRACTICE AND PROCEDURE

Application of the Code of Civil Procedure

9 (*1*) The procedure prescribed in the Chapters and sections of the Code which are specified in the second schedule thereto shall, so far as those Chapters and sections are applicable, be the procedure to be followed in the Court of Small Causes in all suits cognizable by it and in all proceedings arising out of such suits

Provided that an applicant for an order to set aside a decree passed *ex parte* or for a review of judgment shall, at the time of presenting his application, either deposit in the Court the amount due from him under the decree or in pursuance of the judgment, or give security to the satisfaction of the Court for the performance of the decree or compliance with the judgment, as the Court may direct

(*2*) Where a person has become liable as surety under the proviso to sub section (*1*), the security may be realized in manner provided by section 253 of the Code

Adjournment of cases by chief ministerial officer

10 When the Judge of the Court of Small Causes is absent, the chief ministerial officer of the Court may exercise from time to time the power which the Court possesses of adjourning the hearing of any suit or other proceeding, and fix a day for the further hearing thereof

Return of plaints in suit involving questions of title

11 (*1*) Notwithstanding anything in the foregoing provisions of this Law, when the right of a plaintiff and the relief claimed by him in the Court of Small Causes depend upon the proof or disproof of a title to immoveable property or other title which the Court cannot finally determine, the Court may at any stage of the proceedings return the plaint to be presented to a Court having jurisdiction to determine the title

(*2*) When the Court returns a plaint under sub section (*1*), it shall comply with the provisions of the second paragraph of section 57 of the Code and make such order with respect to costs as it deems just, and the Court shall, for the purposes of the Indian Limitation Act, XV of 1877, as applied to the Cantonment of Secunderabad (hereinafter referred to as the Limitation Act) be deemed to have been unable to entertain the suit by reason of a cause of a nature like to that of defect of jurisdiction

12 Where an order specified in section 588, clause (29), of the Code is made by the Court of Small Causes, an appeal therefrom shall lie to the Court of the Civil Appellate Judge, Hyderabad

Appeals from certain orders of the Court of Small Causes

13 The Resident, for the purpose of satisfying himself that a decree or order made in any case decided by the Court of Small Causes was according to law, may call for the case and may pass with respect to any case so called for such order as he thinks fit

Revision of decrees and orders of the Court of Small Causes

14 Save as provided by this Law, a decree or order made under the foregoing provisions of this Law by the Court of Small Causes shall be final

Finality of decrees and orders

CHAPTER V

SUPPLEMENTAL PROVISIONS

15 The Court of Small Causes shall be subject to the administrative control of the Court of the Civil Appellate Judge, Hyderabad, and to the superintendence of the Resident, and shall—

Subordination of the Court of Small Causes

(a) keep such registers, books and accounts as the Resident from time to time prescribes, and

(b) comply with such requisitions as may be made by the Civil Appellate Judge, Hyderabad, or the Resident for records, returns and statements in such form and manner as the authority making the requisition directs

16 The Court of Small Causes shall use a seal of such form and dimensions as are prescribed by the Resident

Seal

17 So much of Chapters III and IV of this Law as relates to—

Application of Law to Court invested with jurisdiction of Court of Small Causes

(a) the nature of the suits cognizable by the Court of Small Causes,

(b) the exclusion of the jurisdiction of other Courts in those suits,

(c) the practice and procedure of the Court of Small Causes,

(d) appeal from certain orders of that Court and revision of cases decided by it, and

(e) the finality of its decrees and orders subject to such appeal and revision as are provided by this Law,

applies within the Cantonment of Secunderabad to any Court therein invested by or under any enactment for the time being in force with the jurisdiction of a Court of Small Causes so far as regards the exercise of that jurisdiction by such Court

XV of 1877

18 In the third division of the second schedule to the Indian Limitation Act,—

Amendment of Indian Limitation Act

(a) after No 160 the following shall be inserted, namely —

160A For a review of judgment by the Court of Small Causes in the Cantonment of Secunderabad	Ditto	The date of the decree or order

and (b) in No 178, the words, figures and letter "No 160A and" shall be inserted before the word and figures "No 162"

No 1372-I —WHEREAS it is expedient to amend the law relating to the Court of Small Causes in the Cantonment of Mhow, the Governor General in Council has been pleased to make the following rules —

CHAPTER I

PRELIMINARY

1 (1) These rules may be called the Mhow Small Cause Court Law, 1889, and are hereinafter referred to as "this Law", and

Title and commencement

(2) They shall come into force on the first day of May, 1889

2 Nothing in this Law shall be construed to affect—

Savings

(a) any proceedings before or after decree in any suit instituted before the commencement of this Law, or

(b) the jurisdiction of a Magistrate under any law for the time being in force with respect to debts or other claims of a civil nature, or

(c) any local law or any special law other than the Code of Civil Procedure as applied in the Cantonment of Mhow (that Code being hereinafter referred to as "the Code")

CHAPTER II

CONSTITUTION OF THE COURT OF SMALL CAUSES

3 (1) The Court of Small Causes established in the Cantonment of Mhow by Notification of the Government of India in the Foreign Department, No 262, dated the thirty first day of August, 1864 (hereinafter referred to as the Court of Small Causes), is hereby continued and shall be deemed to be a Court of Small Causes established in manner mentioned in section 5 of the Cantonments Act, III of 1880, as applied to that Cantonment (hereinafter referred to as "the Cantonments Act")

The Court of Small Causes at Mhow

(2) The local limits of the jurisdiction of the Court of Small Causes shall be the limits for the time being of the Cantonment of Mhow, and the Court may be held at such place or places within those limits as the Agent to the Governor General in Central India may from time to time appoint

4 Subject to any orders of the Agent to the Governor General in Central India in this behalf, the law or practice for the time being applicable to the appointment, punishment and transfer of ministerial officers of the Court of the Civil Judge in the Cantonment of Mhow shall, so far as it can be made applicable, apply to the appointment, punishment and transfer of ministerial officers of the Court of Small Causes

Appointment punishment and transfer of ministerial officers

5 (1) The ministerial officers of the Court of Small Causes shall, in addition to any duties mentioned in this Law or in any other enactment for the time being in force as duties which

Duties of ministerial officers

are or may be imposed on any of them, discharge such duties of a ministerial nature as the Judge from time to time directs

(2) The Agent to the Governor General in Central India may from time to time make rules consistent with this Law, and with any other enactment for the time being in force, conferring and imposing on the ministerial officers of the Court of Small Causes such powers and duties as he thinks fit and prescribing the mode in which powers and duties so conferred and imposed are to be exercised and performed

CHAPTER III.

JURISDICTION OF THE COURT OF SMALL CAUSES

Cognizance of suits

6. (1) The Court of Small Causes shall not take cognizance of the suits specified (as being excepted from the cognizance of a Court of Small Causes) in the second schedule to the Provincial Small Cause Courts Act, 1887, being Act IX of 1887, of the Acts of the Governor General of India in Council

(2) Subject to the exceptions specified in that schedule and to the provisions of any enactment for the time being in force, all suits of a civil nature of which the value does not exceed the amount for the time being declared to be the pecuniary limit of the jurisdiction of the Court of Small Causes under the provisions of section 5 of the Cantonments Act shall be cognizable by the Court of Small Causes

Exclusive jurisdiction of the Court of Small Causes

7. Save as expressly provided by this Law or by any other enactment for the time being in force, a suit cognizable by the Court of Small Causes shall not be tried by any other Court having jurisdiction within the local limits of the jurisdiction of the Court of Small Causes

CHAPTER IV.

PRACTICE AND PROCEDURE.

Application of the Code of Civil Procedure

8. (1) The procedure prescribed in the Chapters and sections of the Code which are specified in the second schedule thereto shall, so far as those Chapters and sections are applicable, be the procedure to be followed in the Court of Small Causes in all suits cognizable by it and in all proceedings arising out of such suits

Provided that an applicant for an order to set aside a decree passed *ex parte* or for a review of judgment shall, at the time of presenting his application, either deposit in the Court the amount due from him under the decree or in pursuance of the judgment, or give security to the satisfaction of the Court for the performance of the decree or compliance with the judgment, as the Court may direct

(2) Where a person has become liable as surety under the proviso to sub section (1), the security may be realized in manner provided by section 253 of the Code

Adjournment of cases by chief ministerial officer

9. When the Judge of the Court of Small Causes is absent, the chief ministerial officer of the Court may, exercise from time to time the power which the Court possesses of adjourning the hearing of any suit or other proceeding, and fix a day for the further hearing thereof

Return of plaints in suits involving questions of title

10 (1) Notwithstanding anything in the foregoing provisions of this Law, when the right of a plaintiff and the relief claimed by him in the Court of Small Causes depend upon the proof or disproof of a title to immoveable property or other title which the Court cannot finally determine, the Court may at any stage of the proceedings return the plaint to be presented to a Court having jurisdiction to determine the title

(2) When the Court returns a plaint under sub section (1), it shall comply with the provisions of the second paragraph of section 57 of the Code and make such order with respect to costs as it deems just

Appeals from certain orders of the Court of Small Causes

11 Where an order specified in section 588, clause (29), of the Code is made by the Court of Small Causes, an appeal therefrom shall lie to the First Assistant to the Agent to the Governor General in Central India.

Revision of decrees and orders of the Court of Small Causes

12 The Agent to the Governor General in Central India, for the purpose of satisfying himself that a decree or order made in any case decided by the Court of Small Causes was according to law, may call for the case and may pass with respect to any case so called for such order as he thinks fit

Finality of decrees and orders

13 Save as provided by this Law, a decree or order made under the foregoing provisions of this Law by the Court of Small Causes shall be final

CHAPTER V

SUPPLEMENTAL PROVISIONS

Subordination of the Court of Small Causes

14 The Court of Small Causes shall be subject to the administrative control of the First Assistant to the Agent to the Governor General in Central India, and to the superintendence of the Agent to the Governor General in Central India, and shall—

(a) keep such registers, books and accounts as the Agent to the Governor General in Central India from time to time prescribes, and

(b) comply with such requisitions as may be made by the First Assistant to the Agent to the Governor General in Central India, or the Agent to the Governor General in Central India, for records, returns and statements in such form and manner as the authority making the requisition directs

Seal.

15 The Court of Small Causes shall use a seal of such form and dimensions as are prescribed by the Agent to the Governor General in Central India

Limitation of application for review of judgment

16 An application for a review of judgment by the Court of Small Causes made after fifteen days from the date of the decree or order may be dismissed although limitation has not been set up as a defence

No 1373 *I*.—Whereas it is expedient to amend the law relating to the Court of Small Causes in the Cantonment of Nimach, the Governor General in Council has been pleased to make the following rules —

CHAPTER I

PRELIMINARY

1 (*1*) These rules may be called the Nimach Small Cause Court Law, 1889, and are hereinafter referred to as "this Law" and

Title and commencement

(*2*) They shall come into force on the first day of May, 1889

2 Nothing in this Law shall be construed to affect—

Savings

(*a*) any proceedings before or after decree in any suit instituted before the commencement of this Law or

(*b*) the jurisdiction of a Magistrate under any law for the time being in force with respect to debts or other claims of a civil nature, or

(*c*) any local law or any special law other than the Code of Civil Procedure as applied to the Cantonment of Nimach (that Code being hereinafter referred to as "the Code") XIV of 1882

CHAPTER II

CONSTITUTION OF THE COURT OF SMALL CAUSES

3 (*1*) The Court of Small Causes established in the Cantonment of Nimach by Notification of the Government of India in the Foreign Department, No 262, dated the thirty first day of August, 1864 (hereinafter referred to as the Court of Small Causes), is hereby continued and shall be deemed to be a Court of Small Causes established in manner mentioned in section 5 of the Cantonments Act, III of 1880, as applied to that Cantonment (hereinafter referred to as the Cantonments Act)

The Court of Small Causes at Nimach

(*2*) The local limits of the jurisdiction of the Court of Small Causes shall be the limits for the time being of the Cantonment of Nimach and the Court may be held at such place or places within those limits as the Agent to the Governor General in Central India may from time to time appoint

4 (*1*) The ministerial officers of the Court of Small Causes shall, in addition to any duties mentioned in this Law or in any other enactment for the time being in force as duties which are or may be imposed on any of them, discharge such duties of a ministerial nature as the Judge from time to time directs

Duties of ministerial officers

(*2*) The Agent to the Governor General in Central India may from time to time make rules consistent with this Law, and with any other enactment for the time being in force, conferring and imposing on the ministerial officers of the Court of Small Causes such powers and duties as he thinks fit, and prescribing the mode in which powers and duties so conferred and imposed are to be exercised and performed

CHAPTER III

JURISDICTION OF THE COURT OF SMALL CAUSES

5 (*1*) The Court of Small Causes shall not take cognizance of the suits specified (as being excepted from the cognizance of a Court of Small Causes) in the second schedule to the Provincial Small Cause Courts Act, 1887, being Act IX of 1887 of the Acts of the Governor General of India in Council

Cognizance of suits

(*2*) Subject to the exceptions specified in that schedule and to the provisions of any enactment for the time being in force all suits of a civil nature of which the value does not exceed the amount for the time being declared to be the pecuniary limit of the jurisdiction of the Court of Small Causes under the provisions of section 5 of the Cantonments Act, shall be cognizable by the Court of Small Causes III of 1880

6 Save as expressly provided by this Law or by any other enactment for the time being in force, a suit cognizable by the Court of Small Causes shall not be tried by any other Court having jurisdiction within the local limits of the jurisdiction of the Court of Small Causes

Exclusive jurisdiction of the Court of Small Causes

CHAPTER IV

PRACTICE AND PROCEDURE

7 (*1*) The procedure prescribed in the Chapters and sections of the Code which are specified in the second schedule thereto shall, so far as those Chapters and sections are applicable, be the procedure to be followed in the Court of Small Causes in all suits cognizable by it and in all proceedings arising out of such suits

Application of the Code of Civil Procedure

Provided that an applicant for an order to set aside a decree passed *ex parte* or for a review of judgment shall, at the time of presenting his application, either deposit in the Court the amount due from him under the decree or in pursuance of the judgment, or give security to the satisfaction of the Court for the performance of the decree or compliance with the judgment, as the Court may direct

(*2*) Where a person has become liable as surety under the proviso to sub section (*1*), the security may be realized in manner provided by section 253 of the Code

8 When the Judge of the Court of Small Causes is absent, the chief ministerial officer of the Court may exercise from time to time the power which the Court possesses of adjourning the hearing of any suit or other proceeding, and fix a day for the further hearing thereof

Adjournment of cases by chief ministerial officer

9 (*1*) Notwithstanding anything in the foregoing provisions of this Law, when the right of a plaintiff and the relief claimed by him in the Court of Small Causes depend upon the proof or disproof of a title to immoveable property or other title which the Court cannot finally determine, the Court may at any stage of the proceedings return the plaint to be presented to a Court having jurisdiction to determine the title

Return of plaints in suits involving questions of title

(2) When the Court returns a plaint under sub section (1), it shall comply with the provisions of the second paragraph of section 57 of the Code and make such order with respect to costs as it deems just

Appeals from certain orders of the Court of Small Causes

10 Where an order specified in section 588, clause (29), of the Code is made by the Court of Small Causes, an appeal there from shall lie to the Political Agent of Western Malwa

Revision of decrees and orders of the Court of Small Causes

11 The Agent to the Governor General in Central India for the purpose of satisfying himself that a decree or order made in any case decided by the Court of Small Causes was according to law, may call for the case and may pass with respect to any case so called for such order as he thinks fit

Finality of decrees and orders

12 Save as provided by this Law, a decree or order made under the foregoing provisions of this Law by the Court of Small Causes shall be final

CHAPTER V

SUPPLEMENTAL PROVISIONS

Subordination of the Court of Small Causes

13 The Court of Small Causes shall be subject to the administrative control of the Political Agent of Western Malwa and to the superintendence of the Agent to the Governor General in Central India, and shall—

(a) keep such registers, books and accounts as the Agent to the Governor General in Central India from time to time prescribes, and

(b) comply with such requisitions as may be made by the Political Agent of Western Malwa or the Agent to the Governor General in Central India for returns, returns and statements in such form and manner as the authority making the requisition directs

Seal

14 The Court of Small Causes shall use a seal of such form and dimensions as are prescribed by the Agent to the Governor General in Central India

Limitation of application for review of judgment

15 An application for a review of judgment by the Court of Small Causes made after fifteen days from the date of the decree or order may be dismissed although limitation has not been set up as a defence

No 1374-I.—Whereas it is expedient to amend the law relating to the Court of Small Causes in the Cantonment of Deesa, the Governor General in Council has been pleased to make the following rules —

* *

CHAPTER I

PRELIMINARY

Title and commencement

1 (1) These rules may be called the Deesa Small Cause Court Law, 1889, and are hereinafter referred to as "this Law," and

(2) They shall come into force on the first day of May, 1889

Rescission of notification with respect to the application of Act XI of 1865

2 (1) The Notification of the Government of India in the Foreign Department, No 403 I, dated the fourth day of February, 1885, in so far as it relates to the application of the Mufassal Small Cause Courts Act, XI of 1865, to the Cantonment of Deesa, is hereby rescinded

(2) Any enactment or document referring to the said Act shall, so far as may be, be construed to refer to this Law or to the corresponding portion thereof

Savings

3 Nothing in this Law shall be construed to affect—

(a) any proceedings before or after decree in any suit instituted before the commencement of this Law, or

(b) the jurisdiction of a Magistrate under any law for the time being in force with respect to debts or other claims of a civil nature, or

(c) any local law or any special law other than the Code of Civil Procedure as applied to the Cantonment of Deesa (that Code being hereinafter referred to as "the Code") XIV of 1882

CHAPTER II

CONSTITUTION OF THE COURT OF SMALL CAUSES

The Court of Small Causes at Deesa

4 (1) The Court of Small Causes established in the Cantonment of Deesa by Resolution of the Government of Bombay, No 817 (Judicial), dated the 17th day of March, 1868 (hereinafter referred to as the Court of Small Causes), is hereby continued and shall be deemed to be a Court of Small Causes established in manner mentioned in section 5 of the Cantonments Act, III of 1880, as applied to that Cantonment (hereinafter referred to as the Cantonments Act)

(2) The local limits of the jurisdiction of the Court of Small Causes shall be the limits for the time being of the Cantonment of Deesa, and the Court may be held at such place or places within those limits as the Governor of Bombay in Council may from time to time appoint

Duties of ministerial officers

5 (1) The ministerial officers of the Court of Small Causes shall, in addition to any duties mentioned in this Law or in any other enactment for the time being in force as duties which are or may be imposed on any of them, discharge such duties of a ministerial nature as the Judge from time to time directs

(2) The Governor of Bombay in Council may from time to time make rules consistent with this Law, and with any other enactment for the time being in force, conferring and imposing on the ministerial officers of the Court of Small Causes such powers and duties as he thinks fit, and prescribing the mode in which powers and duties so conferred and imposed are to be exercised and performed

CHAPTER III

JURISDICTION OF THE COURT OF SMALL CAUSES

Cognizance of suits

6 (1) The Court of Small Causes shall not take cognizance of the suits specified (as being excepted from the cognizance of a Court of Small Causes) in the

second schedule to the Provincial Small Cause Courts Act, 1887, being Act IX of 1887 of the Acts of the Governor General of India in Council

(2) Subject to the exceptions specified in that schedule and to the provisions of any enactment for the time being in force, all suits of a civil nature of which the value does not exceed the amount for the time being declared to be the pecuniary limit of the jurisdiction of the Court of Small Causes under the provisions of section 5 of the Cantonments Act shall be cognizable by the Court of Small Causes

Exclusive jurisdiction of the Court of Small Causes

7 Save as expressly provided by this Law or by any other enactment for the time being in force, a suit cognizable by the Court of Small Causes shall not be tried by any other Court having jurisdiction within the local limits of the jurisdiction of the Court of Small Causes

CHAPTER IV

PRACTICE AND PROCEDURE

Application of the Code of Civil Procedure

8 (1) The procedure prescribed in the Chapters and sections of the Code which are specified in the second schedule thereto shall, so far as those Chapters and sections are applicable, be the procedure to be followed in the Court of Small Causes in all suits cognizable by it and in all proceedings arising out of such suits

Provided that an applicant for an order to set aside a decree passed *ex parte* or for a review of judgment shall, at the time of presenting his application, either deposit in the Court the amount due from him under the decree or in pursuance of the judgment, or give security to the satisfaction of the Court for the performance of the decree or compliance with the judgment, as the Court may direct

(2) Where a person has become liable as surety under the proviso to sub-section (1), the security may be realized in manner provided by section 253 of the Code

Adjournment of cases by chief ministerial officer

9 When the Judge of the Court of Small Causes is absent, the chief ministerial officer of the Court may exercise from time to time the power which the Court possesses of adjourning the hearing of any suit or other proceeding, and fix a day for the further hearing thereof

Return of plaints in suits involving questions of title

10 (1) Notwithstanding anything in the foregoing provisions of this Law, when the right of a plaintiff and the relief claimed by him in the Court of Small Causes depend upon the proof or disproof of a title to immoveable property or other title which the Court cannot finally determine, the Court may at any stage of the proceedings return the plaint to be presented to a Court having jurisdiction to determine the title

(2) When the Court returns a plaint under sub section (1), it shall comply with the provisions of the second paragraph of section 57 of the Code and make such order with respect to costs as it deems just, and the Court shall for the purposes of the Indian Limitation Act, XV of 1877, as applied to the Cantonment of Deesa (hereinafter referred to as the Limitation Act), be deemed to have been unable to entertain the suit by reason of a cause of a nature like to that of defect of jurisdiction.

Appeals from certain orders of the Court of Small Causes

11 Where an order specified in section 588, clause (29), of the Code is made by the Court of Small Causes, an appeal therefrom shall lie to the Political Superintendent of Pahlanpur

Revision of decrees and orders of the Court of Small Causes

12 The Governor of Bombay in Council, for the purpose of satisfying himself that a decree or order made in any case decided by the Court of Small Causes was according to law, may call for the case and may pass with respect to any case so called for such order as he thinks fit.

Finality of decrees and orders

13 Save as provided by this Law, a decree or order made under the foregoing provisions of this Law by the Court of Small Causes shall be final.

CHAPTER V

SUPPLEMENTAL PROVISIONS

Subordination of the Court of Small Causes

14 The Court of Small Causes shall be subject to the administrative control of the Political Superintendent of Pahlanpur and to the superintendence of the Governor of Bombay in Council, and shall—

(a) keep such registers, books and accounts as the Governor of Bombay in Council from time to time prescribes, and

(b) comply with such requisitions as may be made by the Political Superintendent of Pahlanpur or the Governor of Bombay in Council for records, returns and statements in such form and manner as the authority making the requisition directs

Seal

15. The Court of Small Causes shall use a seal of such form and dimensions as are prescribed by the Governor of Bombay in Council

Amendment of Indian Limitation Act

16. In the third division of the Second Schedule to the Limitation Act,—

(a) after No 160 the following shall be inserted, namely —

'160A For a review of judgment by the Court of Small Causes in the Cantonment of Deesa	Ditto	The date of the decree or order '

and (b) in No 173 the words, figures and letter "No 160A and" shall be inserted before the word and figures "No 162"

No 1375-I—Whereas it is expedient to amend the law relating to the Court of Small Causes in Abu and Anadra,

and whereas the Governor General in Council has, by arrangements made with the Rao of Sirohi, power and jurisdiction in Abu and Anadra which warrants the amendment by him of that law,

in exercise of this power and jurisdiction and of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, XXI of 1879, and of all other powers enabling him in

this behalf, the Governor General in Council has been pleased to make the following rules —

CHAPTER I

PRELIMINARY

Title, extent and commencement

1 (*1*) These rules may be called the Abu and Anadra Small Cause Court Law, 1889, and are hereinafter referred to as this Law

(*2*) This Law extends to Abu, Anadra and the bázár at Kharári, including the road leading from the Abu Sanitarium to the Abu Road railway-station and the bazar at Kharári (which territorial limits are hereinafter referred to as Abu and Anadra), but not so as to apply to suits in which both the plaintiff and the defendant are subjects of the Rao of Sirohi, and

(*3*) It shall come into force on the first day of May, 1889

Rescission of notification with respect to the application of Act XI of 1865

2 (*1*) The notification of the Government of India in the Foreign Department, No 285-I, dated the 23rd day of January, 1884, in so far as it relates to the application of the Mufassal Small Cause Courts Act, XI of 1865, to Abu and Anadra, is hereby rescinded

(*2*) Any enactment or document referring to the said Act shall, so far as may be, be construed to refer to this Law or to the corresponding portion thereof

Savings

3 Nothing in this Law shall be construed to affect—

(*a*) any proceedings before or after decree in any suit instituted before the commencement of this Law, or

(*b*) the jurisdiction of a Magistrate under any law for the time being in force with respect to debts or other claims of a civil nature, or

XIV of 1882. (*c*) any local law or any special law other than the Code of Civil Procedure as applied to Abu and Anadra (that Code being hereinafter referred to as "the Code")

CHAPTER II

CONSTITUTION OF THE COURT OF SMALL CAUSES

The Court of Small Causes at Abu and Anadra.

4 (*1*) The Magistrate for the time being of Abu, now exercising the powers of a Judge of a Court of Small Causes under Notification of the Government of India in the Foreign Department, No 286-I, dated the twenty-third day of January, 1884, shall continue to exercise such powers in Abu and Anadra, and shall, while exercising such powers, be deemed to be the Court of Small Causes hereinafter referred to

(*2*) The local limits of the jurisdiction of the Court of Small Causes shall be the limits for the time being of Abu and Anadra, and the Court may be held at such place or places within those limits as the Agent to the Governor General in Rajputana may from time to time appoint

Appointment, punishment and transfer of ministerial officers

5 Subject to any orders of the Agent to the Governor General in Rajputana in this behalf, the law or practice for the time being applicable to the appointment, punishment and transfer of ministerial officers of the District Court in Abu and Anadra shall, so far as it can be made applicable, apply to the appointment, punishment and transfer of ministerial officers of the Court of Small Causes

Duties of ministerial officers

6 (*1*) The ministerial officers of the Court of Small Causes shall, in addition to any duties mentioned in this Law or in any other enactment for the time being in force as duties which are or may be imposed on any of them, discharge such duties of a ministerial nature as the Judge from time to time directs

(*2*) The Agent to the Governor General in Rajputana may from time to time make rules consistent with this Law, and with any other enactment for the time being in force, conferring and imposing on the ministerial officers of the Court of Small Causes such powers and duties as he thinks fit, and prescribing the mode in which powers and duties so conferred and imposed are to be exercised and performed

CHAPTER III

JURISDICTION OF THE COURT OF SMALL CAUSES

Cognizance of suits

7 (*1*) The Court of Small Causes shall not take cognizance of the suits specified (as being excepted from the cognizance of a Court of Small Causes) in the second schedule to the Provincial Small Cause Courts Act, 1887, being Act IX of 1887 of the Acts of the Governor General of India in Council

(*2*) Subject to the exceptions specified in that schedule and to the provisions of any enactment for the time being in force, all suits of a civil nature of which the value does not exceed five hundred rupees shall be cognizable by the Court of Small Causes

Exclusive jurisdiction of the Court of Small Causes

8 Save as expressly provided by this Law or by any other enactment for the time being in force, a suit cognizable by the Court of Small Causes shall not be tried by any other Court having jurisdiction within the local limits of the jurisdiction of the Court of Small Causes

CHAPTER IV

PRACTICE AND PROCEDURE

Application of the Code of Civil Procedure

9 (*1*) The procedure prescribed in the Chapters and sections of the Code which are specified in the second schedule thereto shall, so far as those Chapters and sections are applicable, be the procedure to be followed in the Court of Small Causes in all suits cognizable by it and in all proceedings arising out of such suits XIV of 1882

Provided that an applicant for an order to set aside a decree passed *ex parte* or for a review of judgment shall, at the time of presenting his application, either deposit in the Court the amount due from him under the decree or in pursuance of the judgment, or give security to the satisfaction of the Court for the performance of the decree or compliance with the judgment, as the Court may direct

(*2*) Where a person has become liable as surety under the proviso to sub-section (*1*), the security may be realized in manner provided by section 253 of the Code

Adjournment of cases by chief ministerial officer

10 When the Judge of the Court of Small Causes is absent, the chief ministerial officer of the Court may exercise from

time to time the power which the Court possesses of adjourning the hearing of any suit or other proceeding, and fix a day for the further hearing thereof

Return of plaints in suits involving questions of title

11 (*1*) Notwithstanding anything in the foregoing provisions of this Law, when the right of a plaintiff and the relief claimed by him in the Court of Small Causes depend upon the proof or disproof of a title to immoveable property or other title which the Court cannot finally determine, the Court may at any stage of the proceedings return the plaint to be presented to a Court having jurisdiction to determine the title

(*2*) When the Court returns a plaint under sub section (*1*), it shall comply with the provisions of the second paragraph of section 57 of the Code and make such order with respect to costs as it deems just, and the Court shall for the purposes of the Indian Limitation Act, XV of 1877, as applied to Abu and Aundra (hereinafter referred to as the Limitation Act), be deemed to have been unable to entertain the suit by reason of a cause of a nature like to that of defect of jurisdiction

Appeals from certain orders of the Court of Small Causes

12 Where an order specified in section 588, clause (*9*), of the Code is made by the Court of Small Causes, an appeal therefrom shall lie to the Commissioner of Ajmere Merwara

Revision of decrees and orders of the Court of Small Causes

13 The Agent to the Governor General in Rajputana, for the purpose of satisfying himself that a decree or order made in any case decided by the Court of Small Causes was according to law, may call for the case and may pass with respect to any case so called for such order as he thinks fit

Finality of decrees and orders

14 Save as provided by this Law, a decree or order made under the foregoing provisions of this Law by the Court of Small Causes shall be final

CHAPTER V

SUPPLEMENTAL PROVISIONS

Subordination of the Court of Small Causes

15 The Court of Small Causes shall be subject to the administrative control of the Commissioner of Ajmere Merwara and to the superintendence of the Agent to the Governor General in Rajputana, and shall—

(*a*) keep such register, books and accounts as the Agent to the Governor General in Rajputana from time to time prescribes, and

(*b*) comply with such requisitions as may be made by the Commissioner of Ajmere Merwára or the Agent to the Governor General in Rajputana for records, returns and statements in such form and manner as the authority making the requisition directs

Seal

16 The Court of Small Causes shall use a seal of such form and dimensions as are prescribed by the Agent to the Governor General in Rajputana

Amendment of Indian Limitation Act

of 1877

17 In the third division of the second schedule to the Limitation Act,—

(*a*) after No 160 the following shall be inserted, namely —

'160A For a review of judgment by the Magistrat of Abu as the Court of Small Causes under the Abu and Aundra Small Cause Court Law 1889	Ditto	The date of the decree or order

and (*b*) in No 173 the words, figures and letter "No 160 A and" shall be inserted before the word and figures "No 162"

No 1384 I—Whereas the rulers of the States mentioned in the margin have ceded to the British Government full jurisdiction within the lands which lie within their respective States and are occupied or may hereafter be occupied by the railways comprised in the Rajputana Malwa Railway system or by the Rewari Ferozepur State Railway, respectively, (including the lands occupied by stations, out buildings and for other railway purposes)

Ulwar	Tonk
Bhurtpore	Indore
Jeypore	Gwalior
Kishengarh	Dhar
Marwar	Rutlam
Sirohi	Jora
Meywar	Sailana
Nabha	Faridkot

In exercise of this jurisdiction and of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, XXI of 1879 and of all other powers enabling him in this behalf, the Governor General in Council is pleased to direct that the Police Act III of 1866, shall be in force throughout the lands aforesaid

No 1385 I—The Governor General in Council has been pleased to make the following rules relating to Courts in the Hyderabad Assigned Districts —

Preliminary

Title and commencement

1 (*1*) These rules may be called the Hyderabad Assigned Districts Courts Law, 1889, and are hereinafter referred to as "this Law", and

(*2*) They shall come into force on the first day of July, 1889 (hereinafter called the commencement of this Law)

(*3*) Any authority conferred on the Resident or on the Judicial Commissioner by this Law to issue orders or make rules may be exercised at any time after the publication of this Law, but an order or rule so issued or made shall not take effect till the commencement of this Law

Notifications rescinded

2 (*1*) On and from the commencement of this Law the notifications of the Government of India, Foreign Department, No 156 I, dated the 30th September, 1870, and No 640 G, dated the 20th March 1874, shall be deemed to be rescinded

(*2*) Any law or document referring to either of those notifications shall be construed to refer to this Law or to the corresponding portion thereof, and

(*3*) All declarations and appointments made, powers conferred and orders issued under those notifications shall, so far as may be, be deemed to have been respectively made, conferred and issued under this Law

Definitions

3 In this Law, unless there is something repugnant in the subject or context,—

(*1*) "Resident" means the Resident at Hyderabad

(2) 'Assistant Commissioner" includes Extra Assistant Commissioner

(3) "Tahsildar" includes Attaché and

(4) "value" used with reference to a suit means the amount or value of the subject matter of the suit

Court of the Judicial Commissioner

Judicial Commissioner to be High Court

4 (1) A Judicial Commissioner shall be appointed by the Governor General in Council

(2) Subject to the provisions of this Law and of any other law for the time being in force, the Court of the Judicial Commissioner shall be deemed to be the highest Civil Court of appeal in, and the highest Court of criminal appeal or revision for, the Hyderabad Assigned Districts

(3) Where, on the application of any enactment of the Governor General in Council to those districts, words signifying the Court of the Resident have been substituted for an expression signifying a High Court in British India, those words shall after the commencement of this Law and subject to the provisions thereof be construed to mean the Court of the Judicial Commissioner

Jurisdiction under Divorce Act

5 For the purposes of the Indian Divorce Act the Judicial Commissioner shall throughout those districts be the District Judge

Other Civil Courts

Classes of Courts

6 Besides the Court of the Judicial Commissioner and the Courts of Small Causes established under the Hyderabad Assigned Districts Small Cause Courts Law, 1889 there shall be the following classes of Civil Courts, namely —

(a) the Court of the Deputy Commissioner,

(b) the Court of the Assistant Commissioner of the first class,

(c) the Court of the Assistant Commissioner of the second class

(d) the Court of the Assistant Commissioner of the third class,

(e) the Court of the Tahsildar of the first class,

(f) the Court of the Tahsildar of the second class

Court of Deputy Commissioner to be District Court

7 (1) The local limits of the jurisdiction of the Court of the Deputy Commissioner shall be those of the district of the revenue administration of which he is in charge

(2) Subject to the provisions of this Law and of any other law for the time being in force,—

(a) the Court of the Deputy Commissioner shall be competent to try original civil suits without limit as regards the value, and

(b) the Deputy Commissioner shall be deemed to be the District Judge of the district, and his Court to be the District Court or principal Civil Court of original jurisdiction in the district

Courts of Assistant Commissioners and Tahsildars

8 (1) The Resident may, by order in writing, declare, as regards any Assistant Commissioner, that his Court shall be that of an Assistant Commissioner of the first or of the second or of the third class, and, as regards any Tahsildar, that his Court shall be that of a Tahsildar of the first or of the second class, and may cancel such order

(2) Courts of Assistant Commissioners and Tahsildars shall be competent to try original civil suits of which the value does not exceed that specified against each Court in the following table —

Courts	Value
Court of the Assistant Commissioner of the first class	Five thousand rupees
Court of the Assistant Commissioner of the second class	One thousand rupees
Court of the Assistant Commissioner of the third class	Five hundred rupees
Court of the Tahsildar of the first class	Three hundred rupees
Court of the Tahsildar of the second class	One hundred rupees

Provided that the Resident may by order in writing limit the classes of original civil suits which the Courts of Tahsildars of the first or of the second class shall be competent to try

(3) The local limits of the jurisdiction of the Courts mentioned in this section shall be such as the Resident may, by order in writing, define

Special Jurisdiction

Appointment of Civil Judge and Munsifs

9 (1) The Resident may by order in writing, invest any person—

(a) with all or any of the powers of the Court of the Deputy Commissioner under this Law, or

(b) with all or any of the powers of the Court of a Tahsildar of the first or of the second class under this Law,

and declare that the powers with which any person is so invested shall be exercised within any specified local area and with respect to any particular class or particular classes, of cases, or with respect to cases generally, and that they shall be exercised in that local area with respect to those cases for a limited period only, and may cancel or modify such order

(2) A person invested with powers under subsection (1) shall be designated Civil Judge if invested under clause (a), and Munsif if invested under clause (b)

(3) The Court of a Civil Judge and the Court of a Munsif shall, for all purposes connected with the exercise of the powers with which the Civil Judge or the Munsif has been invested, be deemed to be respectively, the Court of a Deputy Commissioner and the Court of a Tahsildar

(4) The Resident may, by order in writing direct how business shall be distributed between a Deputy Commissioner and a Civil Judge and between a Tahsildar and a Munsif

Power to confer Small Cause Court jurisdiction

10 (1) The Resident may, by order in writing confer, within such local limits as he thinks fit, upon any Court of an Assistant Commissioner of the first or of the second class

the jurisdiction of a Judge of a Court of Small Causes under the Hyderabad Assigned Districts Small Cause Courts Law, 1889, for the trial of suits cognizable by such Courts up to such value as he thinks fit not exceeding if the Court is that of an Assistant Commissioner of the first class, five hundred rupees, or, if the Court is that of an Assistant Commissioner of the second class, one hundred rupees

(2) So much of Chapters III and IV of the Hyderabad Assigned Districts Small Cause Courts Law as relates to—

(*a*) the nature of the suits cognizable by Courts of Small Causes,

(*b*) the exclusion of the jurisdiction of other Courts in those suits

(*c*) the practice and procedure of Courts of Small Causes,

(*d*) appeal from certain orders of those Courts and revision of cases decided by them, and

(*e*) the finality of their decrees and orders subject to such appeal and revision as are provided by the said Law,

applies to Courts invested under sub-section (1) with the jurisdiction of a Court of Small Causes so far as regards the exercise of that jurisdiction by those Courts

Conferment of jurisdiction in certain suits on Naib Tahsildars

11 The Resident may by order in writing invest, within such local limits as he thinks fit any Naib Tahsildar with jurisdiction to try suits of the nature cognizable by a Court of Small Causes established under the Hyderabad Assigned Districts Small Cause Courts Law, 1889, up to such value, not exceeding fifty rupees, as he thinks fit

Administrative Control over Civil Courts

Superintendence and control of subordinate Courts by Courts of Judicial Commissioner and Deputy Commissioner

12 (1) The general superintendence and control over all other Civil Courts shall be vested in and all such Courts shall be subordinate to, the Court of the Judicial Commissioner

(2) Subject to the general superintendence and control of the Court of the Judicial Commissioner, the control of all other Civil Courts in a district shall be vested in, and all such Courts shall be subordinate to, the Court of the Deputy Commissioner

Provided that the Resident may, by order in writing, direct that a Civil Judge shall be subject to the control of and subordinate to, the Court of the Judicial Commissioner only

IV of 1882. Power of Deputy Commissioner to distribute business

13 Notwithstanding anything in the Code of Civil Procedure, the Court of the Deputy Commissioner may, by order in writing direct that any civil business cognizable by it and the Courts under its control shall be distributed among those Courts in such manner as it thinks fit

Provided that no direction given under this section shall empower any Court to exercise any powers or deal with any business beyond the limits of its proper jurisdiction

Civil Appellate and Revisional Jurisdiction

Appeals to whom to lie

14 (1) An appeal from a decree passed in an original civil suit by a Court subordinate to the Court of the Deputy Commissioner shall, when the appeal is allowed by law and the value of the suit does not exceed five hundred rupees, lie to the Court of the Deputy Commissioner

(2) An appeal from a decree passed in an original civil suit of value exceeding five hundred rupees by the Court of an Assistant Commissioner of the first or of the second class, or by a Civil Judge who is subordinate to the Court of the Deputy Commissioner, and from a decree passed in an original civil suit of any value by the Court of a Deputy Commissioner or by a Civil Judge who is not subordinate to that Court, shall, when the appeal is allowed by law, lie to the Court of the Judicial Commissioner

(3) An appeal from an appellate decree passed by a Civil Court subordinate to the Court of the Judicial Commissioner shall, when the appeal is allowed by law, lie to the Court of the Judicial Commissioner

Revisional jurisdiction and jurisdiction under the Land Acquisition Act

15 (1) Paragraph (14) of the Notification of the Government of India Foreign Department, No 1099 I, dated the 3rd May, 1883 and so much of the first paragraph of the Notification of the Government of India in the same Department, No 209 I J, dated the 20th October 1881, as relates to the definition of the expression 'Court' in section 3 of the Land Acquisition Act, 1870, are hereby rescinded I of 1870

(2) For the definition of "Court" in section 3 of the Land Acquisition Act, 1870, the following shall be substituted, namely —

"The expression 'Court' means the Court of the Civil Judge of the district, or, where there is not such a Court in a district, such Court of a Civil Judge in the Hyderabad Assigned Districts as the Judicial Commissioner may nominate to discharge the functions of a Court under this Act"

Rules

Power of Judicial Commissioner to make rule for all subordinate Courts

16 (1) The Judicial Commissioner may make rules consistent with this Law and any other law for the time being in force—

(*a*) declaring what persons shall be permitted to practise as petition writers in Civil and Criminal Courts subordinate to his Court, and regulating the conduct of persons so practising,

(*b*) prescribing forms for seals to be used by those Courts,

(*c*) regulating the procedure in cases where persons are entitled to inspect records of those Courts or obtain copies of records therein, and prescribing the fees payable for searches and copies

(*d*) conferring and imposing on the ministerial officers of those Courts such powers and duties of a non judicial or quasi judicial nature as he thinks fit, and regulating the mode in which powers and duties so conferred and imposed shall be exercised and performed

(*e*) prescribing forms for such books, entries statistics and accounts as he thinks necessary to be kept, made or compiled in those Courts or submitted to any authority,

(*f*) providing for the inspection of those Courts and the supervision of the working thereof, and

(*g*) regulating all such matters as he may think fit, with a view to promoting the efficiency of the judicial and ministerial officers of those Courts and maintaining proper discipline among those officers

(2) A rule made by the Judicial Commissioner under sub section (1) or under any other law for the time being in force shall not take effect until it has been sanctioned by the Resident and published in the Residency Orders

(3) Whoever breaks any rule made under clause (*a*) of sub section (1) may be suspended or removed from the list of authorised petition writers or be punished with fine which may extend to fifty rupees

(4) Any rule made by the Judicial Commissioner under clause (*d*), (*e*) (*f*) or (*g*) of sub section (1) shall be submitted to the Resident, for the purposes of sub section (2), through the office of the Commissioner of the Hyderabad Assigned Districts

(5) Rules made under clause (*g*) of sub section (1) may provide, among other matters, for fines to an amount not exceeding one month's salary being imposed on ministerial officers for misconduct or neglect in the performance of their duties, and for the recovery of fines so imposed by deduction of the amount thereof from any salary that may be or become due to the officers fined

Supplemental Provisions

Books and accounts and statements and returns to be kept and furnished by Judicial Commissioner

17 (1) The Judicial Commissioner shall keep such registers, books and accounts as may be necessary for the transaction of the business of his Court and shall submit to the Resident such of those registers, books and accounts, and such statements of the work done in his Court, as may be required by the Resident

(2) The Judicial Commissioner shall also comply, in such form and manner as the Resident may deem proper, with such requisitions as may be made by the Resident for records of, or papers belonging to, the Court of the Judicial Commissioner or any Court subordinate thereto, or for certified copies of, or extracts from such records or papers, or for returns, statements or reports

Place of sitting of Courts

18 (1) The Resident may, by order in writing, fix the place or places at which any Court is to be held

(2) Except as may be otherwise provided by any order under this section a Court may be held at any place within the local limits of its jurisdiction

Holidays

19 (1) The Judicial Commissioner, with the approval of the Resident, shall publish in the Residency Orders before the commencement of each calendar year a list of days to be observed in that year as holidays in his Court and the Courts subordinate thereto

(2) A judicial act done by a Court on a day specified in the list as a day to be observed by the Court as a holiday shall not be invalid by reason only of its having been done on that day

Mode of conferring powers

20. The Resident may, when he is empowered by this Law to confer any powers, confer them on any person specially by name or by virtue of his office

Powers exercisable from time to time

21 All powers conferred by this Law may be exercised from time to time as occasion requires

Publication of certain orders

22 All orders required by this Law to be issued by the Resident in writing shall be published in the Residency Orders

Transitory Provisions

Pending proceedings

23 (1) A case or proceeding pending in the Court of the Resident on the day on which this Law comes into force shall be disposed of as if this Law had not been passed

(2) A case or proceeding pending on that day in the Court of the Judicial Commissioner as a Court of Civil Judicature shall, subject to the law applicable to the case or proceeding be continued as in the highest Civil Court of Appeal in the Hyderabad Assigned Districts

(3) A case or proceeding pending on that day in the Court of the Judicial Commissioner as a Court of Session shall be transferred to the Court of Session to be established on that day for the Hyderabad Assigned Districts

(4) A case or proceeding pending on that day in any Civil Court subordinate to the Court of the Judicial Commissioner shall be disposed of as if this Law had not been passed

Provided that the Judicial Commissioner may transfer any such case or proceeding to the Court of any Civil Judge or Munsif competent to dispose of it

Appeals after commencement of Law against decrees and orders passed before

24 An appeal from a decree or order passed and not appealed against before the commencement of this Law shall lie and be disposed of as if this Law had not been passed, and not otherwise

Provided that, where the appeal is from a decree or order passed by the Court of a Tahsildar or of an Assistant Commissioner in an original suit of value not exceeding five hundred rupees, it may be disposed of by a Civil Judge having authority on that behalf

No 1387 *I*.—Whereas it is expedient to consolidate and amend the law relating to Courts of Small Causes in the Hyderabad Assigned Districts the Governor General in Council has been pleased to make the following rules —

CHAPTER I

PRELIMINARY

Title and commencement

1 (1) These rules may be called the Hyderabad Assigned Districts Small Cause Courts Law, 1889, and are hereinafter referred to as "this Law," and

(2) They shall come into force on the first day of July, 1889

Rescission of notifications with respect to the application of Act XI of 1865

2 (1) The notification of the Government of India in the Foreign Department, No 212 J dated the 24th October 1873 in so far as it relates to the application of the Mufassal Small Cause Courts Act, XI of 1865, to the Hyderabad Assigned Districts and the notification of the Government of India in the same Department No 150 J, dated the 5th August, 1874 are hereby rescinded

(2) But all Courts constituted limits fixed, places appointed appointments declarations and rules made, jurisdiction and powers conferred, forms prescribed directions given and notifications published under the Act aforesaid shall, so far as may be be deemed to have been respectively constituted fixed appointed made, conferred, prescribed, given and published under this Law

(3) Any enactment or document referring to the said Act shall so far as may be be construed to refer to this Law or to the corresponding portion thereof

Savings

3 Nothing in this Law shall be construed to affect—

(a) any proceedings before or after decree in any suit instituted before the commencement of this Law, or

(b) the jurisdiction of a Magistrate under any law for the time being in force with respect to debts or other claims of a civil nature or

XIV of 1882 (c) any local law or any special law other than the Code of Civil Procedure as applied to the Hyderabad Assigned Districts (that Code being hereinafter referred to as "the Code")

CHAPTER II

CONSTITUTION OF COURTS OF SMALL CAUSES

Establishment of Courts of Small Causes

4 (1) The Resident at Hyderabad (hereinafter referred to as "the Resident") with the previous sanction of the Governor General in Council, may, by order in writing, establish a Court of Small Causes at any place within the Hyderabad Assigned Districts

(2) The local limits of the jurisdiction of the Court of Small Causes shall be such as the Resident may define and the Court may be held at such place or places within those limits as the Resident may appoint

Judge

5 (1) When a Court of Small Causes has been established, the Resident shall, by order in writing, appoint a Judge of the Court

(2) The Judge may be the Judge of one Court of Small Causes or of two or more such Courts, as the Resident directs

Appointment of times of sitting in certain circumstances

6 (1) A Judge who is the Judge of two or more such Courts may fix the times at which he will sit in each of the Courts of which he is Judge

(2) Notice of the times shall be published in such manner as the Judicial Commissioner of the Hyderabad Assigned Districts (hereinafter referred to as the Judicial Commissioner) from time to time directs

Suspension and removal of Judges

7 A Judge of a Court of Small Causes may be suspended or removed from office by the Resident

Appointment punishment and transfer of ministerial officers

8 Subject to any orders of the Resident in this behalf, the law or practice for the time being applicable to the appointment, punishment and transfer of ministerial officers of the Court of an Assistant Commissioner of the first class shall, so far as it can be made applicable, apply to the appointment punishment and transfer of ministerial officers of the Court of Small Causes

Duty of ministerial officer

9 (1) The ministerial officers of a Court of Small Causes shall in addition to any duties mentioned in this Law, or in any other enactment for the time being in force as duties which are or may be imposed on any of them, discharge such duties of a ministerial nature as the Judge directs

(2) The Judicial Commissioner may make rules consistent with this Law and with any other enactment for the time being in force, conferring and imposing on the ministerial officers of a Court of Small Causes such powers and duties as he thinks fit and regulating the mode in which powers and duties so conferred and imposed are to be exercised and performed

CHAPTER III

JURISDICTION OF COURTS OF SMALL CAUSES

Cognizance of suits by Courts of Small Causes

10 (1) A Court of Small Causes shall not take cognizance of the suits specified (as being excepted from the cognizance of a Court of Small Causes) in the second schedule to the Provincial Small Cause Courts Act, 1887, being Act IX of 1887 of the Acts of the Governor General in Council

(2) Subject to the exceptions specified in that schedule and to the provisions of any enactment for the time being in force, all suits of a civil nature of which the value does not exceed five hundred rupees shall be cognizable by a Court of Small Causes

(3) Subject as aforesaid, the Resident may, by order in writing direct that all suits of a civil nature of which the value does not exceed one thousand rupees shall be cognizable by a Court of Small Causes mentioned in the order

Exclusive jurisdiction of Courts of Small Causes

11 Save as expressly provided by this Law or by any other enactment for the time being in force, a suit cognizable by a Court of Small Causes shall not be tried by any other Court having jurisdiction within the local limits of the jurisdiction of the Court of Small Causes by which the suit is triable

CHAPTER IV

PRACTICE AND PROCEDURE

Application of the Code of Civil Proced ure

12 (*1*) The procedure prescribed in the Chapters and sections of the Code which are specified in the second schedule thereto shall, so far as those Chapters and sections are applicable be the procedure followed in a Court of Small Causes in all suits cognizable by it and in all proceedings arising out of such suits

Provided that in applicant for an order to set aside a decree passed *ex parte* or for a review of judgment shall at the time of presenting his application either deposit in the Court the amount due from him under the decree or in pursuance of the judgment or give security to the satisfaction of the Court for the performance of the decree or compliance with the judgment, as the Court may direct

(*2*) Where a person has become liable as surety under the proviso to sub section (*1*), the security may be realized in manner provided by section 253 of the Code

Adjournment of cases by chief ministerial officer

13 When the Judge of a Court of Small Causes is absent the chief ministerial officer of the Court may exercise from time to time the power which the Court possesses of adjourning the hearing of any suit or other proceeding, and fix a day for the further hearing thereof

Return of plaint in suits involving questions of title

14 (*1*) Notwithstanding anything in the foregoing provisions of this Law when the right of a plaintiff and the relief claimed by him in a Court of Small Causes depend upon the proof or disproof of a title to immoveable property or other title which such a Court cannot finally determine, the Court may at any stage of the proceedings return the plaint to be presented to a Court having jurisdiction to determine the title

(*2*) When a Court returns a plaint under sub section (*1*) it shall comply with the provisions of the second paragraph of section 57 of the Code and make such order with respect to costs as it deems just and the Court shall for the purposes of the Indian Limitation Act 1877 as applied to the Hyderabad Assigned Districts (hereinafter referred to as the Limitation Act) be deemed to have been unable to entertain the suit by reason of a cause of a nature like to that of defect of jurisdiction

XV of 1877

Appeals from certain orders of Courts of Small Causes

15 Where an order specified in section 588 clause (*29*), of the Code is made by a Court of Small Causes, an appeal therefrom shall lie to the Court of the Deputy Commissioner

Revision of decrees and orders of Courts of Small Causes

16 The Judicial Commissioner, for the purpose of satisfying himself that a decree or order made in any case decided by a Court of Small Causes was according to law may call for the case and pass such order with respect thereto as he thinks fit

Finality of decrees and orders

17 Save as provided by this Law, a decree or order made under the foregoing provisions of this Law by a Court of Small Causes shall be final

CHAPTER V

SUPPLEMENTAL PROVISIONS.

Subordination of Court of Small Causes

18 (*1*) A Court of Small Causes shall be subject to the administrative control of the Deputy Commissioner and to the superintendence of the Judicial Commissioner, and shall—

(*a*) keep such registers, books and accounts as the Judicial Commissioner from time to time prescribes, and

(*b*) comply with such requisitions as may be made by the Deputy Commissioner, the Judicial Commissioner or the Resident for records, returns and statements in such form and manner as the authority making the requisition directs

(*2*) The relation of the Deputy Commissioner to a Court of Small Causes, with respect to administrative control, shall be the same as that of the Deputy Commissioner to the Court of an Assistant Commissioner of the first class

Seal

19 A Court of Small Causes shall use a seal of such form and dimensions as are prescribed by the Resident

Abolition of Court of Small Causes

20 The Resident may, by order in writing, abolish a Court of Small Causes

Saving of power to appoint judge of Court of Small Causes to other office

21 (*1*) Nothing in this Law shall be construed to prevent the Resident from appointing a person who is a Judge of a Court of Small Causes to be also a Judge of any other Civil Court or to be a Magistrate of any class or to hold any other public office

(*2*) When a Judge is so appointed, the ministerial officers of his Court shall subject to any orders of the Resident in this behalf, be deemed to be ministerial officers appointed to aid him in the discharge of the duties of the other office

Continuance of proceedings of abolished Court

22 (*1*) Where a Court of Small Causes has for any reason ceased to have jurisdiction with respect to any case, any proceeding in relation to the case, whether before or after decree, which, if the Court had not ceased to have jurisdiction, might have been had therein, may be had in the Court which, if the suit out of which the proceeding has arisen were about to be instituted, would have jurisdiction to try the suit

(*2*) Nothing in this section applies to cases for which special provision is made in the Code as extended to Courts of Small Causes, or in any other enactment for the time being in force

Amendment of Limitation Act

23 In the third division of the second schedule to the Limitation Act,—

(*a*) after No 160 the following shall be inserted, namely —

160A For a review of judgment by a Court of Small Causes or by a Court invested with the jurisdiction of a Court of Small Causes when exercising that jurisdiction	Ditto	The date of the decree or order

and (*b*) in No 173 the words, figures and letter "No 160A and shall be inserted before the word and figures "No 162"

Publication of certain orders

24 All orders required by this Law to be made in writing by the Resident shall be published in the Residency Orders

No 1389 *I* —In exercise of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, XXI of 1879, and of all other powers enabling him in this behalf, the Governor General in Council is pleased to apply to the Hyderabad Assigned Districts—

(*a*) the Suits Valuation Act, VII of 1887 and

(*b*) so much of Act X of 1888 as amends the Code of Civil Procedure

ESTIMATES AND ACCOUNTS

Calcutta, the 29th March, 1889

No 1698

RESOLUTION—By the Government of India Department of Finance and Commerce

Read—

The Finance and Revenue Accounts for 1887 88, and the Comptroller and Auditor General's Appropriation Report on those Accounts

RESOLUTION —The following is a statement of the leading figures of the Accounts of the year 1887 88 —

		1886 87 Accounts	1887 88 Budget	1887 88, Revised	1887 88 Account
		Rx	Rx	Rx	Rx
INDIA	Revenue	77 010 111	77 217 700	77 960 000	78 389 003
	Expenditure	57 294 007	57 893 700	58 942 000	58 962 287
	Provincial Adjustment of Expenditure	+35 665	—769 600	+27 700	+370 591
ENGLAND	Revenue	237 651	176 800	238 300	261 017
	Expenditure	14 409 949	14 808 900	15 474 400	15 389 065
EXCHANGE	on Revenue	89 372	65 700	108 100	109 691
	Expenditure	5 419 086	5 500 500	6 109 200	6 466 633
TOTAL	Revenue	77 337 134	77 460 200	77 926 600	78 759 741
	Expenditure	77 168 707	77 443 000	80 943 300	81 788 576
Surplus or Deficit		+178 427	+16 700	—3 016 700	—2 028 832

The result of the year was thus Rx 2,045,532 worse than the Budget, but was Rx 987,868 better than that anticipated in the Revised Estimate The deterioration of Rx 2,045,500 is made up thus—

	Rx
Revenue in India—Better than Budget	1,171,300
Expenditure in India—Worse than Budget	668,600
Provincial Adjustment—Worse than Budget	1,130,200
Net Expenditure in England—Worse than Budget	495,900
Exchange on English Expenditure—Worse than Budget	922,100
	2,045,500

The details of the first two items are as follows —

REVENUE IN INDIA

Increase + Decrease –

	Imperial	Provincial and Local	Total
	Rx	Rx	Rx
Land Revenue	+58 800	+192 900	+251 700
Opium	—377 800		—377 800
Stamps	+53 000	+107 100	+160 100
Excise	+229 800	+79 500	+309 300
Customs	+116 800	+300	+116 100
Telegraph	+118 800	+200	+119 000
Exchange	+379 100		+379 100
State Railways	—576 900	+130 000	—446 900
Guaranteed Railways (net Traffic Receipts)	+121 700		+121 700
Army	+151 700		+151 700
Minor Differences under other Heads	+210 000	+177 300	+387 300
TOTAL	+184 000	+687 300	+1 171 300

EXPENDITURE IN INDIA

	Imperial	Provincial and Local	Total
	Rx	Px	Rx
Assignments and Compensations	—11 000	+112 300	+101,300
Land Revenue	—23 900	—157 400	—181 300
Interest	—142 400	—100	—142 500
State Railways (Working Expenses)	—227 400	—9 800	—237 200
Buildings and Roads	+126 100	—248 700	—122 600
Army	+1 094 900		+1 094 900
Special Defence Works	+371 100		+371 100
Other Heads	—75 900	—139 200	—215 100
TOTAL	+1 111 500	—442 900	+668 600

It will be seen that, while the Imperial Revenue improved considerably under Excise and Exchange, it fell off under Opium and State Railways The increase in Imperial Expenditure was almost entirely under Army, but the inclusion in the Revenue Account of Special Defence Works Expenditure which, in the Budget Estimate, was charged against Loan Funds, also contributed to the excess

In the Provincial and Local part of the Accounts there was an improvement in the revenues of Rx 687,300, chiefly under Land Revenue, Stamps, and State Railways, and a saving in expenditure of Rx 412,900, chiefly under Buildings and Roads, resulting in a total improvement of Rx 687,300 + 442,900, or Rx 1,130,200 in the balances at credit of Provincial Governments This explains the third item

The chief items contributing to the increase of English Expenditure were, an excess of Rx 735,100 under Interest, and a saving of Rx 184,300 under Marine, the rest of the variations being comparatively unimportant

The last of the four items may be briefly explained thus The Budget Estimate was framed on the basis of an exchange of $17\frac{1}{2}d$ or £1 = R13 714, the rate actually realised, and at which the English net expenditure was brought to account was $16\,9d$ or £1 = R14 201

The following are the leading features of the comparison of the Estimates and Accounts —

PRINCIPAL HEADS OF REVENUE

		Rx
1886 87	Accounts	23 05 00
1887 88	Budget	2 947 (0)
	Revised	22 18 900
	Accounts	23 189 900
Portion of Land Revenue due to Irrigation —		
1886 87	Accounts	5 87 00
1887 88	Budget	576 500
	Revised	678 400
	Accounts	60 500

Land Revenue—The collections of 1887 88 have been higher than those of any previous year, owing, chiefly, to the receipts in Upper Burma, which were included for the first time in 1886 87 With the settling down of the country these have improved considerably, the figures being Rx 167,200 in 1886 87 and Rx 378,800 in 1887 88

The Revenue increased to a marked extent also (*a*) in Madras, from extended cultivation and favourable seasons, and (*b*) in Bombay, from new settlements and recovery of arrears A portion of the increase in the latter Presidency was nominal, as there was an equivalent increase of expenditure under—Assignments, &c, owing to the system of adjustment peculiar to Bombay, under which the alienated Land Revenue is shown on the one side as if it were actually realised, and on the other side is charged off as though it were actually disbursed for services The collections of March were again very high and caused an improvement over the Revised Estimate of over Rx 200,000 It has been explained in previous years Reviews that the Land Revenue is divided much more accurately by seasons and that the annual collections are properly comparable, only if the year is taken as ending with the month of September instead of March The actuals of the past five years (including Land Revenue due to Irrigation) compare as follows on this method—

	Rx
30th September 1883	22,353,700
„ 1884	22,647,900
„ 1885	22 685 000
„ 1886	23,021,000
„ 1887	23 402 400
„ 1888	23 9 1,700

It will be seen that the revenue has been steadily increasing during the last few years It has been already stated that part of the increase in Bombay was nominal The adjustments of alienated Land Revenue, appearing in the accounts of the past four years, have been greatly in excess of the amounts taken in the estimates of those years Enquiries were, therefore, instituted in November last with a view to ascertaining whether these credits to, and charges against, Revenue could not be more closely estimated in future The Government of Bombay, in reply, forwarded a communication from the Commissioner in Sind—reproduced below—describing the change of system in the assessments of these lands which has led to the recurring increases since 1884 85 over the estimates of each year and the actuals of the preceding year —

"Prior to 1884 85 the system followed was to show, as the value of alienations, the estimated assessment fixed as on similar and neighbouring revenue paying lands, only on the area actually cultivated

"This system, however, was obviously a faulty one Under it the actual value was not and could not be ascertained, because many causes may, and do, operate to prevent full and even fair cultivation of their holdings by alienees, such as poverty, insufficient or faulty water-supply, negligence private quarrels &c Therefore, to assess the value of an alienation, in which one or more of these causes was at work, in the manner above described, was calculated to give an inadequate idea of its actual value under ordinarily favourable circumstances

'Accordingly, in 1884 85, orders were issued, under which the actual value is taken to be the assessment on the whole culturable area, irrespective of the area cultivated, at the rates prevailing

under the existing settlement in the immediate neighbourhood of each alienation, no deduction being made on account of fallows This change of system in itself is the cause of a very considerable increase in the value of alienations and, in addition, its application in newly-settled talukas in which enhanced rates have been introduced has tended to swell the increase

"As regards the value adjudged to cultivable land in Sind, it will appear from the above that, except in the case of newly settled talukas, no increase has taken place The rates are those of the existing settlements Land in Sind, if cultivable at all, merely requires irrigation and, receiving it, at once attains its full value To provide irrigation requires opportunity, capital, and energy, and the two latter are not, as a rule, possessed by Jagirdars and other alienees, who are often content to let things take their course

"But the land being culturable provided the above mentioned requisites are forthcoming, the correct method of ascertaining the actual value of its alienated revenue appears to be that followed in preference to the old one under which a grant worth many thousands of rupees, might be valued at a few hundreds or less"

The following amounts, which represent the credits on account of alienated Land Revenue for the period 1884 85 to 1889 90, indicate, however, that the change of system alluded to has been completed, and the large variations from Estimates noticed in past years should not appear in future —

1884 85	1885 86	1886 87	1887 88	1888 89 Revised	1889 90 Budget
Rx	Rx	Rx	Rx	Rx	Rx
733,600	810,900	873,200	876,800	878,700	879,500

Opium—The number of chests of Bengal opium sold during 1887-88 (57,000) was the largest of any year on record except one, but owing to the low price per chest, R1,059, the revenue realised therefrom was less by Rx 109,000 than that of the previous year, in which only 54,750 chests were sold, and Rx 232,000 less than the Budget Estimate

		Rx
1886 87	Accounts	8 943 000
1887 88	Budget	8 893 300
	Revised	8 544 00
	Accounts	8 315 900

The Bombay Opium Revenue was also less than that of 1886 87 by Rx 315,900, owing to a reduction in the weighments of the year of 3,738 chests The weighments of 1886-87 were abnormally high however, as explained in last year's review, and over Rx 71,000 of the revenue of 1887-88 representing unrealised hundis given in payment of duty, fell into the current year's receipts

The Revenue from Excise Opium was slightly in excess of the Estimate and of the actuals of the previous year, being Rx 201,200 against Rx, 196,800 and Rx 199,100 respectively

The production of Bengal opium was for the fourth successive year very favourable, although the total number of chests manufactured was somewhat less than in the 3 previous years The succession of good seasons has considerably strengthened the balance in stock, which was 79,995 chests on 1st April 1888 against 36,495 chests on 1st April 1884

	No of chests produced
1884 85	60 990
1885 86	61 930
1886 87	64 500
1887 88	57 500

Salt—The salt duty was raised from the 19th January 1888 from R2 to R2 8 per maund in India, and from 3 annas to R1 in Burma, but the revenues of 1887-88 derived no benefit from the measure, the realizations of February and March 1888 being each about Rx 50,000 less than in the corresponding months of the previous year This result occurred because the enhancement of duty checked the sales of the higher-taxed salt, until the old stocks, which paid the former rate of duty, were exhausted The abolition of the Agency system for the sale of Sambhar salt also had an unfavourable effect on the

		Rx
1886 87	Accounts	6 657 000
1887 88	Budget	6 604 000
	Revised	6 723 100
	Accounts	6 670 700

receipts on account of freight, but this is immaterial as the receipts only represent recoveries of a charge which appears *per contra* For these reasons the collections of 1887 88 were very little higher than those of 1886-87, and correspond closely with the estimate

Stamps and Excise—The improvement noticed in these revenues in previous years has been maintained during 1887-88 The former increased by Rx 125,000 against Rx 88,100 in 1886-87, but of this the greater portion was due to some unusual receipts, such as probate duty on the estate of a millionaire in Bombay and of a wealthy zemindar in Bengal, and a large sale of stamps to a new Bank in Madras Even apart from these special items, the revenue improved considerably in consequence of increased litigation and activity in trade The increase in Excise Revenue occurred chiefly in Madras and Bombay, and is the result of better administration

		Stamps Rx	Excise Rx
1886 87	Accounts	3751 30	4370 00

	Revised	3818 100	4503 100
	Accounts	3876 3	4531 700

Provincial Rates—These receipts are collected with the Land Revenue and are affected more or less by the causes which influence the collection of the latter The figures of the past five years are compared below for each Financial and Revenue year respectively —

		Rx
1886 87	Accounts	2 09 800
1887 88	Budget	2 17 500
	Revised	2 08 700
	Accounts	3035 300

	Year ending 31st March Rx	Year ending 30th September Rx
1884	2,878,700	2,781,300
1885	2,791,500	2,925,800
1886	2 960 500	2,958,500
1887	2,999,800	2 978,000
1888	3,035,300	3,044,900

Customs—Import duties—Owing to the general improvement in trade and the changes introduced by the Tariff Act of 1887, there was an advance in the Customs duty on imports, as shown below —

		Rx
1886 87	Accounts	1 24 300
1887 88	Budget	1 25 700
	Revised	1 34 600
	Accounts	1 318 800

	Gross Receipts Rx	Refunds Rx	Net Amounts Rx
1882 83	433,100	27,700	405,600
1883 84	439,100	8,600	430,500
1884 85	418,500	7,100	411,400
1885 86	437,200	16,200	421,000
1886 87	512,000	16,100	495,900
1887 88	564,200	14,500	549,700

The tax on petroleum imposed in January 1888 is expected to increase the collections in future years by about Rx 120,000, but the receipts of the year under review have been benefited only to a small extent by that measure

Export duties—Distributing the export duties by the Financial year the figures, after deduction of refunds, are Rx 576,600, Rx 730,300, Rx 703,700, and Rx 711,300, but, taking the years ending September 30th, so as to bring within each period the whole of a rice season, the duties amount to—

	Rx
1884 85	669,300
1885 86	695,800
1886 87	740,900
1887 88	702,300

		Rx
1886 87	Accounts	1 364 700
1887 88	Budget	1 406 000
	Revised	1 417 100
	Accounts	1 431 400

Assessed Taxes—The receipts have proved somewhat better than the actuals of 1886 87 and the Estimate

Forest Revenue—The actuals approximate closely to the Budget figure and are Rx 20,000 more than the receipts of 1886 87 The increase was chiefly in Burma, and resulted from the more settled condition of the country leading to larger sales of timber and at higher prices Decreases occurred in the North Western Provinces and the Punjab owing to diminished requirements of the Public Works Department

		Rx
1886 87	Accounts	1 101 000
1887 88	Budget	1 130 700
	Revised	1 111 700
	Accounts	1 131 100

Registration—The Registration revenue showed fair progress in nearly every province, the realisations of the last five years having been Rx 259,000, Rx 286,800, Rx 308,000, Rx 299,100, and Rx 311,300 The revenue in 1885 86 was abnormally increased by special receipts

		Rx
1886 87	Accounts	299 100
1887 88	Budget	307 700
	Revised	308 200
	Accounts	311 300

Tributes—The increase over the receipts of previous years and the estimate was due to the transfer, to this head from certain Local Funds, of the subsidies paid by the Baroda and Junagadh States on account of the Gujerat Police force

		Rx
1886 87	Accounts	69 100
1887 88	Budget	72 000
	Revised	710 000
	Accounts	743 600

DIRECT DEMANDS ON THE REVENUE

Refunds—Certain special refunds of Land Revenue in Upper Burma in the last month of the year account for the increase in 1887 88

		Rx
1886 87	Accounts	211 00
1887 88	Budget	20 00
	Revised	211 700
	Accounts	243 300

Assignments and Compensations—The differences in the figures occur almost entirely in the adjustments of alienated Land Revenue in Bombay, alluded to under *I—Land Revenue*

		Rx
1886 87	Accounts	1 446 100
1887 88	Budget	1 367 000
	Revised	1 461 100
	Accounts	1 469 000

Land Revenue—As in the previous year, the increase in 1887 88 occurred in Upper Burma, the expenditure in that Province being Rx 87,100 against Rx 41,700 in 1886 87 and Rx 95,700 in the Budget The Estimate was based on information available at the time, but the result has shown that the Commission on collections of Revenue was overestimated There was also a saving of Rx 64,000 on the Estimate of Survey and Settlement charges

		Rx
1886 87	Accounts	3 461 300
1887 88	Budget	3 668 800
	Revised	3 611 100
	Accounts	3 486 700

Opium—The expenditure is regulated by the production of Bengal opium in each season As already stated, the outturn in 1886 87, which was manufactured and paid for in 1887 88, was less than in any of the previous three years, and the charges for cultivation and manufacture were correspondingly low

		Rx
1886 87	Accounts	2 729 100
1887 88	Budget	2 506 100
	Revised	2 512 100
	Accounts	2 424 600

The expenditure and production of each opium year, which does not correspond with the financial year, are contrasted below—

	Rx	Chests
1884-85	2,960,905	69,641
1885 86	2,695,776	66,994
1886 87	2,391,941	60,631
1887 88	2,711,937	73,231

From what has been said above, it will be understood that the greater part of the expenditure shown against 1887-88 will appear in the accounts of 1888 89

Salt —There were large savings in Northern India in *Establishment and Contingencies*, resulting from extensive reductions made on the suggestions of the Finance Committee, and in *purchase and freight* owing to the abolition of the Agency system for the sale of salt In Bombay the expenditure of 1886-87 was abnormally high in consequence of the special expenditure incurred in that year to meet the increased demand for Baragora salt in Northern India, which arose from the temporary cessation of production at the Sambhar Lake With the cessation in 1887 88 of this special demand on the resumption of production of Sambhar salt, the outlay on purchase and freight was considerably reduced

		Rx
1886 87	Accounts	486 200
1887 88	Budget	469 100
	Revised	420 400
	Accounts	410 700

Stamps, Provincial Rates, Customs, Assessed Taxes, and Registration — No remarks are called for, except that the English expenditure on Stamps was much in excess of that incurred in 1886-87, and under *Assessed Taxes* the charges for collection were nearly 50 per cent less than in the first year of the present Income Tax

		Rx
1886 87	Accounts	568 700
1887 88	Budget	580 400
	Revised	581 300
	Accounts	576 400

Excise —The increase over the previous year's charge and the Estimate is due —in Bengal, to excess expenditure incurred in consequence of the revision of establishments, and in Bombay, to entertainment of additional establishments in Sindh, exceptional rewards for opium smuggling, and construction of additional temporary distilleries In Burma the abolition of the appointment of Commissioner of Excise, Stamps, and Registration resulted in a reduction of expenditure

		Rx
1886 87	Accounts	116 700
1887 88	Budget	118 900
	Revised	122 500
	Accounts	127 100

Forests —The estimate provided for a moderate increase over the previous year's expenditure, in view of an increase of revenue requiring additional outlay, but the result has been a saving which occurred chiefly in Burma, the North-Western Provinces, and Madras

		Rx
1886 87	Accounts	719 800
1887 88	Budget	747 600
	Revised	763 300
	Accounts	719 800

INTEREST

Receipts —The increase in the receipts of 1887 88 arose from (1) recovery of arrears of interest on the Kidderpore Dock Loan, (2) larger overdrawals of capital by Guaranteed Railway Companies, and (3) investment of unusually high cash balances in England at favourable rates of interest

		Rx
1886 87	Accounts	670 500
1887 88	Budget	686 500
	Revised	749 200
	Accounts	746 500

Expenditure —The decrease in Interest on Ordinary debt in India is chiefly due to about Rx 90,000 of the interest charges of the year remaining unpaid at the end of the year, and the increase in the amount debited to Railways and Irrigation arises from the extension of Railways and Irrigation Works The increase in England is owing to special charges, amounting to about £715,700, on account of excess payments of interest, commission and other charges connected with the conversion of about £18,200,000 worth of 4 per cent Stock into 3½ per cent Stock

		India: Charged to Ordinary Debt	Charged to Railway and Irrigation	Total
		Rx	Rx	Rx
1886 87	Accounts	375 400	3,416 000	3 791 400
1887 88	Budget	418 100	3 585 600	4 003 00
	Revised	342 000	3 606 400	3 948 400

POST OFFICE, TELEGRAPH, AND MINT

REVENUE

Post Office —The revenue continued to improve and the Estimate was nearly realized

		Rx
1886 87	Accounts	1 154 300
1887 88	Budget	1 216 300
	Revised	1 200 800
	Accounts	1 214 200

Telegraph —The net result of the year's operations was much the same as that of 1886 87, but the revenue and expenditure were more by over Rx 70,000 each The improvement in revenue occurred on the Indian lines, partly from development of traffic and partly from the adoption of a revised scale of the charges recoverable from Railways The increase over the Estimate is due to the State traffic with, and in Burma which, instead of declining as was expected, proved to be greater than in the previous year

		Rx
1886 87	Accounts	694 800
1887 88	Budget	638 000
	Revised	769 800
	Accounts	703 900

Mint —The receipts from seignorage on silver were high, in consequence of the large quantity of silver tendered at the mint, as shown in the following figures —

		Rx
1886 87	Accounts	180 400
1887 88	Budget	170 100
	Revised	216 000
	Accounts	251 500

	Silver Coinage Rx	Seignorage Rx
1883 84	3,663,400	64 500
1884 85	5,794,200	115,600
1885 86	10 285,600	202,600
1886 87	4,616,500	93,100
1887 88	10,788,400	149,800

Of the last amount in the first column Rx 3,183,800 represent the value of Gwalior rupees received in part of the special loan of Rx 3,500,000 and recoined at the Calcutta Mint free of seignorage duty

The gain on Copper coinage was also unusually great, owing to large demands for the coins for opium payments and Railway construction

EXPENDITURE

		Rx
1886 87	Accounts	1 350 [illegible]00
1887 88	Budget	1 364 500
	Revised	1 377 200
	Accounts	1 375,200

Post Office —The increase is due to the progressive development of the Department

Telegraph—The increase in expenditure has been alluded to above. It was chiefly due to large purchases of stores both in England and India, to revision of salaries in the superior grades, and to additional establishment required for Upper Burma. In the Budget Estimate the outlay on Revenue Account was taken at a somewhat high figure, but owing to fewer offices being opened and less repairs being found necessary than was anticipated, there was a large saving in the actuals.

		Rx
1886-87	Accounts	711 000
1887-88	Budget	810 000
	Revised	780 000
	Accounts	780 000

Mint—The expenditure necessarily rose in consequence of the unexpectedly larger coinage of silver.

		Rx
1886-87	Accounts	80 000
1887-88	Budget	86 000
	Revised	98 000
	Accounts	94 000

CIVIL DEPARTMENTS

Receipts—The increases over the actuals of 1886-87 and the estimate are the net result of minor variations in the several heads which fall into this group. The excesses occurred mainly under the heads of *Police* on account of cattle pound fees and *Law and Justice, Courts of Law*, for fees and fines levied, while the receipts from Jail manufactures were unusually low, owing to a reduced demand and a diminution in the jail population.

		Rx
1886-87	Accounts	1 161 600
1887-88	Budget	1 145 300
	Revised	1 119 0
	Accounts	1 193 700

EXPENDITURE

Administration—The increase was chiefly due to exceptional charges incurred in England during the year on account of management of debt, in connection with the conversion of the 4 per cent Stock into 3½ per cent Stock, and owing to the longer detention in England, than was anticipated, of the Members of the Royal Commission on Gold and Silver deputed from India.

		Rx
1886-87	Accounts	1 731 900
1887-88	Budget	1 710 300
	Revised	1 747 700
	Accounts	1 769 900

Law and Justice—Courts of Law—The excess over the expenditure of 1886-87 is chiefly on account of Upper Burma, which rose to Rx 51,600 from Rx 31,900, in consequence of the extension of judicial establishments as the country settled down. The estimate of these charges was necessarily framed roughly in the absence of any accurate knowledge of what was required.

		Rx
1886-87	Accounts	263 700
1887-88	Budget	261 000
	Revised	261 700
	Accounts	261 100

Law and Justice—Jails—The increase is the outcome of comparatively small variations in all Provinces, the most important of them being a saving in Bengal, owing to the abolition of the Bhaugulpore District Jail, and the conversion of the Hazaribagh Central Jail into a District Jail, which was not anticipated when the Estimate was framed, and an increase in Upper Burma.

		Rx
1886-87	Accounts	709 900
1887-88	Budget	811 600
	Revised	718 700
	Accounts	771 800

Police—The Police expenditure in Upper Burma was more than double that of the previous year (Rx 709,200 and Rx 349,000), but the estimate was framed too high.

		Rx
1886-87	Accounts	3 285 100
1887-88	Budget	3 715 300
	Revised	3 756 900
	Accounts	3 633 600

Marine—The demands on account of Upper Burma were much smaller than in 1886-87, and the Estimate provided £177,000 for purchase of torpedo boats in England, against which no expenditure was incurred in the year.

		India Rx	England Rx	Exchange Rx
1886-87	Accounts	530 900	230 500	86 700
1887-88	Budget	416 500	320 700	121 300
	Revised	441 100	14 800	62 3 0
	Accounts	465 600	14 400	63 900

Education —The variations in the figures are comparatively small and arose chiefly in consequence of grants in aid in the Punjab for building and miscellaneous purposes not having been fully utilised

		Rx
1886 87	Accounts	1 30 100
1887 88	Budget	1 31 300
	Revised	1 8- 000

	Revised	160 300	761 00
	Accounts	1 5 100	765 000

Ecclesiastical and Medical —The Estimates were framed too high

Political —The decrease is due to the withdrawal of the Afghan Delimitation Commission, the charges of which aggregated Rx 80,100 in 1886 87 The saving on the Estimate arises in Upper Burma expenditure, the Estimate of which could not be otherwise than rough

		Rx
1886 87	Accounts	7[illegible] 800
1887 88	Budget	6 80 000
	Revised	690 100
	Accounts	681 700

Scientific and other Minor Departments —The amounts bring together the expenditure of a great number of separate departments, and call for no special remarks

		Rx
1886 87	Accounts	1[illegible] 00
1887 88	Budget	411 00

Superannuation Receipts —The variations are very trifling, being below Rx 5,000 in each case

ENGLAND

		Rx
1886 87	Accounts	10[illegible] 800
1887 88	Budget	90 100
	Revised	101 600
	Accounts	101 100

The Estimate was taken too low for the receipts on account of Military Funds

EXCHANGE

		Rx
1886 87	Accounts	38 700
1887 88	Budget	3 800
	Revised	13 900
	Accounts	13 700

Stationery and Printing —The decrease, compared with the charges of 1886 87 and the Estimate, is due to the transfer of the management of the Rajputana-Malwa Railway to a Company, in consequence of which the anticipated supplies of stationery were not made

Exchange —The figure brought to account under this head is composed of the balances of a number of large transactions The gain mostly arises from the remittance transactions of Guaranteed and other Railway Companies, which are carried out at fixed contract rates The large difference between the Estimates and Actuals of the year under review is due partly to the fall in exchange, but mainly to the absence of provision in the former for the gain by exchange on the capital transactions of Subsidized Railways in England, which was taken under a suspense head in the Estimates, pending the decision of the Secretary of State whether it should be treated as current revenue or not

		Rx
1886 87	Accounts	301 800
1887 88	Budget	322 000
	Revised	336 800
	Accounts	377 600

Miscellaneous —The accounts, as usual, contain some special items which could not be foreseen when the Estimates were under preparation

EXPENDITURE

Territorial and Political Pensions—The large saving was due chiefly to the death of the late King of Oudh, and to a small extent to ordinary casualties and to pensions remaining unclaimed at the close of the year

		Rx
1886 87	Accounts	647 700
1887 88	Budget	675 500
	Revised	609 100
	Budget	550 400

Civil Furlough and Absentee Allowances—The increase resulted from the postponement from 25th March to 1st April of certain allowances and pensions disbursed in England which had the effect of throwing into 1887 88 payments which would, under the old system, have come into the earlier year

		Rx
1886 87	Accounts	260 100
1887 88	Budget	303 000
	Revised	309 900
	Accounts	308 700

Superannuation, &c., Allowances—There has been the usual increase of expenditure under this head The saving in England compared with the Estimates arises from a change in the manner of accounting for loans granted under the rules of the Madras and Bombay Civil Funds, which are now carried to a debt head instead of being charged here

		India Rx	England Rx	Exchange Rx
1886 87	Accounts	695 500	1 575 800	595 700
1887 88	Budget	713 000	1 608 000	597 300
	Revised	714 700	1 603 000	673 300
	Accounts	717 700	1 537 900	671 500

Stationery and Printing—The expenditure in India was somewhat in excess of the Estimate, owing to payment of arrear charges, to higher prices ruling for country stationery, and to substitution of articles of local manufacture for those formerly procured from Europe The expenditure in England fell short of the Estimate by more than the excess in India, in consequence of fewer stores having been required, and those being procured at lower prices than expected

		India Rx	England Rx	Exchange Rx
1886 89	Accounts	495 700	91 800	31 700
1887 88	Budget	442 700	109 700	40 700
	Revised	446 400	87 500	36 800
	Accounts	450 300	89 300	37 600

Miscellaneous—The decreases compared with 1886 87 and the Estimate are due to the following causes—(1) the Public Service Commission completed its labours earlier than was expected, (2) in Upper Burma there were smaller payments of unsettled claims against the late Native Government than expected, (3) the amount of irrecoverable loans written off was much less than in the previous year

		Rx
1886 87	Accounts	343 900
1887 88	Budget	366 300
	Revised	296 500
	Account	292 900

FAMINE RELIEF AND INSURANCE

Considerable reductions were made in the expenditure under this head in 1886 87, as explained in paragraphs 68 to 75 of the Financial Statement for 1887-88, and the grants in the year under notice were restricted to Rx 2,000 for Famine Relief and Rx 92,500 for Construction of Protective Irrigation Works The actual expenditure against the former has been Rx 400 only and Rx 91,000 against the latter

		Rx
1886 87	Accounts	309 000
1887 88	Budget	94 000
	Revised	93 400
	Accounts	91 400

CONSTRUCTION OF RAILWAYS, &C

The large decrease in the outlay of 1887-88 was due to the practical completion of the Jorhat State Railway, and to less construction work being needed on the Kauria Dhurla and Lucknow-Sitapur Seramau Railways

		Rx
1886 87	Accounts	183 100
1887 88	Budget	7 000
	Revised	81 700
	Accounts	80 900

RAILWAYS

Net Earnings —The actuals of the year show a considerable falling off from those of 1886-87, chiefly in consequence of the inclusion in the account of the working expenses of the frontier lines opened during the year Apart from this the result of the year compares favourably with past actuals, as the opening of the Bellary-Kistna and Cuddapah Nellore State Railways and the large additions to the open mileage of existing lines increased the gross earnings of State Railways The falling away from the expectation of the Budget Estimate was caused by a considerable falling off in the wheat traffic on the East Indian Railway and Rajputana-Malwa and North-Western Railways

		Rx
1882 83		7 200 200
1883 84		8,066 700
1884 85		7 684 600
1885 86		8 782 000
1886 87		9 2,7 900
1887 88	Budget	9 061 200
	Revised	8 952 100
	Accounts	8 939 200

The Guaranteed lines have worked up very closely to the previous year's figures

Interest and Annuities —The increase is progressive and arises from the extension of Railways

		India and England Rx	Exchange Rx
1882 83		6 550 400	1 121 900
1883 84		6 709 500	1 103 000
1884 85		6 933 300	1 173 100
1885 86		7 298 700	1,694 300
1886 87		7 718 800	1 987 900

	Revised	8 017 100	2 267 900
	Accounts	7 383 100	2 268 900

Other Expenditure —The large increase over the actuals of 1886-87 and the Budget Estimate occurred almost wholly in the surplus profits of Guaranteed Railways

		Rx.
1886 87	Accounts	740 400
1887 88	Budget	700 600
	Revised	821 400
	Accounts	809 000

IRRIGATION.

MAJOR WORKS

Net Earnings excluding Land Revenue —The gross collections exceeded those of 1886 87 and those estimated, chiefly in consequence of the development and extension of canals in the Punjab, but the increase in expenditure was much greater than the improvement in revenue, owing to a portion of the expenditure on the new Nadrai aqueduct in the North-Western Provinces equal to the Capital outlay on the old aqueduct, having been charged to this head

		Rx
1886-87	Accounts	283 000
1887 88	Budget	313 300
	Revised	291 800
	Accounts	273 400

Interest —The expenditure has increased with the extension of Irrigation Works

		Rx
1886-87	Accounts	992 600
1887 88	Budget	1 024 900
	Revised	1 019 200
	Accounts	1 017,500

MINOR WORKS

Receipts —The improvement is the net result of minor variations in all provinces

		Rx
1886 87	Accounts	149,400
1887 88	Budget	152,300
	Revised	153 900
	Accounts	160 700

Expenditure —The increase is chiefly due to the transfer to this head, from *Capital Expenditure not charged against Revenue*, of the outlay on the Kushdil Khan reservoir in Baluchistan

		Rx
1886-87	Accounts	691 300
1887 88	Budget	770 500
	Revised	782 500
	Accounts	766,500

BUILDINGS AND ROADS

Receipts —The actuals of 1886 87 included a special receipt of Rx 150,000 in connection with the rendition of the Gwalior Fort The actuals of 1887 88 have exceeded the estimate principally on account of larger receipts from ferry tolls and the Roorkee workshops

		Rx
1886 87	Accounts	727 600
1887 88	Budget	539 500
	Revised	566 200
	Accounts	592 300

Expenditure —There is not much variation from the estimate, the increase over the actuals of 1886-87 being due to construction of buildings and roads in Upper Burma, and to increased work on the Frontier roads in Punjab and Baluchistan

		Rx
1886 87	Accounts	5 201 700
1887 88	Budget	5 553 200
	Revised	5 599 600
	Accounts	5 451 100

ARMY

Receipts —The receipts exceeded the estimate mainly under Commissariat Supplies and Services, Remount and Cattle Supplies and Services, and Ordnance Stores The increase over the receipts of 1886-87 is partly accounted for by a recovery of an advance of Rx 30,000 made to the Irrawaddy Flotilla Company in 1886-87

		Rx
1886 87	Accounts	98 000
1887 88	Budget	897 400
	Revised	97 900
	Accounts	1 060 800

EXPENDITURE

India —Owing to the operations in Burma having been prolonged beyond the anticipated period, the Estimate proved inadequate The increase over the expenditure of 1886 87 arose from special purchases of transport remounts and clothing for the Army, expenditure incurred on account of the Sikkim Expedition and large compensations paid for losses

		Rx
1886-87	Accounts	14 60 00
1887 88	Budget	14 010 000
	Revised	15 063 000
	Accounts	15 104,900

England —The saving is due to the payment of £75,000 provided in the Budget for deferred pay having been postponed pending a report by Lord Northbrook's Committee

		Sterling Rx	Exchange Rx
1886 87	Accounts	3 564 200	1 340 300
1887 88	Budget	3 782 200	1 404 800
	Revised	3 800 000	1 396 00
	Accounts	3 741 000	1,572 000

SPECIAL DEFENCE WORKS

In the Estimates for 1887-88 this expenditure was shown outside the Revenue Account, whereas it is now charged against Revenue, as explained in last year's Review The increase over the figures of 1886-87 resulted from the more rapid construction of Frontier and Coast Defences

		Rx
1886 87	Accounts	325 000
1887 88	Budget	
	Revised	568 900
	Accounts	456 000

CAPITAL EXPENDITURE

Railways —The large decrease is mainly due to the approaching completion in 1886-87 of some lines and to the recovery from the Bengal-Nagpur Railway Company of the cost of State lines transferred to them At the time the Estimate was prepared, negotiations with the Company had not advanced sufficiently to admit of the recoveries being provided for

		Rx
1886-87	Accounts	5,123 100
1887 88	Budget	4 294 200
	Revised	2 374,000
	Accounts	2 251 000

Irrigation—The transfer from the Capital to the Revenue Account referred to under Irrigation, Minor Works, accounts for the saving in 1887-88

		Rx
1886 87	Accounts	547 400
1887 88	Budget	700 000
	Revised	60 800
	Accounts	533 000

ORDERED, that the Resolution be communicated to the Comptroller and Auditor General, and that a copy of it be forwarded to the Secretary of State for India

Ordered also, that the Resolution be published in the *Gazette of India*

PART IV

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 29th March, 1889, and is hereby promulgated for general information —

ACT No IX OF 1889

An Act to authorise the imposition of a Patwarirate in the North Western Provinces and Oudh, and make certain provisions respecting Kanungos and Patwaris in those Provinces

WHEREAS it is expedient to authorise the imposition of a patwari rate in the North Western Provinces and Oudh, and make certain provisions respecting kanungos and patwaris in those provinces, It is hereby enacted as follows —

Title and commencement

1 (1) This Act may be called the North Western Provinces and Oudh Kanungos and Patwaris Act, 1889, and

(2) It shall come into force on the first day of April, 1889

XIII of 1882

Repeal

2 (1) The Kanungos and Patwaris Act 1882, is hereby repealed,

(2) But all rules and appointments made and patwaris' circles formed under that Act or any enactment thereby repealed shall, so far as may be, be deemed to have been respectively made and formed under this Act

Division of Act into Parts, and local extent of the several Parts

3 (1) The remainder of this Act is divided into Parts as follows namely —

Part I —North Western Provinces
Part II —Oudh
Part III —North Western Provinces and Oudh

(2) Part I extends to the North Western Provinces, Part II to Oudh and Part III to the North Western Provinces and Oudh

PART I

NORTH WESTERN PROVINCES

Definitions

4 In this Part, unless there is something repugnant in the subject or context,—

(1) "land" means land used for agricultural purposes, or waste land which is culturable

(2) "estate" means the whole or any part of a village separately assessed to land revenue or separately exempt from the payment thereof

(3) "landlord" means the person responsible for the payment of the land revenue, if any assessed on an estate whether as owner, mortgagee in possession or otherwise, and includes a muafidar, nazrinadar or other person holding land whereof the revenue has, either wholly or in part, been released, compounded for, redeemed or assigned

(4) "tenant", used with reference to any land, means a tenant holding directly from the landlord of such land, and includes an under proprietor of such land and a person bound to pay or deliver anything to such landlord in respect of the use or occupation of such land

(5) "annual value" means,—

(1) where the settlement of the land-revenue of an estate is liable to periodical revision, double the amount of the land revenue for the time being assessed on the estate, and

(2) where such settlement is not liable to such revision or where the land revenue has been wholly or in part released, compounded for, redeemed or assigned, double the amount which, if the settlement were liable to such revision, would be assessable as land revenue

(6) "rent" means whatever is payable to a landlord by a tenant on account of the use or occupation of land by the tenant and

(7) "year" means the year commencing on the first day of April

5 (1) Every estate shall be liable to the payment of such rate, not exceeding two per cent on its annual value, as the Local Government imposes for the purpose of defraying the salaries of patwaris and supervisor kanungos and any charges incurred for the supervision maintenance and correction of patwaris' records and papers, including charges incurred in the preparation of village maps

Patwari rate

(2) Such rate, hereinafter referred to as the patwari rate, shall be payable by the landlord independently of and in addition to, any land revenue assessed on the estate and any rate or cess leviable under, or recognised by, the North Western Provinces Local Rates Act, 1878, and any sum due on account of the patwari rate shall be recoverable as if it were an arrear of land revenue due in respect of the estate

III of 1878

(3) The Local Government may, by notification in the official Gazette,—

(a) prescribe by what instalments, and at what times and places, the patwari-rate is to be paid, and by whom it is to be assessed and collected,

(b) fix the periods for which, in the cases referred to in clause (2) of the definition of the expression "annual value" in section 4, assessments to the patwari-rate are to have effect,

(c) determine the cases in which the conditions subject to which, and the officers to or by whom, orders with respect to the assessment or collection of the patwari-rate are to be appealable or subject to revision, and

(d) exempt any portion of the North Western Provinces from the operation of this Part, or exempt any estate from liability to pay the whole or any part of the patwari rate, and cancel such exemption

6 (1) There shall be formed for the North Western Provinces a fund, to be called the North Western Provinces Patwari Fund, and there shall be placed to the credit thereof—

North Western Provinces Patwari Fund

(a) the proceeds of the patwari rate, and

(b) a contribution, to be made thereto each year of such sum as the Local Government may allot from the general revenues at its disposal

(2) The fund so formed shall be exclusively applicable to the purpose mentioned in sub section (1) of the last foregoing section

(3) An account of the fund shall be published annually by the Local Government in the official Gazette

7 (1) The landlord of any land in respect of which the patwari rate is for the time being payable shall be entitled to recover from the tenant of the land such a cess as is hereinafter mentioned, that is to say,—

Payment of patwari cess to payer of patwari rate

(a) if the rent of the tenant is payable in money then a cess on such rent at the rate of two pies for every rupee thereof, or

(b) if the land is held rent free or rent in respect thereof is payable in kind or in service, then a cess equivalent as nearly as may be to one per cent of the rent in money which would on a reasonable assessment be payable in respect of the land

(2) The cess in respect of such land as is described in clause (b) of sub section (1) shall be computed, and be payable, in such manner as the Local Government may by general or special rules in this behalf prescribe

8 Suits for the recovery of any sum on account of the patwari rate, or for the recovery of the cess mentioned in the last foregoing section or the money equivalent of such cess, and appeals and other proceedings arising out of such suits, shall be cognizable as if such suits had been included among the suits mentioned in section 93 of the North-Western Provinces Rent Act, 1881

Recovery of rate or cess through Revenue Courts

XII of 188

PART II

OUDH

9 In this Part, unless there is something repugnant in the subject or context,—

Definitions

(1) "land" means land assessed to land-revenue and includes land of which the revenue has been wholly or in part released, compounded for, redeemed or assigned

(2) "estate" means the whole or any part of a village separately assessed to land revenue or separately exempt from the payment thereof

(3) "landholder" means the person in receipt of the rent of any land, whether as owner, mortgagee in possession or otherwise, and includes an under proprietor with whom a sub-settlement has been made of the whole village in which the land is situated

(4) "tenant" means the person holding directly from the landholder, and includes an under-proprietor of land, not being an under proprietor with whom a sub settlement has been made of the whole village in which the land is situated

(5) "annual value" means—

(1) where the settlement of the land-revenue of an estate is liable to periodical revision, double the amount of the land-revenue assessed on the estate, and

(2) where such settlement is not liable to periodical revision or where the land revenue or a portion thereof has been released, compounded for, redeemed or assigned, double the amount which, if the settlement were liable to periodical revision, would, but for such non-liability, release, composition, re-

demption or assignment, be as sessable as land revenue

(6) "rent" means whatever is payable to a landholder by a tenant on account of the use or occupation of land by the tenant and

(7) "year" means the year commencing on the first day of April

Power to alter number and limits of patwaris' circles

10 (1) With the previous sanction of the Local Government, the Deputy Commissioner may from time to time alter the number of patwaris' circles in his district and the respective limits of such circles

(2) A patwari shall be appointed to each circle whether the estates in such circle are assessed to land-revenue or not

Nomination and appointment of patwaris to fill vacancies

11 (1) Whenever a circle is without a patwari, the proprietors of such circle, or their representatives in interest, shall, in accordance with local custom nominate a person to be the patwari of the circle and he shall be appointed by the Deputy Commissioner or Assistant Commissioner

(2) In case of disagreement as to the nominee the Deputy Commissioner or Assistant Commissioner shall ascertain the local custom if any, and shall appoint the person nominated in accordance therewith

(3) Where no such custom can be ascertained the Deputy Commissioner or Assistant Commissioner shall appoint the nominee of those proprietors who represent the largest amount of annual value in the circle, or of their representatives in interest

(4) If an estate is held under direct management, or if the proprietor of an estate is under the superintendence of the Court of Wards, the Deputy Commissioner or Assistant Commissioner shall be deemed to be the proprietor for the purpose of nominating a patwari under this section

(5) If the persons in whom the nomination is vested neglect to nominate a successor to the patwari within fifteen days from the occurrence of the vacancy, the Deputy Commissioner or Assistant Commissioner shall call on them by notice to make the nomination, and, if they fail to do so within fifteen days from the receipt of the notice the Deputy Commissioner or Assistant Commissioner shall make the appointment

(6) If the persons in whom the nomination is vested nominate a person not qualified to perform the duties of a patwari, or in the nomination neglect to follow the local custom, the Deputy Commissioner or Assistant Commissioner shall refuse to appoint the nominee, and, if no fit person is nominated within fifteen days from the date of the notification of such refusal, shall himself appoint a person to the vacant office

Power to make rules respecting kanungos and patwaris

12 The Local Government may make rules consistent with this Act—

(a) regulating the appointment of supervisor kanungos and the qualifications, remuneration, suspension, dismissal, duties and supervision of kanungos and patwaris, and

(b) prescribing the fines which may be imposed on kanungos and patwaris for neglect of duty

Patwari rate

13 (1) Every estate shall be liable to the payment of such rate, not exceeding one and a half per cent on its annual value, as the Local Government imposes for the purpose of defraying the salaries of patwaris and supervisor kanungos and any charges incurred for the supervision, maintenance and correction of patwaris' records and papers including charges incurred in the preparation of village maps

(2) Such rate, hereinafter referred to as the patwari rate, shall be payable by the landholder independently of and in addition to, any land revenue assessed on the estate and any rate or cess leviable under, or recognised by, the Oudh Local Rates Act, 1878, and any sum due IV of 1878
on account of the patwari rate shall be recoverable as if it were in arrear of land revenue due in respect of the estate

(3) The Local Government may, by notification in the official Gazette,—

(a) prescribe by what instalments and at what times and places the patwari rate is to be paid, and by whom it is to be assessed and collected,

(b) fix the periods for which, in the cases referred to in clause (2) of the definition of the expression 'annual value' in section 9, assessments to the patwari rate are to have effect,

(c) determine the cases in which, the conditions subject to which, and the officers to or by whom, orders with respect to the assessment or collection of the patwari rate are to be appealable or subject to revision, and

(d) exempt any portion of Oudh from the operation of this Part, or exempt any estate from liability to pay the whole or any part of the patwari rate, and cancel such exemption

Oudh Patwari Fund

14 (1) There shall be formed for Oudh a fund to be called the Oudh Patwari Fund, and there shall be placed to the credit thereof—

(a) the proceeds of the patwari rate, and

(b) a contribution, to be made thereto every year, of such sum as the Local Government may allot from the general revenues at its disposal

(2) The fund so formed shall be exclusively applicable to the purpose mentioned in sub section (1) of the last foregoing section

(3) An account of the fund shall be published annually by the Local Government in the official Gazette

Payment of patwari cess to payer of patwari rate

15 The landholder of any land in respect of which the patwari rate is for the time being payable shall be entitled to recover from the tenant of the land such a cess as is hereinafter mentioned, that is to say,—

(a) if the rent of the tenant is payable in money, then a cess on such rent at the rate of one and a half pies for every rupee thereof, or

(b) if the land is held rent free or rent in respect thereof is payable in kind or service, then a cess equivalent as nearly as may be to three fourths of one per cent of the rent in money which

would on a reasonable assessment be payable in respect of the land

(2) The cess in respect of such land as is described in clause (*b*) of sub section (*1*) shall be computed, and be payable, in such manner as the Local Government may by general or special rules in this behalf prescribe

Recovery of rate or cess through Revenue Courts

16 Suits for the recovery of any sum on account of the patwari rate, or for the recovery of the cess mentioned in the last foregoing section or the money equivalent of such cess, and appeals and other proceedings arising out of such suits shall be cognizable as if such suits had been included among the suits mentioned in section 108 of the Oudh Rent Act, 1886

XXII of 1886

Character of kanungos and patwaris and their records

17 Every kanungo and patwari shall be deemed to be a public servant within the meaning of the Indian Penal Code, and all official records and papers kept by him shall be deemed to be public records and the property of the Government

XLV of 1860

PART III

NORTH-WESTERN PROVINCES AND OUDH

Contributions of the Government to the Patwari Funds

18 The contributions to be made by the Local Government to the North Western Provinces Patwari Fund and the Oudh Patwari Fund under sections 6 and 14 shall not, without the previous sanction of the Governor General in Council, amount in the aggregate in any year to a smaller sum than ten lakhs of rupees

Obligation to furnish information necessary for the preparation of records

19 Any person whose rights, interests or liabilities are required by any enactment for the time being in force or by any rule under any such enactment to be entered in any official record or paper by a kanungo or patwari shall be bound to furnish, on the requisition of the kanungo or patwari or of any revenue-officer engaged in compiling the record or paper, all information necessary for the correct compilation thereof

S HARVEY JAMES,
Secretary to the Government of India

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 29th March, 1889, and is hereby promulgated for general information —

ACT NO X OF 1889

THE FIRST SCHEDULE—PORTS, VESSELS CHARGEABLE, RATE OF PORT DUES AND FREQUENCY OF PAYMENT

THE SECOND SCHEDULE—ENACTMENTS REPEALED

The Indian Ports Act, 1889

(Chapter I —Preliminary —Sections 1-3 Chapter II —Powers of the Local Government —Section 4)

An Act to consolidate and amend the law relating to Ports and Port charges

WHEREAS it is expedient to consolidate and amend the law relating to ports and port charges, It is hereby enacted as follows —

CHAPTER I

PRELIMINARY

Title commencement and extent

1 (*1*) This Act may be called the Indian Ports Act, 1889, and

(*2*) It shall come into force on the first day of April, 1889

(*3*) It shall extend, save as otherwise appears from its subject or context,—

(*a*) to the ports mentioned in the first schedule and to such parts of the navigable rivers and channels leading to such ports respectively as have been declared to be subject to Act XXII of 1855 (*for the regulation of Ports and Port dues*) or to the Indian Ports Act, 1875

(*b*) to the other ports or parts of navigable rivers or channels to which the Local Government in exercise of the power hereinafter conferred, extends this Act

(*4*) But nothing in this Act shall—

(i) apply to any vessel belonging to, or in the service of, Her Majesty or the Government of India, or to any vessel of war belonging to any Foreign Prince or State, or

(ii) deprive any person of any right of property or other private right, except as hereinafter expressly provided or

(iii) affect any law or rule relating to the customs or any order or direction lawfully made or given pursuant thereto

(*5*) And nothing in section 31 or section 32 shall apply to any port river or channel to which the section has not been specially extended by the Local Government

Repeal

2 (*1*) The enactments mentioned in the second schedule are hereby repealed to the extent specified in the third column of that schedule

(*2*) All declarations, appointments requisitions, orders and rules made authorizations, directions and permissions given, prohibitions issued and notifications published under any of those enactments or under any enactment repealed by any of them shall, if in force at the commencement of this Act, be deemed so far as may be, to have been made given, issued and published under this Act and

(*3*) Any enactment or document referring to any such repealed enactment shall, so far as may be, be construed to refer to this Act or to the corresponding portion thereof

Definitions

3 In this Act, unless there is something repugnant in the subject or context,—

(*1*) "port" includes also any part of a river or channel in which this Act is for the time being in force

(*2*) "port officer' is synonymous with master-attendant

(*3*) "vessel" includes anything made for the conveyance by water of human beings or of property

(*4*) "master", when used in relation to any vessel, means, subject to the provisions of any other enactment for the time being in force, any person (except a pilot or harbour master) having for the time being the charge or control of the vessel

(*5*) 'pilot" means a person for the time being authorized by the Local Government to pilot vessels

(*6*) "ton" means a ton as determined or determinable by the rules for the time being in force for regulating the measurement of the net tonnage of British ships and

(*7*) "Magistrate means a person exercising powers under the Code of Criminal Procedure, 1882 not less than those of a Magistrate of the second class, and includes, in the towns of Calcutta, Madras and Bombay, a Presidency Magistrate X of 1882

CHAPTER II

POWERS OF THE LOCAL GOVERNMENT

Power to extend or withdraw the Act or certain portions thereof

4 (*1*) With the previous sanction of the Governor General in Council, the Local Government may, by notification in the official Gazette,—

(*a*) extend this Act to any port in which this Act is not in force or to any part of any navigable river or channel which leads to a port and in which this Act is not in force,

(*b*) specially extend the provisions of section 31 or section 32 to any port to which they have not been so extended,

(*c*) withdraw this Act, or section 31 or section 32 from any port or any part thereof in which it is for the time being in force

The Indian Ports Act, 1889

(Chapter II —Powers of the Local Government —Sections 5-6)

(Chapter III —Port officials and their Powers and Duties —Section 7)

(2) A notification under clause (*a*) or clause (*b*) of sub section (*1*) shall define the limits of the area to which it refers

(3) Limits defined under sub section (*2*) may include any piers, jetties, landing places, wharves, quays, docks and other works made on behalf of the public for convenience of traffic, for safety of vessels, or for the improvement, maintenance or good government of the port and its approaches, whether within or without high water mark, and subject to any rights of private property therein any portion of the shore or bank within fifty yards of high water mark

(4) In sub section (*3*) the expression ' high water mark " means the highest point reached by ordinary spring tides at any season of the year

Alteration of limits of ports

5 (*1*) The Local Government may, with the previous sanction of the Governor General in Council and subject to any rights of private property, alter the limits of any port in which this Act is in force

(2) When the Local Government alters the limits of a port under sub section (*1*), it shall declare or describe, by notification in the official Gazette, and by such other means, if any, as it thinks fit, the precise extent of such limits

Power to make port rules

6 (*1*) The Local Government may, in addition to any rules which it may make under any other enactment for the time being in force make such rules, consistent with this Act, as it thinks necessary for any of the following purposes, namely —

(*a*) for regulating the time at which, and the manner in which, vessels are to enter or leave any port subject to this Act,

(*b*) for regulating the berths stations and anchorages to be occupied by vessels in any such port,

(*c*) for striking the yards and top masts, and for rigging in the booms and yards of vessels in any such port, and for swinging or taking in davits boats and other things projecting from such vessels

(*d*) for the removal or proper hanging or placing of anchors spars and other things being in or attached to vessels in any such port

(*e*) for regulating vessels whilst taking in or discharging passengers ballast or cargo, or any particular kind of cargo, in any such port and the stations to be occupied by vessels whilst so engaged,

(*f*) for keeping free passages of such width as may be deemed necessary within any such port, and along or near to the piers, jetties, landing places, wharves, quays, docks, moorings and other works in or adjoining to the same and for marking out the spaces so to be kept free,

(*g*) for regulating the anchoring, fastening, mooring and unmooring of vessels in any such port,

(*h*) for regulating the moving and warping of all vessels within any such port and the use of warps therein,

(*i*) for regulating the use of the mooring buoys, chains and other moorings in any such port,

(*j*) for fixing the rates to be paid for the use of such moorings when belonging to the Government, or of any boat, hawser or other thing belonging to the Government,

(*k*) for licensing and regulating catamarans plying for hire, and flats and cargo, passenger and other boats plying whether for hire or not and whether regularly or only occasionally, in, or partly within and partly without, any such port, and for determining the quantity of cargo or number of passengers to be carried by any such vessel,

(*l*) for regulating the use of fires and lights within any such port,

(*m*) for enforcing and regulating the use of signals or signal lights by vessels by day or by night in any such port,

(*n*) for regulating the number of the crew which must be on board any vessel afloat within the limits of any such port

(*o*) for regulating the employment of persons engaged in cleaning or painting vessels, or in working in the bilges, boilers or double bottoms of vessels, in any such port, and

(*p*) for regulating the action to be taken by a master where there is disease or sickness, or a dead body, on board his vessel in any such port

(2) The power to make rules under sub section (*1*) is subject to the condition of the rules being made after previous publication

Provided that nothing in this sub section shall be construed to affect the validity of any rule in force immediately before the commencement of this Act and continued by section 2, sub section (*2*)

CHAPTER III

PORT OFFICIALS AND THEIR POWERS AND DUTIES

Appointment of conservator

7 (*1*) The Local Government shall appoint some officer or body of persons to be conservator of every port subject to this Act, and may suspend or remove such officer or body

(2) Subject to any direction by the Local Government to the contrary,—

(*a*) in ports where there is a port officer, the port officer shall be the conservator

The Indian Ports Act, 1889

(*Chapter III—Port officials and their Powers and Duties—Sections 8 13*)

(*b*) in ports where there is no port officer but where there is a harbour master, the harbour-master shall be the conservator

(*c*) Where the harbour master is not conservator, the harbour master and his assistants shall be subordinate to, and subject to the control of, the conservator

(*d*) The conservator shall be subject to the control of the Local Government or of any intermediate authority which that Government may appoint

Power of conservator to give and enforce directions for certain specified purposes

8 (*1*) The conservator of any port subject to this Act may with respect to any vessel within the port, give directions for carrying into effect any rule for the time being in force therein under section 6

(*2*) If any person wilfully and without lawful excuse refuses or neglects to obey any lawful direction of the conservator after notice thereof has been given to him, he shall, for every such offence, be punished with fine which may extend to one hundred rupees and with further fine which may extend to one hundred rupees for every day on which after such notice is thereof he wilfully and without lawful excuse continues to disobey the direction

(*3*) In case of such refusal or neglect, the conservator may do, or cause to be done all acts necessary for the purpose of carrying the direction into execution, and may hire and employ proper persons for that purpose, and all reasonable expenses incurred in doing such acts shall be recoverable by him from the person so refusing or neglecting to obey the direction

Power to cut warps and ropes

9 The conservator of any such port may in case of urgent necessity cut, or cause to be cut, any warp, rope, cable or hawser endangering the safety of any vessel in the port or at or near to the entrance thereof

Removal of obstructions within limits of port

10 (*1*) The conservator may remove, or cause to be removed, any timber raft or other thing, floating or being in any part of any such port, which in his opinion obstructs or impedes the free navigation thereof or the lawful use of any pier, jetty, landing place, wharf, quay, dock, mooring or other work on any part of the shore or bank which has been declared to be within the limits of the port and is not private property

(*2*) The owner of any such timber, raft or other thing shall be liable to pay the reasonable expenses of the removal thereof, and if such owner or any other person has without lawful excuse caused any such obstruction or impediment, or causes any public nuisance affecting or likely to affect such free navigation or lawful use he shall also be punished with fine which may extend to one hundred rupees

(*3*) The conservator or any Magistrate having jurisdiction over the offence may cause any such nuisance to be abated

Recovery of expenses of removal

11 If the owner of any such timber, raft or other thing, or the person who has caused any such obstruction impediment or public nuisance as is mentioned in the last foregoing section neglects to pay the reasonable expenses incurred in the removal thereof, within one week after demand or within fourteen days after such removal has been notified in the official Gazette or in such other manner as the Local Government by general or special order directs the conservator may cause such timber raft or other thing or the materials of any public nuisance so removed or so much thereof as may be necessary, to be sold by public auction

and may retain all the expenses of such removal and sale out of the proceeds of the sale, and shall pay the surplus of such proceeds or deliver so much of the thing or materials as may remain unsold, to the person entitled to receive the same,

and if no such person appears shall cause the same to be kept and deposited in such manner as the Local Government directs,

and may if necessary, from time to time, realize the expenses of keeping the same, together with the expenses of sale, by a further sale of so much of the thing or materials as may remain unsold

Removal of lawful obstructions

12 (*1*) If any obstruction or impediment to the navigation of any port subject to this Act has been lawfully made, or has become lawful by reason of the long continuance of such obstruction or impediment or otherwise the conservator shall report the same for the information of the Local Government, and shall with the sanction of that Government, cause the same to be removed or altered, making reasonable compensation to the person suffering damage by such removal or alteration

(*2*) Any dispute arising concerning such compensation shall be determined according to the law relating to like disputes in the case of land required for public purposes

Fouling of Government moorings

13 (*1*) If any vessel hooks or gets foul of any of the buoys or moorings laid down by or by the authority of the Local Government in any such port, the master of such vessel shall not, nor shall any other person, except in case of emergency, lift the buoy or mooring for the purpose of unhooking or getting clear from the same without the assistance of the conservator

The Indian Ports Act, 1889

(*Chapter III—Port-officials and their Powers and Duties—Sections 14-18*)

and the conservator, immediately on receiving notice of such accident shall assist and superintend the clearing of such vessel,

and the master of such vessel shall upon demand pay such reasonable expenses as may be incurred in clearing the same

(2) Any master or other person offending against the provisions of this section shall for every such offence, be punished with fine which may extend to one hundred rupees

Raising or removal of wreck impeding navigation within limits of port

14 (1) If any vessel is wrecked, stranded or sunk in any such port so as to impede or be likely to impede the navigation thereof the conservator may cause the vessel to be raised, removed or destroyed

(2) If any property recovered by a conservator acting under sub section (1) is unclaimed, or the person claiming it fails to pay the reasonable expenses incurred by the conservator under that sub section and a further sum of twenty per cent of the amount of such expenses the conservator may sell the property by public auction if the property is of a perishable nature forthwith and if it is not of a perishable nature at any time not less than six months after the recovery thereof

(3) The expenses and further sum aforesaid shall be payable to the conservator out of the sale proceeds of the property, and the balance shall be paid to the person entitled to the property recovered or if no such person appears and claims the balance, shall be held in deposit for payment, without interest, to any person thereafter establishing his right thereto

Provided that the person makes his claim within three years from the date of the sale

Power to board vessels and enter building

15 (1) The conservator or any of his assistants may whenever he suspects that any offence against this Act has been or is about to be, committed, or whenever it is necessary for him so to do in the performance of any duty imposed upon him by this Act,

and the person appointed under this Act to receive any port dues fees or other charges payable in respect of any vessel, may, whenever it is necessary for him so to do in the performance of any duty imposed upon him by this Act

either alone or with any other person, board any vessel, or enter any building or place, within the limits of any port subject to this Act

(2) If the master of the vessel or any person in possession or occupation of the building or place, without lawful excuse refuses to allow any such person as is mentioned in sub section (1) to board or enter such vessel, building or place in the performance of any duty imposed upon him by this Act he shall for every such offence be punished with fine which may extend to two hundred rupees

Power to require crews to prevent or extinguish fire

16 (1) For the purpose of preventing or extinguishing fire in any port subject to this Act, the conservator or port officer may require the master of any vessel within the port to place at his disposal such number as he requires not exceeding three fourths of the crew then under the orders of such master

(2) Any master refusing or neglecting to comply with such requisition shall be punished with fine which may extend to five hundred rupees and any seaman then under his orders who after being directed by the master to obey the orders of the conservator or port officer for the purpose aforesaid refuses to obey such orders shall be punished with fine which may extend to twenty five rupees

Appointment and powers of health officer

17 (1) The Local Government may appoint at any port subject to this Act an officer to be called the health officer and may suspend or remove from office any officer so appointed

(2) A health officer shall subject to the control of the Local Government have the following powers within the limits of the port for which he is appointed, namely —

(*a*) with respect to any vessel the powers conferred on a shipping master by Act I of 1859, section 71

(*b*) power to enter on board any vessel and medically examine all or any of the seamen or apprentices on board the vessel

(*c*) power to require and enforce the production of the log book and any other books, papers or documents which he thinks necessary for the purpose of enquiring into the health and medical condition of the persons on board the vessel

(*d*) power to call before him and question for any such purpose all or any of those persons and to require true answers to any questions which he thinks fit to ask,

(*e*) power to require any person so questioned to make and subscribe a declaration of the truth of the statements made by him

Indemnity to Government against act or default of port official or pilot

18 The Government shall not be responsible for any act or default of any conservator port officer or harbour master of any port subject to this Act, or of any deputy or assistant of any of the authorities aforesaid, or of any person acting under the control or direction of any such authority, deputy or assistant, or for any act or default of any pilot, or

The Indian Ports Act, 1889

(Chapter IV—Rules for the Safety of Shipping and the Conservation of Ports—Sections 19 27)

for any damage sustained by any vessel in consequence of any defect in any of the moorings hawsers or other things belonging to the Government which may be used by the vessel

Provided that nothing in this section shall protect the Secretary of State for India in Council from a suit in respect of any act done by or under the express order or sanction of the Government

---

CHAPTER IV

RULES FOR THE SAFETY OF SHIPPING AND THE CONSERVATION OF PORTS

General Rules

Injuring buoys beacons and moorings

19 (*1*) No person shall without lawful excuse, lift injure loosen or set adrift any buoy beacon or mooring fixed or laid down by or by the authority of the Local Government in any port subject to this Act

(*2*) If any person offends against the provisions of this section, he shall for every such offence be liable in addition to the payment of the amount of damage done to fine which may extend to two thousand rupees, or to imprisonment for a term which may extend to two years

Wilfully loosening vessel from moorings

20 If any person wilfully and without lawful excuse loosens or removes from her moorings any vessel within any such port without leave or authority from the owner or master of the vessel he shall for every such offence be punished with fine which may extend to two hundred rupees, or with imprisonment for a term which may extend to six months

Improperly discharging ballast

21 (*1*) No ballast or rubbish, and no other thing likely to form a bank or shoal or to be detrimental to navigation shall, without lawful excuse, be cast or thrown into any such port or into or upon any place on shore from which the same is liable to be washed into any such port, either by ordinary or high tides, or by storms or land floods

(*2*) Any person who by himself or another so casts or throws any ballast or rubbish or any such other thing, and the master of any vessel from which the same is so cast or thrown, shall be punished with fine which may extend to five hundred rupees, and shall pay any reasonable expenses which may be incurred in removing the same

(*3*) If, after receiving notice from the conservator of the port to desist from so casting or throwing any ballast or rubbish or such other thing, any master continues so to cast or throw it he shall also be liable to simple imprisonment for a term which may extend to two months

(*4*) Nothing in this section applies to any case in which the ballast or rubbish or such other thing is cast or thrown into any such port with the consent in writing of the conservator, or within any limits within which such act may be authorized by the Local Government

Craving vessel within prohibited limits

22 If any person graves breams or smokes any vessel in any such port, contrary to the directions of the conservator, or at any time or within any limits at or within which such act is prohibited by the Local Government, he and the master of the vessel shall for every such offence be punished with fine which may extend to five hundred rupees each

Boiling pitch in boats within prohibited limit

23 If any person boils or heats any pitch tar, resin, dammer turpentine oil or other such combustible matter on board any vessel within any such port, or at any place within its limits where such act is prohibited by the Local Government or contrary to the directions of the conservator, he and the master of the vessel shall for every such offence be punished with fine which may extend to two hundred rupees each

Drawing spirit by unprotected artificial light

24 If any person, by an unprotected artificial light draws off spirits on board any vessel within any port subject to this Act, he and the master of the vessel shall for every such offence be punished with fine which may extend to two hundred rupees each

Warping

25 (*1*) Every master of a vessel in any port subject to this Act shall, when required so to do by the conservator, permit warps or hawsers to be made fast to the vessel for the purpose of warping any other vessel in the port, and shall not allow any such warp or hawser to be let go until required so to do

(*2*) A master offending against sub section (*1*) shall be punished for every such offence with fine which may extend to two hundred rupees

Leaving out warp or hawser after sunset

26 (*1*) A master of a vessel shall not cause or suffer any warp or hawser attached to his vessel to be left out in any port subject to this Act after sunset in such a manner as to endanger the safety of any other vessel navigating in the port

(*2*) A master offending against sub section (*1*) shall be punished for every such offence with fine which may extend to two hundred rupees

Discharge of fire arms in port

27 If any person, without lawful excuse, discharges any fire arm in any port subject to this Act, or on or from any pier landing place, wharf or quay thereof, except a gun loaded only with gunpowder for the purpose of making

The Indian Ports Act, 1889

(Chapter IV—Rules for the Safety of Shipping and the Conservation of Ports—Sections 28 to 32 Chapter V—Port dues, Fees and other Charges—Section 33)

a signal of distress or for such other purposes as may be allowed by the Local Government, he shall for every such offence be punished with fine which may extend to fifty rupees

Penalty on master omitting to take order to extinguish fire

28 If the master of any vessel in which fire takes place while lying in any such port wilfully omits to take order to extinguish the fire or obstructs the conservator or the port officer, or any person acting under the authority of the conservator or port officer in extinguishing or attempting to extinguish the fire he shall be punished with imprisonment which may extend to six months, or with fine which may extend to one thousand rupees, or with both

Unauthorized person not to search for lost stores

29 (*1*) No person, without the permission of the conservator, shall in any port subject to this Act creep or sweep for anchors, cables or other stores lost or supposed to be lost therein

(*2*) If any person offends against the provisions of sub section (*1*), he shall be punished with fine which may extend to one hundred rupees

Removing stones or injuring shores of port prohibited

30 (*1*) No person without the permission of the conservator shall in any port subject to this Act remove or carry away any rock, stones shingle, gravel, sand or soil or any artificial protection from any part of the bank or shore of the port,

and no person shall sink or bury in any part of such bank or shore whether the same is public or private property, any mooring post, anchor or any other thing, or do any other thing which is likely to injure or to be used so as to injure such bank or shore, except with the permission of the conservator, and with the aid or under the inspection of such person, if any, as the conservator may appoint to take part in, or overlook the performance of, such work

(*2*) If any person offends against sub section (*1*), he shall for every such offence be punished with fine which may extend to one hundred rupees and shall pay any reasonable expenses which may be incurred in repairing any injury done by him to the bank or shore

Special Rules

Moving of vessels without pilot or permission of harbour master

31 (*1*) No vessel of the measurement of two hundred tons or upwards shall enter, leave or be moved in any port to which this section has been specially extended without having a pilot, harbour master or assistant of the port officer or harbour master on board,

and no vessel of any measurement less than two hundred tons and exceeding one hundred tons shall enter, leave or be moved in any such port without having a pilot, harbour master or assistant of the port officer or harbour master on board unless authority in writing so to do has been obtained from the conservator or some officer empowered by him to give such authority

(*2*) If any vessel, except in case of urgent necessity, enters, leaves or is moved in the port contrary to the provisions of sub section (*1*), the master of the vessel shall for every such offence be punished with fine which may extend to two hundred rupees, unless upon application to the proper officer the master was unable to procure a pilot, harbour master or assistant of the port officer or harbour master to go on board the vessel

(*3*) Nothing in sub sections (*1*) and (*2*) shall apply to Native vessels when they are entering, leaving or being moved in the port of Bombay

(*4*) If any question arises as to whether any vessel is a Native vessel within the meaning of this section, the decision thereon of such authority as the Governor of Bombay in Council may appoint in this behalf shall be conclusive

Provision of certain vessels with fire extinguishing apparatus

32 (*1*) Every vessel exceeding the measurement of two hundred tons and lying in any port to which this section has been specially extended shall be provided with a proper force pump and hose and appurtenances for the purpose of extinguishing any fire which may occur on board

(*2*) The master of such a vessel who having been required by the conservator to comply with the provisions of sub section (*1*), neglects or refuses, without lawful excuse, so to do for the space of seven days after such requisition, shall be punished with fine which may extend to five hundred rupees

CHAPTER V

PORT-DUES, FEES AND OTHER CHARGES

Levy of port dues

33 (*1*) In each of the ports mentioned in the first schedule such port due, not exceeding the amount specified for the port in the third column of the schedule as the Local Government directs, shall be levied on vessels entering the port and described in the second column of the schedule, but not oftener than the time fixed for the port in the fourth column of the schedule

(*2*) Whenever the Local Government, with the previous sanction of the Governor General in Council, declares any other port to be subject to this Act, it may, with the like sanction, by the same or any subsequent declaration, further declare,—

(*a*) in the terms of any of the entries in the second column of the first schedule, the

The Indian Ports Act, 1889

(Chapter V —Port-dues, Fees and other Charges —Sections 34 36)

vessels which are to be chargeable with port dues on entering the port,

(*b*) the highest rates at which such dues may be levied in respect of vessels chargeable therewith, and

(*c*) the times at which such vessels are to be so chargeable

(*3*) All port dues now leviable in any port shall continue to be so leviable until it is otherwise declared in exercise of the powers conferred by this section

(*4*) An order increasing or imposing port dues under this section shall not take effect till the expiration of sixty days from the day on which the order was published in the local official Gazette

Variation of port-dues by Local Government

34 The Local Government may exempt the vessels entering a port subject to this Act from payment of port dues and cancel the exemption or may vary the rates at which port dues are to be levied in the port, in such manner as having regard to the receipts and charges on account of the port, it thinks expedient, by reducing or raising the dues, or any of them

Provided that the rates shall not in any case exceed the amount authorized to be taken by or under this Act

Fees for pilotage and certain other services

35 (*1*) Within any port subject to this Act, fees may be charged for pilotage hauling, mooring, re mooring hooking, measuring and other services rendered to vessels, at such rates as the Local Government may direct

Provided that, in the case of fees for pilotage the previous sanction of the Governor General in Council has been obtained

(*2*) The fees now chargeable for such services shall continue to be chargeable unless and until they are altered in exercise of the power conferred by sub section (*1*)

Receipt expenditure and account of port-charges

36 (*1*) The Local Government shall appoint some officer or body of persons at every port at which any dues, fees or other charges are authorized to be taken by or under this Act to receive the same and, subject to the control of the Local Government, to expend the receipts on any of the objects authorized by this Act

(*2*) Such officer or body shall keep for the port a distinct account, to be called the port fund account, showing, in such detail as the Local Government prescribes, the receipts and expenditure of the port, and shall publish annually as soon after the first day of April as may be practicable an abstract, in such form as that Government prescribes, of the account for the past financial year

(*3*) If, for any of the purposes of this Act, an advance of money has been or shall be made by the Government on account of any port subject to this Act, simple interest upon that advance, or upon so much of it as remains or shall remain unrepaid, at such rate as the Governor General in Council may determine, shall be charged in the port fund account of the port

(*4*) All moneys received under this Act at or on account of any port subject to this Act, excluding receipts on account of pilotage but including—

(*a*) fines,

(*b*) proceeds of waifs, and

(*c*) any balance of the proceeds of a sale under section 14 where no right to the balance has been established on a claim made within three years from the date of the sale,

shall be credited in the port fund account of the port

(*5*) All expenses incurred for the sake of any such port, excluding expenses on account of pilotage but including—

(*a*) the pay and allowances of all persons upon the establishment of the port,

(*b*) the cost of buoys, beacons lights and all other works maintained chiefly for the benefit of vessels being in or entering or leaving the port or passing through the rivers or channels leading thereto,

(*c*) pensions, allowances and gratuities of persons who have been employed in the port under this or any other enactment relating to ports and port dues or such portion of those pensions allowances and gratuities as the Local Government may by rule determine,

(*d*) with the previous sanction of the Local Government, contributions towards the support of public hospitals or dispensaries suitable for the reception or relief of seamen or otherwise towards the provision of sanitary superintendence and medical aid for the shipping in the port and for seamen, whether ashore or afloat belonging to vessels in the port and

(*e*) with the like sanction, contributions towards sailors' homes, institutes, rest houses and coffee houses and for other purposes connected with the health, recreation and temporal well being of sailors,

shall be charged to the port fund account of the port

(*6*) Subject to the provisions of any local law as to the disposal of any balance from time to time standing to the credit of a port fund account, any such balance may be temporarily invested in such manner as the Local Government may direct

The Indian Ports Act, 1889

(*Chapter V—Port dues, Fees and other Charges—Sections 37-39*)

Grouping of ports

37 (*1*) The Local Government may direct that for the purposes of the last foregoing section any number of ports shall be regarded as constituting a single port, and thereupon all moneys to be credited to the port fund account under sub section (*4*) of that section shall form a common port fund account which shall be available for the payment of all expenses incurred for the sake of any of the ports

Provided with respect to the ports of Calcutta, Madras, Bombay Rangoon Karáchi, Chittagong and Aden, that none of those ports may be grouped with any other port, and that the port fund account of each of those ports shall be kept separate from the port fund account of any other port

(*2*) Where ports are grouped by or under this Act, the following consequences ensue, namely —

(*a*) the Local Government, in the exercise of its control over expenditure debitable to the common port fund account of the group, may with the previous sanction of the Governor General in Council, make rules with respect to the expenditure of the fund for the sake of the several ports of the group on the objects authorised by this Act and shall cause effect to be given to any directions which the Governor General in Council may deem it necessary to issue with respect to such expenditure, and

(*b*) the Local Government may exercise its authority under section 34 as regards all the ports in the group collectively or as regards any of them separately

Receipts for port charges

38 The person to whom any dues fees or other charges authorized to be taken by or under this Act are paid shall grant to the person paying the same a proper voucher in writing under his hand, describing the name of his office, the port or place at which the dues fees or other charges are paid, and the name tonnage and other proper description of the vessel in respect of which the payment is made

Master to report arrival

39 (*1*) Within twenty four hours after the arrival within the limits of any port subject to this Act of any vessel liable to the payment of port dues under this Act the master of the vessel shall report her arrival to the conservator of the port

(*2*) A master failing without lawful excuse to make such report within the time aforesaid shall for every such offence be punished with fine which may extend to one hundred rupees

(*3*) Nothing in this section applies to tug-steamers, ferry steamers or river steamers plying to and from any of the ports subject to this Act or to ballam boats plying to and from the port of Chittagong

Conservator may in certain cases ascertain draught and charge expense to master

40 If any vessel liable to the payment of port dues is in any such port without proper marks on the stem and stern posts thereof for denoting her draught the conservator may cause the same to be ascertained by means of the operation of hooking and the master of the vessel shall be liable to pay the expenses of the operation

Ascertainment of tonnage of vessel liable to port dues

41 In order to ascertain the tonnage of any vessel liable to pay port dues the following rules shall be observed —

(*1*) (*a*) If the vessel is a British registered vessel, or a vessel registered under Act X of 1841 or Act XI of 1850 or under any other law for the time being in force for the registration of vessels in British India, the conservator may require the owner or master of the vessel or any person having possession of her register to produce the register for inspection

(*b*) If the owner or master or such person neglects or refuses to produce the register or otherwise to satisfy the conservator as to what is the true tonnage of the vessel in respect of which the port dues are payable, he shall be punished with fine which may extend to one hundred rupees and the conservator may cause the vessel to be measured, and the tonnage thereof to be ascertained according to the mode of measurement prescribed by the rules for the time being in force for regulating the measurement of British vessels, and in such case the owner or master of the vessel shall also be liable to pay the expenses of the measurement

(*2*) If the vessel is not a British registered vessel or a vessel registered under Act X of 1841 or Act XI of 1850, or under any other law for the time being in force for the registration of vessels in British India, and the owner or master thereof fails to satisfy the conservator as to what is her true tonnage according to the mode of measurement prescribed by the rules for the time being in force for regulating the measurement of British vessels, the conservator shall cause the vessel to be measured and the tonnage thereof to be ascertained, according to the mode aforesaid, and in such case the owner or master of the vessel shall be liable to pay the expenses of the measurement

(*3*) If the vessel is a vessel of which the tonnage cannot be ascertained according to

The Indian Ports Act, 1889

(*Chapter V—Port-dues, Fees and other Charges—Sections 42 49*)

the mode of measurement mentioned in clauses (*1*) and (*2*) the tonnage of the vessel shall be determined by the conservator on such an estimate as may seem to him to be just

Distraint and sale on refusal to pay port charges

42. If the master of any vessel in respect of which any port dues fees or other charges are payable under this Act refuses or neglects to pay the same on demand the authority appointed to receive such port dues fees or other charges may distrain or arrest the vessel, and the tackle, apparel and furniture belonging thereto, or any part thereof, and detain the same until the amount due is paid,

and in case any part of the port dues fees or other charges, or of the costs of the distress or arrest or of the keeping of the vessel or other thing distrained or arrested remains unpaid for the space of five days next after any such distress or arrest, may cause the vessel or other thing distrained or arrested to be sold and with the proceeds of such sale may satisfy the port dues fees or other charges and the costs including the costs of sale, remaining unpaid, and shall render the surplus if any, to the master of the vessel upon demand

No port clearance to be granted until port charges are paid

43. The officer of Government whose duty it is to grant a port clearance for any vessel shall not grant such clearance—

(*a*) until her owner or master or some other person, has paid or secured to the satisfaction of such officer the amount of all port dues, fees and other charges and of all fines, penalties and expenses to which the vessel or her owner or master is liable under this Act,

(*b*) until all expenses, which by the Merchant Shipping Act 1854, section 228 are to be borne by her owner incurred since her arrival in the port from which he seeks clearance, have been paid

17 & 18 Vict c 104

Port charges payable in one port recoverable at any other port

44. (*1*) If the master of any vessel in respect of which any such sum as is mentioned in the last foregoing section is payable causes her to leave any port without having paid the sum, the authority appointed to receive port dues fees and other charges at the port under this Act may require in writing the authority appointed to receive port dues, fees and other charges under this Act at any other port in British India to which she may proceed, or in which she may be, to levy the sum

(*2*) The authority to whom the requisition is directed shall proceed to levy such sum in the manner prescribed in section 42, and a certificate, purporting to be made by the authority appointed to receive port dues, fees and other charges at the port where such sum as is mentioned in the last foregoing section became payable, stating the amount payable, shall be sufficient *prima facie* proof of such amount in any proceeding under section 42, and also (in case the amount payable is disputed) in any subsequent proceeding under section 59

Penalty for evading payment of port charg

45. (*1*) If the master of a vessel evades the payment of any such sum as is mentioned in section 43, he shall be punished with fine which may extend to five times the amount of the sum

(*2*) In any proceeding before a Magistrate on a prosecution under sub section (*1*) any such certificate as is mentioned in section 44, sub section (*2*) stating that the master has evaded such payment, shall be sufficient *prima facie* proof of the evasion, unless the master shows to the satisfaction of the Magistrate that the departure of the vessel without payment of the sum was caused by stress of weather, or that there was lawful or reasonable ground for such departure

(*3*) Any Magistrate having jurisdiction under this Act in any port to which the vessel may proceed or in which she may be found shall be deemed to have jurisdiction in any proceeding under this section

Port due on vessels in ballast

46. A vessel entering any port subject to this Act (other than a port in Burma) in ballast and not carrying passengers shall be charged with a port due at a rate to be determined by the Local Government and not exceeding three fourths of the rate with which she would otherwise be chargeable

Port due on vessels not discharging or taking in cargo

47. When a vessel enters a port subject to this Act, but does not discharge or take in any cargo or passengers therein (with the exception of such unshipment and reshipment as may be necessary for purposes of repair), she shall be charged with a port due at a rate to be determined by the Local Government and not exceeding half the rate with which she would otherwise be chargeable

Provided that a vessel entering any of the ports within the territories administered by the Governor of Fort St George in Council and leaving the same within forty eight hours, without discharging or taking in any passengers or cargo, shall not be charged with any port-due

Port-dues not chargeable on pleasure yachts or on vessels re entering from stress of weather

48. No port due shall be chargeable in respect of any pleasure yacht, nor shall any such due be chargeable in respect of any vessel which, having left any port, is compelled to re enter it by stress of weather or in consequence of having sustained any damage

Power to impose hospital port dues

49. (*1*) The Local Government may, by notification in the official Gazette, order that there shall be

The Indian Ports Act, 1889

(Chapter V—Port dues, Fees and other Charges—Section 50 Chapter VI—Hoisting Signals—Sections 51 53) Chapter VII—Provisions with respect to Penalties—Sections 54-56)

paid in respect of every vessel entering any port subject to this Act, within a reasonable distance of which there is a public hospital or dispensary suitable for the reception or relief of seamen requiring medical aid, such further port dues not exceeding one anna per ton as the Local Government thinks fit

(2) Such port dues shall be called hospital port dues, and the Local Government shall, in making any order under sub section (1), have regard to any contributions made under section 36, sub section (5), clause (a)

(3) An order imposing or increasing hospital port-dues shall not take effect till the expiration of sixty days from the day on which the order was published in the local official Gazette

(4) Whenever the Local Government is satisfied that proper provision has been made by the owners or agents of any class of vessels for giving medical aid to the seamen employed on board such class of vessels, or that such provision is unnecessary in the case of any class of vessels, it may, by notification in the official Gazette, exempt such class of vessels from any payment under this section

(5) The Local Government may, by notification in the official Gazette cancel any order under sub section (1) or withdraw any exemption under sub section (4)

Application and account of hospital port dues

50 (1) Hospital port dues shall be applied, as the Local Government may direct, to the support of any such hospital or dispensary as aforesaid, or otherwise for providing sanitary superintendence and medical aid for the shipping in the port in which they are levied and for the seamen belonging to the vessels therein, whether such seamen are ashore or afloat

(2) The Local Government shall publish annually in the official Gazette, as soon after the first day of April as may be, an account, for the past financial year, of the sums received as hospital port dues at each port where such dues are payable and of the expenditure charged against those receipts

(3) Such account shall be published as a supplement to the abstract published under section 36, sub section (2)

CHAPTER VI

HOISTING SIGNALS

Master to hoist number of vessel

51 (1) The master of every inward or outward bound vessel, on arriving within signal distance of any signal station established within the limits of the river Hooghly, or within the limits of any part of a river or channel leading to a port subject to this Act, shall, on the requisition of the pilot in charge of the vessel, signify the name of the vessel by hoisting the number by which she is known, or by adopting such other means to this end as may be practicable and usual, and shall keep the signal flying until it is answered from the signal station

(2) If the master of a vessel arriving as aforesaid offends against sub section (1) he shall be punished for every such offence with fine which may extend to one thousand rupees

Pilot to require master to hoist number

52 (1) Every pilot in charge of a vessel shall require the number of the vessel to be duly signalled as provided by the last foregoing section

(2) When, on such requisition from the pilot, the master refuses to hoist the number of a vessel, or to adopt such other means of making her name known as may be practicable and usual the pilot may on arrival at the first place of safe anchorage, anchor the vessel and refuse to proceed on his course until the requisition has been complied with

Penalty on pilot disobeying provisions of this Chapter

53 Any pilot in charge of a vessel who disobeys or abets disobedience to, any of the provisions of this Chapter shall be punished with fine which may extend to five hundred rupees for each instance of such disobedience or abetment, and in addition shall be liable to have his authority to act as a pilot withdrawn

CHAPTER VII

PROVISIONS WITH RESPECT TO PENALTIES

Penalty for disobedience to rules and orders of the Local Government

54 If any person disobeys any rule or order which a Local Government has made in pursuance of this Act and for the punishment of disobedience to which express provision has not been made elsewhere in this Act, he shall be punished for every such offence with fine which may extend to one hundred rupees

Offences how triable, and penalties how recovered

55 All offences against this Act shall be triable by a Magistrate, and any Magistrate may, by warrant under his hand, cause the amount of any fine imposed upon the owner or master of any vessel, for any offence committed on board of the vessel, or in the management thereof, or otherwise in relation thereto, whereof the owner or master is convicted, to be levied by distress and sale of the vessel and the tackle apparel and furniture thereof, or so much thereof as is necessary

Costs of conviction

56 (1) In case of any conviction under this Act the convicting Magistrate may order the offender to pay the costs of the conviction in addi-

The Indian Ports Act, 1889

(Chapter VII —Provisions with respect to Penalties —Sections 57 61)

(Chapter VIII —Supplemental Provisions —Sections 62 64)

tion to any fine or expenses to which he may be liable

(2) Such costs may be assessed by the Magistrate, and may be recovered in the same manner as any fine under this Act

Ascertainment and recovery of expenses and damages payable under this Act

57 (1) If any dispute arises as to the sum to be paid in any case as expenses or damages under this Act, it shall be determined by a Magistrate upon application made to him for that purpose by either of the disputing parties

(2) Whenever any person is liable to pay any sum, not exceeding one thousand rupees, as expenses or damages under this Act, any Magistrate, upon application made to him by the authority to whom the sum is payable, may, in addition to or instead of any other means for enforcing payment, recover the sum as if it were a fine

Costs of distress

58 Whenever any fine, expenses or damages is or are levied under this Act by distress and sale, the costs of the distress and sale may be levied in addition to such fine, expenses or damages, and in the same manner

Magistrate to determine the amount to be levied in case of dispute

59 If any dispute arises concerning the amount leviable by any distress or arrest under this Act or the costs payable under the last foregoing section, the person making the distress or using the arrest may detain the goods distrained or arrested, or the proceeds of the sale thereof, until the amount to be levied has been determined by a Magistrate, who upon application made to him for that purpose, may determine the amount and award such costs to be paid by either of the parties to the other of them as he thinks reasonable, and payment of such costs, if not paid on demand, shall be enforced as if they were a fine

Jurisdiction over offences beyond local limits of jurisdiction

60 (1) Any person offending against the provisions of this Act in any port subject to this Act shall be punishable by any Magistrate having jurisdiction over any district or place adjoining the port

(2) Such Magistrate may exercise all the powers of a Magistrate under this Act, in the same manner and to the same extent as if the offence had been committed locally within the limits of his jurisdiction, notwithstanding that the offence may not have been committed locally within such limits, and, in case any such Magistrate exercises the jurisdiction hereby vested in him, the offence shall be deemed, for all purposes, to have been committed locally within the limits of his jurisdiction

Conviction to be quashed on merits only

61 (1) No conviction, order or judgment of any Magistrate under this Act shall be quashed for error of form or procedure, but only on the merits, and it shall not be necessary to state on the face of the conviction, order or judgment, the evidence on which it proceeds

(2) If no jurisdiction appears on the face of the conviction, order or judgment, but the depositions taken supply that defect, the conviction, order or judgment shall be aided by what so appears in the depositions

---

CHAPTER VIII

SUPPLEMENTAL PROVISIONS

Hoisting unlawful colours in port

62 (1) If any vessel belonging to any of Her Majesty's subjects, or sailing under British colours, hoists, carries or wears, within the limits of any port subject to this Act, any flag, jack pennant or colours the use whereof on board such vessel has been prohibited by the Merchant Shipping Act, 1854, or any other statute now or hereafter to be in force, or by any proclamation made or to be made in pursuance of any such statute, or by any of Her Majesty's regulations in force for the time being, the master of the vessel shall, for every such offence, be punished with fine which may extend to fifty rupees

17 & 18 Vict., c. 104

(2) Such fine shall be in addition to any other penalty recoverable in respect of such an offence

(3) The conservator of the port, or any officer of Her Majesty's Navy or Indian Marine Service, may enter on board any such vessel, and seize and take away any flag, jack, pennant or colours so unlawfully hoisted, carried or worn on board the same

Foreign deserters

63 Any Magistrate, upon an application being made to him by the Consul of any Foreign Power to which the Foreign Deserters Act, 1852, has by an order of Her Majesty in Council been, or shall hereafter be, declared to be applicable, or by the representative of such Consul, and upon complaint on oath of the desertion of any seaman, not being a slave, from any vessel of such Foreign Power, may, until a revocation of such Order in Council has been publicly notified, issue his warrant for the apprehension of any such deserter, and, upon due proof of the desertion, may order him to be conveyed on board the vessel to which he belongs, or, at the instance of the Consul, to be detained in custody until the vessel is ready to sail, or, if the vessel has sailed, for a reasonable time not exceeding one month

15 & 16 Vict., c. 26

Provided that a deposit be first made of such sum as the Magistrate deems necessary for the subsistence of the deserter during the detention, and that the detention of the deserter shall not be continued beyond twelve weeks

Application of sections 10 and 21

64 (1) The provisions of sections 10 and 21 shall be applicable to all ports heretofore or hereafter declared by the Local Government to be ports for the shipment and landing of goods but not otherwise subject to this Act, and may be enforced by any Magistrate to

The Indian Ports Act, 1889

(*Chapter VIII—Supplemental Provisions—Sections 65 70*)

whose ordinary jurisdiction any such port is subject

(*2*) Any penalties imposed by him and any expenses incurred by his order, under the said provisions shall be recoverable respectively in the manner provided in sections 55 and 57

(*3*) In any of the said ports for the shipment and landing of goods the consent referred to in section 21, sub section (*4*), may be given by the principal officer of customs at such port or by any other officer appointed in that behalf by the Local Government

Application of Maulmain and Bassein port dues

65 The port due leviable under this Act in either of the ports of Maulmain and Bassein shall, to the extent of one anna and six pie per ton, be applicable in the first place to defray the expenses of maintaining the existing port lights of Burma

Validation of irregular contributions

66 Any money contributed before the passing of this Act from any port fund for any purpose connected with the health, recreation and well being of sailors shall be deemed to have been lawfully contributed from the fund

Grant of sites for sailors institutes

67 Any local authority in which any immoveable property in or near a port is vested may, with the previous sanction of the Local Government, appropriate, and either retain and apply, or transfer by way of gift or otherwise, the whole or any part of the property as a site for, or for use as a sailors' home or other institution for the health, recreation and temporal well being of sailors

Exercise of powers of conservator by his assistants

68 (*1*) All acts, orders or directions by this Act authorized to be done or given by any conservator may subject to his control, be done or given by any harbour master or any deputy or assistant of such conservator or harbour master

(*2*) Any person authorized by this Act to do any act may call to his aid such assistance as may be necessary

Service of written notices of directions

69 Any written notice of a direction given under this Act, left for the master of any vessel with any person employed on board thereof, or affixed on a conspicuous place on board of the vessel shall, for the purposes of this Act, be deemed to have been given to the master thereof

Publication of orders of Local Government

70 Every declaration, order and rule of a Local Government made in pursuance of this Act shall be published in the official Gazette, and a copy thereof shall be kept in the office of the conservator and at the custom house, if any, of every port to which the declaration, order or rule relates, and shall there be open at all reasonable times to the inspection of any person without payment of any fee

The Indian Ports Act, 1889

(The First Schedule—Ports, Vessels chargeable, Rate of Port-dues and Frequency of Payment)

THE FIRST SCHEDULE

PORTS, VESSELS CHARGEABLE, RATE OF PORT DUES AND FREQUENCY OF PAYMENT

(See sections 1 and 33)

Explanations to Part II of the First Schedule

Explanation 1—In this Part of the Schedule—

(*a*) ship means a sailing vessel and steamer a steam vessel

(*b*) coasting ship or coasting steamer means respectively a ship or steamer which at any port discharges cargo exclusively from or takes in cargo exclusively for any port in the island of Ceylon or in any part of India between the westernmost part of Sind and the southernmost part of Burma and coasting steamer includes a coasting steam vessel having a general pass under section 164 of the Sea Customs Act 1878 VIII of 1878

(*c*) foreign ship or foreign steamer means respectively a ship or steamer not being a coasting ship or coasting steamer

Explanation 2—As regards the levy of port-dues each of the following pairs of ports namely Cocanada and Coringa, Nagore and Negapatam Beypore and Calicut to be treated as if it were only one port every vessel in respect of which such dues have been charged and taken at one of any of the said pairs being exempted from the dues on entering the other of the same pair immediately after leaving the one in which the dues were charged and taken

PORTS BILL

The Hon'ble SIR DAVID BARBOUR presented the Report of the Select Committee on the Bill to consolidate and amend the law relating to Ports and Port-charges

SEA CUSTOMS AND TARIFF ACTS AMENDMENT BILL

The Hon'ble SIR DAVID BARBOUR also moved that the Report of the Select Committee on the Bill to amend the Sea Customs Act, 1878, and the Indian Tariff Act, 1882, be taken into consideration He said —

"The Bill is a very short one, and, as it has met with general approval, the alterations which the Select Committee recommend are few and unimportant

"The proposed amendment of section 110 of the Sea Customs Act, 1878, has been struck out, because it was found that the object with which the amendment was proposed is sufficiently provided for in the existing law

"The question whether the Indian Tariff Act, 1882, should be amended so as to provide for cases in which a duty was imposed, remitted or altered after a contract for sale was made and before the contract was fulfilled is one that could best be decided according as the weight of commercial opinion was for or against the proposal Commercial opinion, though not absolutely unanimous, is strongly in favour of the proposed amendment The provision has therefore been retained in the Bill

"At the suggestion of the Government of Bombay advantage has been taken of the opportunity to expressly exempt Perim from the operation of the Indian Tariff Act This makes no change in the existing practice"

The Hon'ble RÁJÁ DURGA CHARN LAHA said —"The Bill, though a short one, is important I only wish it had been passed before the raising of the salt duty last year, which would have saved the country from a loss of several lakhs of rupees Considering the importance and the urgency of the measure, a Bill of this kind, I submit, might have been passed at one sitting of the Council Had this been done, the risk of the outside public having an opportunity of taking advantage of the intention of the Government in this matter would have been reduced to a minimum Then, as regards section 4, it is undoubtedly an equitable addition to the Bill At any rate it can do no harm to people who might be unwilling to conform to it They would simply have to contract out of the Bill and would have full liberty to do so"

The Motion was put and agreed to

The Hon'ble SIR DAVID BARBOUR also moved that the Bill, as amended, be passed

The Motion was put and agreed to

LOWER BURMA COURTS BILL

The Hon'ble MR SCOBIE presented the further Report of the Select Committee on the Bill to consolidate and amend the law relating to Courts in Lower Burma He said —"In deference to the opinion of the local authorities, the Chamber of Commerce, the Trades Association, the Rangoon Bar and the Recorder, the Select Committee, with the concurrence of the Chief Commissioner of Burma, have so far amended the Bill as to provide that there shall be an appeal from the decision of the Recorder in all cases in which the value is less than Rs 10,000 The Committee have thought it better to reserve the right to appeal direct to the Privy Council in cases in which the value is more than Rs 10,000"

The Council adjourned to Wednesday, the 27th March, 1889

NORTH-WESTERN PROVINCES AND OUDH KANUNGOS AND PATWARIS BILL

The Hon'ble MR QUINTON moved that the Report of the Select Committee on the Bill to authorize the imposition of a Patwari-rate in the North-Western Provinces and Oudh and make certain provisions respecting Kanungos and Patwaris in those Provinces be taken into consideration He said —

"The alterations made in the Bill by the Select Committee are not numerous The changes in sections 2, 4 and 9 merely save appointments made and rules issued under existing Acts and set out at length definitions for which the Bill is introduced made necessary a reference to other enactments We have amended sections 7 and 15 so as to leave it to the Local Government to lay down the rules and conditions under which the patwari cess is to be computed and payable in the exceptional cases of land being rent free or rent being payable in kind or service It would be inexpedient to force landlords or tenants into court for the purpose of having the liability of tenants determined in such cases In sections 9, 13 and 15 we have adopted a recommendation of the Local Government and declared under proprietors of entire villages in Oudh liable to the whole rate and entitled to collect the cess from the tenants This is in accordance with the practice which prevailed almost universally in the province before the Act of 1882 Under-proprietors of plots of land not being whole villages will be treated as tenants and pay the cess only We have, as suggested by the Local Government, given landlords in Oudh the same voice in the nomination of patwaris as is possessed under the North Western Provinces land law by the landlords of those provinces

"With the assent of my hon'ble friend the Finance Member, we have embodied in section 18 a legislative recognition of the undertaking of the Local Government, that the present contribution to the patwari fund by Government shall not be less than 10 lakhs of rupees, and we have made the concurrence of the Government of India a condition precedent to any reduction of the grant below that amount When the landlords and tenants of the provinces are being called on to pay their share towards an object in which Government as

well as they are interested, it is but fair that Government should pledge itself so far as it properly can to maintain its part of the burden

"In the general principle of the Bill we have made no change The Select Committee approached the subject with a strong inclination to modify the provisions of the Bill as introduced in favour of the tenant, but the reasons given by the Lieutenant Governor in the passage I am about to quote, and the knowledge that the tenants of both provinces had so benefited by an unusually long series of prosperous years as to render the payment of a cess of 1 or ¾ per cent on their rent a matter of no difficulty, constrained the members to the conclusion that the principle of the Bill was sound and should be maintained Sir Auckland Colvin in his Secretary's letter of the 9th instant, which has been published as a paper on the Bill, writes as follows:—

'To the general principle of the Bill no objections have been made The justice of re distributing the present cost of the patwari establishment among the different classes which profit by its maintenance has not been impugned It is, in fact merely a reversion to the original arrangement by which the patwari as the servant of the village and not of the landlord only, was paid by an allotment from the grain heap before the produce was divided between the landlord and the tenant with this addition, that the State which now derives great advantages from the statistical information furnished by the village papers, and which will be greatly benefited thereby at future periodical revisions of the land revenue, will now make a corresponding contribution to the total expense The importance to the statutory tenant in Oudh, and to the tenant with right of occupancy in the North Western Provinces of the punctual and accurate maintenance of the record by which their rights are established is obvious, and to the tenant at will the advantage is hardly less, as he depends on the rent rolls for the correct statement of his rent, and of the continuous holding which, after a period of twelve years, secures him a right of occupancy The justice of demanding their contribution from the owners of privileged tenures seems too clear to require discussion, and was recognized in the arrangements which existed in the North Western Provinces prior to the passing of Act XIII of 1882 but, if tenants of all classes are exempted from liability, it is nearly certain that while the privileged tenants, whose annual payments are guaranteed by law will escape altogether, the tenants at will, whose interests in the matter, though considerable are not so obvious, will nevertheless be compelled by their landlords to pay at least as much as could be demanded from them under the present provisions of the Bill Experience has shown that it is impossible to hinder the landlord from demanding from tenants at will any cess which may have been imposed on the land' [In this connection I may add that nearly one half of the tenant cultivation of the North Western Provinces is in the hands of tenants at will, and that a general exemption of tenants from payment of the cess would leave them to bear not only their own share of the cost but probably that of the privileged class of tenants also] 'Moreover as a result of recent legislation nearly the whole of the land in Oudh is held by tenants with statutory rights The concurrence of the landlords of that province to the proposed taxation has rested mainly on the understanding that they would be allowed to recover from their tenants who are now in a far better position than they were then, a cess corresponding in principle, though it is considerably less in amount, to the cess which they were allowed to collect before the legislation of 1882 On the general principle, then, that the cost of establishment should be distributed, in proportions roughly corresponding to the benefit they respectively derive from it between the State, the landlords and the tenantry, Sir Auckland Colvin has no criticism to offer and he trusts that it may be maintained without any material modification

"The Committee considered carefully the possibility of exempting from the cess tenants who might prove that they were paying a share of the cost of the patwari in the shape of enhanced rent, but their enquiries established that no workable plan could be devised which would not be attended with greater evils than those it was meant to provide against In my remarks on the introduction of the Bill I stated that an enquiry made under the orders of Sir Alfred Lyall in 1884 showed that it was impossible to resolve rents then existing into their component parts so as to say what portion of the rent was to be remitted on account of the abolished cess As to thirteen districts of the North-Western Provinces, it was then proved that no separate patwari cess ever existed, or that if it existed it became merged in the rent at a period so remote that no memory of it survived In other districts the cess was merged in the rent under the Saharanpur Settlement Rules issued in 1855, or under the Land Act of 1873 What was held on such good grounds to be impossible in 1884 would certainly be equally impossible in 1889, and under such circumstances to give a power of re opening all cases of enhancement throughout the length and breadth of the provinces for many years previous to 1882, in order to ascertain

whether the tenant might now be fairly called on to pay an addition to his rent of two pies in the rupee, is a course which the Select Committee could not recommend Such a remedy would be worse than the disease

"These are the only points to which it seems necessary for me to call the attention of the Council on this occasion My hon'ble friend Sir David Barbour will no doubt explain the relations between this measure and the financial arrangements of the Government of India in the statement which he is, I understand, about to make"

The Hon'ble MUHAMMAD ALI said —

"Having had occasion to take part in the discussion of the Patwari Bill in the Select Committee, I have nothing more to add The Bill after amendments is, in my opinion, quite unobjectionable It is not reasonable that the Government alone should bear the whole cost of the patwari establishment to the extent of thirty lakhs of rupees as it has been doing for the last seven years As the keeping of an accurate patwari record is proportionately useful to all the parties interested in the land, the cost should be borne by each of them in proportion to the benefit he receives For this reason the distribution of the cost between the Government, the zamindár and the tenant, as made by the Bill, is just and fair

"The expenses incurred by the Government on the occasion of every new settlement were not less than, on an average, ten lakhs of rupees in every district, while the present Bill imposes on Government an expenditure of only ten lakhs for both the provinces In view of the great savings of expense likely to be realised by the Government in future settlements it is only reasonable that the Government should contribute the aforesaid sum It is a well known fact that people always dislike the imposition of any rate but when they find that the Government is also ready to contribute its share they will have no fair grounds for complaint"

The Hon'ble SIR CHARLES ELLIOTT said —"As an old North West official to whom the patwari and the patwari cess have been familiar terms for the last thirty years, I cannot let the occasion of the passing of the Patwari cess Bill go by without expressing my satisfaction at its enactment, and without laying before Your Excellency's Council two special grounds for congratulation The first is, that this Bill, although it involves the imposition of a cess upon themselves, is about to be passed into law with the approval of the great landholders of the North Western Provinces is represented by my hon'ble friend Muhammad Ali, and with the written consent of the influential body of taluqdars of Oudh, who have themselves assisted through the Secretary to the Taluqdars Association in framing the details of the Bill It shews that a great step has been gained in modifying the hitherto somewhat despotic character of the government of the country, when the Lieutenant Governor is able to win so completely the confidence of the landed gentry of his province, when they co-operate so heartily with him in legislation of this kind, and when they shew such a wise and statesmanlike patience of taxation

"The second point I wish to draw attention to is the improvement which this Bill may be expected to produce in the working of the patwari staff There is nothing so important to the agricultural community of the North Western Provinces, who comprise about 90 per cent of the population, as the accurate registration of the mutual rights of landlord and tenant It is well known that a great reform has taken place of late years in the completeness and accuracy of the village records—a reform with which the name of Sir Edward Buck is honourably connected But the basis of this reform rests on the education, discipline, supervision and proper payment of the patwari As long as the sum which could be devoted to paying the patwari staff depended on the amount which could be spared from the provincial treasury, on which a thousand other demands were being constantly made, so long there was little hope of obtaining such increased grants as were necessary to meet the constantly expanding wants of the establishment Now that the old system of a cess has been restored, we have got a fund which acts automatically in the right direction As new land is

broken up and cultivated, as fields are subdivided, and competition for land causes rents to rise, the patwari's work of record increases, and with it increases the annual value of the village on which the patwari-cess is based I trust, therefore, that this Bill, in addition to the relief it gives to the imperial treasury, will have the secondary and, as it were, accidental advantage of strengthening the hands of the Revenue and Agricultural Department, and enabling it to carry out more completely than before the objects which were defined by the Famine Commission and accepted by the Government of India nearly ten years ago, but which have been to some extent retarded by that eternal want of pence which is the most constant check on all attempted reforms in administration"

The Hon'ble SIR DAVID BARBOUR said —

"The Bill which we are now considering was introduced mainly, but not solely, with the object of adding to the revenue, and I will therefore take this opportunity of explaining the present state of the finances

"It will not be necessary for me to go into great detail, as the Financial Statement is published to day and a copy of it has been furnished to each Member of Your Excellency's Council, but for the purpose of obtaining a correct general view of our present financial position it will be well to go back a little and to briefly indicate the financial position of two years ago, when the Statement for 1887 88 was made

"Revised Estimates of 1888-89

"The Estimates of 1887 88 as originally framed in March, 1887, showed a surplus of Rx 16,700, representing practically a bare equilibrium of Revenue and Expenditure

"The trifling surplus shown in the Budget Estimate of 1887 88 has proved on closing the accounts of the year, to have become a deficit of Rx 2,028,832

"The deterioration in the financial position which led to this result manifested itself in the course of 1887 88, and steps were taken towards the close of the year to add to the revenue by the imposition of fresh taxation The measures adopted for this purpose were the following —

(1) the raising of the rate of the duty on salt from R2 to R2 8 a maund, with effect from the 19th January, 1888, except in Burma, where the rate was raised from 3 annas to R1 a maund,

(2) the imposition of a duty on the import of petroleum with effect from the same date, and

(3) the extension of the Income tax Act to Lower Burma, from 1888 89

"These measures were estimated to produce about Rx 1,900,000, but, as they were introduced in the end of 1887 88, they had but little effect on the Revenue of that year

"The full effect of the measures just referred to would be felt in 1888 89, and the Budget Estimates of that year, which is now about to close, showed a deficit of only Rx 698,000 after including in the expenditure of the year a sum of Rx 1,121,500 for Special Defence Works If the Expenditure on Special Defence Works had been excluded, the Estimates would have shown a surplus of Rx 423,500 The financial position has, I regret to say, been again affected injuriously by various influences during the progress of the year On the expenditure side we have had to allow for a considerable fall in Exchange In the Estimates the rupee was taken at 1 4 9, the rate actually received has been 1 4 ,8 a fall of more than a half penny per rupee, which adds Rx 684,400 to the expenditure of the year There has also been unforeseen expenditure, estimated at Rx 387,500, on Military Expeditions—being Rx 142,500 on the Black Mountain Expedition and Rx 210,000 on account of Sikkim, besides Rx 35 000 on account of the Lushai Expedition The Revenue Account has been affected by a reduction in the quantity of salt that has paid duty, and there have been short crops in some part of India—a condition which exercises an injurious effect on the revenue generally

"In face of these adverse circumstances it will be a surprise to most people to learn that, including expenditure on Special Defence Works, we now estimate for a deficit of Rx 201,700 as against the deficit of Rx 698,000 which was anticipated in the Financial Statement of March last and, if the cost of Special Defence Works be excluded, for a surplus of Rx 616,600 as against the previous estimate of Rx 423,500 Although the improvement is due in some respects to what may be termed accidental and temporary causes, yet, on the other hand, some of the influences which have adversely affected the finances of the year are of a precisely similar character, and the final result is not unsatisfactory

"I shall now explain the various causes which have tended to modify the Budget Estimates of 1888 89

'The Revenue of the current financial year 1888-89 was estimated in March last at Rx 80,010,500, it is now estimated at Rx 81,585,500, an improvement of Rx 1,575,000

"The Expenditure proper of 1888 89 was estimated at Rx 81,192,100 and the Provincial adjustment at *minus* Rx 483,600 giving a total charge against Revenue of Rx 80,708,500, the deficit being Rx 698,000 What is meant by a *minus* Provincial adjustment of Rx 483,600 is that the total Provincial Expenditure of the year was estimated to exceed the total Provincial Revenue by Rx 483,600, and this sum was consequently shown as a charge against the accumulated balances of former years, and not against current Provincial Revenue

"The Expenditure properly so called is now estimated at Rx 81,584,100, and the Provincial adjustment at *plus* Rx 203,100, giving a total charge against Revenue of Rx 81,787,200, being an increase over the former estimate of Rx 1,078,700 The increase of Revenue over the Estimate has exceeded the increase of Expenditure chargeable against that Revenue by Rx 496,300, and the estimated deficit has been reduced by that amount and now stands at Rx 201,700 instead of Rx 698,000

"*Revenue of 1888-89*

"The increase of Revenue for which we have to account is Rx 1,575,000, and it is due mainly to increases under the following heads —

	Rx
Receipts under Exchange	536 800
Railways	243 300
Interest	182 500
Forests	154 100
Land revenue	111 800
Post Office, Telegraph and Mint	109 100
Opium	107 000
Excise	96,200
Irrigation	80,200
Stamps	77 800
Assessed Taxes	56 800
TOTAL	1,755,600

"The total increase under these heads comes to Rx 1,755,600, and there are increases under other heads amounting in the aggregate to Rx 283,200, and making the total increase of Revenue under certain heads no less than Rx 2,038,800 On the other hand, there is a falling off of Revenue under certain heads amounting to Rx 463,800, of this sum the falling off under Salt accounts for no less than Rx 445,600, leaving Rx 18,200 as the total falling off under the remaining heads The net increase of Revenue, as already explained, is Rx 1,575,000

"In attempting to present an intelligible statement of a subject so extensive and complicated as the financial position of British India, more would be lost than gained by going into minute details and attempting to explain every petty fluctuation in Revenue and Expenditure due to ordinary causes I shall, therefore, confine myself to dealing with those variations in Revenue or Expen-

diture which are due to important or special causes, and which have had a perceptible influence on the financial results of the year

"The head under which the greatest increase of Revenue is anticipated is Exchange, and the increase is no less than Rx 5,6,800

"The receipts under Exchange arise from the net gain accruing to Government in consequence of certain remittance transactions being carried out by it, under contract or as concessions, at a rate of exchange different from the average rate obtained by the Secretary of State by the sale of bills and telegraphic transfers on India These receipts occur chiefly in connection with the contracts with Guaranteed and Subsidized Railways, with transactions with Her Majesty's Imperial Government with family remittances of officers serving in India, and with remittances for the purchase of stores through the Secretary of State for Local Bodies and Native States

"The very large amounts of revenue accruing in this way in the current and past years have been due almost entirely to the heavy transactions of the Subsidized Railway Companies Transactions are carried out at contract rates which are more favourable than the market rates, and a gain is made in this way which increases as the market rate falls below the contract rate Of course, this is not a source of gain to which we can permanently look forward, and we run the risk of loss when the reverse transaction takes place, as well as when the rate of exchange is rising instead of falling

"The large difference between the Budget and Revised Estimates of the current year under this head is due partly to the fall in the rate of exchange since the Budget Estimate was prepared, but mainly to no provision having been made in the Budget Estimate for the gain, now estimated at Rx 266,000, accruing from the payments made to the Railway Companies in England, as the question whether this should be treated as current revenue was under the consideration of the Secretary of State at the time the Estimates were prepared, and credit was not taken for it The gain accrued mainly in connection with transactions relating to the Indian Midland, the Bengal Nagpur, the Southern Mahratta and the various Guaranteed Railways

"Increased Railway receipts account for an improvement of Rx 243,300, and, as the receipts under this head are immately connected with the expenditure on working expenses and surplus profits of Guaranteed Companies, I propose to deal with both the Revenue and the Expenditure at the same time, thus anticipating to some extent what it would otherwise be necessary to say hereafter The improvement in Railway Revenue amounts to Rx 243,300, but there is an increase of Rx 393,300 in Expenditure (including Exchange), so that the net result in the Railway Account is a deterioration of Rx 150,000

"The following are the increases or decreases under the Revenue heads of the Railway Account —

	Increase + and Decrease − Rx
State Railways (gross receipts)	−500
Guaranteed Companies (net traffic receipts)	+247 500
Subsidized Companies (repayments of advances of interest)	−3,700
TOTAL	243 300

"The gross earnings of State Railways are almost the same as in the original Estimate, but there are considerable increases and decreases in the case of particular lines

"The main fluctuations are as follows —

	Increase Rx	Decrease Rx.
State Railways (gross receipts)—		
East Indian		250,000
North Western	150,000	
Rajputana Malwa	95,000	
Eastern Bengal	70,000	
Guaranteed Companies (net traffic receipts)—		
Great Indian Peninsula	270,000	

"The serious falling off on the East Indian Railway is ascribed to a variety of causes, amongst which may be enumerated the cessation of an abnormal traffic in the previous year caused by scarcity in the North-Western Provinces, a continued falling off in the traffic of wheat and grains from Upper India, certain writes back due to overcharges, and, possibly, a diversion of traffic consequent on the opening of the Indian Midland Railway

"On the other hand, the grain traffic of the North Western Railway, which fell off so much in the previous year, has revived to a great extent, the Rajputana-Malwa and Eastern Bengal Railways have both had prosperous years, the jute season having been extremely favourable for the latter Railway

"The total increase of expenditure in the Railway Account amounts to Rx 393,300, which is mainly due to the loss on sterling payments owing to the fall in Exchange

"The rupee expenditure in India has only increased by Rx 86,400, and the expenditure in England by only £37,100 (true sterling), but the conversion of the sterling payments on account of interest and annuities (which amount to £5,652,600 (true sterling)) into rupees at a lower rate of exchange than was taken in the Budget Estimate raises the total increase to no less than Rx 393,300

"It should also be explained that a more unfavourable exchange adds to the working expenses, under the head of Indian Expenditure, by increasing the rupee price of stores procured from England, though, owing to the system of accounting, this factor does not appear separately in the Accounts

"It is possible that up to the present this loss by the fall in exchange may have been to a great extent met by a corresponding fall in English prices, but with prices constant it is obvious that an unexpected fluctuation in exchange would have a considerable effect on working expenses

"The increased receipts under Interest appear in the Home Accounts, and are due to the Secretary of State having, as explained hereafter, raised the loan required for purchase of the Oudh and Rohilkhand Railway earlier than it was actually required This had the effect of placing a large cash balance at his disposal, most of which he was able to lend out temporarily at interest

"The increase of Revenue under Forests is Rx 154,100, but there is an increase of Expenditure on the other side of the Account amounting to Rx 39,700, and making the net improvement Rx 114,400 This increase is due mainly to increased receipts in Upper and Lower Burma The increase in Upper Burma is Rx 81,500, and includes a payment of Rx 37,700 by the Bombay Burma Trading Company on account of previous years The increase in Lower Burma amounts to Rx 84,700 The increased expenditure is mainly due to the payment of Rx 43,400 to the Trading Company just referred to in satisfaction of a claim against the late Government of Upper Burma, and of Rx 10,000 on account of expenditure incurred by the Company for guards owing to the disturbed state of the country

"In the Budget Estimate for 1888 89 the total Land-revenue, including the portion due to Irrigation, which is shown in the Estimates under the Irrigation head of account, was estimated at Rx 23,680,800 The Revised Estimate now shows a net increase of Rx 111,800

"Considering the magnitude of the Revenue under this head in the different Provinces, the various items of increase and decrease are of little importance, with the exception of increases of Rx 103,100 in Bombay, of Rx 78,500 in Madras and of Rx 36,200 in Upper Burma, and a decrease of Rx 71,500 in Lower Burma The decrease in Lower Burma is due entirely to the postponement of the date of the Land-revenue demand in two districts, which transfers Rx 87,000 from 1888 89 to 1889 90 The increase in Bombay is stated to be due to prompt realisation of the demand, that in Madras is due to land newly brought under cultivation having raised the demand of the year and to expected advance collections, and in Upper Burma to growing receipts in that Province as order is established The decrease in Bengal and the North-Western Provinces reflects the influence of an unfavourable season and poor crops in some places

"The increase of Revenue under the group which comprises Post Office, Telegraph and Mint is made up as follows —

	Rx
Post Office	49 800
Telegraph	33 400
Mint	25,900
TOTAL	109 100

"The increased revenue of the Post Office is due to the steady growth of the Department, the receipts of the Telegraph Department have increased from a similar cause and from the extension of private lines, while the increased revenue of the Mint is due to a larger amount of copper coin passing into circulation than was taken credit for in the Estimates

"The increase of Rx 107,000 in receipts from Opium is entirely due to the rise in the price of the Bengal drug The increased revenue from this source alone has been Rx 444 600, against which has to be set a reduction of Rx 333,000 in duty on exports of Malwa Opium and a small falling off of Rx 4,600 under other heads The average price of Bengal Opium has been R1,120 a chest, as against an estimate of R1,042 In the Budget Estimate it was anticipated that duty would be paid on 35,350 chests of Malwa Opium It is now expected that duty will be paid on only 30,300 chests The rise in the price of the Bengal drug, and the reduced exports of Malwa, appear to have been due to short crops both in China and Malwa

"The increase of Rx 56,800 in Assessed Taxes is mainly due to the following changes In the "India" Account an increase of Rx 23,100 chiefly in interest on Government securities, in Bengal Rx 5,000 due to revision of assessments and realization of arrears in Madras Rx 10,000 from revision of assessments, and in Bombay Rx 9,200

"The year 1887 88 was the second in which the Income tax of 1886 was in operation, and it may be of interest if I state here that the smoother working of the administrative machinery is indicated by the reduction in the number of objections from 100,428 to 72,571, in the amount refunded from Rx 27,067 to Rx 19,949, and in the cost of collection from Rx 50,'57 to Rx 28,679 The net collections amounted to Rx 1,382,808, and exceeded those of the previous year by Rx 105,297

"The estimated falling off in the Salt revenue is Rx 445,600, and it is due to a reduction in the quantity of salt on which duty was paid The question of the causes which have brought about this reduction is of importance, because it has followed the increase of duty which took place towards the close of last year I shall deal specially with this matter hereafter Further details of the less important variations in the revenue of the year will be found in the Financial Statement and I need not repeat them here

"*Expenditure of 1888 89*

"Turning to the Expenditure side of the Account, we find a total increase in Expenditure proper of Rx 392,000, as well as an alteration in the Provincial adjustment of Rx 686,700, the result appearing as an increase on the whole Account of Rx 1,078,700

"It will be convenient, in the first place, to divide the total increase of Expenditure into its three component parts of (1) rupee expenditure in India, (2) sterling expenditure in England, and (3) exchange

"In the Indian or rupee expenditure there has been an increase of Rx 298,800 in Imperial expenditure and a reduction of Rx 254,400 in Provincial expenditure In the English or sterling expenditure there is a decrease of £168,400 (true sterling), and, notwithstanding this reduction in the gold payments, an increased charge on account of Exchange of no less than Rx 606,000 If the sterling expenditure had equalled the Estimate, the increased charge for Exchange would have been Rx 684,400 This increased charge on account of Exchange is due of course to the Budget Estimates

having been calculated in March last at an exchange of 1*s* 4 9*d* per rupee, while in the Revised Estimate we have only been able to take 1*s* 4 38*d*

"The principal heads under which increases of expenditure have occurred are the following —

	Increase Rx
Army	402,500
Railway Revenue Account	393,300
Interest on debt	189 100
Opium	93 800
Superannuation Allowances and Pensions	88,800
Political	51 800
Irrigation	48 500
Forests	39 700
TOTAL	1,307,500

"The aggregate increase under these heads comes to Rx 1,307,500 Minor increases under other heads come to Rx 166,700, making a total increase of Rx 1,474,200 Against this figure must be set decreases amounting to Rx 1,082,200, of which the following are the most important —

	Decrease Rx
Special Defence Works	303 200
Civil Works	221,600
Land Revenue	145 200
Stationery and Printing	71,000
TOTAL	741 000

"The explanations of the increased expenditure under the Railway Revenue Account and Forests have already been given

"The increased cost under Army is accounted for by an increase of Rx 210,000 in India, of £16,000 (true sterling) in England, and of Rx 176,500 for Exchange The increase in India is due to the Sikkim, Black Mountain and Lushai Expeditions already mentioned, to the rupee payments to British troops having been increased by the fall in the rate of exchange, and to the introduction of the practice of fixing the rate of exchange for the issue of pay to British troops serving in India for the half year only, instead of for the whole year, and to higher expenditure on account of dearness of provisions and forage (including compensation paid to Native troops on this account) These increases were balanced to some extent by considerable savings in Military expenditure in Burma

"The increased charge of Rx 189,100 on account of Interest on debt is made up of an increase of £68,100 (true sterling) in England, and a decrease of Rx 27,400 in India, *plus* an increase of the charge for Exchange amounting to Rx 148,400 The increase in the English sterling payment is due to the loan for the purchase of the Oudh and Rohilkhand Railway having been raised before it was actually required There is a corresponding receipt owing to the Secretary of State having been able to lend a portion of his surplus balance

"The increase in the charge for Opium is due to a larger crop than was anticipated, and the increase under Superannuation Allowances and Pensions of Rx 88,800 is due, to the extent of Rx 72 800, simply to the increased exchange on the sterling payments made in England

"The increased Political charge of Rx 51,800 is chiefly due to the payment of arrears of the subsidy of the Amir of Afghanistan, as well as to an advance payment on the same account of Rx 20,000

"The increase in expenditure under Irrigation is the net result of a great many variations, amongst which may be mentioned a heavy increase in the Punjab (Rx 26,300) to repair damages by flood, and the classification of the Khushdil Khan Reservoir (Rx 26,124) in Biluchistan as a work to be constructed from Revenues instead of from Loan Funds, as was originally intended

"The decrease of Rx 303,200 in the estimated expenditure on Special Defence Works is mainly due to a decrease in the estimated expenditure in England of £186,300 (true sterling) caused by the fact that payments for heavy guns for arming the Indian defences were not made as rapidly as was expected

"The decrease in the expenditure on collection of Land revenue is distributed over the several Provinces

"The alteration in the Provincial adjustment arises in the following manner —

"The original Estimate of Provincial Revenue was Rx 21,668,100, and of Expenditure Rx 22,151,700, giving a Provincial deficit of Rx 483,600, which represents the Provincial adjustment of the Budget Estimate of 1888 89

"The Provincial Revenue of the year is now taken at Rx 22,100,400, and the Provincial Expenditure at Rx 21,897,300, giving a surplus on Provincial Account of Rx 203,100, which represents the Provincial adjustment of the Revised Estimate As already stated, the net result of the transactions of the whole year is that the deficit of Rx 698,000 estimated exactly a year ago now promises to be reduced to a deficit of Rx 201,700

Estimates of 1889-90.

"The financial problems and difficulties of 1888-89 will soon be a matter of history The all important question of to day is the financial position of the coming year

"The Revenue of the coming year 1889 90 is estimated at Rx 82,935,300, and the total Expenditure at Rx 83,469,800

"The Provincial adjustment for the year is estimated at *minus* Rx 640,800, and consequently the expenditure chargeable against the Revenue of the year is Rx 82,829 000 and the estimated surplus is Rx 106,300 This surplus is obtained after including in the expenditure of the year a sum of Rx 1,102,900 on account of the cost of Special Defence Works Exchange has been taken at *1s* 4 38*d* = 1 rupee

"A comparison of the Budget Estimates of 1889 90 under the different heads with the Budget Estimates of 1888 89 will show the progress of Revenue and Expenditure during the year which is now drawing to a close

"Before, however, proceeding with this comparison, it is necessary to give some explanation of a special arrangement which has had a considerable influence on the Estimates of the coming year It was explained in the Financial Statement for 1887 88 that the Provincial Contracts had been renewed with Local Governments for a further period of five years from 1st April, 1887 The average annual gain to Imperial Revenues during the period of revision was stated to be Rx 550,000, in addition to which a greater share in the improvement of the revenue was secured under the new arrangements I have already explained that the continued fall in exchange and other causes compelled the Government to raise the duty on salt and to impose a tax on imported petroleum The Secretary of State, in sanctioning this additional taxation, examined and reviewed the financial relations between the Imperial and Provincial Governments, and pointed out the inequality of the existing arrangements which secure freedom from financial difficulties to Local Governments while the Supreme Government may be passing through a phase of acute embarrassment The Government of India was requested to reconsider the propriety of arrangements which protected Local Governments from sharing in the financial responsibilities of the Empire, and from contributing to their relief

"Proposals for an alteration in the financial relations between the Supreme and Local Governments, which virtually had the effect of terminating the Provincial Contracts of 1887 88, were made on 2nd October last These proposals met with much opposition, and it was decided to postpone decision on the questions involved It was, however, settled as a temporary expedient that each Local Government, except the Punjab, should make a contribution in aid of Imperial Revenues in 1889-90 The total of this contribution is Rx 740,000, and, with scarcely an exception, Provincial resources are so ample that the contribution has been made without seriously affecting the financial position of any of the Local Governments

"The contributions made by the several Local Governments are as follows —

	Rx
Central Provinces	30,000
Burma	50 000
Assam	10,000
Bengal	100,000
North Western Provinces	200 000
Madras	175,000
Bombay	175,000
TOTAL	740,000

'In the case of the North Western Provinces and Oudh and Lower Burma the contributions will be permanent In the former case the Local Government will be reimbursed its contribution by receiving the proceeds of the Patwari cess now about to be re-imposed, in the case of Lower Burma the financial position of the Province has so far improved in recent years that a special annual grant of Rx 47,900, made to it in 1887 88, has been simply resumed

"The important and difficult question of the nature of the future financial relations between the Supreme and Local Governments remains for future consideration

"*Revenue of 1889 90*

"The Revenue of the year 1888 89 was estimated in March last at Rx 80,010,500, and the Revenue of 1889 90 is now estimated at Rx 82,935,300 The increase is Rx 2,924,800

"The following are the principal heads under which the increase occurs —

	Increase Rx
Railway Account	1,501,800
Land revenue	301,200
Provincial Rates	244 700
Post Office, Telegraph and Mint	197,400
Irrigation	130,600
Excise	117,800
Receipts under Exchange	112,300
Stamps	105,100
Forest	98 000
Assessed Taxes	63 500
Customs	49 300
TOTAL	2 921,700

"The total increase under the heads just specified comes to Rx 2,921,700, leaving a balance of Rx 3,100 unaccounted for, which is the net result of variations under other heads of which the most important are a decrease of Rx 193,900 under Opium, and of Rx 92,600 under Salt

"In the Budget Estimate of 1888 89 the receipts from Railways were estimated at Rx 15,184,700 For 1889-90 they are estimated at Rx 16,686,500, giving the increase of Rx 1,501,800 If we consider the expenditure side of the Account, however, we find that the estimated expenditure of Rx 17,299,600 in 1888 89 has risen to Rx 18,713,100 in 1889 90, showing an increase of Rx 1,413,500, the net improvement in the Railway Revenue Account is, therefore, only Rx 88,300

"The variations in receipts of the Railway Account fall under the following heads —

	Increase+ Decrease— Rx
State Railways (gross receipts)	+1 362,600
Guaranteed Companies (net traffic receipts)	+155,000
Subsidized Companies (repayment of advances of interest)	−15,800
TOTAL	Rx 1,501,800

"The increased receipts of State Railways shown in the above figures are not altogether real, as they are exaggerated by the transfer of the Oudh and Rohilkhand Railway to this head from that of Guaranteed Railways The line was purchased by the State on 1st January, 1889, so that the transactions relating to it, which were entered in the Budget of 1888 89 for nine months under Guaranteed Railways and for three months under State Railways, now appear in the Budget for 1889 90 wholly in the latter category

"The principal increases and decreases of receipts occur in connection with the following lines —

STATE	Increase+ Decrease— Rx
East Indian Railway	—240,000
Rajputana Malwa	+ 100,000
Bengal Nagpur	+ 95,000
Tounghoo Mandalay	+ 85 000
Eastern Bengal System	+ 90 000
Oudh and Rohilkhand	+ 550,000
Indian Midland	+ 400 000
North Western Railway	+ 200 000
Mysore Railway	+ 54,600
TOTAL	1 334 600

GUARANTEED	(Net Receipts) Rx
Madras	20,000
South Indian	40 000
Bombay Baroda	15,000
Great Indian Peninsula	310,000
Oudh and Rohilkhand	—230,000
TOTAL	+ 155 000

"The cause of the increase and decrease in the case of the Oudh and Rohilkhand line has been explained In the case of the Indian Midland, Bengal Nagpur, Tounghoo Mandalay and Mysore Railways it is due to the opening of additional lengths of line

"On the remaining lines noticed, the estimate has been fixed principally on a consideration of the current year's results The very serious falling off on the East Indian Railway has been explained in dealing with the Revised Estimate The opening of the Indian Midland will probably still further affect the receipts, but to what extent it is impossible to foretell

"The falling off is fortunately more than covered by the increase on the Great Indian Peninsula line The estimated gross receipts of this line show an anticipated increase of Rx 400,000 over the Budget of the year about to close, the estimate is based on the traffic of the past twelve months, which has shown a steady improvement, likely not only to be maintained but to be still further augmented by the opening of the Indian Midland and Bengal-Nagpur Railways The opening of the Indian Midland may, on the other hand, tend to reduce the earnings of the Rajputana Malwa and Bombay-Baroda lines, so that there is considerable uncertainty in framing the Estimates this year of individual lines taken as a whole, the estimate is likely to prove a fairly correct one

"Turning to the Expenditure side of the Railway Account, it will be found that there has been an increase of Rx 1,177,900 in the Indian or rupee portion of the transactions, a decrease of £11,600 (true sterling) in the English expenditure, and an increased charge of Rx 247,200 on account of exchange

"The increase in working expenses of State Railways is mainly due to the Oudh and Rohilkhand Railway being treated as a State line for the whole year, to the opening out of new lines, and to increase of traffic on lines already open

"An item appears for the first time in the Estimates, namely, "Interest chargeable against Companies for advances of Capital" It represents interest on moneys raised directly by the Secretary of State, under the provisions of the Oudh and Rohilkhand Railway Purchase Act, to meet expenditure incurred by

Companies in preference to allowing Companies to borrow themselves It is found that Capital can be raised on more favourable terms in this way

"The increase in the charge against Revenue for Exchange is wholly due to the fall in value of the rupee, the estimated sterling expenditure, other than on account of Revenue stores, being actually less than in the current year, in addition to the amount shown on this account, a large sum representing a further loss, is concealed in the working expenses, as I have already explained

"Considering the very heavy increased burdens on account of the fall in exchange, and bearing also in mind the fact that in recent years a very large amount of Capital has been expended on lines for the defence of the Frontier, which cannot be expected to prove fully remunerative, a net improvement, though only of Rx 88,300, cannot be considered unsatisfactory

"The rapidity with which the construction of Railways has been pushed on and the fall in exchange have had an injurious influence on the net results of the Railway Revenue Account in recent years

"The net loss on the Railway Account has increased from Rx 1,044,203 in 1880-81 to Rx 2,026,600 in the Estimates of 1889 90

"Between March, 1880, and March, 1889, the number of miles of Railway open for traffic has increased from 8,382 to 13,671, or by more than 63 per cent

"The average yearly expenditure of capital on Railways for the interest on which Government is directly or indirectly responsible has been Rx 7,197,000

"Land revenue (including the portion due to Irrigation) is estimated to increase by Rx 340,300, distributed over the several Provinces

"Provincial rates are estimated to increase by Rx 244,700, due mainly to the receipts expected from the re imposition of the Patwari-cess The Revenue classed under this head is appropriated to local purposes and shown in the Local column in the Estimates

"The receipts under Irrigation are expected to increase by Rx 1,30,600, but there is an increased charge of Rx 32,400, giving a net improvement of Rx 98,200

"The increase in Revenue is due to increase of direct receipts from Irrigation in the North-Western Provinces and the Punjab and to an increase in the Land revenue due to Irrigation in Madras and Bombay The increased expenditure is chiefly due to increase in the charge for interest owing to additional capital expenditure

"Post Office, Telegraph and Mint —The net account of these Departments is expected to improve as follows —

	Improvement Rx
Post Office	+ 63,300
Telegraph	+ 26 400
Mint	+ 21,600
TOTAL	+111,300

'The improvement in the case of the Post Office is due to steady progress of the Department The figures just given do not profess to be the result of a strict Profit and Loss Account of the working of the Departments concerned They represent merely the difference between the Revenue and Expenditure as recorded in the Accounts and Estimates, but they are sufficient for the purpose of indicating the financial progress of the Departments

"The increase of Rx 117 800 in the case of Excise and of Rx 105,100 in the case of Stamps is generally distributed over the several Provinces with the exception of Bengal, where a decrease of Rx 50 000 in Excise revenue is anticipated on the ground that the unfavourable crops and the changes which are being introduced in the management of the Excise may have an unfavourable effect on the Revenue for a time

"The increase in Customs (Rx 49,300) is mainly due to large exports of rice anticipated from Burma in 1889 90

"The Petroleum tax when it was first imposed was expected to give a Revenue of Rx 100,000 on a total import of 32,000,000 gallons It is expected to give in the current year a Revenue of Rx 115,000 on an import of 38,000,000 gallons, and for 1889 90 it is expected to give Rx 120,000

"I have already explained the nature of the Receipts under Exchange In the Budget Estimate of 1888 89 these Receipts were estimated at Rx 415,000, in the Revised Estimate for that year the figure has been raised to Rx 951,800, due largely to the addition of a credit, now estimated at Rx 266,000, which was not included in the original Estimate owing to a difference of opinion as to the proper method of dealing with it in the Accounts The estimate of these receipts in 1889 90 is Rx 527,300 The large decrease as compared with the Revised Estimate is due to reduced capital expenditure on some of the Subsidized Railways now approaching completion

"In the case of Forests the improvement expected in Revenue is Rx 98,000, against which must be set an increase of expenditure amounting to Rx 30,700, giving a net improvement of Rx 67,300 This improvement is due to increased Revenue in Upper and Lower Burma

"Under Assessed Taxes the increase of Revenue is expected to be Rx 63,500 The expectation of an increase is based on the results of the current year

"The decrease of Rx 193,900 under Opium is due to an increase of Rx 159,600 under Bengal opium, the selling price having been taken at ₹ 1,070 instead of ₹ 1,042 as in the current year's Estimates, and to a decrease of Rx 347,000 under Malwa Opium, owing to an expected reduction in the number of chests exported from 35,350 to 30,000

"For Salt we have taken a moderate estimate of Rx 8 029,900, which is Rx 353,000 more than the Revised Estimate and Rx 92,600 less than the Budget Estimate for the current year A large increase over the receipts of the current year is expected, as the falling off this year is mainly due to unfounded rumours of an immediate reduction of the duty

This concludes what I have to say on the Estimates of Revenue for 1889 90, and I now turn to the question of Expenditure

"*Expenditure of 1889-90*

"The Expenditure of 1889 90 is estimated at Rx 83 469,800 as compared with an estimated expenditure of Rx 81,192,100 for 1888 89, showing an increase of Rx 2,277,700

"The Provincial Adjustment is *minus* Rx 640,800 as against an adjustment of *minus* Rx 483,600 in the Estimates of 1888 89

"The increase of Rx 2,277,700 is made up of an increase of Rx 1,651,500 in the rupee portion of the Account, of a decrease of £39,700 (true sterling) in the Home Account, and of an increase of Rx 665,900 in Exchange The increase in Exchange of Rx 665,900 is almost entirely due to the fall in the value of the rupee, the alteration in the rate of exchange for converting the pay of the British troops, which is fixed in gold but payable in rupees, adds an adititional charge to the Military expenditure of about Rx 195,000, so that the additional expenditure for which the Government of India has to provide has been increased in one year by Rx 860,900 on account of the fall in Exchange, excluding the effect which the fall in exchange may have had on the rupee cost of stores

"It will facilitate explanation of the various increases or decreases if the heads of expenditure are dealt with in the first instance according to the grouping which is generally adopted in the Accounts

"The figures I am about to quote show the groups under which (I) increases and (II) decreases have occurred —

I	Expenditure Increased
	Rx
Railway Revenue Account	1,413,500
Army	1,005,700
Salaries and Expenses of Civil Departments	192 900
Post Office, Telegraph and Mint	86,100
Irrigation	32,400
Famine Relief and Insurance	27,300
TOTAL	2,757,900

II

	Expenditure Decreased Rx
Interest	149,800
Direct Demands on the Revenue	133,000
Buildings and Roads	110,500
Miscellaneous Civil Charges	34,700
Construction of Railways (charged against Revenue)	33,600
Special Defence Works	18,600
TOTAL	480 200

"The aggregate of increases is Rx 2,757,900 and of decreases Rx 480,200, giving a net increase of Rx 2,277,700

"The causes of the increase under Railway Revenue Account, Post Office, Telegraph and Mint, and Irrigation have already been explained

"By far the most important of the other increases is that under Army The total increase of Rx 1,005,700 is made up of an increase in rupee expenditure of Rx 477,000, in English expenditure of £245,500 (true sterling), and of Rx 283,200 under Exchange The increased charge for Exchange is chiefly due to the fall in the value of the rupee, and the increases of which special explanation is necessary are an increase in the Indian Estimates of Rx 477,000, and in increase in the English Estimates of £245,500 (true sterling)

"Taking the latter item first it may be said with practical accuracy that the increase in the Home Expenditure is due to provision made for the purchase of magazine rifles and 12-pounder breech loading guns However much the Government of India may regret that it should be necessary to incur such expenditure, it is not possible to avoid it without placing the Indian Army in a position of inferiority as compared with that of other countries The cost of these rifles and guns accounts for £206,000 (true sterling) of the Home expenditure

"As regards the increased cost of the Army in India, it will be obvious that the increase to the number of troops, European and Native, must give rise to petty increases in the various Departments that deal with them, and minor reforms account in the aggregate for a perceptible amount of increase But the greater portion of the increase is due to special measures, of which the most important are the following —

	Rx
Provision for rapid mobilisation of an Army Corps in case of necessity	203,500
Exchange on pay of British Troops	195,000
Provision on account of Troops in Sikkim	100,000
Ditto ditto Lushai Country	10,000
Increased cost of provisions, including compensation for dearness of provisions and forage	79,500

"The total comes to Rx 588,000, but there is a saving of Rx 220,000 in the extra cost of troops in Burma, so that the additional cost is reduced to Rx 368,000 The difference of Rx 109,000 between this figure and the total increase in India of Rx 477,000 is due to the minor elements of increase to which I have just referred, balanced to some extent by savings under other heads

"The sum of Rx 203,500 on account of mobilisation is intended to meet the cost of purchasing transport animals, provisions and equipments, so that in case of need an Army Corps may be in a position to take the field promptly This is one of these precautions which in the present days of scientific warfare cannot safely be neglected The greater portion of the cost will be incurred once for all and will not recur The pay of the British troops is fixed in sterling, and as the Exchange falls the number of rupees which they are entitled to receive increases In the Estimate of 1888 89 the rate was taken at 1s 5⅞d, it has now been fixed at a much lower rate, and the change has added Rx 195,000 to the estimate of expenditure for 1889 90 We have hopes that this charge may be somewhat reduced but in the meantime it has been thought necessary to provide the full sum in the estimates

"The increased expenditure on Salaries and Expenses of Civil Departments is mainly due to the entertainment of additional Police The increase of expenditure on Police is Rx 168,800, and of this Rx 125,600 is on account of Police in Upper Burma There is also an increase of Rx 45,200 in Bengal, due to Government undertaking to bear the whole cost of the Police of the presidency town There is some increase in Madras, due to a provision for giving a special allowance to officers in charge of police stations

"The decrease of Rx 149,800 under Interest is made up of a decrease of Rx 21,300 in the rupee portion of the Account, of a decrease of £167,400 (true sterling) in the English Account, and an increase of Rx 38,900 in the charge for Exchange

"The decrease in England in 1889 90 is accounted for by the conversion of £53,262,000 of 4 per cent stock into 3½ per cent stock, which reduces the yearly interest charge by £266,300 The increase in Exchange requires no explanation

"The decrease under 'Direct Demands on the Revenues' is Rx 133,000 It occurs under Opium cultivation and manufacture (Rx 190,400), Collection of Land revenue (Rx 55,000), and Stamps (Rx 40,700) The other heads in this group, except Customs, show increases The expenditure on Opium cultivation and manufacture is determined by the amount of crude opium produced The area under cultivation in the present season is 14 per cent less than last year, and the produce is estimated at 15 per cent less Our reserve is unusually large and is expected to stand at 49,705 chests at the end of 1889 With a reserve of this magnitude it is obviously desirable to temporarily contract production, and this policy has been adopted in making the engagements for the present season

"The reduction under Buildings and Roads of Rx 110,500 is due to a reduction of Rx 110,600 in Civil Works Of the decrease under Civil Works, Rx 96 200 is in Imperial expenditure, and is owing to the completion of the bulk of the Frontier Roads and other Imperial works On the other hand, a large Imperial grant (Rx 298,100) is still being made for Civil Buildings and Roads in Upper Burma

"The reduction in Miscellaneous Civil Charges is the net result of a number of increases and decreases, of which the most important are an increase of Rx 118,000 on account of Superannuation Allowances and Pensions and decreases of Rx 47,500, Rx 81,000 and Rx 40,000 under Territorial and Political Pensons, Stationery and Printing, and Miscellaneous

"The increase in Superannuation Allowances is very largely due to the increase of Exchange on sterling pensions, the decrease in Political Pensions to the death of the ex King of Oudh, and the decrease under Stationery and Printing to a reduced demand for stores from England

"In the Budget Estimates of 1888 89 Provincial Revenues were estimated to yield Rx 21,663,100, and Provincial Expenditure was taken at Rx 22,151,700, the Provincial Adjustment being *minus* Rx 483,600

"In the Estimate for 1889 90 Provincial Revenues are taken at Rx 21,781,300, and Provincial Expenditure at Rx 22,422,100, and the Provincial Adjustment is *minus* Rx 640,800

"General Financial Position

"Having now explained the Estimates of Revenue and Expenditure for 1889 90, I propose to make a few remarks on the general financial position and the prospects of the future The special difficulties with which Indian finance has to contend are, War, Famine, the fall in Exchange and the reduction of the Revenue from Opium. On the question of War I can say little, petty frontier wars are almost certain to occur at intervals, but their cost is not such as to seriously embarrass the finances I am not aware of any reasons for thinking that War on a large scale is likely to occur in the immediate future, but expenditure must be incurred as an insurance against national danger The country has happily escaped Famine for a decade, but we have no ground for assuming that the climatic conditions of the Indian continent have changed and that there will never be drought sufficient to produce famine.

"Regarding the future of Exchange, it is impossible to give a confident opinion Before the year 1873 gold and silver were never used as legal standards without the regulating influence of a system of double legal tender, and there is consequently no experience in the past to which we can appeal in forming our opinion as to the probable course of events in the future The sanguine declare the rupee will soon be worth two shillings, the despondent anticipate a further fall of undefined magnitude

"I cannot pretend to arbitrate between these conflicting views But during the last fifteen years the great falls in the value of the rupee have coincided to an extent, which can hardly be the result of accident, with corresponding falls in the gold prices of commodities If this law should hold good in the future, the gold value of the rupee will not again fall largely and suddenly unless the gold prices of commodities fall

"I will venture to depart so far from the safe attitude of reserve as to say that, if there is another heavy fall in gold prices, it will probably be accompanied by another heavy fall in the gold price of silver At present gold prices have ceased to fall, and there is even a slight tendency to a rise

"It is needless to say that the question of the future relations between the gold and silver standards is one of great importance for India The present condition is not one of permanent equilibrium Either there will be continuous progress in the direction of demonetising silver and substituting gold, or the world will revert to the old system of double legal tender In the former case our financial difficulties will probably be greater in the future than they have been in the past, and it is impossible to forecast the ultimate result, in the latter case we may have to pass through a severe convulsion caused by foreign nations attempting to restore the old ratio of 1 to 15½ between gold and silver If we are unable to join with them in attempting to settle the question by international agreement, we cannot expect them to consider our interests in any course which they may think fit to adopt

"In the interests of India a sudden reversion to the old ratio of 1 to 15½ brought about by the action of foreign countries, and the continuous and progressive demonetisation of silver, accompanied with a fall in the value of the rupee to an unknown and unlimited extent, are alike to be deprecated Yet, if the question is not dealt with by international agreement, we must accept the risks and inconveniences of either the one result or the other, unless we are prepared to choose the heroic and hazardous remedy of adopting a gold standard Nor is it possible for us to conjecture at what time the action of the United States and the continental nations of Europe may bring on a crisis either of the one kind or the other

"For these reasons it is of paramount importance to India that an attempt to settle the question by international agreement should be made No other course affords a prospect of a safe solution to be gradually carried out with the minimum of disturbance to existing interests It is to be hoped that, if any prospect of a settlement appears, India shall not be required to subordinate her interests to the needs, or supposed needs, of countries which may desire to maintain the single gold standard

"The future of the Opium revenue is surrounded with almost as much uncertainty as the question of Exchange There has been, during the current financial year, a considerable rise in the price of the Bengal drug, but that rise appears to have been due, in a very large degree, to poor crops in Malwa and China, and has been accompanied with a large falling off in the exports of Malwa Opium

"Already the price of Bengal Opium has fallen from its highest figure of R1,244 a chest in November to R1,126 a chest at the sales of the present month

"The dangers I have just indicated are of a general nature We must also anticipate some falling off in revenue in the immediate future from two special causes As I have explained elsewhere, we expect to receive in the coming year a contribution of Rx 740,000 from Local Governments Of this amount Rx 250,000 is permanent, being made up of Rx 200,000 from the Patwari cess and about Rx 50,000 from Lower Burma The balance of Rx. 490,000 we receive for a single year only, and, unless other arrangements can be made, we must be prepared to accept a reduction of Rx 490,000

in the Estimates of 1890-91 There is also a credit of Rx 527,300 arising from receipts on account of exchange on the capital transactions of Railway Companies This credit must soon disappear with a corresponding reduction in revenue It may then be said that temporary causes give us an additional revenue of Rx 1,017 300 in 1889-90, which is not permanent, and which will be largely reduced in future years and will ultimately disappear altogether

"But I should give a very erroneous opinion of our position if I were to dwell only on the difficulties and dangers of the future There are hopeful as well as discouraging elements, and I may say at once that in my judgment there are no grounds for a despairing or pessimist view of Indian finance If we could get rid of the exchange difficulty, I should be prepared to adopt a hopeful view of the future, and, if there were in addition no risk of a great war, I should look forward to our progress in coming years with as much confidence as it is ever safe to feel in financial matters

"Among the more encouraging features in Indian finance is the elasticity of the ordinary revenue It is true that we have not many new sources of revenue open to us, but the receipts from existing sources grow with satisfactory rapidity The figures which I have given in comparing the Budget Estimates of 1888 89 with the Budget Estimates of 1889 90 have made this point sufficiently clear, and I need not add anything more on the subject

"In Upper Burma, too, we appear to have turned the corner and may now look forward to steady reduction of the net charge which that Province imposes on the finances

"The account for Upper Burma in the Estimates of 1888 89 showed a net charge of Rx 1,875,000

"In the Estimates of 1889 90 the net charge is Rx 1,625,300, a reduction of Rx 249,700

"A net improvement of Rx 249,700 in a single year is an encouraging symptom, especially as there is every ground for supposing that the improvement will continue The improvement is really greater by Rx 77,800 as the account now presented includes a net charge of Rx 77,800 on account of railways, which does not appear in the Estimates of 1888 89

"It should also be recollected that in recent years we have had to bear the burden of a considerable increase to the Native and European Army That increase has been completed and its cost provided for, with the exception of the expenditure on the Reserve for the Native Army, which will not be great

"Heavy expenditure has also been incurred on Frontier Railways The total estimated cost of these Railways is Rx 13,410,700, of which Rx 10,053,300 will have been met at the end of this month and Rx 1,191,800 is provided for in the Estimates of 1889 90, leaving only Rx 2,135,600 for future years

"We have also been carrying out an extensive scheme of Coast and Frontier Defences, estimated to cost Rx 5,449,515 (which is charged against Revenue), of which Rx 1,850,768 will have been expended by the end of this year, and Rx 1,102,900 is provided for in the Estimates of the coming year, leaving Rx 2,495,847 to be incurred in subsequent years There are also special charges in the Estimates for next year of Rx 314,500 for the Sikkim and Lushai Expeditions, and for thoroughly equipping at least one army corps with transport, and of Rx 301,800 on account of magazine rifles and 12 pounder breech-loading guns The former charge will not recur, and, though considerable expenditure may be necessary for a time on account of rifles and guns, the charge is not a permanent one

"It would be rash to assume that we are able to foresee the end of all special military expenditure In such matters there is no finality, new dangers may arise involving further preparations and additional expenditure, but the figures I have given are sufficient to show that the sacrifices which the country has been called on to make in recent years have not been in vain, that the original programme of military defences is approaching completion, and that there is at least some prospect of an alleviation of existing burdens

"The improvement of means of communication by the opening out of Railways is exercising a marked beneficial influence on the country, and India is

entering on what I hope may prove to be but the beginning of a prosperous industrial career No better example of the change that is taking place can be found than the progress of the cotton spinning industries

"In 1880 81 there were 13,307 looms and 1 470,830 spindles at work, employing 39,537 people In 1887 88 there are no less than 18,840 looms and 2,375,739 spindles and 80,515 people at work

"The exports of Indian yarn and cotton cloth were valued at Rx 1,909,134 in 1880 81 In 1887 88 they came to Rx 5,227,928, and the returns of the current year show still further progress

"These are results of which India may well be proud, they have been achieved without the fostering aid of Protective Tariffs or any special assistance from Government, and are due to the patient industry and intelligence of the Indian people, and to the enterprise of her capitalists, who have begun to avail themselves of the natural advantages of the country, under these circumstances it may confidently be anticipated that the ground that has been occupied will be maintained, and that still greater progress will be made in the future

"Nor does there seem to be any good reason why India should not shortly undertake the manufacture of iron on a large scale with success

"I have tried to state fairly both the probable difficulties of the future, and the reasons that exist for holding that we shall be able to encounter them successfully, and my deliberate conclusion is that, while there is every need for economy and for husbanding our revenue, there is no ground for desponding or pessimist views Unless some unforeseen disaster occurs, there is every reason to hope that the lapse of two or three years will show a decided improvement in the financial position of the Government of India It is true that the surplus which we have been able to show in the Estimates of the coming year is little more than nominal, only Rx 106 300, but the Estimates have been framed with great moderation, and, if the Indian revenues continue to exhibit their usual elasticity and no unforeseen disaster occurs, I anticipate that the Financial Statement of 1890 91 will show decided improvement

"Falling off in the Revenue from Salt

"As a preliminary step in dealing with the question of the causes of the falling off in the Salt revenue during the current year, I wish to point out that the quantity of salt paying duty in any year is not a perfect test of the quantity of salt actually consumed in that year by the people There is always a large amount of salt in the hands of dealers, and a falling off in any one year in the quantity of salt paying duty may represent a reduction in the quantity of salt in the hands of dealers, and not a reduction in the quantity of salt actually consumed

"It will be convenient to treat Burma separately from the rest of India, as that Province has been subject to special conditions

"In 1884 85 the recorded consumption that is, the quantity of salt on which duty was paid, increased by 2,010 000 maunds, or 6 8 per cent

"In 1885 86 there was a falling off of 742,000 maunds, or nearly 2 4 per cent

"There is no ground for assuming that in 1884-85 there was anything approaching to an increase of 6 8 per cent in the quantity of salt actually consumed by the population, and there is just as little ground for supposing that in 1885 86 there was a falling-off in the real consumption of 2 4 per cent

"These variations were due entirely, or almost entirely, to trade fluctuations, and the actual consumption of salt in 1884 85 per head of population was probably not, in any considerable degree, higher than in 1883 84, and was not lower in 1885-86 than in 1884 85 I state these figures in order to show that an increase or decrease in the quantity of salt that pays duty in any one year does not necessarily indicate a corresponding increase or decrease in the quantity actually consumed

"Opinions vary as to the effect on the real consumption of a rise of duty Some authorities hold that it has very little effect, others that it has a considerable effect Experience seems to show that the truth lies between the two opinions, and that a rise in the rate of duty has an appreciable, but not a very great, effect on the real consumption But a rise in duty may have a consi-

derable temporary effect on the trade and on the quantity of salt on which duty is paid, especially when rumours prevail that the rise in duty is not likely to be permanent

"The raising of the rate of duty in January, 1888, was followed by reduced issues, and rumours regarding an impending reduction of the duty have had an unfavourable effect on the trade during 1888 89 In Northern India persistent rumours have prevailed of an impending change, and it was believed by the dealers that the rise in the rate of exchange which took place in January, 1889, would so improve the position of the Government of India as to lead to the reduction of the duty These rumours have had the effect of checking issues and causing traders to keep their stocks at a minimum No trader was willing to pay a duty of Rs 8 a maund on salt so long as it was expected that the duty would be shortly reduced

"This state of affairs was accentuated and brought to a crisis by a telegram sent by Reuter's Agency on the 1st of March and published in the Indian newspapers of the following day The telegram stated that the Secretary of State for India, speaking on 28th February, had said that 'he was convinced that the earliest occasion should be taken to abrogate the increase in the salt tax'

"The telegram was published on a Saturday On the following Monday sales of salt in Bombay began to fall off, and by Tuesday they had practically ceased On that day only one application was received for the removal of 267 maunds of salt The salt merchants applied to the departmental officials stating that trade was paralysed, and enquiring whether it was true that the duty was to be reduced On the 5th of March one firm telegraphed direct to the Government of India in the same sense

"On the 9th and 10th of March the Government of Bombay drew attention to the disturbance to the trade, and on the 12th the Accountant General telegraphed that the estimate of salt receipts must be reduced for that Province alone by nearly 16 lakhs of rupees, as salt sales had ceased since the 4th of March

"The Commissioner of Northern India Salt revenue telegraphed on the evening of 15th as follows —

'Trade is disturbed by telegram published locally on second instant Lord Cross's opinion regarding salt duty understood to mean that reduction is imminent Collections fall from average ₹55,000 to under ₹1,000 daily from fourth to eleventh In consequence of the contradiction published on twelfth trade is since recovering Collections on twelfth were ₹16,000, on thirteenth ₹38,000 Progress is watched'

"The recent news is more favourable, as the rumours of an intention to reduce the duty have been contradicted through the agency of the Press But the magnitude of the effect of these rumours on the revenue will be understood when I explain that at the end of February the estimate of Salt-revenue for the current year was Rx 7,840,700, whereas it is now taken at Rx 7,676,900, a reduction of more than 16 lakhs of rupees No doubt, this amount will be to a very great extent recovered, but probably too late to materially affect the revenue of 1888 89

"There have been other causes also at work which unfavourably affected the Salt-revenue In Calcutta, the trade was greatly disorganised after the increase of the duty, and the price of salt (free of duty) rose from 1 15 annas a maund in December, 1887, to 28 3 annas a maund in February, 1888, but has since fallen to 14 6 annas a maund in February, 1889

"In Madras where the Government was giving up its monopoly of manufacture, the manufacturers and traders secured something like a monopoly for themselves with the natural result of raising the price to the public The Salt-revenue of the year has also been adversely affected by the want of rain and prospects of a bad harvest in certain tracts I mention these facts not with the view of showing that the increase of the salt duty can have no effect on consumption, because I cannot believe that an increase of 25 per cent should not have some effect, but in order to make it clear that there is as yet no ground for assuming that the falling off in the issues of salt which has occurred, is permanent and due to the increased cost which the public have to pay for that article The publication of the present Financial Statement will dissipate the fears of an immediate reduction of the salt-duty, and we shall doubtless see an increase of the issues

"The following figures giving the total quantity of salt on which duty was paid from the beginning of the financial year to 22nd February for a series of years shows the amount of falling off in the current year (Burma excluded) —

	Maunds
1882 83	25 068,000
1883 84	25,832,000
1884 85	27,093,000
1885 86	26,714,000
1886 87	27,603 000
1887 88	27,847,000
1888 89	26,797,000

These figures show distinctly that there had been a considerable falling off before Reuter's telegram was received, but the quantity that paid duty up to 22nd February in the current year is larger than the quantity which paid duty in any year, except one, previous to 1886 87, and is 1,729,000 maunds, or 6 9 per cent in excess of the quantity that paid duty in 1882-83 the first year after the duty was reduced Even allowing for increase of population, the issues of salt in the current year to 22nd February last are sufficient to provide as large a quantity of salt per head of population is in 1882-83

"In Lower Burma there has been a great falling off in the quantity of salt that paid duty in 1888 89, but that falling off is mainly due to the excessive imports of the preceding year

"The falling off in 1888 89, which seems excessive at first sight, is explained by the great imports of 1887 88, the average for the two years being not much below the normal quantity

"Salt is locally manufactured on the sea coast in Burma, and there is a certain amount produced from brine wells in Upper Burma The local manufacture is, from the nature of the case, insufficiently supervised, and an experienced officer of the Northern India Salt Department has just been deputed to Burma by the Government of India to enquire into the whole question on the spot It is said that the increase in the rate of duty on salt interferes to some extent with the local production of *ngapi* and salted fish, and has led to an increased import of salt fish from abroad The facts are, however obscure, and a final opinion cannot be formed until the report of the officer specially deputed to Burma has been received

"Excise Policy

"I take this opportunity of correcting a misapprehension which has arisen in some quarters regarding the policy of the Government of India in connection with the Excise revenue Last year Mr Westland used the following language in the Legislative Council —

'I look hopefully to a considerable increase in the Excise revenues, and believe that a great deal might be done in Northern India by the introduction of the methods which, in Bombay and Madras, have so powerfully contributed to the increase of revenue under this head'

"With reference to this language it has been alleged that Mr Westland expressed gratification at the prospect of an increase in drinking among the Indian population on account of the increased revenue which such a change in the habits of the people would produce I make no insinuation of wilful misrepresentation against those who have brought this charge, nor do I say that they acted otherwise than in good faith, and yet the charge is absolutely without foundation Mr Westland used the language which I have quoted in the Legislative Council of the Government of India, and in the presence of the Members of that Council His remarks passed without challenge Is it conceivable that if he had meant, or been understood to mean, that the people of India should be encouraged to drink in order that the revenues of the Government of India might grow, there would have been found not a single Member of that Council, official or non official, to protest against the adoption of such a policy?

"Less than two months afterwards the Financial Statement for 1888 89 was published under Mr Westland's signature, and in that statement he used

language which puts his meaning beyond the reach of cavil The words he used were as follows —

'As regards Excise it will be seen that it is in Madras and Bombay that the revenue-administration has been most successful, as these two provinces with 31 and 16½ millions of inhabitants respectively produce a revenue nearly as large as that of Bengal with 69 millions In fact, in both these provinces a very remarkable progress has been made The whole system of distillation has been brought more thoroughly under control, and stricter and more methodical preventive measures have enabled the Government to greatly enhance the rate of duty for the question of the rate of duty which it is possible to levy is simply the question of the prevention of illicit distillation'

"Mr Westland's expectation was that by the prevention of illicit dealings it would be possible to raise a larger revenue, the increase of revenue being accompanied not by an increase of, but by a check on, drinking To show that there really was, and is, extensive smuggling in Northern India, I will quote a passage from the report of the Financial Commissioner of the Punjab, who is now the Lieutenant Governor of that Province, for the year 1881 82 —

'Mr Hawkins, the Deputy Commissioner of Amritsar, says—"There were twelve cases of illicit distillation It is notorious that there are few villages in this district which have no private stills of their own The police are constantly finding pieces of stills and jars of materials in deserted houses while searching for other property" The Lahore District has also a bad reputation in this respect The Deputy Commissioner of Jullundur, Mr Bullock writes— Illicit distillation is of very general occurrence throughout the district Twenty four cases have been detected, and it is to be hoped that some check will be found to have been given to the system, which, however, we can never expect wholly to extirpate"

'In Hoshiarpur the khansama of a dâk bungalow was found to possess a still, and there were three cases in which villagers were convicted of the same offence * * * *

'Whenever liquor shops in Native States are situated close to our border, it is a common practice for our villagers to resort to them, and they often bring back small quantities of spirits for their own use and that of their friends Even when the sadr distillery system has been adopted at the request of our Government in independent States, the price of liquor is far less than in our own territory This must be due to lower rates of still head duty The Assistant Commissioner in charge of excise at Sirsa, Mr Kennedy, says—"In Patiala spirits are sold at about eight annas a bottle, not differing much in quality from the Sirsa spirits at Rı 8 a bottle The only hope of grappling with the existing evil is to lower the price of Sirsa spirits so as to bring them into competition with the Patiala spirits Any other method is impracticable The Sikh Jats will drink, and we cannot wean them from the practice by making the cost of liquor high, the only effect of this is to demoralize them by leading to a continual evasion of the law without any corresponding benefit in increased sobriety"

'There is probably some exaggeration here Mr Tyall is inclined to believe that the dearness of lawfully distilled liquor had led to a decrease in drinking among the Sikh population, but to an increased use of opium and perhaps also of bhang'

"The state of things which these extracts shows to have existed in the Punjab in 1881 82 is the state of things which has continued to exist up to the present time

"In May 1887 the following opinion was expressed by a Punjab officer —

'The Excise Department in this Province has never been properly supervised and controlled, for the simple reason that the Department has never had a responsible head, and has been left to take care of itself with such perfunctory attention as district officers have been able to pay to it I can speak on this point from twenty four years of district experience in various parts of the Province The extent to which country spirit is illicitly manufactured and sold is enormous, and the quantity so disposed of is in my opinion as large as that which is lawfully sold, and the excise revenue is therefore much smaller than it would be if the Department were carefully controlled'

"It is right that I should mention that the Financial Commissioner did not accept these remarks in their entirety He remarked that the 'description of Excise management in the Punjab must, in the absence of specific evidence, be regarded as exaggerated,' but no authority, so far as I am aware, has ever denied that there was, and is, a very great amount of smuggling and of illicit distillation in that Province

"I have now shown that, when Mr Westland, speaking on behalf of the Government of India, anticipated an increase of Excise-revenue in Northern India, he based his expectation of an increase not on the possibility of being able to increase the consumption of liquor and drugs but on the prospect of being able to increase the revenue by means of a stricter control and the

suppression of illicit practices I shall show by one or two instances that the policy which Mr Westland favoured had already proved a marked success in other Provinces, both in respect of checking consumption and increasing the revenue

"From 1st October, 1884, a new system of Excise administration was introduced into a portion of the Madras Presidency The change in system resulted in a rise in the price of country liquor, varying from eight annas to one rupee per gallon The average annual consumption of the three years of the new system is less than the consumption of the last year of the old system by more than 6 per cent, while simultaneously the average annual revenue increased by more than 35 per cent These figures show conclusively that a large increase of Excise revenue is not necessarily attended with an increase of consumption, and may coincide with a positive decrease

"A still more remarkable illustration of the possibility of increasing the Excise revenue while diminishing the consumption is afforded by the statistics of the consumption of ganja in Bengal Ganja is probably the most pernicious of all drugs in common use, and the Government has never felt any hesitation in increasing the rate of duty leviable on it

"Notwithstanding the large increase of population which must have taken place between 1868 69 and 1887 88, the number of shops for the sale of ganja has decreased during these years by more than 27 per cent, and the consumption by more than 22 per cent, while simultaneously the revenue has increased by more than 150 per cent, and the incidence of taxation per seer has increased by more than 226 per cent These figures may be left to speak for themselves The reduction during the same period in the number of shops for the sale of opium and in the quantity of opium consumed is even more remarkable than in the case of ganja, but there has not been the same increase of revenue, mainly, I believe, because opium smuggling prevails extensively

"In mentioning this subject my object has been to defend my predecessor against the charge which has been brought against him, and indirectly against the Government of India, of encouraging intemperance for the sake of revenue, and it must not be supposed that I have been dealing with the whole Excise-system of India, or that I intend to assert that that administration has been as successful in every instance as in the cases which I have quoted

"MANAGEMENT OF GOVERNMENT BALANCES

"The present year has seen a great scarcity of money in the Indian markets, which has kept the Bank rate at 12 per cent for a considerable period, and as usually happens in such cases in this country, the question has been raised whether Government might not in some way come to the assistance of trade

"The scarcity is no doubt owing in part to an early cotton season in Bombay coinciding with a demand for rice in Burma, and other customary requirements at this season, but the difficulty appears to have been aggravated by the doubtful position of silver But for this it seems inexplicable that for week after week there should be a difference of 9 per cent in the rate of money in London and India, and yet that in some weeks the whole amount of bills and transfers offered by the Secretary of State should not be taken up

"That so high a rate of interest is prejudicial to trade is obvious, and Government has not been unmindful of the fact The best way in which Government can assist trade is by providing that the Secretary of State's drawings shall never be curtailed for lack of money to meet them, and in one week demands for bills and telegraph transfers exceeded 77 lakhs Arrangements are also made to grant telegraph transfers freely at a small charge between the three Presidency-towns, and Government, besides keeping up the normal current balances, has further been able to offer to the Presidency Banks at Calcutta and Bombay temporary loans at their own minimum rate of interest if they cared to avail themselves of the offer Owing to the demands upon it the Government cash balance, during this period fell lower than it had done for some years, and at the end of February was about two crores lower than on the corresponding date of last year

"The charge that Government does not do all it might to assist trade sometimes takes the form of an assertion that the currency balances should be lent

out in a time of pressure This is of course impossible, as the currency balances are pledged by law to secure the convertibility of the currency notes, and can no more be lent to the market than can the gold in the Issue Department of the Bank of England

"Another contention is that the cash balance of the Government of India is too high Now, the question whether the Government cash balance is too high or too low is one that must be determined by the experience of those who actually deal with that balance and are responsible for seeing that there is sufficient money in the treasury to meet all the claims against Government

"I do not think I exaggerate when I say that every person who has experience of the actual work of dealing with the balances in this country is in favour of rather a high cash balance The question has been frequently considered both in India and in England, and though a cash balance of 10 to 13 crores may seem enormous, yet if we reflect on the special difficulties in the way of suddenly obtaining a large amount of cash in this country, on the sudden and large demands to which Government is exposed, and on the enormous extent of country over which the balance has to be spread, it will easily be recognised that the mere fact of the cash balance being large is no proof that it is larger than is required by the wants of the case

"Some authorities hold that, if anything the Indian cash balance has been kept somewhat too low in recent years In that opinion I am inclined to concur The cash balance of recent years has been low, because the claims against the Government were heavy owing to expenditure of all kinds, and it was thought desirable to avoid borrowing more than was absolutely necessary

"I have mentioned the allegations (1) that Government ought to lend out the currency balance and (2) that Government keeps too high a cash balance, simply in order to clear the ground There is no force in them and they could only be made by persons ignorant of the facts of the case I now come to what is the real question namely, the expediency of the maintenance of the Reserve Treasuries in the Presidency towns Should the Government keep the whole of its spare cash in the Presidency Banks, or should it aim at keeping balances of tolerably constant amounts in those Banks, the surplus being kept in the Reserve Treasuries? This is a question which deserves consideration and on which there may reasonably be a difference of opinion, though I can hold out no hope of a change in the policy of the Government in this respect and, speaking for myself, I cannot recommend any such change

"The justification for the existence of the Reserve Treasuries is to be found in the special conditions affecting the Indian money market These special conditions are the liability of that market to extreme pressure at times, the difficulty in adding temporarily to the amount of cash by drawing on other markets, and the magnitude of the cash transactions of the Government as compared with those of the trade Under the circumstances I have just stated, and looking to the fact that the Government in case of war, famine or other unexpected cause is exposed to the risk of having to meet sudden and large demands on it for cash, it was decided by Lord Northbrook's Government that it would be to the interest both of the commercial public and the Government of India that the surplus cash for the time being of the Government of India in excess of certain regulated balances in the Presidency Banks, and the cash in Mufassal Treasuries, should be kept in Reserve Treasuries

"It was held that, if the whole of the surplus cash was kept in the Presidency Banks, trade would rely on the permanence of the resources thus supplied to it, and that, in case of a sudden demand for cash, the Government of India would either be forced to abandon its right to reduce its balance in the Presidency Banks, or risk producing a financial crisis by suddenly and largely reducing the resources of these Banks

"To show that this is not an imaginary fear I will quote a telegram received in 1874 from the Government of Bombay. —

'Clear the line You are placing the Exchange Banks and trade of Bombay in great danger The eight Exchange Banks are indebted to the Bank of Bombay 68 lakhs of rupees, half payable on demand, secured by Government paper, and remainder in February Their balances for current purposes in the Bank of Bombay are under 20 lakhs of rupees, balance of other customers of Bank of Bombay exceedingly low Bank of Bombay has to meet Council Bills for 25 lakhs of rupees arrived from England this

morning, and similar Bills for 20 lakhs of rupees will shortly arrive Bills on Calcutta absolutely unsaleable If you draw more on Bank of Bombay, they must call in the sums due from the Exchange Banks, and there will be a general panic and serious danger of stoppages'

"There was at that time a Government balance of about 100 lakhs in the Bank of Bombay, and the proposed withdrawal, which called forth this startling protest from the Governor of that Province, only came to 35 lakhs This money was required for immediate expenditure in connection with the Bengal Famine I do not think a stronger argument could be produced to show the dangers that might arise if the Government of India reverted to the old system of keeping all its spare cash in the Presidency Banks The arguments which weighed with the Government of India in introducing the system of Reserve Treasuries are contained in a Despatch to the Secretary of State, No 256, dated 30th June, 1874, printed as an Appendix to the Financial Statement It will show that the policy of the establishment of Reserve Treasuries was adopted deliberately and in order to meet real difficulties

"It has been urged that Government could relieve the market by lending out the balance of the Reserve Treasuries on favourable terms to the Banks, but if this course were followed the same difficulties that arose when the Presidency Banks held the whole of the surplus balances would again occur Trade would become accustomed to rely on the resources furnished by the Government, and at a time of pressure the withholding of the assistance usually given by Government might have a very serious effect

"Ways and Means—India, 1889-90

"The cash balance of the Government of India is expected to be Rx 12,900,000 on 1st April next It is the present intention of the Government of India to raise a loan of 2½ crores during the coming year, and the closing balance of 18 9 90 is estimated at Rx 12,533,000

"It is expected that the Secretary of State will have drawn £ 14,310,100 (true sterling) during the current year, and that in the coming year he will draw £ 14,690,900 (true sterling)

"PROPOSED RUPEE LOAN

"Although it is estimated that a loan of Rx 2,500,000 will be required during the year, no pledge can be given either as to the amount of the loan or the time when it will be issued, or the conditions which will attach to it According to the estimates, a loan of Rx 2,500 000 will give an ample cash balance, and if matters turn out favourably it may not be necessary to borrow so much

"LOANS TO MUNICIPALITIES, &c

"Before 1888 89 all loans and advances of public money were treated as advances on Imperial account The loans were made on the advice and through the agency of Local Governments, and Local Governments were so far responsible that irrecoverable sums were charged off as Provincial Expenditure But they had no special concern with the punctual and complete realisation of the interest due on these advances which was credited as an asset of Imperial Revenue At the instance of the Secretary of State the arrangements were re considered, and the occasion was thought appropriate for extending the principle of decentralisation beyond the limits of the Revenue account The interest received on these loans is almost always higher than that paid by Government on its public loans, and by surrendering this advantage it was obvious that an inducement might be offered to Local Governments to undertake complete responsibility for the administration of this department of finance This responsibility was accepted in every case the necessary arrangements were completed last year, and orders were published in the Gazette of India of 5th January, 1889

"In connection with this subject the question of lending from public funds to Municipalities and other public bodies was considered It was believed from the Secretary of State's observations in a despatch of September, 1887, that, under the arrangements described above, sanction might be given to a relaxation of the restrictive policy which has been followed in this matter since 1876

"Experience has shewn that the rigid refusal to lend money to small Municipalities and Local Boards has operated unfavourably in delaying and preventing sanitary improvement and reform It has been found that such bodies cannot raise money in the market, except at high rates of interest, and Municipalities have in several cases found it necessary in consequence to abandon, or indefinitely postpone, well considered schemes of drainage and water-supply The Government of India accepted the Secretary of State's invitation to review the question, and the Secretary of State has, in consideration of the fact that, under the scheme described above, Provincial responsibility will be enforced, withdrawn the prohibition

'It is not proposed at present to adopt the policy of lending to the Presidency Corporations, as they have a public credit of their own and can borrow, in ordinary cases, in the open market, while the claims on the Government of India are so great that it cannot without difficulty find the necessary funds But in pursuance of the principles enunciated above, Local Governments have been authorised to grant loans to Mufassal Municipalities in future, on the following conditions —

"(1) Loans may be granted only for works of public and general convenience and utility, such as drainage and water works, bridges and the like, and not for works which are merely or mainly ornamental or convenient, such as town halls, public gardens or market places

"(2) A local body, having borrowed from Government, may not borrow from any other source until it has obtained the sanction of the Local Government concerned, which should not be given until it is clearly shown that the sum lent by Government, with interest thereon, is duly secured

"I have stated that the rules regulating the new scheme were published in the Gazette of India on 5th January The demands of Local Governments have since been received These demands, so far as they relate to advances to cultivators, to embarrassed landed proprietors, and for drainage embankments and the like, have no special interest, as the only change in respect of them is the transfer of administration and responsibility As regards loans to Mufassal Municipalities, the importance attached to the change of policy will be understood when it is stated that, notwithstanding the short notice given, the applications for loans for Municipal sanitary purposes amount to Rx 254,900, which sum it has been found possible to place at the disposal of Local Governments The projects comprise schemes of water supply for Allahabad, Agra, Nagpore, Delhi and Peshâwar Although an important step has now been taken towards facilitating the carrying out of local works and improvements, the large claims on the resources of the Government of India on account of railway and irrigation works will prevent, for the present, any very important extension of the system

"Summary.

"It will be convenient if I briefly summarize the chief features of the financial position as they now present themselves

"(*a*) The Accounts of 1887 88 have closed with a deficit of Rx 2,028,832, including as expenditure Rx 456,017 on account of Special Defence Works Excluding the cost of these works, the deficit was Rx 1,572,815 This has resulted mainly from a special charge of Rx 1,059,000 incurred in connection with the conversion of the 4 per cent sterling stock into 3½ per cent, from heavy military expenditure in Burma, from a fall in exchange and in the price of opium, and from a reduction in Railway Revenue, counterbalanced by an improvement in Revenue and reduced Expenditure under other heads.

"(*b*) The Revised Estimates of 1888 89 show a deficit of Rx 201,700, including as expenditure Rx 818,300 on account of Special Defence Works, and a surplus of Rx 616,600 if the cost of these works be excluded Seeing that there has been a further fall in the rate of exchange, which has been taken for the current and coming year at 1*s* 4 38*d* = 1 rupee, heavy unforeseen expenditure on Military Expeditions, and a decline in the Salt revenue owing to persistent rumours of an impending reduction of the duty, the result is satisfactory

"(*c*) The Budget Estimates for 1889-90 show a surplus of Rx 106,300 after providing Rx. 1,102,900 for special Defence Works If the cost of these

works be excluded, there is a surplus of Rx 1,209,200 Imperial revenues have received a special asset of Rx 740,000, towards which all Local Governments, except the Punjab, contributed Of this only Rx 250,000, most of which represents the proceeds of the re imposed Patwari-cess in the North Western Provinces and Oudh, will be permanent, the remainder being a receipt of next year only

"(*d*) The Capital expenditure on Railways and Irrigation Works is expected to amount to Rx 1,857,800 in 1888 89, and Rx 4,089,500 is provided for 1889 90 The expenditure in 1888 89 is really Rx 3,264,500, but Rx 1,406,700 of it has been transferred to the Capital Accounts of the Indian Midland and Bengal Nagpur Railways on account of the cost of the Sindia and Katni-Umaria Railways transferred to them

"(*e*) As regards the general financial position of the Government of India, while there is every need for economy and for husbanding the revenue, there is no ground for desponding or pessimist views. There are probable difficulties in the future, but there are also reasons for holding that we shall be able to encounter them successfully The Estimates of Revenue for 1889 90 have been framed with moderation

"(*f*) The Secretary of State proposes to draw, during 1889 90, £14,689,900 of Council Bills He also proposes to raise a loan of £3,750,000 under the Oudh and Rohilkhand Railway Purchase Act for the purpose of advancing funds to Railway Companies

"(*g*) The Government of India will probably raise a loan of Rx 2,500,000 in India of which Rx 584,000 is required for the Dock Works at Calcutta and Bombay, and Rx 254,900 for Municipal Water Works, but no pledge can be given either as to the amount of the loan or the time when it will be issued, or the conditions which will attach to it"

His Excellency THE PRESIDENT said —"I think the best mode of procedure, unless hon'ble members see fit to object, would be that I should now put the Motion which is on the paper and that we should adjourn until Friday next It will then be open to hon'ble members, if they desire to offer observations on the Financial Statement, which we have just had the advantage of hearing, to make them on the Motion that the Bill should pass In the meanwhile hon'ble members will have had the leisure to consider the Statement in all its bearings"

The Motion was put and agreed to

The Council adjourned to Friday, the 29th March, 1889

S HARVEY JAMES,
Secretary to the Government of India,
Legislative Department

FORT WILLIAM
The 29th March, 1889

SUPPLEMENT TO

The Gazette of India.

No 13 } CALCUTTA, SATURDAY, MARCH 30, 1889

OFFICIAL PAPERS

A SUPPLEMENT TO THE GAZETTE OF INDIA will be published from time to time containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications the Publication of which in the GAZETTE OF INDIA is required by Law or which it has been customary to publish in the CALCUTTA GAZETTE will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

F —STATEMENT of NET REVENUE and EXPENDITURE—ENGLAND and INDIA	63

FINANCIAL STATEMENT for 1889-90.

Section I.—Preliminary

1 THE Financial Statement for 1889 90 deals with the Accounts of 1887 88, which have been finally closed, with the Revised Estimate for the current year, 1888 89, and with the Budget Estimates for the coming year, 1889 90 In this Statement tens of rupees are denoted by the symbol Rx , tens of rupees represent what used to be called conventional sterling, when pounds sterling are meant the words "true sterling" are always added, pounds sterling are also denoted by the customary symbol, and not by Rx

In previous years columns have been inserted in Statements A and B, showing (1) differences between the Revised and Budget Estimates of the current year, and (2) differences between the Revised Estimate of the current and the Budget Estimate of the coming year In order that the change in the financial position, as estimated a year ago and as estimated now, may be seen at a glance, it has been decided to add a column showing the increases and decreases resulting from a comparison of the Budget Estimate of the current year with the Budget Estimate of next year

The magnitude of the financial transactions of the Government of India is now very great, the aggregate of Revenue and Expenditure, as entered in the estimates for 1889 90, being more than Rx 166,000,000 The Revenue and Expenditure, as recorded in the Accounts, include the gross receipts and working expenses of Indian State Railways and the net receipts of the old Guaranteed Railways, and it is this inclusion which swells the total Revenue and Expenditure and causes them to increase so rapidly

The Accounts and Estimates include three distinct categories of Revenue and Expenditure—Imperial, Provincial, and Local,—and deal with the transactions of eight Local Governments and Administrations, and of many Local Funds, as well as with those of the Supreme Government

The Local Governments and Administrations are Madras, Bombay, Bengal, the North Western Provinces and Oudh, the Punjab, Burma, the Central Provinces, and Assam, all of which enjoy a considerable measure of financial independence

The transactions of the Government of India are carried on in India in the silver standard, and in England in the gold standard, and are consequently attended with the inconvenience and uncertainty which result from the frequent and considerable fluctuations in the relative value of the two standards which have been experienced in recent years

The Accounts of the Government of India also include, as I have already stated, the transactions of a great system of Railways, some of which are owned by the Government, being either worked directly by Government, or leased to Companies, while others are owned and worked by Companies to whom a minimum rate of interest is guaranteed, a few are owned and worked by Private Companies which receive a greater or less amount of assistance from the Government The contracts between Government and the different Railway Companies are numerous and complex, and vary in their terms in the case of different Railways

For the reasons I have just stated, the preparation of a satisfactory Financial Statement is a task of difficulty To fully explain the details of every transaction would weary the attention of the most patient reader or listener, while a mere attempt to sketch briefly the leading features of the situation would exclude much valuable information In such circumstances nothing is practicable but a compromise, and a compromise, from the very nature of the case, cannot be wholly satisfactory to everybody interested

Section II —Accounts of 1887-88

2 In the Financial Statement of March 1888 the Revenue of the year 1887 88, which was then about to close, was estimated at Rx 77,926,600, and the Expenditure chargeable thereon at Rx 80,943,300, the deficit being Rx 3,016,700, the cost of the Special Defence Works, which were being constructed for the protection of the North West Frontier and the chief places on the Coast, was included in the Expenditure

A statement was subsequently published in the *Gazette of India* of the 12th May 1888, giving the corrections in that Estimate rendered necessary by the further information at that time available

This additional information referred only to the Indian portion of the transactions, and not to the Home Accounts, and indicated a net improvement of Rx 397,000 as compared with the figures of the Financial Statement, the probable deficit of the year 1887 88 being reduced from Rx 3,016,700 to Rx 2,619,700,

3 As the process of compilation of the accounts of the year proceeded the position was shown to have further improved by Rx 238,000, making the probable deficit Rx 2,381,700 This alteration of the Estimate was telegraphed to the Secretary of State in August 1888, and was adopted in the "latest estimate" laid before Parliament in the Under Secretary of State's Financial Statement of September 1888 The probable deficit announced to Parliament was, however, Rx 1,960,800, and not the sum of Rx 2,381,700 just mentioned The difference of Rx 420,900 was due, as explained by Sir John Gorst, to an improvement in the English Account of Rx 120,900, and to the inclusion as revenue of a special item,* then estimated at Rx 300,000, representing the gain by exchange on the capital transactions of Subsidized Railways in England, which had been placed under a suspense head in the Revised Estimates pending the decision of the Secretary of State whether it properly formed an item of current revenue, or not

4 On closing the Accounts of the year 1887 88 the actual figures proved to be, Revenue Rx 78,759,744, Expenditure Rx 80,788,576, and the deficit of 1887-88 is finally shown to be Rx 2,028,832, being Rx 68,032 more than the deficit as estimated in September last The principal differences between the Revised Estimate as given in the last Financial Statement and the Actuals of 1887 88 are set out in the following statement, and complete details will be

* I mentioned just now a sum of £300 000 which I said the Government had gained by exchange transactions I must just explain how that arises The Committee are, no doubt, aware that the Government have contracts with certain Railway Companie —the Southern Mahratta the Indian Midland, and the Bengal Nagpur—by which the Government undertake to transmit to India the capital of these Companies subscribed in London, which is required for expenditure in India at a certain fixed rate of exchange In the case of the Southern Mahratta money is transmitted by contract at 12 rupees per £1 sterling, in the case of the Indian Midland at 12½ rupees per £1 sterling, and in the case of the Bengal Nagpur at 13 rupees per £1 sterling The Committee will see that when exchange comes down below the rate named in the contract the Government gain by the transaction For instance, at the present time the £1 sterling is nearly equivalent to 15 rupees in India, whereas the Government would only have to pay the Southern Mahratta Railway 12 rupees So long as the rupee is lower than the exchange rate of the contract there is again and that gain makes up this sum of Rx 300 000 "

found in the appropriation audit report published in the *Gazette of India* of 16th March 1889

DEFICIT	Rx	3 016 700	2,028 832	987 868	

5 The Revenue in India (Imperial, Provincial, and Local) proved to be Rx 829,003 more, and the Expenditure in India (Imperial, Provincial, and Local) Rx 379,713 less than the estimate of March 1888 Allowing for the increase in the Provincial adjustment of Rx 342,891, these figures give a net Imperial improvement of Rx 865,825, and if we add the net improvement in the English Accounts, and under Exchange, of Rx 122,043, we get a total improvement of Rx 987,868, being the amount by which the actual deficit falls short of the estimated deficit of March last

6 Of the increase of Revenue in India, Rx 244,540 resulted from the gain by exchange on capital transactions of Subsidized Railways in England, which was not taken credit for in the Estimates for reasons already stated, and the balance Rx 584,463 represents the actual improvement in Revenue It has been explained on former occasions that the financial year terminates in the middle of the season of heavy revenue collections and large Railway receipts A difference of a day in the payment of the instalments of Land Revenue due at the end of March may seriously affect the estimate of revenue for the year If the Land Revenue is paid on 31st March, it appears as a receipt of the year 1887 88, if it is paid on 1st April it appears as a receipt of 1888 89 The estimated results are further liable to be falsified by an unexpected distribution of the Railway traffic between March and April The months of March and April are also periods of heavy Public Works expenditure, and it is difficult to say beforehand how much of such expenditure will fall into March and how much into April In fact, for the purposes of the Revised Estimate, the year could hardly end on a more inconvenient date than the last day of the month of March If the variations from the Estimate occur under Provincial or Local heads the estimated surplus or deficit which depends solely on Imperial revenue and Imperial expenditure, is not affected, but the total revenue and total expenditure recorded in the Accounts may be materially altered

7 The improvement in the Revenue figures calls for no further remarks The reduction of the Indian Imperial Expenditure below that of the Revised Estimate, amounting to Rx 204,434 in all, was mainly due to a less expenditure of Rx 115,963 on Special Defence Works, of Rx 87,162 under Opium, of

Rx 66,559 under Interest on ordinary Debt, of Rx 49,937 under Military Works, and to an excess of Rx 116,739 under working expenses of State Railways The gain in the English Account was mainly due to reduced Military expenditure and to the resulting saving in exchange The saving under Provincial and Local expenditure occurs mainly under Civil Works and Irrigation and, in a less degree, under charges for collection of Land and Forest Revenue

8 The above explanations dispose of the Revenue and Expenditure Account of 1887-88, on the results of which depends the surplus or deficit of the year The Capital Expenditure on Railways and on Irrigation Works constructed from loan funds amounted to Rx 2,251,776 and Rx 533,048 respectively, thus falling short of the anticipations of the Revised Estimates by Rx 191,976, of which Rx 122,224 was due to short expenditure on Railways and Rx 69,752 to short expenditure on Irrigation This result does not of course affect the question of surplus or deficit on the Revenue and Expenditure Account, and, as already stated, the final result of the year 1887-88 was a deficit of Rx 2,028,832, including as expenditure Rx 456,017 on account of Special Defence Works Excluding the cost of these Works the deficit of 1887 88 was Rx 1,572,815

Section III —Revised Estimates of 1888-89

9 The Estimates of 1887-88 as originally framed in March 1887 showed a surplus of Rx 16,700, representing practically a bare equilibrium of Revenue and Expenditure

As I have just stated, the trifling surplus shown in the Budget Estimate of 1887-88 has proved, on closing the accounts of the year, to have become a deficit of Rx 2,028,832

The deterioration in the financial position manifested itself in the course of 1887-88, and led to steps being taken in the course of the year for increasing the revenue Of the actual deficit, Rx 1,059,000 were due to the conversion of the India 4 per cent stock of £48,200,000 into $3\frac{1}{2}$ per cent stock in consequence of the operation throwing on the Accounts of that year a charge of £1 7 6 per cent which would otherwise have been paid in 1888 89 A further deterioration resulted from the decision to charge against Revenue the expenditure on Special Defence Works which had been treated in the Estimates as a charge against borrowed money, the additional charge imposed on the Revenue Account being Rx 456,017 Other causes for apprehension were found in the fall in Exchange, the reduction in the net Railway revenue, the fall in the price of Opium, and increased Military expenditure in Burma The position was deemed to be of a nature so serious that, as I have said, steps were taken towards the close of the year to add to the revenue by the imposition of fresh taxation The measures adopted for this purpose were the following—

(1) the raising of the rate of the duty on Salt from R2 to R2 8 a maund, with effect from the 19th January 1888 except in Burma where the rate was raised from 3 annas to R1 a maund,

(2) the imposition of a duty on the import of petroleum with effect from the same date, and

(3) the extension of the Income Tax Act to Lower Burma, from 1888 89

These measures were estimated to produce about Rx 1,900,000, but as they were introduced in the end of 1887 88 they had but little effect on the Revenue of that year

10 The full effect of the measures just referred to would be felt in 1888-89, and the Estimates of that year showed a deficit of only Rx 698,000 after including in the expenditure of the year a sum of Rx 1,121,500 for Special Defence Works If the expenditure on Special Defence Works had been

excluded the Estimates would have shown a surplus of Rx 423,500 The financial position has, I regret to say, been again affected injuriously by various influences during the progress of the year On the expenditure side we have had to allow for a considerable fall in Exchange In the Estimates the rupee was taken at 1-4 9, the rate actually received has been 1-4 38, a fall of more than a half penny per rupee, which adds Rx 684,400 to the expenditure of the year There has also been unforeseen expenditure, estimated at Rx 387,500, on Military Expeditions—being Rx 142,500 on the Black Mountain Expedition, and Rx 210,000 on account of Sikkim, besides Rx 35,000 on account of the Lushai Expedition The Revenue Account has been affected by a reduction in the quantity of salt that has paid duty, and there have been short crops in some parts of India—a condition which exercises an injurious effect on the revenue generally

In face of these adverse circumstances it will be a surprise to most people to learn that, including expenditure on Special Defence Works, we now estimate for a deficit of Rx 201,700 as against the deficit of Rx 698,000 which was anticipated in the Financial Statement of March last, and if the cost of Special Defence Works be excluded, for a surplus of Rx 616,600 as against the previous estimate of Rx 423,500 Although the improvement is due in some respects to what may be termed accidental and temporary causes, yet, on the other hand, some of the influences which have adversely affected the finances of the year are of a precisely similar character, and the final result is not unsatisfactory

I shall now explain the various causes which have tended to modify the Budget Estimates of 1888 89

11 The Revenue of the current financial year 1888 89 was estimated in March last at Rx 80,010,500, it is now estimated at Rx 81,585,500, an improvement of Rx 1,575,000

The Expenditure proper of 1888 89 was estimated at Rx 81,192,100 and the Provincial adjustment at *minus* Rx 483,600, giving a total charge against Revenue of Rx 80,708,500, the deficit being Rx 698,000 What is meant by a *minus* Provincial adjustment of Rx 483,600 is that the total Provincial Expenditure of the year was estimated to exceed the total Provincial Revenue by Rx 483,600, and this sum was consequently shown as a charge against the accumulated balances of former years, [illegible] Provincial Revenue

The Expenditure properly so called is [illegible] 100, and the Provincial adjustment at *plus* Rx [illegible] gainst Revenue of Rx 81,787,200, being in [illegible] mate of Rx 1,078,700 The increase of Revenu [illegible] ded the increase of Expenditure chargeable ag [illegible] ,00, and the estimated deficit has been reduced [illegible] stands at Rx. 201,700 instead of Rx 698,000

12 The increase of Revenue for which we have to account is Rx 1,575,000, and it is due mainly to increases under the following heads —

	Rx
Receipts under Exchange	536,800
Railways	243,300
Interest	182,500
Forests	154,100
Land Revenue	111,800
Post Office, Telegraph, and Mint	109,100
Opium	107,000
Excise	96,200
Irrigation	80,200
Stamps	77,800
Assessed Taxes	56,800
TOTAL	1,755,600

The total increase under these heads comes to Rx. 1,755,600, and there are increases under other heads amounting in the aggregate to Rx 283,200, and making the total increase of Revenue under certain heads no less than Rx 2,038,800 On the other hand, there is a falling off of Revenue under certain heads amounting to Rx 463,800, of this sum the falling off under Salt accounts for no less than Rx 445,600, leaving Rx 18,200 as the total falling off under the remaining heads The net increase of Revenue, as already explained, is Rx 1,575,000

13 In attempting to present an intelligible statement of a subject so extensive and complicated as the financial position of British India, more would be lost than gained by going into minute details, and attempting to explain every petty fluctuation in Revenue and Expenditure due to ordinary causes I shall, therefore, confine myself to dealing with those variations in Revenue or Expenditure which are due to important or special causes, and which have had a perceptible influence on the financial results of the year

14 The head under which the greatest increase of Revenue is anticipated is Exchange, and the increase is no less than Rx 536,800

The receipts under Exchange arise from the net gain accruing to Government in consequence of certain remittance transactions being carried out by it, under contract or as concessions, at a rate of exchange different from the average rate obtained by the Secretary of State by the sale of bills and telegraphic transfers on India These receipts occur chiefly in connection with the contracts with Guaranteed and Subsidized Railways, with transactions with Her Majesty's Imperial Government, with family remittances of officers serving in India, and with remittances for the purchase of stores through the Secretary of State for Local Bodies and Native States

The very large amounts of revenue accruing in this way in the current and past years have been due almost entirely to the heavy transactions of the Subsidized Railway Companies Transactions are carried out at contract rates which are more favourable than the market rates, and a gain is made in this way which increases as the market rate falls below the contract rate Of course, this is not a source of gain to which we can permanently look forward, and we run the risk of loss when the reverse transaction takes place, as well as when the rate of exchange is rising instead of falling

The large difference between the Budget and Revised Estimates of the current year under this head is due partly to the fall in the rate of exchange since the Budget Estimate was prepared, but mainly to no provision having been made in the Budget Estimate for the gain, now estimated at Rx 265,000, accruing from the payments made to the Railway Companies in England, as the question whether this should be treated as current revenue was under the consideration of the Secretary of State at the time the Estimates were prepared The gain accrued mainly in connection with transactions relating to the Indian Midland, the Bengal Nagpur, the Southern Mahratta, and the various Guaranteed Railways

15 Increased Railway receipts account for an improvement of Rx 243,300, and, as the receipts under this head are intimately connected with the expenditure on working expenses and surplus profits of Guaranteed Companies, I propose to deal with both the Revenue and the Expenditure at the same time, thus anticipating to some extent what it would otherwise be necessary to say hereafter The improvement in Railway Revenue amounts to Rx 243,300, but there is an increase of Rx 393,300 in Expenditure (including Exchange), so that the net result in the Railway Account is a deterioration of Rx 150,000

The following is a statement of the increase or decrease under the Revenue heads of the Railway Account —

	Increase + and Decrease— Rx
State Railways (gross receipts)	—500
Guaranteed Companies (net traffic receipts)	+247,500
Subsidized Companies (repayments of advances of interest)	—3,700
TOTAL	243 300

The gross earnings of State Railways are almost the same as in the original Estimate, but there are considerable increases and decreases in the case of particular lines

The main fluctuations are as follows —

	Increase Rx	Decrease Rx
State Railways (gross receipts)—		
East Indian		250,000
North Western	150,000	
Rajputana Malwa	95,000	
Eastern Bengal	70,000	
Bengal Nagpur	13 500	
Indian Midland	12 500	
Tirhoot		25,000
Oudh and Rohilkhund		20,000
Southern Mahratta		17,500
Burma		12 500
Tounghoo Mandalay		10,000
	341,000	335 000
Guaranteed Companies (net traffic receipts)—		
Great Indian Peninsula	270,000	
South Indian	27,500	
Madras	25,000	
Oudh and Rohilkhund		60,000
Bombay Baroda		15,000

The serious falling off on the East Indian Railway is ascribed to a variety of causes, amongst which may be enumerated the cessation of an abnormal traffic in the previous year caused by scarcity in the North Western Provinces, a continued falling off in a long lead traffic of wheat and grains from Upper India, certain writes back due to overcharges, and, possibly, a diversion of traffic consequent on the opening of the Indian Midland Railway

On the other hand, the grain traffic of the North Western Railway, which fell off so much in the previous year, has revived to a great extent, the Rajputana Malwa and Eastern Bengal Railways have both had prosperous years,—the jute season having been extremely favourable for the latter Railway

16 The total increase of expenditure in the Railway Account amounts to Rx 393,300, which is mainly due to the loss on sterling payments owing to the fall in Exchange

The rupee expenditure in India has only increased by Rx 86,400, and the expenditure in England by only £37,100 (true sterling), but the conversion of the sterling payments on account of interest and annuities (which amount to £5,652,600 (true sterling)) into rupees at a lower rate of Exchange than was taken in the Budget Estimate, raises the total increase to no less than Rx 393,300

It should also be explained that a more unfavourable exchange adds to the working expenses, under the head of Indian expenditure, by increasing the

rupee price of stores procured from England, though, owing to the system of accounting, this factor does not appear separately in the Accounts

It is possible that up to the present this loss by the fall in exchange may have been to a great extent met by a corresponding fall in English prices, but with prices constant, it is obvious that an unexpected fluctuation in exchange would have a considerable effect on working expenses

17 The increased receipts under Interest appear in the Home Accounts, and are due to the Secretary of State having, as explained hereafter, raised the loan required for purchase of the Oudh and Rohilkhand Railway much earlier than it was required This had the effect of placing a large cash balance at his disposal, most of which he was able to lend out temporarily at high rates of interest

18 The increase of Revenue under Forests is Rx 154,100, but there is an increase of Expenditure on the other side of the Account amounting to Rx 39 700, and making the net improvement Rx 114,400 This increase is due mainly to increased receipts in Upper and Lower Burma The increase in Upper Burma is Rx 81,500, and includes a payment of Rx 37,700 by the Bombay Burma Trading Company on account of previous years The increase in Lower Burma amounts to Rx 84,700 The increased expenditure is mainly due to the payment of Rx 43,400, to the Trading Company just referred to, in satisfaction of a claim against the late Government of Upper Burma, and of Rx 10,000 on account of expenditure incurred by the Company for guards owing to the disturbed state of the country

19 In the Budget Estimate for 1888 89, the total Land Revenue, including the portion due to Irrigation, which is shown in the Estimates under the Irrigation head of account, was Estimated at Rx 23,680,800 The Revised Estimate now shows the following increases and decreases —

	Increase		Decrease
	Rx		Rx
India	3,500	Lower Burma	71,500
Central Provinces	14,600	Bengal	21,000
Upper Burma	36,200	North Western Provinces and Oudh	40,000
Assam	15 700		
Punjab	14,500		
Madras	78,500	TOTAL	132 500
Bombay	103,100		
TOTAL	256,100		
Deduct decrease	132,500		
Net increase	133 600		

Considering the magnitude of the Revenue under this head in the different Provinces, the various items of increase and decrease are of little importance, with the exception of the increases of Rx 103,100 in Bombay, of Rx 78,500 in Madras, and of Rx 36,200 in Upper Burma, and the decrease of Rx 71,500 in Lower Burma The decrease in Lower Burma is due entirely to the postponement of the date of the Land Revenue demand in two Districts, which transfers Rx 87,000 from 1888 89 to 1889-90 The increase in Bombay is stated to be due to prompt realisation of the demand, that in Madras is due to land newly brought under cultivation having raised the demand of the year and to expected advance collections, and in Upper Burma to growing receipts in that Province as order is established The decrease in Bengal and the North

Western Provinces reflects the influence of an unfavourable season and poor crops in some places

20 The increase of Revenue under the group which comprises Post Office, Telegraph and Mint is made up as follows —

	Rx
Post Office	49,800
Telegraph	33,100
Mint	25,900
TOTAL	109,100

The increased revenue of the Post Office is due to the steady growth of the Department, the receipts of the Telegraph Department have increased from a similar cause and from the extension of private lines, while the increased revenue of the Mint is due to a larger amount of copper coin passing into circulation than was taken credit for in the Estimates

21 The increase of Rx 107,000 in receipts from Opium is entirely due to the rise in the price of the Bengal drug The increased revenue from this source alone has been Rx 444,600, against which has to be set a reduction of Rx 333,000 in duty on exports of Malwa Opium and a small falling off of Rx 4,600 under other heads The average price of Bengal Opium has been Rs 1,120, as against an estimate of Rs 1,042 In the Budget Estimate it was anticipated that duty would be paid on 35,350 chests of Malwa Opium It is now expected that duty will be paid on only 30,300 chests The rise in the price of the Bengal drug, and the reduced exports of Malwa, appear to have been due to short crops both in China and Malwa

22 The increase of Rx 96,200 in Excise Revenue is the net result of the following increases and decreases in the different Provinces —

	Increase Rx		Decrease Rx
India	1,700	Central Provinces	6,000
Lower Burma	42,000	Upper Burma	12,000
Bengal	5,000	Assam	1,200
Punjab	10,700	North Western Provinces and Oudh	11,000
Madras	40,000		
Bombay	27,000		
TOTAL	126,400	TOTAL	30,200

The increase in Lower Burma is due to an enhancement of the rate of duty, in Madras to the extension of the stricter system of excise, and the introduction of the tree tax system, and in Bombay and the Punjab to expansion of the revenue due to a good season and general prosperity

23. The increase under Irrigation is Rx 80,200, but there is an increase of expenditure on the other side of the Account amounting to Rx 48,500, making the net improvement Rx 31,700 The increase in Revenue is mainly due to higher direct receipts in the North-Western Provinces and Punjab and an increase in Madras of the portion of the Land Revenue due to Irrigation, and in the Punjab to the increased area under Irrigation from new Canals

24 The increase in Stamps of Rx 77,800 is distributed between all Provinces except Bengal, where a reduction of Rx 20,000 is expected

25 The increase of Rx 56,800 in Assessed Taxes is mainly due to the fol

lowing changes In the "India" Account an increase of Rx 23,100 chiefly in interest on Government securities, in Bengal Rx 5,000 due to revision of assessments and realization of arrears in Madras Rx 10,000 from revision of assessments, and in Bombay Rx 9,200

The year 1887-88 was the second in which the Income Tax of 1886 was in operation, and though I have already completed the examination of the Accounts of that year in another place, it may be of interest if I state here that the smoother working of the administrative machinery is indicated by the reduction, in 1887 88, in the number of objections from 100,428 to 72,571, in the amount refunded from Rx 27,067 to Rx 19,949, and in the cost of collection from Rx 50,157 to Rx 28,679 The net collections amounted to Rx 1,382,808, and exceeded those of the previous year by Rx 105,297

26 The estimated falling off in the Salt Revenue is Rx 445,600, and it is due to a reduction in the quantity of salt on which duty was paid The question of the causes which have brought about this reduction is of importance, because it has followed the increase of duty which took place towards the close of last year I shall deal specially with this matter hereafter

27 Turning to the Expenditure side of the Account, we find a total increase in Expenditure proper of Rx 592,000, as well as an alteration in the Provincial adjustment of Rx 686,700, the result appearing as an increase on the whole Account of Rx 1,078,700

It will be convenient, in the first place, to divide the total increase of Expenditure into its three component parts of (1) rupee expenditure in India, (2) sterling expenditure in England, and (3) Exchange

In the Indian or rupee expenditure there has been an increase of Rx 208,800 in Imperial expenditure and a reduction of Rx 254,400 in Provincial expenditure In the English or sterling expenditure there is a decrease of £168,400 (true sterling), and notwithstanding this reduction in the gold payments, an increased charge on account of Exchange of no less than Rx 606,000 If the sterling expenditure had equalled the Estimate, the increased charge for Exchange would have been Rx 684,400 This increased charge on account of Exchange is due of course to the Budget Estimates having been calculated in March last at an exchange of 1*s* 4 9*d* per rupee while in the Revised Estimate we have only been able to take 1*s* 4 38*d*

28 The principal heads under which increases of expenditure have occurred are the following —

	Increase Rx
Army	402 500
Railway Revenue Account	393,300
Interest on debt	189,100
Opium	93,800
Superannuation Allowances and Pensions	88,800
Political	51 800
Forests	39 700
Irrigation	48,500
TOTAL	1 307,500

The aggregate increase under these heads comes to Rx 1,307,500 Minor increases under other heads come to Rx 166,700, making a total increase of

Rx 1,474,200 Against this figure must be set decreases amounting to Rx 1,082,200, of which the following are the most important —

	Decrease Rx
Special Defence Works	303,200
Civil Works	221,600
Land Revenue	145,200
Stationery and Printing	71,000
TOTAL	741,000

The explanations of the increased expenditure under the Railway Revenue Account and Forests have already been given

29 The increased cost under Army is accounted for by an increase of Rx 210,000 in India, of £16,000 (true sterling) in England, and of Rx 176,500 for Exchange The increase in India is due to the Sikkim, Black Mountain, and Lushai Expeditions already mentioned, to the rupee payments to British Troops having been increased by the fall in the rate of Exchange, and to the introduction of the practice of fixing the rate of Exchange for the issue of pay to British troops serving in India for the half year only, instead of for the whole year, and to higher expenditure on account of dearness of provisions and forage (including compensation paid to Native Troops on this account) These increases were balanced to some extent by considerable savings in Military expenditure in Burma

30 The increased charge of Rx 189,100 on account of Interest on debt is made up of an increase of £68,100 (true sterling) in England, and a decrease of Rx 27,400 in India, *plus* an increase of the charge for Exchange amounting to Rx 148,400 The increase in the English sterling payment is due to the inclusion, under this head, of so much of the interest on the sum raised for the purchase of the Oudh and Rohilkhand Railway as was not chargeable to the Railway Revenue Account, and there is a corresponding receipt arising from the investment by the Secretary of State of a portion of his surplus cash balance owing to the favourable condition of the money market The loan was raised in April 1888 and payment was not due till 1st January 1889, except in the case of some of the debenture loans which matured intermediately Obviously, therefore, the Railway Revenue Account could not be charged with the interest, for the period April to 31st December, on any portion of the loan that was not applied to pay off debentures at maturity

31 The increase in the charge for Opium is due to a larger crop than was anticipated, and the increase under Superannuation Allowances and Pensions of Rx 88,800 is due, to the extent of Rx 72,800, simply to the increased exchange on the sterling payments made in England

The increased Political charge of Rx 51,800 is chiefly due to the payment of arrears of the subsidy of the Amir of Afghanistan, as well as to an advance payment on the same account of Rx 20 000

The increase in expenditure under Irrigation is the net result of a great many variations, amongst which may be mentioned a heavy increase in the Punjab (Rx 26,300) to repair damages by flood, and the classification of the Khushdil Khan Reservoir (Rx 26,124) in Biluchistan as a work to be constructed from Revenues instead of from Loan Funds, as was originally intended

32 The decrease of Rx 303,200 in the estimated expenditure on Special Defence Works is mainly due to a decrease in the estimated expenditure in England of £186,300 (true sterling) caused by the fact that payments for heavy guns for arming the Indian defences were not made as rapidly as was expected

33 The decrease in the expenditure on collection of Land Revenue is distributed over the several Provinces in the following manner —

	Decrease Rx
India	600
Central Provinces	24,900
Upper Burma	4,000
Lower Burma	16,100
Assam	4 000
Bengal	8,300
North Western Provinces and Oudh	49 500
Punjab	12,300
Madras	32,700
England	200
Exchange	100
TOTAL	152,700

Against this decrease is to be set an increase of Rx 7,500 in Bombay In the Central Provinces the saving is partly due to low expenditure on Survey and Settlement Operations and partly to the transfer of Forest Survey Charges to the head of Forests In Upper Burma it is due to provision having been made for reorganisation of the Commission from 1st April, whereas it actually took effect from 1st December In the North Western Provinces it is chiefly in Survey and Settlement Charges owing to cessation of operations in certain Districts The saving in the Punjab also occurs in Survey and Settlement expenditure, and that in Madras is due to the revision of Revenue Establishments not having been carried out as intended

34 The reduction in cost of Stationery and Printing is due to the demand for stores from England having been less than was anticipated

The reduced Estimate of Expenditure under Civil Works is due, under Imperial (Rx 31,800), to short outlay in Upper Burma and to the non completion of the Surveyor General's Office in Bengal and to payments in England for Light houses not having been made to the full extent anticipated, under Provincial, to outlay in the Central Provinces (Rx 37,600) having been postponed, while in Bombay the expenditure appears to have been over estimated (Rx 53,300) The expenditure from Local Funds in Bengal by Local Boards was also over-estimated (Rx 81,300)

35 The alteration in the Provincial adjustment arises in the following manner —

The Original Estimate of Provincial Revenue was Rx 21,668,100, and of Expenditure Rx 22,151,700, giving a Provincial deficit of Rx 483,600, which represents the Provincial adjustment of the Budget Estimate of 1888-89

The Provincial Revenue of the year is now taken at Rx 22,100,400, and the Provincial Expenditure at Rx 21,897,300, giving a surplus on Provincial Account of Rx 203,100, which represents the Provincial adjustment of the Revised Estimate

36 The outlay on Railways (not charged against Revenue) has fallen from Rx 3,444,500, as estimated in the Budget, to Rx 1,364,800, as provided in the Revised Estimate The greater portion of this apparent lapse, however, is nominal, and is due to the transfer from the State Railway account of the following sums—

	Rx
Past outlay incurred by the State on the Sindia State Railway transferred to the Capital Account of the Indian Midland	921,000
Katni-Umaria Railway transferred to the Capital Account of the Bengal Nagpur	485 700

But, apart from this, the expenditure has fallen short of the provision to the extent of about Rx 673,000, the principal causes being the following Rx 200,000 were provided for the re purchase by the State from the Bengal-Nagpur Rail way Company of the old metre-g iuge material of the Nagpur-Chhattisgarh line on the conversion of the gauge having been completed Up to date the rolling stock only has been taken over, and for this a purchaser has been found in the Southern Mahratta Railway Company The permanent-way and other metre-gauge materials have not yet been v alued, so that the whole provision in the Budget has practically proved unnecessary

There have been further heavy lapses in the provision for the following items, which may be approximately stated, thus—

	Rx
Bolan High Level Line	147,500
North Western Railway (including Jhelum Pindi gradients)	143,000
Kandahar Reserve, due to heavy issues to the Chaman Extension	93,000
Sind Pishin Railway	67 000
Sind Sagar Railway	63,000
Bellary-Kistna	25 000
Jammu Kashmir	20,000

There have also been small excesses and lapses on other lines which it is unnecessary to detail It was found possible to provide about Rx 90,000 for expenditure on the Villupuram Dharmaveram line just commenced, and also for an increased outlay on the Chenab Bridge

37 The reduced estimate of Expenditure under Irrigation Capital expenditure from loan funds (Rx 107,000) is mainly due to the transfer of the Kushdil Khan Reservoir from this head to works chargeable to ordinary revenues (Rx 26,124) and to the inability of the Executive Engineers in the North West Provinces and Oudh to spend the full grants provided on the Jani Escape, Ganges Canal, and Nadrai Acqueduct (Rx 63,200)

Section IV —Estimates of 1889-90

38 The Revenue of the coming year 1889-90 is estimated at Rx 82,935,300, and the total Expenditure at Rx 83,469,800

The Provincial adjustment for the year is estimated at *minus* Rx 640,800, and consequently the expenditure chargeable against the Revenue of the year is Rx 82,829,000, and the estimated surplus is Rx 106,300 This surplus is obtained after including in the expenditure of the year a sum of Rx 1,102,900 on account of the cost of Special Defence Works Exchange has been taken at 1*s* 4 38*d* = 1 rupee

A comparison of the Budget Estimates of 1889-90 under the different heads with the Budget Estimates of 1888 89 will show the progress of Revenue and Expenditure during the year which is now drawing to a close

39 Before, however, proceeding with this comparison, it is necessary to give some explanation of a special arrangement which has had a considerable influence on the Estimates of the coming year It was explained in the Financi al Statement for 1887 88 that the Provincial Contracts had been renewed with Loc il Governments for a further period of five years from 1st April 1887 The average annual gain to Imperial Revenues during the period of revision was stated to be Rx 550,000, in addition to which, a greater share in the improvement of the revenue was secured under the new arrangements It has been explained elsewhere in this Statement that the continued fall in exchange and growth of Military expenditure compelled the Government to raise the duty on salt and to impose

a tax on imported petroleum The Secretary of State, in sanctioning this additional taxation, examined and reviewed the financial relations between the Imperial and Provincial Governments, and pointed out the inequality of the existing arrangements which secure freedom from financial difficulties to Local Governments, while the Supreme Government may be passing through a phase of acute embarrassment The Government of India was requested to reconsider the propriety of arrangements which protected Local Governments from sharing in the financial responsibilities of the Empire, and from contributing to their relief

Proposals for an alteration in the financial relations between the Supreme and Local Governments, which virtually had the effect of terminating the Provincial Contracts of 1887 88, were made on 2nd October last These proposals met with much opposition, and it was decided to reserve for future determination a decision on the questions involved It was, however, settled as a temporary expedient, that each Local Government, except the Punjab, should make a contribution in aid of Imperial Revenues in 1889 90 The total of this contribution is Rx 740,000, and, with scarcely an exception, Provincial resources are so ample, that the contribution has been made without seriously affecting the financial position of any of the Local Governments

The contributions made by the several Local Governments are as follows —

	Rx
Central Provinces	30 000
Burma	50 000
Assam	10,000
Bengal	100,000
North Western Provinces	200,000
Madras	175 000
Bombay	175 000
TOTAL	740 000

In the case of the North-Western Provinces and Oudh and Lower Burma the contributions will be permanent In the former case the Local Government will be reimbursed its contribution by receiving the proceeds of the Patwari cess now about to be re imposed, in the case of Lower Burma the financial position of the Province had so far improved in recent years that a special annual grant of Rx 47,900, made to it in 1887 88, has been simply resumed

The important and difficult question of the nature of the future financial relations between the Supreme and Local Governments remains for future consideration

40 The Revenue of the year 1888-89 was estimated in March last at Rx. 80,010,500, and the Revenue of 1889-90 is now estimated at Rx 82,935,300 The increase is Rx 2,924,800

The following are the principal heads under which the increase occurs —

	Increase Rx
Railway Account	1,501 800
Land Revenue	301,200
Provincial Rates	244,700
Post Office, Telegraph, and Mint	197,400
Irrigation	130,600
Excise	117,800
Receipts under Exchange	112,300
Stamps	105,100
Forest	98,000
Assessed Taxes	63,500
Customs	49,300
TOTAL	2,921,700

The total increase under the heads just specified comes to Rx 2,921,700, leaving a balance of Rx 3 100, which is the net result of variations under other heads of which the most important are, a decrease of Rx 193,900 under Opium and of Rx 92,600 under Salt

41 In the Budget Estimate of 1888 89 the receipts from Railways were estimated at Rx 15,184,700 For 1889 90 they are estimated at Rx 16,686,500, giving the increase of Rx 1,501,800 If we consider the expenditure side of the Account, however, we find that the estimated expenditure of Rx 17,299,600 in 1888 89 has risen to Rx 18,713,100 in 1889 90, showing an increase of Rx 1,413,500, the net improvement in the Railway Revenue Account is, therefore, only Rx 88,300

42 The variations in receipts of the Railway Account fall under the following heads —

	Increase + Decrease —
	Rx
State Railways (gross receipts)	+ 1,362,600
Guaranteed Companies (net traffic receipts)	+ 155,000
Subsidized Companies (repayment of advances of interest)	— 15,800
TOTAL Rx	1,501,600

The increased receipts of State Railways shown in the above figures are not altogether real, as they are exaggerated by the transfer of the Oudh and Rohilkhand Railway to this head from that of Guaranteed Railways The line was purchased by the State on 1st January 1889, so that the transactions relating to it, which were entered in the Budget of 1888 89 for nine months under Guaranteed Railways and for three months under State Railways, now appear in the Budget for 1889-90 wholly in the latter category

The principal increases and decreases of receipts occur in connection with the following lines —

STATE	Increase + Decrease —
	Rx
East Indian Railway	— 240,000
Rajputana Malwa	+ 100,000
Bengal Nagpur	+ 95,000
Tounghoo Mandalay	+ 85 000
Eastern Bengal System	+ 90,000
Oudh and Rohilkhand	+ 550,000
Indian Midland	+ 400,000
North Western Railway	+ 200 000
Mysore Railway	+ 54,600
TOTAL	1,334 600

GUARANTEED	(Net receipts)
	Rx
Madras	20,009
South Indian	40,000
Bombay Baroda	15,000
Great Indian Peninsula	310,000
Oudh and Rohilkhand	— 230,000
TOTAL	+ 155,000

The cause of the increase and decrease in the case of the Oudh and Rohilkhand line has been explained In the case of the Indian Midland, Bengal-Nagpur, Tounghoo Mandalay, and Mysore it is due to the opening of additional lengths of line

On the remaining lines noticed, the estimate has been fixed principally on a consideration of the current year's results The very serious falling off on the East Indian Railway has been explained in dealing with the Revised Estimate The opening of the Indian Midland will probably still further affect the receipts, but to what extent it is impossible to foretell

The falling off is fortunately more than covered by the increase on the Great Indian Peninsula line The estimated gross receipts of this line show an anticipated increase of Rx 400,000 over the Budget of the year about to close, the estimate is based on the traffic of the past twelve months, which has shown a steady improvement, likely not only to be maintained but to be still further augmented by the opening of the Indian Midland and Bengal Nagpur Railways The opening of the Indian Midland may, on the other hand, tend to reduce the earnings of the Rajputana Malwa and Bombay Baroda lines, so that there is considerable uncertainty in framing the Estimates this year of individual lines taken as a whole the estimate is likely to prove a fairly correct one

To meet the increased traffic on the Great Indian Peninsula Railway, it has been necessary to raise the estimate of Working Expenses by Rx 90,000, showing a net increase of Rx 310,000

43 Turning to the Expenditure side of the Account, it will be found that there has been an increase of Rx 1,177 900 in the Indian or rupee portion of the transactions, a decrease of £11,600 (true sterling) in the English expenditure, and an increased charge of Rx 247,200 on account of Exchange

The increase in working expenses of State Railways is mainly due to the Oudh and Rohilkhand Railway being treated as a State line for the whole year, to the opening out of new lines, and to increase of traffic on lines already open

An item appears for the first time in the Estimates, namely, "Interest chargeable against Companies for advances of Capital" It represents interest on moneys, raised directly by the Secretary of State under the provisions of the Oudh and Rohilkhand Railway Purchase Act, to meet expenditure incurred by Companies in preference to allowing Companies to borrow themselves It is found that Capital can be raised on more favourable terms in this way

The increase in the charge against Revenue for Exchange is wholly due to the fall in value of the rupee, the estimated sterling expenditure, other than on account of Revenue stores being actually less than in the current year, in addition to the amount shown on this account, Rx 247,200, a large sum, representing a further loss, is concealed in the working expenses, as explained in dealing with the Revised Estimate

44 Considering the very heavy increased burdens on account of the fall in exchange and bearing also in mind the fact that in recent years a very large amount of Capital has been expended on lines for the defence of the Frontier, which cannot be expected to prove remunerative, a net improvement, though only of Rx 88,300, cannot be considered unsatisfactory

The rapidity with which the construction of Railways has been pushed on, and the influence of the fall in exchange, had, however, an injurious influence

on the net results of the Railway Revenue Account in recent years, as will be seen from the following figures —

	Net Receipts+ Net Expenditure— Rx
1880 81	—1,014,203
1881 82	—285,955
1882 83	—1,306,194
1883 84	—305,239
1884 85	—1 051,751
1885 86	—731,713
1886 87	—1,188,068
1887 88	—2,122,386
1888 89 (Revised Estimate)	—2,264 900
1889 90 (Budget Estimate)	—2 026,600

The net loss on the Railway Account has increased from Rx 1,014 203 in 1880 81 to Rx 2,026,600 in the Estimates of 1889 90

The following figures show the rate at which Railways have been constructed at the cost, or on the responsibility, of the Government since 1880 —

Date	No of miles open	No of miles under construction
31st March 1880	8,382	1,037
1881	9 134	539
1882	9 437	1 155
1883	9 745	1 552
1884	10 188	2 185
1885	10 824	2,809
1886	11,173	2 969
1887	12 000	2,557
1888	12,918	1,882
1889 (Revised Estimate)	13 671	1,438

Between March 1880 and March 1889 the number of miles open has increased from 8,382 to 13,671, or by more than 63 per cent

TOTAL CAPITAL EXPENDITURE

To end of—	State Railways	State Railways constructed through agency of Companies	Guaranteed lines	Total	Annual Progress
	Rx	Rx	Rx	Rx	Rx
1879 80	28 007 395		96 829 969	124 837 364

1887 88	1 0 788 941	12 979 080	57 694 808	181 463 519	8 045 596
1888 89 Revised	122 507 721	18 274 330	49 116 331	189 878 382	8 414 863
1889-90 Budget	126,079 721	20 890 990	49 840 731	1 96 811 442	6 933 060

The average yearly expenditure of capital on Railways has been Rx 7,197,000

45 Land Revenue (including the portion due to Irrigation) is estimated to increase by Rx 340,300, distributed in the following manner —

	Increase Rx
India General	3,400
Central Provinces	29,300
Lower Burma	81,400
Upper Burma	68 300
Assam	10,700
North Western Provinces and Oudh	47 200
Punjab	36 700
Madras	28,600
Bombay	50 700
TOTAL	Rx 356,300
Deduct falling off in Bengal	16,000
NET INCREASE	340 300

Rx 39,100 of the increase is credited as irrigation revenue In the Central Provinces, North Western Provinces, and the Punjab the increases are due to settlement operations, and in the case of the last mentioned Province also to collection of arrears A large portion of the increase in Lower Burma is due to the postponement of the demand from the current year, and the remainder to revised assessments, and to the resumption from certain Local Funds of receipts which they formerly obtained, a fixed contribution being given them as compensation The increase in Madras is due to a higher percentage of collections being anticipated, and in Bombay to reduction of arrears and suspensions In Upper Burma the increase is due to the gradual development of the country

Provincial rates are estimated to increase by Rx 244,700, due almost entirely to the receipts expected from the re imposition of the Patwari cess The Revenue classed under this head is appropriated to Local purposes and shown in the Local column in the Estimates

46 The receipts under Irrigation are expected to increase by Rx 130,600, but there is an increased charge of Rx 32,400, giving a net improvement of Rx 98,200

The increase in Revenue is due to increase of direct receipts from Irrigation in the North Western Provinces and the Punjab, and to an increase in the Land Revenue due to Irrigation in Madras and Bombay The increased expenditure is chiefly due to increase in the charge for interest owing to additional capital expenditure

47 Post Office, Telegraph, and Mint—The net account of these Departments stands as follows —

	Net Estimate 1888 89 Surplus + Deficit — Rx	Net Estimate 1889 90 Surplus + Deficit — Rx	Improvement Rx
Post Office	—118,100	— 54 800	+ 63 300
Telegraph	— 36,700	— 10 300	+ 26,400
Mint	+ 103,900	+ 125,500	+ 21,600
TOTAL	— 50 900	+ 60,400	+ 111,300

The improvement in the case of the Post Office is due to steady progress of the Department The figures just given do not profess to be a strict Profit and Loss Account of the working of the Departments concerned They represent merely the difference between the Revenue and Expenditure as recorded in the

Accounts and Estimates, but they are sufficient for the purpose of indicating the financial progress of the Departments

48 The increase of Rx 117,800 in the case of Excise and of Rx 105,100 in the case of Stamps is generally distributed over the several Provinces with the exception of Bengal, where a decrease of Rx 50,000 in Excise revenue is anticipated on the ground that the unfavourable crops and the changes which are being introduced in the management of the Excise may have an unfavourable effect on the Revenue for a time

49 The increase in Customs (Rx 49,300) is mainly due to large exports of rice anticipated from Burma in 1889 90

The Petroleum tax when it was first imposed was expected to give a Revenue of Rx 100,000 on a total import of 32 000,000 gallons It is expected to give in the current year a Revenue of Rx 115,000 on an import of 38,000,000 gallons And for 1889 90 it is expected to give Rx 120,000

50 I have already explained the nature of the Receipts under Exchange In the Budget Estimate of 1888 89 these Receipts were estimated at Rx 415,000, in the Revised Estimate for that year the figure has been raised to Rx 951,800, due largely to the addition of a credit now estimated at Rx 266,000 which was not included in the Original Estimate owing to a difference of opinion as to the proper method of dealing with it in the Accounts The estimate of these receipts in 1889 90 is Rx 527 300 The large decrease is due to reduced capital expenditure on some of the Subsidized Railways now approaching completion

51 In the case of Forests the improvement expected in Revenue is Rx 98,000, against which must be set an increase of expenditure amounting to Rx 30 700, giving a net improvement of Rx 67 300 This improvement is due to increased Revenue in Upper and Lower Burma

52 Under Assessed Taxes the increase of Revenue is expected to be Rx 63,500 The expectation of an increase is based on the results of the current year

53 The decrease of Rx 193 900 under Opium is due to an increase of Rx 159,600 under Bengal opium, the selling price having been taken at ₹1,070 instead of ₹1,042 as in the current year's Estimates, and to a decrease of Rx 347,000 under Malwa opium owing to an expected reduction in the number of chests exported, from 35 350 to 30,000

54 For Salt we have taken a moderate estimate of Rx 8,029,900, which is Rx 353,000 more than the Revised Estimate, and Rx 92,600 less than the Budget Estimate for the current year A large increase over the receipts of the current year is expected, as the falling off this year is mainly due to unfounded rumours of an immediate reduction of the duty

55 The Expenditure of 1889 90 is estimated at Rx 83,469,800 as compared with an estimated expenditure of Rx 81,192,100 for 1888 89, showing an increase of Rx 2,277,700 which requires explanation

The Provincial Adjustment is *minus* Rx 640,800 as against an adjustment of *minus* Rx 483,600 in the Estimates of 1888 89

The increase of Rx 2,277,700 is made up of an increase of Rx 1,651,500 in the rupee portion of the Account, of a decrease of £39,700 (true sterling) in the Home Account, and of an increase of Rx 665,900 in Exchange The increase in Exchange of Rx 665,900 is almost entirely due to the fall in the value of the rupee, the alteration in the rate of exchange for converting the pay of the British troops which is fixed in gold but payable in rupees, adds an additional charge to the Military expenditure of about Rx 195,000, so that the additional expenditure for which the Government of India has to provide has been increased in one year by Rx 860,900 on account of the fall in Exchange

56 It will facilitate explanation of the various increases or decreases, if the heads of expenditure are dealt with in the first instance according to the grouping which is generally adopted in the Accounts

The following statements show the groups under which (I) increases and (II) decreases have occurred —

I	Expenditure Increased
	Rx
Railway Revenue Account	1,413,500
Army	1 005 700
Salaries and Expenses of Civil Departments	192,900
Post Office, Telegraph, and Mint	86,100
Irrigation	32,400
Famine Relief and Insurance	27,300
TOTAL	2,757 900

II	Expenditure Decreased
	Rx
Interest	149,800
Direct demands on the Revenue	133 000
Buildings and Roads	110,500
Miscellaneous Civil Charges	34,700
Construction of Railways (charged against Revenue)	33 600
Special Defence Works	18,600
TOTAL	480,200

The aggregate of increases is Rx 2,757,900 and of decreases Rx 480,200, giving a net increase of Rx 2,277,700

57 The causes of the increase under Railway Revenue Account, Post Office, Telegraph and Mint, and Irrigation have already been explained

By far the most important of the other increases is that under Army The total increase of Rx 1,005,700 is made up of an increase in rupee expenditure of Rx 477,000, in English expenditure of £245,500 (true sterling), and of Rx 283,200 under Exchange The increased charge for Exchange is chiefly due to the fall in the value of the rupee, and the increases, of which special explanation is necessary, are an increase in the Indian Estimates of Rx 477,000, and an increase in the English Estimates of £245,500 (true sterling)

Taking the latter item first it may be said with practical accuracy that the increase in the Home Expenditure is due to provision made for the purchase of Magazine rifles and 12 pounder breech loading guns However much the Government of India may regret that it should be necessary to incur such expenditure, it is not possible to avoid it, without placing the Indian Army in a position of inferiority as compared with that of other countries The cost of these rifles and guns accounts for £206,000 (true sterling) of the Home expenditure

As regards the increased cost of the Army in India, it will be obvious that the increase to the number of troops, European and Native, must give rise to petty increases in the various Departments that deal with them, and minor reforms account in the aggregate for a perceptible amount of increase But the

greater portion of the increase is due to special measures of which the most important are the following —

	Rx
Provision for rapid mobilisation of an Army Corps in case of necessity	203 500
Exchange on pay of British Troops	195,000
Provision on account of Troops in Sikkim	100 000
Ditto ditto Lushai Country	10,000
Increased cost of provisions including compensation for dearness of provisions and forage	79,500
TOTAL	588,000

The total comes to Rx 588,000, but there is a saving of Rx 220,000 in the extra cost of troops in Burma, so that the additional cost is reduced to Rx 368,000 The difference of Rx 109,000 between this figure and the total increase in India of Rx 477,000 is due to the minor elements of increase to which I have just referred, balanced to some extent by savings under other heads

The sum of Rx 203,500 on account of mobilisation is intended to meet the cost of purchasing transport animals, provisions, and equipments, so that in case of need an Army Corps may be in a position to take the field promptly This is one of these precautions which in the present days of scientific warfare cannot safely be neglected The greater portion of the cost will be incurred once for all, and will not recur The pay of the British troops is fixed in sterling, and is the Exchange falls, the number of rupees which they are entitled to receive increases In the Estimate of 1888 89 the rate was taken at 1*s* 5½*d*, it has now been fixed at a much lower rate, and the change has added Rx 195,000 to the estimate of expenditure for 1889 90

58 The increased expenditure on Salaries and Expenses of Civil Departments is mainly due to the entertainment of additional Police The increase of expenditure on Police is Rx 168,800, and of this Rx 125,600 is on account of Police in Upper Burma There is also an increase of Rx 45,200 in Bengal, due to Government undertaking to bear the whole cost of the Police of the Presidency Town There is also some increase in Madras, due to a provision for giving a special allowance to officers in charge of Police Stations

59 The decrease of Rx 149,800 under Interest is made up of a decrease of Rx 21,300 in the rupee portion of the Account, of a decrease of £167,400 (true sterling) in the English Account, and an increase of Rx 38,900 in the charge for Exchange

The statement below brings together the net charge for interest on debt in India and in England, excluding that incurred for Railways and Irrigation Works —

In thousands of Rx

	1880-81	1881-82	1882 83	1883 84	1884 85	1885 86	1886-87	1887 88	1888 89 Budget	1888 89 Revised	1889-90 Budget
India	1 139	987	1,049	697	703	450	123	9	182	157	113
England	2,144	2,457	2 458	2 418	2,578	2,420	2 556	3 300	2 584	2 529	2 397
Exchange	435	506	564	552	626	762	961	1 386	1 086	1 176	1 114
TOTAL	3 718	3 950	4 071	3 667	3 907	3,632	3 640	4 695	3 852	3 862	3 624

It will be seen from these figures that the net charge for interest on ordinary debt has not varied much between the years 1880 81 and 1889 90, if the year 1887 88 is left out of consideration The irregular result in that year arises (*a*) in India, from (1) about Rx 90,000 of the interest charges having

remained unpaid at the end of the year, and (*a*) the realisation of arrears due on the Kidderpore Dock loan, and (*b*) in England, from special charges amounting to about Rx 1,059,000 having fallen into that year in consequence of the conversion of about £48,200,000 of 4 per cent Stock into 3½ per cent Stock The gradual diminution of the net burden of debt in India is of course due to the transfer to the Capital Account of Railways and Irrigation Works of their portion of the debt, and means that the expenditure on Capital construction has exceeded the amounts borrowed by public loans The decrease in England in 1889 90 is accounted for by the conversion of £53,262,000 of 4 per cent Stock into 3½ per cent Stock, which reduces the yearly interest charge by £266,300 The increase in Exchange requires no explanation

60 The decrease under "Direct Demands on the Revenues" is Rx 133,000 It occurs under Opium cultivation and manufacture (Rx 190 400), Collection of Land Revenue (Rx 55,000), and Stamps (Rx 40,700) The other heads in this group, except Customs, show increases The expenditure on Opium cultivation and manufacture is determined by the amount of crude opium produced The area under cultivation in the present season is 14 per cent less than last year, and the produce is estimated at 15 per cent less Our reserve is unusually large and is expected to stand at 49 705 chests at the end of 1889 With a reserve of this magnitude it is obviously desirable to temporarily contract production, and this policy has been adopted in making the engagements for the present season The decrease under Collection of Land Revenue occurs under Survey and Settlement charges, and that under Stamps is owing to smaller indents for supplies of stamped paper from England

61 The reduction under Buildings and Roads of Rx 110,500 is due to a reduction of Rx 110,600 in Civil Works Of the decrease under Civil Works, Rx 96,200 is in Imperial expenditure, and is owing to the completion of the bulk of the Frontier Roads and other Imperial Works On the other hand, a large Imperial grant (Rx 298,100) is still being made for Civil buildings and roads in Upper Burma, and it is hoped that the Light houses on Oyster Rock and Savage Islands on the Burmese coast will be completed

62 The reduction in Miscellaneous Civil Charges is the net result of a number of increases and decreases, of which the most important are an increase of Rx 118,000 on account of Superannuation Allowances and Pensions, and decreases of Rx 47,500, Rx 81,000, and Rx 40,000 under Territorial and Political Pensions, Stationery and Printing, and Miscellaneous

The increase in Superannuation Allowances is very largely due to the increase of Exchange on sterling pensions, the decrease in Political Pensions to the death of the Ex-King of Oudh and the decrease under Stationery and Printing to a reduced demand for stores from England

63 In the Budget Estimates of 1888 89 Provincial Revenues were estimated to yield Rx 21,668,100, and Provincial Expenditure was taken at Rx 22,151,700, the Provincial Adjustment being *minus* Rx 483,600

In the Estimate for 1889 90 Provincial Revenues are taken at Rx 21,781 300, and Provincial Expenditure at Rx 22,422, 00, and the Provincial Adjustment is *minus* Rx 640,800

CAPITAL EXPENDITURE

64 The provision in 1889 90 for Railways not charged to Revenue varies but little in the aggregate from the original provision of the previous year, thus—

	India Rx	England £	Exchange Rx	Total Rx
1888 89	2 062 800	973 000	408 700	3 444,500
1889 90	1,697,100	1,273,000	591,900	3 562,000

The Mandalay Extension, for which a heavy grant was made in 1888 89, is now practically completed, and for the Sind-Pishin, Sind Sagar and Assam-Behar lines, which are approaching completion, a comparatively small sum is required The grants for the Chaman Extension and for the Chenab Bridge are about the same as in last year, and provide for the completion of the latter work

On the other hand, a provision of Rx 1 021 600 is made for the Villupuram Dharmaveram line, which is to be constructed by the South Indian Railway In this figure a very large sum is included for English expenditure (£436,000)

Other new works are an extension of the Eastern Bengal Railway to Budge Budge (Rx 90,000), Barrakar branch (Rx 110,000), Peshawar Jamrood (Rx 70,000), and a small provision for ferry arrangements over the Kistna

Section V —General Financial Position

65 Having now explained the Estimates of Revenue and Expenditure for 1889 90, I propose to make a few remarks on the general financial position and the prospects of the future The special difficulties with which Indian finance has to contend are, War, Famine, the fall in Exchange, and the reduction of the Revenue from Opium On the question of War I can say little, petty frontier wars are almost certain to occur at intervals, but their cost is not such as to seriously embarrass the finances I am not aware of any reasons for thinking that War on a large scale is likely to occur in the immediate future, but expenditure must be incurred as an insurance against national danger The country has happily escaped Famine for a decade, but we have no ground for assuming that the climatic conditions of the Indian continent have changed, and that there will never be drought sufficient to produce famine

66 Regarding the future of Exchange, it is impossible to give a confident opinion Before the year 1873 gold and silver were never used as legal standards without the regulating influence of a system of double legal tender, and there is consequently no experience in the past to which we can appeal in forming our opinion as to the probable course of events in the future The sanguine declare the rupee will soon be worth two shillings, the despondent anticipate a further fall of undefined magnitude

I cannot pretend to arbitrate between these conflicting views But during the last 15 years the great falls in the value of the rupee have coincided to an extent, which can hardly be the result of accident, with corresponding falls in the gold prices of commodities If this law should hold good in the future, the gold value of the rupee will not again fall largely and suddenly unless the gold prices of commodities fall

I will venture to depart so far from the safe attitude of reserve as to say that, if there is another heavy fall in gold prices, it will probably be accompanied by another heavy fall in the gold price of silver At present gold prices have ceased to fall, and there is even a slight tendency to a rise

67 It is needless to say that the question of the future relations between the gold and silver standards is one of great importance for India The present condition is not one of permanent equilibrium Either there will be continuous progress in the direction of demonetising silver and substituting gold, or the world will revert to the old system of double legal tender In the former case our financial difficulties will probably be greater in the future than they have been in the past, and it is impossible to forecast the ultimate result, in the latter case we may have to pass through a severe convulsion caused by foreign nations attempting

to restore the old ratio of 1 to 15½ between gold and silver If we are unable to join with them in attempting to settle the question by international agreement, we cannot expect them to consider our interests in any course which they may think fit to adopt

In the interests of India a sudden reversion to the old ratio of 1 to 15½, brought about by the action of foreign countries, and the continuous and progressive demonetisation of silver, accompanied with a fall in the value of the rupee to an unknown and unlimited extent, are alike to be deprecated Yet if the question is not dealt with by international agreement, we must accept the risks and inconveniences of either the one result or the other, unless we are prepared to choose the heroic and hazardous remedy of adopting a gold standard Nor is it possible for us to conjecture at what time the action of the United States and the continental nations of Europe may bring on a crisis either of the one kind or the other

For these reasons it is of paramount importance to India that an attempt to settle the question by international agreement should be made No other course affords a prospect of a safe solution to be gradually carried out with the minimum of disturbance to existing interests It is to be hoped that, if any prospect of a settlement appears, India shall not be required to subordinate her interests to the needs, or supposed needs, of countries which may desire to maintain the single gold standard

68 The future of the Opium revenue is surrounded with almost as much uncertainty as the question of Exchange There has been, during the current financial year, a considerable rise in the price of the Bengal drug, but that rise appears to have been due, in a very large degree, to poor crops in Malwa and China, and has been accompanied with a large falling off in the exports of Malwa Opium

Already the price of Bengal Opium has fallen from its highest figure of Rs 1,244 a chest in November to Rs 1,126 a chest at the sales of the present month

69 The dangers I have just indicated are of a general nature We must also anticipate some falling off in revenue in the immediate future from two special causes As I have explained elsewhere, we expect to receive in the coming year a contribution of Rx 740,000 from Local Governments Of this amount Rx 250,000 is permanent being made up of Rx 200,000 from the Patwari cess and about Rx 50,000 from Lower Burma The balance of Rx 490,000 we receive for a single year only, and unless other arrangements can be made, we must be prepared to accept a reduction of Rx 490,000 in the Estimates of 1890 91 There is also a credit of Rx 527,300 arising from receipts on account of exchange on the capital transactions of Railway Companies This credit must soon disappear, with a corresponding reduction in revenue It may then be said that temporary causes give us an additional revenue of Rx 1,017,300 in 1889 90, which is not permanent, and which will be largely reduced in future years, and will ultimately disappear altogether

70 But I should give a very erroneous opinion of our position if I were to dwell only on the difficulties and dangers of the future There are hopeful as well as discouraging elements, and I may say at once that in my judgment there are no grounds for a despairing or pessimistic view of Indian finance If we could get rid of the exchange difficulty, I should be prepared to adopt a hopeful view of the future, and if there were in addition no risk of a great war, I should look forward to our progress in coming years with as much confidence as it is ever safe to feel in financial matters

71 Among the more encouraging features in Indian finance is the elasticity

of the ordinary revenue It is true that we have not many new sources of revenue open to us, but the receipts from existing sources grow with satisfactory rapidity The figures which I have given in comparing the Budget Estimates of 1888 89 with the Budget Estimates of 1889 90 have made this point sufficiently clear, and I need not add anything more on the subject

72 In Upper Burma, too, we appear to have turned the corner and may now look forward to steady reduction of the net charge which that Province imposes on the finances

The account for Upper Burma stood as follows in the Estimates of 1888 89 —

	Rx		Rx
Revenues	547 000	Civil Expenditure —	
		Police	732,000
		Other Departments	339,00
		Military Works	190,000
		Civil Works	314 000
		Irrigation	23,000
		Army Special Expenditure	824,000
		TOTAL	2,422,000

The net charge was Rx 1,875,000

In the Estimates of 1889 90 the account of Upper Burma stands thus —

	Rx		Rx
Revenues—		Civil Expenditure—	
State Railways	115 000	Police	868 200
Other Revenues	755 200	Other Departments	366,400
		Railways (including Interest on Railway Capital)	194,800
		Military Works	150,000
		Civil Works	298,100
		Irrigation	20,000
		Army Special Expenditure	600 000
	870 200		2,495,500

The net charge is Rx 1 625,300

A net improvement of Rx 249 700 in a single year is an encouraging symptom, especially as there is every ground for supposing that the improvement will continue The improvement is really greater by Rx 77,800, as the account now presented includes a net charge of Rx 77,800 on account of railways, which is not charged in the Estimates of 1888 89, and which we may hope will very soon disappear

73 It should also be recollected that in recent years we have had to bear the burden of a considerable increase to the Native and European Army That increase has been completed and its cost provided for, with the exception of the expenditure on the Reserve for the Native Army, which will not be great

Heavy expenditure has also been incurred on Frontier Railways The total estimated cost of these Railways is Rx 13,410,700, of which Rx 10,083,300 will have been met at the end of this month, and Rx 1,191,800 is provided for in the Estimates of 1889 90, leaving only Rx 2,135,600 for future years

74 We have also been carrying out an extensive scheme of Coast and Frontier Defences, estimated to cost Rx 5,449,515 (which is charged against Revenue), of which Rx 1,850,768 will have been expended by the end of this year, and Rx 1,102 900 is provided for in the Estimates of the coming

year, leaving Rx 2,495,847 to be incurred in subsequent years There are also special charges in the Estimates for next year of Rx 110,000 for the Sikkim and Lushai Expeditions, Rx 203,500 for thoroughly equipping at least one army corps with transport, and of Rx 301,800 on account of magazine rifles and 12-pounder breech loading guns The former charge will not recur, and though considerable expenditure may be necessary for a time on account of rifles and guns, the charge is not a permanent one

75 It would be rash to assume that we are able to foresee the end of all special military expenditure In such matters there is no finality, new dangers may arise involving further preparations and additional expenditure, but the figures I have given are sufficient to show that the sacrifices which the country has been called on to make in recent years have not been in vain, that the original programme of military defences is approaching completion, and that there is at least some prospect of a material alleviation of existing burdens within the next few years

76 The improvement of means of communication by the opening out of Railways is exercising a marked beneficial influence on the country, and India is entering on what I hope may prove to be but the beginning of a prosperous industrial career No better example of the change that is taking place can be found than the progress of the cotton spinning industries

In 1880 81 there were 13,307 looms and 1,470,830 spindles at work, employing 39,537 people In 1887 88 there are no less than 18,840 looms and 2,375,739 spindles and 80,315 people at work

The exports of Indian yarn and cotton cloth were valued at Rx 1,909,134 in 1880 81 In 1887 88 they came to Rx 5,227,928, and the returns of the current year show still further progress

These are results of which India may well be proud, they have been achieved without the fostering aid of Protective Tariffs, or any special assistance from Government, and are due to the patient industry and intelligence of the Indian people, and to the enterprise of her capitalists who have begun to avail themselves of the natural advantages of the country, under these circumstances it may confidently be anticipated that the ground that has been gained will be maintained, and that still greater progress will be made in the future

Nor does there seem to be any good reason why India should not very shortly undertake the manufacture of iron and steel on a large scale with success

77 I have tried to state fairly both the probable difficulties of the future, and the reasons that exist for holding that we shall be able to encounter them successfully, and my deliberate conclusion is that while there is every need for economy and for husbanding our revenue, there is no ground for despondent or pessimistic views Unless some unforeseen disaster occurs, there is every reason to hope that the lapse of two or three years will show a decided improvement in the financial position of the Government of India It is true that the surplus which we have been able to show in the Estimates of the coming year is little more than nominal, only Rx 106,300, but the Estimates have been framed with great moderation, and if the Indian revenues continue to exhibit their usual elasticity and no unforeseen disaster occurs, I anticipate that the Financial Statement of 1890 91 will show decided improvement

Section VI —Falling off in the Revenue from Salt

78 As a preliminary step in dealing with the question of the causes of the falling off in the Salt Revenue during the current year, I wish to point

out that the quantity of salt paying duty in any year is not a perfect test of the quantity of salt actually consumed in that year by the people There is always a large amount of salt in the hands of dealers, and a falling off in any one year in the quantity of salt paying duty may represent a reduction in the quantity of salt in the hands of dealers, and not a reduction in the quantity of salt actually consumed It would be rash to jump to the conclusion that a reduction in the quantity of salt paying duty necessarily represents an equivalent reduction in the quantity of salt actually consumed

It will also be convenient to treat Burma separately from the rest of India, as that Province has been subject to special conditions

The consumption of salt (using consumption in the sense of the quantity on which duty was paid) has been as follows since 1882 83, excluding Burma —

	Maunds
1882 83	28,720 000
1883 84	29 530,000
1884 85	31 540 000
1885 86	30 800 000
1886 87	32 200 000
1887 88	31 180 000

In 1884 85 the recorded consumption increased by 2,010,000 maunds, or 6 8 per cent

In 1885 86 there was a falling off of 742,000, or nearly 2 4 per cent

There is no ground for assuming that in 1884 85 there was anything approaching to an increase of 6 8 per cent in the quantity of salt actually consumed by the population, and there is just as little ground for supposing that in 1885 86 there was a falling off in the real consumption of 2 4 per cent

These variations were due entirely, or almost entirely, to trade fluctuations, and the actual consumption of salt in 1884 85 per head of population was probably not, in any considerable degree, higher than in 1883 84, and was not lower in 1835 86 than in 1884 85 I state these figures, in order to show that an increase or decrease in the quantity of salt that pays duty in any one year does not necessarily indicate a corresponding increase or decrease in the quantity actually consumed

79 Opinions vary as to the effect on the real consumption of a rise of duty Some authorities hold that it has very little effect, others that it has a considerable effect Experience seems to show that the truth lies between the two opinions, and that a rise in the rate of duty has an appreciable, but not a very great, effect on the real consumption But a rise in duty may have a considerable temporary effect on the trade and on the quantity of salt on which duty is paid, especially when rumours prevail that the rise in duty is not likely to be permanent

80 The raising of the rate of duty in January 1888 was followed by reduced issues, and rumours regarding an impending reduction of the duty have had an unfavourable effect on the trade during 1888 89 In Northern India persistent rumours have prevailed of an impending change, and it was believed that the rise in the rate of exchange which took place in January 1889, would so improve the position of the Government of India as to lead to the reduction of the duty These rumours have had the effect of checking issues and causing traders to keep their stocks at a minimum No trader was willing to pay a duty of R2 8 a maund on salt, so long as it was expected that the duty would be shortly reduced

This state of affairs was accentuated and brought to a crisis by a telegram sent by Reuter's Agency on the 1st of March and published in the Indian newspapers of the following day The telegram stated that the Secretary of State for India, speaking on 28th February, had said that " he was convinced that the earliest occasion should be taken to abrogate the increase in the salt tax "

The telegram was published on a Saturday On the following Monday sales of salt in Bombay began to fall off, and by Tuesday they had practically ceased On that day only one application was received for the removal of 267 maunds of salt The salt merchants applied to the departmental officials stating that trade was paralysed, and enquiring whether it was true that the duty was to be reduced On the 5th of March one firm telegraphed direct to the Government of India in the same sense

On the 9th and 10th of March the Government of Bombay drew attention to the disturbance to the trade, and on the 12th the Accountant General telegraphed that the estimate of salt receipts must be reduced for that Province alone, by nearly 16 lakhs of rupees, as salt sales had ceased since the 4th of March

The Commissioner of Northern India Salt Revenue telegraphed on the evening of 15th as follows —

" Trade is disturbed by telegram published locally on second instant Lord Cross's opinion regarding salt duty understood to mean that reduction is imminent Collections fell from average R55 000 to under R1,000 daily from fourth to eleventh In consequence of the contradiction published on twelfth trade is since recovering Collections on twelfth were R16 000 on thirteenth R38,000 Progress is watched

The recent news is more favourable, as the rumours of an intention to reduce the duty have been contradicted through the agency of the Press But the magnitude of the effect of these rumours on the Revenue will be understood when I explain that at the end of February the estimate of salt revenue for the current year was Rx 7,840,700, whereas it is now taken at Rx 7,676,900, a reduction of more than 16 lakhs of rupees No doubt, this amount will be to a very great extent recovered, but probably too late to materially affect the revenue of 1888 89

81 There have been other causes also at work which unfavourably affected the salt revenue In Calcutta, the trade was greatly disorganised after the increase of the duty, and the price of salt (free of duty) rose from 11 5 annas a maund in December 1887 to 28 3 annas a maund in February 1888, but has since fallen to 14 6 annas a maund in February 1889

In Madras, where the Government was giving up its monopoly of manufacture, the manufacturers and traders secured something like a monopoly for themselves with the natural result of raising the price to the public The salt revenue of the year has also been adversely affected by the want of rain and prospects of a bad harvest in certain tracts I mention these facts not with the view of showing that the increase of the salt duty can have no effect on consumption, because I cannot believe that an increase of 25 per cent should not have some effect, but in order to make it clear that there is as yet no ground for assuming that the falling off in the issues of salt, which has occurred, is permanent, and due to the increased cost which the public have to pay for that article The publication of the present Financial Statement will dissipate the fears of an immediate reduction of the salt duty, and we shall doubtless see an increase of the issues

82 The following figures giving the total quantity of salt on which duty was paid from the beginning of the financial year to 22nd February for a series of years shows the amount of falling off in the current year (Burma excluded),—

	Maunds
1882 83	25,068 000
1883 84	25 832,000
1884 85	27,093,000
1885 86	26 714,000
1886 87	27 603,000
1887-88	27,847 000
1888 89	26 797,000

These figures show distinctly that there had been a considerable falling off before Reuter's telegram was received, but the quantity that paid duty up to 22nd February in the current year is larger than the quantity which paid duty in any year previous to 1886-87 except one, and is 1,729,000 maunds, or 6·9 per cent in excess of the quantity that paid duty in 1882-83, the first year after the duty was reduced. Even allowing for increase of population, the issues of salt in the current year to 22nd February last are sufficient to provide as large a quantity of salt per head of population as in 1882-83.

83. In Lower Burma there has been a great falling off in the quantity of salt that paid duty in 1888-89, but that falling off is mainly due to the excessive imports of the preceding year.

The following figures show the quantity of salt that paid duty every year up to 22nd February for a series of years —

	Maunds
1881-82	973,000
1882-83	972,000
1883-84	1,152,000
1884-85	1,562,000
1885-86	930,000
1886-87	1,160,000
1887-88	1,841,000
1888-89	435,000

The falling off in 1888-89, which seems excessive at first sight, is explained by the great imports of 1887-88, the average for the two years being not much below the normal quantity.

Salt is locally manufactured on the sea coast in Burma, and there is a certain amount produced from brine wells in Upper Burma. The local manufacture is, from the nature of the case, insufficiently supervised, and an experienced officer of the Northern India Salt Department has just been deputed to Burma by the Government of India to enquire into the whole question on the spot. It is said that the increase in the rate of duty on salt interferes to some extent with the local production of *ngapi* and salted fish, and has led to an increased import of salt fish from abroad. The facts are, however, obscure, and a final opinion cannot be formed until the report of the officer specially deputed to Burma has been received.

Section VII —Excise Policy

84. I take this opportunity of correcting a misapprehension which has arisen in some quarters regarding the policy of the Government of India in connection with the Excise Revenue. Last year Mr. Westland used the following language in the Legislative Council—

"I look hopefully to a considerable increase in the Excise Revenues, and believe that a great deal might be done in Northern India by the introduction of the methods which, in Bombay and Madras, have so powerfully contributed to the increase of revenue under this head."

With reference to this language it has been alleged that Mr. Westland expressed gratification at the prospect of an increase in drinking among the Indian population on account of the increased revenue which such a change in the habits of the people would produce. I make no insinuation of wilful misrepresentation against those who have brought this charge, nor do I say that they acted otherwise than in good faith; and yet the charge is absolutely without foundation. Mr. Westland used the language which I have quoted in the Legislative Council of the Government of India, and in the presence of the Members of that Council. His remarks passed without challenge. Is it conceivable that if he had meant, or been understood to

mean, that the people of India should be encouraged to drink in order that the revenues of the Government of India might grow, there would have been found not a single Member of that Council, official or non official, to protest against the adoption of such a policy?

85 Less than two months afterwards the Financial Statement for 1888 89 was published under Mr Westland's signature, and in that statement he used language which puts his meaning beyond the reach of cavil The words he used were as follows —

"As regards Excise it will be seen that it is in Madras and Bombay that the revenue administration has been most successful, as these two provinces with 31 and 16½ millions of inhabitants respectively produce a revenue nearly as large as that of Bengal with 69 millions In fact in both these Provinces, a very remarkable progress has been made The whole system of distillation has been brought more thoroughly under control, and stricter and more methodical preventive measures have enabled the Government to greatly enhance the rate of duty for the question of the rate of duty which it is possible to levy, is simply the question of the prevention of illicit distillation

Mr Westland's expectation was that by the prevention of illicit dealings, it would be possible to raise a larger revenue, the increase of revenue being accompanied not by an increase of, but by a check on, drinking To show that there really was, and is extensive smuggling in Northern India I will quote a passage from the report of the Financial Commissioner of the Punjab, who is now the Lieutenant Governor of that Province, for the year 1881 82 —

"Mr Hawkins, the Deputy Commissioner of Amritsar says—'There were twelve cases of illicit distillation It is notorious that there are few villages in this district which have no private stills of their own The police are constantly finding pieces of stills and jars of materials in deserted houses while searching for other property' The Lahore District has also a bad reputation in this respect The Deputy Commissioner of Jullunder Mr Bullock writes — Illicit distillation is of very general occurrence throughout the district Twenty four cases have been detected and it is to be hoped that some check will be found to have been given to the system which, however, we can never expect wholly to extirpate'

In Hoshiarpur the khansama of a dak Bungalow was found to possess a still, and there were three cases in which villagers were convicted of the same offence Sirdar Gurdayal Singh the Assistant Commissioner in charge of Excise, says that illicit distillation is carried on in some villages of the Gurshinkar Tahsil He adds—'These cases of illicit distillation it is very difficult to detect and to prove Generally they distil during the night and keep good watch all round In one village, it is said, they distil the wine on the banks of the Beas stream and whenever their sentinels espy any stranger approaching the place they throw down all the materials, &c, into the stream, and leave no trace behind But it prevails only in villages where the inhabitants are united and have confidence in each other

"The Deputy Commissioner of Jhang, Mr Macauliffe, strongly suspected the existence of the practice among powerful zemindars living in remote jungle villages Whenever liquor shops in Native States are situated close to our border, it is a common practice for our villagers to resort to them and they often bring back small quantities of spirits for their own use and that of their friends Even when the Sadr distillery system has been adopted at the request of our Government in independent States, the price of liquor is far less than in our own territory This must be due to lower rates of still head duty The Assistant Commissioner in charge of excise at Sirsa Mr Kennedy, says —'In Patiala spirits are sold at about eight annas a bottle, not differing much in quality from the Sirsa spirits at Rs 8 a bottle The only hope of grappling with the existing evil is to lower the price of Sirsa spirits so as to bring them into competition with the Patiala spirits Any other method is impracticable The Sikh Jats will drink, and we cannot wean them from the practice by making the cost of liquor high, the only effect of this is to demoralize them by leading to a continual evasion of the law without any corresponding benefit in increased sobriety'

'There is probably some exaggeration here Mr Lyall is inclined to believe that

the dearness of lawfully distilled liquor had led to a decrease in drinking among the Sikh population, but to an increased use of opium and perhaps also of bhang"

The Lieutenant Governor, before whom this Report was placed, was Sir Charles Aitchison, who throughout his whole service had striven to reduce the consumption of liquor and drugs, and the following passage will show the views which he then entertained —

"In paragraph 15 of the Report the Financial Commissioner has dwelt on the loss caused to the Excise revenue by illicit distillation and by the smuggling of country spirits into British districts from Native States It is no doubt difficult if not impossible, entirely to put an end to the latter practice, though the chief Native States of the Province have, at the request of the Punjab Government accepted the system of Sadr distilleries to the restriction, it is believed of smuggling, at least in some degree But as regards the former evil His Honour cannot consider it creditable to the magistracy of the Province that the unlawful manufacture of spirits should prevail unchecked and unpunished to the extent alleged'

86 The state of things which these extracts show to have existed in the Punjab in 1881 82 is the state of things which has continued to exist up to the present time

In May 1887 the following opinion was expressed by a Punjab officer —

"The Excise Department in this Province has never been properly supervised and controlled for the simple reason that the Department has never had a responsible head, and has been left to take care of itself with such perfunctory attention as district officers have been able to pay to it I can speak on this point from twenty four years of district experience in various parts of the Province The extent to which country spirit is illicitly manufactured and sold is enormous, and the quantity so disposed of is in my opinion as large as that which is lawfully sold, and the Excise revenue is therefore much smaller than it would be if the Department were carefully controlled"

It is right that I should mention that the Financial Commissioner did not accept these remarks in their entirety He remarked that the "description of Excise management in the Punjab must, in the absence of specific evidence, be regarded as exaggerated," but no authority, so far as I am aware, has ever denied that there was, and is, a very great amount of smuggling and of illicit distillation in that Province

87 I have now shown that when Mr Westland, speaking on behalf of the Government of India, anticipated an increase of Excise revenue in Northern India, he based his expectation of an increase not on the possibility of being able to increase the consumption of liquor and drugs, but on the prospect of being able to increase the revenue by means of a stricter control and the suppression of illicit practices I shall show by one or two instances that the policy which Mr Westland favoured had already proved a marked success in other Provinces, both in respect of checking consumption and increasing the revenue

From 1st October 1884 a new system of Excise Administration was introduced into a portion of the Madras Presidency The change in system resulted in a rise in the price of country liquor, varying from 8 annas to one rupee per gallon

For five years the consumption of spirits and the revenue in the districts where the manufacture is centralised in large distilleries were as follows —

	Consumption in gallons reduced to 30 under proof	Revenue
		Rx
1883 84	1,204 241	280,977
1884 85	Year of transition	
1885 86	1,014,566	347,526
1886 87	1,084,474	380 213
1887 88	1,270,146	415,319

The average annual consumption of the three years of the new system is less than the consumption of the last year of the old system by more than 6 per cent, while simultaneously the average annual revenue increased by more than 35 per cent These figures show conclusively that a large increase of Excise revenue is not necessarily attended with an increase of consumption, and may coincide with a positive decrease

88 A still more remarkable illustration of the possibility of increasing the Excise revenue while diminishing the consumption is afforded by the statistics of the consumption of ganja in Bengal Ganja is probably the most pernicious of all drugs in common use, and the Government has never felt any hesitation in increasing the rate of duty leviable on it

The following statement shows the number of shops licensed for the sale of ganja, the quantity of ganja consumed, the total revenue, and the incidence of taxation per seer for every year from 1868 69 to 1887-88 —

	No of shops	Consumption	Total Revenue	Taxation per seer
		Mds	Rx	R
1868 69	4,073	8 442	89,524	2 6
1869 70	4,437	8,667	92,521	2 6
1870 71	4 749	9,682	103 251	2 6
1871 72	4,934	9,972	106,275	2 6
1872 73	4,694	8,593	110,028	3 2
1873 74	4,398	8,125	107 785	3 3
1874 75	4,394	7,830	105 818	3 3
1875 76	3,340	7,389	112,035	3 7
1876 77	3,130	7 458	119 711	4 0
1877 78	3,247	8,197	138,566	4 2
1878 79	3 244	5,460	134 555	6 1
1879 80	3,210	5,137	129,016	6 2
1880 81	3,411	5,600	145 467	6 4
1881 82	3 488	6,431	171,379	6 6
1882 83	3 271	5,646	186,050	8 2
1883 84	3,298	5 881	197,371	8 3
1884 85	3,196	5 798	198 760	9 0
1885 86	3,033	5,717	194 662	8 5
1886 87	3 046	6,264	207,567	8 2
1887 88	2,949	6,550	224,497	8 5

Notwithstanding the large increase of population which must have taken place between 1868 69 and 1887 88, the number of shops for the sale of ganja has decreased by more than 27 per cent, and the consumption by more than 22 per cent, while simultaneously the revenue has increased by more than 150 per cent, and the incidence of taxation per seer has increased by more than 226 per cent These figures may be left to speak for themselves The reduction during the same period in the number of shops for the sale of opium and in the quantity of opium consumed is even more remarkable than in the case of ganja, but there has not been the same increase of revenue, mainly, I believe, because opium smuggling prevails extensively

89 In mentioning this subject my object has been to defend my predecessor against the charge which has been brought against him, and indirectly against the Government of India, of encouraging intemperance for the sake of revenue, and it must not be supposed that I have been dealing with the whole Excise system of India, or that I intend to assert that that administration has been as successful in every instance as in the cases which I have quoted

Section VIII —Ways and Means—Home Treasury

90 The Secretary of State's Revised and Budget Estimates of the transactions at the Home Treasury for 1888 89 compare as follows —

	Budget	Revised
Net Receipts		
	£	£
Council Bills	14,000 000	14,310,100
Receipts from Railway Companies for Capital expenditure	5,657 800	2,545,100
Deposits and Advances	4,500	800
Permanent Debt—India 3½ per cent stock issued for the discharge of a like amount of 4 per cent stock		4,030,700
3 per cent stock issued for purchase of the Oudh and Rohilkhand Railway and the discharge of its debentures as they fell due		6,921,000
Debentures and Debenture stock taken over by the Secretary of State		3,415 000
Add Opening Balance	5,614,329	5,900,697
TOTAL	25,286,629	37,123,397
Net Outgoings		
Excess of expenditure over Revenue	15,028 700	14,714 300
Capital expenditure of Government in England	973,000	792,200
Issues to Railway Companies for expenditure	5,915,300	2,550,000
Capital charge involved in redemption of liabilities		
Purchase of the Oudh and Rohilkhand Railway		10 336,000
Permanent Debt—Discharge of 4 per cent stock		3 730 700
On account of Remittances from India	1,091,200	1,150 400
Add Closing Balance	2,278,429	3 849 797
TOTAL	25,286,629	37,123,397

The most important variations from the Budget Estimate have occurred in the transactions connected with the discharge of the 4 per cent stock remaining unconverted in October 1888 and the purchase of the Oudh and Rohilkhand Railway These are explained below

CONVERSION OF 4 PER CENT INTO 3½ PER CENT STOCK

91 It was explained in the last Financial Statement that the terms offered by the Secretary of State for conversion of the 4 per cent into 3½ per cent stock were accepted by a majority of the holders Out of a total 4 per cent stock of £53,261,820, only £4,030,700 remained to be paid off in October 1888 For the discharge of this sum, 3½ per cent stock for an equal amount was issued at par, but it is believed that the whole of the outstanding stock will not be presented for payment during the current year, and that £300,000 will remain unclaimed until 1889 90 No entries were made in the Budget Estimates of the current year on account of these transactions, as it could not be foreseen how much of the stock would remain unconverted

PURCHASE OF THE OUDH AND ROHILKHAND RAILWAY

92 No provision was made in the Budget Estimate on account of the purchase of the Oudh and Rohilkhand Railway, as the nature of the offer to be made to the Company had not been determined at the time The terms upon which the purchase has been made are, briefly, that the Company has been paid £125 18*s* 0½*d* for every £100 of its share capital, and that out of a total amount of £5,300,000

of debentures and debenture stock issued by the Company, debentures for £1,885,000, which fell due during the current year, have been discharged by the Secretary of State, and the liability for debentures and debenture stock for £3,415,000 has been accepted by him The total amount required for the purchase of the Railway and the discharge of the debentures was £6,921,000, which was raised by the Secretary of State by the issue of £7,206,531 of 3 per cent stock

AIDED RAILWAY COMPANIES

93 The variations in the transactions of the Railway Companies will appear from the following figures —

Receipts from	Budget	Revised
STATE—		
On account of subscribed capital—	£	£
Bengal Nagpur Railway	1,032 700	513,500
Indian Midland Railway	1,121,100	2,022,800
Southern Mahratta Railway	500 000	
Miscellaneous Receipts		3,100
GUARANTEED—		
For discharge of debentures—		
Great Indian Peninsula Railway	1,069,000	
Madras Railway	60,000	
Oudh and Rohilkhand Railway	1,885,000	
Miscellaneous Receipts		5,700
TOTAL	5,667 800	2,545 100
Issues to		
STATE—		
On account of stores, establishment charges &c —		
Bengal Nagpur Railway	871,000	892,900
Bengal Central Railway	2,000	2,000
Indian Midland Railway	635,000	421,000
Southern Mahratta Railway	241,000	214,600
GUARANTEED—		
For discharge of debentures—		
Great Indian Peninsula Railway	1,069,000	200
Madras Railway	60,000	
Oudh and Rohilkhand Railway	1,885,000	
On account of stores, &c	1,152,300	1,019,300
	5,915 300	2,550,000

In the Budget Estimate it was anticipated that the debentures of the Oudh and Rohilkhand, Great Indian Peninsula and Madras Railway Companies falling due in the current year would be discharged by the Companies by raising fresh capital In the case of the Great Indian Peninsula and Madras Railway Companies the debentures were, however, renewed, and the Oudh and Rohilkhand Railway debentures were, as mentioned above, discharged by the Secretary of State by the issue of India 3 per cent stock The additional capital expected to be raised by the Indian Midland Railway Company is mainly owing to the transfer to the Company of the Sindia Railway, as the Company has to repay the Government the capital cost of the line

94 The following is the Secretary of State's Budget Estimate of Ways and Means for 1889 90, made up in the same form as above —

Net Receipts	£
Council Bills	14,689,900
Permanent Debt for Advances to Companies	3,750,000
Receipts from Railway Companies	515 000
Add Opening Balance	3,849 797
TOTAL	22 804,697

Net Outgoings	
Excess of expenditure over Revenue	14,956,100
Capital expenditure of Government in England	1,273,000
Permanent Debt—Discharge of 4 per cent stock	300,000
Issues to Railway Companies for expenditure	3 056,700
Deposits and Advances	2,700
On account of Remittances from India	1,069,500
Add Closing Balance	2,146,697
TOTAL	22,804,697

95 By the Oudh and Rohilkhand Railway Purchase Act, the Secretary of State has been authorised to raise in London, in addition to the amount required for the purchase of the Oudh and Rohilkhand Railway, further amounts up to a limit of £10,000,000 for the purpose of advancing funds to Railway Companies, when it may seem more economical to do so than to authorise them to raise debenture capital under his guarantee The exercise of this power forms the most important feature of the Secretary of State s Ways and Means Estimates of next year The total capital required to meet outlay in England and India by the Aided Railway Companies will be £3,750,000 in addition to the balances at their credit, and the whole of this will be raised by the Secretary of State by a sterling loan The Secretary of State also proposes to draw £14,689,900 of Council Bills during the year It should be fully understood that, in stating these as the present intentions of the Secretary of State, no sort of pledge is given that he will adhere to the programme thus explained, and he will be absolutely at liberty to raise the money by bills or by loans from time to time as he deems expedient

Section IX —Ways and Means—India, 1888-89

96 The following figures compare the Budget Estimate of Ways and Means of 1888 89 with the Revised Estimates —

NET RECEIPTS

	Budget	Revised
	Rx	Rx
1 Excess of Revenue in India over the Expenditure charged against it	20,642,800	21,354,600
2 Public Loan	3,000,000	2,777,500
3 Increase of Unfunded Debt—mostly Savings Bank Deposits	845,300	1,043,700
4. *For Remittance to Secretary of State*	1,020,700	1,142,200
Add Opening Balance	13,733,100	13,883,701
	39,241,900	40,201,701

	NET OUTGOINGS	Budget	Revised
5	Expenditure charged to Provincial Balances	483,600	—203,100
6	Capital Expenditure of Government in India	2,662,800	697,200
7	Loans to Municipalities, &c (chiefly the Calcutta and Bombay Dock Loans)	486,800	510,900
8	Other items (*a*)	472,500	811,900
9	*Issues on Capital Account to Railway Companies, against receipts in England*	2,895,900	3,345,800
10	Council Bills *Sterling Account*	14,548,500	15,119,900
11	Do Exchange	6 110,400	7,019,100
	Add Closing Balance	11,581,400	12,900,001
		39,241,900	40,201,701

The transactions recorded in italics are connected with and explained by the corresponding figures of the Secretary of State's account in England The others are purely Indian transactions

(*a*) The explanation of this is omitted as it would be of a highly technical character It arises to a very large extent out of the exchange entries that are necessary in charging off exchange upon the English expenditure and in connection with Railway Companies and other Remittance accounts

RUPEE LOAN OF 1888 89

97 By Notification No 2952, published in the *Gazette of India, Extraordinary*, of 2nd June 1888, tenders were invited for a Public Loan of Rx 3,000,000, the notes issued for this amount to form part of the 4 per cent Loan of 1865 Tenders were received up to the 3rd July following, on which date they were opened simultaneously at Calcutta, Madras, and Bombay The total amount tendered was Rx 7,705,680, and the result was as follows —

	Rx
Accepted at minimum rate, *viz*, R99 11 (60 45 per cent)	493,150
Above that rate	2,506,850
TOTAL	3 000,000

The actual amount realised was Rx 2,993,650, or an average rate of R99 12-7 per 100 Rupees

The permission to tender at Madras was an innovation intended to satisfy a local demand, and was made use of to some extent, the aggregate value of the tenders at Madras was Rx 686,000, of which Rx 82,550 were accepted

The account in paragraph 96 shows a net receipt on account of Public Loan of Rx 2,777,500 and not of Rx 3,000,000 It will be understood that the difference of Rx 222,500 represents the reduction of debt during the year, in connection with the conversion of the 4½ per cent Loan of 1870, and payment of Stock Notes and other loans under discharge

CONVERSION OF 4½ PER CENT LOAN OF 1870

98 The 4½ per cent Loan of 1870 matured on the 15th July 1885, and as 4 per cent paper was above par in July last, it was determined to convert the Loan into one bearing interest at 4 per cent, and to pay off all Notes which were not converted It was accordingly notified on the 27th July 1888 that all Notes or Stock Certificates of this Loan would be paid off on the 27th October 1888, on which date the interest on them was to cease But proprietors of such Notes or Stock Certificates were allowed the option, which had to be exercised

before 1st September 1888, of transferring their holdings into the 4 per cent Transfer Loan of 1865 The terms offered were as follows —

I —Payment of Interest at 4½ per cent to 31st October 1888 inclusive

II —Issue of Notes of 4 per cent loan of 1865, bearing interest from 1st November 1888

III —A further payment of two annas per R100 in India and of two pence per R100 in England as brokerage or commission to the persons presenting the Notes for transfer

* These terms were very generally accepted Rx 1,490,000 out of Rx 1,787,540 were at once transferred into the 4 per cent Loan of 1865 and less than Rx 200,000 have been demanded in cash

99 In order to distribute the payments for interest more evenly over the year, it was decided in December last to allow transfers from other 4 per cent Loans to the Loan of 1854 55, of which the dates for payment of interest are 1st January and 1st July It is expected that this will prove convenient both to the Public Debt Office and to the holders of Stock

STOCK NOTES

100 With the object of affording greater facilities to the public for the investment of small sums at interest, securities termed Stock Notes were issued in 1882 as an experimental measure

These notes were of four denominations, namely, R12½, R25, R50, and R100 respectively They were issued at par and bore interest at 4 per cent payable yearly, but were not enfaceable to Europe After six years' experience it was found that the public would not adopt these securities as a regular form of investment, and it was decided to discontinue their further sale and to withdraw, as far as possible, those in circulation, amounting to Rx. 162,350, by substituting for them Government Promissory Notes of the 4 per cent Loan of 1842 43 Accordingly in August last, orders were issued, authorizing (1) the payment in cash at par at any Treasury in India of Stock Notes of less value than R100, and (2) the conversion into Government Promissory Notes of the 4 per cent Loan of 1842 43 of any amount of Stock Notes tendered in even hundreds of rupees, at a premium of eight annas per cent (altered to par from 24th January last)

The following amounts of Stock Notes were reported as discharged up to the end of February last, namely —

	R
Tendered for conversion	10,68,000
Paid off in cash	3,31,686-8
TOTAL	13,99,686 8

leaving R2,23,813 8 as the balance outstanding on the 1st March 1889

INDIAN SAVINGS BANKS

101 There are two classes of Savings Banks, namely, (*a*) the Presidency and Post Office Banks, which are open to the public, and (*b*) Banks established for the benefit of servants of Government, such as the Railway and Civil Engineers' Provident Institutions and the Regimental Savings Banks

In class (*a*) there were, on the 31st of March 1888, 300,560 depositors, with an aggregate balance of Rx 6,217,700 at their credit, and in class (*b*) 31,616 depositors with Rx 457,800, making a total of 332,176 depositors, to whom Rx 6,675,500 were due Of this amount more than Rx 5,100,000 had been

received from Natives, and the balance from Europeans and Eurasians In the previous year there were 289,277 depositors in all, with Rx 5,795,200 at their credit There was therefore an increase in 1887 88 of 42,899 in the number of depositors and of Rx 880,300 in the amount deposited in excess of withdrawals Moreover, in all Banks, except the Military ones, the average balance at credit of each depositor was considerably larger than in 1886 87

The interest paid to depositors in 1887 88 was Rx 224,049, and only Rx 196,910 in the previous year

It is no doubt very satisfactory to be able to point to such evidence of the growing popularity of these Banks But as facilities for persons residing in the interior of districts for investing money in Government securities have of late years been considerably extended, and as Savings Bank Depositors are allowed to purchase and sell these securities through Post Office Banks, and also to deposit them for safe custody, it seemed unnecessary and, for some reasons, it was certainly undesirable, to maintain the existing high limits for deposits Accordingly, on the 19th January 1889, orders were issued directing that, with effect from 1st April next, the yearly limits of deposits should be reduced from ₹500 to ₹200, and the maximum limit for each account from ₹3,000 to ₹2,000 It has been estimated that the effect of these orders will be to make the net addition to our cash balances in 1889 90 on this account only Rx 564,500, the corresponding figures in 1887 88 and 1888 89 (Revised Estimate) being Rx 880,300 and Rx 981,300

Capital Expenditure of Government in India

102 The reduction in the Estimate from Rx 2,662,800 to Rx 697,200 is the result, as explained in paragraph 36, of the credits afforded (*a*) by the transfer of the cost of the Sindhia Railway to the Capital Account of the Indian Midland Railway (Rx 921,000), (*b*) by transfer of the cost of the Katni Umaria Railway to the Capital Account of the Bengal Nagpur Railway (Rx 485,700), (*c*) to a provision of Rx 200,000 for taking over metre gauge stock from the Bengal Nagpur Railway, not having been required as part of the stock has not yet been valued, and the Southern Mahratta Company took over the rest, and (*d*) to various lapses

Calcutta and Bombay Dock Loans

103 In the last Financial Statement it was explained for what reasons and under what conditions the Government undertook to raise and advance, to the Port Trustees of Calcutta and Bombay, funds for the construction of the Kidderpore Docks, and for the extension of Prince's Dock

The advances made on this account by the Government to the Port Trustees of Calcutta and Bombay have been as follows —

Advances	Calcutta Rx	Bombay Rx
Up to the end of 1887 88	860 700	768,400
In 1888-89 (*a*)	496,800	80,000
TOTAL	1,357,500	848,400

In 1889-90 the Trustees will, it is estimated, require funds to the following extent —

Calcutta Rx	Bombay Rx
549,000	35,000

(*a*) Partly estimate

Interest is payable on all these sums half-yearly, on the 1st May and 1st November of each year, at the rate at which Government borrows money in India in the year in which the advances are made, and the repayment of the principal is secured by a sinking fund of one per cent

The further amount which the Government will have to advance on these accounts after 1889 90 is estimated at Rx 426,100

Issues on Capital Account to Railway Companies

104 The increase from Rx 2,895,900 to Rx 3,345,800 is the net result of over-estimates by the Companies, and of the transfer, as explained above, of the cost of the Sindhia Railway to the Capital Account of the Indian Midland Railway and of the Katni-Umaria Railway to that of the Bengal Nagpur Railway

Management of Government Balances

105 The present year has seen a great scarcity of money in the Indian markets, which has kept the Bank rate at 12 per cent for a considerable period, and, as usually happens in such cases in this country, the question has been raised whether Government might not in some way come to the assistance of trade

The scarcity is no doubt owing in part to an early cotton season in Bombay coinciding with a demand for rice in Burma, and other customary requirements at this season, but the root of the difficulty appears to be the doubtful position of silver But for this, it seems inexplicable that for week after week there should be a difference of 9 per cent in the rate of money in London and India, and yet that in some weeks the whole amount of bills and transfers offered by the Secretary of State should not be taken up

106 That so high a rate of interest is prejudicial to trade is obvious, and Government has not been unmindful of the fact The best way in which Government can assist trade is by providing that the Secretary of State's drawings shall never be curtailed for lack of money to meet them, and in one week demands for bills and telegraph transfers exceeded 77 lakhs Arrangements are also made to grant telegraph transfers freely at a small charge between the three Presidency towns, and Government, besides keeping up the normal current balances, has further been able to offer to the Presidency Banks at Calcutta and Bombay temporary loans at their own minimum rate of interest if they cared to avail themselves of the offer

107 As the Treasury balances are nearly two crores below last year, and in fact lower than they have been for twenty years at this season, all this would scarcely have been possible without the assistance derived from what are called "currency transfers," a system which, while preserving the Reserve of the Paper Currency Department intact for the payment of the currency notes, yet gives the advantage of a large balance that can be made available without the delay of actual remittance, wherever it may be wanted Thus in the present month the accruing revenue of the opium districts has been allowed to remain in those districts in the charge of a currency agency, an equivalent being immediately released to the Treasury in Calcutta, a fortnight hence this money will be wanted for payments to opium cultivators in the districts, but by that time the Land Revenue from Eastern Bengal will have been received, and being in like manner made over to the Currency Department will liberate the coin where it is wanted

108 The charge that Government does not do all it might to assist trade, sometimes takes the form of an assertion that the currency balances

should be lent out in a time of pressure This is of course impossible, as the currency balances are pledged by law to secure the convertibility of the currency notes, and can no more be lent to the market than can the gold in the Issue Department of the Bank of England

109 Another contention is, that the cash balance of the Government of India is too high Now the question whether the Government cash balance is too high or too low, is one that must be determined by the experience of those who actually deal with that balance, and are responsible for seeing that there is sufficient money in the treasury to meet all the claims against Government

I do not think I exaggerate when I say that every person who has experience of the actual work of dealing with the balances in this country is in favour of rather a high cash balance The question has been frequently considered both in India and in England, and though a cash balance of 10 to 13 crores may seem enormous, yet if we reflect on the special difficulties in the way of suddenly obtaining a large amount of cash in this country, on the sudden and large demands to which Government is exposed, and on the enormous extent of country over which the balance has to be spread, it will easily be recognised that the mere fact of the cash balance being large is no proof that it is larger than is required by the wants of the case

Some authorities hold that, if anything, the Indian cash balance has been kept somewhat too low in recent years In that opinion I am inclined to concur The cash balance of recent years has been low, because the claims against the Government were heavy owing to expenditure of all kinds, and it was thought desirable to avoid borrowing more than was absolutely necessary

110 I have mentioned the allegations (1), that Government ought to lend out the currency balance, and (2), that Government keeps too high a cash balance, simply in order to clear the ground There is no force in them, and they could only be made by persons ignorant of the facts of the case I now come to what is the real question, namely, the expediency of the maintenance of the Reserve Treasuries in the Presidency Towns Should the Government keep the whole of its spare cash in the Presidency Banks, or should it aim at keeping balances of tolerably constant amounts in those Banks, the surplus being kept in the Reserve Treasuries? This is a question which deserves consideration, and on which there may reasonably be a difference of opinion, though I can hold out no hope of any change in the policy of Government in this respect

The justification for the existence of the Reserve Treasuries is to be found in the special conditions affecting the Indian money market These special conditions are the liability of that market to extreme pressure at times, the difficulty in adding temporarily to the amount of cash by drawing on other markets, and the magnitude of the cash transactions of the Government as compared with those of the trade Under the circumstances I have just stated, and looking to the fact that the Government in case of war, famine, or other unexpected cause, is exposed to the risk of having to meet sudden and large demands on it for cash, it was decided by Lord Northbrook's Government that it would be to the interest both of the commercial public and the Government of India that the surplus cash, for the time being, of the Government of India in excess of certain regulated balances in the Presidency Banks and the cash in Mofussil Treasuries, should be kept in Reserve Treasuries

It was held that, if the whole of the surplus cash was kept in the Presidency Banks, trade would rely on the permanence of the resources thus supplied to it, and that, in case of a sudden demand for cash, the Government of India would either be forced to abandon its right to reduce its balance in the Presidency Banks, or risk producing a financial crisis by suddenly and largely reducing the resources of these Banks

To show that this is not an imaginary fear, I will quote a telegram received in 1874 from the Government of Bombay —

"Clear the line You are placing the exchange banks and trade of Bombay in great danger The eight Exchange Banks are indebted to the Bank of Bombay 68 lakhs of rupees, half payable on demand, secured by Government paper, and remainder in February Their balances for current purposes in the Bank of Bombay are under 20 lakhs of rupees, balance of other customers of Bank of Bombay exceedingly low Bank of Bombay has to meet Council Bills for 25 lakhs of rupees arrived from England this morning, and similar Bills for 20 lakhs of rupees will shortly arrive Bills on Calcutta absolutely unsaleable If you draw more on Bank of Bombay, they must call in the sums due from the Exchange Banks, and there will be a general panic and serious danger of stoppages"

There was at that time a Government balance of about 100 lakhs in the Bank of Bombay, and the proposed withdrawal, which called forth this startling protest from the Governor of that Province, only came to 35 lakhs I do not think a stronger argument could be produced to show the dangers that might arise if the Government of India reverted to the old system of keeping all its spare cash in the Presidency Banks The arguments which weighed with the Government of India in introducing the system of Reserve Treasuries are contained in a Despatch to the Secretary of State, No 256, dated 30th June 1874, it has been printed in the Appendix to this Statement It will show that the policy of the establishment of Reserve Treasuries was adopted deliberately and in order to meet real difficulties

111 It has been urged that Government could relieve the market by lending out the balance of the Reserve Treasuries on favourable terms to the Banks, but if this course were followed the same difficulties that arose when the Presidency Banks held the whole of the surplus balances would again occur Trade would become accustomed to rely on the resources furnished by the Government, and at a time of pressure the withholding of the assistance usually given by Government might have a very serious effect

Section X —Ways and Means—India, 1889-90

112 The Ways and Means Estimate of India, made up in the same form as in paragraph 96, is as follows —

	NET RECEIPTS	Rx
1	Excess of Revenue in India over the Expenditure charged against it	22,016,900
2	Public Loan	2,500,000
3	Increase of Unfunded Debt—mostly Savings Bank Deposits	629,700
4	*For Remittance to Secretary of State*	1,111,300
	Add Opening Balance	12,900,001
		39 158,901

	NET OUTGOINGS	Rx
5	Expenditure charged to Provincial Balances	640,800
6	Capital Expenditure of Government in India	2,224,600
7	Loans to Municipalities, &c	827,700
8	Other items	170,400
9	*Issues on Capital Account to Railway Companies against receipts in England*	1,221,400
10	Council Bills *Sterling Account*	14,690,900
11	Do Exchange	6,829,800
	Add Closing Balance	12,553,301
		39,158,901

PROPOSED RUPEE LOAN

113 It is estimated that a loan of Rx 2,500,000 will be required during the year, but no pledge can be given either as to the amount of the loan or the time when it will be issued, or the conditions which will attach to it According to the estimates, a loan of Rx 2,500,000 will give an ample cash balance, and if matters turn out favourably, it may not be necessary to borrow so much We expect, with this assistance, to close 1889 90 with a cash balance of Rx 12,553,301

LOANS TO MUNICIPALITIES, &c

114 Before 18 8 89 all loans and advances of public money were treated as advances on Imperial account The loans were made on the advice and through the agency of Local Governments, and Local Governments were so far responsible that irrecoverable sums were charged off as Provincial Expenditure But they had no concern with the punctual and complete realisation of the interest due on these advances, which was credited as an asset of Imperial Revenue At the instance of the Secretary of State the arrange nents were re considered, and the occasion was thought appropriate for extending the principle of decentralisation beyond the limits of the Revenue account The interest received on these loans is almost always higher than that paid by Government on its public loans, and by surrendering this advantage it was obvious that an inducement might be offered to Local Governments to undertake complete responsibility for the administration of this department of finance This responsibility was accepted in every case, the necessary arrangements were completed last year, and orders were published in the *Gazette of India* of 5th January 1889

115 In connection with this subject the question of lending from public funds to Municipalities and other public bodies was considered It was believed from the Secretary of State's observations in a despatch of September 1887, that, under the arrangements described above, sanction might be given to a relaxation of the restrictive policy which has been followed in this matter since 1876

116 Experience has shewn that the rigid refusal to lend money to small Municipalities and Local Boards has operated unfavourably in delaying and preventing sanitary improvement and reform It has been found that such bodies cannot raise money in the market, except at high rates of interest, and Municipalities have in several cases found it necessary in consequence to abandon, or indefinitely postpone, well considered schemes of drainage and water-supply The Government of India accepted the Secretary of State's invitation to review the question, and the Secretary of State has, in considera tion of the fact that, under the scheme described above, Provincial responsibility will be enforced, withdrawn the prohibition

117 It is not proposed at present to adopt the policy of lending to the Presi-dency Corporations, as they have a public credit of their own and can borrow, in ordinary cases, in the open market, while the claims on the Government of India are so great that it cannot without difficulty find the necessary funds But in pursuance of the principles enunciated above, Local Governments have been authorised to grant loans to Mofussil Municipalities in future, on the following conditions —

(1) Loans may be granted only for works of public and general convenience and utility, such as drainage and water-works, bridges and the like, and not for works which are merely or mainly ornamental or convenient, such as town halls, public gardens or market places

(2) A local body, having borrowed from Government, may not borrow from any other source until it has obtained the sanction of the Local Government concerned, which should not be given until it is clearly shown that the sum lent by Government, with interest thereon, is duly secured

118 I have stated that the rules regulating the new scheme were published in the *Gazette of India* on 5th January The demands of Local Governments have since been received These demands, so far as they relate to advances to cultivators, to embarrassed landed proprietors, and for drainage embankments and the like, have no special interest, as the only change in respect of them is the transfer of administration and responsibility As regards loans to Mofussil Municipalities, the importance attached to the change of policy will be understood when it is stated that, notwithstanding the short notice given, the applications for loans for Municipal sanitary purposes amount to Rx 254,900, which sum it has been found possible to place at the disposal of Local Governments The projects comprise schemes of water supply for Allahabad, Agra, Nagpore, Delhi, and Peshawar Although an important step has now been taken towards facilitating the carrying out of Local Works and Improvements, the large claims on the resources of the Government of India on account of Railway and Irrigation Works will prevent, for the present, any very important extension of the system

Section XI —Summary

119 The principal features of this Statement are summarised as follows —

(*a*) The Accounts of 1887 88 have closed with a deficit of Rx 2,028,832, including as expenditure Rx 455,017 on account of Special Defence Works Excluding the cost of these works, the deficit was Rx 1,572,815 This has resulted mainly from a special charge of Rx 1,059,000 incurred in connection with the convers on of the 4 per cent Sterling Stock into 3½ per cent, from heavy military expenditure in Burma, from a fall in exchange, and in the price of opium, and from a reduction in Railway Revenue, counter balanced by an improvement in Revenue and reduced Expenditure under other heads

(*b*) The Revised Estimates of 1888 89 show a deficit of Rx 201,700, including as expenditure Rx 818,300 on account of Special Defence Works, and a surplus of Rx 616,600, if the cost of these works be excluded Seeing that there has been a further fall in the rate of exchange, which has been taken for the current and coming year at 1*s* 4 38*d* = 1 rupee, heavy unforeseen expenditure on Military Expeditions, and a decline in the salt revenue owing to persistent rumours of an impending reduction of the duty, the result is satisfactory

(*c*) The Budget Estimates for 1889 90 show a surplus of Rx 106,300 after providing Rx 1,102,900 for Special Defence Works If the cost of these works be excluded, there is a surplus of Rx 1,209,200 Imperial revenues have received a special asset of Rx 740,000, towards which all Local Governments, except the Punjab, contributed Of this only Rx 250,000, most of which represents the proceeds of the re imposed Patwari Cess in the North-Western Provinces and Oudh, will be permanent, the remainder being a receipt of next year only

(*d*) The Capital Expenditure on Railways and Irrigation Works is expected to amount to Rx 1,857,800 in 1888 89, and Rx 4,089,500 is provided for 1889 90 The expenditure in 1888-89 is really Rx 3,264,500, but Rx 1,406,700 of it has been transferred to the Capital Accounts of the Indian Midland and the Bengal-Nagpur Railways on account of the cost of the Sindia and Katni-Umaria Railways transferred to them

(*e*) As regards the general financial position of the Government of India, while there is every need for economy and for husbanding our revenue, there is no ground for desponding or pessimist views There are probable difficulties in the future, but there are also reasons for holding that we shall be able to encounter them successfully The Estimate of Revenue for 1889-90 have been framed with moderation

(*f*) The Secretary of State proposes to draw, during 1889-90, £14,689,900 of Council Bills He also proposes to raise a loan of £3,750,000 under the Oudh and Rohilkhand Railway Purchase Act for the purpose of advancing funds to Railway Companies

(*g*) The Government of India will probably raise a loan of Rx 2,500,000 in India, of which Rx 584 000 is required for the Dock Works at Calcutta and Bombay, and Rx 254,900 for Municipal Water Works, but no pledge can be given either as to the amount of the loan or the time when it will be issued, or the conditions which will attach to it

D BARBOUR

CALCUTTA,
March 27, 1889

APPENDIX I

Despatch from the Government of India, to Her Majesty's Secretary of State for India, No 256, dated 30th June 1874

We have postponed consideration of the Bill for the regulation of the Presidency Banks and of the agreements depending upon it, pending receipt of the decision of Your Lordship in Council on the question of the agency of the Bank of Bengal in Bombay, in regard to which we forwarded with our despatch of the 9th January, No 17, a letter from the Directors of the Bank of Bengal

2 The strain to which our finances were exposed early this year has given us the advantage of an experience which we had not when the terms of the new agreements were last under our consideration

3 We have been much impressed with the consideration that the effect of the existing agreements with the banks which compels us to place all the cash balances belonging to Government in their hands leads to consequences which may be very inconvenient, if not worse both to Government and to trade

4 The only use of these balances to Government is that they may be made available the moment the public service requires them

5 We have had no difficulty in regard to the balances in the hands of the Banks of Bengal and Madras the Bank of Bombay however, protested against meeting drafts upon it, and on the urgent representations of the Governor of Bombay, we were obliged, on the 29th January, to allow a month s time before drawing

Progs May 1874 Nos 33A & 33 B

6 The Bank of Bombay accustomed to high Government balances and relying on the maintenance of those balances, had so employed them that they were practically locked up for had we insisted on withdrawing them more suddenly, we should have done so in the face of a warning that we should produce a commercial crisis, and therefore for a time the Government balances at Bombay were useless for the purposes of the Government

7 We think it doubtful, moreover, whether it is any real advantage to trade that large Government balances should be kept in the hands of the banks It appears to us that an element of uncertainty is thereby introduced into the money market not unlikely to aggravate commercial difficulties at a time of tightness

8 An amount of capital which is large relatively to the whole capital engaged in trade at the Presidency towns is supplied by Government, but Government, for reasons quite unconnected with trade, may have to withdraw these balances suddenly

In this case a sudden demand ensues for capital to replace that which is thus removed the rate of discount rises, not from any commercial reason, but from the accident of State necessities, and if this should occur at a time of commercial pressure, it would precipitate a crisis which otherwise might not occur If Government did not supply this capital to the trade, it would be found by private individuals through banks or in some other way

9 Had the Government funds in the hands of the banks in January last been limited to a fair working balance, and had we had a reserve in our own hands, we think it may be assumed that the market rise in the rates of discount which has occurred would not have taken place, and our business would have been transacted without disturbing trade operations

10 The resources of a large money market are not open to us, and we do not think it would be safe to trust to being able to raise funds readily and immediately in India The amount (£350,000) that we wanted in January out of our balance of about a million with the Bank of Bombay, and the demand for which brought down the remonstrance that we should place in jeopardy the trade of Bombay, cannot be considered as large Calcutta may have larger resources, but we cannot suppose that even here the supplies immediately available are really considerable

11 We are of opinion that a Government subject to the contingencies to which the Government of India is exposed ought not to be without a reserve, and that this reserve should be in its own hands

12 This object might be attained by dissolving our connexion with the banks and re establishing our treasuries We are unwilling to take this course unless forced to do so the banks are useful institutions, and the Bank of Bengal especially has upon several occasions been of great assistance to the Government

13 We should prefer, as an alternative plan, to make a change in the agreements with the banks, so that, instead of giving them the right to hold all the Government balances, the stipulation may be confined to engaging to pay them interest when our balances are reduced below certain amounts

If it be necessary to go further than this, we might stipulate that the banks should have the use of our balances up to certain limits, after which we should be unfettered as to their employment The exact sums to be fixed in connection with the proposed stipulations would be settled in communication with the banks

14 The amount to be kept in reserve need not, in our opinion, be very large, as the main difficulty is one only of time The sense of security which we should derive from the possession of a reserve of two millions immediately available for any emergency would, in our judgment, amply repay the charge for interest on that amount

APPENDIX II

† Approximate Estimates

‡ It is estimated that stores to the value of Rx 25,000 will be in hand at the end of 1889-90

§ A Revised Estimate has been called for.

* Not known separately. Included under North Western Railway above

‖ These represent sums held in Reserve for expenditure likely to be incurred during 1889-90, if the projects are sanctioned.

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and prospects of the Crops.

Madras —*For week ending 23rd March, 1889* —Slight rain in Ganjam, Tanjore, Madura, Tinnevelly, Coimbatore, Nilgiris, Salem, and Malabar, none elsewhere Rain wanted in Ganjam, Vizagapatam, Cuddapah, Anantapur, North Arcot, Trichinopoly, Tinnevelly, and Coimbatore Standing crops generally good, but wet crops withering in parts of Cuddapah, Anantapur, and Kurnool, late crops withering or diseased in parts of Bellary Pasture deficient in Ganjam, Vizagapatam, Tinnevelly, Coimbatore, Salem, and Malabar Prices rising in ten districts, falling in six and stationary in others General prospects favourable except in Ganjam, improving in Coimbatore Labourers employed on last day of week on Rushikulya works 6,623 and on Gopalpur canal 8,191

Bombay —*For week ending 27th March, 1889* —Rain in parts of Shikarpur and Upper Sind Frontier Late crops in three talukas of Surat and one of Sholapur unsatisfactory Exotic cotton in parts of Dharwar blighted Opium in Baroda good Harvesting progressing generally, and preparations for next season's crops commenced in parts of Karachi, Ratnagiri, Sholapur, Bijapur, Kanara, and Kathiawar Probable outturn of late crops in Belgaum from six to nine annas Fodder scarce in Khandesh and parts of Karachi, Ratnagiri, Poona, Ahmednagar, Dharwar, Kathiawar, and Baroda

Bengal —*For week ending 26th March, 1889* —Showers reported during the week in several districts of Bengal Proper, Orissa, and Chota Nagpore, but no rain in Behar The rain there has done good to the spring rice, which is doing well, and has also facilitated the ploughing and sowing of autumn rice and jute More rain is still wanted in Central and Eastern Bengal The *rabi* harvest is proceeding and a fair outturn is generally expected, but in Chota Nagpore the crop will be rather short The extraction of opium is nearly over, and the weighments are about to begin In Behar *cheena* and *mung* are doing well, and the indigo sowings are nearly finished Sugarcane is being planted satisfactorily *Mohua* is being gathered and promises well but in Manbhoom the crop has been damaged by high winds, and the outturn will not exceed eight annas The latest report regarding the affected tracts in the Patna Division shows that distress is more keenly felt in Dalwa and Madhwapore in the Durbhanga district, that the attendance on the relief works in Mozufferpore has considerably increased, that in Chumparun works have been opened for the infirm, old and young, and that gratuitous relief is being given on a limited scale

North-Western Provinces and Oudh —*For week ending 27th March, 1889* —Weather seasonable Slight rain in some districts Harvesting of *rabi* continues and a good outturn expected Opium extraction in progress Supplies ample Prices falling

Punjab —*For week ending 27th March, 1889* —Slight rain in a few districts Prices falling in Delhi, Amballa, Lahore, Rawalpindi, Shahpur, Dera Ismail Khan, and Peshawar, and stationary in other districts Ploughing for *kharif* in progress, sowings for cotton and sugarcane have also commenced Prospects of *rabi* crops are generally good throughout the province No damage done to crops Stock cattle are healthy Fodder sufficient except in Lahore Poppy crops are reported good in Jullundur and Amritsar

Central Provinces —*For week ending 27th March, 1889* —Weather cloudy with storms in Jabalpur and Seoni Hail has caused damage in Jabalpur Anticipated wheat outturn, Saugor 11, Hoshangabad 5½, Nagpur 12, and Bilaspur 9 annas Scarcity of water felt in places

Burma —*For week ending 23rd March, 1889* —A little rain fell in several districts in Upper Burma, except in Bhamo where more rain is required The dry

weather crops promise well The price of paddy has risen in Akyab, Rangoon, Tharrawaddy, Bassein, Thongwa, Henzada, and Magwé Prices are lower in Prome, Amherst, Tavoy, and Pyinmana, and elsewhere are stationary

Assam —*For week ending 27th March 1889* —Weather warm, moderate rainfall in most districts Sowing of summer rice progressing well, pressing of sugarcane nearly finished Tea operations commenced

Mysore and Coorg —*For week ending 27th March, 1889* —No rain in Mysore Standing crops in good condition, except in parts of the Kolar district where want of rain is felt Prospects generally favourable Fodder and water-supply reported to be deficient in parts of the Mysore district Prices slightly risen in the Kadur district

Rain has fallen in parts of South Coorg during the week

Berar and Hyderabad —*For week ending 27th March, 1889* —Cultivators engaged in threshing *rabi* crops, and preparing the soil for the ensuing season in Berar Prospects favourable Agricultural stock generally good Fodder and water insufficient in certain districts Prices somewhat high in the Akola and Ellichpur districts

No rain in Hyderabad during the week Weeding of hot weather crops finished Harvesting of *rabi* continues Tanks and wells drying up for want of rain Prices stationary

Central India —*For week ending 27th March, 1889* —Slight fall of rain in Baghelkhand and Western Malwa Agencies Agricultural operations reported completed in Bundelkhand Prices of food grains continue to fall in Bhopal Weather warm and cloudy in Bhopawar and Indore

Rajputana —*For week ending 27th March, 1889* —Good rain in Alwar, slight in Harowti and Bikanir Agricultural operations satisfactory Standing crops being harvested Harvests poor in Kherwara, above average in Kerowli Agricultural stock good Pasturage or fodder sufficient except in Marwar, Kherwara, Meywar, and parts of Serohi Prices falling at many places Opium satisfactory in Kotah and Jeypur, damaged in Harowti

Nepal —*For week ending 21st March, 1889* —Slight rain Mornings and evenings cool Weather beginning to be hot during the day Prospects good

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VICT, CAP 67

The Council met at Government House on Friday, the 29th March, 1889

PRESENT

His Excellency the Viceroy and Governor General of India, G C M G, G M S I, G M I E, *presiding*
His Honour the Lieutenant Governor of Bengal, K C S I, C I E
The Hon'ble A R Scoble, Q C, C S I
The Hon'ble Sir C A Elliott, K C S I
The Hon'ble P P Hutchins, C S I
The Hon'ble Sir D M Barbour, K C S I
The Hon'ble R Steel
The Hon'ble F M Halliday
The Hon'ble Syud Ameer Hossein, C I E
The Hon'ble Rájá Durga Charn Laha, C I L
The Hon'ble G H P Evans
The Hon'ble Maung Ôn, C I E, A T M
The Hon'ble Muhammad Ali Khan
The Hon'ble J W Quinton, C S I

NORTH WESTERN PROVINCES AND OUDH KANUNGOS AND PATWARIS BILL

The Hon'ble MR QUINTON moved that the Bill to authorise the imposition of a Patwari rate in the North Western Provinces and Oudh, and make certain provisions respecting Kanungos and Patwaris in those Provinces, as amended, be passed

The Hon'ble MR EVANS said —

"The Financial Member is to be congratulated on the lucid exposition he has given of the present financial position That position is distinctly better than was generally expected The diminution of the estimated deficit for 1888 89 and the estimate for a small surplus for 1889 90 in the face of increased expenditure and without the imposition of additional taxation are welcome surprises, though accompanied by a note of warning as to the future No one will expect from me a detailed criticism of the Budget I am not an expert in finance, and my time is too fully occupied for me to be under any temptation to attempt the *rôle* of an amateur financier, but I propose to make a few remarks upon certain points

"The difficulties besetting Indian finance have been graphically described by Sir David Barbour Famine and war—the act of God and the Queen's enemies—are beyond our power to avert, and there is no international insurance company to guarantee us from loss from such causes We are our own insurers As to the first, we are doing our best to mitigate the evil by improved means of communication between different districts and provinces As to the second, we are doing our best to make it a dangerous and hazardous thing for any enemy to attack us, but the expenses are much increased and efficiency diminished by the short service system, with the expensive and useless transport which it necessitates The advantages of the short service system are advantages to England not to India

"As to the opium revenue, the uncertainty of the future is great, but I have heard of no proposal by which it can be lessened We can only hope

for the best and look out for fresh sources of revenue should this dwindle away in course of time

"But the fourth difficulty—the exchange—is one which high and competent authorities believe can be dealt with and practically removed by international agency

"Though I, like most other people in India, have devoted some consideration to this problem and have had the opportunity of seeing the report of the late Commission and the evidence taken, yet the questions involved are far too complicated for me to offer any opinion on the details of the schemes that have been proposed for the removal of this great source of embarrassment

"There are, however, one or two great facts and principles that seem to stand out clearly beyond the sphere of doubt or uncertainty

"It seems clear that it cannot be for the advantage of the empire as a whole that there should exist within its limits two monetary standards varying largely and rapidly in relative value

"In the present days of keen competition of telegraphs and of steam communication, any cause which hampers trade and impedes the free flow of capital to the fields where it may be most profitably invested must be injurious There can be no doubt that the absence of a common money standard between England and its Colonies on the one hand and its Eastern Empire on the other hand produces these evils

"By introducing an additional element of uncertainty it puts difficulties in the way of honest and legitimate trade and makes business more risky

"We have just seen the bank rate in Calcutta standing week after week at over 12 per cent, while the London rate was 3 per cent or under We all know the difficulty of inducing English capitalists to lend money in India They are shown the return they will get in rupees, but their answer is—what will the rupees be worth when we get them? In India there is a reluctance to take sterling loans, for the borrower cannot tell how many rupees will repay the interest or principal at a future date

"The Budget statement now before us shows clearly the embarrassment to which the present state of things subjects the finances of this country, and the danger of future serious alteration in the relative values of gold and silver appears to be very great

"I understand that the United States now coin every year £5,000,000 sterling of silver This they cannot continue to do permanently unless they are prepared to adopt a silver standard

"There are also rumours of Russia and other countries wishing to adopt a gold standard Any one of these changes would probably have a serious effect on the relative value of gold and silver

"I see no method by which we can get over the uncertainty which now hangs over the future except by an international agreement or understanding of some sort, and I hope that the Government of India will continue to press the importance of this question on the attention of Her Majesty's Government in England

"This period of pressure, when the Provincial Governments have been obliged to come to the assistance of the imperial revenue, is not an opportune moment for inquiring which taxes are most objectionable, or for urging increase of expenditure which is not absolutely necessary But I deem it my duty to draw attention to certain facts connected with the administration of justice in Bengal The surplus revenue produced by the administration of civil justice in Bengal (appearing under the head of Court-fees) is according to the figures supplied by the High Court over 30 lakhs per annum I understand the correctness of these figures was not admitted by the late Financial Member, though he never produced any statistics to contradict them Whether they are correct or not, it cannot be denied that the surplus is large This surplus is said to be applied in meeting the deficiency arising on the administration of civil justice in other parts of the Empire I will not now discuss the justice of taxing the litigants of Bengal to meet the costs of litigation in other provinces

"The point I desire to bring forward is the narrower but graver one that, notwithstanding the surplus arising from civil litigation in Bengal, the provision made for the administration of civil justice in that province has been insufficient The High Court has more than once of late years drawn the attention of the Government to the fact that the provision made for the administration of justice in Bengal is inadequate, that while the business and the surpluses have increased by leaps and bounds, the increase of the subordinate judiciary has not kept pace with it, that the strain on the Subordinate Judges is excessive and the arrears heavy, while the number of Munsifs is wholly inadequate, that the prevalence of sickness amongst officers of the Subordinate Judicial Service and the frequent collapse of health, and even more serious consequences, are largely due to the unhealthy and ill ventilated huts in which those officers have to hold their Courts and to excessive overwork

"It is reported that the High Court recently asked for the appointment of a large number of Additional Munsifs to cope with the continually increasing current business and with the arrears, and that the Local Government recommended the sanction of a certain number, being less than what the High Court asked for, but that the Government of India cut down heavily the number recommended by the Local Government and sanctioned a much smaller number and appointed a commission to make inquiries with a view to future alteration in the system I do not suppose the High Court to be infallible The High Court may study efficiency more than economy, but if and so far as the High Court and the Local Government are agreed upon a question so particularly within their knowledge,—the number of Munsifs now needed in Bengal,—it appears to me that the Government of India has taken a heavy responsibility in not acceding to the demand The zamindars of Bengal, who have to pay their revenue to the day, have just cause of complaint when they cannot get their rent cases speedily tried for want of sufficient Munsifs That there are not enough Munsifs for the work is a patent fact, and the High Court was of opinion, at the passing of the Bengal Tenancy Act, that it would not be safe at present in the interests of the raiyats to secure greater speed and economy by a more summary method of trial, and in this opinion the Governments of Bengal and India agreed It would thus appear to be the bounden duty of the Government having a surplus from this source to provide the necessary number of officers, while it is far from clear that the duty has been performed The commission, whatever future reforms it may recommend, will not try cases or relieve the present pressure

"The other evils—insufficient accommodation and an insufficient and underpaid establishment—are equally patent to all who are acquainted with the mufassal of Bengal They have grown up gradually under former Governments and intensified, and it would not be fair to ask the present Local Government to cure them at once by a stroke, as it were, of the pen

"I am aware that the Local Government has recognised these evils and attempted to meet them, but has been hampered by want of funds Some progress has been made and a good deal of money spent on the larger Courts But the state of things is unsatisfactory, and it is right that attention should be drawn to the fact that the department which is in this unsatisfactory state is one which actually not only pays its way but yields a large surplus

"Last year, on the passing of the Petroleum Bill, I drew attention to the possibility of some relief to our finances from a complete overhauling of the home charges I will not go over the same ground again I understood that the Secretary of State was about to appoint a commission to enquire into various matters connected with those charges, but I have not heard of any result as yet

"With regard to the future, I venture to think that the Government might profitably turn their attention to the possibility of a general succession duty It is a tax unobjectionable in principle It cannot be so difficult to work or so vexatious as an income tax, the yield would be considerable if a working scheme could be devised, and the revenue authorities instructed to see that the duty was collected and not evaded, instead of the collection being left entirely in the hands of the Civil Courts, as is the case with such succession duties as are now paid by a limited class of the inhabitants of India"

The Hon'ble RAJÁ DURGA CHARN LAHA said —' I must confess to an agreeable surprise I never expected that there would be a surplus, no matter how small There was a general apprehension of a deficit The Finance Minister has given us a surplus, which is so far satisfactory Looking, how ever, to the means by which this surplus has been brought about, I am bound to say that the financial position does not seem to me to be in a sound condition The surplus this year has been produced by taking a contribution of 74 lakhs of rupees from the Provincial Governments The Imperial Government has been benefited by this contribution, it is true, but the resources of Local Governments have been considerably crippled I do not wish now to discuss the policy by which the Provincial Governments will be starved to supply the needs of the Imperial Government But it cannot be denied that the Local Governments will be great sufferers by thus ministering to the wants of the Imperial Government They will have to find means by local taxation to fill up the gap which has been created in their resources I may be permitted to mention the patwari cess by way of an illustration of what I mean Had it not been for the contribution which the Imperial Government has taken from the North Western Provinces, it would not have been necessary to impose this tax We thus see that, though the country will be saved from imperial taxation this year, there may be taxation in another form in the provinces, and thus it is clear that the provincial contribution has in no way relieved the financial pressure of the country If the provincial contribution be left out, the budget estimates show a deficit of 64 lakhs of rupees Even if we take no notice of the temporary relief given by the accidental circumstance of there being a credit of 52 lakhs arising from the receipts on account of exchange on the capital transactions of rail way companies, we cannot shut our eyes to the fact that the financial out-look is anything but cheering The revenue is increasing every year, and still there is a deficit Within the last eight years nearly 16 crores have been added to the annual revenue, but the expenditure has increased in proportion Much of this expenditure may be unavoidable, but still it may be possible to keep it in check by having a vigilant watch over it The Finance Minister tells us that there is no ground for desponding views Be it so But I must say that the financial situation of the Government of India has filled me with grave apprehensions

"It is by practising economy and husbanding the revenue that the financial equilibrium of the country can best be restored The Govern-ment of India is reducing expenditure in all its departments, consistent with the efficient administration of the country There is yet room for further economy, especially in the Public Works Department I have no doubt it will be effected when opportunity offers The curtail-ment of high official salaries wherever practicable will also, I hope, engage the attention of the Executive Government But it is not in India alone that there is room for economy The charges in England—the Home charges—are a severe drain upon the resources of the country We find that the expenditure in England is a great deal more than the country can bear This year the budget estimate of the amount to be remitted to England on account of the Secretary of State's Bills is £14 690,900, equivalent to about 21 crores of rupees In other words, nearly one fourth of our revenue is drawn by the Secretary of State There is an absolute necessity for reducing this amount, and, unless this is done, small savings here and there in India will not afford any appreciable relief to Indian finance

"The Finance Minister has referred to the falling off of receipts from the salt revenue This has been largely due to the groundless rumours regard-ing an anticipated reduction of the salt duty The Secretary of State recently stated that the earliest occasion would be taken to abrogate the in crease in the salt duty It must have been represented to His Lordship that the increased duty on salt is working great hardship on the people Such a representation, if it has been made, had no foundation in truth A slight increase in this duty would hardly affect the people one way or another I am certain it is neither harassing nor oppressive The incidence of taxation on account of increase in this duty is so small that the people hardly feel its

pressure The Secretary of State, therefore, need be under no anxiety on this account Not to speak of the evil effects of a frequent change of policy in regard to any important fiscal system of the country, the abrogation of the increased salt duty will entail a needless sacrifice of revenue—a sacrifice which will bring but little relief to any class of the community If the finances be in such a condition as to admit of any reduction of taxation, I would suggest that the taxes which act oppressively on the people be first taken away The income-tax is working great hardship No form of direct taxation is suited to our country If the income tax be abolished, it would afford a substantial relief and would be really appreciated by the people Another tax which operates prejudicially to the interests of the people is the rice duty It is a duty which greatly affects the material welfare of the people If it be reduced or abolished altogether, it is certain to add to the prosperity of the country If it be true that the peculiar circumstances of Burma make the rice duty take the place of the land tax in Bengal, that may be an argument for retaining the rice duty in Burma, but it is no argument for the retention of so burdensome an impost in the provinces which contribute their due share to the land revenue

"The Finance Minister is hopeful that the financial position of the Government of India will under ordinary circumstances show a decided improvement in a short time Let us all hope that this expectation may soon be realised

"In conclusion, my Lord, I earnestly trust that the people may under your *régime* enjoy freedom from further taxation May the patwari cess be the first and last form of taxation to be imposed on the people so long as Your Excellency is at the head of the Government'

The Hon'ble SYUD AMEER HOSSEIN said —"The hon'ble member in charge of finance is to be congratulated on his presentation to this Council of such a full, comprehensive and well balanced Financial Statement

"It is indeed satisfactory that in the face of so many and such various difficulties he has been able to show a surplus of Rx 106,000 in the Budget of the coming year

"I trust that the next year may be free from those unforeseen disasters which contribute so largely to the augmentation of public expenditure, and that through the usual elasticity of the existing sources of revenue the Hon'ble Minister may be able to show at the end of the year a much larger surplus than what he has very carefully estimated in the Budget, and he may be able to give some substantial relief to the payers of direct taxes, specially those who are taxed for an income below ₹1,000 per annum under the Income tax Act

"My Lord, the deplorable case of this class of tax payers deserves a merciful consideration at Your Excellency's hands, and I earnestly hope that an early opportunity may be taken by Your Excellency's Government to raise the existing taxable minimum from ₹500 to ₹1,000 The parties who pay tax under this class of the schedule are petty tradesmen and clerks in Government offices or in private employ They form the lower middle classes of the people, and have not only to live decently and appear in public in decent raiment but to maintain a large family Their necessities are such that, considering the general rise in the prices of the articles of food and clothing during the past twenty years, it is impossible for them to make the two ends meet with a paltry income varying from £34 to £68 a year

"Moreover, I very much doubt whether the administration of direct taxation in this country, notwithstanding the vigilance and careful supervision of the higher revenue-authorities, is as satisfactory as it should be It is open to question whether some of those who are returned by the assessors as drawing an income of ₹500 or upwards really enjoy that income

The case of European tax payers with small incomes is probably still harder They are not only required to live respectably and maintain a decent appearance in society but to send large remittances home under ruinous rates of exchange

"I have, however, no doubt, my Lord, that as soon as the Exchequer has attained an equilibrium the unsuitability of direct taxation to this country, especially to those that come under the lower classes of the schedule, will

force itself into Your Excellency's attention and the desired relief will be afforded, at least to the much suffering portion of the community"

The Hon'ble MR SUFFL said —

"At the previous stage of the Kanungos and Patwaris Bill it was remarked that there appeared to be no sufficient reason why the cess should not be reimposed on the same scale as before 1882 In reply several speakers have justified the reduction It has been shewn that the village accounts are valuable to Government for the purpose for assessing the land revenue Also that they are important to the Ouah raiyats as enabling them to protect the interests they have acquired under the Rent Act The conclusion is drawn that those who have an interest in the accounts should contribute to pay for them I confess the argument has not convinced me The zamindars held their interest in State property on the condition that they paid for keeping the accounts, and the fact that the accounts possessed value to others should not disturb this bargain It has also been suggested that, if the landlords had not been relieved from the ten lakhs, they would have been able to reimburse themselves by exactions from tenants at will It seems to me that, if they have the power of exacting money from their tenants, they are not likely to be restrained from doing so by the arrangement proposed The exactions of a landlord from a tenant at will must be regulated by the ordinary laws of supply and demand The fact that the ten lakhs are to be paid by Government will not apparently prevent the landlord from making the tenant pay the cess over again

"The fact is the arrangement appears to be the result of a compromise, and as such has been made the subject of commendation A compromise may often be a prudent settlement of a disputed question of law or of fact, but a compromise of principle is always objectionable The zamindars are naturally enough glad to settle by payment of two-thirds of the amount which might have been demanded from them, but, if we would follow the precedent of Solomon's judgment, the proposal to divide the child has identified the owner

"And now, My Lord, I beg to express the satisfaction of the public that Government should have followed the precedent of last year, by giving an opportunity for the discussion of their financial arrangements in this Council The Hon'ble Finance Minister is to be congratulated upon the extremely able and interesting statement he has laid before us Considering the intricacy and difficulty of the subject with which he has to deal, he has thrown very clear light upon the situation The results of the past year, if they cannot be deemed altogether satisfactory, are at any rate better than the public had reason to apprehend The falling off of the revenue of the East Indian Railway is an unfortunate feature, especially as this seems to have arisen from causes which may permanently depreciate the value of that splendid property The temporary falling off in the quantity of salt which has paid duty I look upon without any concern My hon'ble friend has given us an explanation He has attributed it partly to the mistaken notion that the duty was likely to be reduced But there is another reason which has had an important influence in reducing the amount of duty paid in Bengal during the past year This is the advance in the rates of freight on salt from Liverpool to Calcutta The duty of R2 8 per maund is a fixed charge Until this unfounded rumour arose the dealer in salt has had no object in delaying his purchases in the expectation of a reduction in the duty But if he had been accustomed to buy salt in bond at 8—10 annas per maund, and the price advanced, as it has done, to R1 per maund in consequence of higher freight, then he would look upon the advance as due to a temporary cause and would restrain his buying in hopes that the bonded price would come down to its old level In so doing he would act upon the reasonable principles which govern the operations of trade We may rely upon it that the consumption of salt is going on just the same as before, and increasing with the increase of the population and the improvement of communications The stocks in the hands of dealers and petty shopkeepers have been depleted, but these stocks will have to be replenished, and the amount of duty paid in the future will be all the larger in consequence I may say with confidence that not a single coolie has used a pinch of salt the less in consequence

of the advance in the duty The progress made in the improvement of the revenue of Upper Burma is a promising feature, and we may hope that with the pacification of that province one of our principal financial difficulties will disappear

'On the expenditure side I feel no inclination to complain of the charges for military works, frontier railways and improved arms of precision for our soldiers It is for Your Lordship's Government to obtain the best professional advice on these matters, and, having made up your mind as to the value and necessity of the measures proposed, to carry them out with due regard to economy. You may rely upon the support of public opinion in incurring expenditure necessary for the protection of the empire

'And now, my Lord, I will make some observations concerning the arrangements for the coming financial year When considering how I might best avail myself of this opportunity, the first thought that occurred to me was the difficulty of making any practical suggestions The financial policy of Government has been decided on after mature consideration The assent of the Secretary of State has been obtained The Finance Minister has been for many weeks engaged upon his budget This budget consists of an enormous mass of figures, dealing with the income and expenditure of an empire containing a population of two hundred millions It is complicated by the separation of accounts relating to productive and non productive works—by expenditure on works which, when complete, will be productive, but which, while as yet incomplete, yield no revenue—by loans to municipalities repayable by aid of sinking funds—by considerations of exchange, affecting not only our annual gold obligations but also our gold indebtedness It is indeed the most intricate body of accounts ever submitted to a consultative assembly We have had two days to consider it, and I think I may say that even cursory examination of such materials in so short a period is beyond the powers of man Even if it were possible to analyze the figures and found upon them any adverse criticism of the budget, it would be impossible for Government to alter on the 29th of March a single arrangement which must come into force on the 1st of April To one accustomed to deal with financial matters from a practical point of view, the attempt to comment upon such a budget is indeed a discouraging task I believe, however, that a discussion may have a remote, but yet a practical, value For the coming year we can do nothing but accept the budget as it stands It is however, possible that an expression of public opinion may influence the Government in future years I think I may say that in past years our finance has been administered without any support from instructed public opinion in India At the same time it has been subjected to a certain amount of deleterious influence through pressure on Secretaries of State, by grievance mongers ignorant of the wants and wishes of the people of India, but confidently declaiming in their name We have reason to hope that it is now the policy of Government to give us as much influence as possible in the management of our own affairs With further progress in this direction we may hope that the stump orator's occupation will be gone Anything that strengthens the hands of the Government of India will, I am satisfied, be a gain to this country, and nothing will effect this except the support of a body of enlightened Indian public opinion With this behind them our Government may disregard all the clamour of interested agitators

"Concerning the budget proposals then I have little to say The estimates of income appear moderate, and I think there is reason to hope they will be exceeded The expenditure proposed in the estimates does not suggest to me any special remark The Hon'ble Member proposes to borrow 2½ crores of rupees in India, and I think it right to say a word on the subject of loans We have the choice of borrowing silver in India or gold in England, and I wish to give my reasons for thinking that the former is a most wasteful and extravagant course We can borrow gold at 3 per cent, and we have to pay 4 per cent for silver There can be but one reason for preferring the latter course, and that is the prospect of such a decline in the value of silver as shall deprive us of the benefit of this difference in interest Now, if it be desirable to insure ourselves against the risk of a decline in silver, is this a reasonable premium to pay? The difference

is one fourth of our interest charges If we borrow gold, we will effect an economy unless and until the value of the rupee falls below one shilling Now would it not be much better to borrow on the cheaper terms even if we thought it right to accumulate the saving of 1 per cent in the form of a sinking fund? Such a fund would in forty years extinguish the whole debt In considering this important matter it should be borne in mind that the ruling difference of interest, payable on gold and silver respectively, is not principally regulated, as my hon'ble friend has assumed, by the prospect of a change in the relative value of the precious metals That consideration may operate in some degree, but the greater part of the difference arises from other causes An Indian gold loan is, next to consols, the highest form of security known It is admirably adapted for the investments of trustees, who desire above all things to hand over the full amount entrusted to them on the expiry of their office Such investors naturally object to a silver loan, because the rate of interest obtained is to them of no importance compared with the absolute integrity of the principal Again, the banker who has to invest money deposited with him at call can find no more appropriate investment than an Indian gold loan If he requires his funds he can sell his stock at once with perfect ease and without any sacrifice This consideration is to him of far greater importance than the rate of interest obtained Thus by borrowing in gold we obtain our funds from that limited class of investors who are content with low interest for the sake of high security But when we borrow silver, although the capitalist is usually in England, he is commonly of a somewhat different class He is content to accept the risk of certain fluctuations in the value of his security, but he looks for higher interest I am satisfied that it should be the object of the Government of India to raise their loans in that form which is most acceptable to those investors who are willing to accept the lowest rate of interest for the sake of obtaining security that suits them Nor am I afraid, my Lord, of the logical conclusion of this argument I wish the Government would consider the desirability of converting their silver loans into gold loans, with the object of saving a crore per annum in interest If spread over the next ten years such in operation would enable the Government to reduce the amount of their Council Bills and would bring a larger flow of silver bullion into the country I can honestly say that in my opinion any private interest would be managed in this way My hon'ble friend has views of his own about the effects of the fluctuations of exchange Nothing will serve him except the fixity of exchange at its present point He is apparently as apprehensive as I am myself of the evil consequences of a rise in exchange, but, on the other hand, he seems to me needlessly afraid of a fall I cannot wonder that a Finance Minister should fear the disturbing effect upon his budget of a fall in exchange, but this need not alarm the country, if, as could be proved, the people gain far more than the Government loses The hon'ble member draws attention to the fact that the gold price of silver and the gold price of commodities have fallen in similar proportion He assumes a necessary connection between the two, but he does not attempt to distinguish which is the cause and which the effect Those who voted with him on the Currency Commission were very confident that the decline in the value of silver caused the fall in the value of commodities I do not understand that my hon'ble friend takes up this position, and I am therefore relieved from the necessity of attempting a refutation

"I heard with pleasure his loyal defence of his predecessor in office from the rash attacks of would-be reformers of our liquor laws The defence appeared to me absolutely satisfactory Mr Westland was well understood at the time to aim at an increase of revenue by the stricter enforcement of the claims of the excise, the natural consequence of which would have a restrictive effect on the consumption of ardent spirits

"The Hon'ble Finance Minister referred to complaints that Government does not place its reserve balances at the disposal of the Presidency Banks These complaints have as usual been put forward in the name of the public, but I know not with what authority To the best of my knowledge the complaints are not supported by the majority of those qualified to express an opinion For myself, I may say that it would be suicidal policy for Government to place at

the disposal of trade funds which it may at any time require at the shortest notice

"If these balances were available to the public, they would be absorbed by the Exchange Banks and used in the purchase of sterling bills The object of the Exchange Banks is naturally to make money When it suits them they will remit to England not only all their own funds but all they can raise by borrowing If Government, in consequence of any sudden call for funds in India, was obliged to stop drawing Council Bills, it might be impossible for the Exchange Banks to bring out funds soon enough to meet the requirements of trade, and a ruinous crisis must result The experience of 1886 should be sufficient warning The Exchange Banks in that year obtained large advances of Government money from the Presidency Banks which they remitted to England in the form of trade bills, and by declining to purchase the Secretary of State's bills in London caused a violent fall in exchange When the Presidency Banks stopped lending, the Exchange Banks were obliged to rush for the means of remittance to India, and exchange rose 10 per cent If the Government of India had required money at that moment for any special purpose, a panic and crisis would have been inevitable I am confident that public opinion will support Government in the determination to keep its balances in its own control

"I now venture to offer some remarks concerning the policy which should guide us in our construction of productive public works In the first place, it is obvious that, however much we appreciate the value of railways, our action must be guided rather by relative than positive considerations We must first make up our minds as to the capacity of the country to bear taxation before we can resolve upon expenditure An expected benefit from expenditure may not be commensurate with the injury done to the people by additional pressure of taxation On the other hand a narrow economy may be the worst policy, if the wants of the people are urgent, and if the condition of the country enables it to bear initial expenditure in the expectation of an adequate return The first position then which should be established is to lay down with as much accuracy as possible the economic condition of the people We hear a great deal about the poverty of India That the majority of the people are poor none will deny, but it is fair to enquire whether they are poor in comparison with their wants I believe they are not poor in this sense of the word I believe that the sensational story that fifty millions of people are insufficiently fed is absolute nonsense I believe that in comparison with the population there are more people in England than in India who find it difficult to procure the necessaries of life I find that all over the country wages are steadily advancing—much more rapidly than the cost of living I find that small agriculturists are prospering as they never did before Manufacturing industries are slowly but surely extending I find a proof of the prosperous condition of the people in the absorption of specie We are coining silver at the rate of ten crores annually, but it all finds its way to the interior in payment for produce, and never comes back again Then, if the country is more prosperous, is it more highly taxed than formerly? By no means The amount of revenue obtained from the people has increased in smaller proportion than the population Is it then true, as is constantly stated, that the extreme limit of taxation has been reached? I do not hesitate to state that such an allegation rests on no foundation whatever, but is either wilfully or ignorantly untrue The pressure of taxation on the people is lighter than it ever was before This is no reason for expending more money than is necessary It is no justification for extravagance, but it is for the advantage of the credit of the country that the truth should be known We are in a position which justifies our borrowing money for the development of our resources, provided always that in any expenditure we incur we are clear that we get value for our money I am glad to know that some advance is at last being made in the construction of railways by private enterprize without the guarantee of interest, and I trust the Government will do all in their power to foster it in every way But applying what I have said about the condition of the country, I would say that, if the Hon'ble Public Works Member has on hand any schemes for the extension of paying State Railways, I would

recommend Government to push them on at once with borrowed money, in perfect confidence that they will receive the support of public opinion

The interesting part of the Hon'ble Sir David Barbour's speech which dealt with our financial prospects in coming years will give food for satisfaction to the country We have now broken the back of the huge expenditure devoted to frontier railways and defensive works Our expenditure in Burma promises to decrease rapidly, and our ordinary revenue is rapidly increasing with the advancing prosperity of the people There is reason to hope that before long we may have to face the agreeable problem of choosing such form of remission of taxation as shall confer the greatest benefit on the country I am not going to weary the Council by repeating what I said last year on the comparative merits of various claims for remission But I must warn the Government that a reduction of the salt duty should not be the first object, as there are far more pressing claims The Secretary of State is understood to have said that he was sure the Government of India would take the first opportunity of reducing the salt duty to its old level I have no complaint to make of this dictum, provided it means that this remission shall come in its proper turn But I earnestly beg the Government to consult the wishes of the Indian people before they adopt the advice of some who unwarrantably speak in their name When the time for remission comes give us the opportunity to prove our case before an irrevocable decision is arrived at We ask nothing more "

His Honour THE LIEUTENANT GOVERNOR said —" I had not intended in any way to take part in this debate, but some remarks fell from my hon'ble friend Mr Evans on the subject of the administration of civil justice in Bengal which seem to call for a few observations on my part I rather wish to deprecate the idea which he has gathered from some paragraphs in the newspapers on the subject to the effect that there has been a serious triangular duel going on between the High Court, the Government of Bengal and the Government of India There had undoubtedly been a difference of opinion, but what happened in the particular case was this The hon'ble Judges of the High Court pointed out some time ago that the Munsifs as a body were very much overworked, and that the buildings in which many of them performed their functions were inadequately ventilated and insufficient in space, and finally, after some correspondence in the time of my predecessor, the Government of India asked the Judges of the High Court definitely what they wanted, and in reply they stated that they wanted an addition of sixty six Munsifs The Government of Bengal examined the question, and, admitting freely that a considerable increase in the number of Munsifs was wanted, requested the Government of India to appoint a commission to examine whether, by changes of jurisdiction or by any other method, such a very large increase, amounting to about 25 per cent, might not be avoided In making this recommendation I observed that if my recommendation was not accepted, that if something had to be done without such an enquiry, I would suggest a number something smaller than what the High Court proposed However, the Government of India did adopt my recommendation, they appointed a committee of enquiry, and pending the result of that enquiry they authorised a limited number of additional Munsifs to be appointed But the number so allowed was merely a temporary provision pending the result of the enquiry, and it does not, as I understand it, in any way determine what the ultimate increase of establishment should be The arrears, as my hon'ble friend observed, are still there the commission will not try cases and will not bring down the number, but they are not at present heavy, they do not amount to the number instituted in any single quarter, and I think that the result of a careful enquiry will probably be well worth both the money and the time it occupies I do not propose—however, because I have not the means to do so—to follow my hon'ble friend's remarks about the surplus, of receipts over expenditure under this head The question is one with which only those who have the finances of the whole empire in their hands can deal There is unquestionably a surplus in Bengal, though I am not by any means sure that there is a considerable surplus in the provincial part of the receipts But whether there is a surplus at all in the whole of India is a different question, and it was to this question

that the Hon'ble Mr Westland addressed himself in the discussion which took place in the Council last year

"I have only one other remark to make I understood the Hon'ble the Finance Member to say that with scarcely any exception the Local Governments had been able to pay their contributions to the imperial revenues on this occasion without any difficulty I can only say that in Bengal the contribution was given cheerfully, but certainly not without difficulty It was felt that it was an obligation to be met, but owing to circumstances which were for the most part temporary, and which landed us in heavy expenditure, we assuredly found it a matter of exceeding difficulty and inconvenience to make the contribution"

The Hon'ble MR HUTCHINS said —"With regard to the condition of the Civil Courts in Bengal, and the action of the Government of India in allowing, as a provisional measure, a smaller number of Munsifs than was asked for, His Honour the Lieutenant Governor has given the explanation which I intended to give I only wish to add, though I am unable to give the figures, that there are many indirect charges connected with civil justice which, if taken into consideration, would show that the State derives no real profit, or, if any, at all events a very slight profit, from litigation"

The Hon'ble SIR CHARLES ELLIOTT said—"My hon'ble friend Rájá Durga Charn Laha in his interesting speech gave just credit to the Government of India for a desire to reduce expenditure under all heads as much as possible, but he hinted that there were still some reductions which might be made in the Public Works Department I think it may be interesting as well as useful to the Council if I should, as briefly as possible, make a few remarks as to the nature of the expenditure in that Department, and how far we have been able in recent years to effect economies The expenditure in this Department is divided into three main divisions, namely, Railways, Canals, and Roads and Buildings, and the expenditure in each of these may again be divided laterally into the three heads of Working Expenses, Construction and Establishments With regard to railways the largest item in the expenditure of the Department is the working expenses of open lines and that is an expenditure which must necessarily increase as the number of open lines and their mileage increases and as new railways are made and worked The demand for new capital outlay on these lines is also an item which tends to grow in the most insidious way, but there is no branch of expenditure to which greater care and attention have been taken to keep it down Demands for new and ever new improvements and additions come up from all railways calling for increased allotments more vigorously than in any other branch of the Department I may mention here the name of a very distinguished adviser of the Government of India, who has just retired from Government service, Sir Guilford Molesworth who had a perfect passion for economy in this direction Many years ago he laid before Sir Evelyn Baring a proposal for closing the capital account of all railways when they had reached a certain degree of completeness, and recommended that all further expenditure connected with them should be charged to revenue and not to capital A few months ago I had a list of all the previous year's demands for expenditure on open lines classified and laid before Sir Guilford Molesworth, and I asked him whether there was any one item in it which ought not to be granted, and he said that it was not possible, with due regard to the maintenance of those railways and to the increase to their revenues which such improvements might be expected to bring in, to refuse in a single case the money which was required I mention this to show how vigilant we are in scrutinizing expenditure and how impossible it is to keep it down and at the same time to keep pace with necessary improvements

"The working expenses of canals are in the same class They must be kept up, and, as the number of miles of canals and their distributaries increase, the expenditure must increase But in all these cases there is a per contra in the revenue which comes in from them, and it would be found that except in a particularly bad year such as 1887 88 had been, for railway traffic, the growth of the revenue more than kept pace with the expenditure

"Again, with regard to the construction of new canals and railways, I would point out that in each of the last three years about 50 lakhs have been laid out on canals, and 50 lakhs is the sum budgetted for this year This amount is devoted partly to completing works under construction and mainly to three great canals One of these is the Periyar canal in the Madras Presidency The able Irrigation officers of Madras have urged—and they afford excellent evidence to show—that this canal will not only preserve the Madura district from famine and failure of water but will also bring a large return to the treasury Two other canals are in the Punjab and are intended to irrigate tracts to which special attention was drawn by the Famine Commission as requiring protection In both of these there is absolute certainty, as far as there be any human certainty and provision, that the water will bring in a large return and greatly increase the area under cultivation and give room for the expansion of the constantly growing Punjab population I am sure that what we are doing in the way of construction of canals fully meets the canon laid down by the Hon'ble Mr Steel I am not so sure that what we are doing in the way of construction of railways meets his canon In the present year we have provided 356 lakhs under this head Of this the larger part is devoted to carrying on and completing the works in hand and which could not be possibly stopped There are only two new railways which have been taken up within this year One is the Mu Valley Railway in Burma, an extremely important work which is required on military and administrative grounds in order to get access to a part of the country which now from want of roads and communications is difficult of access and without which the Chief Commissioner feels it would be impossible for him to undertake that we shall be able to hold our ground against outrages and disturbances The second is the famine railway in Madras, which runs parallel on the eastern side to the Madras Railway and opens access to a large tract of poor country in which in 1877-78 famine raged with extreme virulence, where the people were poor and the nature of the country makes it hard to make roads The Famine Commission urged the necessity of this railway, and both this Government and the Government of Madras have long had it under consideration, and have strongly recommended it as a most important work, and, I am glad to say, the Secretary of State has sanctioned its commencement during the present year

"There are in the list of projects no paying State Railways, and, with regard to what the Hon'ble Mr Steel said on this subject, the only thing I have to say is that we find ourselves limited by instructions received from the Secretary of State, that more cannot be spent than can be conveniently and properly raised by loans in this country The Finance Member has stated what this amount is, namely, for 2½ to 3 crores, and more than this cannot be raised in the course of the year for railway construction

"The third item of Public Works expenditure consists of the construction and maintenance of roads and railways, and appears in the Budget under the head of Imperial Civil Works There has been considerable reduction under this head during the last three years The allotment consisted in 1886 87 of 89 lakhs, the year after of 77 lakhs and the present year of 64 lakhs, that is to say, there has been 20 lakhs of reduction on expenditure Of the 64 lakhs 30 lakhs go to Burma, and that sum has been expended during the last three years That leaves only about 30 lakhs, and even of this 10 lakhs are allotted for expenditure in England, mainly on the furlough pay of officers This leaves a small and irreducible minimum of 20 lakhs for the whole of the territories which are not under the orders of any Provincial Government but are directly administered by the Government of India, together with the expenditure on the great departments of the post and telegraphs When you consider what we have to do in these two departments and the wants of Coorg, Rajputana, Hyderabad and Baluchistan, I think you will admit that the sum of 20 lakhs is exceedingly small and further reduction is not possible

"The fourth branch of expenditure is Establishments It is a very large item of expenditure, and it is very difficult to deal with The establishment necessarily has to come down in numbers as expenditure on public works is reduced The Government of India is doing all in its power to reduce the establishment,

and yet at the same time it is bound to do justice to the able and highly efficient officers who compose the higher branches of the department We have lately obtained the sanction of the Secretary of State to a large decrease in the annual recruitment of officers for the Public Works Department, and certain steps have been taken to induce officers to retire earlier than they need otherwise do in order to relieve the Government of the necessity of finding posts for them This is a subject which has given us a great deal of anxiety, and I can assure the Council that no pains have been spared to keep down expenditure under this head

"I think that with this explanation before them hon'ble members will agree that we are doing all that is possible to avoid any unnecessary expenditure in the Public Works Department"

The Hon'ble SIR DAVID BARBOUR said —"MY LORD, I need hardly say that the suggestions and criticisms on the Financial Statement which have been offered to day will receive the fullest attention on the part of the Finance Department, and I have no doubt they will be productive of valuable results

"It cannot be expected that there should be complete unanimity of opinion on all the difficult and complicated questions connected with Indian finance, but there is a greater degree of agreement than I had anticipated

"There are only a few matters in regard to which I think it necessary to make any remarks The Hon'ble Mr Evans has alluded to the alleged surplus from the administration of civil justice in Bengal My hon'ble friend did not profess to be very confident about the amount of this surplus, and I am afraid I am to some extent in the same position The calculation of the surplus or deficit is an extremely intricate one, and, though considerable attention has been paid to the subject, I am afraid the results are not perfectly trustworthy I understand that my hon ble friend would not include the receipts from the probate and administration duty or from the fees on succession certificates among the receipts of civil justice, and if so the surplus in Bengal would probably not exceed six lakhs of rupees yearly In Madras there is an equilibrium or nearly so, and in every other province there is a deficit In the Empire as a whole there is a deficit of considerable amount I will look into the figures again, and, if it should appear that some reliance can be placed on them, I will, with Your Excellency's permission, propose that they be published in the Gazette of India My hon ble friend has also called attention to the expediency of a reduction in the Home charges It may perhaps be useful if I briefly explain the nature of these charges The public are apt to look at their total amount, and to assume that these charges are capable of reduction merely because their amount is large Owing to the method of administration of this country a large number of bills are drawn by the Secretary of State for India which in the case of other countries would be drawn by private persons and would therefore escape observation A portion of the drawings of the Secretary of State is intended to meet the cost of stores required by the Government in India I see no way of reducing this charge unless somebody can be found who will supply stores for nothing, and that is a contingency which we need not consider A very large portion of the drawings represents the interest on capital invested in railways and other public works in India Some of that capital has been raised at a little over 3 per cent per annum, a large portion at 3½ per cent per annum, and another portion at 4 per cent, while the capital of the older Guaranteed Companies was raised at 5 per cent per annum On the whole the capital has been raised at a very moderate rate of interest, and India derives great benefit from the public works in which it has been invested I see no means of reducing this portion of the Home charges unless we are prepared to repudiate our obligations while retaining all the benefits for the sake of which they were incurred This is a course which, it is needless to say, my hon'ble friend would not recommend There remain the administrative and military charges, which speaking from memory, I would put at about £7,000,000 If my hon'ble friend or any other member of this Council can point out any way in which these charges can equitably be reduced, I shall feel it my duty to give him every support, and I am sure Your Excellency's Government will not fail to press the question with all the authority which the Government of India can command

"My hon'ble friend Syud Ameer Hossein has made a plea for some relief to the payers of income tax, and especially for those whose incomes are less than R1,000 per annum So far as regards the wealthier members of the community, I think the claim for relief is very weak I doubt if there is any other country where the taxation falls so lightly on such classes as it does in India I would ask my hon'ble friend to consider what taxation he and I and the other official members of Your Excellency's Council contribute towards the cost of the government of this country If h does I think he will be astonished at the moderation with which taxation is imposed in this country And the argument holds good in the case of the commercial and professional classes as well as in the case of the official classes I admit that there is more to be said for the exemption from the income tax of persons whose income is less than R1,000, but even in their case the plea for exemption appears to be by no means a strong one In the first place, as incomes rule in this country, an income of even R500 a year is not low relatively to the incomes of the vast majority of the people In the next place, the persons whose incomes are between R500 and R1 000 would pay little or nothing towards the expenses of the State if they did not pay the income tax And, last of all, we cannot do without the money, and I do not at this moment foresee the time at which we will be in a position to say that this class has the first claim to relief

"The Hon'ble Rájá Durga Charan Laha has referred to the contribution of 74 lakhs for next year from Local Governments and appears to hold that the resources of those Governments have thereby been crippled I do not know what foundation my hon'ble friend has for that statement I am happy to say that, even after making their contributions, the resources of the Local Governments of Bombay, Madras and Lower Burma are ample

"The Central Provinces and Assam make small contributions which do not press on them with any severity, and the only province which is in any way straitened is Bengal No doubt it has been found necessary to re impose the patwari cess in the North Western Provinces and Oudh , but, after all, that only amounts to replacing a burden which had been borne from time immemorial up to 1882 And the whole cess has not been re imposed The zamindars and raiyats of the provinces in question have been relieved to the extent of one third of the total amount required It is a fact that the taxation in Bengal is far lighter than in any other province of the Empire, and Madras, Bombay and the North Western Provinces and Oudh complain loudly—and I think with some justice—that Bengal escapes her fair share of the State burden In these circumstances, it is with some surprise that I have heard my hon'ble friend as a representative of Bengal complain of the burden of taxation and propose to abolish the income tax which is really the only means we have got of making the professional, the commercial and the official classes contribute anything worth mentioning to the expenses of the State My hon'ble friend apparently would contemplate with equanimity the remission of the rice duty in Bengal while retaining it in Burma I cannot believe that when he made that suggestion he was aware that Bengal is the most lightly taxed province of the Empire in proportion to population, and that Burma is the province which pays the highest rate of taxation My hon'ble friend has alluded to the increase of revenue by 16 crores in the last eight years, but he has not noticed, as I think he ought to have done, how much of that increase is due to traffic receipts on new railways and to the purchase by the State of lines formerly owned by Guaranteed Companies

"I am sorry to have to say that I do not agree with my hon'ble friend either as to the income-tax or the duty on salt The salt tax is a tax on a necessary of life and falls with almost the same weight on the rich and on the poor No doubt the salt-tax has its advantages in some respects it is easily collected, it is productive, and its incidence is spread over a wide area, but the lower the rate of duty can be kept the better from every point of view except the purely financial one

"I have already dwelt on the question of the income tax in replying to the remarks of the Hon'ble Syud Ameer Hossein, but I may add that it is with great regret that I have heard the Hon'ble Rajá Durga Charn Laha propose the

abolition of the income tax while retaining the salt duty I do not doubt that my hon'ble friend is thoroughly sincere in his opposition to the income-tax and that he considers it unsuited to this country, but the practical effect of his proposals would be to make the rich richer and the poor poorer, though the wealthy members of the community whom he proposes to relieve are those who gain most by the Government and contribute least to its support in proportion to their means

"I think it would be an injustice so gross as to amount to a scandal if the Government were to take off the income tax while retaining the salt-duty at its present figure

"The Hon'ble Mr Steel has made some remarks on the question of exchange, which show that he is under a misapprehension as to my views—a misapprehension due, I dare say, to my not having made my meaning sufficiently clear It is not the case, as my hon'ble friend supposes, that I would be satisfied with nothing but fixity of exchange at the present point, nor is it the case that I am as apprehensive as he appears to be regarding the evil effects of a rise in exchange I will quote again the words which I actually used at the last meeting of Council—

'In the interests of India a sudden reversion to the old ratio of 1 to 15½ brought about by the action of foreign countries and the continuous and progressive demonetisation of silver, accompanied by a fall in the value of the rupee to an unknown and unlimited extent, are alike to be deprecated

"I am afraid in the interests of India of a sudden and violent reversion to the old ratio of 1 to 15½ brought about by alterations in the currency laws of foreign nations, but I am not apprehensive as to the effects of a gradual and moderate rise in exchange So far from being apprehensive of the ill effects of any rise in exchange, I should welcome a rise of a penny or two in the value of the rupee during the coming year as an unmixed blessing, and I do not think that even my hon ble friend or the important class he represents would view such a change with either apprehension or regret I admit that I am afraid of the results of a further fall in the value of the rupee of unknown magnitude We have used up a great many of our resources during the last five years in meeting the fall in exchange, and, if I thought the fall was likely to be as great during the next five years as it has been during the last five, I should take a much more gloomy view of our position than that which I expressed in the Financial Statement

"For the reasons I have stated I am in favour of prudent, gradual and well-considered measures being taken to relieve us from our present difficulties and from the dangers of the future, and I am of opinion that the measures should be such as will secure the object aimed at with a minimum of disturbance to existing interests I know no means of achieving this result except by international agreement

"The Hon'ble Mr Steel has also expressed a strong opinion that to borrow in silver instead of in gold is a most wasteful and extravagant course He says that there can be but one reason for preferring the former course, and that is the prospect of such a decline in silver as shall deprive us of the benefit in interest I do not think that this is quite a fair statement of the case, and my hon'ble friend somewhat over states the advantages of borrowing in gold The difference in the rate of interest at the present moment is no doubt very great, but I think that difference will diminish, and my hon'ble friend does not seem to attach sufficient weight to the burden of having to repay the principal of the gold debt after a fall in the value of the rupee I freely admit, however, that an arithmetical calculation shows that the gain from borrowing in gold is sufficient to balance the loss from a very great fall in silver in the future—a fall so great that I sincerely trust we shall never witness it But I cannot admit that the question is merely one of arithmetic It is contrary to sound principle for a country to incur obligations in any standard other than its own—a principle which we have already violated to a greater extent than is either prudent or safe In recent years we have practically borrowed very largely in gold, and will do so in the coming year, by guaranteeing interest payable in gold on capital raised in England for the construction of railways During next year the Secretary of State proposes to raise no

less than £3,750,000 in London on this account And if a severe famine occurred, as it might at any time, I have no doubt that money would have to be borrowed largely, and that it must be borrowed in London

"The Government is incurring heavy expenditure on military preparations, and I understand that their policy has the support of my hon'ble friend There would be no justification for such expenditure if a great war were not at least a possibility of the future The money for a war of this nature could not be borrowed in India, and must come from England, and there is no doubt but that the amount required would be very great Looking then to the fact that we have already incurred heavy gold obligations, that we are at this moment borrowing largely in gold, that we may have to borrow still more largely in this way, and that we know nothing of the future relative value of gold and silver, I think it is only a matter of ordinary prudence that in a time of peace we should incur some loss in order to avoid adding to what is already a cause of embarrassment and might become a source of danger Both from a political and an economic point of view there are great advantages in raising money in India It will be in the recollection of this Council that some time ago we obtained a loan of 3½ crores of rupees from the Gwalior State The interest on that sum comes to fourteen lakhs of rupees yearly Every rupee of that amount is pure gain to India, there is no portion of the Indian expenditure which I contemplate with greater satisfaction, and, notwithstanding the criticism of my hon'ble friend, I should be very glad to hear that other States were prepared to lend on the same terms

"In this respect I am in entire agreement with the Hon'ble Durga Charn Laha as to the expediency of keeping down the Home charges"

His Excellency THE PRESIDENT said —

"It will not be necessary for me to occupy the time of the Council for many minutes, but there are one or two observations which I should like to offer before this discussion closes It has been an unusually short one, but the speeches which have been delivered afford an excellent illustration of the advantage to be derived by the Government of India, and by the public, from the practice of affording to the Legislative Council every opportunity of considering, reviewing and criticising the financial proposals of the Government The ultimate responsibility for such measures must no doubt remain with that Government, but that responsibility will certainly sit more lightly upon our shoulders if we know that our proposals have been framed in such a manner as to stand the test of examination and criticism by our colleagues at this table

"It has, I believe, usually been held that the terms of the Act by which our proceedings are governed preclude such examination except when the financial arrangements for the year involve legislation in Council I will not pause to inquire how far this view is borne out by the letter of the Indian Councils Act It has certainly been borne out by the persistent interpretation which has been placed upon the Act both here and by different Secretaries of State A case is, I understand, upon record in which a Viceroy drew upon himself the censure of the Secretary of State for having permitted a discussion of the Budget without the pretext that it was connected with one of the Bills brought before Council during the session The result has been that the Legislative Council has or has not been able to discuss the Budget according as it was or was not connected with some change in the laws of the country, and it has thus come to pass that during the last twenty five years the Budget has been discussed in Council upon twelve occasions, while in the remaining years no such discussion has been allowed to take place

"This seems to me, I must say, an altogether incongruous and inconvenient arrangement, and I feel little doubt that, as far as the present year is concerned, hon'ble members will share the opinion of my hon'ble friend and will approve of our action in taking advantage of the passage of the Bill which we are now considering, and which to some extent touches the fringe of our financial arrangements, in order to lay before Council the whole of our scheme for the financial administration of the coming year This course is one which entirely

commends itself to my judgment, and I am glad to express publicly my opinion that the opportunities accorded to the Legislative Council for passing under review the financial situation of the country should occur with regularity, and should not depend, as they depend at present, upon what is after all a mere accident—I mean the necessity of financial legislation in any particular year.

"Hon'ble members are no doubt aware that this question has been for a long time under the consideration of the Government of India, and that the view which I have just expressed was strongly entertained by my predecessor, who felt it to be his duty to make a representation upon the subject to the Secretary of State Since my arrival in this country I have followed the matter up with the entire concurrence of my hon'ble colleagues in the Government of India, and I am glad to say that Lord Cross has given his cordial adhesion to the proposition which I have just advanced

"The arguments in its favour appear to me, I must say, conclusive, and they are supported by a great weight of authority, including, I believe, that of all the principal Chambers of Commerce of India

"I remember being much impressed at the time by an observation from my hon'ble friend Mr Steel on the introduction of the Bill now before us If the imposition of a new tax is a matter worthy of discussion at this table it is, I think, quite true that, as he observed, the remission of an old tax is equally worthy of such discussion I can conceive no pretext upon which it could be held that in one case discussion is desirable, and in the other inconvenient or unnecessary It seems, indeed, to me that if a distinction is to be drawn, if the criterion is to be the public importance of the step, the remission of an old tax may often require more careful discussion than the imposition of a new one The imposition of a new tax is pretty sure not to be resorted to without sufficient consideration The measure is bound to be unpopular with some one It is sure to provoke criticism, and it will certainly be narrowly scrutinised both by those who impose the tax and by those upon whom it is imposed The abandonment of an old tax is, however, a very different thing The Exchequer may be overflowing at the time the remission is agreeable, both to those who make it and to those who profit by it the temptation to be liberal, to spend the money while you have got it, is strong every one is pleased and it thus comes to pass that by a stroke of the pen a permanent source of income is lost or alienated, without that consideration to which a step so momentous is entitled

"Even, however, if the Budget involves neither the imposition of taxation nor its remission, but merely the retention of existing taxes, it does not appear to me that we are therefore relieved from the duty of taking Council into our confidence The proposal to retain an existing tax may, under certain circumstances, be as fairly open to question as the proposal to remit taxation or to impose it Every Budget involves proposals falling under one or other of these three heads, and the conclusion appears to me to be irresistible that it is for the public convenience that, under whichever category the proposals contained in the Budget of any given year may happen to fall, those proposals should be submitted for your examination here

"Another consideration leads me to the same conclusion Financial criticism, if it is to be valuable, should be as continuous as the financial policy which it criticises The financial history of a country is uninterrupted, so should be the watchfulness of those who are entrusted with the duty of passing it under review It seems to me almost an absurdity that it should depend upon the mere accident of the introduction of a Bill whether that review should take place or not Such a review should extend not only to the past and to the present, but to the future, with its prospects and possibilities Perhaps no advice is more valuable than that which has reference to the remoter future The income and expenditure of the past year are beyond recall, and at the time when the Budget is framed it would be extremely difficult for the Government to recede from the arrangements which it has made for the year which is just about to commence In regard, however, to the years which lie beyond, the Government of India is not committed

to the same extent and is still in the position to profit by useful suggestion and advice I welcome in this spirit that which has been given to us by the hon'ble members who have placed upon record their opinion as to the course which should be adopted in the event of our being hereafter in a position to remit taxation I trust that they are right in anticipating that we may, before we are much older, find it to be our agreeable duty to consider what burdens we can remove from the shoulders of Her Majesty's subjects in this part of the Empire, and I can promise them that, should the Government of India, while I have the honour of being connected with it, find itself in the happy position of being able to dispense favours, we shall be careful to do so with the utmost circumspection and with a due regard to the arguments which they have advanced

"I mentioned just now that the Secretary of State had expressed his concurrence in the proposal that there should be an annual, instead of an occasional, discussion of the Budget in Council I may perhaps take this opportunity of mentioning that this subject appears to the Government of India as well as to the Secretary of State to be closely connected with another—I mean the propriety of giving to members of the Legislative Council of the Government of India, under proper safeguards, the right of addressing questions to the Government upon matters of public interest I am in a position to state that we are in favour of a change in this direction, and that this question is also engaging our attention and that of the Secretary of State I make this announcement, however, subject to two important qualifications It will, in the first place, be necessary to ascertain clearly whether the law, as it now stands, permits the course which we should like to adopt, and, if it does not, how it should be amended In the next place, it will be necessary effectually to limit the right of interpellation in such a manner as to preclude absolutely all questions which could not be put without injury to the public interest This is a point of the utmost importance, and will require the most careful examination

"The case of the Bill before us shows how much easier it is to surrender a source of income than to get it back again The evidence adduced has demonstrated that the remission of the patwari cess failed to have the effects anticipated from it, while it involved the sacrifice of a large annual revenue We have now to be content if we can recover for the public a part of the resources which we then abandoned We shall also, I am afraid, be compelled to admit that, to some extent at all events, it may prove beyond our powers to distribute the incidence of the re-imposed burden between landlords and tenants with absolute fairness It is difficult to disprove the statement that the new law may involve a certain degree of apparent hardship to those tenants who obtained no benefit from the remission of 1888, and who, having, upon that occasion, failed to obtain any relief from the taxation to which they were then liable, may now find that under this Bill a new burden is imposed upon them We may, however, I think, take for granted two facts,—first, that any attempt to deal exceptionally with these apparently hard cases will involve the creation of a much greater number of much harder cases I have little doubt that, as was stated in 1884 by Sir Alfred Lyall, 'it is impossible to resolve existing rents into their original component parts and to lay down what portion of them represents the old patwari cess', and I am also afraid that any attempt to exempt tenants with occupancy rights from the new impost would involve the infliction of what would certainly be regarded as a grievous wrong upon the tenants-at-will, whom we could not protect and who occupy nearly one-half of the total area of these provinces In the next place, it seems to me that considering the smallness of the rate for which the tenant is liable to be called upon,—a rate which cannot exceed, speaking in round numbers, one per cent upon the annual rent of his holding,—considering also the fact that the tenants as a body have a large interest in the effectual performance of the services rendered by the patwari, the grievance, if indeed it be one, is of infinitesimally small proportions

"I will say one or two words only as to the Financial Statement of my hon'ble friend and the observations which have been made upon it That statement appears to be one which we can contemplate, if not with positive

satisfaction, certainly with the feeling that much worse things might have befallen us During the course of last summer my hon'ble friend and I were in constant personal communication with the Secretary of State and with other persons regarded as high authorities upon Indian questions I think that at that time we should all of us have been extremely gratified if there had been reason to anticipate that my hon'ble friend would be able to show so satisfactory a condition of things either in respect of his anticipations for the Budget of next year, or in regard to the accounts of the year which is about to close

"That he should have been able to do this is partly due to circumstances which we can regard with unmixed satisfaction The downward course of the gold value of silver has for the moment been arrested, and the elasticity shewn by the ordinary sources of revenue has, upon the whole, been satisfactory On the other hand, I feel bound to express my regret that we should have found it impossible to establish a financial equilibrium for 1889 90 without again calling upon the Provincial Governments to contribute towards our necessities from the balances at their disposal No one, whether an individual or a corporation, particularly enjoys treatment such as that which the Provincial Governments have lately experienced at our hands It is treatment which I have heard described in terms which lost nothing of their severity from the fact that they were usually couched in allegorical language The Council is well aware that it was the intention of the Government of India to achieve its purpose by a more ingeniously contrived and more plausible procedure than that which we actually adopted The scheme for the assessment of the provincial contributions embodied in the well-known Circular of October 2nd of last year is within the recollection of hon'ble members When I arrived in India that scheme still held the field, and representatives of the principal Provincial Governments had been invited to meet the predecessor of my hon'ble friend in this city and to confer with him in regard to the proposals therein contained The conference took place, and it disclosed two most important facts The first of these was that the Hon'ble Mr Westland, after full discussion with the provincial delegates, came to the conclusion that some of the proposals, and amongst them those which had been regarded as the most important and essential features of the project, ought not to be insisted upon We became aware in the next place that the representatives of the provinces very much preferred the simple and unscientific methods which my hon'ble friend has adopted to the more elaborate and ingenious procedure by which the Government of India had designed to place the provinces under contribution Under these circumstances one course only was open to us My hon'ble friend had but lately assumed the duties of his important office I had myself only been a few weeks in the country, and we were, under the circumstances, both of us entitled to ask that any attempt to dispose finally of this important question should be, for the present, deferred It seems to me that under these circumstances my hon'ble friend was amply justified in abandoning the procedure originally contemplated, and in giving up for the moment any attempt at a scientific re adjustment of the basis of these provincial contributions and in resorting to an *ad interim* arrangement which would give him the ways and means which he required, but which would leave the much larger questions at issue still open for further review I will add nothing to this part of my observations unless it be to express, with reference to the remarks which have just fallen from my hon'ble friend the Lieutenant-Governor, my sympathy with the Provincial Governments which have been called upon to submit to these sacrifices for the sake of the Imperial Exchequer The balances upon which we have indented may in some cases have been due to the natural growth of the revenue, in others they may have been the result of careful and economical administration and of the wise husbanding of resources in view of the necessity of large expenditure on local objects of a useful character The sacrifices which the provinces have been called upon to make have no doubt involved in some cases the abandonment of cherished schemes of local improvements, and we cannot expect the Governments concerned to submit to such a sacrifice without a murmur. We can

only assure them that if the concession was disagreeable to them it was not less disagreeable to us to require it, and that we have asked them to submit to it upon a principle the soundness of which they will not dispute—I mean the principle that the solvency of the Indian Empire is a matter of interest to every part of it, that the finances of India must be dealt with as a whole, and that the relations of the Central and Provincial Governments should be such as to place upon the latter the obligation of sharing to the full the financial responsibilities and difficulties of the Empire

"We are, however, I think, bound to ask ourselves whether it would have been possible for us to avoid these demands on the provinces or to remit any of the taxation which has recently been imposed by a retrenchment of our expenditure I yield to no one in my conviction that watchfulness over our expenditure lies at the bottom of sound finance in this country, and I agree with what fell just now from the Hon'ble Rája Durga Charn Laha when he dwelt upon the urgent necessity for exercising such watchfulness But, although I look forward to the time when it may become possible to keep that expenditure within narrower limits than those within which it is at present confined, I am bound to say that it is not easy to point to any items in the estimate for next year in which an unreasonable demand has been made by the responsible Department

"My hon'ble friend has dealt fully with the question of army expenditure These estimates show no doubt a large excess over the estimate for the year which is just ending I have had frequent communications with the hon'ble member in charge of the Military Department upon this subject, and I am bound to admit not only that its requirements do not appear to me to be extravagant, but that it has had, in deference to our necessities, to abandon more than one useful project which it might otherwise have pressed upon us

"We must not allow ourselves to lose sight of the fact that since 1885 the number of troops in India has been increased by 30,000, and that the presence of so large an additional force in the country involves not only an increase under the head of pay but a large consequential expenditure under the head of barrack accommodation and other items

"Then, again, we have an increased expenditure of £206,000 in England for new rifles and guns—an exceptional expenditure incurred for an object absolutely essential to the efficiency of the different arms of the service We have besides a sum of 20 lakhs for the mobilization of our forces—an expenditure which I hope we shall none of us grudge, but which is also an unusual one There is besides a very appreciable increase of expense occasioned by the higher prices which we have lately been called upon to pay for provisions and forage A small extra vote has also been taken for the two sets of military operations at this moment in progress This expenditure is also exceptional in character, although I am afraid that with our extended frontier we cannot allow ourselves to look forward in the immediate future to a time when such expeditions will become unnecessary

"I would make one general observation upon this question of military expenditure I trust that we may be far remote from the time when it may become our duty to make use of our military resources in actual warfare, but it is idle to conceal from ourselves that we may be called upon to do this, and that the call may be a very sudden one It seems to me that a solemn obligation lies upon us to see that the defences of this part of the Empire are maintained in a state of the highest efficiency The recent tension and uneasiness which have prevailed upon the western frontier of Afghanistan afford a good illustration of the risks to which the public peace is exposed in that part of the world I rejoice to be able to state that all the information in my possession is to the effect that nothing has been further from the thoughts of His Highness the Amir of Afghanistan than to provoke a collision, and that the measures recently taken by the Government of Russia were prompted not by any desire to court one but rather by the apprehension that the presence of the Ruler of Afghanistan on the frontier might lead to an outbreak of a kind which, even in the absence of any desire

to foment mischief, arises too readily amidst the inflammable materials which are to be found in that part of the Asiatic Continent That tension has, however, served to illustrate the precarious nature of the conditions upon which peace in this part of our borders depends, it is our duty under such conditions to maintain a high state of preparedness, and I trust that we shall not cease to do so, and that we shall not regard with too much reluctance the sacrifices entailed by such a policy

"Great Britain is at this moment submitting to such sacrifices, upon a scale by the side of which what we are doing sinks into insignificance, with the object of strengthening herself to the point required by the huge armaments and vast hosts accumulated by foreign Powers It seems to me that India may fairly submit to bear some share of the sacrifices thus imposed upon the Empire The least that we can do here is to carry out promptly and effectually the defensive measures which the Government of India has already sanctioned Nothing is more calculated to produce a mischievous and mistaken impression than any apparent breach in the continuity of our military policy I am glad to learn that the defences of our north west frontier are making satisfactory progress, and are approaching completion, that out of a total estimated expenditure of Rx thirteen and a half millions assigned to frontier railroads, Rx eleven and a quarter millions will have been covered by the end of the next financial year, and that we shall by that time also have paid for three out of five and a half millions of expenditure assigned to coast and frontier defences In these matters a consistent policy and the rapid and uninterrupted execution of works, when once they have been determined upon, will, I am convinced, be found in the end to be the most economical course, and I was glad to hear my hon'ble friend Mr Steel state as explicitly as he did that we might rely upon the support of public opinion in adopting that course

"If this is the opinion of my hon'ble colleagues, they will, I hope, agree with us in believing that, under the circumstances which have been so clearly set forth by the Hon'ble Sir David Barbour, we were justified in not proposing to the Council any important changes in the taxation of the country and taking measures to secure for the coming year the small additional amount of revenue required in order to raise our income to the level of our expenditure

"We may, I think, dwell with satisfaction upon a well-maintained increase in our land revenue and in our receipts from Railways, Post Offices and Telegraphs—an increase which is likely to be sustained in years to come Let me, in connection with this question of the increase of our revenue, express the satisfaction with which I listened to Sir David Barbour's effectual vindication of the Government of India and of the Provincial Governments from the charge which has been made against them that they have, in order to increase their receipts from Excise, stimulated the consumption of intoxicating liquors and connived at the spread of intemperate habits I have paid some attention to this important question, which has recently been under the earnest consideration of the Financial Department and of His Honour the Lieutenant Governor of this province The evidence which has been laid before me has entirely satisfied me upon three points—

(1) that an increase in revenue from Excise does not necessarily justify the inference that there has been an increase in the consumption of liquor, it has, on the contrary, in many cases been conclusively shewn that an increased revenue has been received upon a diminished consumption

(2) that it is idle to expect that the Government of India should be able to invent or to put into force an uniform system of Excise administration suitable to the requirements of all parts of the country, and

(3) that if during recent years there has been in some districts an unusual amount of illicit traffic, of loss of revenue and of intemperance, these have been in great measure due to the mistaken assumption that an uniform system was practicable, and to the sudden oscillations of Excise policy occasioned by this belief

"I wish, before I leave off, to add one word with regard to our prospects in Upper Burma These are, I think, such as to give us every reason for dwelling hopefully upon the future of that country My hon'ble friend has pointed out that the estimate for the net charge under this head for 1889 90 is less by 25 lakhs than that for the year which is just ending This has been the case in spite of a heavy additional expense for the new railway and for the police which we are employing in lieu of regular troops. The cost of the new province is still, however, largely in excess of the return which we obtain from it This is a condition of things which will, I have little doubt, within a brief space of time, have entirely passed away In some districts no doubt the inhabitants are still addicted to their old lawless pursuits, nor is it likely that they will suddenly relinquish those habits merely because their country is becoming incorporated in the British Empire Our difficulties are greatly increased by the fact that on three sides Burma is coterminous with zones of frontier territory inhabited by tribes subject to no fixed system of government and accustomed from time immemorial to warlike and predatory habits We are I believe slowly, but surely, wearing down the opposition of these, it can be best overcome not by expensive military operations but by the persistent punishment of evil doers, by the establishment of improved communications by road and rail, and above all by affording to the people of Burma practical evidence of the immense material advantages which are to be derived from British rule The completion of the railway to Mandalay is a most important step in this direction, and I am glad to observe that a sum is provided in the estimates for next year for the purpose of prolonging that railway in the direction of Mogoung I may mention in this connection that I have lately received from the Chief Commissioner most reassuring reports as to the general improvement of the country I learn from him that crime in the Upper Province is steadily diminishing, that the people are returning to their villages, and that the country is well cultivated The excitement occasioned by the recent outbreaks during the cold weather appears to be passing off and the police are gaining ground rapidly In many of the districts in which serious disturbances had taken place the country is now described as perfectly quiet In the Shan States too there is a marked improvement Perhaps the surest indication of the general progress that is being made is to be found in the steady increase of the revenue This rose from 22 lakhs in 1886 87 to 50 lakhs in 1887 88, and is estimated to bring in 68 lakhs in the current year and nearly 76 lakhs in the year which is about to commence The increase of the land revenue, which is virtually a tax upon each household and which has risen from 16 lakhs in 1886-87 to about 41 lakhs in the present year,—the estimate for the new year being nearly 45 lakhs,—may be regarded with special satisfaction, every increase of ten rupees in this tax meaning, as the Chief Commissioner has pointed out to me, that a household has settled down to peaceful pursuits, or that a household which had escaped assessment, owing to the revenue officers having been occupied in suppressing disturbances, has now been assessed

"I venture to submit that it is our duty to fix our attention upon the general improvement denoted by the facts and figures which have been given to us by my hon'ble friend and by the Chief Commissioner, rather than upon isolated outbreaks or small local effervescences These are to be expected, but their significance is not great, and I think the Chief Commissioner may well be congratulated upon the courage which he has displayed, and upon the success which has attended him in the performance of one of the most difficult tasks which a servant of the Government of India has ever been called upon to perform

"As for the financial position of India, it is, I have no doubt, as Sir David Barbour has pointed out, in the main a sound one, although at the present moment, for reasons which he has given, our resources are subjected to an unusual strain Under these circumstances the proposals of the hon'ble member are, I think, those which best meet the requirements of the moment We may be well content if, in spite of the heavy loss by exchange to which he refers, and of the fact that we are providing out of income for special defences to the value of Rx 1,162,000, we are able to anticipate a small surplus for the coming year For what lies beyond we must wait upon events, but we may, I think, do so in

the hopeful spirit which characterized his statement If we are able to avoid needless and unprofitable additions to the indebtedness of the country, if we can bring to account its vast latent resources by the judicious investment of capital in their development, if we are able to achieve these results without throwing forward upon those who will come after us the burden of outlay properly chargeable to the revenues of our own time, we need not despair of the future"

The Motion was put and agreed to

PORTS BILL

The Hon'ble SIR DAVID BARBOUR moved that the Report of the Select Committee on the Bill to consolidate and amend the law relating to Ports and Port charges be taken into consideration He said —

"When introducing this Bill on 1st February, I explained that it was introduced mainly with the object of consolidating the existing law, and partly with the object of making certain amendments in that law I also explained that a draft had been circulated to the Maritime Governments and considered by them and the other local authorities

"As the Bill was mainly intended to consolidate the law and as a draft had been already circulated to the Maritime Governments and the Bill prepared after consideration of what the Maritime Governments and their advisers had to say, the task of the Select Committee has proved comparatively light, and no alterations of any great importance are recommended It will be sufficient if I call attention to the more important of the changes proposed

"In the Bill as originally introduced 'owner' was defined as including an 'agent', but as it was represented that in India the ship's agent was merely an agent for very limited purposes, and could not fairly be held to be liable in connection with the ship in the same way as the owner would be liable, the Select Committee decided to omit the definition

"The Select Committee has recommended that power should be given to Local Governments to make rules for regulating the action to be taken by the master of a vessel when there is sickness or disease on board his vessel, and for dealing with dead bodies, and has provided that all rules made by a Local Government under section 6 of the Bill shall be made after previous publication, as provided in the General Clauses Act of 1887 The latter provision will enable persons who are likely to be affected by proposed rules to make known their wishes or objections before the rules are made

"In introducing the Bill I called attention to the provision whereby a certain liability for the acts of persons employed by them was imposed on contractors who undertook to remove ballast or rubbish The case which gave rise to the proposed amendment of the law arose in Calcutta, but the persons who are chiefly interested in the matter in Calcutta, namely, the Chamber of Commerce and the Port Commissioners, are strongly opposed to the amendment, and in deference to their wishes the proposal has been dropped

"The Port Trustees at Bombay have put forward a proposal for relaxing, in certain cases, the provisions of section 31 of the Bill regarding compulsory pilotage It is not understood that the Trustees wish to make any immediate change as regards the compulsory nature of pilotage in the Port of Bombay, and as the difficulties brought to notice can be overcome by applying the provisions of section 4, sub section (*f*), clause (*c*), or by the licensing of certain masters as pilots, the Select Committee does not recommend any alteration

"It has been brought to the notice of the Select Committee that difficulties have arisen regarding the distribution and expenditure of port dues in ports which have been grouped by the existing Act, or under powers conferred by that Act It did not seem possible to lay down one system for all such groups, and accordingly the Committee has provided in section 37 of the Bill as amended that the Local Government, with the previous sanction of the Governor General in Council, may make rules in such cases with respect to the expenditure of the fur for the benefit of the several ports, and also that the Local Government sha give effect to any directions of the Governor General in Council on the subject It is quite possible that some of these provisions may never be acted upon, but in case of need they supply a means whereby disputes as to expenditure in connection with groups of ports can be satisfactorily settled

"The port of Madras has been entirely separated from the eastern group of ports in that presidency, and the scale of fees proposed by the Madras Chamber of Commerce and the Harbour Trust Board, as amended by the Local Government, was accepted by the Select Committee The Madras Government has since agreed to reduce the maximum port-due from six annas to four annas a ton, and effect will be given to this decision by an amendment which I propose to move hereafter"

The Hon'ble MR STEEL said —"The hon'ble member in charge of the Bill has explained the Report of the Select Committee, but, as I had occasion to make some observations upon this Bill at a previous meeting of the Council, I desire to offer a short explanation The object of this Bill is to consolidate the laws relating to ports and port dues, and the few changes proposed are improvements suggested by experience It will, I think, be generally acknowledged that no part of the duty of administration in India has been better performed than the management of the larger ports by trustees under the control of the Local Governments But a very different opinion has prevailed amongst traders and ship owners with regard to the management of certain groups of ports in the Madras Presidency It has been said that no proper accounts have been kept, that the port-dues have not been properly divided between the various ports in each group, it has been said that large accumulations of funds stand at the credit of these ports, and that it has been impossible to induce the Government to spend money upon any suggested improvements Under these circumstances the introduction of this Bill appeared a fitting opportunity to make such provision in the law as shall provide the proper remedy The Select Committee endeavoured to investigate this matter, but unfortunately it could not obtain all the materials which were necessary for the purpose As the Hon'ble Mr Hutchins had told the Council on a previous occasion, the Madras Government discovered in the year 1887 that the accounts were not made up in accordance with the law, In August, 1887, they issued orders that the accounts should be re written up for the previous ten years, and also that a scheme should be prepared proposing a mode of dividing the accumulated funds for the benefit of the ports Those accounts and that scheme are not yet forthcoming The Committee were therefore unable to arrive at any conclusion upon the complaints For my own part I think there is little doubt that the complaints were not altogether without justification, but my hon'ble friend Sir David Barbour has convinced me that if this Bill passes into law any future complaints will be rather against the executive than against the legislature The Committee has inserted a useful provision to which the hon'ble member alluded reserving to the Government of India power to direct in what manner these funds are to be divided amongst the different ports in each group With this provision it appears to me that in future complaints on the part of traders or ship owners are sure to receive proper attention I therefore think that the present Bill may be accepted in discharge of that responsibility which attaches to the legislature"

The Motion was put and agreed to

The Hon'ble SIR DAVID BARBOUR also moved that "four annas" be substituted for "six annas" in clause (*a*) and clause (*b*) against the Port of Madras (*Foreign Vessels*) in Part II of the First Schedule to the Bill

The Motion was put and agreed to

The Hon'ble SIR DAVID BARBOUR also moved that the Bill, as amended, be passed

The Motion was put and agreed to

The Council adjourned *sine die*

S HARVEY JAMES,
Secretary to the Govt of India,
Legislative Department

FORT WILLIAM,
